

Chapter 106

This was what Justin instructed her to do: log into his cloud storage and specifically download these few photos.

Justin wanted Lindsay to see the exposed photos after the variety show ended, hoping to evoke their beautiful memories together.

Oliver then gathered some other photos and had the team release them as well.

Soon, headlines like "Justin the Movie Star's Romance," "More Than Just Childhood Friends," and "Justin and Lindsay's Romance Exposed" quickly climbed the trending topics, pushing down the previously exposed paparazzi headlines.

Oliver then paid to have those suppressed hot topics removed.

As expected, this scandal caused a stir across the entire internet. Especially for Justin's fans, who were on the verge of exploding.

They simply couldn't accept their idol's romantic relationship and rushed to Linda's Instagram to seek confirmation.

Many others, however, were not surprised by the exposed relationship, as there had long been suspicions that the two were childhood sweethearts.

But while they used to seem like a couple, their recent behavior on the variety show suggested otherwise, more like they had fallen out.

Linda did not respond directly.

She posted a message stating that Justin would address the matter after the variety show concluded.

From the beginning, she had never supported Justin and Lindsay's relationship.

Unable to stop it in the past, she at least refused to let their romance become public.

Because of this, she had always disliked Lindsay, believing that she clung to Justin to seek opportunities in the entertainment industry.

Lindsay was aware of Linda's attitude, which was why she refused Justin's offer to have Linda as her manager.

Disliking Lindsay was one thing but being rejected by her made Linda dislike her even more.

Now, she thought Justin must have lost his mind to agree to reveal his relationship with Lindsay just to help Olivia. Linda was also unaware that Justin and Lindsay had already broken up.

She kept thinking about how, after the relationship was exposed, Lindsay might cling to Justin even more, draining him.

She was truly fed up with Lindsay.

That night was destined to be anything but calm.

The next morning, many people woke up to find the series of revelations had exploded.

Lindsay's fame had spread to the point where nearly everyone online

knew about her.

The buzz was off the charts.

As a result, when the variety show live broadcast resumed the next morning, the number of viewers skyrocketed again, even breaking historical records.

Charles hadn't anticipated that last night's surprise live broadcast would not only expose the relationship between Lindsay and Alex but also reveal Justin and Lindsay's romance online.

Seeing that the trending topics about Lindsay and the Harper siblings had disappeared, replaced by the sudden revelation of the romance, he suspected that this was the work of the Harper brothers.

He disdained their actions, thinking their bias towards Olivia had gone too far.

To divert attention and protect their adopted sister, they exposed their biological sister's relationship.

The key point was that the other protagonist in the romance was a popular film star with a huge following.

This was clearly a trap for Lindsay.

He opened the trending topics and saw that the comments were overwhelmingly negative towards Lindsay.

Justin's fans were degrading Lindsay, refusing to accept their relationship. They labeled her as manipulative, a gold digger, and a leech, accusing her of clinging to their idol under the guise of being

childhood sweethearts.

Many of Lindsay's fans also couldn't accept the relationship.

They preferred Lindsay to shine on her own or at least not be associated with the movie star.

Ever since the beginning, Justin's fans had been relentlessly criticizing and attacking Lindsay, and they couldn't tolerate this any longer.

They were eager to see Lindsay's reaction once she discovered that their relationship had been exposed.
