Reborn as the Dragon King's Son-In-Law

Chapter 31: Be Mine! - R18

’Didn’t you say that I can choose one of the three abilities? Why did you add something like a bloodline?’

[This is just a random choice given by the system. Because you have luck far above the average human, you have the option to choose a God’s Bloodline.]

Even though the system’s explanation didn’t make sense to me, I decided to accept it happily. My only goal right now is to obtain God’s Bloodline and become stronger with all my efforts. By obtaining God’s Bloodline, I will have more chances to reach the Dragon King stage.

The young master of the Vermillion Family will sooner or later be defeated by me with my own hands. Now that I have God’s Bloodline in my hands, if I still cannot defeat my rival, I will have no face to meet the God King Velvet.

[Ding! Successfully cultivated God’s Bloodline into the host’s bloodline.]

[Current progress of God’s Bloodline: 0.0001%.]

"Ah?! Lucien, what happened to you? Why did your thing suddenly become bigger than before?!" Elize’s face once again showed surprise. She, who had previously felt my large cock inside her pussy, reacted even more strongly. However, Elize did not expect that I would still have the stamina to continue our sexual relationship.

For some reason, my expression turned pale. Elize’s current expression looked seductive. Even though I had regained my stamina like before, I still couldn’t forget the scene where Elize sucked all my sperm out of my cock.

Obtaining God’s Bloodline was one of the reasons why I now had stamina far beyond what I previously possessed. After obtaining God’s Bloodline and spreading it throughout my blood vessels, I felt my strength become much greater than before.

The progress of God’s Bloodline that I had obtained was only around 0.0001%. However, even at only 0.0001%, it was enough for a human like me to gain the physical strength of a god.

Elize's body moved up and down once again. As a man, I simply didn't have enough strength to resist Elize's desire to dominate me.

Every movement made by Elize caused me to completely surrender and submit at her feet. However, I didn't really mind Elize's actions in trying to dominate me. On the contrary, I was amazed by Elize's adaptability, as she was able to quickly learn every sexual movement while we were having sex together.

The innocent attitude Elize previously had during sex with me started to disappear and improved far beyond what I had taught her. Moreover, her strength had also increased shortly after I released my semen into her womb. However, one of the abilities of the Velvet Prostitute Physique could also increase the strength of their partner and allow them to break through their cultivation limits.

Previously, I didn't know that the Velvet Prostitute Physique could help their partners become stronger. Luckily, Elize was the first woman I had sex with after entering the initial path to reach the top of this world. Therefore, I am very happy that Elize will sooner or later be able to reach the Dragon Emperor stage.

Both of my palms were now held by Elize's hands. Our hands were intertwined, holding each other tightly. With myself beneath Elize, I could see every inch of her charming and beautiful body.

Elize's previously lustful eyes began to reveal heart-shaped pupils. Likewise, I could no longer hold back my common sense. Without paying attention to Elize's passionate reaction, I immediately kissed her with all my desire.

An endless feeling of happiness swept through Elize's heart. Some memories of Elize and Athena talking together in the past flooded her mind. For some reason, gratitude began to well up within her.

Athena's offer to take Lucien as her disciple was one of the reasons why Elize was able to overcome her limitations as a dragon at the Great Dragon King stage and would soon reach the Dragon Emperor stage. It was the greatest luck of Elize's life to be able to reach the Dragon Emperor stage in such a short time.

Elize's feelings for her disciple had risen to a level where she could no longer be separated from him for the rest of her life. For Elize, the disciple in her arms was the only disciple she loved the most and would never leave.

Elize's sudden hug around me tightened, causing me to feel a little pain. When I tried to look at Elize's face, I could only reveal an awkward expression at the beautiful look she showed me.

Elize’s beautiful and gentle smile made me want to regain my composure. Both Elize and I still held the status of master and disciple. Therefore, I had to remain polite when I was alone with her.

"I love you... Lucien... Ah..."

"Me too. I love you, Lize."

Slurp—

Elize and I resumed our kiss. This evening was different from the evenings we usually spent cleaning ourselves. Instead, it was an evening filled with memories and affection between master and disciple.

[Detected that the host’s feelings for the Frost Empress are genuine! The Frost Empress has been added as one of the host’s women.]

[Lucien’s Relationship:]

[1. Elize Kurt Darmica [Click to see more information about this individual.]]

Unfortunately, I didn’t pay any attention to the notification from the system that suddenly appeared before me. I was now endlessly sinking into Elize’s arms. As my genitals began to be tightly squeezed by Elize from all sides inside her own, I could only act like an innocent man who had lost his virginity when faced with a sex-crazed woman.

Chapter 32: A Bright Morning - R18

The next morning, bright sunlight reflected off and penetrated Elize’s barrier, then began to focus on us. Elize’s two eyelids now woke up from their sleep. For some reason, a hard, long object could be felt inside Elize’s stomach.

Elize’s head now turned to the side below her stomach. Her disciple’s cock, which had not yet emerged from her pussy, was relentlessly blocking the way for his semen to escape from her stomach. But it wasn’t the disciple’s fault. On the contrary, Elize understood that she was the reason why I couldn’t let go of my cock when we finished our sex the night before.

One of Elize’s hands was now holding part of her stomach and feeling it as if she had given birth to a fetus. But Elize understood that it was impossible for her and her disciple

to give birth to a child. Therefore, Elize completely ignored the stupid thoughts she was thinking at the moment.

The feeling of being filled with semen from her disciple was still inside Elize's stomach. However, my cock didn't come out of Elize's pussy at all, even after we finished our sex the night before.

Even though a small portion of the semen inside Elize's stomach flows out from between her genitals as time goes by, it won't make it completely out of her womb. I also understand what Elize's intention was, to store my seed in her womb. As a female dragon, Elize was very happy when she saw her lover release his seed into her body and let her store it with her in her stomach.

But I didn't care about Elize's desire to store my semen in her womb. Instead, I decided to let Elize do what she wanted with my semen that had filled Elize's womb.

Actually, when Elize and I had sex, I got several benefits, such as increased strength. My strength, which was previously at the initial level of the Great Dragon stage, began to develop and reach an even higher level. Even my cultivation process has also reached 40%.

This is not a slow process for me, who has reached the Great Dragon stage. To be able to reach 40% in terms of cultivation was not easy to achieve. Even before I had sex with Elize, I could only reach 20%. Moreover, the practice that I do for a certain amount of time every day is to practice and continue to understand the power of the Ice Element.

'Master... I...' My lips that previously wanted to speak were covered by Elize's index finger. I, who put on a confused face, expressed my curiosity about the meaning of Elize's action of trying to block my mouth from speaking. But I decided to let Elize speak her lines.

"Do you still want to call me master when we're alone? Just call me Elize from now on. You can also call me Lize if you want it to be easier for you to call me." For the first time, Elize expressed her smile towards someone other than her only master. For me, a man from another world, Elize's smile this morning is like an angel that has accompanied me for a lifetime.

I could feel a kiss on the side of my cheek. My eyes, which previously looked at the side in front of me, turned to the side next to me. For some reason, I decided to pull my cock that was previously inside Elize's pussy back out of its place.

"This is not good... Lize, you are too poisonous for me! You almost made me die because of your smile this morning."

A small grin formed on Elize's lips. Ignoring my extremely happy reaction, Elize decided to let me climb up from my lying position.

When Elize wanted to stand up from her place, my hands, without hesitation, immediately brought Elize back into my kiss. Both Elize and I kissed each other on a sunny morning.

"Cien, don't... You still have to practice. How about we stop first?"

"It's okay. We have to clean ourselves first before returning to our activities, isn't that right?~"

No answer came out of Elize's mouth. This was also what Elize wanted to do after they ended their sex session. But she didn't expect that I also wanted to join her and wanted to take a bath together. Therefore, Elize would not hesitate to let her disciple bathe with her alone.

My previously calm cock regained its reaction. I decided to lift Elize into my lap and let my cock enter her again. On the other hand, Elize didn't mind at all and let me insert my cock back into her pussy.

Every step I took shook up all the semen that was previously inside Elize's womb. But that actually made Elize's lust increase even more. Without being able to say anything, Elize now started moving her hips like a wild animal.

Because I was still carrying Elize in my lap, I could only surrender and let Elize move her hips along with my cock, which was still in her womb. There were times when I couldn't stop myself from moving my body and breaking into Elize's womb at any time.

The size of my cock has now far exceeded the size of men's penises in general. Even if the man was a man who had a cock measuring 20 cm, he would have no chance of winning against the size of this incredibly large cock.

This is also the reason why I am very confident in being able to satisfy Elize, who is a female dragon. Most female dragons have wide pussies. Due to my incredibly large cock, Elize's pussy could easily bear every inch of my cock and allowed her to experience incomparable pleasure.

Not a single male dragon has a cock the size of me, even my father-in-law. Therefore, my legs stopped for a moment when my lust had reached its peak.

My two hands, which were supporting Elize's sexy and full buttocks, began to move nonstop. I also occasionally pressed Elize against the wall of the wooden house. But Elize didn't mind it at all. She let me move my hips whenever I wanted.

Chapter 33: Bathroom - R18

After dozens of steps, Elize and I finally reached the bathroom entrance inside the wooden house. The size of the bathroom in the wooden house was no less than that of a bathtub in the modern world. However, Elize and I didn't mind it. Therefore, we resumed our sexual relations without paying attention to the situation happening outside.

My two hands started playing with Elize's slightly large breasts. Even though they were still small enough to be easily grasped by me, the size of Elize's breasts was enough to increase my lust much more intensely than the previous night.

My cock, which was continuously clamped inside Elize's pussy, started to increase in size, making Elize unable to hold back her surprised reaction. Elize's eyelids, which had previously been closed, opened again and widened greatly. Suddenly, a nonstop tingling sensation spread throughout Elize's body. The feeling of how her disciple's cock continuously broke through the entrance of her womb incessantly hit Elize's stomach.

"Oh ♡. This is an extraordinary pleasure. I want you to... give your semen to me... Cien~"

"With pleasure, my dear lady~" Without paying attention to Elize's stiffening body, I immediately spurted a large amount of semen into Elize's womb without hesitation. My stamina, which had previously been completely drained by Elize, had returned to its peak condition. After all, sleeping for a day is one way for humans to recover a large amount of stamina.

My previously weak strength had also increased. Therefore, I was able to have sex with Elize much longer than during the first time we had sex.

The shape of Elize's pussy, which had previously been shapeless, was now starting to conform to the shape of my cock. The feeling of my cock being clamped by each side of Elize's pussy flesh made me unable to stop myself from kissing Elize's white and clean back. Elize's body figure was no less than Athena's. Even though I had experienced the size of Athena's large breasts, I could still feel the comfort of holding Elize's smaller breasts.

My sudden kiss on Elize's back made her cover her face in embarrassment. Elize's two hands were now pressed against the bathroom wall. As I had sex with Elize from behind, I could easily feel every inch of her body and kiss her.

The scent of Elize's body was enough to awaken the hidden lust within someone like me. Loud kissing sounds echoed throughout the bathroom. Suddenly, a surprised voice escaped Elize's mouth. Turning her head slightly to the side behind her, Elize's expression changed into one filled with worry.

Anxiety and fear that someone might find out began creeping into Elize's mind. A hickey from my kiss formed on the back of her neck. Some of the marks even overlapped with previous kisses. However, the night before, I had already left several hickeys all over Elize's beautiful body.

"What if someone else sees it? You should know that I only wear clothes that slightly expose my back. If it doesn't disappear, I don't know whether they will find out or not..."

As if realizing the anxious reaction Elize was showing, I decided to kiss her affectionately. It wasn't a big deal for me just because I was a man. But Elize was a woman. Showing traces of hickeys on her body was not considered a good thing in the eyes of the public.

My current relationship with Elize still hadn't spread throughout the royal capital. Apart from the youngest young master of the Skyfall family and his two guards, not a single dragon citizen in the kingdom knew my identity as the only disciple of the Frost Empress.

"What if that happens? Do you think I won't take responsibility? Don't worry. It should disappear soon because of the healing nature of dragons. Isn't that right?"

At first, Elize also thought the same thing I did. However, she remembered the times when pairs of dragons had sex with each other. Even though Elize was a powerful dragon, she and I had already had sex and become a proper couple.

Removing hickeys from their partners was not an easy thing. However, the attitude of dragons towards their mates was much more proactive than that of any other living being in the entire world.

A large part of Elize didn't mind the hickeys I had given across every inch of her back. However, Elize still didn't completely consider me her lover. What could I do? My status in Elize's eyes as her disciple would not change unless I reached the Great Dragon King stage sooner or later.

"Sigh... unfortunately, that won't happen. I'm sorry. Lucien, you should know that when two partners truly accept each other, they won't be able to erase the traces of love given by their partner through healing power alone. That's the same as what you did to me after successfully taking my virginity."

I couldn't say a single word. My current reaction was like that of a man who couldn't contain his surprise after hearing about a rare phenomenon. However, this was the first time I had learned that two partners who had shared sexual relations would not be able to erase each other's marks until time passed.

"Wait... doesn't that mean I can mark you as mine at any time? I don't mind! Besides, we won't be going out for another two months. We have to complement each other like lovers!"

A sigh involuntarily escaped Elize's mouth. It wasn't a big problem for Elize to let her disciple mark every inch of her body. Likewise, Elize also wanted to mark her disciple as her own.

The aura from the previously calm Elize spread and reached my body. Both Elize and I possessed our own auras. Perhaps it was a form of recognition that we loved each other.

I loved Elize. On the other hand, Elize also loved me sincerely. It wasn't strange that we could mark ourselves with each other's auras. Even while we had sex, a feeling of warmth and comfort continuously swept throughout our bodies.

Nothing could stop us from having sex for now. Even if someone tried to break through the barrier, they wouldn't have a chance to interrupt our intimate relationship.

Chapter 34: Distant Nephew?

In a living room in the castle of the Dragonia Kingdom, a handsome young man with fiery red hair sat and talked with the Dragon King, Lucius La. Lucifer. As the head of the Lucifer family, Lucius's duty was to greet this uninvited guest and entertain him in the palace.

The status of the young man before Lucius was not that of a noble, unlike the young master of the Skylord family. After all, the status of the young man in front of Lucius was that of the oldest and strongest young master of the Vermillion family.

Charles S. Vermillion was the name of the young man. As a man of the same generation as Athena and Elize, Charles's strength was much greater than that of the average young dragon in the Dragon Realm.

The only dragon of the younger generation who could defeat Charles was Athena. But Athena completely ignored Charles's arrival. However, Athena was currently not in the palace and was still traveling to carry out her duties outside the kingdom.

Actually, Athena already knew what had happened in the Dragonia Kingdom. It had been more than four months since the young master of the Vermillion family visited the Dragon King's family residence. As the eldest daughter of the Dragon King, Athena did not like Charles at all, as he was too arrogant about his status as a distant relative.

"Greetings, Uncle. Please accept this small gift from me. I haven't visited you for almost a month. By the way, where is Ms. Athena? I really want to see her."

"Sigh... Charles, why do you still come to visit us almost every month? Isn't the agreement still two months away? Please return to your place right now. Even though you are my wife's nephew, you are no different from Lilith's distant nephew. It is not worth visiting us so often. If it weren't for you having a talent that defies the common sense of living beings, you wouldn't have the opportunity to visit this palace as you please."

For some reason, a cold laugh came out of Charles's mouth. The arrogant attitude shown by Lucius was not a big problem for Charles. On the other hand, Charles realized that his uncle truly hated him as a guest.

The status of the Vermillion family in the Dragonia Kingdom was that of distant relatives of the royal family. But their power was no lower than that of an empire. Therefore, they had the power to trample every noble within the Dragonia Kingdom.

Lilith's relationship with the Vermillion family was only that of a distant relative. But Lilith belonged to the older generation that existed before the Vermillion family was even established in the Dragon Realm. Unfortunately, almost all members of the Vermillion family considered themselves to be the closest nephews of the Dragon Queen.

In reality, from Lilith's point of view, the Vermillion family was no more than ants that she could step on at any time. Lilith's power was enough for her to return the Vermillion family to the time when they were first created. But Lilith felt a little pity for all the members of the Vermillion family. Even though they were just bullies trying to get closer to Lilith, they were still her distant relatives.

It would not be a good thing if Lilith intervened directly to destroy the Vermillion family. Even Lucius knew what his wife wanted to do to the Vermillion family. Instead of being afraid of and worried about his wife's power, Lucius decided to let his wife do as she pleased.

Even though the citizens considered Lucius to be the main pillar who would protect the Dragonia Kingdom, Lucius realized that Lilith was the true pillar who had protected the Dragonia Kingdom in the past. If it weren't for Lilith, it would have been impossible for the Dragonia Kingdom to survive the war that occurred hundreds of years ago.

An involuntary cough came out of Lucius's mouth. Lucius's previously cold expression turned lazy. Recalling the image of that stupid man, Lucius couldn't help but hope that the man could finish his training on time and come out of it soon.

From the start, Lucius did not hate his future son-in-law and did not consider him to be a nuisance. On the contrary, Lucius considered his future son-in-law to be a promising man who could protect Athena and the others from attacks by outsiders.

Lucius's only wish at this time was for his son-in-law to succeed in improving his strength after this six-month training period. Although six months was a short time for anyone to

begin training, Lucien’s talent was enough for him to increase his strength much faster than the average living being in the entire world.

"Please don’t joke around, Your Majesty. I visited this place only because I wanted to give Your Majesty a chance."

"What other chance? Don’t tell me you want to bribe me just so I will give you my beloved daughter?"

"That could be said. But it is not exactly like that. I didn’t come here just to discuss that. Rather, I want Your Majesty’s future son-in-law to give up the match in the next two months. Otherwise, I probably won’t hesitate to kill that human brat."

The word "kill" that came out of Charles’s mouth was not a good thing for Lucius. Suddenly, killing intent surged out of Lucius’s body and reached the outside of the palace. Even the guards and servants in the palace could feel Lucius’s powerful killing intent.

"Are you serious? Brat, you underestimate that human too much. You’ll regret it later..."

Charles’s face turned cold. The two guards standing outside the entrance immediately entered the guest room without hesitation and began to protect their master. But Lucius showed no further reaction towards Charles. Instead, he stood up and walked out of the living room.

"Belittling my son-in-law is no different from insulting the Kingdom of Dragonia. The heir of Lord Velvet God is being belittled by this damn brat? How dare he! Who does he think he is? Ck!"

After Lucius left, a sly smile formed on Charles’s lips. Previously, what Charles had done was merely an act to see the reaction Lucius would show if he threatened to kill his future son-in-law. However, Charles had no idea what Lucien’s status was from Lucius’s perspective.

"Young Master, are you okay?! The killing intent released by the Dragon King almost made us lose consciousness. I’m afraid he will soon break through to the next stage..."

"That’s none of our business. Our sole purpose in coming to the Dragonia Kingdom was to see the old man’s reaction. Even if the old man had reached the peak of the Dragon Emperor stage, he wouldn’t have the chance to break through to the Dragon Overlord stage in just two months. It would probably take at least dozens of years."

Charles’s two guards looked at each other. Although they were confused by their young master’s calm reaction, they believed that no one in the same generation as Charles could defeat him, especially a human.

"Hehe. There’s no need to worry, Young Master. That human is absolutely no match for you. I’m sure that before the fight starts, Young Master will be able to reach the Great Dragon King stage!"

***

Discord Server: discord.gg/4yCzqTCUhp

Chapter 35: Ariel La. Lucifer

There was no hesitation on Charles’s face when one of his guards confidently praised him. On the contrary, Charles would sooner or later reach the Great Dragon King stage and become one of the strongest prodigies, standing on equal footing with Athena and Elize.

Charles’s age was slightly above Athena’s and Elize’s. Charles, Elize, and Athena were all from the same generation. Therefore, they possessed strength no lower than that of the powerful dragons within the Dragon Realm.

One of the reasons why Charles did not have a famous name in the Dragon Realm was that Athena and Elize were known as the two prodigy dragons. Even if Charles was the third strongest after Athena, he was still a weaker dragon compared to Great Dragon King stage dragons.

One of Charles’s hands was now clenched very tightly. Suddenly, a powerful energy centered on his fist. With just one breath, the energy in Charles’s body had completely transformed into energy much stronger than that of the average Dragon King stage dragon.

"Let’s go. It’s not good if we stay in this place either. I’m afraid Auntie will come to beat us up."

Slightly ugly expressions crossed the faces of the two guards. For Charles’s two guardians, Lilith was a woman who could conquer part of the Dragon Realm.

Lilith’s power had been publicly recognized by living beings throughout the world. Both the Dragon Realm and the living beings from other continents regarded Lilith as a Divine Dragon they could worship at any time. Even so, Lilith did not care at all about the worship the beings gave her.

"Understood."

After Charles and his two guards left, the figure of a silver-haired woman was seen walking in through the window of the living room. The woman’s expression showed her disgust.

The woman’s face was not much different from Heilde’s face. She also had a pair of blue eyes like Lilith’s. As the younger sister of the three powerful sisters, she was one of the prodigies born no less talented than Elize and Athena.

Ariel La. Lucifer was the name of this girl. Previously, she had intended to walk through the entrance gate from outside the castle, but she decided to stop after feeling the presence of Charles and his two guards.

Ariel’s current age was 21 years. Both Ariel and Lucien were the same age. Even though Ariel and Lucien were the same age, she had strength no lower than the Great Dragon King stage.

At the age of 17, Ariel had managed to reach the Dragon King stage through her own efforts. And now Ariel’s strength had reached the peak of the Dragon King stage. None of the dragons from the same generation as her could match her strength.

Even if they were lifeforms equivalent to the Dragon King stage, they would have no chance of winning against Ariel. One of the reasons why Ariel was not in the castle before was that she was busy studying at an academy.

It was not easy for Ariel to move freely outside the academy. Moreover, the distance between the Dragonia Kingdom and the place where the central capital was located was very far.

Actually, this was the first time Ariel had visited her home after two years. Previously, Ariel had wanted to go back and meet her family, but her busy schedule at the academy meant that she did not have the opportunity to meet her future brother-in-law.

Rumors about Lucien going to fight Charles had spread throughout the imperial capital. For Ariel, the fight that her future brother-in-law would fight was a battle that would determine the fate of her older sister.

"My dear little daughter, are you back? It’s rare to see you wandering outside the imperial capital. Did something happen?" Lilith’s voice was heard in the living room. Ariel’s return gave Lilith a slightly happy feeling in her heart. After all, Ariel was the youngest daughter Lilith had and had been away for two years.

Ariel’s previously ugly expression changed into a happy one. Without paying attention to the problems that had occurred before, Ariel immediately decided without hesitation to hug her mother with all her strength.

"Mother! I miss you so much!"

A gentle grin appeared on Lilith’s face. Having a daughter who acted spoiled in front of her was not something easy for Lilith to obtain after becoming one of the strongest

existences in the Dragon Realm. Because Ariel was the most spoiled daughter towards her mother, Lilith was happy to pamper her beloved daughter.

"You're already grown up. It's okay. Ariel, you've been working hard for these two years. Besides, you seem to have come back before the academy declared a national holiday."

A cough involuntarily came out of Ariel's mouth. Ariel's previously happy face turned nervous. Turning her gaze away from her mother, Ariel acted dumb and pretended not to know what her mother was saying.

"That... uh... I didn't come back because I ran away. It's just that I finished all the exams for the fourth year. Therefore, I just wanted to see what my brother-in-law was like. Can I see him now?"

No one understood what Lilith was thinking right now. Wrinkles appeared on Lilith's face. After hearing her daughter's purpose in returning to the kingdom, Lilith did not know what she should say in return.

Lucien's training was not completely over. Two months was a suitable amount of time for Lucien to finish his training and then return to Athena and the others. Even if Ariel was a daughter often pampered by Lilith, she would not let her daughter bother Lucien just because she wanted to.

"Unfortunately, Mother can't let you see him for now. You have to wait another two months to see your future brother-in-law."

"Eh? Shouldn't my brother-in-law be inside the castle? Where did he go?"

Ariel's continued questions did not make Lilith care or feel uncomfortable. On the contrary, Lilith answered every question from her daughter calmly. Luckily, Ariel understood what her mother meant by the problems her future brother-in-law was experiencing.

Disrupting Lucien's training was simply not a good option at this time. Because of the battle in the next two months, Lucien also had to prepare himself to fight with all his strength and not let Athena fall into the hands of the Vermillion family.

"As expected of Sister Athena. She was truly born with great charm. I already knew that there would be many men chasing after her." A sigh involuntarily escaped Ariel's mouth. Recalling past events made Ariel feel a little humbled. Even though Ariel's talent was on par with Athena's, she was still only 21 years old and had no experience with the outside world.

After hearing that Athena had brought a human man and made him her lover, Ariel did not feel any jealousy until Lucien finally awakened her talent. Lucien's talent was a gift given by the world to members of the Dragon race.

The nature of the Velvet Prostitute Physique was also the reason why the Lucifer family respected Lucien and made him part of their family. It was not that they were cruel to Lucien, who was going to fight against the young master of the Vermillion family. Both Athena and every other family member truly wanted Lucien to prove his strength in front of the citizens of the Dragon race.

***

Chapter 36: Household Problems

Not all citizens in the Dragon Realm knew that Lucien was the heir of God King Velvet. Even if they knew Lucien was the heir of God King Velvet, they would not consider him a potential successor without strong evidence of his strength.

Strength was the most important thing for gaining recognition from the people of the Dragon Realm. Therefore, Athena truly wanted Lucien to defeat Charles in battle and then completely make her his woman.

Athena's only wish before Lucien went to train with Elize was to give her body to him. However, Lucius came and stopped Lucien's actions. Although Athena was angry at the interference caused by her father, she did not have any negative opinion towards Lucien's previously weak self.

"Of course. Even if you have the same talent as your older sister, you won't be able to have the invincible heart that she has cultivated all these years. All the experiences your older sister has gone through have made her into a firm and cruel woman."

"Ah. So that's the reason why Older Sister isn't in the castle? Is she afraid of meeting that bastard?"

A small laugh escaped from Lilith's mouth. In fact, both Lilith and Lucius understood what Athena was doing while traveling outside the kingdom. However, Charles's interference with the Dragonia Kingdom had disrupted the lives of the Dragon King's household several times.

Neither Lucius nor Lilith liked Charles at all and did not even consider him their nephew. From the beginning, Charles was a bully who came from a lowly family and was far from being related to Lilith by blood. For some reason, the Vermillion family had indirectly gained the full support of the imperial capital.

The fortune the Vermillion family had gained in the past meant that Lucius could not help but decide to consider Charles his nephew. Luckily, Charles did not act completely rashly

when dealing with Lucius. If it were not for Charles's impudent attitude, it would have been impossible for Lucius to decide to leave Charles alone in the living room.

"Hehe. Keep this a secret. If your other sisters find out, they will badmouth your sister and think of her as a cowardly older sister."

No words could come out of Ariel's mouth. After remembering Shelia's figure, Ariel's face turned pale. Among her three sisters, Ariel felt the strongest sense of fear whenever she was alone with Shelia.

Every time Ariel crossed paths with Shelia in the past, Shelia would always act like a mysterious woman. But that was not because Shelia hated Ariel. On the contrary, she only acted coldly to maintain her image and intended to stand on equal footing with Athena.

Athena's extraordinary image had caused Shelia's name to disappear from the eyes of the citizens of the Dragon Realm. The entire focus of attention within the Dragon Realm had been completely centered on Athena. Athena's three sisters did not receive much attention from the citizens due to the overwhelming presence of their eldest sister.

"Hopefully nothing bad happens during these two years..."

For some reason, Lilith's face showed an awkward expression at Ariel's statement. The events that had occurred over the last two years had made Lilith and Lucius feel confused about their second daughter's possessive attitude toward Lucien.

"Unfortunately, that didn't happen... I hope you're not surprised. Your second sister has actually fallen in love with your future brother-in-law. That's why..."

"Is that so? Eh?! This is impossible! Since when could Sister Shelia fall in love with someone else? This is unbelievable..."

"It's not your sister's fault. It was your brother-in-law's fault for always helping Shelia whenever she felt depressed. Because of that, your sister finally fell in love with Lucien and came to see him as the only man in this world."

It was not easy for Lilith and Lucius to change Shelia's opinion of Lucien as a potential brother-in-law. From the beginning, Shelia had a strong desire to defeat Athena. Even though they appeared to be close sisters on the surface, they had competed several times to gain more attention from their parents.

"As I thought. There's no way Sister Shelia could fall in love just because of our brother-in-law's good looks. Since Mother doesn't want me to meet my brother-in-law yet, I have to wait another two months before deciding to meet him."

While drinking tea at the table, Lilith's face returned to its calm expression. Luckily, her youngest daughter could easily understand the current situation. Therefore, Lilith did not ask further questions about Ariel's escape from the academy.

More than a month passed, and as I walked through the wilderness, I felt some terrifying energy fluctuations. The power I sensed in the forest was much stronger than that of the average wild animals I had encountered in the previous days.

"A 4th-star monster rank? Should something like this even exist here?" A complicated expression involuntarily crossed my face. Previously, Elize had told me about the monsters living in the forest. However, most of the monsters were only 3rd-star beasts.

No 4th-star monster should have been able to live in Elize's territory. But that did not allow me to do what I wanted. From the start, this monster was one capable of flying through the sky with its two wide, purplish wings. The appearance of the 4th-star beast was no different from that of a giant eagle.

Bolts of lightning could be seen surrounding the body of the 4th-star beast. Just as I was about to walk away from that place, the sharp gaze of the 4th-star beast turned towards me, and it roared with a wave capable of confusing anyone's mind.

But it was not something I couldn't handle. Even if the monster was on par with dragons at the Dragon King stage, it would not have any chance of harming me, who had now grown to become so powerful.

Chapter 37: Unreasonable

Roar!—

The roar of a 4th-star beast from far away began to reach Elize's ears. The figure of Elize, who had been in a meditative state, woke from her thoughts and looked towards the edge of the forest. For some reason, a slight bad feeling struck Elize's heart.

A memory of Elize previously staring at a giant purple eagle came back to her mind. The 4th-star eagle monster was Elize's pet, which had been hiding underground for a long time. However, Elize did not expect that her mount would wake up before the time came.

Various deep thoughts struck Elize's mind. One of the reasons why the eagle was able to wake up from its sleep was probably because of Lucien's presence. Among the wild animals living in the forest, Lucien was someone who had common sense and was always by Elize's side.

Maybe the reason why the eagle attacked Lucien was that it considered him an intruder. For some reason, Elize's previously worried expression turned calm again.

The training that Elize gave Lucien allowed him to fight against Dragon King stage experts. Since the eagle was at the same level as the Dragon King stage, Elize did not have any doubts about Lucien's victory.

Either way, Lucien would win this fight no matter what happened in the situation. Shaking her head, Elize decided to close her eyes again and focus on her breakthrough.

Back at the side of the forest, my face couldn't hold back its ugly expression at all. The previously calm me showed an unexpected reaction to the power of the lightning eagle. From the start, my goal in coming into the forest was to look for food supplies to store for the following days.

The presence of a 4th-star monster was completely unthinkable to me while exploring the forest. Even though I was worried about the presence of a 4th-star beast, I decided to fight against it and try my best to see my current limits.

As time passed, an extraordinary lightning strike struck the entire forest. Both my fist and the eagle's lightning power collided with each other. Luckily, I could easily survive every attack that the eagle launched.

"Gaha!—"

The eagle's attacks didn't stop at all, even though I was able to block them easily. Instead, I decided to become more serious in dealing with the eagle's power, which was starting to increase nonstop.

My body, which had previously been at a normal temperature, began to feel cold. Most areas within the forest had turned into small worlds of ice. For some reason, the eagle's expression showed disbelief.

But that didn't deter the eagle from facing the terrifying power displayed by me. Likewise, I did not resist the attacks that the eagle launched at me. As of now, the situation in the battle had completely reversed, with me dominating the fight.

"Guh!—"

This was something I couldn't predict, even after fighting against a 4th-star beast. I didn't expect that my strength had allowed me to fight against Dragon King stage experts. Although I was satisfied with my improvement, I knew that Elize was the reason why I had reached a level far above the Dragon King stage.

My comprehension of the Ice Element had reached a strength equivalent to Great Dragon King stage experts. I've successfully broken through my limits after surpassing my

comprehension as a Dragon King stage expert and reaching the comprehension of the Dragon Emperor stage. If it weren't for the eagle being at the same level as the Dragon King stage, I wouldn't have had the chance to dominate the current battle.

The current situation was enough to leave several wounds on the eagle's body. Both the eagle and I did our best to win the fight that had occurred. Luckily, the eagle was not stupid and did not act rashly. From the start, the eagle had sensed the danger I radiated after we confronted each other.

Likewise, I always increased my vigilance when dealing with the eagle. A whistling sound could be heard around the forest. The two gazes that had previously been focused in front of me moved upward. For some reason, my previously expressionless face started to turn serious.

Raising one of my palms in front of me, a lotus with the power of ice was created above it. The power emitted by the lotus could easily freeze most of Elize's territory.

A hint of unceasing wariness crossed the eagle's face. The eagle's gaze, which had previously been focused on me, couldn't help but shift towards the lotus forming on my palm. The amount of mana absorbed by that lotus from within me had reached a figure that far surpassed the average Dragon King stage.

"This...! Wait! Stop! I'm not the enemy!"

Since the beginning, the eagle had been able to speak human language like high-level monsters. Since the eagle was Elize's mount, it couldn't have been born with ordinary powers like other monsters.

The words that came out of the eagle's mouth made me stop my attack for a moment. Both of my eyelids blinked for some time. The moment I felt the eagle's desire to fight against me completely disappear, I decided to retract the terrifying lotus that had previously been on my palm.

Seeing me cancel that terrifying attack, a sigh involuntarily came out of the eagle's mouth. Even though the eagle admitted defeat in the face of my power, it still couldn't suppress its thoughts and viewed me as a terrifying monster.

My unreasonable strength was also the reason why the eagle couldn't suppress its fear when facing me. My current level was no worse than that of experts slightly above the Dragon King stage. Therefore, the eagle understood that I was by no means a lowly human who had secretly infiltrated Elize's territory.

The figure of Elize appeared beside me. Elize's sudden appearance caused the eagle to immediately show a respectful expression like a servant. As if realizing what had happened, the eagle once again decided to open its mouth and apologize for its impoliteness.

"Master! I’m very sorry for not knowing who this human is! Since this human is your disciple, I won’t bother him anymore..."

"Long time no see, Liz. Don’t be too nervous around my disciple. He is Lucien. I hope you two can get to know each other."

The eagle that had previously acted arrogantly in front of me now showed its helpless side when facing Elize. A sound of laughter involuntarily came out of my mouth. Even so, there was no reaction on the eagle’s face.

Liz was the name Elize gave the eagle. As a small animal that Elize had accidentally saved in the past, Elize decided to make Liz her mount and let her follow her everywhere.

Chapter 38: The Empire’s Decision

"Greetings, Sir Lucien. I apologize for offending you earlier. You are truly worthy of being Lady Elize’s disciple."

Liz’s praise was not pleasant to me. I knew that Liz wanted to ask for my forgiveness for daring to be so rude to me earlier. Luckily, I didn’t pay too much attention to the rude attitude that Liz had previously shown me.

My head turned back towards Elize’s side. Elize’s beautiful and charming face revealed a gentle smile to me. For some reason, Liz couldn’t help but imagine my relationship with Elize.

’Judging from Master’s reaction... Could it be that this relationship is not just a master-disciple relationship? But this makes sense! This human is very talented and is even better than Master when she was young!’

There was no resistance from Liz to thinking about my relationship with Elize as her romantic partner. However, my talent had been proven directly by me when Liz and I fought previously.

With my talent that challenges the common sense of other living beings, I would have a full opportunity to become Elize’s partner. Therefore, Liz felt happy seeing that her master had a man to love.

"Haa... you have exceeded my expectations. Looks like the person I should be wary of is that young master of the Vermillion family. I hope that person won’t show a surprised reaction when facing you two weeks from now!"

This was not a form of Elize's arrogance towards my extraordinary strength. Elize had been confident from the start that I would have a great chance of dealing with the young master of the Vermillion family. Even if I trained less than the young master of the Vermillion family, I was born with a talent that allowed me to progress faster than the average living being.

In fact, I didn't mind the trust that Elize had placed in my abilities at all. On the contrary, I happily accepted every compliment that Elize gave me.

[Affection Points: 22,303.]

[Current progress of God's Bloodline: 0.0004%.]

"By the way, what is the relationship between Sir Lucien and Lady Elize? I see that you are very close and different from a normal master-disciple relationship."

Liz's slightly impolite question made Elize reveal a scary expression. Elize's frightening smile made Liz unable to hold back her worried expression. After averting her gaze from Elize, Liz decided to keep her mouth shut about the question she had asked earlier.

"You shouldn't ask about this. Elize is my master. Therefore, our relationship is only that of master and disciple. Don't think too much about anything strange regarding our relationship."

Even though she was doubtful about my statement, Liz decided not to ask further about my relationship with Elize. Not knowing something that she shouldn't know was a good choice if she wanted to continue living in the future.

"I... I understand!"

One of my hands was now gently gripping Elize's shoulder. Both Elize and I behaved like a husband and wife. But Liz didn't say a word about the attitude shown by the master and disciple. Instead, Liz chose to stay where she was and decided to watch the scene in front of her.

Previously, Liz hadn't shown any suspicious behavior on her face. But Elize's voice startled Liz slightly, causing her to wake up from her thoughts. Ignoring Liz's shocked reaction, Elize said, "Since it's like this, I'll have to ask for your help in gathering this month's food stock. Go and kill some low-level wild beasts, then store them in the underground room."

Liz's body subconsciously froze, and she hoped to forget the incident that had happened in front of her. Elize and I were now floating back towards our residence. As a 4th-star beast, Liz knew what Elize and Lucien wanted to do when they were alone in the room.

Liz’s view of her master had completely changed into that of a perverted and depraved woman. During the day, her master had boldly made out with her lover. Elize’s previous attitude before meeting her disciple had been that of a cold woman, but now she had changed into a woman who had fallen in love with a man she liked.

Elize’s domineering attitude in Liz’s mind had completely changed into something not worth mentioning. Although Liz was worried about Elize’s change in attitude into that of a gentle woman towards her lover, she would not offend her master just because of her change towards a man.

"At least this is still better than staying with them. I will carry out the task given to me by my master!"

Outside the barrier of the wilderness, the figure of a woman with long black hair and half of her face covered by a transparent black veil could be seen standing together with Shelia. Both Athena and Shelia wanted to visit Lucien and then take him back to the castle.

Due to several problems faced by Lucius regarding the schedule of his son-in-law’s fight against Charles, he had to shorten the schedule and make his son-in-law fight in three more days. Actually, it was not Lucius’s wish to speed up the schedule for the fight between Lucien and Charles.

The empire had asked Lucius several times to speed up the schedule for his son-in-law’s fight with Charles. As a king who governed a kingdom, Lucius could only accept every order given to him by the empire.

"This is truly a disgusting act. I didn’t expect that the imperial side would so brazenly violate this six-month agreement. I really dislike all of them!"

A snort escaped from Shelia. Shelia’s hatred towards the empire had reached an unforgivable level. On the contrary, even Athena was thinking the same thing as Shelia.

Athena had felt dissatisfaction towards the empire for a long time before meeting Lucien. Since long ago, both Athena and the empire had experienced several conflicts with each other. Moreover, the young dragons from within the empire were all dragons who had dared to challenge Athena with their dirty actions.

Lilith was one of the reasons why the empire did not dare to take any reckless action against the Dragonia Kingdom. All small territories within the Dragon Realm were also under Lilith’s protection. Even though the empire had countless experts, they could not act completely rashly when challenging a monster like Lilith.

Chapter 39: Jealousy - R18

"There's nothing we can do. Even if the empire fears the power of Father and Mother, they are still powerful dragons who have ruled the Dragon Realm for thousands of years."

Shelia's face showed no change at all. There was no way Shelia would be afraid of the empire. Both Shelia and Athena had visited the empire several times. Therefore, they knew that almost everyone in the empire feared their mother.

Actually, facing a young dragon like Charles was the most tiring thing for rulers who managed their kingdoms. Most of the noble families within the imperial capital were nobles of high status, just like the Vermillion family. They had received the full support of the Dragon Emperor.

"Hmph. I know what you want to say. Forget it. I want to know why Ms. Elize still won't let us inside. Did something happen?"

Listening to her younger sister's statement made Athena a little unable to hold back her embarrassment. Athena's vision could easily penetrate the inside of Elize's barrier. As an experienced woman, Athena knew that Elize and I were now in a state where we couldn't be bothered.

"It seems like we're in a bit of a rush... I think it's better if we wait patiently a little longer. Em... Shelia?" Suddenly, Athena's face changed to panic. The expression shown on Shelia's face at this moment was completely emotionless. Both of Shelia's eyes turned sharp. Following Shelia's gaze towards the side of the barrier, she saw several silhouettes of a man and a woman inside a small house, having fun with each other.

Some sweat flowed from Athena's forehead. Remembering Shelia's possessive personality towards me scared Athena a little. Even though Athena and Shelia had competed for me several times, they didn't take their rivalry too seriously.

Now Elize and I had officially become lovers, and we had sex. Any dragon who had been intimate with their mate would forever become life-and-death partners. Because Elize and I had intimate relations, we would forever be destined to be one and could not be separated by anyone.

This was what Athena had known before she took me and gave me to Elize. Athena's intentions from the start had never changed, and she intended to let me make Elize my second lover. As Elize's best friend, Athena loved seeing her only friend show a happy face whenever she was with her man.

Of course, Athena was still a woman who could feel jealous about the things her lover did. Moreover, Athena was a female dragon. Therefore, Athena felt great jealousy when she saw the romantic relationship between Elize and me.

Athena's body, which had previously been at a normal temperature, turned hot. Some sensitive areas of Athena's body started to swell after not being with Lucien for a long time. Previously, Athena and Lucien always slept together at night, but they had been separated for almost six months.

Athena's longing for Lucien had reached a level that made her unable to suppress the lust that had been building up inside her for a long time. After all, Athena's goal from the start was to make Lucien her man and then let him have her.

But Elize was the first woman Lucien slept with after he awakened his talent. Maybe that was also the reason why a large part of Athena was surprised that Lucien and Elize's relationship had reached such a deep level. Despite being jealous, Athena decided to wait and hoped that Elize would let them into her territory.

The oppressive aura that Athena had previously suppressed now spread out from her body and deliberately allowed Elize to feel its presence. In fact, Elize had been completely unaware of Athena and Shelia's presence outside her border area. But even after sensing the presence of the two women outside her territory, Elize didn't care.

"Ah... ♡. So deep~. My Lucien... you are mine ♡."

"I'm going to cum inside right now. Lize, please accept all my seed inside you!"

The incessant throbbing was felt inside Elize's womb. Elize's womb had been waiting several times for my semen to be released inside her body. As a man who saw a beautiful woman begging for my semen, I would gladly give it to her and flood her entire womb with my seed.

Incessant sighs could be heard coming from Elize's mouth. Elize's pleading voice, which sounded like an angel's, made me unable to think about anything other than continuing our relationship. Elize's position was now near the wall. However, I relentlessly pressed Elize's shoulders against the wall and continued having even wilder sex with her.

Saliva endlessly flowed from Elize's lips. Both Elize and I had reached our limits. In less than a few breaths, Elize and I orgasmed together and wet our own thighs.

My mouth and Elize's mouth started kissing each other. The taste of Elize's mouth made me unable to contain my happy expression. Being able to have a wild relationship with Elize was a gift for me after being reborn into this world.

My semen inside Elize's womb flowed out from between her legs. An endless feeling of fullness surged inside Elize's stomach, but it only made her feel happy. For some reason, Elize's previously lustful expression suddenly turned cold.

"Athena? And she’s actually with her younger sister. Why..." Elize’s gaze turned wary. Looking at me, who was now showing a confused expression, Elize couldn’t help but reveal a half-reluctant expression.

It wasn’t just Elize who noticed the presence of Athena and Shelia outside the barrier. After Elize showed her cold reaction to Athena and Shelia’s presence, I also started to sense them after we finished our orgasms.

At first, I couldn’t believe the presence of the two women outside the barrier. The six-month agreement still hadn’t reached its conclusion. But the presence of Athena and Shelia was enough for me to realize the current situation.

"Athena?! I have to prepare first. Lize, we have to go and greet them right now. I’m afraid something happened earlier."

Chapter 40: Beloved Wife

"About our relationship... Can you hide it?"

A strange look appeared on my face. Elize’s sudden request left me unable to say a word. For me, Elize’s request was like a double-edged sword that could kill me at any time.

My love for Athena hasn’t changed at all, even after having sex with Elize. No woman can match the kindness Athena has shown me. Therefore, I will not abandon Athena just because I have found a better woman than her.

"How could I possibly hide it? You yourself know that Athena is not an ordinary woman. I even suspect that she already knows about our current relationship."

The words that came out of my mouth didn’t worry or offend Elize. On the contrary, Elize decided to forget her foolish thoughts about keeping our relationship a secret and let me reveal it to everyone.

After recalling the kindness Athena had shown her, Elize decided to share me with Athena. After all, I was Athena’s man from the beginning, and she was also the reason why Elize was able to become my woman.

"I just don’t want to face her. You have to know that I am still your master. Remember this, Lucien. You have to call me Master after we leave this place."

"I know! Don’t worry. I’ll do what you want me to do!"

Seeing my serious reaction made Elize feel a little relieved. It wouldn't be good if Elize were constantly proactive towards me. Even if I am currently a weak man, I have a limitless future that could allow me to rival any living being in the entire world.

This simple thought was enough for Elize to let me create my own world and gather women from all over the world. Since the beginning, the destiny of the owners of the Velvet Prostitute Physique has been to have hundreds of women as their partners. And since Elize is now my woman, she and I can share the same power and interact with each other at any time.

The remains of my semen were still inside Elize's womb. It didn't make Elize afraid of being discovered by Athena and Shelia. On the contrary, Elize happily allowed the remains of my semen to remain inside her womb.

Elize's careless intentions left me unable to say a word. Ignoring Elize's actions of trying to keep the remains of my semen inside her womb for a second time, I decided to put on the clothes that Elize had just given me.

My current attire was no different from that of a young man from a noble family. Moreover, my handsome face made me look like a man who had fallen from the sky. Even though I was wearing expensive clothes, I would not act foolishly inside the royal capital.

Athena and Shelia, who had previously been in a meditative state, opened their eyes again and looked at the figures of a man and a woman walking out from within the barrier. Suddenly, a sharp look appeared in Shelia's eyes. Previously, Shelia had wanted to attack Elize after she came out of the barrier, but she decided to stop after seeing me walking beside Elize.

"Since you have been here waiting for our arrival for such a long time, I am guessing that the empire has violated the agreement previously made between the Vermilion family and the Lucifer family?"

Athena's gaze continuously stared at Elize before examining her from head to toe. A familiar pure energy could be felt by Athena from Elize's stomach. With the striking energy emitted by Elize from deep within her stomach, Athena felt her jealousy begin to rise.

"That's right. The six-month schedule that was previously promised was shortened to five and a half months! Now there are only three days left before Lucien fights against that guy. I hope..." Athena's face involuntarily turned red. She didn't dare to look at me, who had transformed into a strong and tough man. Even though Athena had previously wanted to come and pick me up, she didn't dare look at me after almost six months.

A small grin appeared on my lips. Athena's reaction made me unable to hold back my happiness. However, the attitude Athena was showing towards me right now was no different from that of a rabbit that didn't dare look at its master.

One of my hands pulled Athena’s shoulder closer to me. While hugging Athena in front of the two women nearby, I could only suppress my fear and focus on embracing her.

"I missed you, Athena. I’m sorry for not giving you any news about me earlier. Thank you for always supporting me all this time."

"I... I should be the one apologizing to you. Lucien, this is all my fault for placing more importance on my reputation than on you. I should have rejected that person’s challenge and let you live as usual... I..." A few tears flowed from Athena’s eyes. My fingers gently rubbed Athena’s cheeks and wiped away her pure tears. Without paying attention to Athena’s angelic reaction, I immediately kissed her lovingly without hesitation.

My sudden kiss with Athena forced Elize to avert her gaze from me. However, Shelia’s face revealed a hint of jealousy. Luckily, Shelia didn’t completely lose her composure, and she already knew about my relationship with Athena. Therefore, she decided to remain silent and let Athena and me kiss each other.

"Erm... your kissing technique has improved. Is this the result of your training with Lize?"

A coughing sound involuntarily escaped from my mouth. No one knew that Elize was now showing me a faint smile. Athena’s question left me speechless for a moment, as if a bolt of lightning had struck me.

"You could say yes. By the way, Elize and I have..." For a moment, when I wanted to continue my sentence, Athena’s index finger immediately covered my lips without hesitation, and she only revealed a soft smile. From the very beginning, Athena had wanted me to make Elize my woman. It wouldn’t be strange if Athena allowed me to have Elize as my second lover.
