Reborn as the Dragon King's Son-In-Law

Chapter 51: Two Elf Sisters

My head incessantly moved to various sides around me. Two silhouettes with pointed ears were visible among the desolate and barren land. There was no way any living being could survive after receiving the strongest attack I had launched earlier.

Everything related to ice had completely faded and melted away like a block of ice melting. But the two silhouettes were able to survive easily despite being so close to the battle between me and the two dragons. Even though I didn't know the identity of the two pointy-eared beings, I decided to land on the ground and walk closer to the two girls.

My presence, which suddenly appeared in front of them, surprised the two pointy-eared beings. The two fairy-like figures hugged each other and revealed frightened expressions. From the two girls' point of view, my sudden presence was no different from bringing about a catastrophe that could destroy the world.

My battle with the two dragons had been fully witnessed by the two pointy-eared girls. A human who managed to defeat two dragons in their true forms was by no means an ordinary human. Therefore, the two girls decided to act humbly when facing me.

"You... who are you...? Please don't kill us! We are just two sisters who were kidnapped by those three dragons!"

The explanation from the girl who was hugging her sister awakened my senses a little as I looked at the beautiful figures of the two girls. The two pointed ears visible on the girls slightly awakened the deepest desires that I had long forgotten. Luckily, I'm not at all a stupid guy who would do indecent things to two girls I had just met.

"If I look at your pointy ears... could it be that you two are from the Elves race? Why have beings from the Spirit Continent come here?"

A hint of nervousness crossed the pointy-eared girl's face. The question asked by the man in front of her filled the girl with a little fear. For some reason, the aura emitted by my body endlessly intimidated both the girl and her little sister.

"Actually, my sister and I accidentally ended up traveling to the Life Continent. We initially just wanted to gain experience and meet someone who was destined to live with us. It's just that we didn't expect three beings from the Dragon race to come and kidnap us. Because of that..."

Although the explanation from the girl was a little unclear from my perspective, I would not intimidate her further regarding her and her younger sister's identities. This was absolutely not my goal in saving the two girls from the grasp of the three dragons.

"So you're just kidnapping victims? Alright. I'll be going now. I hope you can leave the Dragon Realm alive."

"Eh. Wait! I beg you...! Don't leave us alone in this place. We can't possibly leave this terrible place alive..."

The girl's request for protection from me had already been completely considered by me. For two beings from the weak Elves race, living alone in the Dragon Realm was not a good choice at all. Because I had freed them from the grasp of the three dragons, the two girls now saw me as a savior who could save them from imminent danger.

"No. I can't. I'm just a human who was given temporary residence in this place. How can I bring two suspicious girls like you into our residence?" But I wouldn't be tempted to help those two girls just because of their request. I still hadn't completely made Athena my lover. Moreover, tomorrow was the day I would fight against Charles, who was not a weak opponent at all.

Bringing those two girls into the Dragon King's residence was no different from turning myself into a punching bag for my father-in-law. There's no way I could decide whether to accept those two girls into the Dragon King's residence or not. Therefore, I would behave coldly towards them and, without hesitation, immediately reject their unreasonable request.

"Impossible... but we can't possibly..."

"That is your business. You yourselves wanted to leave your own continent. Whatever mistakes you have made must be corrected with your own hands." When I was about to float away from the sight of the two girls, the girl in her sister's arms moved away and looked at me. The girl's hair was blonde. Likewise, her older sister also had blonde hair. In addition, the girl's two earrings radiated a beautiful emerald color and were full of vitality energy.

The girl's two golden eyes relentlessly stared at me and gave rise to a feeling of fear in my heart. In my entire life, this was the first time I had felt fear when looking into the eyes of a little girl. Even so, I still wouldn't be able to do anything even if the two girls asked me to take them back to their continent.

"Sir... if possible... I will offer these earrings to you. I believe that you have your own problems just like us. But I want you to take us to a safe place, and I will give these two earrings to you."

Silent in my spot for a while, a look of endless doubt crossed my face. My two calm gazes relentlessly stared at the two earrings worn on the girl's pointed ears. For that reason, I truly wanted to have both earrings to use as accessories.

"Wait a minute, Tina! Those earrings are an inheritance that our parents gave us directly! Are you sure you want to give them to this suspicious person?"

Both the girl and her younger sister had inherited earrings of different colors from their parents. The earrings owned by the girl named Tina were emerald. On the other hand, the color of the girl's earrings was red.

"This is the only way for us to survive in this terrible place. The Dragon Realm is not a safe place for us at all. If we explore this place, we will only become prey for the Dragon race."

"But that person is only human..."

"It may be true that he is human, but you should have also witnessed how he managed to defeat those three dragons in their true forms. Isn't that right?"

No words could come out of the girl's mouth anymore. The explanation given by her sister had completely made the girl accept her sister's wish to give her earrings to me. In the end, the Dragon Realm is a terrible world that can take the life of a weak being at any time.

Chapter 52: Troublesome

"Are you two finished talking? So what? Do you still want to offer me that valuable object?"

Nodding simultaneously, both Tina and her older sister began to act respectfully toward the human before them. The two earrings that had previously been on Tina's ears began to be pulled out and removed from their place. A slight pain began to strike both sides of Tina's ears.

Giving away the inherited earrings given to them by their parents was not easy at all for Tina. The earrings that had been passed down from their parents had remained in place ever since they were babies. Therefore, it was not surprising that even a girl with pointy ears could feel pain when removing the earrings from both of her ears.

"Of course. Sir, I beg you to keep your promise. This is all we can hope for from a savior like you." The face of the girl named Tina showed her cute expression. Unfortunately, it did not have a fatal effect at all, even when I witnessed the girl's cuteness. Ignoring Tina, who was acting cute in front of me, I decided to take the two girls into my arms.

My action of bringing them into my arms slightly surprised the two sisters. The faces of the two girls, which had previously been confused, turned embarrassed. From the perspective of the two girls, the smell emitted from the body of the man who was hugging them exuded a very strong and masculine scent.

"The smell of Sir's body is filled with the scent of various female dragons... What is your relationship with the Dragon race?"

A coughing sound involuntarily came out of my mouth after listening to Tina's older sister's question. No girl in her twenties should question the relationship between a man and a woman. But still, I could not ignore the girl's question over such a small matter.

"Cough. I am the future son-in-law of the Dragon King. That's all I can tell you for now."

The words "future son-in-law" that came out of my mouth were quite surprising to the two sisters. Becoming the future son-in-law of the Dragon King is not something anyone can achieve, especially a human. Because I am a man from the Human race, becoming the future son-in-law of the Dragon King is like a dream that cannot be achieved by ordinary beings.

"Ah. I'm sorry. You can call me Tifa. I'm also very sorry for asking about your personal life in this place."

"Ha ha... It's okay. You guys have offered me one of your precious earrings. I also have to be nice when I'm by your side."

Tifa's face showed disbelief. Tifa's previously nonexistent fear began to emerge after imagining my relationship with the Dragon King's daughter. Most dragons are born with extraordinary stamina that can kill anyone from a species like humans.

Having a future wife from the Dragon race was a surprise for Tifa and Tina. This is also the reason why men from other races do not want women from the Dragon race to become their wives. Either way, sleeping with a female dragon was no different from bringing death upon themselves.

What Tifa was thinking was completely within my expectations. I had also felt the terror I received after having sex with Elize. But that was also the reason why I could possess extraordinary stamina that could increase at any time.

Having sex with Elize had completely given me benefits that could increase my stamina whenever I reached my limit. But I would not reveal my relationship with female dragons

other than Athena to the two sisters. Instead, I decided to continue my journey to reach the capital of the Dragonia Kingdom.

After my journey with the two sisters, I finally managed to return safely and landed in the middle of the royal capital. My two feet, which had previously been floating, began to land in the middle of the capital, where a fountain stood. Ignoring the scared expressions of Tina and Tifa, I decided to leave them in the middle of the fountain and let them find their own way out.

"See you later. Our business has ended. I wish each of you the best for your safety." I may be a cruel man, but I would not allow myself to attract the wrath of my two horrible future in-laws. Without permission from Lucius and Lilith, bringing Tifa and Tina into the castle was a stupid act that could disrupt my relationship with Athena.

Having a relationship with Athena until now is the reason why I can live in the Dragon Realm. It does not matter even if I have dozens or even hundreds of women as my lovers, I will not abandon Athena just because I have another new woman.

Tina’s voice reached my ears once again. My gaze, which had previously turned away from the two girls in front of me, returned to them. For some reason, an ugly expression kept appearing on my face.

A slight feeling of guilt struck my heart. Seeing the scared expressions of the two girls before me was absolutely not something I could ignore. But still, the Dragon Realm was not my hometown at all, and it was very different from the human world.

"We beg you to let us stay with you for some time to come. Just this once. Please allow us to stay by your side."

I originally intended to reject the request of the two girls asking me to take them with me. However, I suddenly decided to shake my head. After recalling the nature of the two girls before me, I knew I would not be able to stop them from secretly following me.

"It’s up to you. I won’t let you enter the castle as you please. It depends on whether they want to let you stay there or not." My two feet, which had previously stopped in the middle of the road, took another step and prepared to walk back towards the royal castle. The previously hopeless expressions of Tifa and Tina returned to showing happiness. Walking behind me, both Tina and Tifa kept looking around the royal capital.

Tina and Tifa’s instincts towards everything happening in the royal capital gave them a dangerous feeling. Many powerful beings in the royal capital now stood guard at night. Therefore, almost all of the guards in the capital already knew my identity as the future son-in-law of their king.

Chapter 53: Personal Maids

10 minutes later, Tifa, Tina, and I stopped in our tracks when we stood facing a giant palace gate. Many carved dragon statues could be seen around the gate. After all, this was the only main castle of the Dragonia Kingdom.

Many citizens of the Dragon race considered the royal castle of the Dragon Realm as a dragon's lair that always protected them from external threats. Maybe that was also the reason why the three dragons who previously intended to do bad things to Lilith had tried their best to lure her out of her nest and then trap her as planned by their master.

Because I had thwarted the empire's plan to lure Lilith out of her nest, every plan that had been neatly laid out by the Dragon Emperor had been destroyed. Both the empire and the Dragonia Kingdom would sooner or later resolve their conflict over what happened today.

'That's right. Didn't I get the Flower of Thousand Nights as a reward from the system for successfully killing those three intruders? I'll have to try it later and place it inside the bedroom window.' A small smile appeared on my face. When I wanted to continue my steps and jump into the castle, the back of my clothes was tugged by Tifa and Tina.

The current situation made me feel a little awkward inside. It's not a good thing for me to let those two beautiful girls act sad in front of the royal castle. For some reason, chuckles could be heard coming from around the place.

"My dear son-in-law, the reason you brought those two elf girls was to make them your personal maids?" The soft voice that spread through the place began to remind me of the figure of Lilith. My previously nervous face showed respect. My body, which had previously stood straight, began to bend like that of a subordinate.

The figure of Lilith appeared in front of Tifa and Tina. Instead of caring about my condition, which was now in a state of fear, Lilith decided to touch the heads of the two elf girls and began to check the condition of their bodies.

"Two mysterious girls. Lucien, you were lucky because you managed to save them from the difficult times they were going to face before. I will allow them to live in the castle. But they will forever be your maids. Do you understand?"

"I... Eh?" There was no way I could continue my sentence after hearing Lilith's agreement to accept Tifa and Tina as my personal maids. This was not at all part of my plan from the start. On the other hand, I didn't really want the two girls to be used as maids.

Two girls like Tifa and Tina were not ordinary girls at all. These two girls, who were like high-ranking noblewomen, were enough to prove that their status in the Spirit Continent was no lower than that of a royal family.

"You two. Tina, Tifa, I beg you to express your gratitude to my mother-in-law. She has accepted you as my maids in the castle."

No answer could come out of Tifa and Tina's mouths. The current expressions of Tina and Tifa were like those of two girls who had encountered the figure of a monster from ancient times. That was also the reason why Tifa and Tina couldn't control their confused thoughts after imagining the incredibly terrifying figure of Lilith.

Almost part of Tifa and Tina's souls floated out of their bodies after encountering Lilith's beautiful gaze. Even though the two girls almost lost consciousness, Lilith didn't really mind their scared attitude when facing her.

"By the way, you also have to sleep early to be able to visit the empire in the morning. You two should also prepare quickly. If you don't wake up on time... you will suffer the consequences~."

Buk—

The consciousness of Tifa and Tina, who had previously been half-conscious, now completely faded as they fainted. Listening to the threatening words that came out of Lilith's mouth gave them a terrible feeling in their hearts. From Tifa and Tina's point of view, the expression shown by Lilith earlier was no different from that of an evil woman.

After Lilith disappeared into her private lair, my expression couldn't reveal anything other than laziness. Instead, I decided to look at the condition of Tifa and Tina before taking them back into my arms.

Letting Tifa and Tina fall outside the castle was not at all polite for a man like me. However, Tina and Tifa's current status was as my personal maids. For that reason, I decided to take them back to my room.

Time continued to pass, with me now asleep beside Athena and Elize on either side of me. Actually, the two soft sofas in my room could accommodate Tifa and Tina's bodies as they lay on them. Both Elize and Athena were my women. Therefore, there was no way I would allow two foreign women like Tifa and Tina to sleep in bed with me.

The next morning, Tifa and Tina's eyelids began to open when they heard the sounds of birds chirping from above the castle. When they looked up from their sofa, Tifa and Tina's gazes began to focus on the figure of a man who was now asleep with two beautiful women on either side of him.

"Sister... was last night a dream?"

"No... it wasn’t a dream. Tina, your sister thought we were now maids of that human..."

No answer could come out of Tina’s mouth. What Tina had thought the night before had completely come true. Due to Lilith’s interference in making her and her older sister the human’s personal maids, both Tina and Tifa had their own thoughts even after submitting to a human’s orders.

There was no problem whatsoever for Tifa and Tina to become Lucien’s maids. I was also one of the reasons why Tifa and Tina could live to this day after escaping from the three dragons. My meeting with those two girls was a fate that Tifa and Tina could never have imagined.

Suddenly, screams could be heard throughout the royal capital. A bell-like sound that resembled a bat emitting waves began to spread and reach the ears of all the citizens in the capital. My two previously closed eyelids began to open, and I looked at everything around me.

"You guys... I didn’t expect that last night’s events were real. So you are now my maids?"

"Um... greetings, Master. From now on, Tina and I are your maids. Don’t hesitate to ask us for anything other than ’that’ thing."

Chapter 54: Approval

A coughing sound involuntarily came out of my mouth. Listening to "that" sentence that came out of Tifa’s mouth, I could easily understand it. Because the two girls in front of me are both girls from the Elves race, they have a long lifespan, which gives them body postures younger than the average human in general.

Although the physiques of the two girls were no different from those of 13-year-old girls, they were over 20 years old and possessed strength far above that of the average human being. Therefore, I decided to forget the meaning of the words Tifa had given me previously.

Only Elize and Athena can be my women for now. Adding two foreign women like Tifa and Tina is no different from making me a jerk. Without paying attention to what had happened previously between the two girls and me, I started to wake up Elize and Athena, who were still sleeping on either side of me.

"Lize... Hena. Hurry up and wake up from your sleep right now. Do you want us to be late when we go to visit the imperial capital? We have to get ready now."

Sigh—

Lazy sighs could be heard coming out of Elize and Athena's mouths. Their beautiful and sexy bodies began to appear before my eyes. With both women's hands now starting to lift upward, followed by their transparent clothes, I could easily peek at every visible part of their beautiful nipples.

There was no way an ordinary man could restrain himself after witnessing the beautiful sight before him. Because the sleepwear worn by Athena and Elize was transparent enough for me to fully peek at every inch of their bodies with my naked eyes.

Luckily, the clothes that Athena and Elize currently wear are only shown specifically when they sleep with me. That's also the reason why I was so happy when I was able to sleep with Elize and Athena for the past three days. For some reason, uncomfortable looks appeared in both Tifa's and Tina's eyes.

Witnessing the shocking sight before them was enough for Tifa and Tina to lose their identities as intelligent living beings. The two female dragons, who were very strong and famous before them, now showed their shameless attitudes when they were next to a man.

Both Tifa and Tina were completely unaware of the identities of Athena and Elize as the two prodigies of the Dragon Realm. On the contrary, what Tifa and Tina felt when they stared endlessly at Elize and Athena gave them a heavy feeling in their hearts.

The pressure that Tifa and Tina felt when facing Elize and Athena gave off the pressure of incredibly strong dragons. In fact, this pressure was much stronger than that of the three dragons Tifa and Tina had previously encountered. Therefore, Tifa and Tina decided not to behave badly when they were in the same room as Athena and Elize.

"Good morning, Cien. You seemed to have had fun the night before."

For some reason, coughing sounds started coming out of my mouth. The reason why I was able to escape from Athena and Elize's guard the night before was because of my skill in mastering Shadow Killing. In just one step, I could easily penetrate and pass through every wall in the castle.

There was nothing that Athena and Elize couldn't understand after they felt the presence of Tifa and Tina in the same room. The two women thought that Tina and Tifa were now part of my future women. For that reason, Elize and Athena did not decide to ask further about the identities of Tifa and Tina.

"Oh? Are they two girls from the Elves race? Moreover, they were born with the blood of nobles from the High Elves race! I can feel that the amount of magic energy in their bodies is very abundant and has an extraordinarily large capacity." The praise that came out of Elize's mouth surprised Tifa and Tina a little and made them subconsciously stand

up from their seats. The two girls began to introduce themselves when faced with the two terrifying women in front of them.

"I am Tifa, and the woman next to me is Tina; she is my little sister. I hope from now on you can look after us two sisters."

"Two sisters? Hehe. No problem. You are now part of 'our' family too. So don't worry about your living expenses from now on!"

Tifa and Tina's expressions began to show confusion before they finally decided to express their gratitude to Athena. Even though they were confused and wanted to know why Athena was showing her friendly attitude towards them, both Tifa and Tina didn't mind Athena's suspicious attitude at all as long as the woman was willing to help them deal with their life problems in the Dragon Realm.

No words could come out of my mouth after listening to the conversation among the three women. The conversation between Elize, Athena, and Tifa gave me a bad feeling in my heart. For some reason, the thought that Athena and Elize wanted to make Tina and Tifa my women started to creep into my mind.

But to think that the two elf girls in front of me would become my future women is not a bad choice. Still, they were elf girls no older than 20 years old. Even if they were around the same age as me, they were still much younger than the average young human.

"Now we have to prepare. Lucien will soon fight the young master of the Vermillion family. I am sure that he will be able to win against that bastard." An expression of disgust began to appear on Athena's calm face. Recalling the moment when Athena first met Charles unconsciously increased the anger within her toward this man. The attitude shown by Charles when they first met was no different from that of a scoundrel trying his best to tease Athena.

A lowly family like the Vermillion family is considered lowly in the eyes of the Lucifer family. Every generation of the Lucifer family considered the Vermillion family to be members with lower-class bloodlines. Even so, the fate of the Vermillion family over a thousand years gave them full rights to sit on equal footing with the Lucifer family.

"I believe that Cien will be able to win against that man. Don't worry too much. As Cien's master, I am the only woman who knows the true strength of our darling."

"Since you have said that... fine. I believe that what you said is true!"

After a brief conversation between Elize and Athena about the percentage of my chances of winning in the fight against Charles, the two women began to prepare to change back into the clothes they usually wore in their daily lives. From the beginning, Athena and Elize's clothes had been the softest and most elegant clothes in the entire Dragon Realm.

Chapter 55: Soul-Life Earring

On the outside of my room, my face showed a little curiosity towards the expressions shown by Tifa and Tina. Tifa and Tina's current expressions showed their lack of understanding. From the perspective of those two women, the strength displayed by me right now was no different from that of a Great Dragon stage dragon.

The strength shown by me when fighting against the three dragons had completely given Tifa and Tina a feeling of admiration for the extraordinary strength I had shown earlier. On the other hand, both Tifa and Tina already knew Charles's identity as the young master of the Vermillion family.

Every living being throughout the world knows the identity of the Vermillion family as one of the top-class noble families in the Dragon Realm. Even various races and species, such as the Elves and others, do not have full rights to meet members of the Vermillion family in person.

The main skill of the members of the Vermillion family is their power, which focuses solely on the Fire Element. Most dragonborn talents could easily burn the sky and the ground with just one blast. Therefore, Tifa and Tina couldn't hold back their scared expressions when they found out that their master was going to fight against the young master of the Vermillion family.

There was nothing Tifa and Tina could do to help me win against Charles. As my two maids, both Tifa and Tina couldn't help but feel worried when they heard the bet made between the two parties.

Breaking off the engagement between Athena and me was a stupid act that could endanger the lives of Tifa and Tina in the castle. This is also the reason why Tifa and Tina hoped they could help me with all their abilities. If I lost the fight against Charles, they couldn't help but imagine a time when I would be expelled from the Dragon Realm and then thrown back into the Life Continent.

"Master, do you need the help of the two of us? We will help you with all our strength just for your victory."

Listening to the offer of help given by Tifa and Tina gave me a slight feeling of inferiority in my heart. The expressions that Tifa and Tina showed towards me were no different from those of women who considered me a pathetic man. Even though I was a little angry at the hesitant attitude that Tifa and Tina showed towards me, I wasn't going to lose just because of my fight against Charles.

"There’s no need to worry. I know what you guys think of me. Plus, Tina, I will use these earrings you previously gave me." Two emerald-colored earrings appeared on the palm of my hand. Previously, I had stored the two earrings in the system’s storage room. But now I had decided to wear both earrings on my ears after seeing the actual use of the earrings.

[Soul-Life Earring: an accessory in the tier 7 artifact category that can help you endlessly restore your mana power and also increase your soul power every time you wear it. One of the greatest earrings ever created by previous artifact makers.]

Actually, I was quite surprised after seeing the ranking of the earrings that Tina gave me. Moreover, the usefulness of the Soul-Life Earring far surpassed any artifact I had encountered in the past. However, the restoration of mana power provided by the Soul-Life Earring was enough for me to win the fight against Charles.

Every artifact throughout the world has at least a tier level from tier 1 to tier 9. Most living beings throughout the world only have artifacts of tier 4 and below. To be able to own artifacts above tier 4, they must at least have a middle- or upper-level noble title.

In the Lucifer family, they also have an artifact that has reached tier 9. The only person who can use the main artifact from the Lucifer family is Lilith. As the highest existence in the Dragon Realm, Lilith had the full right to make the tier 9 artifact her own.

After Athena and Elize finished changing their clothes and walked out of my room, they began complimenting each other on their beauty in the morning. For some reason, the gazes of the two women began to turn towards the figure of a handsome man who was now wearing two emerald earrings on his ears.

The handsomeness shown by me earlier was enough to make the two women unable to hold back their perverted thoughts towards my handsome face. But the addition of the earrings that I was currently wearing had been enough to raise my charm much higher than before. Luckily, both Athena and Elize were still able to calm their minds after seeing my figure, who was now wearing Soul-Life Earrings on both ears.

"Honey, you are very handsome today! The two earrings you are wearing are very suitable for your handsome figure. Somehow, it makes me unable to..."

A coughing sound involuntarily came out of my mouth. The gazes that Athena and Elize showed towards my figure right now were no different from those of women who intended to eat me for the rest of my life. For some reason, I decided to pat Athena’s head gently.

"Next will be yours. Elize and I have made a promise that she will let me have you completely after I succeed in defeating that young master of the Vermillion family."

A large part of Athena was worried about my fight against Charles. The main strength of the Vermillion family is focused on the Fire Element. Because I was someone who studied

the Ice Element as my main element, Athena felt immense worry in her heart after remembering the weakness of the pure Ice Element.

There was no reason for Athena to stop me from fighting Charles. Even though Athena could ask her lover to withdraw from fighting against Charles, that would only create new problems in the future, which could make them unable to be together as they were now.

The self-recognition of the Dragon race is much higher than that of every race in the entire world. Admitting defeat before facing a powerful dragon was a shameful thing in the eyes of the citizens of the Dragon Realm. Therefore, there was no way Athena would let me surrender when fighting against Charles.

"Mhn. I will wait for you. Please win this match and make me completely your woman."

Chapter 56: Fight!

The main teleportation magic of the royal capital is located in the center of the capital. Everyone present at that place was a citizen of the Dragonia Kingdom who hoped that their princess's fiancé could win in the fight against Charles. However, the relationship between the citizens of the Dragonia Kingdom and the citizens of the empire was equally bad.

"Cheer up, human boy! We all believe that you can defeat that bastard from the Vermillion family! Don't let him defeat you!"

"This is all for the pride of our Dragonia Kingdom. Please defeat that bastard named Charles!"

Every action taken by Charles in the past when he visited the Kingdom of Dragonia was no different from that of a bastard young nobleman who always behaved as arrogantly as he wanted toward the citizens. The citizens of the Dragonia Kingdom were completely enraged by Charles's disgusting actions towards them. The only hope of the citizens at this time was that they hoped their princess's fiancé would win when fighting against Charles.

Bringing back the dignity that had been stepped on by the empire was the dream of all the citizens of the royal capital. But it wasn't a big deal to me at all, even if the citizens thought of me as a human. On the contrary, the expression I was showing right now was full of confidence.

"I will win and avenge every insult the opposing party has given us! I will definitely win for all of you!" One of my hands was now waving at the crowd around me. Athena, Elize, Shelia, and the others started following me onto the teleportation magic. For some reason, the gaze Ariel gave me felt slightly strange.

Luckily, the gaze that Ariel showed me previously only lasted for a few moments before she finally decided to avert her gaze from me. The incident that had happened 3 days earlier had given Ariel a bad feeling in her heart. However, not all of Ariel's family supported her in winning the fight against the indifferent attitude shown by me previously.

Ariel's feelings of envy towards my figure were no different from those of a person who had dared to take Ariel's place, which should have been hers. The biased attitude shown by Ariel's three sisters was enough to prove that they were completely on the man's side.

Actually, Ariel doesn't fully know my true strength, which can win against a level of strength above mine. On the other hand, what Ariel had been doing for the past 3 days was endlessly locking herself in her room and then carrying out small surveillance from inside her window.

What I did during these 3 days was go for walks and pamper Athena and Elize by my side. Even so, Shelia also wouldn't decide to withdraw from winning me just because her mother had approved of Elize's relationship as my second lover.

'I want to see what's so special about a human like you that would even make Big Sister Athena personally side with you.' A small grin appeared between Ariel's lips. Imagining the moment when I would lose under Charles's feet was enough for Ariel to be unable to hold back her laughter. Unfortunately, Ariel couldn't help but forget her stupid thoughts when Shelia's gaze began to fall on her.

The gaze that Shelia showed towards Ariel at this time gave her a feeling that was much scarier than during the previous days they met. Shelia's instincts regarding the attitude shown by her youngest sister towards their brother-in-law were fully realized by Shelia. However, one of Shelia's skills could make her feel the emotions of every living being that existed.

Sighs could be seen coming out of Lucius and Lilith's mouths. The attitude shown by their two daughters gave them an awkward feeling inside. This was the first time they had seen their second daughter show her displeasure towards her youngest sister.

The teleportation magic of the royal capital started to activate, and it began preparing to move us to the imperial capital. Various strange voices from the citizens of the Dragon race could be heard outside the teleportation magic. By the time I opened my eyes, the number of people in the empire was in the tens of thousands and even hundreds of thousands.

Many people from outside the empire came just to watch the match between the future son-in-law of the Dragon King and the young master of the Vermillion family. Everyone in the entire Dragon Realm knows Lucien's identity as Lilith's future son-in-law. Therefore, they decided to come and watch the match between Charles and me.

The sound of clapping could be heard above me. Three figures wearing iron-white clothes could be seen floating above on their dragon wings. No words could leave my mouth after witnessing the powerful presences above the imperial skies.

"Welcome, members of the Lucifer family. We have been waiting for you all to arrive since this morning. Please change your clothes immediately, human."

The arrogant tone of voice displayed by the guardian dragon slightly increased the anger within me. Calling me a human was no different from considering me a lowly being. Despite that, I decided not to say a word in response to the insult the guard gave me.

"Master... please don't lose. We all really support your victory." Worried expressions once again appeared on Tifa and Tina's faces. Moreover, Tifa endlessly showed worry after she and her sister were transferred to the imperial capital. This is a fight between Charles and me that will determine the fate of the two sisters and also the fate of Athena.

If I lose, the lives of the two girls will end, and they will probably be thrown back to the Life Continent. But the two girls wouldn't act stupid even if their master was human. On the contrary, the two girls endlessly gave their support and endlessly prayed for my success in winning the fight against Charles.

"There's nothing to worry about. Plus, the Soul-Life Earring that Tina gave me will also really help me in the fight later."

"What is certain is that you must not lose! If you lose, we will both be thrown away by the Dragon race..."

Chapter 57: Preparation

"Of course. I'll go right now. Lize, Hena, please look after Tifa and Tina for me. I'll go follow the three guards right now."

Elize's soft voice involuntarily came out of her mouth before I floated away after the three guards. Flicking her fingers, a dark black suit of armor appeared on both of Elize's palms.

The size of the armor was very small and could even be held with just one palm of Elize's hand. The armor was not low-tier armor. Rather, it was armor that could adjust to the size of the user's body and allow them to fight freely.

[Demonic Armor: is at tier 5 among every existing armor. One of the armors that can help you increase your defense by one level above. It cannot be destroyed unless the strength of the being is at a level above the 5th star rank.]

"Master... Thank you very much! I will use it well. See you again in the arena!"

A look of disdain could be seen in the two guards' gazes. Moreover, the guard who had previously insulted me couldn't hide his dissatisfied expression after witnessing the incident before him. For the guard, getting special attention from beautiful female dragons was what every male dragon dreamed of most.

A human succeeding in capturing the hearts of two beautiful female dragons was something the guards could not tolerate. But the human man in front of them was the future son-in-law of the Dragon Queen, Lilith. They wouldn't be able to behave badly towards me as long as Lilith was still in the empire.

"Ck. How lucky is this human brat? He even managed to get the full attention of the Frost Empress and the Black Star Dragon? He's simply not worthy of their hearts!" Whispers after whispers could be heard among the three guards' conversation. I, who was behind the three guards, could easily hear every word the three guards said. Even though I was angry, I couldn't do anything stupid while in enemy territory.

Among the crowd of citizens of the imperial capital, the figure of a handsome man around 31 years old was seen raising his head towards the place where I was hovering. He frowned and said, "So that's the person who dared to kill the three brothers? I've seen it from the recording you gave me."

The man's eyes turned slightly to the side beside him. The man's height was no less than 193 cm. Even so, dark circles could be seen under his eyes.

Most of the work the man did involved conducting various experiments on any beings that could potentially pose a threat to the empire. Now, the figure of a human who could threaten the power of the empire had appeared in the Dragon Realm. Therefore, the man decided to do further research into my extraordinary powers.

"What do you think of that human? Will he be a threat to the Dragon Emperor?"

"Unfortunately, I have to say that he can't defeat the Dragon Emperor. The current him is still too weak. But one thing I can explain about that human is that he has potential far above the Frost Empress."

Every dragon citizen within the Dragon Realm knew that Elize was the only dragon of the current generation who was born with talent that defied common sense. Apart from Lilith, who possessed endless talent, Elize was the only dragon born with extraordinary talent in hundreds of thousands of years.

"This is troublesome. Looks like we have to get rid of the Dragon Emperor's plan to lure that woman out of her nest first. We have to find a way to kill that human, no matter what it takes."

"Then every archer squad and I will follow your plan. May the Dragon Emperor live in prosperity forever."

"Hopefully, he and every one of his descendants can live forever too." The handsome man's companion showed just as much worship towards the Dragon Emperor as his companion. All the inhabitants of the Dragon Realm worshiped the Dragon Emperor as their Divine Dragon. For that reason, the Dragon Emperor was the only Dragon race that could fight as an equal against Lilith.

Only those who sided with the Divine Dragons could possess extraordinary power and stand at the top of the world. Both the Dragon race and various other races had their own gods to worship. Therefore, the balance of the entire world could not be broken as long as powerful existences like the Divine Dragon still lived in this world.

Time went on, and now Elize and the others were seated in luxurious seats. This was a private bench given by the Vermillion family to the members of the Lucifer family. However, the future son-in-law of the Lucifer family would soon face off against the legitimate heir of the Vermillion family.

In the room next to my dressing room, the figure of a man with red hair resembling flame patterns turned towards the figure of a man who looked exactly like him. A confused expression appeared on Charles's face. On the other hand, Charles had absolutely no idea why his father had come to visit him.

"Dad, what are you doing in this room?"

"I just came to give you something that the Dragon Emperor wanted to give you earlier. He said that you should drink this just to be safe."

A pill with a strange red pattern was visible on Charles's father's palm. The aura emitted by the pill gave Charles a bad feeling in his heart. Even though Charles didn't want to take the pill, the Dragon Emperor's order was absolute and something Charles could not ignore.

Taking the pill into his hand, Charles's expression returned to his disgusting look. He turned back to his father and said, "For what reason does His Majesty think that I would

lose against that human boy? Doesn’t he believe in the strength of the rightful heir of the Vermillion family?"

Shaking his head, a look of helplessness began to appear on Charles’s father’s face. Neither Charles’s parents nor the members of the Vermillion family knew why the Dragon Emperor had decided to give this dangerous pill to their rightful heir. Even if their opponent was a strong man, the members of the Vermillion family would not cheat just to win against a human like Lucien.

Chapter 58: Narcissistic Man

"Don’t ask too many questions about the Dragon Emperor’s hidden intentions. He just wants you to win this match both fair and square. This is also all for you so that we can have that woman on our side."

No answer came out of Charles’s mouth. Actually, deep down in Charles’s heart, he refused to commit any fraudulent actions just to be able to win in a fight against a lowly human. From Charles’s point of view, committing an act of cheating just to win against a human was an insult for the rest of his life.

It wasn’t that Charles felt guilty about fighting against that human in a dirty way. What Charles was worried about was that the audience would find out about the fraudulent plans carried out by the organizers. Even the Vermillion family would not be able to escape the cheating scandal that would spread through the media throughout the world.

"I understand. Since it’s a Berserker Pill, it won’t activate as long as I don’t exhaust most of my mana power. I’ll do it just to be safe."

"Hm. Good boy. Charles, you are my only worthy heir. Don’t disappoint the hopes of your father and mother. The hopes of the entire Vermillion family are now in your hands."

The father and son both showed serious expressions as they discussed the problems of the Vermillion family. Every generation of the Vermillion family had fought hard just to improve their image within the empire. And now the Vermillion family had reached the pinnacle of the empire, which gave them the highest status ever.

Next door to Charles’s dressing room, my calm expression revealed nothing but my cold face. A set of armor previously given by Elize had been successfully used by me. The energy waves that had previously leaked out of my body were suppressed simply by using that Demonic Armor.

"Okay. All the preparations that need to be made are ready. I will go now."

Back outside the dressing room, the presenter was seen floating in the sky with a microphone beside his mouth. The sound produced by the microphone could easily reach the entire imperial capital.

Every region of the Dragon Realm could watch the match between Charles and me. Even the citizens of the Dragonia Kingdom began to cheer as they watched the match between the princess's fiancé and Charles about to begin. A giant hologram could be seen surrounding every corner of the royal capital.

Not only did the Dragonia Kingdom have holograms to show the match to all its citizens, but every being under the sky also had the opportunity to watch the great events taking place within the empire. Despite that, not all races had the chance to watch a battle between two incredibly powerful prodigies.

"It's about to start! We have to see who will win between the future son-in-law of the Dragon King Lucius and the heir of the Vermillion family. This will be the most exciting match that has ever occurred in the history of the Dragon race!"

Various citizens began to show their enthusiastic expressions as they stared at the figures of the two men who were now starting to walk together. However, the citizens were not too surprised when they saw Charles's figure walking out of the hallway. On the contrary, they were all a little surprised when they saw the figure of a human with extraordinarily handsome looks.

Moreover, the citizens of the Dragon Realm couldn't hold back their amazed expressions when they saw the human man's handsomeness. The two striking emerald-colored earrings on my ears were a bit of a surprise to the citizens of the Dragon Realm. It wasn't just the citizens of the Dragon Realm who were shocked when they saw the two earrings I was wearing right now. Even the people under the sky showed expressions of disbelief when they found out the level of the earrings I was wearing.

"Oh my god! That's a tier 7 artifact, and even the armor isn't lower than tier 5? How rich is the Lucifer family? They're even willing to give these precious artifacts to this human?!"

No one knew that the two artifacts I was currently using were gifts from Elize and Tina, apart from the people closest to me. There's no way the Lucifer family would lend me these two rare artifacts. On the other hand, one of the artifacts I had now was the result of my hard work after successful negotiations with Tifa and Tina.

"Humph. I'll beat you. It's not too late if you want to surrender right now."

Listening to Charles's trivial statement didn't make me show any emotion on my face. My indifferent expression only increased the anger within Charles. For some reason, Charles's previously arrogant gaze began to take on a fierce, beast-like quality.

"How arrogant. But I will ignore your arrogant attitude. Don't be surprised because I've successfully reached the Great Dragon King stage."

"..." Still, no answer came out of my mouth even after listening to Charles endlessly praise himself. Even after I stood in the middle of the arena, Charles continued to praise himself as if he considered himself the only talented man.

"Sigh... even though you only managed to become the first male dragon to have extraordinary talent because you couldn't win against two women who were far more talented than you. Don't be arrogant just because you are the only male dragon born with extraordinary talent. Because I will soon dethrone you from your 3rd rank as the strongest male dragon of the current generation."

Every word that came out of my mouth was heard clearly by every citizen throughout the Dragon Realm. Both the audience and the two fighters' families began to show amazed and angry expressions when they heard my candid statement. Intense anger could be seen on the faces of the members of the Vermillion family.

"Our dear Charles, don't lose! Give that human boy a lesson that will traumatize him forever!"

"Oh! This is amazing! This is the statement of the future son-in-law of the Lucifer family, Lucien La. Blackheart Lucifer! Will he win or will he lose in this match? Let's watch together and prove whether what he said is true or not!"

An involuntary sigh came out of my mouth. My focus right now was only on the opponent in front of me. Even if Charles continued to display his arrogant attitude in front of me, I would not answer any of his insults a second time.

'This man dared to try to snatch Athena away from me. I will not forgive him! I will make him pay for every single thing he has done to Athena in the past. Because of this man, Athena has been sad for half a year... I will never forgive the bastard who dared to ruin Athena's family life.'

Chapter 59: Overestimated

The combat clothing Charles is currently wearing is a special suit made directly by the empire for the Vermillion family. It was an outfit that could withstand any fire attacks the Vermillion family would launch against their enemies. However, a set of red armor could also be seen on Charles's body.

A sword with a bright red pattern was visible next to Charles's waist. The power of the aura emitted by the sword was no lower than that of a tier 5 artifact. For some reason, various calculations that would occur in my fight against Charles began to appear in my head.

Every movement that Charles would make when he was about to attack me began to flash through my head. This was also one of the training sessions given by Elize when Elize and I fought each other. Not everything can always go smoothly when someone fights against an opponent who is much stronger than themselves.

Reading enemy movements is one way for those with lower strength to face opponents who are much stronger than themselves in one-on-one combat. Since Charles was a being worthy of being used as training material for me, I was able to use this battle to improve my fighting techniques much better than before.

"Ready... and... go!"

Flash—

I could easily read Charles's movements, which were as fast as sound, with just one glance. Charles's figure constantly moved from left to right and also above me. Whenever Charles moved at the speed of sound, my eyes could easily follow him as if it were normal for me.

A small grin appeared on Elize's lips. Every bit of training that Elize had given me had completely paid off, even if I had to face a Great Dragon King stage dragon. There was no way I would lose just because my opponent was much stronger than I was in terms of speed.

"That guy's attacks are not a problem for Lucien at all. He will win this match."

A loud laugh came out of Charles's mouth. He didn't know that I could read his movements even if he used his super speed. Instead, what Charles was doing right now was trying his best to surprise me with the current situation.

Charles's sword, which had previously been in its sheath, began to be pulled out, and he prepared to launch his sword attack against me, who was still standing there. Instead of dodging Charles's sword attack that was about to be directed at me, I decided to create an ice spear from my left hand and then block Charles's sword attack with the tip of the ice spear.

Plang!—

The loud impact sound spread until it reached the audience area. Neither Charles nor I showed any signs of fatigue while fighting each other. Even so, Charles did not expect that I could withstand his sword attack in such a short time.

"You turned out to be great for a human like you. Alright~. I'll be more serious from now on!"

Plang!—

The clash between weapons once again occurred above the arena. Luckily, no damage occurred to the sturdy arena building. However, every spectator in the stands could feel the extraordinary force of the impact between the two fighters' weapons.

'What's this? I didn't expect him to be this weak. No. It might have been because he had just reached the Great Dragon King stage. Neither he nor Lize was at the same level of strength. It seems I was just worrying too much.' This was the miscalculation I had been making these past three days. Charles's current strength was much weaker than I could have imagined recently. Even so, I wouldn't lower my guard just because Charles's strength was much weaker than that of other Great Dragon King stage dragons.

It was just that the arrogant attitude shown by Charles made me feel a little irritated. A man like Charles was a natural enemy for someone like me who always kept a low profile. However, my current position had not moved at all from where I had stood before.

"How?! Are you scared now? Just give up if you don't want to get hurt!"

After thinking through various calculations regarding the distance between my spear attack and Charles's sword attack, I decided to lower my spear and let Charles attack me directly. The spectators who witnessed the incident occurring in the arena could not hide their confused expressions at the action I had taken by lowering my weapon.

"No! Lucien! What are you doing?!"

"Calm yourself, Shelia. He's fine. Don't you see the current situation?"

There was no visible wound on my palm even after receiving a direct hit from Charles's sword. My right hand, which had previously withstood Charles's sword attack, began to be coated with ice power that spread throughout my palm. There was no more smug expression on Charles's face after seeing how I was able to block his sword attack with just one hand.

"Why aren't you serious? Hurry up and use your true form. I will also get serious if you release your true form."

The words that came out of my mouth didn’t reach Charles’s ears at all. A memory of Charles previously meeting his father came back to his mind. The concern that the Dragon Emperor had shown towards Charles proved the huge difference between my strength and Charles’s.

The moment Charles tried to pull his sword back from my grasp, he began to spread the full force of his great fire power and tried to make me let go of his sword. A small laugh started to come out of my mouth. Stretching my neck for a while, I decided to move from my spot and prepared to launch my attack.

"Ha ha... that doesn’t scare me at all. But forget it. Let’s do it!" Charles’s form, which had previously been human, began to change into his half-dragon form. Two sharp horns began to appear on both sides of Charles’s head. Both the skin and wings of Charles completely changed and became covered with dark red scales.

A hot pressure like the sun endlessly surrounded all sides of the arena. Some of the buildings around the arena began to feel the impact of the fire pressure displayed by Charles, and they crumbled and melted after being unable to withstand Charles’s enormous power. For some reason, a serious expression appeared on my face for the first time since standing in the arena.

This was the moment when I would seriously fight against Charles with all my abilities. There was nothing I could do right now if I received an attack from the incredibly terrifying Charles. On the contrary, I would try my best to defeat Charles, who was now preparing to show half of his strength.

Crack!—

"I’ll start it!" Every part of the arena that Charles stepped on began to crack, and various fire auras that covered most of the arena began to spread and reach my entire location. The air around me started to feel heavy because of the heat I was feeling right now. But I wouldn’t show a pained expression even if I had to face Charles’s incredibly terrifying abilities.

Closing my eyes, a cold and oppressive aura began to surge out from my entire body, preparing to attack Charles. In just a few seconds, every fire ability previously released by Charles started to freeze from just one of my attacks.

Blocks of ice began to appear from each end of the arena. Even the heat that had previously surrounded the entire arena began to turn into a piercing cold. At the same time, most of Charles’s body had completely turned into a block of ice, making him unable to move.

***

Discord Server: discord.gg/4yCzqTCUhp

Chapter 60: Strength Gap

"Things like this shouldn't happen! How could you withstand my attack with just your lowly ice abilities?!"

The sound of clicking tongues could be heard in the arena above the spectators' seats. An endless expression of disgust crossed Elize's face. As Lucien's master, Elize was very proud of her disciple, who could freeze every fire attack launched by the young master of the Vermillion family.

Every living being in the arena knew the greatness of the Fire Element possessed by the Vermillion family. But a human like me could easily freeze the Fire Element of the Vermillion family with just one breath. That reason alone was enough to show how much my mastery of the Ice Element ability was far better than Charles's Fire Element ability.

My control over the Ice Element had reached the level of the Dragon Emperor stage. All this was also thanks to the help given by Elize after I succeeded in seizing her virginity on the first night we had sex. Recalling the events of the previous few months gave me a feeling of happiness in my heart.

Feeling happiness when I could be by the side of a woman like Elize had completely covered my feelings of loneliness for half a year. But Elize would forever be my master. Therefore, I would show my respect when I had to face Elize, even if Elize and I were alone.

"It turns out that the young master of the Vermillion family is nothing. Could he even be defeated just by facing a weak human? He is simply not worthy of the title of heir of a prominent family!" Various spectators in the arena began to express their disdain for the bad fight shown by Charles. None of the spectators expected that Charles would be defeated with just a few attacks from that human. Even though the match in the arena was continuing, the spectators had already fully understood the difference between the strength of Charles and that of the human man, which was like heaven and earth.

There was nothing special about Charles in the eyes of the spectators. For some reason, the spectators endlessly praised the greatness of Charles's opponent, who was just a human. It was very rare for a human to be able to fight superiorly when facing a powerful dragon like Charles.

Charles's current level of strength was at the Great Dragon King stage. But my level of strength was only at the Great Dragon stage. For that reason alone, it was enough for the spectators in the arena to consider Charles to be the weakest dragon among young dragons in general.

"What are you doing, Charles! Stop playing around! Take down that human immediately!"

No answer could come out of Charles's mouth after listening to his mother's screams. A large part of Charles was shocked and afraid after witnessing me manage to block his attack with an expressionless face. In Charles's lifetime, this was the first time there had been a human in this world who could withstand Charles's attack so easily.

"I... Mom... I will beat him! I have to win. This is all for our family!"

Roar!—

A loud noise involuntarily came out of Charles's mouth. Charles's form, which was previously half-dragon, began to show changes into his true form. One of Charles's hands, which was previously in human form, began to change into its giant form. Without caring about my reaction, an attack with sharp claws suddenly appeared in front of me at a speed that was beyond common sense.

Slash—

The side of my cheek got a small scratch after being scratched by Charles. The speed of the current Charles had increased several times faster than when he was in his human form. On the contrary, I endlessly felt a sense of joy when I was able to fight against a Great Dragon King stage dragon.

My battle against the three dragons the night before had given me a massive improvement in terms of close combat. The current battle was enough for me not to feel any burden when facing Charles. From my point of view, Charles's movements were only slightly faster than those of the two dragons.

"You should have used your true form earlier. See? You will now be defeated by me for daring to give your opponent time to think. Charles, let me show you the power of a human that you have underestimated all this time."

My two feet, which had previously stood on the arena, began to float with dragon wings on both sides of my back. The colors of my two dragon wings currently had a white and black motif, showing the combined strength of Athena and Elize. I didn't know beforehand how I could make changes according to what I wanted.

But I didn't mind it as long as I could use the half-dragon form of my two precious ladies. The spectators from various races couldn't hold back their expressions of disbelief when they saw a human being who could transform into the Dragonoid Transformation form. Every spectator present at that place fully knew that I was a pure-blooded human.

Most powerful beings could easily tell the true species of a being. For some reason, the spectators from the dragon side began to imagine a legend that had long been worshiped by the Lucifer family.

It is said that one day a human would appear in the world and then change every order of the corrupt Dragon Realm. Many species of the Dragon race did not believe at all in the legends that had been passed down from generation to generation among members of the Lucifer family. But now they had all witnessed a human who could transform into the form of a dragon with just his human bloodline.

This was also very surprising for the humans who were present as spectators on the arena benches. They all did not expect that there would be a human in this world who could transform into a half-dragon like the Dragon race. However, in the entire history of the world, this was the first time that a human could transform into a Dragonoid Transformation form without having the bloodline of the Dragon race in his veins.

"Ah... It's been a long time since I was serious when facing a tough opponent. Apart from my father-in-law and master, you are the third person who can make me use this form when facing someone like you. You should be proud and grateful for succeeding in cornering me this far~."

[Successfully activated Dragonoid Transformation in perfect form. Each statistic of the host will increase by 10x.]

[MP: 133,999/133,999.]

A loud snort came from above me. An attack from the giant palm of a dragon unconsciously struck the top of my head directly. Even though I felt a little pain when I received the attack from the dragon's giant hand, I didn't show any expression other than the sharp look in my eyes.

"Sword Creation!"

Two swords began to appear in both of my hands. My movement in holding the two swords only lasted for a few fractions of a second before finally managing to scratch various parts of Charles's entire body. A scream came out of Charles's mouth.

Charles's true form now gave him extraordinary defenses to withstand every attack from my swords. Even if I had strength far above the average Great Dragon King stage, I still couldn't completely break through the ultimate defense of Charles's dragon scales.

The fire defense that spread on all sides of Charles's form made me decide to move slightly away from the front of Charles. An unfamiliar energy fluctuation began to surge out of Charles's body. But still, Charles's current changes had absolutely no impact on my victory.

"That's it... don't tell me that this brat..."

"What's wrong with you, Lilith? Have you noticed anything?"

Listening to her husband’s question slightly woke Lilith from her chaotic thoughts. The pressure of power released by Charles at this moment gave a familiar feeling in Lilith’s memory. For some reason, the energy fluctuations released by Charles at this moment were completely no different from those of a dragon that had turned into a crazed dragon several years before.
