Reborn as the Dragon King's Son-In-Law

Chapter 71: Breakthrough - R18

"Before that, Mother, can you leave this room? Maybe you want to witness the moment when your daughter loses her virginity?"

For a moment, no answer could come out of Lilith's mouth. Clearing her throat slowly, Lilith could only reveal a nervous expression before she finally decided to walk away from the room.

After Lilith left Lucien's room, both Elize and Athena started to show serious expressions. Being near Lilith when they were about to have sex with Lucien was the craziest thing they had ever done.

The thoughts of Athena and Elize at the moment were to try their best to help Lucien regain consciousness as his original self. Currently, almost all of Lucien's body was starting to emit a black aura that could give negative emotions to people standing near him. Luckily, Elize and Athena did not experience the impact of the negative emotions emitted by Lucien at all.

"Cien... I will help you. I beg you not to rampage again."

Both of Lucien's legs and hands were now restrained by handcuffs created from Lilith's power. There was no way for Lucien, who had lost control of his body, to free himself from the handcuffs that Lilith had given him. On the contrary, Lucien's previously dark face began to show an emotionless expression.

[Ding! Your transformation has reached a limit that only the host should be able to demonstrate. Please calm yourself and wait a little longer.]

"How can I calm my mind when I witness the crazy things I've done before? This doesn't make any sense at all!" At first, I almost completely lost control of my body. But because of the function of the Soul-Life Earring, which can provide soul protection from negative energy, I managed to regain my consciousness as Lucien.

That was also the reason why I was able to avoid attacking Elize and Athena when I tried to carry out the terrifying attack that I demonstrated earlier. Both Athena and Elize were completely unaware that I was able to control my body for a few moments before the attacks managed to reach their bodies. For some reason, my consciousness within my

subconscious began to disappear, and I unconsciously regained my senses in the original world.

A soft kiss could be felt between my lips and the lips of a woman I love. Maybe that was also the reason why I regained my consciousness when I received a kiss from Athena. A memory of Elize and me kissing for the first time came back to my mind.

The events happening now were no different from when I first lost control of my body. After receiving a kiss from Elize for the first time, I somehow managed to regain my senses. For that reason, I also think that the kiss given by Athena right now is one of the reasons why I managed to regain my consciousness as Lucien.

This wasn't a problem at all for me after successfully regaining my consciousness as Lucien. I had managed to maintain control over my body from the start. However, the function of the Soul-Life Earring can provide soul protection to the user who uses it.

For some reason, I felt the power of my soul becoming much stronger than before. Suddenly, the system panel involuntarily appeared in front of me. Even though I was surprised, the attribute panel shown by the system currently displayed how I had progressed after successfully reaching the Dragon King stage.

Every statistic shown by the system currently shows the development of my strength, which has increased very rapidly. There was not a single day when I could imagine that there would come a time when I would have statistics above the average of living beings in general. For some reason, the statistics the system currently shows regarding my strength are no different from those of a Dragon Emperor-stage expert.

Perhaps the strength that I currently possess has grown much greater than when I first broke through to the Great Dragon stage. After all, the difference between the Great Dragon stage and the Dragon King stage was like heaven and earth and could not be bridged by just one small level.

"Cien, I'm ready to give you my virginity. Please stop resisting."

Both Elize and Athena were completely unaware that I had now completely regained my senses. Instead, I decided to keep my mouth shut and let them play with my whole body.

The armor that Elize previously gave me had completely shrunk to its original size. For now, the armor had been completely returned to Elize. Instead of stopping and letting Athena continue playing with my body, Elize decided to join Athena in pampering my cock.

The two tongues of Elize and Athena endlessly licked my cock, which made me unable to contain the feeling of happiness in my heart. Even though I couldn't suppress the sound of my heart beating nonstop, I let Athena and Elize continue playing with my little brother, which had become as hard as a rock.

As Elize and Athena licked every inch of my cock, throb after throb could be felt throughout it. But Elize didn't mind Athena's action of trying to play with their lover's cock alone. Instead, Elize let Athena try to take my cock deeper into her mouth.

This was the first time in her entire life that Athena had felt a man's cock. As an innocent and pure woman, the only man Athena thought about for the rest of her life was Lucien. Until now, the only man Athena loved was Lucien.

Since Athena had completely succeeded in taking my cock into her mouth, I would not hesitate to shoot my semen into her narrow and wet mouth. No expression could be seen on my face other than contentment and happiness.

"Ha... that... Why does it taste so much? I almost lost consciousness just to be able to drink such a large amount of his semen."

A nod began to emerge from Elize's head. There was no problem with Athena being able to drink all of Lucien's semen. As the first woman who had intimate relations with Lucien, Elize had experienced several times the quality of my semen, which could increase the strength within a woman's body.

Chapter 72: Athena's First Time - R18

"Don't let Cien's semen go to waste. It is a precious thing that Cien has given us. A human male born with the Velvet Prostitute Physique is destined from the start to conquer more than a hundred women in his lifetime. There is nothing strange about you feeling the quality of Cien's semen, which can increase the amount of mana in your body."

Several times, a small part of me had awkward thoughts after remembering Elize's words. The quality of my semen, which can increase a woman's strength, was completely unknown to me until now. However, there was not a single day when Elize revealed that she had gained increased strength after having sex with me.

In fact, it is not a secret at all that the quality of my semen can increase the strength of a woman who has had intimate relations with me. The system had told me everything about the function of the Velvet Prostitute Physique. Therefore, I was simply confused and surprised after finding out that Elize had gained some benefits from having sex with me for several months.

"You're right. I won't let a single drop of Cien's semen go to waste. This is the seed Cien gave me. I will put all of his semen in my mouth."

Both Elize and Athena had their own thoughts on dealing with Lucien's lust. Moreover, female dragons are born with a possessive nature towards their partners. And now Athena had tasted Lucien's semen while it was in her mouth.

The nature Athena was showing right now was no different from when Elize first had sex with me. A memory of Elize previously storing a large amount of my semen in her womb came flooding back into my mind. Even so, I would not mind any action that Elize wanted to take with my semen in her womb.

As long as both parties did not agree to have a baby, it was not a big deal at all. Elize and I promised from the start that we would not go too far for now. With my current strength, which was much weaker than that of the dragons in the empire, I had to restrain myself from having a large family, which could cost me my life at any time.

"Please come forward and immediately give your virginity to Cien. He must be able to control his power, which is now rampaging relentlessly."

Sighing, Athena's previously fearful expression turned calm. A face full of affection began to appear on Athena's face. This was Athena's first experience of having sex with her lover.

If not for her father previously stopping them from having sex, Athena would have been the first woman to become Lucien's lover. But Elize was the first woman to give her virginity to Lucien. Therefore, Athena decided not to think about it any further and instead focused back on Lucien's hard and large member.

Aiming Lucien's huge and powerful rod, Athena prepared to insert Lucien's cock completely into the entrance of her pussy. As time went by, painful moans escaped from Athena's soft mouth.

Excruciating pain endlessly spread throughout Athena's entire body. The attitude Athena was currently showing while losing her virginity was no different from the attitude Elize

had shown when she first lost hers. As a female dragon, losing one's virginity is a form of loyalty given to one's mate.

For now, I decided to open my eyes after listening to the various notifications that appeared in front of me. Every skill that Athena had learned throughout her entire life was successfully acquired by me. Still, I could not help but show a small grin.

[You've successfully captured the virginity of the Dragon Princess. You've acquired every skill that the Dragon Princess possesses.]

[Special Abilities that you've gained from obtaining the Dragon Princess's virginity: Black Star Primordial, Star King Transformation, Moonlight Darkness, Annihilation Void, Origin Creation, Star Element, Thought Acceleration.]

"Athena... are you okay? I don't know how to say this. You even had to lose your chastity." A guilty expression appeared on my face. Both Athena's gaze and mine met each other. A slight expression of surprise appeared on Athena's face, which was still showing signs of pain.

Not a single word came out of Elize's mouth. At first, Elize thought that I had completely fallen into madness, but she realized that I had fully regained my senses the moment Athena managed to put my cock into her mouth.

Just by hearing the sound of my breathing when I ejaculated was enough for Elize to realize my act from the start. For the first time, Elize thought of herself and Athena as foolish women. This was not the first time Elize had known how her lover awakened from his madness when Lucien and his first lover shared their first kiss.

"You deceived us? Why didn't you tell us from the start that you had regained your senses?"

"Uh. I just wanted to give you a surprise. And this was all to allow Hena to fully accept me as her own."

After listening to my explanation, Elize decided not to ask any further questions about the act I had put on earlier. As long as I had completely regained my senses, it was not a big deal for Elize at all.

Letting her lover know what it felt like to take the virginity of his first lover was a good choice in Elize's eyes. I would not allow myself to lose consciousness when Athena gave me that first experience. Losing consciousness when a woman I loved gave me her virginity was a sin that could never be forgiven for the rest of my life.

"You're mean... If I had known it would hurt this much... I shouldn't have..." A sad and disappointed expression began to appear on Athena's face. At that moment, there was nothing Athena could think about other than the pain she felt after losing her virginity.

Instead, Elize decided to hug Athena as if she were an older sister comforting her younger sister.

As a female dragon who had lost her virginity to the same man, Elize knew how painful it felt when they first lost their virginity. She could not ignore Athena, who was now shedding tears after losing hers.

"Don’t pay attention to it. Just focus on your pain. Because Cien still has support on both his hands and feet, you can do whatever you want to his body."

For some reason, I could not respond to Elize’s words regarding the situation I was currently experiencing. Letting myself be ravished by Athena was not a bad choice at all. On the contrary, I felt very happy that I could unite with Athena forever.

"But you have to help me. This man won’t be defeated if I do it alone."

"Don’t worry~. Let’s work together to get this man off this bed. I’ve also wanted to punish him for a long time."

An expression of both fear and joy swept across my face. Handling two powerful female dragons was absolutely not an easy thing to do. Even though I was afraid of dealing with the two female dragons who were trying to drain every last drop of my semen, I decided to remain silent and let Elize and Athena take charge of the situation unfolding on the bed.

Chapter 73: Family Rules - R18

The sounds of wetness and the slapping of flesh rang incessantly throughout the silent room. Athena, Elize, and I started to show our tired faces. Moreover, I couldn’t hold back my half-dead expression as I tried to fight against the attacks of the two women, which had become much fiercer than before.

My whole body was constantly being restrained by my hands and feet, not allowing me to move freely from my place. For some reason, a dissatisfied look started to appear on my face.

As a man, being completely dominated by two inexperienced women was the biggest humiliation of my entire life. I am a man, and as a man, I should not allow myself to be defeated in bed by two women who had just lost their virginity.

This was also the reason why I couldn’t hold back my half-dead expression as I tried my best to withstand the continuous attacks from the two women while on the bed. Instead of protesting and intending to stop having sex, I decided to continue my relationship with the two women who were now relentlessly dominating me.

Various expressions of tiredness, guilt, and regret could be seen on my handsome face. I shouldn’t have deceived Athena when she gave me her virginity. But now I have received retribution for the charade I put on for Athena.

With myself being endlessly tortured by Elize and Athena on the bed, I felt the stamina in my body starting to decrease every time I released my semen into Athena and Elize’s wombs. On the contrary, I couldn’t hold back my pleading expression at what was happening inside that room.

Happy expressions began to appear on Athena’s and Elize’s faces. Elize’s pussy was currently positioned above my face. For some reason, I started to smell the scent of Elize’s pussy when it was close to my nose.

"Just continue. It looks like he will be defeated by the two of us sooner or later."

"Hm~. I also can’t continue anymore... even though we can make him tired, Cien’s stamina is much better than we expected."

It wasn’t just me who had almost reached my limit in handling Elize and Athena in bed. On the contrary, even Elize and Athena had completely reached their limits while having sex with their lover. Even though Athena felt tired after having sex for several more hours, she would not give up even if she had to lose consciousness.

"You two are too cruel... this is the first time I have been tortured by two beauties like you. Of course, I have also almost reached my limit."

A small snort came out of Elize’s mouth. Moving her pussy away from my face, Elize sat back behind me and let my hair receive a soft touch from the palm of her hand.

The palm of Elize’s hand, which started playing with my hair, slightly gave me a warm feeling in my heart. As a master who had taught me for half a year, Elize knew every trauma her disciple had from when he first experienced torture at the hands of humans.

Being raped by hundreds of women was not at all attractive in the eyes of an innocent young man like Lucien. Shortly after I was captured by the bandits, I was immediately sold into a brothel, and then I was used as a means of satisfying lust intended only for women.

That was also the reason why I didn’t want to get too close to foreign women other than Athena. As for Elize, she was one of the special women who had been with me for half a

year. Therefore, my being alone with Elize did not have any psychological impact on my mind.

There were only two women loved by me at the moment; Elize and Athena were the only ones. Maybe I would have more women as partners in the future. After all, that was one of the tasks the system gave me after I inherited the physical body of the Velvet Prostitute Physique.

From the start, being born with the Velvet Prostitute Physique was one of the reasons why I could be used as a tool to satisfy the desires of noble women. Since I first found out that I was the heir of God King Velvet, I finally realized that my fate had been determined when I was first born into this world.

Instead of getting angry and cursing the system that had dared to keep it a secret for so long, I couldn't do anything after getting a second chance to live freely and successfully escaping from that brothel. My only goal for now was to give Athena a happy life. As long as Athena could have a happy life, I wouldn't mind what happened in the future.

"I hope you can forgive us, Cien. I know that this has had a very bad impact on your psychology. You are very afraid and traumatized by your past, in which you were endlessly harassed by human women. Therefore, I just want you to be able to throw away your trauma and focus on your current life."

"Master, you talk too much. Actually, I don't think too much about my past when you guys did bad things to me. I became very happy when you and Athena pampered me one by one in bed."

A small grin involuntarily appeared on Elize's beautiful lips. Listening to the answer given by her disciple gave Elize a feeling of relief and pride in her heart. However, the man beneath her was still the only disciple she loved the most.

No one in this world could replace Lucien as Elize's only disciple and lover. Elize's love for me had risen much higher than it was three days ago. As a female dragon, having a strong partner like Lucien could increase the sexual desire of every female dragon in the entire Dragon Realm.

"You make me love you even more, Cien. By the way, I know that you really don't like sexual relations between people of the same sex. Therefore, Hena and I have decided to make a rule in our family not to have same-sex relations, not even kissing."

Without realizing it, my previously gloomy face began to show an unusually bright and happy expression. What Elize said about me hating same-sex relationships was common knowledge. However, I don't want any of my women to kiss each other, even if they are members of the same sex.

It is my principle not to allow any of my women to have intimate relations with each other. If anyone dares to have same-sex relations behind my back, I will not hesitate to throw them out because they dared to break the rules in the family that I created with Elize and Athena.

The two women near me also realized what I disliked deep in my heart. Both Athena and Elize hated same-sex relationships and considered them a disgusting act. From the beginning, female dragons only had one partner they loved throughout their entire lives.

Chapter 74: Benefits - R18

"Then I will leave the problems of our family to the two of you. In the future, we will create an ideal family that will allow us to rule over the entire world."

"Oh my. Honey, you really have bold ambitions. Hena and I will always support you in whatever you want to do in the future. Therefore, don't hesitate to go further than you are now."

As if the sky had answered my will, the handcuffs on my hands and feet were successfully released by the strength that was now flowing endlessly out of my body. This is one of the functions of the Velvet Prostitute Physique, which can increase the owner's endurance during sex with his partners. For that reason, both Elize and Athena once again couldn't help but reveal serious expressions upon realizing the changes that had occurred within me.

"Now let your husband be on top of you. It's time for me to lead you two in bed~" A perverted expression started to spread across my face. My sharp and lustful gaze increased the nervousness and fear within Elize and Athena. However, they had now completely reached their limits after having sex with me earlier.

Resuming sexual relations with me, who had now regained my stamina, was no different from a nightmare for Athena and Elize. For some reason, regret began to well up within Athena and Elize. Even so, both Athena and Elize decided to lie on the bed and let their lover do what he wanted with their bodies.

The index finger of my left hand began to move towards Athena's pussy. Previously, Athena and I had finished our last sexual encounter. Therefore, I decided to give the current turn to Elize, who had spent half of her time guiding Athena in having sex with me.

"Finally... I can finally feel your cock again. Cien, I really love you. Your master really loves you..." Various feelings of love from Elize began to be expressed to me while we were having sex with each other. Every affectionate sentence that Elize gave me began to increase the beating of my heart. Instead, I couldn't help but decide to keep my index finger away from Athena's pussy and focus on having sex with Elize.

A dissatisfied look appeared on Athena's face. The pain that had previously affected Athena's stomach had completely disappeared and was replaced with a feeling of pleasure. After experiencing the pleasure of having sex for several hours, Athena didn't want to let her lover give his cock to another woman besides herself.

But unfortunately, Elize was Lucien's second lover. As Lucien's first lover, Athena had to show her consideration as an older sister and allow Elize to have sex with their lover.

The opportunity given by Athena now was an opportunity that Elize had been waiting for for several hours since they had sex for the first time. However, most of the time Elize spent by Athena's and Lucien's side was spent watching the intimate relationship between Lucien and Athena and giving Athena some guidance on having sex in bed.

But Elize didn't show any hesitation at all when giving guidance on how to have sex in bed with their lover. After all, Elize was several years older than Athena.

From the start, Athena and Elize had been two old friends who had known each other for several decades. Even though they were two friends who always considered themselves rivals, they behaved well whenever they met each other.

[The ability Dragon King's Aura has been successfully upgraded to Dragon Emperor's Aura.]

"Ah. By the way, I congratulate Lize on successfully reaching the Dragon Emperor stage. I'm sure Hena will also reach the Dragon Emperor stage soon and catch up with you sooner or later."

"Thank you. It was all because of the help you gave me the night before. Because of the flower pot you brought the night before, I managed to reach the Dragon Emperor stage while I was asleep." The previous night was the most unimaginable experience Elize had ever had in her entire life. Successfully reaching the Dragon Emperor stage while asleep was a dream that seemed like a fairy tale to all living beings. However, the Flower of a Thousand Nights that I obtained the night before was one of the reasons why Elize managed to break through her limits and reach the Dragon Emperor stage.

Both Elize and Athena got their chance when they inhaled the scent of the Flower of a Thousand Nights. Moreover, they were now in a room adjacent to the Flower of a Thousand Nights. With those two women near the Flower of a Thousand Nights, the result of increasing their strength while having sex with me would increase twice as much as before.

Of course, I also received some benefits when I had sex with Athena and Elize in a room filled with the scent of the Flower of a Thousand Nights. For some reason, the amount of mana inside me had increased slightly more than when I first broke through to the Dragon King stage.

My current cultivation level had reached somewhere between 15% and 18%. But as someone who had just reached the Dragon King stage, managing to increase my strength while having just broken through to a major realm was an extremely great stroke of luck.

It's just that both Elize and Athena didn't know the percentage of their cultivation progress when they had sex with me. In contrast, what Athena and Elize could feel right now was how much greater their enhanced strength was compared to before they had sex with me.

Soft moans incessantly came from Elize's mouth. Athena, who had previously shown a gloomy expression, decided to hug her man from behind his shoulders. For some reason, a look of surprise and confusion appeared on my face when I noticed Athena trying to hug me from behind.

There was no problem with letting Athena hug me from behind. From the start, I had been able to easily handle the two female dragons who were born with extraordinary stamina. Therefore, I would not hesitate to pamper the two women in bed for an entire day.

"You two are mine. I promise that I will forever be by your side and accompany you. Nothing can separate us, even fate itself." The vows I gave began to increase the sexual desire within Elize and Athena. Receiving complete recognition from their beloved man was no different from being acknowledged as his women. Even though Elize and Athena could become part of Lucien's women, they would not be able to stop Lucien from making other women his as well.

Chapter 75: Forced

The evening passed. Lucius, Ariel, Heilde, Shelia, Tifa, and Tina had returned from their journey to deal with the problems within the empire. Moreover, Lucius's expression, which had previously appeared calm, could not hide his tiredness.

This was the first time Lucius had received pressure from various higher-ups in the empire. Every high-ranking official in the empire demanded that Lucius and his family take responsibility for the damage that had occurred throughout the empire. Even so, Lucius would absolutely not accept any responsibility imposed on his family by the empire.

One of the reasons why Lucius was brave enough to refuse punishment from the higher-ups in the empire was because of the support given to him by Lilith. No one in the empire dared to hurt Lucius as Lilith's husband. Therefore, both the Dragon Emperor and the higher-ups of the empire decided to forget about the events that had happened today due to the actions they had taken previously.

The chaos that had occurred in the empire earlier was purely the empire's own fault. They were also the reason why the Dragon King's future son-in-law lost control of his power. Even though everyone in the stands witnessed the events that occurred in the arena, they were not foolish enough to think that the Dragon King's future son-in-law was the reason why most of the empire had suffered destruction.

However, the news about how a human managed to disrupt an event that had been agreed upon by both parties had spread to all corners of the world. For some reason, most species throughout the world considered that human man to be powerful and incredibly terrifying.

There were many people throughout the world who believed that the Human race was the strongest. However, only a small portion of them thought that they were no different from that extraordinary human man. On the contrary, almost every human considered Lucien to be a promising young man.

Because Lucien's current position was that of the future son-in-law of Dragon King Lucius, the humans could do nothing to distance Lucien from the Dragon race. On the other hand, humans would not dare disturb the peace of the Dragon Realm just to win back an extremely talented individual like Lucien.

Even though humans considered Lucien to be one of their own, not everyone believed that Lucien would completely side with the Human race. Now that Lucien was part of the Lucifer family, the human side could not snatch him back from the clutches of the Lucifer family.

Of course, some humans felt jealous of the life Lucien led in the Dragon Realm. Moreover, every noble of the Human race couldn't hide their disgust when they learned of Lucien's origins. Like every noble family on the Life Continent, they would never consider Lucien a human worthy of standing above the nobility.

Since ancient times, status had been the most important thing for every living being throughout the world. Having a low status in the world was no different from being treated as trash for the rest of one's life. However, those born with a high status would be able to live comfortably and enjoy luxurious access to all existing knowledge.

"Where is your mother? She should have returned with Athena and the others. Is it possible that she has returned to her nest?" A large part of Lucius's thoughts assumed that Lilith had returned to her nest to rest. Even though Lucius knew what had really

happened to Lilith during her fight against the Dragon Emperor, he would not ask further about the anger Lilith had shown after returning from that battle.

The attitude shown by Lilith throughout their marriage and life together had only been a formality within the family. Lilith had many responsibilities since the day she and Lucius first married. However, the marriage between Lilith and Lucius was a marriage forced by Lilith herself.

Lucius had never intended to make Lilith his wife. But still, Lilith was one of the strongest beings in the entire world. Rejecting Lilith's desire to marry him was no different from throwing away his life.

The youngest daughter of Lilith and Lucius was Ariel. She was the last daughter born from Lilith's womb. Since then, both Lilith and Lucius had decided not to have any more children or even engage in intimate relations.

This was something Lucius had understood since he and Lilith had their daughter Athena. That was the first time Lucius felt extraordinary happiness when he witnessed the birth of his first daughter. As a father, Lucius loved each of his daughters more than anyone else.

"I don't know. I think what Father said is true. Mother seems to have returned to her nest. We must not disturb Mother's sleep."

A sigh escaped from Lucius's mouth when he heard Ariel's answer. For now, Lucius's task was to prepare a speech for the citizens of the Dragonia Kingdom regarding the victory of their princess's future husband. To Lucius, announcing Lucien's victory over Charles was news that could increase the pride of every citizen of the Dragonia Kingdom.

"You two little girls from the Elven race should immediately make every preparation needed by the two married couples for their first night."

Both Tifa's and Tina's cheeks involuntarily turned red when they heard Lucius's orders. As women in their twenties, they naturally understood the meaning behind Lucius's words regarding the two couples spending their first night together.

Having sex was a common thing for every living being throughout the world. Even though Tifa and Tina were embarrassed and reluctant to provide assistance to their master, they absolutely could not ignore the orders given by Lucius to make the necessary preparations.

In a nest located within another dimension of the Dragon Realm, Lilith could be seen dreaming in her nest filled with green grass. The small world in which Lilith currently lived was a world she had created with her own hands.

Within that small world, Lilith could freely release her true form whenever she wished. Therefore, this was also the reason why Lilith never left her little world in her true form.

One of the reasons why Lilith did not reveal her true form was because her power had exceeded the limits of the world's system and reached its threshold. Activating her true form when her power surpassed that of all living beings was no different from bringing chaos to the entire world. Neither Lilith, the Dragon Emperor, nor the other powerful beings would dare unleash their full power, which could destroy the balance and order of the world.

Chapter 76: Lucien Is Mine

"That human boy is called Lucien, right? He is also the heir of His Majesty God King Velvet, a figure I have believed in for a long time until now. Is it true that a God King exists in the world? I have a little doubt about this myth that has existed for hundreds of thousands of years."

Myths from ancient times provide a clue about the existence of such a God King. Every god who occupies the position of God King is no different from a myth that has existed since the time of creation. Therefore, every living being throughout the world absolutely did not believe that the God King was a real existence.

Countless legends said that with just a flick of a finger from a God King, it could destroy a star with just a fraction of its power. But that is just a legend from ancient times. As sentient beings born with common sense, it was impossible for any living being to believe that an existence like the God King could exterminate them with a single flick of a finger.

But Lucien's presence in the world confused Lilith's thoughts about the reality of the God King's existence. Inheriting every aspect of the God King is a miracle for every member of the Dragon race. Every member of the Lucifer family had thoughts of finding the successor of God King Velvet and bringing him into their residence.

As if fate had answered every wish of the Lucifer family, the eldest daughter of Lilith managed to find the heir of God King Velvet from the Human race. After all, Lucien was the only heir who inherited every characteristic of God King Velvet in his body.

The world's will, which answered Lilith's doubts, did not allow her to maintain a calm expression. It had been more than a thousand years since Lilith had shown such enthusiasm after remembering the incident that had previously happened to her. On the contrary, Lilith was completely unable to stop her calm mind from imagining the figure of Lucien, who was previously in his abnormal form.

"That form... that power... he gives off an invincible feeling even when he faces my overwhelming strength. I hope that kid can defeat me even in terms of strength and cultivation."

As time went by, every citizen in the Dragonia Kingdom began preparing for a party to celebrate Lucien's victory the next day. This was an event that Lucius had prepared for the citizens. As a king, Lucius had to at least give every citizen the happiness of celebrating Lucien's victory in the fight against Charles.

Both Lucius and his other daughters had absolutely no problem with what the citizens wanted to do the next day. Even though Ariel was sad and shocked when she witnessed that human's victory in a face-to-face battle against Charles, she had no choice but to approve of Athena and Lucien's relationship.

The extraordinary strength that Lucien had shown previously was one of the reasons why Ariel had completely accepted the relationship between Lucien and Athena as lovers. This was the first time Ariel had witnessed the prowess of her future brother-in-law while fighting in the arena. From Ariel's point of view, the strength that Lucien had shown previously was no different from that of a monster who could defeat anyone in the entire world.

"I'm sure that you now know why your sister stopped you from provoking our future brother-in-law. He's not an ordinary human being that we can mess with as we please. I hope you understand what I'm saying."

"Sister Heilde, what you said is true. Thank you for stopping me from provoking our brother-in-law earlier."

"It doesn't matter. Even though you are a naughty and arrogant girl, you are still our precious little sister."

The figure of Shelia, who was between Heilde and Ariel, did not show any expression other than her frightening face. A hint of anger appeared on Shelia's cold and expressionless face. If it weren't for her father, who had stopped her from interfering with the relationship between her brother-in-law and her older sister, Shelia would not hesitate to run away and peek at every action Athena and Elize made towards Lucien.

Both Ariel and Heilde started hugging each other after they said the words they wanted to say. But Shelia did not care at all about the amusing attitude shown by her two sisters. On the contrary, Shelia's mind was currently occupied with imagining how Athena and Elize would torture Lucien.

'That should be my place... Sister Athena and that bitch Elize... the two of them have dared to monopolize my Lucien! I have to do something so I don't let my kind brother-in-law be tortured by those two crazy women.'

Every day, every moment, and almost every season, what Shelia thought about was the figure of Lucien. There was never a day when Shelia forgot Lucien's image in her mind. The obsession that Shelia had towards Lucien far surpassed the feelings shown by Athena and Elize.

Both Athena and Elize noticed the strange behavior shown by Shelia whenever she was around Lucien. Moreover, Elize constantly received sharp stares from Shelia whenever she and Lucien were together. However, there was nothing Elize could do to stop Shelia from trying to spy on Lucien and her from behind the scenes.

Even though Shelia was angry and really wanted to snatch her brother-in-law from Athena and Elize's grasp, she could not do anything while he was by Athena's and Elize's side. Shelia's strength, when compared to Athena's and Elize's, was completely incomparable to the strength of those two incredibly powerful women.

From Shelia's perspective, the strength and talent of Athena and Elize were like those of monsters she could never challenge in her entire life. But Shelia was one of Lilith's daughters. Therefore, she had great potential that could allow her to increase her strength far beyond that of every living being in the entire world.

Only Athena and Elize could surpass Shelia in terms of talent. Shelia, Heilde, and Ariel all inherited talents from their mother. Most of the three sisters inherited one of the unique powers that Lilith possessed in the past.

Every characteristic possessed by Lilith's daughters came directly from their mother. The cells that Lucius passed on to his four daughters had absolutely no influence whatsoever on their talents. On the contrary, the cells that Lilith had bequeathed to her four daughters had completely overshadowed any greatness that Lucius's cells could have passed on to them.

Strength was one of the main factors determining whether a baby would be born with the talents of its incredibly powerful parents. Even though Lucius possessed strength equivalent to the Dragon Overlord stage, he was still a much weaker dragon compared to Lilith.

Chapter 77: Another Rival

There is no problem for Shelia to have every ability passed down to her by her mother. From the start, the gift that Shelia received when she was first born into the world allowed her to read and see every feeling of a living being in this world. Therefore, Shelia

could easily tell that the actions I took in the past in providing assistance to her were purely good actions.

That was the moment when Shelia felt her heart beat fast when she first received help from someone other than her sisters. The only man who behaved well in front of Shelia was Lucien. Even though I am the lover of Shelia's older sister, Shelia will not give up even if she has to face Athena.

Every action shown by Shelia when she was in the arena had fully proven that she really cared about her brother-in-law. Even before a single arrow from the enemy managed to reach her brother-in-law, she was the first to warn him and did not want to let her brother-in-law suffer a direct hit from that single arrow.

If it had not been for Shelia, who had previously given Lucien a warning, he would not have had any chance to react in defense against that single arrow attack. On the contrary, Lucien would have forever lost consciousness without being able to realize what was happening.

Various memories of Shelia and Lucien together over the previous years began to flood Shelia's mind. Every image of Lucien's face kept popping up in Shelia's head even when she was alone in her room. As Lucien's sister-in-law, she will forever love her brother-in-law like a family member.

"Sister Shelia, are you okay? Please throw away the thoughts in your head."

A clear voice sounded from Heilde's mouth. Heilde's conversation with Ariel had completely ended, with Ariel now walking back into her room. Just as Heilde wanted to look back at her older sister's figure, she realized that her older sister had now completely entered a chaotic state of mind.

For almost two years, Heilde was the only sister of Shelia who noticed the change in her older sister's attitude. This was not the first time Heilde had witnessed how her older sister sank into her thoughts while thinking about the figure of their brother-in-law. On the other hand, the incident happening now had happened thousands of times before.

The duty of a younger sister is none other than to help her older sister until she can regain her sanity as before. Since Lucien entered the residence of the Lucifer family, the relationship between Athena and Shelia started to become chaotic, and they could fight each other at any time.

Deep inside Heilde's heart, she felt sad when she saw how her two older sisters always fought over Lucien. Maybe in the Lucifer family residence, Heilde was the only normal sister among the three of them. Ariel herself had entered the academy long before Lucien entered the Lucifer family residence.

Recalling the memories that had occurred during the past two years brought a little pain to Heilde's head. Heilde could not understand the reason why her two older sisters were so obsessed with Lucien. Even so, Heilde began to understand why her two great sisters could fall in love with a human like Lucien.

Lucien's battle against Charles had completely improved Lucien's image in Heilde's eyes. Instead of being angry and hating the figure of Lucien, who managed to win the hearts of Athena and Shelia, Heilde felt her heart beat slightly faster when she remembered the dominating aura that Lucien exuded in the arena.

"I know that. Moreover, Heilde, I hope you still remember what your big sister said half a year ago. Don't try to think that you can snatch this third place from your big sister."

Silence suddenly fell around the room, causing Heilde to unconsciously freeze in place. Listening to Shelia's words about the hidden intentions in her heart surprised Heilde a little. However, Shelia's ability allows her to easily read every feeling of a being.

Because Heilde had just moments before imagined Lucien's domineering figure in the arena, it was impossible for Shelia not to notice the change in feelings that Heilde showed toward Lucien. For some reason, the hostility shown by Shelia toward her younger sister gave Heilde a bad feeling.

"You're so scary, Sister Shelia. I don't even know if what I feel about our brother-in-law is true or not. Why can you jump to conclusions so quickly before I can even open my mouth?"

"Don't misunderstand, my beloved sister. Your sister has never once misjudged the feelings of a living being. Heilde, you have feelings for our brother-in-law. I know that you can't stop imagining his extraordinary strength when he stands face to-face against his enemies with valor and courage."

"I'm not like that..."

"Ah. I'm sure you have also imagined what it would be like to have intimate moments with Lucien when you and he could be alone together. You would scream, shout, and beg for your brother-in-law's seed~."

Heilde's cheeks involuntarily turned red as she listened to every word Shelia said to her. There was no reason for Heilde to deny every statement made by Shelia about her indecent thoughts. However, Heilde herself admitted that she had imagined the time when she and her brother-in-law would have sex together in bed.

"But of course, do you think your older sister will let you be with our brother-in-law? He will be mine. He will definitely be mine alone ♡"

Gulp!—

The sound of gulping saliva came from Heilde's mouth. The two pupils shown by Shelia at this time carried a sinister glint. For the first time, the obsession that Shelia showed towards Lucien had surpassed the obsession she had shown in previous days.

Fighting against Elize and Athena for Lucien had put a lot of pressure on Shelia's shoulders. And now her third sister intended to join the fight for Lucien as the fourth party. It is not surprising that Shelia felt extraordinary anger when she found out that her younger sister had feelings for Lucien.

On the second floor near the stairs, Ariel's expression showed helplessness while listening to the conversation between her two older sisters. Various worried expressions began to appear on Ariel's face after remembering the attitude shown by her two older sisters towards their brother-in-law.

There was no longer any reason for Ariel to be hostile towards her brother-in-law while they lived in the Lucifer family residence. From the start, Lucien was the only man loved by his three sisters. Even though Ariel didn't want to think about anything that was happening downstairs, she hoped that her two older sisters could get along as they had in the past.

Chapter 78: Ariel's Regret

After walking back into her room, Ariel decided to cover herself with a white blanket made from giant bear skin. This blanket was one of the most expensive and most difficult items to obtain, even with money.

Not all nobles had giant bear skin blankets of the highest quality. But Ariel did not care at all about the price of the blanket she was currently using. Instead, a few tears began to flow from Ariel's eyes.

Ariel's jealousy of Lucien had made her lose her enthusiasm for living in her own family's residence. Every member of Ariel's family had completely accepted Lucien into their family. Moreover, Lucien was the only man who had succeeded in defeating Charles and reclaiming Athena from the grasp of the Vermilion family.

Ariel could not keep Lucien away from her older sister. For some reason, Ariel could not help but recall the moment when she and Lucien met for the first time.

Every conversation between Lucien and Ariel when they first met was no different from that of a woman underestimating a man like Lucien. That also caused Ariel to regret the conversation she had when she first met Lucien. Unfortunately, there was no chance for

Ariel to apologize to her brother-in-law for the rude attitude she had shown three days earlier.

"Why did I act like that? I should have acted like a good child when dealing with my brother-in-law. I hope my brother-in-law will be able to forgive me..." Ariel's sobs started to become more uncontrollable as she imagined the moment she would meet Lucien the next day. Ariel's fear of Lucien gave rise to various inhuman thoughts in her head. Various bad thoughts about Lucien being a bad man started to creep into Ariel's mind.

Luckily, Ariel's fear of Lucien only lasted for a few minutes before she finally decided to fall asleep on the bed. The things that had happened during this one day had provided an extraordinary shock to Ariel's entire life. For some reason, the events that occurred during this one day were Ariel's first experience witnessing a human successfully defeat thousands of dragons in the sky.

Several hours passed after Tifa and Tina stood guard outside their master's bedroom door. Various delicious moans and erotic sounds could be heard from inside Lucien's bedroom. Slightly embarrassed and lifeless expressions appeared on Tifa and Tina's faces.

Listening to the moans of the two female dragons had confused Tifa and Tina. This was the first time Tifa and Tina had witnessed a man succeed in conquering two female dragons in bed. For some reason, slightly amazed expressions appeared on Tifa and Tina's faces.

Tifa and Tina's admiration for their master came purely from the bottom of their hearts. An incredibly strong human like Lucien was the only thing Tifa and Tina respected. For now, Tifa and Tina's status in the Dragon Realm was that of Lucien's personal maids.

Initially, both Tifa and Tina had not felt happy at all when they became Lucien's personal maids. But after a long period of accompanying their master while traveling within the empire, they became completely convinced that their master was the most talented human, far surpassing the youths of the Dragon race itself.

"Master is so amazing. Sister, I think we should also stay by our master's side from now on. Our master has a great destiny waiting for him in the future. Maybe..."

"Hehe. Maybe our master is the man that the old grandmother predicted? We don't know whether that human may be the one the old grandmother meant or not."

The old grandmother whom Tifa and Tina had previously met in their hometown had told them about the figure of a human who was destined to be with Tifa and Tina and live alongside them. That was also the reason why Tifa and Tina decided to explore the Life Continent in search of the destined human. But unfortunately, what Tifa and Tina found when they landed on the Life Continent was despair.

Many dangers befell Tifa and Tina when they first set foot on the Life Continent. The memory of Tifa and Tina being captured by the three dragon brothers returned to their minds. For some reason, feelings of gratitude began to flood their hearts when Tifa and Tina remembered meeting their future master.

It was the first time Tifa and Tina had witnessed a human living a comfortable life in the Dragon Realm. Every species of the Dragon race living in the Dragon Realm considered the Human race to be disgusting and evil. Therefore, it was not surprising that Tifa and Tina were shocked when they saw how their human master had found a suitable place to live in the Dragon Realm.

After witnessing the battle between their master and the young master of the Vermilion family, both Tifa and Tina had completely assumed that their master was the human destined to be with them. Even though Tifa and Tina considered Lucien to be the chosen one for their lives, the two sisters could not help but remain polite when dealing with their master.

"It doesn’t matter whether it is a real prediction or not. Tina, we must swear to remain by our master’s side from now on. He will become one of the greatest pillars for all people throughout the world in the future."

There was no rejection visible on Tina’s face as she listened to her older sister’s explanation of the extraordinary power their future master would possess. For now, Lucien’s strength was enough to allow him to defeat dragons at the Dragon Emperor stage. Therefore, the two sisters would try their best to serve their master as their one and only master.

Time passed endlessly. Every time the sounds of moaning from the room were heard, they gradually became weaker. Athena was seen opening the door from inside the room slightly and looking at Tifa and Tina, who were now in a nervous state. For some reason, standing in front of their master’s bedroom door while listening to the moaning sounds of two women was something Tifa and Tina could never have imagined in their entire lives.

"Ma’am? Forgive us. The two of us were given the task by your father to bring three towels and a bucket filled with water to you, Ms. Elize, and Lord Lucien."

"Don’t worry. You can go in now because your young master is completely lying on his bed in a bad condition."

Initially, Tifa and Tina wanted to refuse Athena’s request to enter their master’s private room. But orders from Athena were no different from orders given directly by their master. For some reason, unwavering expressions appeared on Tifa and Tina’s faces as they nodded to each other.

"We’ll be happy to walk in!"

Chapter 79: One Elementary Sword

The side of Lucien's room. Various lewd and passionate smells surrounded the small room. The figure of Elize was seen sitting on top of Lucien, while Lucien wore a half-dead expression. This was the first time Lucien had faced two female dragons with power levels far above his own.

Lucien couldn't win against the two female dragons while they were in bed. From the start, Lucien did not expect that the two female dragons had stamina reserves that were far beyond his predictions. Therefore, Lucien decided to give up and let the two women play with him on the bed.

Tifa and Tina's gazes began to turn towards the side where their master currently was. The current condition of their master was far beyond Tifa and Tina's expectations. Even though their master was a strong and tough man, he couldn't win against two female dragons like Elize and Athena while in bed.

Both Tifa and Tina had witnessed the strength of Elize and Athena when they fought against Dragon Emperor-stage dragons. Neither Tifa nor Tina considered the two female dragons to be weak. On the contrary, both Tifa and Tina considered the two female dragons to be women worthy of being by their master's side.

A small part of Tina thought of herself as a useless woman. The current strength of Tina and Tifa was no different from that of High Dragon-stage dragons. Even though they were beings of the Elves' race, they were born physically weaker compared to the species of the Dragon race in general.

Embarrassed and helpless expressions appeared on Tifa and Tina's faces when they witnessed how Elize and their master had sex with each other. A bucket of water that Tina was holding in both hands unconsciously tilted slightly when she felt the shame that was constantly surging in her heart. For some reason, the scene shown in the room gave Tina a strange feeling.

The handsomeness shown by their master when he was naked was enough to attract lust within Tina. But still, Tina was a chaste woman who, in her entire life, had never once witnessed a lewd scene between a man and a woman.

In Tifa and Tina's lifetime, this was the first time the two women had witnessed a scene where a man was raped by two terrible women. Even though they were afraid and worried about their master's condition, both Tifa and Tina decided not to open their mouths about the treatment shown by Athena and Elize towards Lucien.

"Sister... What should we do...? If we had known that something like this would happen, we would have decided to continue standing outside the room until morning came."

Unfortunately, not a single answer came out of Tifa's mouth to the question her little sister gave her. On the other hand, most of Tifa's thoughts were now completely occupied by imagining the moment when her master would try to rape her in bed.

A cough involuntarily came out of Tifa's mouth. Tifa shouldn't have imagined the nature of her master as being like a wild animal. However, Lucien's two women were enough for Lucien to completely submit under the feet of Athena and Elize.

"Don't look at him too much. We are only assigned to take care of every need that our master's women and master have."

"I understand."

After that brief conversation, Tina's expression had completely regained its calm appearance. This was the time when Tina had to carry out her responsibilities as a maid who only served Lucien.

The aroma of the Flower of a Thousand Nights by the window of the room spread and surrounded every side of the room. Tifa, Tina, Elize, and Athena had fully entered their state of enlightenment. Even though Tifa and Tina did not have sex with Lucien at all, they would gain some benefits after inhaling the aroma produced by the Flower of a Thousand Nights.

My two eyelids, which had previously been half-closed, started to stare towards where Athena and Elize were. After more than half a day had passed, my entire body had almost reached its limit after having sex with Athena and Elize.

But the condition of my body was not the main reason for me to give up on having sex with Athena and Elize. My mental state had now completely reached a state of exhaustion. Therefore, I couldn't decide to continue having sex with Athena and Elize when I was not in good condition.

Luckily, Elize and Athena were currently still fully immersed in their state of enlightenment. For that reason, I decided to spend a little time resting while Athena and Elize had not yet fully awakened from their state of enlightenment.

[Ding! You have succeeded in getting a random prize from the system for defeating your competitor!]

[One Elementary Sword: a sword at the level of Tier 1. It is a sword that can be enhanced by the host by imbuing a large amount of the host's mana power into the sword. Each grade of the sword has nine levels to attain.]

[One Elementary, Two Elementary, Three Elementary, to Ninth Elementary are the nine levels that the host must currently reach. As long as the host has opened all nine Elementary levels, the sword will grant the host tremendous power that can split the sky and can even injure a divine being.]

"System... Are you kidding? This is just a kitchen knife! How can it be called a sword? You are a fraud!"

[Please forgive the presumptuous attitude of this system. But host, it is a sword that can be developed as long as you put a large amount of your mana into it.]

Ignoring the unpleasant attitude shown by the system, I decided to channel a small amount of my mana power into the knife. Suddenly, the shape of the knife, which had previously been the size of a kitchen knife, began to increase until it became a sword like any other.

"Is this really an extraordinary weapon? I doubt it after finding out that it's only a Tier 1 sword."

A sigh involuntarily escaped my mouth. Getting a weapon with a Tier 1 grade was no different from making me a wretched man. However, every being throughout the world has an artifact at the level of Tier 1.

Because the system gave me a Tier 1 artifact, I wouldn't be able to fight against enemies much stronger than that artifact's tier. Even so, the One Elementary Sword was a direct gift from the system that I could use at any time.

Everything given by the system was absolutely not trash. Moreover, the One Elementary Sword can be improved as long as I put a large amount of my mana into it. Therefore, I decided to store the One Elementary Sword back into the system's storage space.

Chapter 80: The Plan to Defeat the Strongest

Within the capital of the Flame Empire, where the Dragon race resided, various soldiers could be seen floating around the area devastated by the fight between Lucien and Charles.

The figure of the Dragon Emperor was seen walking around a place filled with giant craters. For some reason, a small vial containing fresh blood was visible in one of the Dragon Emperor's hands.

The blood in the small bottle was blood taken directly by the Dragon Emperor when he fought face-to-face with Lilith. Luckily, Lilith was completely unaware of the Dragon Emperor's plan to secretly take some of her blood. Therefore, the Dragon Emperor managed to get a small vial containing Lilith's blood into his hands.

From the start, the Dragon Emperor's fight against Lilith was not about killing each other. On the contrary, the Dragon Emperor had prepared another alternative path that would enable him to win against Lilith in the future.

With Lilith's blood now in the hands of the Dragon Emperor, he would be able to do anything necessary to research every one of Lilith's extraordinary abilities. For that reason, the Dragon Emperor needed another preparation to complete his plan.

The blood of the successor of God King Velvet was what was most needed to perfect the Dragon Emperor's plan to defeat Lilith. Suddenly, a scream came from the mouth of one of the soldiers. Regardless of what had happened, the Dragon Emperor decided to go and see what his subordinate had discovered.

By the time the Dragon Emperor had appeared next to his subordinate, Lucien's bloodstained remains could be seen scattered around one of the giant craters below. There was no reason for the Dragon Emperor to decide to take those bloodstains mixed with sand with him.

There was nothing beneficial for the Dragon Emperor in bringing the remaining bloodstains that had merged with the soil into the laboratory. A memory of one of the Dragon Emperor's soldiers finding part of Lucien's internal organs came back to his mind. For some reason, the Dragon Emperor decided to make the first move and take the organ with him.

"There's no problem as long as I can change part of that human boy's organs into blood. I must immediately complete this plan. I'm afraid that one day I won't be able to fight Lilith like before."

A small part of the Dragon Emperor was afraid as he remembered the moment that human boy transformed into his inhuman form. From the start, both the Dragon Emperor and the other members of the Dragon race had felt their bloodlines being suppressed when faced with Lucien's strange power. That reason was enough for the Dragon Emperor to be wary of Lucien, who was born with extraordinary talent.

In the entire world, Lilith was the only being who could block the Dragon Emperor's path to becoming the strongest. But now, a human born with extraordinarily strong talent had

appeared in the world. Now, there was a second party that could become an obstacle to the Dragon Emperor's path to becoming the strongest.

"Lilith and Lucien, right? They are two beings that shouldn't exist. I didn't expect that I would meet another Lilith. Sigh..."

A week had passed since Lucien succeeded in taking Athena's virginity and making her his. Lucien's current life had changed for the better compared to when he first lived in the Lucifer family residence. For some reason, the attitude that Lucius had shown towards Lucien earlier gave him a feeling of nervousness in his heart.

Unfortunately, the attitude shown by Lilith towards her son-in-law was very different from the attitude shown by her husband towards Lucien. Even though Lilith was very indebted to the help that Lucien had given her a week earlier, she still considered Lucien a potential son-in-law who would marry her eldest daughter.

"Father-in-law's attitude is very bad. Have I done something wrong? In fact, you are my fiancée. There would be no problem if you and I had intimate relations in bed."

From my point of view, the attitude displayed by Lucius towards Athena was no different from that of a father trying to protect his only daughter from other men. But I am Lucius's legal son-in-law. For that reason, Lucius should not prevent me from having sex with his first daughter.

No words could come out of Athena's mouth after she listened to the words that came out of my mouth. A half-dead expression appeared on Athena's face. A memory of when Athena had previously met her three sisters came back to her mind. Moreover, the attitude shown by Heilde towards her lover gave Athena a bad feeling in her heart.

The gaze Heilde gave her lover was no different from the gaze Shelia gave Lucien. That was also the reason why Athena couldn't lower her guard at all while she was in the castle. For some reason, my two hands, without hesitation, immediately gave Athena a direct hug.

"Don't daydream like that. It's just the two of us in this garden. We have to calm our minds before Lize returns from checking on her residence."

A nervous and helpless expression endlessly swept across Athena's beautiful face. This was the first time Athena had felt worried when she was around her sisters. From Athena's point of view, the attitude shown by her sisters towards her lover was no different from that of women trying to take her lover away from her.

Annoyance began to well up within Athena. At the same time, one of my hands started to touch Athena's head. Athena's gaze, which had previously been directed downward, began to turn towards me.

"Cien... I’m sorry for bothering you all this time. If only I could control my little sisters..."

No annoyance arose in my heart while I was in the castle with Athena. The attitude shown by Athena’s three sisters towards me did not completely indicate their dislike of me. On the contrary, Athena’s three sisters considered me to be the legitimate lover of their eldest sister.

"Maybe what you said is true. But deep down in my heart, I don’t mind at all the actions taken by your three younger sisters when they met me at the celebration party for my victory."

For some reason, Athena’s previously lifeless expression started to turn expressionless. Various memories of when Athena had thought of me as a bastard began to appear in her head. Due to the attitude I showed while dealing with Athena’s three sisters, they unknowingly developed their own feelings while talking to me.

Unfortunately, I didn’t understand at all what I had done while talking with Athena’s sisters. On the contrary, I considered Athena’s sisters, other than Shelia, to be my cute little sisters.

The only woman in the castle whom I couldn’t consider a sister-in-law was Shelia. She was also the reason why I could live comfortably while staying in the castle. Since the first time Shelia and I spoke, she had always given me a little attention and affection while watching me from a distance.
