Reborn as the Dragon King's Son-In-Law

Chapter 81: Ariel’s Hobby

"What do you think about Ariel? I have been watching her for more than a few days. I see that my little sister has completely accepted you into our family."

Silence involuntarily struck deep within my heart. Listening to Athena’s questions about her younger sister Ariel reminded me a little of the time Ariel and I met for the first time. In any case, my first meeting with Ariel was no different from that of a man and a woman who didn’t like each other.

As Ariel’s older sister, Athena knew that Ariel’s feelings towards her brother-in-law had completely changed after I showed my true strength in front of the spectators. Since then, the attitude Ariel showed whenever she met me had completely changed into one of respect.

There was only fear that Ariel could feel whenever she stood in front of me. That wasn’t one of the reasons why Ariel felt afraid whenever she was alone with me. On the contrary, she endlessly imagined the time when I would punish her for the impolite attitude she had shown during our first meeting.

"Sorry for having to ask about my little sister’s problem again. By the way, did you know that Ariel’s hobby is the most interesting among the hobbies shared by us three sisters?"

The meaning of "hobby" that Athena referred to was Ariel’s daily life, which always involved drawing interesting and funny comic books. There was not a single person in the Dragon Realm who had the same hobby as Ariel. Even so, the hobbies Ariel showed in her daily life gave her increased popularity in Lilith’s eyes.

From Lilith’s point of view as an ancient being, the drawing techniques demonstrated by Ariel in her daily life were enough for Lilith to get rid of all her boredom. For some reason, every time Ariel drew a comic book, Lilith would always spy on her daughter from a distance.

"Ah. I know what you mean. Is it comic books? I’ve read them when Shelia and I were together before. If I’m not mistaken, they are interesting comic books to read."

Each comic drawn by Ariel told the story of a man who tried to save his partner from the enemy. From my point of view as an adult man, I thought every comic drawn by Ariel gave me a heroic feeling in my heart.

Saving the only person I love has become a principle in my life. That's also the reason why I was so happy when I could read every storyline in the comics created by Ariel. But still, this is the first time I have known that Ariel was the one who drew such good comic books.

"It surprised me a little to find out that your little sister was the one who drew those comic books. I'm sure your little sister will become a famous comic artist."

"Comic artist? What does that mean?"

Without realizing it, a coughing sound came out of my mouth. A memory of reading a sentence from one of Ariel's comics about "comic artists" appeared in my head. Although I didn't fully know the true meaning of the term "comic artist," I assumed it was a nickname for those who could draw interesting comic books. Of course, I was just pretending to be stupid when answering Athena's question about the meaning of "comic artist."

"Cough. A comic artist can be said to be someone who is an expert at drawing a full volume of picture books."

"Hm... That means our Ariel is very extraordinary. I felt that she was very strange when she was first born into the world. I didn't think that my little sister's intelligence would have such a significant impact on our mother's daily life."

Naturally, I understood every meaning behind Athena's words about Ariel, who had succeeded in changing Lilith's life. Every living being that has lived for thousands of years will experience boredom for the rest of its life. Therefore, the birth of Ariel into the Lucifer family was enough for Lilith to get rid of her boredom once she discovered Ariel's true hobby.

Praise after praise began to come out of Athena's mouth about the greatness of her younger sister. Ignoring Athena's excited reaction as she talked about her little sister, I decided to hug her more closely until I could bring my face closer to Athena's.

Luckily, Athena didn't mind my actions in trying to hug her more intimately than before. Instead, Athena decided to let me touch her as we sat alone in a small pavilion in the castle garden.

My two hands, which had previously been wrapped around Athena's stomach, began to move to where Athena's two large breasts were. The reaction Athena showed when I touched her breasts revealed a slightly helpless expression on her face. But Athena was completely unable to stop me from trying to have sex with her in the castle garden. Instead, both Athena and I started to kiss each other.

The romantic attitude shown by us at this time was completely unknown to anyone in the castle garden. However, there wasn't a single guard guarding the inside of the castle walls of the Dragonia Kingdom.

The sole task given by Lucius in employing the guards was no different from having them guard the outside walls of the castle. As the second strongest after Lilith, Lucius did not care at all about assigning guards to protect the members of the Lucifer family.

From the start, every member of the Lucifer family was an extraordinarily strong dragon and could not be defeated by dragons in general. Even Ariel, who was the youngest of the four sisters, could easily defeat every guard from the Dragonia Kingdom. Therefore, the interior of Dragonia Kingdom's castle did not require any guards at all, with Lilith having protected the place since the beginning.

Both Athena's body and mind had completely fallen into lust due to the touch given by her lover. Athena's black dress, which had previously covered her entire body, began to open with just a few movements of my hand. In less than a moment, every piece of clothing Athena had been wearing was completely removed from her body.

No one in that place knew about my actions of trying to have sex with Athena in the castle garden. On the other hand, both Lilith and Lucius were currently completely unable to focus on the situation occurring inside the castle.

Lucius's job as a king meant that he didn't have much time to take care of household matters. Moreover, Lilith, as an ancient dragon, had more work to do in handling her personal affairs.

There was no time for Lilith to monitor every aspect of the relationship between her son-in-law and her eldest daughter. Therefore, Lilith had approved the relationship between Lucien and Athena as future husband and wife from the start.

As long as Lilith had given her consent to the relationship between Lucien and her daughter, it would be impossible for Lucius to separate the couple as had happened half a year before. That was also the reason why Lucius decided to leave his residence and do some work outside the castle."

Chapter 82: Intimacy - R18

"Ah... Ngh ♡. Is this okay? What if Heilde and the others see the two of us doing lewd things outside the room? I'm afraid that will make them realize..."

Without paying attention to the next words that came out of Athena's mouth, I decided to pinch Athena's beautiful and sexy nipples. There was no hesitation on my face as I played with Athena's two beautiful breasts.

The scent of Athena's body was enough to increase my lust much higher than before. Actually, neither Athena nor I had fully committed to our sexual relationship after the incident that happened one week before. However, Athena and I couldn't decide to have sex with each other in a place where Tifa and Tina lived.

Various household chores had been assigned to Tifa and Tina to handle every problem in the castle. Luckily, both Tifa and Tina were two women who were competent in handling household problems. Despite this, both women got their breaks whenever and wherever they wanted.

With Tina's cleaning magic, every dirty thing in the castle's crevices could be completely cleaned by her in one wave. Likewise, Tifa could easily dry every wet floor that the maids in the castle had previously cleaned.

The maids in the castle were women who were assigned directly by Lilith to handle all cooking matters. That was also one of the reasons why the taste of the food in the Lucifer family was much better than the food from the human world. As a man who had lived as a sex slave in the past, I was very happy when I could enjoy every luxurious meal served by the palace maids.

"You smell so good. Hena, can I put it in now? I can't hold it in any longer."

The answer that came out of Athena's mouth only consisted of the sound of her coughing. With a groan from Athena, one of her hands began to grasp my cock, which was very large and long.

My cock was now between sexy Athena's ass cheeks. The feeling of my cock pressing between Athena's buttocks gave Athena a fluttering feeling in her heart. For the first time, Athena's lust increased every time she rubbed my cock between her ass cheeks.

Due to Athena's action of rubbing my cock between her buttocks, I decided without hesitation to immediately insert my cock into the entrance of Athena's pussy. Suddenly, a delicious moan came out of Athena's mouth. This was the second time Athena had felt her lover's cock entering the deepest part of her pussy.

It was impossible for Athena not to feel every inch of my cock, which was now inside her body. Therefore, Athena, without hesitation, decided to push my cock further into her pussy.

The tip of my cock had managed to reach the most sensitive part of Athena's pussy. The most sensitive part of Athena's pussy was also the reason why Athena had previously felt pleasure when she first had sex with her lover. Every time her lover's cock reached

Athena’s G-spot, she wouldn’t be able to stop her love juices from coming out of her pussy in succession.

Now it was time for Athena and me to have sex with each other without having to receive guidance from Elize. But Elize was one of the reasons why Athena and I could have time alone in a quiet place. Even so, I wouldn’t forget Elize just because Athena and I had sex together.

In a passage inside the castle, the figure of Ariel, who had woken up from her sleep, now walked out of her room. For some reason, the continuous lewd moaning sounds of a woman entered Ariel’s ears.

As a woman who had reached the age of 20, it was impossible for Ariel not to know the actions of the two lovers outside the room. At first, Ariel didn’t care at all about the actions of the couple, but she decided to stop after she found out the identities of the man and woman who were currently having sex.

"Wait. Aren’t there only brother-in-law and my older sisters in the castle? Could it be that brother-in-law and Sister Athena..." Ariel’s face involuntarily turned red after she imagined the relationship between Lucien and Athena. In Ariel’s entire life, this was the first time she had witnessed a man and a woman having sex outdoors. However, Ariel did not completely hate the actions of Lucien and Athena, who were currently having sex in front of the castle garden.

A memory of when Ariel had previously met her older sisters came back to her mind. A sigh involuntarily came out of Ariel’s mouth. For the first time, Ariel found out that each of her older sisters had feelings for their brother-in-law.

There was no reason for Ariel to deny any feelings her older sisters had for their brother-in-law. On the contrary, deep in Ariel’s heart, she recognized Lucien as the only man worthy of becoming the son-in-law of the Lucifer family.

The extraordinary strength that Lucien showed in fighting against Charles was enough for every living being in the entire world to recognize Lucien as Lilith’s son-in-law. Moreover, Lilith’s status in the eyes of all living beings was that of a divine being whom they could worship at any time. Therefore, living beings thought that Lucien was the only man worthy of becoming the future husband of the future Dragon Queen.

The lower part of Ariel’s stomach subconsciously felt an itchy sensation when she witnessed the sexual intercourse between Lucien and Athena. The sense of smell of the Dragon race could easily allow them to detect odors that penetrated large buildings. For some reason, the lewd smell emitted by Lucien and Athena while they were having sex started to mess with Ariel’s mind.

"Brother-in-law... He really is very brave. He... isn’t he afraid that there are other people outside the walls peeking in from a distance?" A hint of endless worry surged through

Ariel. Luckily, Ariel's previous worry only lasted for a few moments before she finally showed her uncaring expression again. After recalling the extraordinary power that her brother-in-law possessed, Ariel knew that it was impossible for her brother-in-law not to know every situation occurring outside the castle.

But Ariel couldn't look away from watching the sex between Lucien and Athena. Unexpectedly, a surprised voice was heard from beside Ariel. Ariel's eyes and Heilde's eyes met each other after they witnessed Lucien's intimate relationship with their older sister.

The two sisters nodded at each other before they finally decided to show their awkward smiles. Both Heilde and Ariel had been completely unaware of each other's presence. On the other hand, Heilde and Ariel had been watching Lucien and their older sister having sex for several minutes.

There was nothing that could stop Lucien from having sex with the woman he loved the most. Even though Lucien was aware of the presence of Ariel and Heilde, who were now watching from inside the castle, he acted as if he was unaware of what was happening inside the castle.

From Lucien's point of view, both Heilde and Ariel were Athena's younger sisters. Moreover, Heilde and Ariel were female. That alone was enough for Lucien to let the two women watch the sex between him and their older sister.

Chapter 83: Hidden Intentions - R18

Athena and I started kissing each other. The two lovers didn't care at all about what was happening around them. On the contrary, both lovers' focus at that moment was to relentlessly engage in their sexual relationship until one of them was satisfied.

Various perverted expressions could be seen on Athena's beautiful face. This was the first time Athena had felt a fluttering sensation when she had sex with me. After all, this was the first time Athena had sex outdoors with her lover.

Luckily, the inside of the royal castle garden was only inhabited by members of the Lucifer family. Not everyone from outside the castle could enter the depths of the Dragonia Kingdom's castle without the consent of Lucius and Lilith. Therefore, Athena had absolutely no problem with the action I was trying to take in having sex with her outdoors.

Every wall of Athena’s pussy applied tremendous pressure to every inch of my cock. Since the first time Athena and I had sex, this was the first time Athena had shown an incredibly strong grip between her pussy and my big cock.

A slightly tired expression began to appear on my face. For some reason, my stamina started to decrease as Athena and I had sex that was much more intense than before.

The feeling of Athena’s pussy relentlessly trying to suck my cum began to surge within me. Without being able to say a word, the movement of my cock became much faster than when I had previously moved my hips.

After more than seven thrusts, spurt after spurt of hot sperm was endlessly released inside Athena’s womb. Most of Athena’s womb was completely flooded with my sperm. Despite that, both Athena and I decided to resume kissing each other.

Suddenly, a memory of my previous conversation with Elize came back to my mind. The various things that Elize had to take care of were not just about dealing with regional problems. On the contrary, Liz was one of the reasons why Elize decided to go back and check on her territory.

"Should we stop? I see that your two little sisters are watching our relationship from inside the castle. We should end our intimate relationship right now."

For some reason, the blank expression that had previously been on Athena’s face began to change into one of surprise. Various expressions of embarrassment continuously appeared on Athena’s face. Without being able to say a word, Athena decided to stand up from my lap.

My sperm continuously flowed out of Athena’s womb, down to her thighs. Luckily, Athena could easily clean up the sperm that had previously flooded her uterus. Therefore, Athena decided to put her clothes back on.

Likewise, I had returned to wearing my underwear. I couldn’t remain completely naked and allow myself to show my little brother in front of my sisters-in-law. As a man, I had to show politeness when dealing with Athena’s sisters.

"How long are you two going to continue watching our relationship? You two can leave right now." Athena’s voice came out of her mouth and reached Ariel and Heilde’s ears. Athena’s sharp gaze continuously gave Heilde and Ariel a sense of intimidation. For some reason, the two sisters decided not to say anything regarding the actions previously committed by their brother-in-law and older sister.

Opening their mouths about their brother-in-law and older sister having sex outdoors was no different from bringing disaster upon themselves. But still, both Heilde and Ariel couldn’t forget the moment when Athena and I had sex with each other.

They could still feel the hot and itchy sensation between their pussies to this day. Every time Ariel and Heilde tried to look at their brother-in-law's face, they unconsciously turned their faces away from him.

A small part of me didn't know the reason why Heilde and Ariel didn't dare look at my face. But considering the sex I had with Athena, it wouldn't be strange if the two sisters didn't want to look at me directly.

"We are sorry. We accidentally witnessed the relationship between our brother-in-law and Sister Athena. I hope Sister Athena can forgive the actions of your two younger sisters."

No answer came out of Athena's mouth. Deep inside, she felt her heart beating very fast when she remembered that her two younger sisters now knew about her relationship with their brother-in-law.

Athena had never in her life shown such a bad side of herself in front of her other sisters. Most of Athena's sisters would call their older sister the perfect sister. As the oldest of the four sisters, Athena had watched over her three younger sisters several times as they grew up.

But now, every perfect action carried out by Athena in the past had been destroyed because of one small mistake. Yet Athena couldn't regret the actions she had committed with me. On the contrary, a strange smile appeared on Athena's face as she held Ariel and Heilde's shoulders.

"Ariel, Heilde, I just hope that you don't tell Father and Mother what happened in the garden. Especially your older sister. I'm afraid that Shelia will be very angry when she finds out about what is happening now."

Without realizing it, Ariel and Heilde showed fearful reactions when they imagined the figure of Shelia losing her mind. For the two women, Shelia was no different from a fanatical woman trying to monopolize the only man in their family.

"We understand! We can't tell Sister Shelia what is happening now. Sister Heilde and I are also afraid that Sister Shelia will go berserk..."

After seeing that her two sisters understood the meaning of her words, Athena's expression returned to its calm state. However, Athena's gaze shifted back to her lover. For some reason, a small grin appeared on her face.

"It's okay. Sister will forgive the actions that you two have done before. Moreover, your brother-in-law really likes what you have done for the two of us. Therefore, you both have to fight and try your best to survive when you are by your brother-in-law's side."

Confused expressions involuntarily began to appear on Heilde and Ariel's faces. The two sisters did not understand the meaning of Athena's words. On the contrary, the two women continuously showed confused expressions at the meaning of Athena's earlier statement.

"Master! We're back!"

Both of my gazes turned toward the direction of the two elf girls. Tifa and Tina's current strength had reached a level equivalent to the Dragon King stage. For some reason, the aura emitted from Tifa and Tina's bodies gave Ariel and Heilde an intimidating feeling.

The level of mana power possessed by Tifa and Tina far surpassed that of ordinary Dragon King stage dragons. Moreover, Tifa and Tina's bloodlines came purely from the noble bloodlines of the Elven race. That was also the reason why the two women were born with an enormous amount of mana power.

Tifa's strengths focused on attack. In contrast, Tina's strength was focused solely on defense. These were the most common abilities possessed by members of the Elven race on the Spirit Continent.

All elves of the Elven race were capable of both defense and attack. An example of this was Tifa and Tina, who were born with two opposite talents. Even though they had different talents, the two women were equal in strength.

Chapter 84: Earning Praise

By the way, I am from another world. Half a year ago, I accidentally read a comic made by Ariel in Shelia's office. At first, I didn't know the origin of the comic on the shelf in Shelia's office and didn't know who the creator was.

But after I read more of every work created by Ariel, I assumed that Ariel was the one who had drawn those comics. I was also very happy at first after finding out that the world I was in now had illustrated comics to read.

That was also the moment when I suspected that Ariel was one of the people who had been reincarnated into another world. But after seeing further the attitude shown by Ariel when we met for the first time, I considered Ariel to be an arrogant woman who did not have the professional attitude expected of an adult woman.

The life that Ariel lives in the Dragon Realm is much different from my life on the Life Continent. However, almost every day, I get tortured by old women who want to have intense sex with me.

There was no reason for me to ask Ariel, as someone who had also been reincarnated from another world just like me. Ariel and I are two people who are destined not to have the same life. Although I was happy to learn that Ariel also came from another world, I will forever think of Ariel as one of Athena's younger sisters.

Right now, my eyes are constantly staring at the figures of Tifa and Tina, who are now hugging my wrists. For now, the women around me and I have decided to take a walk around the castle. After all, this was the first time Ariel and Heilde had decided to get together with their older sister.

Even though I was one of the reasons why Ariel and Heilde decided to take a walk around the castle, from the start, the two women had completely fallen for my extraordinary power. But that's not a problem for me at all.

There is no problem even if I consider the love that Heilde and Ariel have for me to be sincere love. Moreover, the statement previously given by Athena towards her two younger sisters was enough to show that she accepted them as part of my future women. Of course, Athena wouldn't let her two little sisters openly succeed in becoming part of my women so easily.

Every goal has to be achieved through effort. Without strong evidence that someone should love another, it is no different from a lie. But unfortunately, both Heilde and Ariel were completely unaware of the attitude shown by their older sister towards the two of them.

Heilde and Ariel's focus at the moment is to endlessly stare at the situation happening around the castle after having been away for almost a week. Every change that occurred around Ariel and Heilde gave them a feeling of nervousness in their hearts. Memories of the extraordinary fear that Ariel and Heilde felt while talking with their older sister came back to their minds.

Athena's power now gave Heilde and Ariel a feeling no different from when they spoke directly to their father. The pressure of a Dragon Emperor stage dragon was enough for dragons at the Great Dragon King stage and below to feel fear when facing one of them. That was also the reason why Heilde and Ariel felt fear when they talked to Athena, who had grown much stronger than before.

After having sex with me one week earlier, Athena's strength, which had previously been at the Great Dragon King stage, had reached the threshold of the Dragon Emperor stage. From the start, Athena's strength was not much weaker than Elize's strength.

It was impossible for the two rivals not to compete with each other in terms of strength. Moreover, those two women are now part of my women. As the man of two incredibly strong women, I had to fight harder to satisfy Athena and Elize's desires.

"Master, Master, do you want to drink tea? We can make some delicious tea for you to drink!"

No one knows that I am currently showing my gentle smile towards the attitude shown by Tifa at this time. Since this girl dares to offer me tea, I will not hesitate to happily accept it.

"Okay. You can show your progress in making tea with your own hands. I hope you don't make the same mistake that happened a few days ago."

This is not the first time I have tasted tea made by Tifa with her own hands. Previously, the tea made by Tifa was much worse than the tea made by Tina. Since then, Tifa decided to learn how to make tea just to get praise from her master.

Actually, I also knew Tifa's true intention, which was to get praise from me for the quality of the tea she made. But it's not a big problem for me at all. Therefore, without hesitation, I immediately took the cup of tea that was in Tifa's hand after she brought it into the living room.

The aroma of the fragrant tea endlessly graced my sense of smell. There is no reason for me not to praise the smell of the tea made by Tifa. However, the smell of the tea made by Tifa reminded me of the first time I drank premium tea in my previous life.

'The smell is very similar. I have to drink it carefully so as not to disappoint this little girl.'

Various pleading and hopeful expressions appeared on Tifa and Tina's faces. For one whole week, Tina had given all her knowledge to Tifa in making delicious tea. Now was the time for Tifa to show the results of her hard work in front of their master.

The feeling of tiredness from the time Tina spent training Tifa in making tea came back to her mind. Luckily, this was the last day for Tina to give Tifa lessons on how to prepare tea. As a teacher, Tina really hoped that her student could succeed in attracting their master's attention with the tea she made.

When the cup of tea made by Tifa touched my lips, I felt that the taste of the tea made by Tifa was not much different from the tea previously made by Tina. However, Tina was the teacher who had guided Tifa on how to make delicious and fragrant tea.

There is no reason for me not to praise the tea made by Tifa today. From the start, I was very happy when I was able to taste tea made directly by Tina. Therefore, I recognize Tifa as one of the experts capable of making extraordinarily delicious tea.

"Very good. The taste of the tea you made is many times better than when you first made it. Congratulations, Tifa, on being praised for the quality of the tea you made."

Receiving direct praise from her master for making tea was one of Tifa's main goals in becoming closer to her master. Now, Tifa had succeeded in gaining direct recognition from her master. That alone was enough for Tifa not to feel worried when she was by her master's side.

"Is it that delicious? Then let us try it too. Tifa, would you mind letting us try the tea you made?"

Listening to Athena's request to taste the tea she had made, Tifa immediately brewed three cups of tea to give to the three sisters without hesitation. The expressions shown by Ariel and Heilde at this time revealed their doubtful looks.

Almost every day, the two sisters drank tea made directly by the maids in the castle. Being able to taste tea made directly by their brother-in-law's maid had not been Ariel and Heilde's intention at all. Even so, Tifa was one of their brother-in-law's personal maids.

Chapter 85: Regional Issues

Bringing the tea cups closer to them, both Heilde and Ariel began to drink the tea made by Tifa. Initially, the two women did not have any expectations about the taste of the tea that Tifa had made.

A happy look appeared on Athena's face when she drank the tea made by Tifa. Deep in Athena's heart, she considered Tifa to be a talented woman who was great at brewing tea. But Athena understood that the reason why Tifa could make delicious tea was because of Tina.

As a woman and also the lover of Tifa and Tina's master, Athena had to show her fairness in front of her lover's two maids. However, both Tifa and Tina were by no means two women from ordinary families.

"Very delicious. You are very good at concocting tea that is at the level of a high-class noble family."

"Thank you very much for your compliment, Ma'am. I am very happy to hear the praise directly from your mouth." Bowing her head in front of Athena, a wide and happy smile spread across Tifa's face. This was the first time Tifa had heard Athena directly praise her.

Luckily, both Tifa and Tina did not mind the actions taken by Athena and Elize towards their master. From Tifa and Tina's point of view, Athena and Elize's status was that of women belonging to their master.

Praise after praise began to come out of Ariel and Heilde's mouths. As the only man in the room, I did not open my mouth at all. On the contrary, I simply watched the conversations taking place among the women around me.

For the first time, I realized that I was a bastard surrounded by beautiful women. If my past self from two years ago had witnessed the events that were happening now, he would not have been able to hide his jealousy at the situation I was currently experiencing.

In my entire life, I never expected that there would come a time when I would be surrounded by high-class noble ladies. Moreover, almost all of these women had talents far above those of ordinary living beings. Therefore, I was very happy whenever I recalled the time when Athena took me with her into the Dragon Realm.

That was the moment my whole life changed for the better compared to when I was first reincarnated into another world. Being born with a Velvet Prostitute Physique was not a good thing for my life at all. Until now, I considered being born with a Velvet Prostitute Physique to be both a blessing and a curse sent down by heaven.

I had been saved almost three times by the Velvet Prostitute Physique in my current life. A big part of me thought that being born with a Velvet Prostitute Physique was one of the reasons why I was abused by human women. But after I was taken by Athena into the Dragon Realm, I learned that being born with a Velvet Prostitute Physique was not a bad thing at all.

Moreover, the physical strength I was born with saved me from the death that the empire had intended for me. Because of that, I was also able to defeat every army that had previously tried to attack me in the arena. For some reason, my entire body shook violently after remembering the time when I managed to wipe out every single force of the Vermillion family.

But it was not a big deal for me at all since I had killed almost thousands of troops from the Vermillion family. In fact, I completely ignored my attempt to kill Charles before. After all, Charles was the reason why I had to lose my identity as Lucien.

Thinking back to Charles's current situation, he could lose his life at any time. However, Charles's father and mother had tried their best to cure his previous disability. It was just that Charles currently could not move his body at all from his hospital bed.

The most important thing was that I had managed to win against Charles and bring Athena back with me. Moreover, Athena and I had now officially become lovers. For that reason, I was very happy to be by Athena's side.

"But where is Sister Elize? Why is she taking so long? I thought she would be back soon..."

Pondering for a while, I decided to take a deep breath and stand up from the sofa where I had been sitting. I said, "Do you guys want to come with me? I can take you to where Lize is right now."

Various confused expressions could be seen on the faces of Athena and the other women in the room. Naturally, those women did not know about the function of the abilities the system had given me at all. On the contrary, I subconsciously recalled the time when the system granted me the teleportation ability after it had successfully upgraded to System 2.0.

"Is it possible for us to be directly by Lize's side?"

"Then you can join us. I will take you with me."

For some reason, no words could come out of my mouth. Almost every woman in the room started surrounding me with their arms. Without being able to say a word, I decided to immediately take Athena and the others to the place where Elize currently was.

Within the border area of the Dragonia Kingdom, various troops could be seen standing guard outside the border. Many members of the Dragon race were guarding the borders of the Dragonia Kingdom. Moreover, most of the dragons were troops from the Vermillion family.

After the Dragon Emperor decided to give the outer territories of the Dragonia Kingdom to the Vermillion family, they became fully able to control every economic channel outside the Dragonia Kingdom. That was also the reason why merchants from the Dragonia Kingdom were completely unable to get past the tight security maintained by the Vermillion family troops.

"How dare you obstruct trade matters from the Dragonia Kingdom? This violates the main rules that have been implemented!" The commander of the Dragonia Kingdom troops commented on every action taken by the Vermillion family troops against them. The commander simply could not accept how the citizens of the Dragonia Kingdom were being oppressed by the empire. Therefore, the commander decided to intervene and expel every force belonging to the Vermillion family.

Unfortunately, the Dragonia Kingdom could not expel any of the Vermillion family forces from outside their territory. On the contrary, the forces of the Vermillion family had full rights to control every region outside the borders of the Dragonia Kingdom.

This was also one of the reasons why every party from the Dragonia Kingdom was completely unable to put up any resistance to the treatment shown by the Vermillion family forces towards them. From the start, both the Dragonia Kingdom and the Vermillion family belonged to two opposing camps. But still, neither of the two armies

had any intention of surrendering to each other over the territorial conflict that was taking place.

Suddenly, a chilling cold air began to sweep across the sky above the borders of the Dragonia Kingdom. Everything around that place started to freeze with just one breath from a woman. Elize's figure appeared in the sky, and she endlessly emitted a cold energy that could confuse the minds of weak dragons.

"This is the pressure of an Emperor! Is that the King of Dragonia? No... that person should not have this kind of terrifying cold pressure. I thought it was her..."

"Frost Empress! That is the Frost Empress! Be careful, everyone! I heard that the Frost Empress has completely sided with the Dragonia Kingdom and has completely betrayed the empire!"

Chapter 86: Archenemy

"Betraying the empire? Where's the joke? Don't be kidding. Tell your side that I wasn't on your side at all from the start!"

With one wave from Elize, every living being within a radius of hundreds of meters turned into frozen blocks of ice. Not a single person in that place was able to move after being struck by Elize's Ice Element.

For some reason, intense heat began to surround every side of the Dragonia Kingdom's border region. Three powerful dragon figures appeared outside the borders of the Dragonia Kingdom. They were the three elders of the Vermillion family.

The three elders of the Vermillion family had been assigned by the family's leader to guard the border region. However, the Frost Empress, who was considered the strongest and youngest dragon, had managed to break through and reach the Dragon Emperor stage.

There was no reason for the leader of the Vermillion family to hesitate in sending the main force of the Vermillion family to the border of the Vermillion family's territory. Therefore, the auras of Elize and the three elders of the Vermillion family began to collide endlessly with one another.

"Incredibly great power. It is very domineering and different from the King of Dragonia. This girl is by no means an ordinary young dragon!"

"Why don’t we work together to take her down? She won’t have any chance of winning against the three of us."

Contemplating the situation, the oldest elder frowned after hearing his colleague’s intentions. There was no reason for the three elders to start a major battle against the troops of the Dragonia Kingdom.

The commander of the Dragonia Kingdom continuously showed a nervous expression as he felt the pressure from the four Dragon Emperor stage experts. In the commander’s entire life, this was the first time he had felt such terrifying pressure from such a close distance.

Unexpectedly, the figure of a man surrounded by five beautiful women was seen floating behind Elize. My face, which had previously looked half dead, began to show a helpless expression. At the same time, the pressure from the four Dragon Emperor stage dragons involuntarily woke me from my chaotic thoughts.

Both Athena and I immediately prepared ourselves when we felt the pressure from the three Dragon Emperor stage experts. Athena’s two sharp gazes continuously instilled fear within the three elders. For some reason, expressions of discomfort appeared on the faces of the three elders.

"How could they appear at the same time? I couldn’t even sense the presence of all six of them before."

Elize’s face continuously showed a blank expression after feeling the presence of her lover and the other women. There had never been a day when Elize witnessed a moment where her lover and the other women could suddenly appear behind her. However, this was the first time Elize had witnessed her lover’s ability to move people thousands of meters away instantly.

"Lucien Blackheart?! That was the brat who attacked our young master earlier. What should we do now?"

None of the troops from the Vermillion family could contain their hatred when they saw the presence of their young master’s enemy. To the troops of the Vermillion family, I was no different from a man they had to kill anytime and anywhere.

Feeling the immense hatred shown by the troops of the Vermillion family, I couldn’t help but avert my gaze from the looks they were giving me. Nothing good would happen if I responded to every insult the forces of the Vermillion family directed at me.

Even though the Vermillion family was the reason Charles got badly injured when he fought face-to-face with me in the first place, I did not care at all about Charles’s previous condition. On the contrary, I felt very happy when I found out how Charles had been punished for daring to act arrogantly in front of the citizens of the Dragonia Kingdom.

I had completely succeeded in fulfilling my promise to the citizens of the Dragonia Kingdom. For that reason, I had no problems at all standing in front of them. However, every citizen of the Dragonia Kingdom had fully recognized me as the next candidate for the Dragon King.

"Our Master is very famous. I'm sure you will be able to cause even more chaos for the enemy, just like what happened now."

A coughing sound involuntarily escaped my mouth after listening to Tina's words. Every sentence Tina said about me was enough to show how reckless I was. Still, any troops visible in the border region of the Dragonia Kingdom were simply not worthy opponents for me.

"Hmph. Lize, leave the problems here to me. You and Hena should retreat with the others. From the start, I was the one they were after."

"But Cien... wouldn't it be a problem if you fought face-to-face against three Dragon Emperor stage dragons alone?"

The confident expression I showed at that moment continuously filled Elize with nervousness. This was the first time Elize had witnessed her disciple fighting face-to-face against three Dragon Emperor stage dragons. Even though this wasn't my first time fighting a Dragon Emperor stage dragon, the three dragons before me were much stronger than Charles had been.

The intense pressure emitting from the bodies of the three dragons ceaselessly melted the ice that had previously engulfed the entire region. Athena, Elize, and the other women decided to retreat dozens of meters away. However, a battle between powerful dragons could easily destroy everything around that place.

The extraordinary battle that occurred when I fought Charles earlier was enough to show the destruction that such a fight could bring. That was one of the reasons why no one in that place dared to get within dozens of meters of a battle between powerful dragons. For some reason, a disgusting laugh could be heard coming from one of the three older dragons.

Almost every member of the Vermillion family present there hated the human man standing before them. From the perspective of the Vermillion family, killing me was no different from raising their status within the family and the empire.

The name Lucien had managed to instill fear in every citizen of the empire. Since the first time Lucien displayed his strength by killing thousands of troops from the Vermillion family, almost every citizen of the empire had considered Lucien to be the second Lilith, someone capable of destroying the empire at any moment.

"Ha ha ha! We have no choice but to fight! First Elder, I hope you won't be offended if the three of us work together to defeat that human brat."

After pondering for a while, the oldest dragon shook his head before finally sighing. It had simply never been part of the three dragons' plans to fight face-to-face against the enemy of their young master.

Since that human had dared to challenge the three elders of the Vermillion family, they would not hesitate to display their full strength against him. The three dragons could not afford to waste the opportunity given by the opposing side to face their archenemy.

Chapter 87: Unequal Battle

"Do you need Demonic Armor? If you want to use it, I will give it to you."

My eyes began to stare at the side where one of Elize's hands was carrying a set of purple armor. It was the armor that had previously accompanied me in facing Charles. Even so, I had absolutely no intention of using that Demonic Armor against those three Dragon Emperor-stage dragons.

Shaking my head, I immediately flew away from Elize's presence without even looking at her. At this moment, I had completely entered a state where I showed full concentration in fighting face-to-face against the three dragons. This was also the reason why I was very confident when fighting face-to-face against the three Dragon Emperor-stage dragons.

The ability of Through Acceleration allowed me to increase my understanding and concentration much higher than before I obtained that ability. For now, both my mind and soul had completely entered a state of full concentration. There wasn't a single person in that place who could disrupt my current concentration while facing the three Dragon Emperor-stage dragons.

A small part of me really admired the greatness of the Thought Acceleration ability, which could make me think much more clearly and quickly than usual. For some reason, every action I was prepared to use right now gave me a smooth path when fighting face-to-face against the three Dragon Emperor-stage dragons.

There was no doubtful expression on my face while fighting face-to-face against the three Dragon Emperor-stage dragons. On the contrary, every expression shown by the three Dragon Emperor-stage dragons reflected their ugly expressions when they saw the serious look on my face.

This was the first time the three dragons had been treated so lightly by a kid like me. For the three dragons who were more than a thousand years old, receiving such a petty glance from a 20-year-old boy was the humiliation of their entire lives.

But remembering the identity of the boy in front of them as the future son-in-law of the Dragon King, the three dragons decided to lower their disgust and focus on facing the human. Three dragons who were thousands of years old should not have been provoked by just one trivial glance from a human child.

"Will he be okay? Brother-in-law... I hope he can win while fighting against those three old guys."

"We have nothing to worry about. Cien is strong. You will definitely understand when you see the next incident that will happen."

No answer could come out of Ariel's and Heilde's mouths after listening to Elize's explanation. Both Heilde's and Ariel's gazes were now endlessly fixed on the fight involving their brother-in-law, who was now fighting against the three elders of the Vermillion family. Throughout Heilde's and Ariel's lives, this was the first time they had witnessed a decades-old man fighting against dragons that were thousands of years old.

It was impossible for Heilde and Ariel not to show shocked expressions when they witnessed how their brother-in-law fought against the three Dragon Emperor-stage dragons. Moreover, the number of Dragon Emperor-stage dragons was three. That alone was enough for a young man like me to lose at the hands of older opponents.

In less than a split second, cold and hot air began to surround everything in the border region of the Dragonia Kingdom. Everything within hundreds of meters began to turn into a terrifying sea of ice and a sea of fire. For the first time, the temperatures of the two regions began to become much more extreme than during summer and winter.

This was the impact of a fight between powerful dragons as they unleashed the collision of their incredibly powerful attacks against each other. Luckily, the three dragons and I could easily repair any damage that occurred around that place. Therefore, we had absolutely no hesitation in fighting with all our strength.

[You have successfully activated Dragonoid Transformation. Every statistic of the host will be doubled.]

The massive increase in power I was receiving right now did not allow me to hold back my enthusiastic expression at all. For some reason, the power that was incessantly surging through my body at this moment started to give a gripping feeling to every dragon in those two areas.

The pressure of a Dragon King-stage expert could easily mess with the minds of every force on both sides. In all of history, this was the first time that a human with such low

strength had managed to intimidate experts above the Dragon King stage. For some reason, every troop from the Vermillion family involuntarily fell from their positions after feeling the terrifying pressure I was displaying right now.

[Dragon Emperor's Aura has been activated.]

The aura of a Dragon Emperor-stage dragon relentlessly instilled endless fear within the Vermillion family troops. In contrast, every troop from the Dragonia Kingdom showed absolutely no fear on their faces other than awe.

Even though the troops from the Dragonia Kingdom were not completely able to stand after feeling the aura emitted by that human, none of them dared to speak ill of me, who was now fighting face-to-face against the three elders of the Vermillion family. Unexpectedly, the collision of attacks from the four experts in the sky began to become much more terrifying than the aura collision that had occurred before.

"Very impressive, Cien. This is one of the abilities we have. Do you think Cien is currently using my Through Acceleration?"

"Maybe that could be the case? Moreover, he previously ignored me when I offered him my Demonic Armor."

Both Elize and Athena did not mind the serious attitude I had shown earlier. However, fighting face-to-face against three Dragon Emperor-stage dragons required a level of concentration far above average.

"Why should you worry? He will win. The master will definitely win this battle. I believe that our master will be able to win against those three powerful dragons."

Tina's words unknowingly increased Elize's and Athena's confidence. The two women knew from the start that their lover could not lose to the three Dragon Emperor-stage dragons. On the contrary, both Athena and Elize believed that their beloved would succeed in fighting against the three Dragon Emperor-stage dragons.

For some reason, the situation unfolding in the sky began to become extremely gripping. Most of the heat that had previously swept across the place had completely turned into ice. The figure of a black-haired man could be seen floating above the three middle-aged men with a face full of intimidation.

None of the three dragons could hold back their shocked expressions when they saw the strength of the human in front of them. At first, the three men thought that I was no different from a Great Dragon King-stage dragon. But those three men absolutely did not expect that I could easily defeat the three of them in just dozens of attacks.

"Damn... damn... we were defeated by a human boy? Let him see our true forms!"

The three figures of the men who had previously been in human form began to transform into giant dragons with sizes exceeding tens of thousands of meters. For the first time, I witnessed three Dragon Emperor-stage dragons transform into their true forms. Even so, I wasn't afraid at all when faced with the transformations of the three Dragon Emperor-stage dragons before me.

Chapter 88: Annihilation Void

[MP: 423,534/499,999.]

There's nothing to worry about for now in consuming a small portion of my mana power. However, the amount of mana I have now has surpassed the hundred-thousand mark. That alone was enough for me to fight face-to-face against dragons at levels far above mine.

There was no feeling of tiredness spreading throughout my body when facing the three Dragon Emperor-stage dragons. Even though I wanted to continue fighting against the three Dragon Emperor-stage dragons, I, without hesitation, immediately displayed all the strength that I had previously obtained after having sex with Athena.

[Annihilation Void has been used successfully.]

[Annihilation Void: an ability that can destroy everything around the host. It can destroy both living and inanimate objects. As long as the host wishes for something to be destroyed or killed, the host can defeat or even destroy it by simply sacrificing half of the host's mana.]

[Additional note: the ability of Annihilation Void allows the host to easily walk in the void and also move several miles away. It can also allow the host to stand within the stopped flow of time and space. There is only one drawback to Annihilation Void, namely that it depends on how strong the host's mana is to be able to destroy something that the host itself cannot destroy.]

[Ding! Consumed almost 150,000 MP. Please be more careful and wiser in using this incredibly powerful Annihilation Void ability.]

[MP: 273,534/499,999.]

"This... What is this? My body... What kind of evil ability is this human boy actually using?! Is there anyone in the world who can possess such a terrifying ability?" Unfortunately, one of the three dragons couldn't continue his sentence when his body and

soul were destroyed along with those of his two companions. For now, neither side could show any expression on their faces when they witnessed the phenomenon I had created. On the other hand, even Athena couldn't maintain her expressionless face after witnessing how her lover used the power of her Annihilation Void ability.

In fact, this was the first time Athena had witnessed someone use the ability of Annihilation Void other than herself and her mother. In the past, Athena never used the ability of Annihilation Void except in dire situations. For that reason, Athena was surprised when she saw how I managed to survive after activating the ability of Annihilation Void.

"The elders were defeated? Were they killed by that human? We have to retreat! Hurry and immediately report the situation here to the Family Head!" The troops from the Vermillion family began to show panicked expressions when they learned of the deaths of the three elders of the Vermillion family. It was the first time in history that the elders of the Vermillion family had lost to a human like Lucien. After all, there had never been a weak human who could defeat a Dragon Emperor-stage dragon, let alone more than three of them.

This was the first time the Dragon race had suffered consecutive defeats at the hands of a human like Lucien. But I didn't care at all about the thoughts running through the heads of the Vermillion family troops. Instead, I decided to return my form to its previous state.

The moment my Dragonoid Transformation disappeared, endless tiredness swept through my body. It would have been impossible for me to withstand the burden I received after activating the power of Annihilation Void.

Activating the ability of Annihilation Void while in Dragonoid Transformation form was no different from committing suicide. Luckily, the amount of my current mana power after changing back into human form was around 50,000 MP. That was also the reason why I was able to stand where I was and maintain my consciousness.

"Now what should we do? They have been defeated. Should we go and kill the remnants of the enemy?"

While contemplating where she stood, a sigh involuntarily escaped Athena's mouth. There were lots of questions running through Athena's head. However, the power shown by her lover earlier was a deadly power that could take the user's life.

But I could easily accept any side effects after activating the ability of Annihilation Void. Luckily, I was a human who had been born with the Velvet Prostitute Physique. Therefore, I was able to survive even after activating a terrifying ability like Annihilation Void.

"Cien! Are you okay? How could you act so carelessly that you had to use the ability of Annihilation Void? You almost made us worry!"

Listening to every worried word Athena directed at me, I decided to close my mouth and listen to all the advice she gave me. Despite that, I didn't regret it at all, even after activating the ability of Annihilation Void.

The power I currently possessed had far surpassed what I had in the previous few months. Even if I activated the Ultimate Ice Form, I would be able to survive even if I had to maintain the form for less than half an hour.

"Eh... But I didn't suffer any side effects... At least we have succeeded in driving away those intruders from disrupting the territory of the Dragonia Kingdom."

Both Athena and the other women were completely unable to respond to the words I had spoken. From a woman's point of view, they saw me as a monster who could always win against beings far beyond their common sense.

"Sigh... you should forget what Cien did earlier. Cien is an anomaly. He can even bear the entire burden after activating the Ultimate Ice Form. Therefore, we shouldn't worry even if he activates both powers simultaneously."

None of the women dared to look at each other after listening to Elize's explanation. Various thoughts about how the man near them was a monster endlessly ran through their minds. But fortunately, that was the most normal reaction after remembering how the man near them had managed to win while fighting against thousands of troops from the Vermillion family.

Killing Dragon Emperor-stage dragons was easy for the man near them, who had managed to wipe out nearly thousands of troops from the Vermillion family. Therefore, Elize, Athena, Heilde, Ariel, Tifa, and Tina decided to shake their heads after learning the true strength of the man near them.

"Erm... Your Highness Princess, what should we do now? Please don't ignore your troops." The commander of the Dragonia Kingdom army decided to speak and bow before Athena and the others. None of the soldiers dared to look directly at the figures of Athena and the others. On the contrary, they felt something dangerous when they tried to look at them.

Intense killing intent endlessly surrounded every side of the place where the troops of the Dragonia Kingdom were gathered. My two eyes continuously stared at the side where the troops of the Dragonia Kingdom currently stood. After pondering for a while, I decided to retract all of the killing intent that had previously spread throughout every side of the border region.

I shouldn't have spread my killing intent after I first teleported to Elize's side. As a man, I would not allow anyone to look at my women with lewd eyes.

Unfortunately, not everything could go smoothly, even if I tried to freeze the movements of every troop from the Dragonia Kingdom. For that reason, I wouldn't do anything stupid as I had done before.

Chapter 89: Impulsive

"Don't issue any orders to chase them down. We don't know what the empire is actually planning at the moment. Immediately retreat and convey the information about what is currently happening within the border area to His Majesty."

The commander and his troops decided to retreat after listening to the orders given to them by Athena. Moreover, the soldiers who were in proximity to that place felt very relieved after regaining their freedom when they felt the terrifying pressure from Lucien disappear. It was the first time the soldiers had felt the incredibly terrifying power of their princess's future husband strike fear into them.

For now, every soldier in the Dragonia Kingdom's army had witnessed the true power of their future king. There was no reason for the soldiers not to completely submit to Lucien's orders. Therefore, the soldiers and the commander sighed as they moved away from where Lucien and the others were.

"That human boy is much stronger than expected. His Majesty was not wrong in choosing that boy as the future husband of Princess Athena." Praise after praise came out of the commander's mouth. In the commander's entire life, this was the first time he had seen a young human successfully defeat Dragon Emperor-stage dragons.

Any dragon that had reached the Dragon Emperor stage would be considered a powerhouse throughout the world. They were beings who could tear apart the sky and overturn mountains with a single claw. That alone was enough for every living being in the entire world to consider Dragon Emperor-stage dragons to be incredibly powerful beings.

But in front of Lucien, dragons at the Dragon Emperor stage were no different from baby dragons that he could kill at any time. However, the strength of the three Dragon Emperor-stage dragons was only at the initial layer of the Dragon Emperor stage. Not all Dragon Emperor-stage dragons were equal in strength.

The presence of Lucius was one example of the reason why he was able to win against Dragon Overlord-stage dragons. Lucius's current strength had reached the peak of the Dragon Emperor stage. It's just that Lucius currently had absolutely no intention of breaking through in the near future.

The foundation of strength was one of the reasons why Lucius decided not to make his breakthrough to the Dragon Overlord stage. From the start, Lucius could easily break through to the Dragon Overlord stage any time he wanted. Therefore, among all Dragon Emperor-stage dragons, Lucius was the strongest of them all.

There were also figures like Elize who could easily defeat dragons above her level. Most of the dragons that Elize had defeated when she faced various dragons in the empire were at the peak layer of the Dragon Emperor stage. Even though Elize was overwhelmed while fighting against the powerful dragons of the empire, she did not feel any pressure at all when facing Dragon Emperor-stage guards.

Since she was young, Elize had faced pressure several times from enemies far stronger than Dragon Emperor-stage dragons. It was a happy past in Elize's eyes. For some reason, the memories of Elize training by her master's side came flooding back into her mind.

The strength previously shown by Lucien gave her a feeling of longing for the figure of Elize's only master. There was only one person in this world who could train Elize until she became much stronger than dragons of her age, and that was Elize's master. She was a figure no weaker than a Dragon Supreme-stage dragon.

Above the Dragon Overlord stage or Lord Warrior stage was the Dragon Supreme stage or Ancient Warrior stage. They were existences that had surpassed the common sense of living beings throughout the world. Whenever a Dragon Supreme-stage existence appeared in the world, they would be able to turn the situation around even if they had to face the military might of a large country.

The strongest powerhouses in the entire world were currently experts at the Ancient Warrior stage, or what could also be called the Dragon Supreme stage. There were only dozens of Dragon Supreme-stage dragons occupying each region of the Dragon Realm. But in the human world, the strength of Ancient Warrior-stage experts was far above that of Dragon Supreme-stage dragons.

The Human race was a race that could reproduce in large numbers. There were countless powerful experts born within the Life Continent. One of the reasons why the Dragon race was considered the strongest species in the entire world was because of their strength and endurance, which exceeded the common sense of most species.

But the Human race was different from every other race that existed throughout the world. The Human race could adapt to and learn everything that existed throughout the world. Since ancient times, the Human race had been the only race that had managed to survive every attack launched by powerful races.

This was the reason why the Human race had been able to develop into a race that stood on equal footing with the Dragon race and the Giant race. Since the population of the Human race surpassed that of every other living being on the four continents, they could be considered one of the three strongest races in the world.

[+2,000 Affection Points have been awarded for successfully attracting the attention of every woman around the host.]

"Honey, you are too possessive when it comes to protecting us. It wouldn't be good if you made our troops afraid whenever they faced us."

A small snort involuntarily came out of my mouth. I knew that I was too possessive when it came to keeping my women away from other men. But as the future husband of the future Dragon Queen, I had to behave properly when dealing with troops from the Dragonia Kingdom.

"Sorry. This was my mistake. For now, I will not make the same mistake again. After all, they are also my future subordinates."

For some reason, soft laughter came out of Athena's and Elize's mouths. In their entire lives, this was the first time they had seen a man be so careful in front of other people. Even though Elize and Athena considered me a protective man, they felt a sense of joy when they discovered how worried their man was about them.

"Ha ha~. Our Cien turns out to be much more impulsive than one could imagine. You acted without thinking first. Luckily, our troops don't seem to mind the attitude you showed at all."

"That's right. Next time, you should act like a ruler in front of the soldiers. Maintaining relationships with your potential subordinates is much better than creating unnecessary hostility."

Elize and Athena began giving me advice after advice. For the first time, I couldn't do whatever I wanted while listening to every lecture Elize and Athena gave me. Instead, I decided to stay where I was and listen to all the advice they gave me.

"I understand..."

"As long as you understand, it's not a big deal at all. Remember this, my disciple. Only by forming strong bonds can we win a battle that would otherwise be impossible for us to win."

There were no words that could come out of my mouth as I listened to all the advice Elize gave me. Creating good relationships with other people was not a wrong choice at all. However, having strong ties with subordinates was one way for someone to continue moving forward.

Chapter 90: Elize’s Master

"This sentence... Did the Master understand the meaning of that sentence? I’m not sure that the Master came up with that sentence alone..."

An involuntary cough came out of Elize’s mouth. There was no calm expression on Elize’s face. On the contrary, her face continuously showed signs of nervousness.

"Cough. Of course. Those were words that my master gave me directly in the past. She once said that a long time ago, the Human race also formed strong bonds with one another in order to continue to survive. Since then, I have considered forming bonds together to be one of the main keys for someone to survive in this cruel world."

Hearing the phrase "human" come out of Elize’s mouth reminded me of the time when I read a history book about the Human race. That was the moment I learned that the Human race in the past was no different from ants that could be killed at any time. But now, the Human race has a strong foundation that allows it to survive against the overwhelming power of every race throughout the world.

"Human... Since I am also a human, is that the reason why the Master decided to accept me as a disciple?"

Silence involuntarily fell over the entire place. Both Athena and the other women were very curious about the answer Elize would give to my question. Moreover, Athena really wanted to know why Elize could so easily accept a human like me as her disciple.

From the start, Athena was the reason why Elize decided to take me as her disciple. But that was not at all within Athena’s expectations regarding how Elize would accept me as her disciple. However, there was never a time when Elize decided to accept someone else as her disciple.

Lucien is the only disciple Elize has had to date. Although at first Elize was hesitant about whether to accept Lucien as her disciple or not, she decided to accept him after seeing how her best friend forced her to take her lover as a disciple.

"Sigh... Cien, did you know that my master is not from the Dragon race at all?"

"So what is she..."

"What you think is correct. My master is a human. Moreover, she is an extraordinarily strong human woman with abundant magical knowledge. She has the talent to become a powerful figure like the Dragon Emperor and the Silver Divine Dragon."

Only Elize knew how strong her master was as a witch. The origin of Elize's master was that of someone from the Human race. Even though Elize's master was a woman, she possessed talent that surpassed that of every other human on the Life Continent.

A human being born with a talent for magic is the rarest thing to find within the Human race. Therefore, not all humans can possess the same talent as Elize's master. For that reason, Elize decided to choose a human master as her guide.

Among all living beings throughout the world, only Elize's master could provide complete guidance to Elize herself. Elize's talent was one of the reasons why her master decided to make Elize her disciple. However, since she was young, Elize had been born with talents that surpassed the common sense of living beings throughout the world.

"That's great. I didn't expect that there would be a human like her born among the Human race. They are really strong." The praise given by Athena came from her pure desire to praise the greatness of Elize's master. As both a rival and friend of Elize, Athena truly respected Elize's master because she had guided Elize to become who she was today.

For some reason, every gaze from the women in that place subconsciously shifted towards Lucien's figure. I, who had previously been deep in thought, couldn't help but show a wary expression. It isn't a pleasant thing to receive stares from every beautiful woman standing around me.

Luckily, the women standing around me were women I considered family. But as a man, I was very happy to be surrounded by beautiful women like Athena, Elize, Heilde, Ariel, Tifa, and Tina. For some reason, an embarrassed expression involuntarily appeared on my handsome face.

"Does that mean brother-in-law has the potential to surpass Sister Elize's master? That means our brother-in-law is very strong?!"

"Eh? That compliment sounds really uncomfortable... Ariel, please don't praise me too much like that. I'm just lucky to have been born with this extraordinary talent."

None of the women denied Ariel's words regarding the extraordinary talent possessed by the man near them. For the women, the strength and talent that I had shown before were enough to make me a powerhouse throughout the world.

With only my current level of strength, I could easily destroy a small country whenever and wherever I wanted. Even so, the women knew that it was impossible for the man near them to do bad things to all living beings throughout the world.

"Isn't it a problem if you receive praise from my little sisters? That's the reality. Don't put yourself down just because you were born a human."

Listening to Athena’s remarks regarding the lack of confidence I had shown made me unable to hold back my happy expression. There was no problem with me being humble because I was a human being. However, almost every living being throughout the world underestimated members of the Human race.

"Thank you. But I just want to remain humble even if I have extraordinary strength and talent. After all, I am still the future husband of the future Dragon Queen. Isn’t that right, Hena?"

Almost every woman present knew the embarrassed reaction shown by Athena after hearing the words I had spoken earlier. Moreover, Elize couldn’t hold back her coughing. For some reason, the image of her disciple becoming the king of the Dragonia Kingdom appeared in Elize’s mind.

Nothing impossible would happen as long as her disciple was the future husband of the future Dragon Queen. Because Athena had full rights to inherit the throne from Lucius and Lilith, she had been designated as the legal heir who would replace them in the future.

"You... you embarrass me. Hopefully... I hope something like that will happen sooner or later..."

A small grin involuntarily appeared on my face when I saw the happy expression shown by Athena at that moment. Instead of remaining silent and staring at Athena’s beautiful expression, I immediately hugged Athena lovingly without thinking.

’That’s right. This woman was my first love after I was first born into this world. No woman can replace Athena’s position as the first love in my heart. I won’t let anyone hurt her...’

The embarrassment that Athena had previously shown began to grow even stronger than before. The hug given by her lover did not allow Athena to maintain her calm expression at all. On the contrary, Athena continuously inhaled her lover’s scent, which carried a strong and masculine aroma.
