

Teasing the Alpha

TA's POV

Everything wasn't going as I had planned. I knew coming to the Mortal Realm would be dangerous but I had to make sure that Charlie was safe. Luna Haysl was one of my devoted followers and my dearest friend. I swore that I would make sure Charlie had the perfect mate and that she would be happy. I never thought that Brenton would push Charlie so far away and allow Sienna to basically take over. When Haysl died I stopped watching over my children. I was consumed by grief.

I should have paid attention. I made sure that Killian and Charlie would be mates. I had worked with Alec on this plan down to the letter. Only Alec knew who I truly was and I knew he wouldn't expose me.

How could I let this happen to my dear friend's daughter? She was supposed to meet Killian and live happily ever after. Not have to deal with some random female trying to stake a claim on her mate.

I had to try to make things right. Why couldn't I have been given a gift of seeing the future? I knew if I meddled too much in their affairs that it could end horribly. I had to fix this but I didn't know how.

Killian's POV

I was wanting this damn party to end already. I was planning everything I was going to do to Charlie after this party. She was teasing me all night with sending me sexy glances, any time she was close to me she would brush some body part against my groin. I was going to burst at the seams.

I needed release. I found my mate talking to Warrick and Romn. Two of my most trusted pack members. Warrick was my Gamma and Romn was my Delta. I was watching her so intently that I didn't even hear a word that Sienna had said till I heard say Layla. I spun my head around as I saw Layla approach us and hug Sienna. Sienna smiled at her, "I was wondering when I would see you. Alpha Killian you didn't tell me that you knew my niece?"

NEICE? Sienna and Layla were related, how did I not know this? Layla smiled seductively at me, "Yes Auntie Sie we have known each other a long time and are very close.

I didn't like how she made it sound. I didn't want to be around these two. I mindlinked Ashton, 'Save me from these she wolves'

Ashton walked over, "Luna Sienna and Layla have ya'll tried the Mango Freeze yet?"

Leave it to Ashton to talk about food and distract people. I slipped away from them and went to find Charlie. She was still talking with Warrick, who was standing way too close to her. I didn't like how close he was. I slowly approached Charlie from behind letting her feel my erection against her ass. The little minx ground her ass against me. I slipped my hand around her waist to place my hand on her tummy where our pup was growing. I kissed the mark I gave her then looked at Warrick. He was looking down at his shoes, "Warrick I see you have been getting to know your Luna."

Warrick looked at me, "Yes Alpha. She is remarkable in every way."

I mindlinked to Charlie, 'I am in need of you know my little mate.'

She pushed back on me harder. I growled at her through the link. She stepped away from me and I wanted to whimper from the loss of contact. She stood up on a chair and both Ashton and Alec stood beside her with Romn right behind her so that if she fell they could catch her. Charlie cleared her throat loudly to get everyone's attention. When they all looked at her, "I apologize for being a party pooper but it seems that this little pup is making me tired. You don't have to stop the partying but it needs to move to a new location. Goodnight everyone."

Everyone bowed and left. Ashton helped Charlie out the chair and they said their goodnights. As soon as everyone was gone I pulled Charlie against me, "You are all mine now."
