

Plan Needs to Work

Layla's POV

I didn't mean to watch Killian f**k his w***e of a mate. They had ended the party early and I went back to the pool house after saying goodbye to my Aunt Sienna. I was walking back to the pool house when I saw Killian eating out the b***h.

I stepped behind the tree to watch. Killian had never done this with me. He was always scared someone would nd us, but yet with her he didn't care. He was doing things to her he had never done to me. I nally looked away when he told her to hang on to the pool railing.

I marched into the pool house and found Warrick already there. He looked up at me, "I take it that you saw what our Luna and Alpha are up to."

I growled at him, " Did you nd anything out?"

He stood up and I could see his hard on. I walked up to him and started to rub him through his pants. He moaned a little, " She is 4 weeks pregnant. They nd out the gender in two weeks. She severely dislikes your Aunt and her relationship with her father is strained."

I stripped out of my clothes, " Sienna said that the treaty talks didn't go well that is one of the reasons why they are staying longer. Enough talk."

He spun me around and pulled down his pants. He slammed his c**k into me hard. I started to moan. I brought my hand up to rub my clit as he f****d me from behind. I was now pretending that Warrick was Killian. It was easier for me to come this way. I was tired of taking it from behind so I pushed him off me.

I pushed him on the couch and started to ride him. I was so close that I almost called out Killian's name. I bit down on my lip as I felt Warrick ll me with his seed. As soon as he was down I quickly laid at on my back and tilted my hips up. I stayed in that position for a few minutes praying that Warrick's sperm would hold.

I need this plan to work.
