

Revenge On My First Love Chapter 196

Cecelia clenched her hands tightly. Since childhood, she had never even touched Drake's finger.

Drake and Sophia hadn't been together recently. Why did they go to the hospital?

Drake came with Sophia, so the baby's father couldn't be another guy.

Cecelia wanted to expose all this. Sophia made her no longer able to get married, so she would revenge herself on Sophia.

Sophia did a series of tests, but the results hadn't come out yet. All of them were waiting outside.

Emma wished she could say something, but seeing the Lawsons standing together and leaving Drake, Aria and her aside, she knew it was useless to say anything now.

At this time, a person came over and said, "The result is out."

All of them walked over nervously.

Needless to say, the Lawsons wished that Sophia wasn't pregnant.

And of course, Drake, Emma and Aria wished the opposite thing.

Once they had a child, they would have a bond that should make them inseparable for the rest of their lives.

The doctor also felt pressure from the ten people, which she had never felt before.

Emma asked first, "Doctor, what is the result?"

The doctor glanced at the paper. "Sorry, the result is negative. Miss Lawson is not pregnant."

Drake felt that his life-saving straw was cut off suddenly, which made him feel very defeated.

Emma didn't seem to believe it. "Really? Maybe she should have another check? "

"If you wish, of course, she could have another test, but the result shall be the same because we can't make wrong..."

The doctor was so sure about it.

So, Sophia was not pregnant.
