

Revenge On My First Love Chapter 268

"Well, at least you have someone to kiss and hug. What about me? I got nothing!"

Bailey gave him a look. "That's better. It's torture to hold back the urge."

From this point, Drake was lucky.

Many people in the company saw the marks on Drake.

The secretaries who fantasized about him knew they should give up, although they never had much hope.

In Drake's eyes, they were just employees.

...

After a long period of adjustments, Sophia finally decided to go to Abby's previous company.

Although she had got many shares and become the CEO, she hadn't been there.

Sophia's arrival made many people nervous.

No one knew what Sophia came for.

At the shareholders' meeting, several people were against Sophia. "Although Ms. Lawson is a strong woman, she isn't familiar with our company. Besides, she has many companies. I suggest that she should remain as the biggest shareholder get engaged in the management!"

Sophia knew the person. His name was Spencer Porter and the shares he owned were only second to Sophia's.

When Abby was in charge of the company, he had wanted to take some shares from Abby, but Abby never gave him a chance.

Now Sophia took Abby's place. He probably thought he could get a chance. That was the reason he made such a proposal.

His supporters all said, "Yes, Mr. Porter is right. We should put the profit of the company as a priority. Our company has been weakened. If the person manages the company fails, our interests will be further damaged. I believe no one wants this to happen."

Some shareholders were hesitating, but after hearing those words, they all nodded.
