

## Revenge On My First Love Chapter 52

Flynn is not scolding Sophia, but Sophia at that time is really like this.

"By the way, she is hiding even this matter, is there a lot of things she is hiding?"

If Sophia was a surprise to Drake when she first appeared, she's becoming more and more of an enigma.

It's clear that he has known her for three years and feels that he knows her very well, but only now does he realize that he doesn't know her at all.

.....

Sophia went back and brought the news to the people in the company, and everyone was especially happy.

Although the Skylane Group has done a lot of things since they came over here, they definitely don't feel as accomplished as this one.

Among the four successful bidding groups, only their company is not yet listed, of course, even if not listed, the company's capital and seniority is also very strong.

However, it will also take the company to the next level with this one.

Sophia was also very happy, she said with a smile, "I have asked someone to charter a big box in the bar, tonight I will treat everyone to a good treat, let everyone relax and have a good time."

"Yeah!"

A lot of people are particularly excited.

Sophia's cell phone rings and it's Bard calling.

"Sophia, I heard that you took the bid."

"Bard, you're well-informed!" Sophia's mouth was tipped with a smile that she couldn't hide.

"That's for sure, and besides, now that this is all out there on the internet, you've got another identity to add to the list. They're especially talking about you, and no one thought that you were the head of THE Skylane Group."

For this, Sophia had already thought about it and did not care at all.
