

Revenge On My First Love Chapter 53

Nova Grant approached, "Emilia , what's wrong with you?"

"Don't come near me!"

Emilia's tone was very bad.

Nova is also afraid to really lean over.

Emilia Coco laughed: "Why did you get me back when you not only couldn't give me a better living environment, but made me carry all this on my back?"

This is not the first time she has complained.

Yes, the Warburg family is in a very bad situation, if not for Olivia's secret help, the Warburg family would have been finished.

But the Warburg family, no matter what they do, will sooner or later face bankruptcy.

And because of this, when they found their daughter the first thing they did was to think of marrying her to a rich man.

At first, Emilia didn't agree either, but then she met Drake and it sunk in.

However, she has been by his side for so many years, and the relationship between the two has never progressed, let alone any physical contact.

She thought that no matter what, sooner or later she would be able to warm Drake's heart, after all, in the Riley family, except for Drake, everyone else still likes her. It was only a matter of time before she married.

However, no one could have imagined that Sophia was coming!

Not only did she come, but she also seduced Drake's heart away, so even if that's the case, she even became such a good person.

Compared to her, she, Emilia, is nothing.

"Emilia, don't be angry, that Sophia is amazing, do you think the Riley family likes people who are out and about like that?"

That one sentence really made Emilia feel better.
