

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 651 Chance Encounter; Stop Fighting!

Gradually...

A very strange scene appeared at the scene.

In the dead of the night.

A large group of sleepy-looking people in pajamas stared at the fire without blinking.

Xia Xue had just swallowed a piece of meat and seemed to feel the abnormality. She could not help but slowly turn around.

The next moment, Xia Xue was stunned.

She stammered, "W-Why are you guys awake?"

The woman with her hair tied up did not answer. Instead, she asked, "Xia Xue, you are... What are you doing?"

After saying that, she could not help but swallow her saliva.

Xia Xue said, "We roasted meat?"

The woman asked again, "Is it delicious?"

"It is!" Xia Xue's answer this time was very certain.

Everyone could not help but swallow their saliva.

Xia Xue seemed to be aware that her classmates wanted to eat the meat and were just waiting for an invitation.

However, she soon realized that the roasted meat did not belong to her.

Xia Xue turned to look at Lin Fan.

Lin Fan smiled. "There's still a lot of roasted meat here. Everyone, sit down and eat."

When the students heard this, their eyes lit up.

"Then we won't stand on ceremony."

"Thank you."

"Thank you."

...

All the students quickly stepped forward, cut off a piece of roasted meat, and quickly stuffed it into their mouths.

Their mouths were full of grease as they praised continuously.

"It's so delicious!"

"It's delicious!"

"I've never eaten such delicious barbecued meat before!"

...

There was no trace of pretentiousness in their tone, or rather, they were expressing their feelings as usual.

This was normal.

They had been on the road for an entire day, and there was nothing in their stomachs at all.

Lin Fan had already mastered professional cooking skills a thousand years ago.

In the past thousand years, his abilities in all aspects had been further developed.

How could it not taste good when he barbecued the meat himself?*novel*next.cOm

...

In the live broadcast room...

Windcloud Loose Cultivator: [That... That looks so delicious!]

Who's Nobler: [I want to eat it too.]

Farewell: [I can't take it anymore! I want to get up and eat meat!]

Likes Spicy Girls: [My saliva has already flowed all over the pillow.]

...

In just a few minutes, the huge roasted meat was finished.

Class Monitor Zhang Fen said, "Lin Fan, your roast meat is so good. I think you can definitely become a star chef in the future."

As soon as these words were said, it immediately attracted the agreement of many people.

"That's right! You can be a star chef!"

"I heard that the salary of a star chef can be more than 50,000 World Coins per month." I think you should take a look at

"Some powerful star chefs, especially handsome star chefs, can even host chef programs! Lin Fan is so handsome. He can definitely do it!"

"Host a show? That would be amazing!"

...

Everyone spoke one after another, and their faces gradually showed a hint of yearning and envy.

This was normal.

According to the purchasing power of today's currency, 10,000 World Coins was about 100,000 dollars a thousand years ago.

50,000 World Coins was 500,000 yuan!

A monthly salary of 500,000! Even for a graduate of Jiangbei University, it was definitely a very high income.

They thought so, but the people in the live broadcast room did not think so at all.

...

Final: [Let Lin Fan be a star chef?]

Blazing Beauty: [50,000 World Coins? Just how much do you look down on Lin Fan?]

Dapeng: [They have no idea who they are talking to.]

...

In the blink of an eye, the next day arrived.

Sunlight shone through the cracks of the trees like stars and fell on the faces of Lin Fan, Xia Xue, Li Dongqiang, and the others.

At this moment, a gentle breeze blew over and gently brushed past everyone's faces.

Everyone seemed to have sensed something and slowly opened their eyes.

Last night, everyone had eaten delicious food. In addition, the air in the forest was much fresher than in the city. This made everyone sleep very comfortably and contentedly. They had a good mental state.

After packing up, they set off again.

Not long after, a sound suddenly sounded in the distance.

"There seems to be something in front of us. Everyone, be careful!" The class monitor, Zhang Fen, quickly shouted in a low voice.

As soon as he said that, everyone became vigilant.

After all, this was a forbidden area.

Although it was only the outer region, there were still many dangers.

Not long after, a few figures popped their heads out.

After Zhang Song saw that they were people, he could not help but heave a sigh of relief.

Of course, he was not completely relieved.

"We are students from Class 2011 of Jiangbei University," he said. "I'm the class monitor, Zhang Fen. The school organized an expedition into Forbidden Area No. 31. May I know who you are?"

At this moment, someone shouted from behind.

"Senior Wanhao?"

"Vice President Chen Ming?"

...

The people opposite were also observing Zhang Fen and the others.

After they heard Zhang Song's words, their expressions became different.

Chen Ming's eyes lit up.

It was because he saw Xia Xue!

Chen Ming smiled. "So you're from Class 2011. We're members of the student union. We're here to do something according to the school's requirements. I'm the vice president of the student union, Chen Ming."

Immediately, the crowd was filled with discussions and praises.

"So, it's the vice president of the student union."

"The vice president can actually go to the forbidden area to do things. That's great."

"If I had known earlier, I would've joined the student union."

...

Chen Ming listened to everyone's praises and envious gazes. The corners of his mouth could not help but curl up slightly. He was very proud.

He liked this feeling very much.

### *Chapter 652 Chance Encounter; Stop Fighting! (2)*

Then, Chen Ming showed a smile that he thought was handsome and said to Xia Xue, "Xia Xue, what a coincidence. We meet again."

"Do you like the forbidden area? When you become the department head in the future, I can bring you in too."

It had to be said that Chen Ming was really good at grasping people's hearts. First, he spoke warmly and acted like a gentleman.

Then, he mentioned benefits that ordinary people could not refuse.

If it were someone else, they would definitely be easily played with.

However, Xia Xue was different.

She frowned slightly and suppressed the annoyance in her heart. "Is that so? However, I don't like the student union. I'll quit after a while. There are still a few members of the student union in our class. You can consider making them the department heads and then bring them to the forbidden area to do things."

After saying that, Xia Xue could not help but secretly look at Lin Fan.

Seeing that he did not show any expression, she secretly heaved a sigh of relief.

Chen Ming was stunned.

He did not expect Xia Xue to quit the student union.

Soon, his attention fell on Lin Fan beside Xia Xue.

Chen Ming's eyes moved slightly, and he seemed to have some guesses in his heart.

Perhaps, Lin Fan wanted Xia Xue to withdraw from the student union

Thinking of this, Chen Ming's eyes flashed with anger.

However, his face was still very warm as he said, "Xia Xue, don't be in a hurry to withdraw from the student union. Think about it again."

Then, Chen Ming said, "Huh, Lin Fan?"

There was a hint of surprise in his tone.

It was as though he had just seen Lin Fan.

"Isn't Forbidden Area No. 31 the place that Class 2011 is exploring?" Chen Ming asked after a pause. "Why is Lin Fan here?"

This sentence could not be said to have no ulterior motives.

Because Chen Ming had seen the list of Xia Xue's classmates a long time ago. There was no one called Lin Fan.

Lin Fan did not belong to Class 2011, but now he was with Xia Xue!

One had to know...

Every year, Jiangbei University would organize students to explore the forbidden areas so that they could have the opportunity to master special abilities.

However, generally speaking, they would enter the forbidden areas in units of classes.

In addition, Jiangbei University also strictly forbade anyone from entering the forbidden areas.

Once discovered, they would be severely punished.

"Because I'm in Class 2011," Lin Fan said casually.

"You're in Class 2011?" Chen Ming's voice was filled with distrust as he cast a questioning gaze at Zhang Fen.

"Lin Fan transferred to our class this semester," explained Zhang Fen.

Chen Ming's heart grew colder.

He was transferred to Xia Xue's class and was also Xia Xue's banquet companion.

Now, Xia Xue wanted to withdraw from the student union because of him.

The more Chen Ming thought about it, the angrier he became.

However, his face was full of smiles as he said, "I see. Class 2011 has Xia Xue, Zheng Zicong, and many of the student union members. They may become department heads or even the president of the student union in the future!

"I've always felt that Class 2011 has a very good environment to foster talents. You can also join the student union. Perhaps, you'll have the chance to become a department head or the president of the student union.

"In this way, it will be easier to enter the forbidden area or find a job after graduation."

After he finished speaking, he could not help but raise his head like a superior, quietly waiting for his subordinates to flatter him.

Generally speaking, the vast majority of students either wanted to enter the forbidden areas and obtain strength that surpassed ordinary people or they wanted to graduate and find a good job so that they could earn a good income.

Chen Ming directly brought up both benefits. To many people, it was definitely a great temptation.

Unfortunately, the person he met was Lin Fan.

"The student union has so many benefits?" Lin Fan asked. "But I won't join the student union."

When Chen Ming heard the first half of the sentence, the smugness on his face became even stronger.

He thought that Lin Fan was going to suck up to him.

However, the second half of Lin Fan's sentence had him choking on his words.

With so many benefits, why did he not want to join?

Chen Ming coughed lightly and said, "You don't have to reject me so quickly. There's no harm in considering it."

...

In the live broadcast room...

Rich Wealth: [Hahaha! I almost died laughing!]

Within Shooting Range: [I didn't expect Lin Fan to have such a humorous side.]

Happiness: [There'll be a chance to enter the forbidden areas if you join the student union? It would be easier to find a job? Hey, hey, hey!?The core members of the Wang family of the Imperial Hotel can enter Forbidden Area No. 23. The Wang family's family heads are so respectful to Lin Fan. How can he not enter?

[As for work? The Wang family is so respectful to Lin Fan. The employees of Yuesse Snow Tea personally brought him drinks. Why would he worry about work?]

Ten Points: [Student union president? Those who don't know better would think that it was equal to the governor of some state.]

...

After Chen Ming was defeated by Lin Fan, he started talking to the class monitor, Zhang Fen.

Now, Chen Ming's matter had been settled, and there was nothing else to do.

If he stayed in the forbidden area for a while longer, he might even encounter some opportunities. *novelnext.com*

In addition, with his own ability and understanding of the forbidden area, he might be able to establish a better impression of himself in Xia Xue's heart.

Therefore, Chen Ming suggested that the student union officers return to school first while he explored the place with Class 2011.

Regarding this, Zhang Fen naturally welcomed him extremely.

This was because according to Zhang Fen's understanding, the vice president and president of the current student union possessed extraordinary strength or extraordinary abilities...

All in all, they were people with special abilities!

In addition, Chen Ming was able to come to Forbidden Area No. 31 to do things, which meant that he knew this place very well.

From these two points, not only would it ensure Class 2011's safety, but it would also give them more opportunities to obtain the benefits of the forbidden area.

Sure enough, with the addition of Chen Ming, everyone's sense of security increased.

Chen Ming was the first to discover the poisonous snake in just a few hours. In addition, he chased away a wild boar.

The students who were almost injured thanked Chen Ming and praised him.

Gradually, Chen Ming became the most eye-catching person in Class 2011.

Chen Ming's chin kept rising. He was very satisfied with the students' reactions.

He glanced at Xia Xue from time to time.

There were a few times when Chen Ming had an illusion that Xia Xue often looked at him with admiration.

Chen Ming could not help but feel even happier. He was extremely glad that he had decided to stay and explore with the students of Class 2011.

He rejoiced, but some people secretly gritted their teeth.

One of them was Li Dongqiang.

Along the way, Li Dongqiang kept paying attention to his surroundings, just like yesterday.

He also found traces of the poisonous snake and the wild boar, but his reaction speed was half a beat slower than Chen Ming.

This led to Chen Ming solving the problems before him, which allowed him to receive a lot of thanks.

That gratitude should have belonged to him, and he would have received a lot of gratitude tokens.

Gratitude represented gratitude tokens, and gratitude tokens represented strength!

Destroying a person's strength represented hatred, a great hatred!

A person who was not from Class 2011 had come to make enemies with him!

Li Dongqiang was furious.

Night fell...

Just like yesterday, all the students were lying in their sleeping bags.

Li Dongqiang, Lin Fan, and Xia Xue were on duty last night, so they naturally did not need to be on duty today.

Chen Ming had just joined the team today. Moreover, he was somewhat considered a guest and did not need to be on duty.

Like most of the students, he was lying in his sleeping bags

Perhaps it was because he had eaten something bad during the day, Chen Ming had just laid down for a while when his stomach started to feel uncomfortable.

He slowly got up, held his stomach, and quickly ran into the dark forest.

At this moment, Li Dongqiang, who had his eyes closed and seemed to be in a deep sleep, suddenly opened his eyes.

Then, he quickly followed Chen Ming.

Not long after, there was a dull knocking sound and a low roar in the dark forest.

"Who is it?"

"Stop hitting! Shit! I'm gonna end up sitting on shit!"

"Stop fighting!"

"Ah!"

"We're done for!"

The sounds... gradually faded.

The woods were silent.

Chapter 653 Kind-Hearted; Regretful!

### *Chapter 653 Kind-Hearted; Regretful!*

The three students on duty seemed to have heard the sound and turned to look into the woods.

However, it was early in the morning and the forest was dark. How could they see anything?

The three of them looked at each other with puzzled expressions.

After a moment of hesitation, the man in the black T-shirt said, "Should we go and take a look?"

"Let's see," the man in the checkered shirt on the left said hesitantly.

"Then let's be careful," the man on the right wearing silver-rimmed glasses said.

Thus, the three of them tiptoed forward slowly.

However, after walking for a while, they did not find anything.

"There doesn't seem to be anything unusual," said the man in the black T-shirt.

"It stinks. What's that?" the man with silver-rimmed glasses said.

"Shit! F\*ck! Who pooped here? Moreover, it's all over the place! It's as if they had rolled around in shit!"

"Go, go quickly!" The man in the checkered shirt resisted the urge to vomit and shouted.

Compared to the caution and vigilance they had when they came here, where they had to look three times with every step they took, the three of them were sprinting now. They were eager to leave in the shortest time possible.

At this moment, Chen Ming was hiding behind a big tree. He only heaved a sigh of relief when the three of them were far away.

He looked at the yellow stains on his hand and could not help but retch. He said angrily, "Pray that I never find out who you are!"

Then, Chen Ming looked at the yellow stains on his clothes and retched again. "My body is full of shit now. I can't let Xia Xue see me like this. I have to go back to the city to take a shower and change my clothes!"

After saying that, he quickly turned around and ran into the forest.

On the other hand, Li Dongqiang had quietly returned to his sleeping bag.

He thought to himself, 'Cutting off a person's future is like killing one's parents. I only beat him up and let him get smeared with a little shit. As expected, I'm still very kind, hehe.'

The corners of Li Dongqiang's mouth curled up slightly as he slowly entered a beautiful dream.

He thought that what he did was very secretive and no one knew.

In fact...

Everything that had happened and even his thoughts were all seen and heard by Lin Fan.

Lin Fan laughed in his heart, 'This Li Dongqiang is really interesting, hahaha!'

Instantly, Lin Fan's good impression of Li Dongqiang rose rapidly.

Li Dongqiang still did not know how much benefit this good impression would bring him in the future.

...

In the blink of an eye, the next day arrived.

After the students got out of their sleeping bags, they were as energetic as yesterday morning.

They chatted with each other and laughed from time to time, looking very relaxed.

"Our Class 2011 is really lucky to have met Vice President Chen Ming."

"With Vice President Chen Ming leading the way, our trip to the forbidden area will definitely be very safe. We might really be able to obtain some benefits."

As they spoke, they looked at Chen Ming's sleeping bag.

However, they soon became confused.

"Huh? Where's Vice President Chen Ming?"

"Did he wake up so early?"

"I woke up very early and didn't see Vice President Chen Ming."

"What's wrong?"

Gradually, more and more people were puzzled.

Following that, someone suggested organizing students to look for Chen Ming.

After all, it was definitely a big deal for someone to disappear for no reason.

Moreover, the person who disappeared was the vice president of the student union.

At this moment, Lin Fan said, "There's no need to look for him."

Everyone looked at him in confusion.

Lin Fan said, "He left last night."

As he spoke, a 3D projection appeared in front of him.

In the projection, there was an extremely disheveled man. It was Chen Ming.

At this moment, Chen Ming's body was covered in yellow stains.

Then, he whispered, "My body is full of shit now. I can't let Xia Xue see me like this. I have to go back to the city to take a shower and change my clothes!"

As soon as he finished speaking, the entire scene fell silent.

Many of them were trembling, their faces were flushed red. They were on the verge of laughing out loud.

In fact, when everyone saw the yellow stains on Chen Ming's body, they had some guesses in their hearts.

However, after Chen Ming admitted it himself, the situation was obviously different.

At this moment, the man in the checkered shirt whispered, "Yesterday, I figured someone had stepped on shit. So it was Chen Ming..."

As his voice fell, the silence was finally broken.

"Hahaha!"

"He was covered in shit."

"Hahahaha!"

"Chen Ming is so careless."

The few of them could not help but laugh out loud.

Their laughter seemed to have ignited the scene.

Gradually, everyone started laughing.

After a while, Zhang Fen cleared his throat. He tried his best to suppress the urge to laugh and said, "It's getting late. Let's continue on our way."

Without Chen Ming...

Li Dongqiang dealt with two snakes in the morning and received four words of thanks from his classmates, thus earning him four gratitude tokens.

Then, he used four gratitude tokens to draw the lottery and obtained 15 pounds worth of strength.

Li Dongqiang felt the power growing in his body and could not help but feel that it was definitely the right thing to do to chase Chen Ming away.

In the blink of an eye, a few days passed.

In the past few days, Li Dongqiang had driven away two wild boars and two poisonous snakes.

In addition, he had helped three female students carry their bags and helped a student on duty.

As a result, he received 13 gratitude tokens.

These 13 gratitude tokens had increased Li Dongqiang's strength by 40 pounds worth.

They were still in the forest.

All the students had a bit of dirt on their faces, except Xia Xue.

Even Xia Xue herself felt puzzled.

Why was it that after walking in the forbidden area for a few days, she did not feel tired at all and there was not a trace of dirt on her body?

It was as if she had just arrived at the forbidden area.

However, she did not feel too happy because of this. A look of faint regret hung on her beautiful face. *novelnext.com*

Lin Fan could sense this and asked, "Xia Xue, why do you seem a little unhappy? Are you tired?"

Xia Xue shook her head. "I'm not tired."

After a pause, she continued, "It's just that... I heard that there's a chance to become a special ability user in the forbidden area. There are only two days left before we leave the forbidden area, but we haven't found anything special yet. I'm afraid we wasted this opportunity to enter the forbidden area."

After that, Xia Xue sighed secretly.

A chance to become a special ability user?

Lin Fan's eyes flickered.

Lin Fan took in a deep breath.

In the next moment, a hurricane suddenly appeared at the scene.

Then, a white energy that was visible to the naked eye rushed over and enveloped everyone.

With every breath, everyone's strength would increase rapidly!

Everyone's hearts were beating like drums, filled with tyrannical power.

### Chapter 654 All Possess Special Abilities; Initial Fog!

Some people's veins were throbbing, and their muscles were bulging.

Water gathered above someone's head.

Someone was surrounded by flames.

...

These were all the marks of a special ability user.

Moreover, as time passed, the changes in the students became more and more obvious.

Among them, Xia Xue's change was the most significant.

Xia Xue seemed to have a strong suction force and absorbed the white fog crazily.

It even formed several visible whirlpools.

Gradually, Xia Xue's body burst out a gorgeous golden light—pure and dazzling.

A moment later, the white fog dissipated.

All the students looked at each other, their faces blank.

Immediately after, there was unconcealable excitement.

Someone waved his hand casually and condensed a few drops of water in front of him.

Someone opened his mouth and spat out a wisp of flame.

Someone threw a punch, and the tree in front of him shook violently.

...

"Water attribute power!"

"Fire attribute power!"

"I have great strength!"

"I have a special ability!"

"That's great!"

Everyone shouted excitedly and jumped around like children.

Xia Xue rushed into Lin Fan's arms and said excitedly, "I've become a special ability user!"

But soon, her face turned red and she quickly dodged to the side.

Lin Fan looked at her shy face, and his lips curled up.

He did not expect that such a thing could happen after gathering some energy.

...

In the live broadcast room...

Countless comments kept rolling.

Youth Never Comes: [F\*ck! What happened just now? All of them have special abilities?]

Sword Wielding: [Fire ability, water ability, earth ability, strength! I want to go to the forbidden area too. I want to become a special ability user too!]

Time Traveler: [May I ask what exactly was that white fog?]

Heartthrob Like the Sea: [I want to get into Jiangbei University! I want to study hard! If a friend wants to play games with me, I'll block them! If a beauty wants to watch a movie with me, I'll tell her to get lost!]

Song: [Xia Xue, what ability do you have?]

Emperor of Emperors: [Heavens! I'm not envious at all. I just want to say, well done!]

Hello Everyone: [My goal is to get into Jiangbei University! I want to become a special ability user too!]

...

The purpose of Class 2011 entering the forbidden area this time was for training.

The second was to obtain special abilities.

Now, the students had already stayed in the forbidden area for several days. They had suffered some hardships and obtained some training.

All of them had obtained special abilities too.

It could be said that this trip to the forbidden area was complete.*novelnext.Com*

Perhaps it was because they had obtained special abilities, but the fatigue on everyone's faces disappeared without a trace.

In the next two days, the students chatted as they walked. They occasionally experienced their special abilities. The atmosphere was extremely relaxed.

Most of them were smiling—except for Li Dongqiang.

Li Dongqiang also inhaled the white fog and obtained a special ability.

However, he had no chance to help his classmates anymore.

If he could not help his classmates, he would not be able to get gratitude tokens.

This scenario made him look like he wanted to laugh and sigh at the same time. I think you should take a look at

...

Two days passed in a flash.

A week of exploration in the forbidden area came to an end.

At this moment, the form teacher, Qin Chuan, and the man in black were standing at the entrance of the forbidden area while chatting.

"How many people do you think will reach E-class from my class?" Qin Chuan asked.

"Two people?" The man in black laughed. "One person? Maybe not even one."

"How much did we say we would bet?" asked Qin Chuan. "100 World Coins? Or 50 World Coins?"

The man in black laughed so hard that he almost choked. "It's 20,000 World Coins!"

"20,000?" Qin Chuan's eyes widened in disbelief.

He wanted to say something.

Suddenly, some sounds came from the forest not far away.

"They're back!" the man in black said.

After a pause, he reminded him again, "Don't even think about going back on your word!"

Then, a large group of students gradually appeared.

Qin Chuan quickly put away the frustration in his heart and swept his gaze over the students. Seeing that not a single one of them was missing and that they did not seem to have suffered any injuries, he could not help but heave a sigh of relief.

Jiangbei University allowed some casualties in the forbidden area.

However, regardless of whether it was because he was worried about trouble or because he cared about his students, Qin Chuan did not wish for such a thing to happen.

When Qin Chuan saw the students, the students also saw him and quickened their pace. They ran toward Qin Chuan.

Then, all the students started shouting excitedly.

"Teacher, I have a special ability!"

"Teacher, I've mastered the fire ability!"

"I can control soil!"

"I can condense water!"

...

The students shouted as they used their corresponding abilities.

Instantly, Qin Chuan and the black-robed man's mouths were agape. Their faces were filled with shock.

Under normal circumstances, just like what the man in black said, at most, two or three people would become E-class special ability users.

Qin Chuan said that there would be more than five of them, which was definitely a rare sight.

As for how difficult it was, in the past ten years, no class had ever achieved that.

Therefore, even though Qin Chuan owed the men in black 10,000 World Coins, the black-robed man still agreed to continue betting with Qin Chuan.

After all, it was a bargain to get 20,000 World Coins just like that.

In the end, what was the situation now?

Everyone in the class had become a special ability user!

They could even vaguely sense that a small number of students were not only the lowest E-class special ability users but had also become D-class or even C-class!

What was going on?

After a long while, Qin Chuan finally reacted and stuttered, "Ah... Not bad."

Not bad?

How could this be considered not bad?

It was simply a miracle!

"How did you guys obtain these special abilities?" asked Qin Chuan.

Hence, Zhang Feng explained the general situation.

When he mentioned the sudden appearance of the white fog, the pupils of Qin Chuan and the black-robed man constricted. They exclaimed in surprise, "Initial Fog!"

"Teacher, what's the Initial Fog?"

Many students pricked up their ears. Clearly, they were also filled with curiosity.

Qin Chuan thought for a moment and said, "It's said that a thousand years ago, the great Lin Fan encountered a mysterious white ball and suffered a terrifying attack. He died on the spot.

"It was also at that time that a thick white fog suddenly appeared in Hua Nation.

"It was this white fog that gave many people special abilities. There are even legends that two people became immortals because they inhaled a lot of white fog!"

At this point, Qin Chuan's eyes revealed a look of admiration and admiration.

Then, he continued, "This white fog is known as the Initial Fog!"

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 655 Discussion; Questioning!

The Initial Fog had given many people special abilities. It had even allowed two of them to become immortals!

The students' faces were filled with yearning and excitement.

Now that they had also inhaled the Initial Fog, would they also have the chance to become immortals?

If only they had inhaled a little more just now.

"Lin Fan? I suddenly remember that you have the same name as that great man," Li Dongqiang said.

The surrounding people could not help but cast a strange look.

However, everyone's expressions quickly returned to normal.

After all, the name Lin Fan was too ordinary. There were at least 8,000 people with the same name in the world.

It could not be that the Lin Fan in front of them was the great man from a thousand years ago, right?

Obviously, this was impossible.

However, they did not know that what they thought was impossible was the truth.

Qin Chuan cleared his throat and said, "Your one-week trip to the forbidden area is now over. Now, take the hover bus back to Jiangbei University."

"Yes, Teacher!" All the students responded in unison.

The hover bus made a soft sound and moved forward quickly along the winding road.

Qin Chuan and the man in black looked at each other after watching the hover bus leave.

Then, the two of them turned into afterimages and rushed into the depths of the forbidden area.

About half an hour later, the two of them finally arrived at the area where the white fog had appeared.

"What pure energy."

The man in black looked around and frowned slightly. "But it doesn't make sense. This place has long been explored, but there were no spiritual veins or spiritual objects in the surroundings. Why did the fog appear?"

Qin Chuan also looked around.

However, he did not think as hard as the man in black.

Instead, he laughed out loud and said, "Perhaps it's a moving spirit vein, or perhaps it was spiritual energy that descended from the sky... There are many unexplainable things in this world, so why bother?"

"So... our bet is 100,000 World Coins, right?"

As Qin Chuan spoke, he could not help but rub his hands together.

"What 100,000 World Coins?" the man in black said angrily. "It's 20,000 World Coins!"

"Really?" Qin Chuan asked. "Only 20,000?"

The man in black looked at his suspicious gaze and wanted to punch him.

He was the one wanted to go back on their word and asked if it was 100 World Coins or 50 World Coins.

Now that he won, he said it was 100,000 World Coins?

Qin Chuan seemed to have sensed the unfriendly gaze of the black-robed man. He waved his hand and said, "Alright, alright. 20,000 World Coins it is. Transfer it! You won't go back on your word, will you?"

The man in black did not say anything and transferred 20,000 World Coins to him.

"Many thanks!" Qin Chuan smiled.

After saying that, he turned into an afterimage and headed straight out of the forbidden area.

At this moment, the man in black suddenly thought of something and shouted, "Qin Chuan, you still owe me 10,000 World Coins!"

However, Qin Chuan was nowhere to be seen.

"Qin Chuan, don't run!" The man in black shouted.

As soon as he finished speaking, he also ran out of the forbidden area.

...

The news that everyone in Class 2011 had become special ability users spread like wildfire throughout the entire Jiangbei University.

"Have you heard? Class 2011 all have special abilities!"

"Of course, I heard it! Also, I know that the reason why the students of Class 2011 all have special abilities is because they met the legendary god!"

"They encountered a god? But why did I hear that it was because of a spirit mine?"

"How can it be a spirit mine?! That was a rumor spread by others! There are also some spirit mines in this world, but have you ever heard of anyone who got special abilities after encountering a spirit mine? I don't think so!"

"That's true..."

"So they must've met a god!"

...

At first, all the students of Jiangbei University were envious.

Soon, they began to discuss the reason why the students of Class 2011 became special ability users. I think you should take a look at

Some said that they had encountered spirit mines, some said that they had encountered immortals, and some said that they had encountered spirit fruits...

All kinds of explanations sounded reasonable in their ears.

It was as if they had seen it happen with their own eyes.

It had to be said that a person's imagination and ability to make up stories were really rich.

Following that, many people began to apply to the school to enter Forbidden Area No. 31.

Because, no matter what the reason was, they thought they could obtain special abilities too since everyone in Class 2011 made it happen!

Of course, all of this was in vain.

...

Today, Chen Ming wore a white shirt.

He had already thrown his clothes in the forbidden area into the trash can.

Chen Ming was gently tasting the green tea in his hand.

At this moment, Liu Wei from Class 2011 walked over slowly.

When he saw Chen Ming, he seemed to have recalled the scene of Chen Ming being covered in poop and could not help but laugh.

When Chen Ming saw this, he could not help but frown slightly.

He said in a deep voice, "Liu Wei, you've been doing a good job in the student union. Now that you've become a special ability user, you have a high chance of becoming a high-ranking member of the student union in the future."

When Liu Wei heard this, his heart could not help but beat faster.

He had indeed become a special ability user.

However, he was only the most ordinary strength ability user.

Moreover, his strength did not increase much.

In this way, becoming a high-ranking member of the student union was extremely attractive to him.

"Thank you for your appreciation, Vice President Chen!" Liu Wei said excitedly.

An unhappy expression flashed across Chen Ming's face.

Vice President Chen? *novel*next.c0m

If it were in the past, he would have told Liu Wei to get lost.

But now, he still had things to understand.

Chen Ming pretended to be indifferent.

"I heard that everyone in Class 2011 has a special ability? Can you tell me what happened?"

Therefore, Liu Wei told him everything that had happened from beginning to end.

Chen Ming could not help but fall into deep thought.

Initial Fog!

He had heard this name before.

This was something that only existed in legends.

He did not expect to appear in Forbidden Area No. 31!

If he had not been plotted against, he could have also absorbed the Initial Fog and increase the level of his special ability!

Damn it, damn it!

When Chen Ming thought of this, he could not help but clench his fists.

He swore in his heart that he would definitely teach the person who ambushed him an unforgettable lesson.

"Also, uhh..." Liu Wei secretly looked at Chen Ming and stammered.

"Just say it directly," Chen Ming said lightly. "We, the student union officials, don't like to hide things."

When Liu Wei heard this, he said, "When we were in the forbidden area, Lin Fan played a 3D projection video in front of everyone. In the video..."

Speaking up to this point, Liu Wei secretly glanced at Chen Ming.

This time, he continued, "In the video, you were hiding behind a small hill in a very sorry state. Moreover, your body seemed to be... covered in a lot of dirty things."

Chen Ming's head suddenly exploded.

A 3D projection was played in public!

'Lin Fan, you're courting death!'

Chen Ming's anger erupted!

Chapter 656 Help; Answer The Question!

Dozens of people in Class 2011, including Xia Xue, saw the scene of his body being covered in shit!

Chen Ming could almost imagine how many people would laugh at him in the future.

Liu Wei seemed to feel the different atmosphere and could not help but shiver. He said nervously, "Vice President Chen, uh... If there's nothing else, I'll go back first."

Chen Ming only nodded indifferently.

Liu Wei did not dare to say anything more and hurriedly turned around to leave.

Then, Chen Ming took out his phone and made a call.

"Uncle Jiahua, help me kill someone..."

...

In the blink of an eye, it was the second day.

On the first day of school, Qin Chuan only casually said a few words on the podium before starting the week-long trip to the forbidden area.

Therefore, strictly speaking...

This was the first time Lin Fan was going to class after a thousand years.

The first class was a current affairs class. It mainly explained the major events that had happened recently. The teacher systematically analyzed and explained them.

This kind of model was not bad. It allowed the students to not study too hard.

The second period was Advanced Mathematics.

Although there were some formulas added to higher mathematics, there was still not much improvement.

Lin Fan listened for a while and shook his head, looking a little disappointed.

After all, it had been a thousand years. It was a pity that mathematics, the most basic subject, had not developed much.

Standing on the podium, the teacher wearing silver-rimmed glasses. He noticed Lin Fan's expression.

He still wanted to understand the new student's mathematics comprehension, so he said, "Lin Fan, use what I just said to answer this question."

The teacher with the silver-rimmed glasses casually pointed, and a 3D projection question appeared on Lin Fan's desk.

It had to be said that with 3D projection technology, many things were indeed more convenient.

Xia Xue's heart tightened slightly and she looked at Lin Fan worriedly.

Clearly, she was afraid that Lin Fan would not know how to answer.

Lin Fan smiled and gave her a reassuring look.

Then, he quickly wrote on the 3D projection.

$d/dx[f(x) dx]=f(x)...$

$\lim(a+c)+\lim(b+c)...$

Lin Fan did not even need to think about it and easily answered the question.

The teacher with silver-rimmed glasses standing on the podium nodded in satisfaction and said, "Lin Fan, your answer is not bad. It seems like you've already understood everything I explained..."

Lin Fan said, "Actually, this answer is a little troublesome. There are other simpler algorithms."

"Oh?" The teacher with silver-rimmed glasses said with interest, "Explain it to me."

Lin Fan did not hesitate and continued writing on the 3D projection.

$d/dx[f(x) dx]=f(x)...$

At first, the teacher with the silver-rimmed glasses had a very calm expression.

During this time, he even drank a mouthful of tea.

But gradually, he began to frown.

Even after Lin Fan used a new method to solve the question, his brows did not relax.

After a while, he said, "You used Method A for the fifth step, right?"

"It's not bad to learn extra-cursory knowledge. However, Method A hasn't been proven yet, so it can't be directly used as a theorem. Therefore, your algorithm is strictly wrong.

"Of course, you're not bad either. You deserve encouragement. Continue to work hard!"

After the teacher with the silver-rimmed glasses finished speaking, he looked at Lin Fan with admiration.

"Method A?  $a+b..?$ "

"Yes." The teacher with silver-rimmed glasses nodded.

However, his face revealed a touch of doubt.

From Lin Fan's tone, could it be that he did not know about Method A?

Then why did he use this formula directly? I think you should take a look at

It was strange. *NoVeℓnExt.cOm*

Lin Fan muttered, "This formula hasn't been proven yet?"

He shook his head slightly and continued writing on the 3D projection.

$a+b+c+d...$

$\sin a + \cos b + ...$

The teacher with the silver-rimmed glasses looked at Lin Fan writing the calculations again and could not help but reveal a puzzled expression.

But soon, he seemed to have thought of something.

The teacher with the silver-rimmed glasses quickly took out a folding display screen and searched.

In the next moment, his pupils constricted slightly.

Then, he looked at Lin Fan in shock.

The students of Class 2011 looked at their teacher's serious expression. They did not know what Lin Fan was writing.

However, they all turned their attention to Lin Fan.

Unknowingly, the atmosphere in the classroom became tense.

Suddenly, Lin Fan stopped writing.

The teacher's pupils constricted.

He could not help but say, "This... Was it confirmed? Method A has been verified?"

He looked at the incomparably complicated 3D projection algorithm from beginning to end but realized that it was not something that he could easily verify. He hurriedly said, "Everyone, don't move!"

Most of the time, chaos was a cause of concern.

However, the 3D projection in the classroom had already been automatically saved. What did it matter whether the students moved or not?

Then, the teacher with silver-rimmed glasses quickly made a call.

Soon, an old man with slightly white hair appeared in front of him.

"Chu Zhi, what's the matter?" the old man asked.

"Professor Huang, are you free now?" Chu Zhi asked.

"I have to attend a meeting in ten minutes," Professor Huang said.

"Professor Huang, someone has proven Method A."

"Who? Where was it published?" Professor Huang hurriedly asked.

Obviously, he was very concerned about Method A.

"It hasn't been published yet. He just wrote it down in the classroom."

After saying that, he turned the camera.

Instantly, the proof process of Method A written by Lin Fan appeared in Professor Huang's video.

"Chu Zhi, bring it closer!" Professor Huang quickly shouted.

"Forget it, forget it. Where are you? I'll come over now!"

"I'm in the classroom of Class 2011," Chu Zhi said hurriedly.

"Alright," Professor Huang said.

Then, he hung up the phone.

A moment later, Professor Huang ran out.

A young man walked over with a stack of documents and said, "Professor Huang, I've prepared the materials. Shall we go to the conference room now?"

"You can attend this meeting in my place," Professor Huang said.

"What? Then you..." The young man was surprised.

"I have more important things to do!" After Professor Huang finished speaking, he quickly ran into the distance.

...

Not long after, Professor Huang arrived at Class 2011's classroom.

He did not even look at Chu Zhi or the students in the classroom. Instead, he focused all his attention on Method A.

He did not make any sound, as if he was worried that the sound would shatter the 3D projection.

Seeing him like this, the students could not help but become cautious. They did not even dare to make a sound when they swallowed their saliva.

About half an hour later, Professor Huang suddenly shouted excitedly, "Good, that's great!"

### Chapter 657 Mecha; Discovered!

### *Chapter 657 Mecha; Discovered!*

Professor Huang's voice was like a stone thrown into a calm lake, setting off waves. *novelnext.Com*

"Really?" Chu Zhi asked. "Has it been proven?"

"At least, I didn't find any major problems," Professor Huang said. "Of course, the specific steps and details still need to be checked."

"Oh right, who is it? Who wrote the proof of Method A?"

"He's a student from our class, Lin Fan," said Chu Zhi.

After saying that, he looked up at Lin Fan.

In fact...

Not only was Chu Zhi looking at Lin Fan, but everyone in the class was also looking at him.

Professor Huang looked over. When he saw Lin Fan's young and handsome appearance, he said, "Good, good, good!"

Three 'good's in a row were enough to express the excitement in his heart.

Firstly, it was because Lin Fan was a student at Jiangbei University.

Secondly, Lin Fan was young!

This meant that Jiangbei University had produced a very promising math genius!

Professor Huang said, "Student Lin Fan, are you interested in becoming my graduate student?"

As soon as he said this, everyone present had a look of envy on their faces.

Among them... This included their teacher, Chu Zhi.

This was because Professor Huang from Jiangbei University was the most important person in the entire mathematics world!

All these years, he had never taught any students.

Now, he wanted Lin Fan to be his graduate student.

If Lin Fan wanted to develop in the mathematics world in the future, then it could be said that he would reach the heavens in a single step.

However, Lin Fan said calmly, "I'm sorry. I think it's good enough for me to be in Class 2011."

Professor Huang's student?

What a joke!

Professor Huang might be quite famous in the mathematics world.

However, so what?

He could not even prove the simple Method A.

Besides, Professor Huang was a mathematics professor at Jiangbei University. In a sense, he could be considered Lin Fan's own student.

What was more, the reason why Lin Fan came to Jiangbei University was entirely because he wanted to be classmates with Xia Xue.

The students and Chu Zhi were all stunned.

They did not expect Lin Fan to reject them.

This was Professor Huang!

Professor Huang, on the other hand, did not have much of a reaction.

He nodded slightly. "It's indeed a little unfair to be my student. In the future, we'll be like friends. We'll discuss and communicate. What do you think?"

Lin Fan said, "If I'm not busy, sure."

After all, Professor Huang was his student.

It did not matter if he helped him when he was free.

However, these words gave everyone a different feeling.

Lin Fan was a little too... proud.

Professor Huang did not take it to heart. He smiled and said, "Then it's a deal!"

Then, he made a copy of the proof process of Method A and prepared to go back and check it carefully.

The math class was a small interlude.

Next was the mecha class.

In today's world, technology was advanced, and there were people with special abilities...

However, it was not as peaceful as it seemed.

There were powerful beasts that ran out of the forbidden area, terrifying special ability users, technological criminals, and at the same time, there was war!

This made everyone need to have a certain degree of self-protection ability.

Hence, mecha classes came into being.

At this moment, everyone in Class 2011 had arrived at the incomparably empty field.

The teacher with the buzz cut and a strong body named Hawkins said, "Today is the mecha shooting class! Everyone, get into your mechas!"

Following that, a red mechas about three meters tall appeared in front of everyone.

Seeing this...

Lin Fan could not help but reveal an expression of interest.

It was cool and tall.

Any mecha, if it was a thousand years ago, would definitely be the Gundam that was loved by many people!

Now, real mechas were all neatly arranged in front of him.

At this moment, the hatch in front of the mechas opened, and the students stepped forward.

Lin Fan followed suit and walked in.

The temperature inside the mecha was moderate and very comfortable.

A halo appeared above his head.

This was a mental connection device similar to a gaming helmet.

This would allow the mechas to move freely like their own limbs.

At this moment, a row of targets appeared in the middle of the field.

"No. 1, shoot!"

"Bang!"

A hole immediately appeared on the third circle of the target.

"No. 2, shoot!"

"No. 3, shoot!"

...

As Hawkins shouted, holes appeared on the targets.

Soon, it was Lin Fan's turn.

"No. 12, shoot!"

The super smart watch on Lin Fan's wrist made a crisp sound. "Master, do you need me to lock onto the bullseye?"

Lin Fan said, "No need, I'll shoot."

Then, he slightly focused his attention.

The shot hit the bullseye!

Hawkins could not help but look at Lin Fan a few more times and nodded his head.

"No. 13, shoot!"

...

A day of classes passed in the blink of an eye.

In the past, Lin Fan only felt that the teachers' lectures were like a lullaby that could make him fall asleep easily.

The curriculum of the current world gave Lin Fan a fresh feeling.

The setting sun dyed the distant sky scarlet.

It was ferocious and terrifying!

Lin Fan walked alone on the long path, maintaining a constant speed.

A gentle breeze blew past, causing the branches to sway gently. The leaves kept falling.

The next moment, Lin Fan turned around and looked at a forest not too far away.

In the forest, a man who was hiding in a silver mecha and observing Lin Fan quietly. He was slightly shocked.

He had been spotted?

Attack!

Then, the man no longer hesitated. With a slight thought, he fired the bullet.

"Hmm? What happened?"

The bullet did not fire as smoothly as he had expected.

Just as the man was feeling puzzled, Lin Fan, who was originally a few hundred meters away, suddenly appeared in front of him.

Lin Fan sized up the mecha.

He looked like he was looking at a large toy.

Lin Fan nodded, "It looks good."

"I wanted to take it apart during class. I wanted to buy one, but now I can save that bit of money."

As soon as he finished speaking, Lin Fan stretched out his hand and grabbed at the entrance.

The steel door suddenly shattered like a bubble.

Under the man's shocked gaze, Lin Fan pulled him out and threw him on the ground.

Then, Lin Fan ignored the man.

Instead, he began to disassemble the mecha.

Not long after, the tall and cool mecha was reduced to a pile of broken parts.

At this moment, Lin Fan remembered that the man who wanted to kill him was still beside him.

"Who sent you here?" he asked.

His voice was very calm.

However, it made the man feel the temperature drop. He could not help but shiver.

### Chapter 658 Revenge Must Be Taken; The Heavenly Hound Appears!

### *Chapter 658 Revenge Must Be Taken; The Heavenly Hound Appears!*

The setting sun was like fire, but it made the man feel like he was in the middle of winter.

Awe-inspiring and cold...

His entire body trembled.

Even though Lin Fan was just a young man, in the man's eyes, he was like a bloodthirsty God of Death.

He opened his mouth and stammered, "You... You've misunderstood..."

Lin Fan did not say anything else and snapped his fingers.

The man was like a balloon, instantly bursting into a bloody mist.

The man did not say anything.

However, he already knew the answer in his heart.

'What kind of terrifying existence did Boss Chen ask me to kill? What should we do now?'

Those who killed would be killed!

Lin Fan naturally would not hold back.

At this moment, the phone on the ground vibrated.

Lin Fan tapped it, and a low voice rang out.

"Has it been resolved?"

Lin Fan said, "I'm afraid I'll have to disappoint you."

"Who are you?" The voice on the phone suddenly turned cold.

"Lin Fan," Lin Fan said.

"You're actually capable of killing my people. Who are you?" The voice on the phone was extremely low.

Lin Fan said, "You'll see me soon." *NoVēlnExt.cOm*

"Is that so? Then I'll wait for you!" After saying that, he hung up the phone.

Lin Fan looked at the super smart watch on his wrist and said, "Little White!"

"Master, I've already locked onto his identity and location." The super smart watch flickered slightly and made a very clear sound.

Then, a 3D projection appeared in front of Lin Fan. It contained all kinds of information about Boss Chen, including his family, company, projects, and so on.

For an ordinary person, even if they wanted to finish reading all this information, they would probably have to spend a very long time.

However, Lin Fan took a single glance and memorized all the information.

"Chen Ming?" Lin Fan said, "Is the mastermind Chen Ming?"

He had interacted with Chen Ming twice.

The first time was at the student union's gala, where the two of them played the piano.

The second time was in Forbidden Area No. 31. Chen Ming stayed behind to explore with Class 2011.

Later, when Chen Ming was taking a dump, he was beaten up by someone, causing him to be covered in shit.

Lin Fan recorded everything down.

In a sense, Chen Ming also had a grudge against Li Dongqiang.

However, Lin Fan did not really care about that.

He only looked at the results.

Chen Ming wanted to kill him!

Lin Fan did not like Chen Ming to begin with. Now, he had attacked him.

In that case, he definitely could not let it go.

Then, Lin Fan stepped out.

His entire person instantly disappeared from where he was.

...

At this moment, in a slightly dark basement.

Chen Weiqiang frowned and said, "Who exactly did Chen Ming offend?"

The next moment, a tall and handsome young man suddenly appeared in front of him.

It was Lin Fan!

"Why are you here?" Chen Weiqiang asked in surprise.

Lin Fan said indifferently, "Is your memory bad? I just said that we'd meet soon."

Then, he snapped his fingers again.

Chen Weiqiang exploded instantly, turning into wisps of blood mist.

Following that, Lin Fan's body flashed once more.

...

At this moment, in Fenghua Club.

Chen Ming walked into the private room with a voluptuous woman in his arms.

Without a word, he violently pressed down on the woman's head.

He had been like this for the past few days.

He needed to vent all the humiliation he endured in the forbidden area.

"Lin Fan, are you dead?" Chen Ming said sternly. "You must've died a horrible death!"

"Unfortunately, I've disappointed you." An indifferent voice suddenly sounded behind him.

When Chen Ming heard this, he could not help but shiver.

"Why are you here?" he asked in surprise.

Lin Fan could not help but say, "Your Chen family doesn't seem to be much. Unfortunately, it won't end well for you."

Chen Ming's body suddenly exploded, and blood spurted out.

The gorgeous woman, who was originally puzzled, could not help but let out an ear-piercing scream when she saw this.

However, this cry only reverberated within half a meter of her.

It was as if her entire body was isolated in an invisible thick glass.

Lin Fan pointed out casually, and the gorgeous woman fainted.

With that, Lin Fan took a step forward and disappeared from where he was.

When the gorgeous woman woke up, she had completely forgotten what had happened.

She muttered to herself in a daze, "Why am I here?"

...

Lin Fan did not continue his killing spree.

After all, no one else had provoked him yet.

In the blink of an eye, it was the second day.

Today, the Heavenly Hound tattoo on Lin Fan's arm started to squirm.

In the next moment, a large dog about two meters long appeared in front of him.

It was the Heavenly Hound.

When the Heavenly Hound saw Lin Fan, it could not help but wag its tail happily.

Obviously, it was very happy.

This was normal.

One had to know...

A thousand years ago, the Heavenly Hound had established a contract with Lin Fan.

During these 1,000 years, Lin Fan had been absorbing the energy of the orb of light. The Heavenly Hound had been by his side the entire time.

In other words, Lin Fan and the Heavenly Hound had been together for a thousand years.

A thousand-year-old friendship surpassed everything!

When Lin Fan caught sight of the Heavenly Hound, he smiled and said, "Heavenly Hound, you're finally awake."

"Master, I missed you so much."

After signing the contract, Lin Fan was the owner of the Heavenly Hound!

As soon as he finished speaking, the Heavenly Hound stuck out its tongue and was about to lick Lin Fan.

Lin Fan dodged to the side and said, "This is Earth, which is also where I live. Shrink yourself to this size, and then behave yourself."

The place where Master lived?

The Heavenly Hound's eyes lit up. It shrunk its body and looked around curiously.

Lin Fan patted its head and said, "Alright, let's go."

Today, Jiangbei University was as lively as usual.

Lin Fan walked through the green path and walked past the basketball court. He went straight to the classroom of Class 2011.

At this moment, a man with a ponytail called Qiao Kai was walking into the classroom with a four-eyed dog that was half the height of a person.

A thousand years ago, animals were generally not allowed to enter the classroom.

However, there was no such rule in the current world.

This was because animals were no longer just pets. They were partners and comrades!

The classroom was immediately filled with gasps of admiration.

"It's a Four-Eyed Hell Hound!"

"That's so cool!"

"This is my first time seeing a Four-Eyed Hell Hound in real life!"

...

Qiao Kai heard everyone's praises and felt extremely happy in his heart.

"Qiao Kai, where did you get this Four-Eyed Hell Hound?" someone asked.

"My dad gave it to me after he found out that I became a special ability user in Forbidden Area No. 31," Qiao Kai said with a smile.

"You obtained the earth attribute ability," someone beside him said. "With the addition of the Four-Eyed Hell Hound, your strength will definitely increase by several times!"

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 659 Beast Tide; Strength Rankings!

While many students were praising him, a strange voice sounded.

"Is this Four-Eyed Hell Hound really that powerful?"

As Li Dongqiang spoke, he sized up the Four-Eyed Hell Hound from top to bottom, from left to right.

Qiao Kai raised his head and said, "It's not too powerful. It's only at the level of a D-class special ability user."

Although it was not too impressive, the smugness in his tone was obvious.

"Really?" Li Dongqiang touched his chin and said.

At this moment, a series of brisk footsteps sounded from outside the corridor.

Xia Xue, who was standing by the door, casually glanced at the door.

Her beautiful eyes lit up.

That was because a tall and handsome figure appeared in front of him.

It was Lin Fan!

Beside Lin Fan's feet was a small white dog.

Xia Xue's beautiful eyes brightened a little, and she said with a smile, "What a cute puppy."

As she spoke, she lowered her head and wanted to stroke the Heavenly Hound's head.

One had to know...

A thousand years ago, the Heavenly Hound was already a level-eight exotic beast.

Over the past thousand years, Lin Fan had been absorbing the energy of the orb of light. The Heavenly Hound had been by his side, and it had also benefited greatly.

The current Heavenly Hound could even become a king and emperor without any problems.

How could it be touched by ordinary people?

It was about to refuse.

At this moment, Lin Fan's voice rang out in the Heavenly Hound's mind.

"Let her touch you."

The aura around the Heavenly Hound suddenly withdrew, allowing Xia Xue to stroke it.

"Lin Fan, is this your dog?" Li Dongqiang asked curiously. "Is it a mutated beast or an ordinary dog?"

Lin Fan said, "I don't know."

"What a coincidence," Li Dongqiang said to himself. "You and Qiao Kai both brought dogs today."

The Heavenly Hound looked in the direction that Li Dongqiang was pointing at, and its face was full of disdain.

It was this glance that scared the Four-Eyed Hell Hound so much that its limbs went limp and it fell to the ground.

This was normal...

The Four-Eyed Hell Hound was only a D-class exotic beast, much weaker than the Heavenly Hound when it was young.

Furthermore, the Heavenly Hound could call itself a king or an emperor.

An emperor's gaze was as heavy as a mountain!

Li Dongqiang also noticed this and smiled. "Qiao Kai, why is your Four-Eyed Hell Hound crawling on the ground? Could it be that it has diarrhea, so it has lost its strength? Is it really a Four-Eyed Hell Hound?"

Qiao Kai also felt a little embarrassed and shouted, "Big Black, Big Black, quickly get up!"

However, no matter how he shouted and dragged it, the Four-Eyed Hell Hound did not get up.

After the bell rang, the math teacher strode in.

He first gave Lin Fan a warm smile and then started today's lesson.

The day's lessons passed in the blink of an eye. The sun gradually set, dyeing the entire sky red.

At this moment, hurried footsteps sounded from outside the corridor.

Then, Qin Chuan, walked in quickly.

He glanced at the students in the class and said, "According to the news, a large number of exotic beasts have been gathering in Jiangbei since last night!

"This is an extremely rare and terrifying beast tide! Of course, we don't have to worry too much because the Xia Alliance has already sent out special ability teams to defend. They'll definitely be able to stop the beast tide outside the city. I think you should take a look at

"However, there's still a possibility that a small number of exotic beasts have slipped through the net and entered Jiangbei. It's very dangerous! Therefore, Jiangbei has activated the emergency plan.

"From now on, unless absolutely necessary, try not to leave the school."

Hearing this, everyone in the class could not help but feel their hearts beating faster.

Some people were excited, but more people were afraid.

Qin Chuan seemed to have something to deal with, so he left the classroom after he finished speaking.

Only the students in the classroom were left looking at each other.

Then, they carefully walked out.

Jiangbei University, third floor of Block 8, the male dormitory.

A thousand years ago, most of the student dormitories had four people in a room.

The current student dormitory had become a luxurious smart suite with two bedrooms and one living room.

As soon as Lin Fan entered the dormitory, a sweet-looking android came over and said in an extremely clear voice, "Welcome home. Would you like something to drink?"

"No need," Lin Fan said.

Zhang Wenzhuo, who had returned to the dormitory first, said, "Lin Fan, you're finally back in the dormitory.

"You don't know how lonely I've been in the dormitory these past few days!"

As he spoke, he was about to give Lin Fan a big bear hug.

However, Lin Fan's body turned slightly to the side.

Zhang Wenzhuo could not help but feel a little embarrassed.

He quickly turned his attention to the Heavenly Hound and said, "When I was in class, I wanted to touch it. Now, I finally have the chance, hehe!"

Zhang Wenzhuo bent down and reached out to stroke the Heavenly Hound's head.

The reason why Xia Xue could touch the Heavenly Hound was because of Lin Fan's instructions.

Zhang Wenzhuo did not have such good treatment.

The Heavenly Hound twisted its body and easily dodged to the side.

"Little dog, I have a lot of delicious food here. Come over to me..." Zhang Wenzhuo said.

However, the Heavenly Hound just stood in the distance and watched him perform as if he was a monkey. It did not move at all.

Zhang Wenzhuo could not help but feel helpless.

*NoVēlNExt.cOm*

So, he straightened his back and said, "Lin Fan, Jiangbei was just fine before. Why is there a beast tide all of a sudden?"

"Didn't this happen in Jiangbei before?" asked Lin Fan.

Zhang Wenzhuo thought for a moment and said, "I don't think so. At least, I don't have any impression of it, and I haven't seen any similar news."

Lin Fan nodded his head and looked out of the dark window into the distance.

...

At this moment, many men and women wearing black cloaks who were emitting extraordinary auras gathered together.

The middle-aged man in the red cloak, Qin Zhong, said, "Dahai, where's the tide of mutated beasts? How many are there?"

Li Dahai, who was also wearing a red cloak, stood next to him. A dazzling golden light shot out from his forehead.

Instantly, the exotic beasts in the mountains, fields, and rivers all appeared in his field of vision.

After a while, the golden glow between Li Dahai's eyebrows slowly dissipated. He said in a deep voice, "The beast tide is only about 30 kilometers away from here. It's probably close to 100,000! Moreover, it's still increasing!"

As soon as he said that, the atmosphere immediately became gloomy.

Everyone knew what this data meant.

"No matter what, we must defend!" Qin Zhong took a deep breath and said. "In addition, I've already transferred 100 super laser weapons and a large number of reinforcements. They're already on their way!"

At this moment, a dazzling golden light suddenly appeared in the originally dark night.

These golden lights continuously condensed and twisted...

Gradually, they turned into three large golden words—'Strength Rankings'!

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 660 Appearance; Anticipation!

These three golden words were like three suns hanging in the sky.

They were absolutely dazzling.

This quickly attracted the attention of many people.

They all began to discuss.

"Strength Rankings? Is this a 3D projection, or something similar to the previous Wealthy Rankings?"

"The last ranking allowed the top ten tycoons to increase their lifespan and obtain special abilities. I wonder how they'll be ranked this time and what they'll obtain."

"Strength Rankings! This is even more interesting than the Wealth Rankings. I wonder who will be on the rankings?"

"I'm looking forward to the reveal."

...

Finally, the golden light gathered again and turned into lines of words.

[Tenth place: Sun Shan.]

[Reward: Ten years of lifespan, and 10% increase in special abilities.]

...

At this moment, in a very artistic training room...

An old man with long snow-white hair suddenly opened his eyes.

At the same time, a terrifying aura surged out like a tsunami.

Then, the old man's snow-white hair gradually turned black at a speed visible to the naked eye.

The old man raised his hand and waved, forming a ferocious dragon head from wind.

The dragon roared, and the three sandbags in the distance shattered like bubbles. A huge hole appeared in the wall behind them.

The old man looked at his hands in surprise and said happily, "This feeling is really not bad!"

When the guards outside heard the sound, they hurriedly ran over.

"Old Master, are you alright?" they said nervously.

At the same time, they kept looking around, trying to find traces of the enemy.

"There's no need to look," the old man said. "There are no enemies."

At this moment, the middle-aged man who was standing at the front said in surprise, "Old Master, your hair..."

"I've become younger and stronger," the old man said.

Then, he looked out of the window and focused his gaze on the Strength Rankings in the air.

...

Many people raised their heads to look at the sky and began to discuss.

"The tenth place on the Strength Rankings is out!"

"Sun Shan? Could this be the founder of the Gate of Limits? Heavens, he's still alive?"

"A few decades ago, Sun Shan could knock down a tall building with one punch. Now, after so many years, he has even seen a 10% increase of his special abilities. How strong is he now?"

Everyone could not help but look at Lei Sen.

Then, they shouted in unison, "Congratulations, Master Lei!"

Lei Sen laughed heartily and said, "Today, the spirit energy room will be available for use for free of charge."

"Thank you, Master Lei!" everyone shouted happily.

Lei Sen nodded, and then looked at the sky outside the window.

...

Countless people exclaimed.

"Lei Sen! I knew he would definitely be on the rankings! However, why is he only ranked ninth? He's the master of the Thunderbolt Fist Dojo!"

"Dojo Master Lei once killed an SSS-class exotic beast with two punches. He might be able to kill it with one punch now!"

"Master Lei, you're the strongest!"

...

The next moment, he suddenly stopped.

"Yes, Sir!" The warriors with special abilities shouted in unison.

...

Discussions were ablaze.

"The eighth place is out. It's Fu Xuantian!"

"Fu Xuantian? Is he the great commander of the south? I knew that he would definitely be able to enter the rankings!"

"I don't worship stars or gods. I only worship warriors with special abilities!"

"Elder Fu Xuantian, my Prince Charming!"

...

She looked at the rankings in the air and fell silent. No one knew what she was thinking.

...

Zeng Fang's expression was calm.

However, many people were unable to keep quiet for a long time.

"Zeng Fang? That seems to be a woman's name."

"Finally, a woman has entered the Strength Rankings!"

"Women can hold up half the sky!"

"Zeng Fang! Her name is beautiful, and she must be beautiful too! Moreover, she has even entered the Strength Rankings! She's simply a goddess!"

"Hahaha! Strength! My power is surging!"

In the end, he focused his attention on the emperor-grade combat boots.

Then, he slowly put on the emperor-grade armor and said, "Mhm, it's quite heavy."

Hu Yixiao said awkwardly, "Uh, you heard wrong."

Xue Zhan did not say anything.

He just quietly looked at the Strength Rankings in the sky.
