

## **S.P.E.C.T.O.R 11**

### Chapter 11: Prestigious3horns

In another part of the universe, in a galaxy far far away, on a planet that was mostly purple in colour, a young purple boy who with what seemed to be three small antennas on his head, was sitting in front of a large holographic display trying to find something to watch.

"Why has there been nothing worth watching this month? Everything is either poor quality or has crap acting, nothing decent has been released in months since the universal actors guild went on strike over pay disputes."

"Don't tell me I'm going to have to check out the streaming platforms, there's even less chance of something decent being on there. The actors' strike is also affecting the production of new top quality games and don't get me started on those IRL streams, they're all so fake it's stupid."

As he used his uniband to switch the holographic display to one of the streaming platforms his attention was caught by a banner at the very top that was advertising a stream for someone called Codename: S.P.E.C.T.O.R.

One side of the banner showed the live coverage of the stream without any sound while the other side gave the stream description.

"Spector's revenge, eliminate the coroner." The boy mumbled as his attention was caught by the sight of someone riding what looked like a vehicle through the streets of a city while avoiding other larger vehicles.

Finally having found something that looked interesting he opened the stream and watched the streamer ride his vehicle through the City while also paying attention to the chat as he tried to figure out the

scenario.

After a few minutes he figured out that the streamers target had somehow escaped and that the streamer was now in pursuit of him, what he found most amusing though was the viewers in the chat who thought that the streamer was playing a video game.

The boy of-course knew it was completely IRL because he was connected to a streaming platform using the universal subspace network which was far more advanced than the streaming platform that the people on Earth were using. The streaming platforms of the universal subspace network could automatically tell what sort of content was being streamed and advertised it accordingly.

"How do these people lack such common knowledge?" The boy wondered before deciding to find out about the planet Earth that they all seemed to be from.

The universal subspace network contains information on all planets that are connected to it and all the boy had to do was select (Earth) from one of the chatters and he would be able to see all information the network had on it.

However as he selected it the only response he got was an error message saying [Unknown Planet, No Information Available.]

This surprised the boy as he couldn't understand how these viewers were able to watch and even chat in the stream when their planet was unknown and not connected to the universal subspace network.

After thinking for a few minutes and paying closer attention to the stream he noticed that the level of technology on the planet shown in the stream was ridiculously low, some would almost say archaic compared to his own planet and those connected to the universal subspace network.

"Is that why they think it's a game? Because their technological level is so low they can't tell the difference straight away."

"But the question of how they gained access to the universal subspace network still remains." Because he could not figure out the reason himself and his curiosity kept nagging at him about it, he decided to jump on the social media app Xer-verse and post an article about it asking if anyone knew the

reason.

[Prestigious3horns (Vinox 2): Just found an entertaining stream (yes I know what you're all thinking) however it caught my attention because it's an IRL stream on a planet where they don't seem to have reached the technological stage of space exploration.

Also the viewers and chatters are all from a planet called Earth which is not connected to the universal subspace network.

Can anyone tell me how this can be?]

After writing the post he focussed back on the stream and decided to try talking in chat.

DDD

Adam swerved through traffic on his motorcycle as he followed the directions on his HUD.

[StealthAssassin9 (Earth): Streamer has some real skill on that bike, do you really think he just learnt how to ride it?]

[Gunlovergirl (Earth): There's no way, that would be impossible.]

[Prestigious3horns (Vinox 2): It's possible if he possesses a neurolink.]

[[SciFifanboy (Earth): Neurolink? Like from cyberpunk? that's so SciFi.]

[Prestigious3horns (Vinox 2): What's cyberpunk?]

[1000yearsofdeath (Earth): Lol dude watches gaming streams but has never heard of cyberpunk, so lame

kekeke.]

[Prestigious3horns (Vinox 2): Ah so it's a game from your world, that would explain why I don't know it then since we don't have it.]

[1000yearsofdeath (Earth): huh???

[SciFifanboy (Earth): Dudes from a different planet? That's so SciFi.]

[Gunlovergirl (Earth): Chill out SciFi, first of all, how do you know it's a dude? And second they're just roleplaying being from a different planet.]

[Prestigious horns (Vinox 2): No I'm actually from a different planet, look at my user ID.]

[Whostolemyduck (Earth): Hmm dude has a point, his ID does not say Earth but instead Vinox 2.]

[Gunlovergirl (Earth): Wait, you're buying into this rubbish duck? Also once again how do we know they are a dude.]

[Whostolemyduck (Earth): No, I'm just stating that his ID does indeed say something different than Earth.]

[SciFifanboy (Earth): @Prestigious3horns (Vinox 2) where is Vinox 2 bro?]

[Prestigious horns (Vinox 2): First off I am indeed male and second Vinox 2 is located in the Archimedes Galaxy.]

[Noobkiller9000 (Earth): Archimedes Galaxy? Is that like the Milky Way galaxy we are in?]

[Prestigious3horns (Vinox 2): Never heard of the Milky Way galaxy, but because your planet Earth is not connected to the universal subspace network it's probably a long way off, and by long way I'm talking

hundreds or maybe even thousands of lightyears.]

[SciFifanboy (Earth): That's so cool and SciFi.]

[Forever1stCommenter (Earth): Can I go there?]

[StealthAssassin9 (Earth): @Forever1stCommenter (Earth) You want to go there?]

[Forever1stCommenter (Earth): @StealthAssassin9 (Earth) ofcourse, I need to be first.]

[StealthAssassin9 (Earth): Riggghhhttt.]

[Superhearofangirl (Earth): Guys were getting off topic, this guy is saying he is from another planet in another galaxy. Are we sure they're ok in the head?]

[Superior4horns (Vinox 3): Although I hate to agree with anything this loser says, I have to stand up for someone from my own galaxy and inform you all that he is indeed from another galaxy as am I.]

[Gunlovergirl (Earth): Shit they're multiplying.]

[Prestigious3horns (Vinox 2): Four horns what the fuck are you doing here?]

[Superior4horns (Vinox 3): I came to take a look at the stream you posted about on Xer-verse little 3.]

[Prestigious3horns (Vinox 2): Don't call me little 3, wait you follow me?]

[Puntanghunter69 (Earth): I smell it, I smell the putang.]

[Prestigious3horns (Vinox 2): Putang?]

[Superior4horns (Vinox 3): Putang?]

[Noobkiller9000 (Earth): Xer-verse, is that like X?]

[Superior4horns (Vinox 3): What's X?]

[Whostolemyduck (Earth): X is a social media platform where you can post messages, pictures and videos.]

[Superior4horns (Vinox 3): Ah then yes, Xer-verse is the biggest social media platform on the universal subspace network.]

[Prestigious3horns (Vinox 2): Can someone tell me what putang is?]

[Whostolemyduck (Earth): @Prestigious3horns (Vinox 2) Just ignore anything Putanghunter69 says, he's a certified pervert.]

[Puntanghunter69 (Earth): Oi duck I take offence to that.]

[Whostolemyduck (Earth): I'm just telling it how it is.]

[Forever1stCommenter (Earth): +1]

[Noobkiller9000 (Earth): +2]

[SciFifanboy (Earth): +3]

[1000yearsofdeath (Earth): +4]

[Sparesomechangebro (Earth): +5]

[Gunlovergirl (Earth): +6]

[StealthAssassin9 (Earth): +7]

[Superhearofangirl (Earth): +8]

[Handsome3horns (Vinox 2): Prestigious I saw your post and I gotta admit your right, this is one wild stream.]

[Prestigious3horns (Vinox 2): Told you so my man, I always find the good stuff.]

[Gunlovergirl (Earth): Is this a cult convention or something?]

[Noobkiller9000 (Earth): Damn gunlover, why are you so anti everything today, first the blaster pistol and now these people.]

[Gunlovergirl (Earth): I like things properly organised, a blaster pistol and people from CLAIMING to be from another planet are not organised.]

[Handsome3horns (Vinox 2): Claiming?]

[Superior4horns (Vinox 3): They seem to be having trouble believing that we are not from their so-called

Milky Way Galaxy.]

Handsome3horns (Vinox 2): Fuck you didn't tell me that bitch Superior4 was here Prestigious.]

[Prestigious3horns (Vinox 2): She arrived just before you sigh.]

[Superior4horns (Vinox 3): I still can't for the life of me understand why someone of Prestigious's standing would bother to collude with someone like you SO-CALLED handsome.] [Whostolemyduck (Earth): People people please we are getting off topic, now I have just done a quick check and have confirmed that there is no way for me to change or remove the (Earth) from my ID in this

stream.]

[Prestigious3horns (Vinox 2): That's standard for any program on the universal subspace network, it allows you to know exactly which planet the person you are speaking to is from so as to prevent any

fraud.]

[Whostolemyduck (Earth): Riiiggghhhttt, anyway as I was saying this only.... Oh shit he found the target.]
