Chapter 136: Honestly I'm surprised myself ***

As she felt something invade her anal hole, Stacey's body suddenly went rigid while she gripped Adam's hair even tighter, and her legs came and locked his head in place as she climaxed and sprayed her juices all over his face.

"You never said you were a squirter," Adam said with a grin on his soaked face after she finally released him and he could come up for air.

"I.... I'm... not." Stacey replied through ragged breaths as she tried to calm down after the intense climax before she finally said, "That was the first time that ever happened, it felt so good when you inserted your finger."

"Has no one ever done that to you before?" Adam asked curiously.

"No." Stacey replied while shaking her head before continuing, "It's only ever been my mouth or pussy."

"It seems we have found something new about you, then, maybe we should try anal in the future."

"What's anal? Does it have something to do with my ass hole?"

"Another name for your ass hole is your anal cavity, anal in where I put my cock inside there instead of your pussy."

"Seriously? I came that much just from a finger." Stacey said with mild concern.

"Exactly, think about how good it will be if you take my cock in there."

"I dunno." Stacey said, still unsure, "I mean, it's so much bigger."

Adam waited a few moments for Stacey to get used to him being inside, and as he saw her starting to relax, he started to move his hips forward and backwards slowly at first before gaining speed.

“GOD, YES, MORE.”

Adam didn't disappoint and increased his speed while thrusting his cock further inside of her each time.

“I'VE WANTED YOU FOR SO LONG, FUCK ME GOOD, MAKE ME YOURS,” Stacey said as her eyes lost focus and her mouth hung open a bit gasping for air.

Adam continued to thrust harder and faster, and Stacey, wanting to feel even more of him, reached her arms out around his neck before pulling herself up to kiss him passionately on the lips as he continued to fuck her.

After breaking the kiss, Stacey almost instinctively bit him on the neck again; however, unlike last time, her bicuspid teeth had not extended, so instead of breaking his skin and drinking his blood, she just started to create love bites each time she bit him.

Adam grew concerned for a moment as he felt her bite him again, but after confirming she wasn't feeding on him again, he grabbed her plump ass with his hands and lifted her up off the couch before he used his arms to bounce her up and down on his shaft, making her scream in pleasure.

“YYYYYYYYEEEEESSSSSS, FUCK ME, ADAM, MAKE ME YOURS, I BELONG ONLY TO YOU AND ONLY YOU CAN RAVAGE MY BODY FROM NOW ON.”

Spurred on by her declaration, Adam made her bounce even harder and faster as his cock penetrated all the way to the back of her vagina, making her moan and bite him each time it did so.

A few minutes into the sex, Adam felt Stacey quiver as she moaned deeply into the bite mark on his neck she had just made as she climaxed again. However, instead of letting her rest, Adam had them both collapse onto the couch with him on top as he continued to fuck her from above while looking down into her now misty eyes and the small part of her tongue that was starting to hang out of her mouth.

“Stop... stop... I just... I just came.” Stacey tried to say half-heartedly to but Adam just ignored her and continued to thrust himself deeply inside of her as she instinctively wrapped her arms and legs around him and pulled him even deeper inside while she started to kiss him again.

They kissed passionately as their tongues battled against each other, with Stacey letting out the occasional moan in pleasure as Adam’s cock pierced her pussy deeply time after time.

“AGGGGGAAAIIIIINNNNNN” Stacey yelled as she broke the kiss and climaxed for the third time.

Stacey was in ecstasy, no man had ever made her climax three times, namely because she normally got dressed and left after the first time. It wasn’t like she didn’t want more from them, but it took them so long to make her climax that by the time it happened, they were spent and couldn’t continue.

Adam was the first to make her climax so many times so quickly, and he was even still going because he had yet to cum himself.

“How.... how are you still going?” Stacey asked through ragged breaths and unfocused eyes.

“I don’t know,” Adam grunted in return as he flipped her over so she lay on her front before he leaned over her back and started thrusting again, even deeper than before.

“OH gods, this feels so good, what is this?” Stacey asked in pleasure as she dug her nails and teeth into the pillow before her.

”I figured a naughty bitch like you would enjoy this position.” Adam said as he placed his hands on her lower spine for support and continued to thrust.

“God yes, I’ve never been fucked this way before, god I could get addicted to this.”

“Do it, become addicted to me and my cock so you never even think about another man,” Adam growled before he raised a hand and brought it down on her plump ass with a slap and made it jiggle.

“HHHHHHHHH.” Stacey squealed as her back arched and her pussy tightened around Adam’s cock, making him unable to last any longer as he released his cum inside her pussy, causing Stacey to climax for the fourth time as she felt it.

“GGGAAAHHHHHH.” Adam groaned.

“FFFFUUUCCCCCKKKK.” Stacey screamed before she collapsed onto the couch, twitching as her eyes remained unfocused and her tongue hung slightly out of her mouth..

Adam also collapsed onto her back so after and started to pant.

They stayed that way for a few minutes before Stacey managed to ask, “How are you so fucking good? I’ve never had sex like that before.”

“Honestly, I’m surprised myself. I was never able to last that long in the past.” Adam replied honestly since he was too tired to make a witty comeback about how he was just that good.

“After your body's regeneration in the past, one of the things that was enhanced was your stamina, which includes how long you can fight both deadly battles and in the bedroom.” Spector suddenly announced.

“Have you been listening the entire time?” Stacey asked with a slight blush.

“Affirmative, I monitor everything that happens within me.”

“I’m not sure how I feel about that.”

“Have you never fucked anyone on a spaceship before?” Adam asked.

“Sure, but the AIs on those ships were not as advanced and sophisticated as Spector; sometimes you forget she’s a machine.”

“Understandable, I can say with one hundred per cent confidence that there is no AI as advanced as myself currently in the known universe.”

“How can you know that?” Stacey asked with interest, but all she got in return was silence.

“Fine, keep your secrets,” Stacey said with a pout before she turned to Adam and asked with a smirk.

“I hope you plan to take responsibility if I get pregnant.”

“Won’t happen,” Adam replied simply with a perverted smirk as his cock, which was still inside Stacey, started to harden again before he gave her a small thrust, making her moan in pleasure before they went again.
