Chapter 15: Bank Security

"So you lot finally believe me that this is all IRL and not a game?" Adam asked with a chuckle as he reached the top of the steps before the bank entrance.

[Whostolemyduck (Earth): How can we not when you were all over the news streamer?]

[AlamoMatador4thewin (Earth): Yeah man, that news coverage was nuts. You're still headline news right now and they even have special guests on trying to explain the things you did like your blaster.]

[SciFifanboy (Earth): Bro your blaster is so SciFi, can I have a go?]

[Gunlovergirl (Earth): Me too.]

[SciFifanboy (Earth): What's this? Your a believe now gun girl?]

"Sorry but no, you're not playing with my blaster."

[Superior4horns (Vinox 3): Where did you get a blaster that can fire a disintegration shot?]

"I'm afraid for now that's classified."

[StealthAssassin9 (Earth): Streamers totally a secret agent or something?]

[Noobkiller9000 (Earth): What sort of secret agent streams idiot?]

[Superhearofangirl (Earth): Are you seriously robbing a bank streamer?]

"Well not the whole bank, I only need access to one safety deposit box."

[1000yearsofdeath (Earth): Are you sure you should be saying that? You might have just messed up your own mission by doing so kekeke.]

"Don't worry about that, I have contingencies in place to prevent that sort of thing.]

[Handsome3horns (Vinox 2): How can he have contingencies to prevent something like that?]

[Sparesomechangebro (Earth): Getting access to a safety deposit box that is not yours is not so easy streamer, trust me on this.]

[Noobkiller9000 (Earth): Why does it sound like you have experience trying?]

[Sparesomechangebro (Earth): A man's gotta eat bro.]

"I feel it would be remiss of me not to warn you against copying anything you see me do on stream."

[Prestigious3horns (Vinox 2): What are you a trained killer and bank robber?]

[Justiceistruth: (Earth): Damn harsh, but truth is justice like justice is truth.]

[1000yearsofdeath (Earth): I love it kekeke.]

"Nope, today is my first time for both."

[StealthAssassin9 (Earth): You're kidding, you're going to rob a bank solo on your first attempt because I don't see any other crew?]

"Let's find out." Adam said as he pushed the revolving door and entered the bank.

The first thing Adam and the stream saw upon entry was the giant open area that seemed to scream wealth. The floor was made of marble and the first thing that caught his eye was the bank's giant logo on the floor right at the entrance.

The ceiling was two stories high with golden chandeliers hanging down every dozen yards.

Every few feet white stone floor to ceiling columns ran down the center of the bank in two rows as golden urns containing plants sat at the base of each.

Right in the center of the hall was a large glass screened room where bankers worked while a reception desk stood between this room and the main entrance.

Grand staircases leading both up and down were on both sides of the hall as well as at the far end.

Stained Glass windows allow light to enter from the outside on either side of the hall while at the far end a large window looks down on the hall floor and you could see a person sitting at a desk with their back to the window.

Bank staff rushed around the hall and up and down the stairs busy with their work while patrons moved calmly about.

[Sparesomechangebro (Earth): Damn you picked a nice bank to rob, unlike me.]

[Noobkiller9000 (Earth): For sure, it is one high class looking bank.]

[AlamoMatador4thewin (Earth): Good it's not my bank, it's too high class.]

[Whostolemyduck (Earth): It's the Hopkins bank, one of the most elite and well respected banking chains in the world.]

[StealthAssassin9 (Earth): How do you know, are you a rich boy?]

[Whostolemyduck (Earth): I saw the name above the door before the streamer entered.]

[StealthAssassin9 (Earth): Oh.]

Adam walked calmly up to the reception desk and approached a well dressed man who gave him an odd look because of his clothing before adopting a professional demeanor and greeting him.

"Welcome to the Hopkins Bank sir, how may I assist you today."

"I would like to access my safety deposit box please." Adam replied.

[Noobkiller9000 (Earth): Bro's going straight through the front door.]

[StealthAssassin9 (Earth): This will never work.]

[Superior4horns (Vinox 3): I wonder what sort of security planet Earth uses for their banks.]

"Of course sir, I will first need your name to pull up your details."

"Sarah Sanders," Adam replied.

[AlamoMatador4thewin (Earth): Huh why didn't I hear the name?]

[1000yearsofdeath (Earth): Bro I think you stream lagged, has super high tech but can't afford decent internet kekeke.]

[Superhearofangirl (Earth): I didn't hear it either, the staff member must have heard something though because he made a strange face before he started working on his computer.]

[Whostolemyduck (Earth): Is this part of the precautions he said he had in place before?]

[Handsome3horns (Vinox 2): Interesting, I didn't know streams could do this, did you prestigious and the lesser four horns?]

[Prestigious3horns (Vinox 2): No I had no idea, but you know what the streamers here are like, they all fake so they probably don't know if there is a setting to do that.]

[Superior4horns (Vinox 3): Lesser four horns?]

"One moment please." The staff member said with slight surprise as hearing a man's voice for a woman's name, however he decided it was best not to comment and accessed his computer to check.

After a moment the staff member found the file before turning to address Adam.

"Ah here we are, down the stairs at the back of the hall, second door on the left."

"Thank you." Adam replied before heading towards the stairs.

[Gunlovergirl (Earth): Wait, are they not supposed to check his ID?]

[AlamoMatador4thewin (Earth): No, that was more of a check procedure and to get directions if necessary, the ID check is done at a security station outside the safety deposit box area.]

Adam proceeded towards the stairs at the rear of the hall, as he passed all the guards paid extra attention to him since he was still wearing his hood up and a couple even decided to follow him.

Adam however did not seem concerned and just started heading down the grand staircase.

[Superhearofangirl (Earth): Why are they following him?]

[AlamoMatador4thewin (Earth): Most likely because he has his hood up, it's pretty suspicious wearing a hood up in a bank after all.]

[1000yearsofdeath (Earth): Well he could always lower it and get caught on CCTV kekeke.]

[Noobkiller9000 (Earth): Wait, is that a walkthrough weapons detector at the bottom of the stairs?]

[Gunlovergirl (Earth): Oh shit his blaster will get detected.]

[SciFifanboy (Earth): Nooo my blaster.]

[1000yearsofdeath (Earth): Kekeke]

[Prestigious3horns (Vinox 2): How do Earth weapons detectors work?]

[Whostolemyduck (Earth): It depends on the weapon detector in question, however that one looks highly advanced. Basically it's like an xray scanner that scans the person's body and will look for shapes that could be concealed weapons.]

[Handsome3horns (Vinox 2): Fuck he's screwed.]

As Adam reached the bottom of the stairs he passed calmly through the weapons detector without it going off and carried on at his leisurely pace.

[Justiceistruth: (Earth): What he made it through?]

[Noobkiller9000 (Earth): Maybe he didn't bring his blaster?]

[SciFifanboy (Earth): Nooo my blaster.]

[1000yearsofdeath (Earth): Damn he made it through, I wanted him to get caught kekeke.]

Adam headed towards the second door on the left like instructed and entered into a long room that had a safe at the very end guarded by men with automatic weapons.

Along either side of the long room were man doors and right at the front of the room he now stood before a security booth.

"Good day sir, The name of the safety deposit box is under please?" Asked the staff member meaning the desk while two guards on either side watched him suspiciously.

"Sarah Sanders," Adam said calmly.

"One of the guards gave him a strange look after he spoke, however the other guards and staff member working at the desk appeared to be more professional and well trained because they didn't react except to check the computer."

[StealthAssassin9 (Earth): Didn't hear the name again, the stream definitely seems to be blocking us from hearing the name on purpose.]

"Ah yes box eleven thousand and ninety three." The staff member said before continuing.

"We just have to do the normal security checks of biometrics and retinal."

[Justiceistruth: (Earth): Oh damn what not?]

[1000yearsofdeath (Earth): They got him this time kekeke.]

[Superior4horns (Vinox 3): I wonder what he will do here, there is technology available to trick biometrics and retinal scanners in our galaxy which is why extra security is in place here. However I don't know if he has them on your planet.]

Adam nodded before moving his hand towards the biometrics scanner while the viewers watched with excitement.
