Chapter 20: Viewer banned

A giant spaceship travelled through space at a speed greater than the speed of light as stars of light seemed to fly past it before disappearing behind.

Tessa Terrana or as she is known outside the palace and in the military Tessa Kirkmeld stepped out of the bathroom in her quarters on the ship with a towel tied around her sexy body as she finished drying her hair.

She walked over and sat on her bed letting out a sigh of relief as she had just finished a night shift on the bridge.

Her cabin mate lay on her own bed as she grumbled, "when's he going to stream again, I hope it's not when I'm on duty my shift starts in six hours."

"Don't tell me you're actually interested in someone streaming Becky, I mean everyone knows that those streamers are all fake and they only do it for attention from the foolish." Tessa said as she continued to dry her hair.

"That's what I used to believe as well Tess and it's mostly true, however yesterday I found an article about a streamer from a planet called Earth that caught my interest." Becky replied.

"Earth? Never heard of it." Tess replied as she finished drying her normally blonde hair that was now black while her green eyes had turned purple.

She relaxed on her own bed and opened a holographic display in front of her using her uniband, planning to send her mother a message as she promised.

"No one has, that's the strange thing and get this the planet is not part of the universal subspace network." Becky replied excitedly.

"Huh?" Tessa replied with confusion while turning to her friend and cabin mate. "How can you watch a stream from a planet that's not connected?"

"No idea and no one else seems to know, the stream also has viewers from Earth who originally thought the streamer was playing a game."

"What? How can they make such a stupid mistake?"

"It seems this Earth is not very technologically advanced as they have not even managed space exploration yet. However the streamer seems more advanced than even us who are in the military which is strange."

"How so?" Tessa asked with interest.

"Well for starters he seems to carry a Phalanx Mk2 the pistol that most police forces favour, however his is capable of shooting a disintegration shot."

"What!" Tessa said with surprise.

"I know right and then there's his uniband, it's somehow able to grow additional limbs or something that can turn into keys or access cables."

"That's strange, show me a vod and let me see." Tessa demanded as she moved to lie next to Becky.

"I can't show you a vod, for some reason the streamer has chosen not to allow vod recording, instead we will have to find a clip on Xer-verse or something." Becky replied as she used her uniband to search through Xer-verse before she found clips from Adam's stream.

"Project Spector." Tessa mumbled, "sounds like a research project or something."

As she watched the clips from Adam's stream she frowned at the level of technology he was using, it was more advanced than even the TISF which concerned her slightly.

While the Terran race was not the most advanced in the universe, they also weren't weak either as they were a part of the universal senate.

She figured it was probably best to notify her father about this so that he could conduct his own investigation so she moved back to her bed to send a message.

"Done already?" Becky asked with a pout.

"One moment I just need to message my parents, I told you how my mother insists on it." Tessa replied

"Oh, ok." Becky replied with a smile before she suddenly sat up straight and said, "Yes he started another stream."

"What?" Tessa asked in surprise and she quickly finished the message to her parents about investigating this streamer before joining Becky on her bed again to watch the stream.

Adam stood looking at the Blue Lagoon club from across one of the busy roads it interested and observed as many beautiful and expensive cars arrived and deposited their owners who entered the club.

He had been standing there watching people enter for a few hours now and was even there to witness James Flemming's arrival. Finally he decided that at least one person from each of the five families should be present.

"Ok lets go." He said as he started to cross the road towards the club.

[Affirmative. Launching stream.]

[[Stream description below:]]

[[Stream Title: Spector's Revenge: Target 3 and negotiations]]

[[Mission Parameters: The military's purpose is to defend its citizens not harm them. A captain in the country's military has harmed and killed many citizens even though he saw to protect and defend them.]]

[[Missions Goal: Eliminate the captain.]]

As always as soon as the stream started foreverfirst appeared.

[Forever1stCommenter (Earth): First]

"Haha, you really are always first." Adam said with a chuckle as he continued to move.

[Forever1stCommenter (Earth): Thumbs up emoji]

[Noobkiller9000 (Earth): Oh damn a military captain this time.]

[Whostolemyduck (Earth): But what's this about negotiations?]

[Prestigious3horns (Vinox 2): The military should be held to a high standard, that is something common among all races in the universe.]

[Superior4horns (Vinox 3): Agreed.]

[Gunlovergirl (Earth): If he's from the military he is probably armed with either a Sig Sauer P320-M17 or a Sig P320-M18.]

[StealthAssassin9 (Earth): This girl really does love her guns.]

[Sparesomechangebro (Earth): That building looks expensive, grab me some change bro.]

[AlamoMatador4thewin (Earth): That's the Blue Lagoon club.]

[Whostolemyduck (Earth): You know it?]

[AlamoMatador4thewin (Earth): Yeah, though I have never been there, it's too high class for me.]

[Celebrityhunter69 (Earth): It's on the celebrity news that Jason Flemming is holding his twenty-first birthday there tonight.]

[Puntanghunter69 (Earth): I smell it, I smell the putang.]

[1000yearsofdeath (Earth): You know your name could be misinterpreted kekeke.]

[Celebrityhunter69 (Earth): Who says I didn'tt do that on purpose and fuck you putang.]

[1000yearsofdeath (Earth): Fair.]

[Beczontop (Imperial Down): Show us more of that strange tech streamer.]

[Puntanghunter69 (Earth): I smell it, I smell the putang.]

[Superhearofangirl (Earth): For god's sake streamer can we ban this guy already?]

"Spector." Adam said simply.

[Affirmative.]

[Moderator Spector has banned Puntanghunter69 (Earth) for 24 hours with the warning: "Stop with the sexual abuse or next time its a perma ban.]

[Justiceistruth: (Earth): Damn now that's justice.]

[Superhearofangirl (Earth): That's Oracle for you.]

[Noobkiller9000 (Earth): So Spector is also the administrator, this is getting way to confusing.]

[Whostolemyduck (Earth): Agreed, we might need to give the streamer a nickname as right now we are just calling him streamer.]

[Beinglittleisnotadisadvantage (Strathorp 7): Imperial Down, isn't that a Terran warship?]

[Tessisdabest (Imperial Down): It's a Terran Imperial Space Force Cruiser.]

[Handsome3horns (Vinox 2): Right the TISF.]

[SciFifanboy (Earth): That's so SciFi, I want to go on a spaceship.]

[SciFifanboy (Earth): Also isn't Terran another name for Earth humans in literature.]

[Tessisdabest (Imperial Down): What?]

[Whostolemyduck (Earth): He's right, in some of Earth's literature normally stories based in space humans from Earth are called Terran's.]

[Prestigious3horns (Vinox 2): Wow, talk about a coincidence.]

[Handsome3horns (Vinox 2): Maybe the universe is not so big after all.]

[Superior4horns (Vinox 3): Shut up idiot, the universe is incalculable, how can you claim it's 'not so big']

[Noobkiller9000 (Earth): We are getting off topic @celebrityhunter69 you said something about Jason Flemming's birthday?]

[Celebrityhunter69 (Earth): Yeah it's his twenty-first birthday and the news says he has hired out the entire VIP area for him and his guests to celebrate.]

[Sparesomechangebro (Earth): Man I bet I could pick up some change there.]

[Beczontop (Imperial Down): A party sounds interesting, I wonder what music they have on Earth.]

[Prestigious3horns (Vinox 2): We're about to find out.]

As the chat talked Adam had made it to the driveway of the Blue Lagoon, however instead of going through the front entrance he headed for the underground carpark.

[1000yearsofdeath (Earth): Can't pull off the front entrance twice in two streams? Kekeke.]

Once inside the car park Adam looked around admiring all the expensive looking cars along with the chat.

[Justiceistruth: (Earth): Damn that's the new Ferrari 12 Cilindri Spider.]

[Noobkiller9000 (Earth): That's the new Aston Martin Vanquish.]

[Whostolemyduck (Earth): Dude the McLaren W1.]

[Superhearofangirl (Earth): Bugatti Tourbillon, not that's a superhero secret identity car.]

[AlamoMatador4thewin (Earth): That orange one over there is the Lamborghini Revuelto.]

[Prestigious3horns (Vinox 2): They're sure getting hyped up.]

[Superior4horns (Vinox 3): I guess maybe it's a statement to show how wealthy you are, so maybe they have never seen them before since most people who watch streams are not overly rich.]

[Prestigious3horns (Vinox 2): True.]

[Beczontop (Imperial Down): Some of them do look nice though, I wonder if hover car manufactures could use their designs.]

[Beinglittleisnotadisadvantage (Strathorp 7): Hmmm that's not a bad idea actually.]

As the chat admired the cars Adam saw what he was looking for and headed towards the elevator that only staff used.
