Chapter 260: Sounds like Beczontop

[Forever1stCommenter (Earth): First.]

[Animefangirl (Earth): Is that a Kitsune? Oh my god, that's so Anime.][Prestigious3horns (Vinox 2): Kitsune?]

[Whostolemyduck (Earth): Kitsune is a name given to foxgirls, basically women with ears and tails like that woman sitting on the chair.]

[Noobkiller9000 (Earth): Looks like we have another Earth viewer joining us, this time an anime fan girl.]

[Animefangirl (Earth): That's because Anime is love, Anime is life.]

[1000yearsofdeath (Earth): Is this another SciFifanboy on Anime instead of SciFi and Girl instead of boy? Kekeke.]

[SciFifanboy (Earth): ...]

[DeverinianLordMalacoss (Deverinian 9): I was watching The MMM Show and was shocked when this stream suddenly appeared on it. I wonder how the streamer managed to pull that off.]

"Why did you suddenly show the stream on The MMM Show?" Adam asked as he reached the bridge and sat down in his usual seat.

"To help build your image and reputation, like Diva Rowena said earlier," Spector replied.

"Does that mean you plan to allow more viewers into the stream?"

"No, for the time being, viewers will continue to trickle in as a way to make you seem mysterious and to maintain people's interest in you."

As Adam sat down and activated his console, the viewscreen activated to show the space before them and the ship that was flying past and firing its energy weapons at Spector.”

“Tactical analysis?” Adam asked.

“Minimal to no threat level,” Spector responded.

“Why are they even attacking us then?” Adam wondered aloud before saying, “Hail them.”

“Affirmative,” Spector responded before a familiar female appeared on the view screen, saying angrily.

“Can’t you just die already so we can be together?”

“Aren't you a Sirinian? Why are you even attacking us?” Adam asked in a confused tone.

“So that I can be with my love, so just die already, die, die, die, die, die.” The Sirinian woman said with a crazy expression.

[Justiceistruth (Earth): Oh gods, she's psycho.]

[Handsome3horns (Vinox 2): That look on her face is freaky.]

[AlamoMatador4thewin (Earth): Yeah, it looks a lot like one of those possessive women you see in some anime.]

[Animefangirl (Earth): You mean Yandere.]

[AlamoMatador4thewin (Earth): That’s the one.]

[DeverinianLordMalacoss (Deverinian 9): What's Yandere?]

[Animefangirl (Earth): It's a term to describe an exceptionally jealous and possessive type of man or woman. They often won't let you out of their sights and have crazy stalker tendencies.]

[1000yearsofdeath (Earth): Sounds like Beczontop. Kekeke]

[Beczontop (Imperial Down): I take that as a compliment. Kekeke.]

[1000yearsofdeath (Earth): ...]

[Tessisdabest (Imperial Down): 😊⇒]

"Is it just me, or does she look familiar?" Rowena asked as the girls watched the stream from the mess hall.

"That's Dolila!" Lorelie said in surprise.

"You recognise her?" Stacey asked.

"She's a water sphere player, she is part of the Oasis Fangs team and played during their recent match against the Oceana Abes," Lorelie explained.

"The same match that Murphy played rubbish, and there was that suspicious substitution that the Abes are being investigated over?" Rowena asked.

"That's the one," Lorelie confirmed.

"Why would a water sphere player attack a ship carrying Diva Lorelie, who is an avid fan of the sport? Sure, Dolila is a Sirinian and not a Merinmian, but still." Malgath asked curiously as he heard the women's conversation, as he continued to watch the stream.

“She looks kinda crazy,” Eri commented as she saw the look on Dolila’s face.

“I have to agree with Eri in this regard; there is definitely something mentally wrong with that woman,” Kasumi stated.

[Justiceistruth (Earth): See, even the show's guests think she cra cra.]

[Gunlovergirl (Earth): We never argued that point, idiot; everyone can see she’s crazy.]

“Be with your love? Who’s your love, and how does killing us let you be together?” Adam asked in a bewildered tone.

“Pherise, my darling Pherise. Just you wait because as soon as I kill Lorelie, you will take her place as Diva, and then we can be together.” Dolila said with a warped smile as she kept firing her ship’s weapons at Spector.

[Superior4horns (Vinox 3): She seriously thinks that she can get with Pherise by killing Diva Lorelie?]

[DeverinianLordMalacoss (Deverinian 9): Poor girls clearly deranged.]

“Yup, the girls lost it,” Stacey commented.

“So she’s a Pherise fan? That’s not really surprising since they’re both Sirinians, but why would she believe that killing Diva Lorelie would mean she can be together with Pherise?” Eri asked in confusion.

“Pherise longs to become a Diva, and before Diva Lorelie released her new genre of music, she was the one most expected to replace her as Diva.

She must believe that she is giving Pherise what she longs for most or something.” Malgath replied.

“If Pherise was so close to replacing Diva Lorelie as a Diva, why did Drotas Entertainment even try to get rid of her?” Kasumi asked.

“Only Drotas Entertainment itself can answer that, unfortunately, they are playing dumb about the whole situation while the Gobli government protects them,” Malgath explained.

“What makes you think that Pherise will want to be with you after you kill Diva Lorelie? She might not even like murderers.” Adam asked.

“SHUT UP, LIAR, LIAR, LIAR, LIAR, LIAR,” Dolila screamed maniacally.

[Noobkiller9000 (Earth): Fuck, I need to turn down the volume.]

[AlamoMatador4thewin (Earth): This crazy bitch sure can scream.]

“They told me we would be together; they promised me we would be together.

Once I kill that virgin diva Pherise, and I will be together, and she will eat my wet pussy every night.”

[AlamoMatador4thewin (Earth): Whoa TMI.]

[StealthAssassin9 (Earth): She knows this is being streamed right.]

[Whostolemyduck (Earth): I doubt it, though from her mental state, I’m not sure she cares.]

[Phoenixempress (Fenix Nest): What on Fenix Nest did I just walk in on?]

[DeverinianLordMalacoss (Deverinian 9): You're a bit late to the stream, Empress Revi.]

[Phoenixempress (Fenix Nest): Unfortunately, I had matters of state I was attending to when he went live. I'm sure you, of all people, can relate, Lord Malacoss.]

[DeverinianLordMalacoss (Deverinian 9): Indeed, I can.]

"My apologies, viewers, we were not expecting and don't endorse such language on The MMM Show." Malgath apologised.

"Hehe, she says she wants to make Pherise a Diva, but if she keeps talking like this when she's live on The MMM Show, she's more likely to lessen the chances of Pherise ever being a Diva," Kasumi said with a giggle.

[Phoenixempress (Fenix Nest): Wait, Malgath? What's he doing on the stream?]

[DeverinianLordMalacoss (Deverinian 9): Apparently, your matters of state didn't let you watch The MMM Show either, the streams being sent to it live?]

[Phoenixempress (Fenix Nest): Is it really?]

"Look, give it up, your ship is no match for mine. You have been firing your lasers at me for several minutes now, and you're not even draining my shields." Adam remarked.

"LIAR, LIAR, LIAR, LIAR. You're lying, I bet your shields are almost drowned, and soon I will be penetrating you."

"No offence, but you're the last person I want penetrating me," Adam replied with a disgusted expression.

[OfficialMuriel (Aqua Primus): Damn straight, don't touch crazies, streamer.]

[MercheadAnderson (Palaxia): Oh man, I'm going to have nightmares about that crazy bitch penetrating me now.]

[Lizziethetruepower (Palaxia): It's the only penetration you're likely to get anytime soon. 🤩]

[MercheadAnderson (Palaxia): Noooo, babe, I'm sorry, I didn't mean it.]

[Lizziethetruepower (Palaxia): Yeah, right, maybe I should let Adam penetrate me to teach you a lesson.]

[MercheadAnderson (Palaxia): Nooooo 🤩]

[1000yearsofdeath (Earth): Cuckold husband much. Kekeke]

[Phoenixempress (Fenix Nest): Cuckold husband?]

[Whostolemyduck (Earth): It's where the husband is married to an adulterous wife, and oftentimes he is forced to watch as another man fucks her in front of him.]

[Lizziethetruepower (Palaxia): Ohhh, I like the sound of that.]

[MercheadAnderson (Palaxia): 🤩🤩🤩]

"This is your last chance. Stop attacking me, or I will turn you into space dust. The only reason I haven't so far is because I can see that you're mentally unstable and need help."

"Help? HELP? The only help I need is for you all to die. So die virgin diva Lorelie, HAHAHAAAAAAAA."

As Dolila laughed crazily, her ship suddenly fired all its energy weapons and launched several dozen missiles.

[CEOHopkins (Earth): Oh my, that's a lot of missiles, what did I just stumble into?]

[1000yearsofdeath (Earth): The crazy just blew her load in one go. Kekeke.]

[DeverinianLordMalacoss (Deverinian 9): Now it's getting entertaining.]

[Animefangirl (Earth): Show us the Kitsune again.]

[Superior4horns (Vinox 3): Shizumi isn't a Kitsune; her race is called Nogitsune.]

"Oh my, can the ship of Diva Lorelie's boyfriend defend against such an attack?" Malgath said in mock concern to build up tension.

"I don't think there's anything to worry about," Kasumi remarked with a smile.

"What makes you say that, Kasumi?" Malgath asked.

"Because neither Diva Lorelie nor Diva Rowena look concerned in the slightest."

"That's right, you don't think someone capable of capturing Diva Lorelie's heart is simple, do you?" Eri added.

"Seriously, if a group of TISF ships couldn't touch this ship, what chance does one ship piloted by a water sphere player have?" Rowena remarked with absolute confidence.

"Honestly, this battle will be over in a few moments. You should probably get back to your interview," Stacey remarked from off-screen.
