Chapter 349: City Defence starts

[HackerSu (Trillion): I guess it's my turn for a little fun.]

[[Notification: [HackerSu (Trillion): Has initiated a stream betting pool]]

[[Stream betting pool: Which mech will win the charity match?]]

[[Winnings Breakdown: 1st Place: 80%]]

[[HackerSu: 10%]]

[[Streamer 10%]]

[[Available choices:]]

[[Speed Stone]]

[[Spector Unit 6]]

[[Black Prime]]

[[Excess Surplus]]

[[Only one bet can be made by each viewer]]

[Handsome3horns (Vinox 2): Oh, now where talking, it's gotta be Speed Stone baby, no one can match that seed.]

[MertheadAnderson (Palaxia): Agreed, the faster they are, the faster they kill.]

[HackerSu (Trillion): I'm of course going with the streamer.]

[Lizziethetruepower (Palaxia): Agreed, also going with the streamer.]

[Beinglittleisnotadisadvantage (Strathorp 7): I don't think the streamer has shown us everything he has to offer yet, so I'm also going with him.]

[[Notification: Because all viewers capable of placing a bet have done so, the percentage of viewers that bet on each mech will be displayed below.]]

[[Speed Stone: 15%]]

[[Spector Unit 6: 80%]]

[[Black Prime: 5%]]

[[Excess Surplus: 30%]]

[Handsome3horns (Vinox 2): WTF, who bet on Prime to win?]

[DeverinianLordMalacoss (Deverinian 9): That would be me?]

[LadyErkath (Deverinian Prime): Are you betraying the chat, Malacoss? 🤔]

[DeverinianLordMalacoss (Deverinian 9): Not at all, I just always like to bet on a sure thing. Now that we suspect that Prime has somehow gotten the plans to the match after his performance in the first stage, I think he has the highest chance of winning the charity match.]

[Phoenixempress (Fenix Nest): So you are a traitor. 😏]

[DeverinianLordMalacoss (Deverinian 9): No, I'm just making the logical choice using the facts available.]

[HackerSu (Trillion): I can see the logic, but I don't like it.]

[1000yearsofdeath (Earth): 🗿 The streamer officially has a traitor in his chat, quickly, moderator, ban him. Kekeke.]

[Noobkiller9000 (Earth): This isn't a banable offence, idiot.]

[Handsome3horns (Vinox 2): Tell that to Prime. 🗿 ]

[Gunlovergirl (Earth): I'm so fucking jealous that I can't bet on my man, isn't there a way we can fix this?]

[Phoenixempress (Fenix Nest): While this is fun and interesting, and I'm having fun teasing Malacoss over his little mistake before and now that he is proving himself to be a traitor. 🗿 Might I remind you all that the time is about to his 0.]

[DeverinianLordMalacoss (Deverinian 9): ...]

[Gunlovergirl (Earth): Oh, good call, Phoenix Empress.]

[[Time remaining until start of match: 00:06.]]

“And the second stage of the match, the city defence is about to begin, viewers,” Honcho said excitedly.

[[Time remaining until start of match: 00:03.]]

[[Time remaining until start of match: 00:02.]]

[[Time remaining until start of match: 00:01.]]

[[Time remaining until start of match: 00:00.]]

[[Simulated damage mode changed to holographic reproduction damage mode.]]

[[City Defense begins.]]

“And they're off,” Honcho said as the four mechs flew off in different directions.

“The simulated damage mode changed,” Dulaebella stated with interest.

“Is that surprising?” Raella asked.

“Kind of. They always do holographic reproduction damage in other city defence matches that have appeared as part of the charity match after all, I guess they replicated that here to enhance the excitement of the match. Also, this way, the mech's actual weapon fire and damage is replicated like in real life instead of being just weak training lasers,” Dulaebella explained.

“I see that will definitely make the match more interesting and exciting.” Raella acknowledged.

Speed Stone, which was a black and white slimline mech with yellow highlights and six wings with thrusters, was unsurprisingly the first to reach some of the undead alien invaders, and after quickly pulling out a blaster from a hidden compartment in each leg, Speed Stone started to rapidly fire off blaster bolts that tore through the invaders.

[[Speed Stone Points: 0(+1)]]

[[Speed Stone Points: 1(+1)]]

[[Speed Stone Points: 2(+1)]]

[[Speed Stone Points: 3(+1)]]

[[Speed Stone Points: 4(+1)]]

[[Speed Stone Points: 5(+1)]]

[[Speed Stone Points: 6(+1)]]

“And Speed Stone is the first to gain some points on the scoreboard; it looks like the basic undead alien footsoldiers are worth one point each, as Speed Stone quickly just eliminated seven of them as their points have reached seven,” Honcho reported.

“It looks like Spector Unit Six is the next to enter action,” Raella remarked as the feed switched and showed Spector Unit 6 open fire at the zombie alien with its four shoulder cannons and two mini triple repeaters.

[[Spector Unit 6 Points: 0(+1)]]

[[Spector Unit 6 Points: 1(+1)]]

[[Spector Unit 6 Points: 2(+1)]]

[[Spector Unit 6 Points: 3(+1)]]

[[Spector Unit 6 Points: 4(+1)]]

[[Spector Unit 6 Points: 5(+1)]]

[Gunlovergirl (Earth): Oh yeah, here we go, finally, so good action with proper weapons fire.... Even if it is holographic.]

[Celebrityhunter69 (Earth): Yeah, streamer, fuck those zombie aliens up.]

[Superior4horns (Vinox 3): Zombie aliens? What's a zombie?]

[Noobkiller9000 (Earth): They are a type of mythological undead creature that are generally depicted as skin and bones, like those mobs the streamer is fighting.]

[Superior4horns (Vinox 3): Ah, gotcha, we call them undead aliens.]

[RealOtaku (Earth): Normally, there are trash mobs in games because they're slow and you can one-hit kill them with white or healing magic. These look more interesting though, since they're on those flying motorbikes.]

[[Excess Surplus Points: 0(+1)]]

[[Excess Surplus Points: 1(+1)]]

[[Excess Surplus Points: 2(+1)]]

[[Excess Surplus Points: 3(+1)]]

[[Excess Surplus Points: 4(+1)]]

“And Excess Surplus is the next competitor to enter the fray as it uses its high-powered blaster rifle to tear through the undead alien invaders, “Honcho announced as the feed switched to show a large, bulky black mech with red highlights and triangular wings with thrusters that carried a large blaster rifle in one hand and some kind of shield in the other.

“Wait, is Black Prime already deploying the drones?” Dulaebella suddenly said as the feed switched to show six drones deploying from Black Prime, which flew off and began attacking the zombie undead along with the shoulder cannons and wrist-mounted mini triple repeaters.

[[Black Prime Points: 0(+1)]]

[[Black Prime Points: 1(+1)]]

[[Black Prime Points: 2(+1)]]

[[Black Prime Points: 3(+1)]]

[[Black Prime Points: 4(+1)]]

[[Black Prime Points: 5(+1)]]

[[Black Prime Points: 6(+1)]]

[[Black Prime Points: 7(+1)]]

[[Black Prime Points: 8(+1)]]

[[Black Prime Points: 9(+1)]]

[... Heck yeah, Prime, that’s what I’m talking about.]

[... Damn, that’s cool. Prime is setting a new record for the number of drones on a Black Knight replica.]

[... Six mini Prime's, I think I might die from happiness.]

[... I want to give Prime Six babies.]

[... Use those 'SIX' drones to win it all, Prime.]

“HAHAHAHAHA, Are you all impressed yet? You've never seen six drones at once, have you?  
HAHAHAHAHAHA.”

[Animefangirl (Earth): OMG, that's so Anime.]

[RealOtaku (Earth): That is so awesome, dude, I thought that was only something seen in anime. 🤩]

[SciFifanboy (Earth): Now things are getting Sci-Fi.]

[Noobkiller9000 (Earth): This is totally heating up.]

[Beinglittleisnotadisadvantage (Strathorp 7): Six Drones! 🤩 That Black Knight replica is impressive.]

[Phoenixempress (Fenix Nest): Meh, it's nothing like the original.]

[Devil\_Prince\_Asura (Deverinian 9): No mech has ever been as good as the original.]

[Phoenixempress (Fenix Nest): Exactly. 😊]

“Oh wow, Black Prime actually has six drones,” Dulaebella said with surprise before continuing, “The most drones we have seen from a Black Knight replica in the past is four, so this is a new record. Whoever built this replica is an impressive mech mechanic.”

“What about Spector Unit Six then?” Honcho asked before continuing, “You were complimenting it on how it was so similar to the true Black Knight earlier, so do you think we can expect to see six drones on it as well, or possibly even more?”

“Even though I would like to say yes, I am not so sure because I wasn’t expecting to see any mech capable of using six drones simultaneously in the charity match,” Dulaebella replied as everyone continued to watch the six drones fly around, firing off blaster bolts at the zombie aliens.

[[Black Prime Points: 10(+1)]]

[[Black Prime Points: 11(+1)]]

[[Black Prime Points: 12(+1)]]

[[Black Prime Points: 13(+1)]]

“Black Prime’s points are skyrocketing, and he has now overtaken Speed Stone and taken over first place in the points leaderboard,” Honcho said as a partially see-through points leaderboard suddenly appeared in the top-right corner of all the holographic screens watching the match.

[[Points Laderboard]]

[[Black Prime: 15]]

[[Speed Stone: 13]]

[[Spector Unit 6: 9]]

[[Excess Surplus: 7]]

[Handsome3horns (Vinox 2): Damn, those drones are making all the difference, aren't they?]

[Superior4horns (Vinox 3): What did you expect? It's like having six extra weapons.]

[Beinglittleisnotadisadvantage (Strathorp 7): It's not just like having six extra weapons, Black Prime does have six extra weapons.]

[Superhearofangirl (Earth): So does the streamer have those drone things on his replica of this Black Knight?]

[HackerSu (Trillion): Most likely. Other than the planetary annihilation beam, which no one has been able to replicate on a mech, it's the signature ability that the Black Knight used during the Siege of Fenix Nest.]

[Gunlovergirl (Earth): Come on, streamer, show us your drones, please.🙏🙏]

[Emojisonly (Earth): 🙏🙏]
