Chapter 431:

[Superhearofangirl (Earth): What moon is that and why is the streamers' ship suddenly orbiting it?]

[StealthAssassin9 (Earth): Maybe he's going to pay the Noir Family a visit after all and is starting the stream from Felinia Six's moon.]

[Gunlovergirl (Earth): That doesn't make sense. The Noir Family haven't done anything to him since he gave the warning.]

"Where are we?" Adam asked.

[Celebrityhunter69 (Earth): That's what we want to know.]

[StealthAssassin9 (Earth): You're in orbit around a moon streamer.]

[Gunlovergirl (Earth): No shit, Sherlock, it's so nice of you to inform him of the obvious.]

[StealthAssassin9 (Earth): What? He doesn't have a window near him that he can look out of.]

[Superior4horns (Vinox 3): Do you have any idea how many moons there are in the universe? Do you think maybe you could narrow it down a bit?]

"Temporal analysis complete. We have travelled back in time to the universal year, thirty-two twenty-nine and are currently in sector three, orbiting the third moon of Darah Five." Spector replied.

"Thirty-two twenty-nine?" Adam asked in surprise.

"Darah Five? The Brood homeworld? Why are we here?" Rowena asked, equally surprised.

[All of Chat: ...🤔]

[Whostolemyduck (Earth): Wait, they actually travelled through time and into the past?]

[Handsome3horns (Vinox 2): There's no way. Enough with this prank streamer, it's getting old.]

[Phoenixempres (Fenix Nest): It's no prank.]

[Handsome3horns (Vinox 2): Are you in on this, too, Empress Revi? You're supposed to be on our side as a viewer, not the streamer's side.]

[StealthAssassin9 (Earth): It must be because she's Tephe's godmother that she is helping the streamer with this prank.]

[Phoenixempres (Fenix Nest): Although I admit that I would help the streamer if he asked me. I am not helping him because THIS IS NOT A PRANK. THEY actually TRAVELED BACK IN TIME.]

[Handsome3horns (Vinox 2): Huh?]

[DeverinianLordMalacoss (Deverinian 9): Excuse me?]

[NonpareilRaphilia (Aaru): Come again?]

[Beinglittleisnotadisadvantage (Strathorp 7): Impossible, the Dwarfinian science directorate has determined that time travel is impossible.]

[Phoenixempres (Fenix Nest): The Dwarfinian science directorate has just been proven wrong.]

[OracleRomy (Elysium): Phoenixempres is correct.]

[NonpareilRaphilia (Aaru): Romy? You know what's going on?]

[OracleRomy (Elysium): Not exactly. But I can confirm that they have time-travelled since the streamer has already done it once before.]

[Noobkiller9000 (Earth): WHAT THE ACTUAL FUCK.]

[SciFifanboy (Earth): THAT'S SO SCI-FI, THEY FUCKING TIME-TRAVELED.]

[Animefangirl (Earth): THAT'S SO ANIME, THEY FUCKING TIME-TRAVELED.]

[RealOtaku (Earth): OMFG THAT'S AWESOME. Some viewers are about to get a serious headache from trying to understand.]

[Sparesomechangebro (Earth): Since you travelled back in time, use your knowledge of the future to make some money, then give me some bro.]

[Noobkiller9000 (Earth): That's... a genius idea.]

[Leonthemoneygiver (Earth): Yeah, bro.]

[Whostolemyduck (Earth): Shame he's from Earth, so he doesn't know the universe's history.]

[Sparesomechangebro (Earth): Shit.]

[OrangeeyedStace (Felinia 7): Babe? Why aren't you answering us?]

[Tessisdabest (Imperial Down): Is it just me that finds it strange that the streamer hasn't answered any of us yet? Especially his girlfriends.]

[OfficialLorelie (Oceana 7): No, it's not, something must be wrong.]

[OrangeeyedStace (Oceana 7): You're right, he wouldn't normally make us worry this much.]

[Beczontop (Imperial Down): Streamer, hey streamer. Answer us.]

"Did we really travel back in time eighteen years?" Rowena asked with a strange expression.

"It seems so," Adam replied before noticing Rowena's expression and asking, "Are you ok?"

"I just learned that I travelled back in time, how ok do you think I would be?" Rowena replied.

[Celebrityhunter69 (Earth): She has a point.]

[1000yearsofdeath (Earth): Yeah, streamer, don't be so insensitive. Kekeke.]

"You get used to it," Adam replied with a shrug.

[DeverinianLordMalacoss (Deverinian 9): Why did the way the streamer said that make it sound like he's travelled in time before?]

[NonpareilRaphilia (Aaru): I got the same impression. Did the streamer travel back in time with his ship Romy?]

[OracleRomy (Elysium): It's not my place to say more than I already have.]

[NonpareilRaphilia (Aaru): Oh, come on. You can't just leave us hanging like this. 😞]

[OfficialLorelie (Felinia 7): Oracle Andromeda, do you know why Adam isn't replying to us?]

[NonpareilRaphilia (Aaru): I'm afraid I don't. Sorry.]

"Is this really something you can get used to?" Rowena asked.

"I did," Adam replied before saying, "The others must be worried."

[1000yearsofdeath (Earth): Finally remembered about your girlfriends while out on your time travel date? Kekeke.]

[Gunlovergirl (Earth): I hope the streamer takes me on a time travel date in the future.]

[Justiceistruth (Earth): I'm almost scared to ask. But where and when would you like him to take you?]

[Gunlovergirl (Earth): Hiroshima, August 6th, 1945. 🗓️]

[Justiceistruth (Earth): Why am I not surprised? Crazy fucking girl. 😏👉]

[CEOHopkins (Earth): I'm having trouble believing that time travel actually exists.]

[Beinglittleisnotadisadvantage (Strathorp 7): You're not the only one.]

"You think?" Rowena replied before pulling up Adams' stream on her uniband to read the chat and see what the other girls were saying, when she noticed something was wrong and asked.

"Why isn't chat moving?"

[OrangeeyedStace (Oceana 7): Hmm?]

[OfficialAphrodite (Felinia 7): Hello?]

[OfficialAphrodite (Felinia 7): Testing?]

[OfficialAphrodite (Felinia 7): Adam, let's have sex.]

[OfficialAphrodite (Felinia 7): Sex, sex, sex.]

[All of Chat: ...]

[OfficialAphrodite (Felinia 7): Seems to be moving fine. 📺]

[LadyErkath (Deverinian Prime): Did you really have to test it in such a fashion?]

[OfficialAphrodite (Felinia 7): I just typed out the first things that came to mind.]

[LadyErkath (Deverinian Prime): Of course you did. 😏👉]

“It’s not moving because we’re in the past and they haven’t written the messages yet,” Adam explained.

“What?” Rowena asked.

[All of Chat: 📺]

“Spector, would you mind explaining since you're better at it?” Adam asked.

“Affirmative,” Spector replied before explaining.

“The messages from the viewers are not able to reach us because they are in the future. I can not guarantee this, but based on what happened last time, they are most likely still watching the stream. Because we are in the past, the stream is still going into the future as it always has, even though the time difference is now far greater.

However, the viewer's messages are from the future and are incapable of being viewed because they can't travel backwards to us in the past.”

[Beinglittleisnotadisadvantage (Strathorp 7): Ohhhh, I get it.]

[Handsome3horns (Vinox 2): You do? 🤔👉]

[Beinglittleisnotadisadvantage (Strathorp 7): When you type a message and send it, time passes before the other viewers see it, even if it appears to be instantaneous. Therefore, our messages are indeed travelling the wrong way through time to reach the streamer.]

[Handsome3horns (Vinox 2): So what you're saying is that no matter what we type, the streamer can't see our messages?]

[Beinglittleisnotadisadvantage (Strathorp 7): Basically.]

[1000yearsofdeath (Earth): So we can say whatever we want? Kekeke.]

[Gunlovergirl (Earth): Sure, if you don't mind getting perma-banned, idiot.]

[StealthAssassin9 (Earth): How will he know if he can't see the chat?]

[Gunlovergirl (Earth): Who says that he won't check the VOD when he returns to the present? Also, his girlfriends are seeing everything you're writing and they can just tell him.]

[1000yearsofdeath (Earth): ...]

[StealthAssassin9 (Earth): Oh shit. I forgot about that.]

“So we can’t see their messages, but they can watch and hear us?” Rowena asked.

“That’s correct,” Spector replied.

“Ok,” Rowena nodded before asking, “So how do we get back?”

“I’m currently trying to understand why the dark matter and scorpo blood reacted in the way they did, so that I can replicate what happened. Once that is done, I will then need to run probability tests in hopes of finding a way to reverse the effect and send us back to the correct time,” Spector replied.

“So what you're saying is that we are stuck here until you figure all that out?” Rowena asked.

“Affirmative,” Spector replied, causing Rowena to sigh.

[OfficialAphrodite (Felinia 7): Well, that sucks.]

[OfficialLorelie (Felinia 7): Agreed.]

“Are you not excited to be home?” Adam asked.

“Not really,” Rowena replied absentmindedly.

“Why not?” Adam asked.

“Because I was on Darah Five during this time,” Rowena replied.

“You were?” Adam asked in surprise.

“Yes. I lived at the Nosferatu estate with my former husband.... Stacey is also living here, with her parents.”

[OrangeeyedStace (Oceana 7): ...]

[HackerSu (Trillion): Ohhhh, little Stace. I want to see.]

[OfficialLorelie (Felinia 7): Me too.]

“Stacey?” Adam asked in surprise before asking, “She would be what, five right now?”

“That’s right,” Rowena replied with a sad look in her eyes.

“Then why do you look so sad? From what I know, this is the time when Stacey adored you the most,” Adam asked.

“Because of what happens to her this year..... No, I don’t want to talk about it,” Rowena said before she turned and walked away in the direction of the mess hall.

Adam watched her go with a look of confusion.

“Hey, we’re back,” Lorelie said as she, Aphrodite and Eri entered the suite.

“Welcome back,” Stacey replied as she stared absentmindedly at the large holographic screen on the wall showing the stream.

“Any change with Tephe?” Lorelie asked.

“No,” Stacey replied in the same tone.

“Hey,” Lorelie said as she placed a hand on Stacy's shoulder before asking, “You ok?”
