

## S.P.E.C.T.O.R 435

Chapter 435: Hair colour

“That’s not what I’m referring to,” Rowena replied before explaining, “I’m just trying to make sure you’re not going to try and prevent the attack.”

“Why wouldn’t I try to prevent my girlfriends from being attacked?” Adam asked angrily.

[OrangeeyedStace (Felinia 7): Aww, babe. 🥰]

[OfficialLorelie (Felinia 7): 🥰]

[OfficialAphrodite (Felinia 7): 🥰]

[Phoenixempress (Fenix Nest): Need I remind you, Diva Aprodte, that you're not one of his girlfriends?]

[OfficialAphrodite (Felinia 7): Not yet. 😏]

[Gunlovergirl (Earth): Oh, in that case, 🥰]

“Think about what will happen if you prevent the attack and it never takes place,” Rowena continued in desperation, “If you alter history, it may lead to events where you and Stacey never meet.”

Adam froze as he heard what Rowena said and considered her words carefully before he said, “If she never gets attacked, your relationship with her will never become strained, leading you to leave Darah Five and causing her to eventually run away and arrive on Palaxia, where I met her.”

“Exactly,” Rowena replied in relief that Adam finally understood her meaning.

[OrangeeyedStace (Felinia 7): Don’t even think of changing history so that we never meet.]

[AlamoMatador4thewin (Earth): Hold up, hold up, hold up, hold up. Are we actually discussing the fact that the streamer and Diva Rowena currently have the power to alter history?]

[Whostolemyduck (Earth): It is theoretically possible. If you went back in time and killed someone important's grandfather, let's say, for example, Handsome3horns. If his grandfather died before his father was conceived, that means his father would never conceive him and he would never be born.]

[Handsome3horns (Vinox 2): Hey! 😊]

[Superior4horns (Vinox 3): Ohhhh, I like this. Is there a way we can make this happen, please?]

[DeverinianLordMalacoss (Deverinian 9): I see. An interesting theory. But what would happen if the person travelling back in time killed their own grandfather? What would happen then?]

[Whostolemyduck (Earth): Then we have a time paradox. Theoretically, the person who went back in time should cease to exist since they were never born. But since they have already travelled back in time, would that actually happen?]

[DeverinianLordMalacoss (Deverinian 9): So what you're saying is you don't know?]

[Whostolemyduck (Earth): I think the only person who could answer that is someone who has travelled through time and killed their own grandfather. I'm afraid I don't know anyone who has done that.]

[1000yearsofdeath (Earth): Streamer you up. We need you to go back in time and kill your own grandfather so we can test this theory. Kekeke]

[Noobkiller9000 (Earth): Idiot. If he does that, then the streams will never happen.]

[Celebrityhunter69 (Earth): Also, he's an orphan who might not even know who his parents are, how's he supposed to know who his grandfather is, then stupid?]

[OfficialMuriel (Aqua Primus): RealOtaku is right, this topic can give you a headache. 🤔]

[RealOtaku (Earth): 😊]

“Ok, so we'll go observe the attack and see who did it so that I can kill them back in the present time. We can also observe how it is that Stacey survived the attack,” Adam stated after thinking for a moment.

“That’s all well and good, but I can’t go down there,” Rowena replied.

“Riggghhhhtttt, you're already down there, aren't you?” Adam said in understanding.

[SciFifanboy (Earth): Oh shit, is Diva Rowena going to meet Diva Rowena? That would be so Sci-fi.]

[OfficialAphrodite (Felinia 7): She’s not a diva at this time; however, too Rowena’s would be amazing. Just thinking about two of those asses. 🤔]

[SciFifanboy (Earth): Oh, oh. Maybe we will get a Time Cop scenario.]

[OracleRomy (Elysium): What’s a Time Cop scenario?]

[RealOtaku (Earth): You mean that 90s movie that depicted that if the exact same person touched themselves, they would cease to exist?]

[SciFifanboy (Earth): Right. Or, maybe this is like Terminator and Stacey is sending Adam back in time to save Stacey from the past?]

[RealOtaku (Earth): That was John Connor sending his father back in time to save his mother.]

[SciFifanboy (Earth): Same principle.]

[Superhearofangirl (Earth): You're having way too much fun with this SciFifanboy. Also, you're spoiling the movies for those that haven't seen them yet.]

[RealOtaku (Earth): Oh come on, who hasn't seen Terminator?]

[Superhearofangirl (Earth): Like half the chat. They're not from Earth, remember.]

[RealOtaku (Earth): Oh, right, my bad. Forget everything I just said.]

[NonpareilRaphilia (Aaru): Exactly how many movies involving time travel are there on your planet?]

[Whostolemyduck (Earth): Too many to count.]

“What if we change your appearance?” Adam suggested.

“What do you mean?” Rowena asked quizzically.

“Well, all pure Brood are known for their blood-red hair, right?” Adam asked.

“It is a defining trait of our race, yes,” Rowena replied before realising what he meant and asked, “You're suggesting I change my hair colour?”

“Well, your hair and eye colour. You're from a prestigious family, so no one will suspect your Rowena Nosferatu if we change your hair and eye colour to make it seem you're a different race. Also, we could do the Clark Kent effect.”

[Celebrityhunter69 (Earth): Ohhhh yeah. Do the Clark Kent effect. I soooo wanna see Diva Rowena in glasses.]

[LadyErkath (Deverinian Prime): Make sure to check out the pictures from the photoshoot they just did, then. 😊]

[Celebrityhunter69 (Earth): Seriously?]

[LadyErkath (Deverinian Prime): Well, technically, they're sunglasses.]

[Celebrityhunter69 (Earth): Awesome 📣..... Wait, I won't be able to check it out since I'm from Earth. 😞]

[LadyErkath (Deverinian Prime): Oh, good point. Hmmmm, Why don't I send them to Emma and she can forward them on to you?]

[Celebrityhunter69 (Earth): Really? Is that possible?]

[CEOHopkins (Earth): Sure, I can do that. I will message them to you on here.]

[Celebrityhunter69 (Earth): You two are the best.]

[Superhearofangirl (Earth): Hey, I want to see.]

[Noobkiller9000 (Earth): Same.]

[Puntanghunter69Ver2 (International Space Station): Diva Rowena in sunglasses? Yes, please.]

[Gunlovergirl (Earth): Me too.]

[The rest of the Earthlings in chat: Me too.]

[CEOHopkins (Earth): Ok, ok. I tell you what. Make sure to follow my social media and once I receive the photos from Erkath, I will post them for you all to see.]

[The rest of the Earthlings in chat: 🗣️]

“The what effect?” Rowena asked.

“It’s the phenomenon where adding or removing glasses can make it difficult for people to recognise a face, even a familiar one, due to how visual information is processed,” Adam explained.

“You mean that if I wear glasses, people won’t recognise me?” Rowena asked in a disbelieving voice.

“That’s the scope of it, plus if we change your hair and eye colour, it will make it even harder for people to recognise you,” Adam stated.

“I’m not sure if this will work, but we can try it,” Rowena replied before asking, “Do you even have hair colour tech? And what about the eyes?”

[Whostolemyduck (Earth): Hair colour tech? Is that tech that allows someone to change their hair colour?]

[Tessisdabest (Imperial Down): Correct.]

“Spector?” Adam asked.

“I do indeed carry tech capable of changing both the hair and eye colour,” Spector replied.

“Great,” Adam replied with a smile before saying, “Please provide us with the tech and also some suitable glasses for Rowena.”

“Affirmative.”

“Hang on, I’m not sure the glasses are a good idea,” Rowena remarked.

“Why?” Adam asked curiously.

“Nobody wears them, remember.”

“Oh, you're right,” Adam replied as he was suddenly reminded of that before saying, “Forget the glasses, Spector.”

“Affirmative,” Spector replied again and a few seconds later, they saw Spector Android walk into the mess hall before depositing a small object that looked like an earring on the table and then leaving again.

“How does it work?” Adam asked as he stared at the small earring.

“Rowena just needs to clip it onto her ear like a normal earring and then say what colour she wants her hair or eyes to be,” Spector explained.

“It's that easy?” Rowena replied with surprise.

[Tessidabest (Imperial Down): It's that simple?]

“Why are you surprised?” Adam asked.

“The hair colour tech I know needs a person to wash their hair with a special shampoo filled with nanobots at least once every three months. The person then controls the colour change using their uniband that they sync to the nanobots,” Rowena explained as she picked up the earring and studied it for a moment before clipping it on her ear.

“Let's see,” Rowena said as she thought for a moment before adding, “I have always loved Lorelie's hair colour, so let's go with that.”

As she finished speaking, she saw Adams' mouth open in surprise.

[SciFifanboy (Earth): OMFG. That was so Sci-Fi.]

[RealOtaku (Earth): Seriously, did you see how it changed?]

[OfficialLorelie (Felinia 7): Wow, my hair colour looks great on her.]

[AlamoMatador4thewin (Earth): She looks super hot.]

[Handsome3horns (Vinox 2): Agreed. Though I still prefer her with the blood-red hair.]

“What?” Rowena asked curiously.

“Spector, please show Rowena what she currently looks like,” Adam replied.

“Affirmative,” Spector replied before a holographic screen showing a Rowena who now had the same turquoise coloured hair as Lorelie.
