### Chapter 468: Misunderstanding through time

“This is the royal palace observer team. The target has just left the royal palace with her security detail and appears to be en route to Capital University as anticipated.”

“Understood, Observer one, we will make our move after the special presentation ends and everyone is leaving, the chaos will be an advantage for us.”

“Ugghhhh,” Adam groaned as he awoke to find himself lying on one of the sofas in the mess hall, while above him, he saw a pair of beautiful mounds.

“Finally awake, huh?” Rowena, who once again had black-hair, asked as she looked down over the mounds, which turned out to be her ample chest, while flashing her signature grin.

“Am I lying on your lap?” Adam asked, half asleep, before realising what he said and asking, “Why am I lying on your lap?”

[OrangeeyedStace (Felinia 7): Isn't that what we're supposed to be asking you? We come back from that stupid intermission screen to find you asleep on my grandmother's lap. 😏]

[OfficialLorelie (Felinia 7): While I'm also curious about what happened, I'm sure he has a good explanation.]

[OfficialAphrodite (Felinia 7): Fuck, I'm jealous right now.]

[Gunlovergirl (Earth): You're not the only one.]

[Superior4horns (Vinox 3): Did Diva Aphrodite just admit to being jealous?]

[NonpareilRaphilia (Aaru): It seems she's fallen hard. 😏]

[Handsome3horns (Vinox 2): For fucks sake, streamer. How do you manage to pull all these women?]

“Well, after what we just did and how fulfilled you made me feel, I figured you deserve a reward,” Rowena replied as her grin widened.

[OrangeeyedStace (Felinia 7): ...]

[OfficialLorelie (Felinia 7) ...]

[OfficialAphrodite (Felinia 7): ROWENA YOU BITCH. How dare you fuck him before me? 😏😏😏]

[Phoenixempress (Fenix Nest): ...]

[OfficialMuriel (Aqua Primus): Oh my god. When this news breaks, it's gonna cause shockwaves in the entertainment industry.]

[1000yearsofdeath (Earth): Extra, extra, read all about it. Divas Lorelie and Rowena confirmed to be fucking the same man. Kekeke.]

[Puntanghunter69Ver2 (International Space Station): Fucking lucky bastard. I'm also in space, why can't I fuck some hot alien pussy.]

“Spector resumed the stream audio, didn't she?” Adam asked.

“Yup,” Rowena replied happily.

“Stace and Lorelie are misunderstanding right now, aren't they?”

“Probably, I hope you're ready to give them both a full explanation when we get home.”

“Fuccckkkk,” Adam groaned.

“You're not going to get up?” Rowena asked curiously, as she had expected Adam to get up as soon as he realised what she was doing.

“Nah. The damage is already done and your lap is quite comfy,” Adam replied as he shifted position slightly to get even more comfy.

[AlamoMatador4thewin (Earth): He's seriously not moving? Bro's got guts.]

Rowena stared at him in surprise for a moment before smiling and saying, “Suit yourself, this is a new and novel experience for me, too.”

“What? Your husbands never did this?” Adam asked curiously.

“Nope, it was normally me lying on their laps, though this isn't so bad,” Rowena replied.

“Well, assuming Stacey and Lorelie don't kill me, perhaps you can lie on my lap next time,” Adam suggested.

“I might just take you up on that,” Rowena replied happily.

[LadyErkath (Deverinian Prime): Are those two actually flirting on stream right now when his two lovers are watching?]

[DeverinianLordMalacoss (Deverinian 9): Definitely seems that way.]

[Whitehorn (Darah 5): Rowena. 😊]

[OracleRomy (Elysium): Why so surprised, Celeste?]

[Whitehorn (Darah 5): As far as I know, Rowena hasn't flirted with anyone like this since Philip died and she moved away from Darah Five.]

Universal Year 3247.

Aphrodite looked at Celeste's comment in the chat before saying, "Now that I think about it, Celeste might be right. I mean, Rowena has teased people, but she has never openly flirted with them."

"You know what that means," Lorelie replied as she turned to Stacey with a knowing smile.

"You can't be serious," Stacey replied.

"Afraid so, I think Rowena just moved one step closer to joining the harem," Lorelie said happily.

"Heck yeah, I can't wait to finally have some fun with her, you know how long she has been refusing me?" Aphrodite said happily as Stacey just stared at the stream and watched her lover and grandmother.

Universal Year 3204.

"So how long was I out?" Adam asked.

"Just short of three hours," Rowena replied before adding, "I'm shocked that you recovered so fast. Normally, after that, someone would be asleep or too tired to move for several days."

[Puntanghunter69Ver2 (International Space Station): Several days? How hard does Diva Rowena go?]

[AlamoMatador4thewin (Earth): I thought Diva Aphrodite was supposed to be the sex diva, not Diva Rowena.]

“So am I, when Stacey does it, I’m normally out for several more hours,” Adam replied.

[OrangeeyedStace (Felinia 7): ...]

[HackerSu (Trillion): Damn girl, you never went that hard with me. 😏]

[OrangeeyedStace (Felinia 7): Shut, shut up. 🤐]

[1000yearsofdeath (Earth): Maybe it’s a case of dicks before chicks. Kekeke.]

“Spector, what’s our status?” Adam asked.

“We have already entered the Galamedees Galaxy and will arrive at Solarian Prime in approximately seventeen minutes,” Spector replied.

“Understood, activate cloak, we don’t want them detecting us,” Adam instructed.

“I already did that before entering the Galamedees Galaxy.”

“Good,” Adam replied, asking, “What had you been doing the past two hours? Watching me sleep?”

“Sorry, but your face isn’t that attractive,” Rowena replied with her signature smirk.

[Noobkiller9000 (Earth): Oh shit, burn. 🔥]

[Emojisonly (Earth): 🔥]

“I asked Spector to connect to the universal subspace network so that I can check up on the news and refresh my memory on what happened during this time,” Rowena explained.

“What were you doing at this time?” Adam asked curiously.

“I was building my modelling career and had been dating Philip for about a year,” Rowena replied.

“Anything interesting in the news then?” Adam asked.

“Hmmm,” Rowena looked up at the holographic screen in front of her before saying with a smirk, “Aphrodite slept with Rabbitouser Galaxies Universal Senator and now she is rumoured to be pregnant with bunnies.”

[OfficialAphrodite (Felina 7): ...]

[OfficialLorelie (Felina 7): That actually happened? 🤔]

[NonpareilRaphilia (Aaru): Haha, I remember that. It cracked me up when I read it. 🤔]

“What the fuck?” Adam asked in surprise.

[OfficialAphrodite (Felina 7): I never got pregnant, I swear.]

“Don’t worry, she never got pregnant, though she did sleep with the ambassador,” Rowena replied before saying, “Oracle Andromeda commended for stopping a galactic war between two races by prophesying that the prince of one race and princess of the other would fall in love and bring peace.”

[OracleRomy (Elysium): That was such an embarrassing prophecy. 🤔]

[Phoenixempress (Fenix Nest): What did you see?]

[OracleRomy (Elysium): I’m not at liberty to say.]

“Oracle Andromeda appears to be some kind of blessing for the universe,” Adam remarked.

[OracleRomy (Elysium): ... Blessing? 🗨️]

[Phoenixempress (Fenix Nest): He’s such a flirt.]

[OfficialLorelie (Felinia 7): It comes way too naturally. 😊⇒]

[NonpareilRaphilia (Aaru): Hear that, Romy? The streamer is flirting with you. 🗨️]

[OracleRomy (Elysium): 🗨️]

“The universe is certainly lucky to have her,” Rowena nodded in agreement before saying, “The Solarian Princess, Liluth Solar, is recognised for her genius mind by the leader of the Dwarfian science directorate.”

“The Solarians are one of the long-lived races, right? How old is Princess Solar right now?” Adam asked curiously.

“Hmmm, eleven, I think,” Rowena replied after thinking for a moment.

“Eleven?” Adam asked in shock, “I heard before how much of a genius she was, but because she was from one of the long-lived races, I figured she would be well over a hundred.”

[Tessisdabest (Imperial Down): 🗨️]

[Thewhitesoverign (Felinia 7): Tessa? Why did you find that so funny?]

[Tessisdabest (Imperial Down): No reason, no reason.]

[Thewhitesoverign (Felinia 7): 🤔👉]

[Whostolemyduck (Earth): Was Princess Solar like some genius child then?]

[DeverinianLordMalacoss (Deverinian 9): That's correct. We mentioned in the past how she skipped school grades. Well, she entered Capital University, the biggest and most prestigious university on Solarian Prime at 14 years of age.]

[Naruto\_shippuden\_6468 (Earth): So when that whole Terran streamer thing happened, the princess was out celebrating the end of their exams with her university friends?]

[DeverinianLordMalacoss (Deverinian 9): That's correct. Is there a problem with that?]

[Naruto\_shippuden\_6468 (Earth): No, it's just back then when we were first told the story,

Beinglittleisnotadisadvantage said school friends.]

[Beinglittleisnotadisadvantage (Strathorp 7): Did I? My bad.]

"I wouldn't tell her that if you ever meet her," Rowena replied while flashing Adam a wink before looking back at the holographic screen and saying, "Oh, it seems that after recognising Princess Liluth Solar as a genius, the Dwarfinian science directorate has decided to hold a presentation at Capital University, the university that the princess eventually attends if memory serves."

As she finished speaking, Rowena fell into thought, causing Adam to look at her curiously while asking, "Is something wrong?"

[OracleRomy (Elysium): WAIT. Princess Liluth Solar, theDwarfinian science directorate? It can't be.]

[NonpareilRaphilia (Aaru): The princess's attempted kidnapping? 🤔]

[OracleRomy (Elysium): That's what I'm thinking.]

[DeverinianLordMalacoss (Deverinian 9): You're talking about the one where people attempted to kidnap her as she left the Dwarfinian science directorate?]

[Phoenixempress (Fenix Nest): If memory serves, the kidnapping attempt failed because of a Terran male and female who intervened.]

[StealthAssassin9 (Earth): I thought the Solarians hated the Terrans in the past.]

[Tessisdabest (Imperial Down): ...]

[Beczontop (Imperial Down): Pay attention, you fucking idiot. That hasn't happened in their time. It takes place a few years from now.]

[Gunlovergirl (Earth): ☹ Even women from other planets think you're an idiot. It's official, you're going to forever be a virgin.]

[Whostolemyduck (Earth): Can we get back to the topic about the Solarian Princess's attempted kidnapping?]

"No, nothing," Rowena replied with a smile before adding, "I just have this feeling that something important happened around this time, but I can't remember what."

[LadyErkath (Deverinian Prime): WTF Rowena, how have you forgotten something like this?]

"Well, if it's not in the news, then it either hasn't happened or is not that important," Adam replied.

"I guess you're right," Rowena replied.

[DeverinianLordMalacoss (Deverinian 9): Really? Something this big and they're just brushing it off as not being important?]

[OfficialAphrodite (Felinia 7): Well, she does have something else on her mind, or on her lap in this case.  
?]
