Chapter 472: Knee-high boots

Universal Year 3247

Somewhere in the universe, a beautiful Succuba sat on a sofa, browsing through some documents on a holographic screen before her. What made this Succuba stand out, even when she was among others of her kind, was her long green hair and green eyes, the strange green tint her black horns had and some kind of green tattoo that circled her neck and occasionally seemed to pulse with energy. All of which were unique to her, among all the Succuba in the universe.

As she browsed the documents that seemed to be business reports of some kind, a knock came from the large double doors of the room she was in, causing her to say without looking up, "Enter."

As soon as she finished speaking, the double doors opened to reveal another beautiful woman, this time of the Sirinian race, who quickly entered and approached the woman sitting on the sofa before saying respectfully, "Lady Astarte, we have received a communication from Diva Aphrodite."

"Oh?" The woman with green hair replied as she turned to the one who had just entered, before asking with a smirk, "Is she unable to find someone who satisfies her standards and so wishes to work with us again, Kailey?"

"No, Lady Astarte," Kailey replied before saying, "She says that she has a product that will be of interest to our organisation."

"A product? I doubt any sort of product she has found could be of interest to Universal Pleasure?" Astarte asked doubtfully.

"She claims they are sex toys from outside the known universe and that she has tested them herself and can personally vouch that we will find them satisfactory."

"Sex toys? From outside the known universe? Astarte asked, as her interest was reignited, "Who did she say she acquired them from?"

“Her future boyfriend is all she would reveal about the seller,” Kailey replied with an amused smile before adding, “but she added that if we find them satisfactory, she will act as the go-between for both parties.”

“Future boyfriend? Go-between?” Astarte asked with an amused smile before saying, “It almost sounds as if she is afraid that I will try to steal this ‘future boyfriend’ of hers away from her.”

“It certainly sounds like that, you would have thought that the ‘diva of sex,’ as she is known and a fellow Succuba, would know that you are far more selective than others of your race about who you choose to sleep with.”

“Don’t be so hard on her, Kailey. Aphrodite is fully aware of my circumstances; in fact, she is better informed regarding it than you are,” Astarte stated in an admonishing tone.

“My apologies, Lady Astarte,” Kailey replied while bowing slightly.

“It’s fine. Now, did Aphrodite say when the toys would arrive for us to trial?”

“She stated that her ‘future boyfriend’ had just gone to acquire a batch for us to test and that she would send them to us after he passed them over to her. It’s expected that they will take a few days to reach us.”

“That’s understandable; she is in the Felidae Galaxy right now,” Astarte replied in understanding.

“Do you really think that they are as good as she claims and that the King of Universal Pleasure will consider bulk purchasing them?” Kailey asked doubtfully.

“I understand why you’re so doubtful, Kailey, but remember that Aphrodite is the diva of sex, as you yourself just stated. If these toys are effective on someone as experienced and judgmental as her, then I think they have a decent chance of satisfying our girls and that we will be able to add them to our list of services.”

“Judgmental? Diva Aphrodite?” Kailey asked doubtfully.

“Haha, you think just because she is a succuba and enjoys sex that she is not judgmental about it?” Astarte asked with a laugh before continuing, “Perhaps you should observe her the next time she works with us. If the one she sleeps with is bad, then she doesn’t hesitate to roast him. Many guests who paid for her services have complained about her attitude towards them afterwards.”

“I see, so that’s why she has that clause in her contract and those who wish to hire her must also sign an NDA contract that has a similar clause,” Kailey said in understanding.

“Exactly,” Astarte replied with a smile before asking, “Now, is there anything else?”

“No, Lady Astarte, that’s all I came to inform you about.”

“Very well, then you may leave and return to your work.”

“Yes,” Kailey replied before turning and quickly leaving the room.

Astarte watched her go with a small smile before returning to her own work as she quietly said, “I can’t wait to see the girl’s reaction once they try out those toys.”

Universal Year 3204.

“Docking bay pressurisation complete,” Spector announced as soon as it was safe for Adam and Rowena to leave the ship.

After landing the shuttle and waiting for the docking bay to be pressurised, Adam and Rowena had decided to go change their clothes. Adam couldn’t wear his anti-gravity armour after all the clothes Rowena had been wearing had bloodstains on them from when she fed on Adam.

Adam was the first to get changed into a white t-shirt he wore under a black jacket, along with grey cargo pants and a pair of black trainers with white soles.

[Gunlovergirl (Earth): Damn, he looks handsome.]

[Justiceistruth (Earth): How can you tell? You can't see his face.]

[Gunlovergirl (Earth): Well, his body looks great, and I imagine his face looks just as good.]

[Justiceistruth (Earth): ...]

[HackerSu (Trillion): Such strange clothing.]

[LadyErkath (Deverinian Prime): Every planet and race has its own styles; it's no surprise Earth does.]

[DeverinianLordMalacoss (Deverinian 9): It also doesn't hurt that it's good marketing for Erkath Fashions' new clothing line.]

[LadyErkath (Deverinian Prime): Well, you're not wrong.]

[Celebrityhunter69 (Earth): I want to see what Diva Rowena is wearing. You think she will also wear some Earth clothing?]

As the chat was discussing the Earth clothing, Adam heard Rowena approaching and turned to see Rowena approaching, who was wearing a black top underneath a brown suede jacket, with brown knee-high boots and blue skinny jeans tucked inside them.

[Puntanghunter69Ver2 (International Space Station): Damn. 🤩]

[AlamoMatador4thewin (Earth): Whoa, she looks totally hot.]

[Celebrityhunter69 (Earth): She looks so good.]

[CEOHopkins (Earth): She really does. I need to try this style out myself.]

[Superhearofangirl (Earth): If only we could clip this and post it on social media. We could totally start a new trend.]

[Gunlovergirl (Earth): Just do what I did and take a screenshot.]

[Superhearofangirl (Earth): Nice idea. 👍]

[OracleRomy (Elysium): Wow, she looks great.]

[LadyErkath (Deverinian Prime): We're going to make so much from this.]

[Thewhitesoverign (Felinia 7): I need to ask Adam for some of this clothing.]

Adam couldn't help but stare at Rowena, who stopped a short distance away from him and smiled at seeing his expression before she turned on the spot, allowing him to admire her from every angle before asking, "What do you think?"

"Amazing," Adam replied as he looked her up and down before his eyes rested on her knee-high boots.

"Hey, my eyes are up here," Rowena said with a smirk.

"Sorry, sorry," Adam replied while scratching the back of his head.

"You like the boots that much?" Rowena asked curiously.

Adam nodded before saying, "I guess I just learned that I'm a huge fan of knee-high boots."

[OfficialLorelie (Felinia 7): I need some knee-high boots.]

[OrangeeyedStace (Felinia 7): Agreed.]

[Thewhitesoverign (Felinia 7): I also want some.]

[OfficialAphrodite (Felinia 7): Erkath, send me some. I wonder if Adam will fuck me while I'm wearing them?]

[LadyErkath (Deverinian Prime): ...]

"Maybe I should wear them more often in the future, then," Rowena suggested with a smirk.

"You look great in whatever you wear, and you have no reason to go out of your way to please me," Adam replied as he finally managed to pull his eyes away from the knee-high boots to look Rowena in the eyes.

"Don't I?" Rowena asked curiously before smirking and walking towards him, where she laid her hand on his chest and said, "You are my husband after all."

Adam stared back at her at a loss for words, causing her to giggle before she said, "Hehe, you also look very dashing, dear husband of mine." After which, she hooked her arm through his before smiling at him and asking, "Shall we go enjoy our honeymoon now?"

Adam smiled and shook his head while saying, "You really are enjoying this way too much. But very well, let us go enjoy our honeymoon, my wife." After which, he led her towards Spector's airlock, where they disembarked the ship onto the orbital station.

"Capital University observation team, give me an update."

"The target is still in the lecture hall where the representatives of the Dwarfian science directorate are conducting their lecture. According to our man inside, the lecture is scheduled to last a few more hours."

“Fucking scientists, who wants to listen to such a boring subject for so many hours? Whatever, just keep me updated and make sure to alert us once the lecture is coming to an end.”

“Copy that, leader.”
