Chapter 646: Liluth's reprimanding

"Are you just going to stand there gawking at me, or do you plan to come join me?" Liluth asked with a giggle before adding, "I mean, right now you're more famous than I am, so if anyone should be gawking, it's me."

"But how, why?" Lorelie asked in confusion.

"Come, sit, and I will explain," Liluth replied while indicating the chair opposite her.

After Lorelie nodded and sat down opposite her, Liluth asked, "What's the last thing you remember?"

"Pain, in my chest," Lorelie replied before her eyes widened in realisation as she said, "Oh gods, I was stabbed. Am I dead?"

"Dead, really?" Liluth asked with a smirk before adding, "If that was the case, why would you appear here with me?"

"Well, I see this place as my home..." Lorelie replied and then shook her head while adding, "I have no idea why you would be here, though, princess, we have never even met."

"Hence, why you can't be dead," Liluth stated.

"Then where am I?"

"Your body is currently recovering in a medical pod on Fenix Nest; your mind, however, is here in the virtual world with me," Liluth explained.

"The virtual world!" Lorelie repeated in surprise before asking, "How?"

“Your neural implant,” Liluth replied before explaining. “Since you are unconscious in the medical pod, Spector pulled your consciousness into the virtual world, kind of like what it did with Adam after he was hit with temporal displacement syndrome.”

“But how? Spector isn’t even on the planet?” Lorelie asked in confusion.

“But Adam is,” Liluth replied.

“Huh?” Lorelie said in confusion.

“Don’t worry about it. What matters is you’re here and we can talk. Though, because of how basic your neural implant is, it was only just possible to bring you here.”

“Basic?” Lorelie replied.

“Yup, if you want to be able to remotely control Spector Unit Six as Adam did, you’re going to have to get that upgraded.”

“How do you know all this?” Lorelie asked as she fell deeper into confusion.

“That’s a story for another time, as you’re not yet ready to learn it,” Liluth replied before adding, “Also, we have more important matters to discuss.”

“What important matters could I possibly have to discuss with the Solarian Princess?” Lorelie asked in disbelief.

“There are several, the most important of which is how, with your current actions, you, Stacey and Rowena are going to cause the harem to collapse before I even get to join it,” Liluth replied seriously.

“Collapse... before you get to join?” Lorelie repeated as her confusion rose again.

“Revi isn’t the only woman who has been waiting many years for Adam to return so that she can be with him. Though admittedly my situation is somewhat different to hers.”

“You mean ever since he saved you from those kidnappers in your childhood?” Lorelie asked.

“Not quite, Adam and I have met since, although don’t tell him that as it hasn’t happened to him yet,” Liluth replied while winking.

“Hasn’t happened yet? Are you talking about his ability to time-travel?” Lorelie asked.

“Yup, but that’s not what we’re here to discuss,” Liluth replied before glaring at Lorelie and asking, “What makes you think it’s ok to break the harem's rules and cheat on not only Adam, but Stacey and Lorelie?”

“Cheat?” Lorelie repeated in shock before adding angrily, “I would never.”

“Oh, really?” Liluth replied before asking, “Then what was that whole thing with trying to get Emma into bed when she isn’t a member of the harem?”

“How do you even know about that?” Lorelie asked in surprise.

“Just assume I know everything,” Liluth replied dismissively before adding, “Now answer the question.”

“I’m not sure I’m too inclined to discuss our relationship with an outsider,” Lorelie retorted.

“An outsider, huh?” Liluth replied before waving her hand and causing a holographic screen to appear between them that showed a video of her and Lorelie kissing while she rode Adam’s cock and Lorelie sat on his face and had her pussy eaten out.

Lorelie’s mouth dropped open in shock as she stared at the video playing before her and heard the moans of both women through their shared kiss.

“What is this?” Lorelie finally asked.

“The future, assuming you three stop messing things up and fix your individual issues so that the harem doesn’t collapse, causing Adam to leave you all and fly away.”

“Fly away? No.. but why?” Lorelie asked as the thought of Adam leaving her made her panic.

“Well, in your case, it’s the cheating that luckily hasn’t happened yet and I plan to prevent it from happening,” Liluth replied.

“What cheating?” Lorelie asked again.

“Tell me, sister,” Liluth began while frowning. “If Emma had agreed, would you have told Adam that you two were going to have fun, or only informed him of it afterwards?”

“Ofc...” Lorelie began, but then stopped as she realised that no, she probably wouldn’t have told him until the next morning.

“But I’m just doing..” Lorelie began before Liluth finished her sentence by saying.

“Doing what Stacey did to you. You’re not wrong, but you’re also not right because these are two completely different situations.”

“How?” Lorelie asked in confusion.

“God, that girl, she only bothers to teach you how to satisfy her and Adam, but not any common sense when it comes to romance,” Liluth complained.

“How are you such an expert on romance?” Lorelie asked before adding, “It’s well known that you’ve never had a boyfriend.”

"I've read up on it in order to prepare for the day when I become Adam's woman," Liluth replied before adding with a smirk, "Unlike a certain someone who focused solely on their music career."

"Hmph, it's not like I was expecting to suddenly fall in love with a guy who randomly saved me," Lorelie pouted.

"Neither was I, on that we can agree," Liluth replied before asking, "So tell me, do you really think having sex with Emma when she isn't even part of the harem is right and not classed as cheating? I mean, you're even the one who came up with that rule."

"No," Lorelie said in shame as she bowed her head.

"Exactly," Liluth replied before asking, "How would you feel if Adam went and had sex with some random woman you didn't know just because he wanted to add her to HIS harem. And do remember that it is HIS harem, not yours or any of the other girls."

Lorelie didn't answer because she knew that if the roles were reversed and Adam did that, she would be angry at him for betraying their trust.

Seeing that she got the point across, Liluth smiled before saying, "It's not entirely your fault; Stacey is also to blame in this."

The whole thing with how she was your first sexual experience instead of Adam completely screwed up your impression of what's ok and not ok in our group relationship."

"I still can't believe that you're going to be part of it," Lorelie remarked.

"Is it really so hard to believe after everything you've been through recently? I mean, you jumped across the universe to Earth after all," Liluth asked.

"But you're famous for turning down every suitor without even giving them a shot," Lorelie replied before asking, "Was that really all because of Adam?"

“Naturally, but we’re not here to talk about my relationship with Adam, but yours,” Liluth replied before asking, “So what do you think is a suitable punishment for your actions?”

“Punishment?” Lorelie asked.

“Of course. Do you really think that you should be able to get away with almost cheating when you three made Adam sleep on the couch for such a ridiculous reason?” Liluth asked before adding, “And by the way, the whole sleeping on the couch thing is extremely childish, where did you even get that idea?”

“Lizzie, the true power, from Adam’s stream,” Lorelie replied.

“I might have guessed,” Liluth replied with a sigh before saying, “Look, I probably shouldn’t be telling you this just yet, but Lizzie and her husband Andrew have a unique relationship.”

“Unique how?” Lorelie asked curiously.

“They don’t admit it openly because of their positions as hall masters in the mercenary hall, but Andrew enjoys being cuckold,” Liluth replied in a whisper, even though no one else was there.

“Wait, I know that term from Adam’s chat,” Lorelie replied in surprise before asking, “You mean he likes watching Lizzie sleep with other men and being unfaithful to him?”

“That’s correct, though, because of wanting to keep this a secret, they don’t get to do it very often, as they only have one or two trustworthy partners,” Liluth replied.

“Wow,” Lorelie gasped in surprise.

“So about this whole Adam sleeping on the couch thing...” Liluth began, but was cut off as Lorelie asked with a frown.

“So you think it was ok for Adam to not inform us that he can turn his whole reproductive function on and off at will, isn’t a problem?”

“Well, did any of you bring up the topic of having kids with him?” Liluth asked in return.
