

66 Ancestral Bloodline

As the elders of the family were called, Felicity was presented with the most grandiose room in the mansion. She was currently sitting down on her queen-size bed with Mary Luo lying on it. Also, Larry was standing by the side in his human form. ¹

A few minutes later, the elders of the family gathered in front of Felicity's room door. She just swung her palm, open.

"Get in. I don't have much time." Felicity said with her eyes looking at them with some disdain.

It was also as if Felicity's eyes were glowing from tremendous rage. Although they understood it, they couldn't stomach this kind of treatment.

As the elder of the family, there was some kind of pride that lingered in their core. Such, one courageous and foolish elder among the five elders of the family dared to step up.

"A brat dare to treat us like this?"

Everyone was flabbergasted. Even Felicity didn't expect it, but she didn't have any obvious reactions. She just paused, then slowly turned her head to the elder that spoke.

"Care to explain, geezer?" Felicity asked in a slight, calm tone, despite the scornful gaze behind her eyes.

"The Zhu family has been one of the prominent families in the Cloud Continent. But you, a mere Immortal King dare to order us with rude behavior?"

"Hooo... Although I am an Ancestral Princess?" Felicity teased.

"Ancestral Princess, my ass. How dare you insult the Ancestor family with such personality? You are not a princess! You are just someone who had white hair that uses the Ancestor family name!"

Felicity jolted as she heard how blunt the elder wanted to be. However, despite it, she remained calm outside and then just stared at the elder.

"I am not an unreasonable person. I will forgive you even if you insulted me and were

disrespectful to me. I need your knowledge right now. Your punishment will be your life force instead. I have a friend who has a cursed bloodline from being a Magical Beast and a human as well. Treat her." Felicity said.

But just how thick head the elder was, his veins popped in his forehead.

"You didn't listen to me! I don't believe you!"

Tremendous pressure, as well as killing intent, emanated from the elder. He was still not recognizing Felicity despite the essence he could see inside of her. The reason was that Felicity looked weak and had only been at the Immortal King Realm. If for him who had a pride of a Zhu, this kind of talent and calling themselves one of the Ancestor family is imprudent.

Meanwhile, Felicity was just silent, staring at the elder. She just sighed then slowly stood up from the bed.

She also drew some symbols in the air and then stared at the elder who was covered by his own cultivation and killing intent.

"This kind of authority will be unlocked only if the one with Ancestral blood reaches the Immortal King Realm. Although I didn't think of using this, I don't mind using it now." Felicity merely said, then finished her drawing.

A dim light symbol was drawn in the air and the next second it was Felicity shouting at the elder.

"You dare to be disrespectful to me?! KNEEL!"

Then, in an instant, the elder's pressure and killing intent were cut off, and with him, instantly kneeling helplessly.

When the other four elders saw this, they could only remain silent. They looked at Felicity with fear making them submit to her in kowtow.

"We greet the Ancestral Princess." All of them said.

Felicity just nodded and gritted her teeth.

"I don't care anymore. Use his life force. He gave this result to himself. Also, treat my friend back to normal. I will be doing my job. Come here, Larry. I want you to train so that you could guard your sister."

Felicity left the room with Larry following her. She didn't need to worry more about Mary since the elders were experts in that field. Since Felicity didn't really focus on learning Magical Beast anatomy and their life, she was left with no choice but to depend on those geezers.

Even if they were just elders in the Immortal Heaven, it would be easy for them to cure someone from the Mortal Heaven.

That was why Felicity was complacent that even by leaving Mary to them, she will be cured.

"Now, Larry. Treating Mary won't be easy. It will need a tremendous time to completely cure her so I want you to train to be able to protect her." Felicity said while on their walk in the hallway.

There were people that saw them, mostly servants that immediately greeted her.

She just looked at them and then turned away, as if they were not that important. Although the scene earlier rang in her head, she just shook it out.

Earlier, thirty minutes ago.

"The Ancestral Princess! Greet the Ancestral Princess!"

Felicity didn't react and just looked at everyone kowtowing in front of her. Even though they weren't that strong in Felicity's eyes, she could use them to finish her goal.

'I will come back immediately, Master.'

Felicity knew that Lucas was strong. And it was reasonable for someone to follow those who were strong. Such feeling in her was nothing to be ignored.

Present time...

Felicity went to the top of the roof of the mansion. While looking at the starry night, she sighed, then tried to remember Lucas's face.

Lucas's face flashed to her mind. Even though it had been months since she left him, she still couldn't forget his aura as if he was around her. And also, she felt a longing for him more than her family.

"I should message my father that I am safe."

Not knowing what was happening in the

Celestial Heaven, Felicity could only worry about her family up there.

She still didn't know how to approach her father without alarming those who did wrong to her. Well, since they also came from prominent families, she was worried about her family's status.

But there was also one thing that she was worried about. It was how to get back to the Mortal Heaven. After using the treasure to reduce her spiritual energy and immediately being rejected from the Celestial Heaven, there was no method left for her.

However, it didn't mean to be zero chance. She knew that she could still go back, but the only way was to become weak again. Resetting from the start.

She sighed. She didn't know any techniques that could be used in Mortal Heaven as the techniques she knew were solely for Immortal Realm and Celestial Realm spiritual energy. 1

"I'll figure it out tomorrow."

The news that a member from the ancestral family appeared reached the ears of those who are also prominent in the Cloud Continent.

They were all anticipating and would like to grab the opportunity since this was the only once-in-a-lifetime chance to make a connection with someone from the Celestial Heaven.

Even those who had an ancestor family in Celestial Heaven didn't want to miss the chance, since meeting from the upper heaven was already a blessing, even coming from a different family.

Also, the reeks of opportunity couldn't be ignored since those who had ancestor families would really benefit from this.

However, what they only need to worry about was not making an enemy of her. They didn't know her prowess, as well as those who were in Celestial Heaven since what they only knew was they were more powerful than them.

And just thinking about it, they gathered information calmly and precisely.

Then, after 3 days, each of those families

gathered enough information that would lead them to meet Felicity.

"So that was her name? I see... I need to meet this Ancestral Bloodline. If even possible, make her bore my child. Hahahahaha!"

Those words came from the heir of the Tsai family. A family who had an ancestor family in the upper heavens, Tsai.

Even with his words being too sexualizing, his confidence was still overboard since he was confident of something.

Well, it was his face that he was confident.
