The Secret Heir Return To Wealth And Love Chapter 1883

Chapter 1883

She was tortured by the two men every night, while trying to find a chance to strike at Rosalynn's kids.

Then she got caught tailing Luna's kid by Frederic. He didn't get a good look at her face, but something smelled fishy, so he asked around about her background, and this had lead him to Sam's doorstep.

Sam freaked out. Jennifer had no ID, and he had made things up for her. He found Jennifer and told her to run. He also spilled the beans that Frederic was investigating her.

Losing her innocence, being violated by these creeps every day, and now she had to leave? No way in hell she was gonna accept it.

So...

"Even if I leave now, you guys will still get caught. So... let's call up Frederic, I'll meet him... I... I can sweet-talk him."

Sam didn't have any plans, he gave her a once-over. Then he believed her.

He cooked up an excuse to meet Frederic.

In order to cover his tracks, Sam turned off the surveillance at the meeting spot. He was thinking, if this woman could make Frederic fold, he would definitely be a big shot in the Scott family.

Frederic arrived at the rendezvous. Jennifer was waiting for him there.

He blew his top, "I knew it was you, Ms. Baldie! The missus was clear, your family is banned from the Scott family, you..."

How could Jennifer let Frederic yell like that?

She took out a syringe she had hidden and jabbed it straight into Frederic.

The strong stuff silenced Frederic in an instant.

Jennifer took his phone.

Then she smirked at a choking, pained Frederic, "You're just a servant of the Scott family, what gives you the right to lecture me?"

Frederic tried to bang on the floor, to make a racket, to draw attention.

Jennifer just scoffed.

"Stop struggling, Sam checked the patrol schedule, this place has been cleared. Next round is at 2 a.m. You'll be dead then!" She wasn't done. She squatted down, looking at Frederic's bulging eyes and said, "Luna and Rosalynn's kids are next, just you wait."

Frederic was shocked, he struggled a bit more, then went quiet.

This sight didn't scare Jennifer, on the contrary, it gave her a sense of exhilaration she had never felt before.

Then, she found a pond and dumped Frederic in it.

The splash brought back a tinge of fear.

She left through an unmonitored route, and headed back to Wade's rental.

She took a shower, cleaned up any trace of her hair that might have been left.

Then, Jennifer put on Wade's shirt, waiting for Wade and Sam to come home.

They were back in a jiffy after work.

Surprised to find Jennifer waiting for them.

Wade cracked a joke, "Seems Frederic really is getting old, letting you come back so soon!"

Jennifer got two glasses of red wine right away, "I've talked to Frederic, you guys are my pals, you've helped me out a lot. He said if there's a chance of promotion in the security team, you guys will be first in line."
