Chapter 120 Dungeon Of Taslan (Part-5)

"Summoner with a dual attribute?" Ji Guanli was taken aback by the sudden appearances of a giant white bear and a wolf with sparks dancing all over its body.

He didn't know what pill this fiend before him took but whatever the case, there's a crisis on his side.

He turned towards the left. His four guards were barely defending themselves from a peerless beauty.

He hardened his expression and decided to take an intermediate quality advancement pill.

Taking a pill, he made a temporary breakthrough to the 6-circle realm. However, unlike Mark, his cultivation level didn't become advanced 6-circle. It was only at the intermediate stage. After all, the higher the rank, the lesser the effect the pill would have on them.

Nevertheless, Ji Guanli thought it was enough to face the enemy. Being a genius, he was confident in his superior skills.

"Tundra Bear, you stay with me and act as the guard. Lightning wolf, you take him down." Mark passed the orders. As they were only temporary summoning beasts and don't have any given names, he just called them with their species.

"Woof"

The lightning wolf barked at the teenager and dash forward.

"Brother Fan, go and protect the young master." One of the Ji clan's elite guards, Long Yaoting said to another guard who crashed on the ground because of a kick in the gut.

Fan Seichan clutched his stomach as he slowly stood on his feet. He didn't hesitate to abandon his comrades to guard his young master.

However, will Alina let him do as they please? Of course, not.

"As if I would let you interrupt my master's battle," Alina mumbled to herself before raising her arms.

"Twilight Shackles."

Three pitch-black energy chains erupted from her palms of which one of them pierced Fan Seichan in the back.

"Ugh..." Fan Seichan halted in his footsteps and looked at his chest where a blade came out of it while transforming into that of an anchor-shaped object.

She then swung the chain, making him fly towards a couple of other guards. The remaining two chains also attacked two of them, heavily injuring them too.

Meanwhile, the lightning fox reached its target.

Ji Guanli was ready with clenching his fists. His Spirit Path is Fighter and majorly depends on his fists and kicks.

He went into a battle stance with his right foot forward and the left foot at a perpendicular angle to it. Ether energy was covering his body, powering up his strength.

As the lightning wolf jumped onto him with its sharp canines, Ji Guanli bent his body and twisted to the left a bit before landing a powerful punch on the beast.

The lightning wolf was hit on the chest and flew up in the air for a couple of meters. Ji Guanli then planted a kick before it falls onto the ground.

Thud

The lightning wolf flew towards Mark.

"Tundra Bear," Mark called out the giant icy bear beside him and transmitted his thoughts.

Standing on its two legs, it stood before its master and stretched its arms forward, and caught the wolf.

The wolf was then put on the ground. It growled at the enemy.

Mark's face doesn't look good at the moment. "Until now, I only fought against weaker people. This kid is tough to beat. I guess I have no choice but to go big."

Ji Guanli then charged forward to go onto offense, this time.

Mark gave an order to both of them. **"Tundra Bear, use Gigantification."**

Right away, about 50000 ether points were deducted and a blinding flash of light appeared over the bear, increasing its size from 15 ft to 100 ft when standing on two feet.

Its large size attracted the attention of several adventures that are far away.

In Gigantification state, along with its size, its strength is also boosted by 50%, although only for 20 seconds of time.

Naturally, unlike other monsters of the wild, Mark's summoning beings were special as their strength is calculated in numerical values.

A seven-circle realm expert is usually 3-10 times stronger than a six-circle realm expert. However, for Mark, a twenty percent boost for a rank-6 will provide him the strength of a rank-7. It is definitely the most ridiculous and cheating ability in the universe.

With a skill that boosts a significant percentage of the summoning being's strength, Mark could even wipe out a Supreme Realm expert with his rank-7 beast.

Maybe, this is why the consumption of ether points is also very huge even for summoning, much less activating a skill. After unleashing a skill, Mark didn't even have sufficient ether points left for the lightning wolf to unleash its skill.

What's more, the duration of their stay in the material world is also decreased to a few minutes. So, Mark knew that he has to finish this battle as soon as possible.

At the current stage, the Tundra Bear touched the strength of Legendary Realm for a brief period of time.

Dismissing the lightning wolf, Mark passed quick orders, "Alina, get away from there." "Tundra Bear, kill those four."

Alina immediately teleported away while the giant tundra bear raised its hand and flattened the elite guards of the Ji Clan with a single palm strike. The entire Assault camp shook for a few seconds as if a powerful earthquake had occurred. Even Mark himself isn't immune to the effects and fell on his butt after losing his balance.

As the Tundra Bear raised its palm from the ground, without any surprises, all the four elite guards turned into a pool of blood. Not even equipment or their storage rings were spared. Everything was destroyed.

The Ji Clan's young master was shivering in fear as he raised his head and looked at the monster.

He realized that he fucked up for good.

Mark stood up on his feet and tried his best to control his expression. In a calm tone, he said, "Whether you belonged to Ji-Clan or the imperial family, you can't escape the consequences of offending me."

Straitened his back, he walked forward. The confidence in Mark grew as the fear in Ji Guanli's eyes increased.

And the teenager did what every idiotic noble would do. In fear of death, he threatened Mark, "if you kill me, the Ji Clan won't leave you alive. My master is the Patriarch of Heavens Sect. You will also face their wrath."

Mark broke out into laughter, "I offended many people in this world. One more wouldn't trouble me but you will be more useful as a hostage rather than a dead body. So, I won't kill you."

He then looked to the side where Alina was standing, "he's your responsibility."

"Affirmed, Big Brother." Just as Alina accepted the mission, the giant bear returned to its size, bringing a trace of a surprise to Ji Guanli's face.

Mark then dismissed the beast to save up his ether points. There are still about 36000 ether points left, barely enough for him to summon the rank-5 beast for 3 minutes of time.

Realization dawned upon Ji Clan's young master. "I see, rather than hiding the strength, this is just a temporary boost. I was tricked because of their deaths."

Right away, his fear was reduced a lot and he readily used all of his ether energy to create a barrier around him, surprising Mark, a little bit.

"Hmm? Does he still think he had a chance now that there's no beast on my side?" Mark wondered when he saw the barrier and eventually, shook his head, "it's useless. The protos daggers of Alina can penetrate any shield."

He then saw the teenager take out some kind of talisman. He doesn't know whether it is a communication talisman or it is something else but he decided to observe and let Alina deal with it.

And once again, the overconfident scion of the Ji Clan ran off his mouth with a burning talisman in his hand, "You did a very big mistake on killing my elite guards. I remember your face. Once I return to the clan, I will sure to make you pay over..."

Through the words of the teenager, once Mark realized what the talisman does, he suddenly attacked with his bloodline skill while Alina dashed towards her target to stop him.

"Absolute Freezing," Mark unleashed his first bloodline skill.

As it takes a bit of time to especially target one enemy, Mark froze all of his hundred-meter surroundings.

In just a fraction of a second, the Ji Clan's young master, unfortunately, his horse carriage, Liu Zhong, a dozen spectators in the range, every single one of them was frozen and became like ice sculptures along with the surroundings.

The other spectators took a few steps back in fear.
