Chapter 371: Jian Yiling Participates in the Reality Show

The recording of the second episode of the reality show was about to begin.

This time, all the participants were sent to a deserted island.

Everyone gathered at a pier.

There was a boat that was docked on the pier. That boat was meant to take them to the deserted island.

Jian Yumin and Jian Yiling were the last to arrive.

By the time they arrived, the other seven groups were already waiting for them.

Among them were Mo Shiyun and her mother, Mo Huiqin.

Mo Shiyun was able to bring Mo Huiqin to the reality show thanks to He Yan. He Yan had helped her resolve Mo Huiqin's case of theft.

Even Mo Shiyun was amazed that He Yan had the means to destroy the evidence of theft that was in Jian Yuncheng's possession.

This was something that Mo Shiyun hadn't even thought about when she approached He Yan in the first place.

Mo Shiyun didn't understand how He Yan managed to do such a thing. If she was so capable, then why was she still being suppressed by the other members of the Jian family for so many years?

Mo Huiqin cowered for a moment when she saw Jian Yiling.

She instinctively tensed up. The memories of being stepped on by Jian Yuncheng and being humiliated by Wen Nuan in public immediately ran through her mind.

Mo Shiyun held her mother's hand. She tried to soothe her mother's anxiety.

"It's okay," Mo Shiyun told her mother. In her eyes, there was no longer any information that could be held against them. Furthermore, they were no longer the maids of the Jian family. And thus, there was no need for them to fear the Jian family anymore.

Mo Huiqin nodded. She had to be fine. This time, she was accompanying her daughter to the reality show. She couldn't afford to embarrass her daughter in front of so many people.

Her daughter had said that the show required a lot of life skills. That was something that the mother-daughter duo, who had worked their way up through the ranks, was good at.

Jian Yumin took Jian Yiling's hand and stood quietly at the end of the line.

There were a lot of young men among the other guests. He had to keep an eye on them.

Jian Yunmo had asked him to take care of his sister. Jian Yiling was still young. And thus, if any wolf cubs got close to her, he would initiate a fight with them.

He wasn't scared of getting into a fight with anyone. He wouldn't necessarily be worse than Jian Yunmo at fighting someone.

However, he was afraid that he would lose the right to take his sister out to play.

Before they went out to sea, the production team prepared a backpack for every single person. They were able to choose their own equipment for the time that they were going to spend on the deserted island.

Everyone was allowed to choose any equipment that they wanted. So long as the backpack could fit the equipment that they wanted.

"Yiling, let's grab a lot of food," Jian Yumin said. Jian Yumin was quite practical. The most important thing was food. They could leave the other things. However, in the next few days, they had to eat.

Jian Yiling shook her head. She skipped over the food section and opted for tools instead.

When Jian Yumin saw this, he followed suit. He took whatever Yiling took.

Jian Yiling chose a bunch of small tools. She also took many small things. This included cloth, clean plastic paper, and matches for lighting fires.

The equipment that Mo Shiyun and Mo Huiqin picked were more evenly spread. They picked up quite a few tools coupled with food supplies. It seemed as though they were ready to face any emergency.

The live broadcast started as soon as everyone picked out their gear.

The comment section was buzzing with action.

Among the participants, Mo Shiyun and Xie Minyu were the most popular.

Mo Shiyun's web drama was still airing. And thus, she was still very popular.

On the other hand, Xie Minyu was a member of a popular idol group for many years. This meant that his popularity had always been high.

This particular episode of the reality show attracted the attention of the audience because the guests were permitted to bring a family member with them.

[Is this Mo Shiyun's mother? Her mother looks very gentle and virtuous.]

[Mo Shiyun's mother seems really down to earth. She looks just like a normal mother. She doesn't look difficult to get along with.]

[Mo Shiyun is so capable and competent. Her mother must be incredibly great too. I'm looking forward to their performance today!]

Chapter 372: Fans and Haters

The fans of Xie Minyu were full of curiosity when they saw Jian Yiling.

During the interview, Xie Minyu introduced Jian Yiling as his younger sister. However, he didn't specify whether she was his sister or his cousin.

[Wow, Xie Minyu's sister is so good looking.]

[Oh my goodness. So the female lead of the MV was Xie Minyu's sister? It appears as though their genetics are top tier!]

[I'm so jealous. I want a sister like that too.]

[To be honest, I want a brother like Xie Minyu.]

[Why did his sister not bring any food with her? She's going to starve on the island.]

[Yeah they are... Minyu doesn't know how to cook. If there's no food on the island, both of them will starve... They should have at least brought some biscuits!]

When the time ran out, everyone stopped picking their equipment and headed onto the boat.

Once on the boat, Jian Yumin took Jian Yiling to the deck. The two siblings watched the water and the view.

One of the other male guests came over and said: "Hey, let's work together this time."

Most of the celebrities brought along family members that seemed to be able to take care of themselves. They could be of help to the celebrities.

However, Jian Yumin was the only one who brought along someone that didn't seem like she could help him much. In fact, Jian Yiling looked like she needed to be taken care of.

In the last episode, everyone already figured out that Jian Yumin was someone who couldn't even take care of himself. How would he take care of his sister on a deserted island? The other celebrities were worried about how the two of them would fare on the deserted island.

As soon as the man approached them, Jian Yumin changed his position. His body was in front of Jian Yiling.

Then, he politely refused the other man's kind offer: "Thank you for your kindness. However, I'd like to reject your suggestion. I can take care of my sister."

Jian Yumin's protective behavior was incredibly obvious. Messages started to appear on the screen:

[Oh my goodness, can you be any more obvious with the way you're standing? You're literally standing in the way of the two of them.]

[Minyu is overreacting today! Does he have a sister complex?]

[Wow! He's so protective. I suddenly have a glimmer of hope that he would find a girlfriend in the future!]

[Yes!!! All of a sudden, I feel like he's quite cute. I want to give him a daughter! I feel like Minyu will be a slave to his daughter in the future!]

The man who got rejected by Jian Yumin did not get angry. Instead, he smiled and continued to say: "Hmmm, if you're thinking of finding someone to be an 'ally' with, remember to give me the priority. My brother and I are both tough guys. We have the strength to get work done."

The man's family member was his cousin. He was a strong and powerful man who could get manual work done.

"Mhmm, thank you," Jian Yumin replied. Although he agreed on the surface level, in reality, he had no intention to work together with the other party.

Even if he did intend to work together with another party, he wouldn't work together with these two men.

The comments began to tease Jian Yumin again: [I would bet a pack of spicy sticks that he's only saying yes just because he wants to be polite!]

[Hahahaha, I honestly think that it would be better for Minyu to agree to their suggestion. It would be good to have two laborers on the island when your sister can't do any of the work.]

Although Jian Yumin had a lot of fans, he also had quite a few haters. The haters came out to speak as well:

[This reality show is meant to test the guests' abilities in various aspects. Despite knowing this, Xie Minyu still brought along a weak girl. Isn't he just disrespecting the show? He's merely trying to get more fans by relying on his sister's face and the persona that he is pulling off.]

[Yeah, that's right. He's just trying to show off a fake persona. When he sees the camera, he tries to act all caring and protective. It's disgusting.]

[Mo Shiyun isn't fake like Xie Minyu! She doesn't care what her mother looks like. In fact, she doesn't mind showing her mother off in front of the cameras. She's real and true to herself. Furthermore, she doesn't have to act and pretend!]

Chapter 373: Helping Jian Yumin Win (1)

The boat docked on the deserted island.

When everyone got off the boat, they were greeted with a desolate and uninhabited island.

The production team had investigated the island ahead of time. They installed many cameras to capture the guests' movements.

Furthermore, there were also puzzles on the island for the celebrities to explore and discover.

Once everyone got onto the island, one of the first problems they had to solve was what they were going to eat.

Earlier, some of the people had chosen food when choosing their equipment. And thus, those people didn't need to worry about their first meal. Instead, those people began to find a place to set up their shelter for the night.

Jian Yumin and Jian Yiling had no food in their backpack. Therefore, the first thing they had to deal with was what they were going to eat.

Jian Yumin was incredibly worried about this. He racked his brains to think of where he should go to find food for his sister.

There were definitely things that could be eaten that were hidden somewhere on the island.

However, he was afraid that he wouldn't be able to find the food in time. He didn't want to waste hours wandering around the island to find food. What if Yiling was starved to death by the time he came back?

As Jian Yumin worried about this, Jian Yiling walked over to the beach. It was currently low tide. She started to look for razor clams, mussels, and other shellfish.

At first, Jian Yumin assumed that Jian Yiling was just digging randomly. However, once he saw that she was digging up shellfish after shellfish, he realized that his sister had a knack for digging them up.

And thus, Jian Yumin hurriedly walked over to help his sister. He dug wherever Jian Yiling pointed at.

The two siblings worked their way around the beach and harvested half a bag of mussels.

Then, the two of them headed away from the beach. Together, they dug up two holes that had a burrow between them. They started to place firewood in one of the holes and started a fire.

They made a Dakota fire hole. This way, the firewood could burn more fully, and at the same time, it reduced the amount of smoke produced.

Then Jian Yiling took out the mini iron cooking pot from her backpack. She cooked the mussels in freshwater. As mussels were seafood, cooking them in water could retain their original flavor. The mussels were not difficult to eat without other seasonings.

[What? Why do I have the vague feeling that Minyu's sister is quite capable and clever?]

[Yeah. I looked up the fire hole that she's using. It seems to be a survival technique that the people in the army use. Usually, people just dig a hole.]

[Xie Minyu's fans, don't be too happy. It's just a few mussels. There's no need to praise him so much. Go and take a look at Mo Shiyun. Mo Shiyun and her mother have already set up their tent for the night! Mo Shiyun is the definition of capable and clever!]

This time, the production team didn't provide a tent for the night. And thus, the guests had to build their own tents with limited materials. This tested their hands-on ability.

While the other celebrities began exploring the deserted island, Mo Shiyun and her mother had already finished building their tent. Their tent looked solid and beautiful. It seemed as though they didn't have to worry even if it was windy or rainy at night.

[Oh my, Shiyun is amazing! Her mother is also super nice and gentle! This duo had such great skills! They're so capable!]

[I agree! I want such a gentle mother as well! Shiyun is super amazing! Fighting!]

[Shiyun has to get first place this time as well!]

On the other hand, Jian Yiling and Jian Yumin simply settled for a meal before they started to explore the depths of the deserted island.

If they wanted to win, they had to find the puzzles and treasure chests that were hidden on the island. They had to manage to do this before the other groups.

However, exploring the island right now probably meant that they wouldn't be able to set up their tents in time for darkness.

Jian Yumin was concerned about this: "Yiling, why don't we set up a tent first? I'm fine with a little wind at night. However, I'm worried about you."

Chapter 374: Helping Jian Yumin Win (2)

"Let's find the treasure chests first. I've studied the first episode that aired. There are necessities stored with those treasure chests."

Jian Yiling replied to Jian Yumin.

"I know... But those treasure chests... They have passwords..."

The treasure boxes were scattered all across the island. Finding them was not that difficult. However, deciphering their puzzles were.

Each treasure box had a puzzle or question. The password would be given to you by solving the question.

Furthermore, there were many different types of questions. 80% of the questions and puzzles were very difficult. In fact, some would say that they were impossible to solve.

Without the correct password, one could not open the treasure chest.

And if you couldn't open the treasure chest, then you could only just stare at it.

20% of the treasure chests required the person to perform an action or task in front of the camera. These tasks were considered to be relatively easy.

"It's fine. Let's find those treasure chests," Jian Yiling replied. She reassured Jian Yumin. Although she didn't speak a lot, her tone was still firm.

"Okay," Jian Yumin replied. Despite agreeing, he didn't have the same confidence as Jian Yiling. However, since Yiling wanted to find the treasure chests, he might as well accompany her.

Around ten minutes later, Jian Yiling and Jian Yumin found their first treasure chest.

The question on this chest was a maths problem.

"Damn! Why is it such a high IQ question again? I swear the production team is intentionally torturing me!" Jian Yumin cried out. He wanted to wail as soon as he saw the question.

The comments started to 'mercilessly' mock Jian Yumin:

[Hahahahah, in the last episode, Minyu was tortured by a maths question. He suffered so much back then!]

[Poor boy. The feeling of not being able to open the chest when it's right in front of you must be so unbearable! Hahahaha!]

Jian Yiling eyed the maths question in front of her. She took out a pen and paper and started to do calculations.

The maths question wasn't that difficult. It wasn't advanced or higher-order mathematics. However, the way the question was worded made it incredibly confusing and complicated.

It only took Jian Yiling one minute to solve the question.

Then, she looked at the last six digits of her answer. Those numbers were used to unlock the treasure chest.

The viewers who were watching the live broadcast were all stunned:

[Holy! Minyu's sister is amazing! She solved the question within a minute! Her IQ is much better than Minyu's. Is she actually his sister?]

[Hahahahha, the person who is asking whether she's his sister, I'm suspecting that you're mocking Minyu!]

[Now I seem to understand why Minyu brought his sister to the show. She's so smart!]

And thus, the people who initially questioned Jian Yumin for bringing a weak girl like Jian Yiling to the reality show were slapped in the face.

When the chest was opened, Jian Yiling and Jian Yumin obtained a big bag of food and a clue card.

However, Jian Yiling didn't plan to stop there. She wanted to keep on looking for another treasure chest.

Soon after, the second treasure chest was found. This time, it was a detective puzzle. The question was incredibly long. It described a murderer's killing pattern and the murderer's crazy habits. There were also some relevant newspapers and calendar dates that were beside the question.

Jian Yumin was about to become crazy.

"I want to talk to the director about my life..."

What the hell was this question? Was this question meant for humans?

As Jian Yumin was howling in grief, Jian Yiling was already unlocking the chest.

This time, she solved the puzzle even faster than the previous time. Furthermore, not even pen and paper was needed. She just opened the chest directly.

Jian Yumin and the viewers in the broadcast were all dumbfounded.

"Yiling, how do you know the answer?" Jian Yumin asked. This was the question that was in everyone's mind.

And thus, Jian Yiling began to explain her thought process: “I analyzed the psychology of the murderer. He commits the crime regularly. Furthermore, every year, he kills at a specific time... ... The information provided in the newspaper and notes can be used to identify the murderer’s killing patterns. You can also speculate the murderer’s identity based on the information that we are given... ...The password is the murderer’s birthday.”

Chapter 375: Helping Jian Yumin Win (3)

As Jian Yiling explained her reasoning, Jian Yumin remained dumbfounded.

However, he knew that his sister’s reasoning was correct. After all, the treasure chest had opened.

This time, in addition to a clue card, there was also a tent inside the chest.

Upon seeing this, Jian Yumin was delighted. He had been incredibly worried that his sister would get cold at night.

And now, he had a tent! It wasn’t a tent that he had to hand-make either! It was definitely reliable.

The comments on the broadcast spammed: [666]

[Minyu’s sister’s IQ is so much better than his. Hahahahha.]

[Initially, I thought that Minyu would be carrying his sister. However, it seems as though the opposite is happening. She’s carrying Minyu instead. Minyu is difficult to carry, isn’t he?]

[From now on, I’m a fan of Minyu’s sister’s intelligence instead of her face!]

[I looked at her eyes. I’ve confirmed that it’s a level of IQ that I can’t reach.]

[Hahahhaa, it’s a level of IQ that Minyu can’t reach either.]

Jian Yiling didn’t stop there. She continued to search for chests with Jian Yumin.

Jian Yiling knew that Jian Yumin wanted to win quite badly. And thus, she had to open enough boxes in advance to make sure that they could win.

After studying the last episodes, Jian Yiling knew that most of the questions were detective related, maths-related, or science and history categories.

These questions were not difficult for her to solve.

And thus, the only thing that could prevent them from winning was if someone else found the chests before they did.

To prevent this from happening, Jian Yiling decided to search for the treasure chests on the first day.

After another fifteen minutes, Jian Yiling and Jian Yumin found their third treasure chest.

This time, they were quite lucky. It was the treasure chest that required the guests to perform certain actions.

Task description: [Sing ‘Qinghai-Tibetan Plateau’ into the microphone. Achieve a 90% match to complete the task.]

The task required the two people to sing together.

This meant that Jian Yumin had to sing with Jian Yiling.

The audience looked forward to hearing their performance:

[Waaaa, I'm going to listen to Minyu's soprano voice! I'm looking forward to this!]

[His soprano voice is superb! {Love hearts}]

[I'm looking forward to the brother-sister duet. It's going to be awesome!]

Jian Yumin glanced at Jian Yiling. Then, he began to confidently sing.

Jian Yiling opened her mouth. She tried to follow his pace with difficulty.

Then... The atmosphere froze.

Jian Yiling's singing voice... Was surprising... It was difficult to explain with a few words...

She was completely out of tune!

Jian Yumin attempted several times to bring Jian Yiling into tune. However, he failed to do so. In fact, he accidentally brought himself out of tune!

All of a sudden, the entire picture had changed.

The comments [Hahahahaha] were all over the screen.

Although the two siblings didn't succeed, the picture was unexpectedly cute.

However, as Jian Yiling couldn't sing well, she couldn't reach the 90% match that was required by the system.

And thus, in the end, the two of them could only give up on that treasure chest. Jian Yumin and Jian Yiling who had cracked two difficult treasure chests in a row now had to give up the chest that could be opened by merely singing.

[Hahahahaha] comments flew across the screen.

[Oh my goodness, Minyu failed at singing. This is probably something that he never would have imagined!]

[He has all the musical talent. His sister on the other hand has the IQ.]

[Why do I find it so cute when she sings out of tune?]

As Jian Yumin comforted Jian Yiling, they continued to search for the remaining treasure chests.

By the evening, the two siblings managed to solve five treasure chests. From those chests, they obtained a lot of supplies.

Then, the two siblings returned to the beach and started to set up their ready-made and advanced tent.

The other guests were stunned to see what Jian Yumin and Jian Yiling had achieved.

How did they get so many supplies? Did they move at lightning speed or something?

Chapter 376: In the Face of High IQ, Mental Dexterity is Worthless

“Wait, are there no passwords for the chests in this episode?”

One of the guests couldn’t help but ask this question.

If there were passwords, according to the difficulty of opening the chests in the previous episode, it would be impossible to open so many chests so quickly!

“Nah, I just saw a chest when I went for a walk along the beach. The question on the chest made me doubt my entire life. I just gave up and came back.”

Another guest replied to the other guest’s question.

The questions were still the same difficulty. In other words, insanely difficult.

However, Jian Yumin was no longer the same Jian Yumin from the previous episode.

It was as though Jian Yumin and Jian Yiling had become the landlords of the island.

They had a tent, food, and everything else that they needed.

The only thing the other celebrities could do was look at them in envy. Their mouths even wanted to drool.

Many of them had only eaten biscuits and plain bread for lunch. When they saw all the delicious cooked food in the hands of Jian Yumin and Jian Yiling, they couldn’t help but drool.

Mo Shiyun and Mo Huiqin also saw what was going on with Jian Yiling’s group.

The brother-sister duo had managed to get their hands on a lot of supplies. This meant that they had opened a lot of treasure chests and obtained the clue cards from within those treasure chests.

This wasn’t good news for Mo Shiyun. Mo Shiyun wanted to win this time as well.

[Where are those people who said Mo Shiyun’s tent was solid? Look at Minyu’s tent!]

[In the face of high IQ, mental dexterity is worthless!]

[Yeah! Where are the people that said Minyu’s sister is a burden? Come out and apologize to her! Minyu isn’t carrying his sister! He is being carried by his sister! Get it right! Other than singing, she’s great at everything else!]

[Some people had to work so hard to build a tent. However, in the end, they’re not as good as the brother-sister duo! Those groups simply don’t have the ability to answer a question in a few minutes.]

Mo Shiyun’s fans that had previously mocked Jian Yumin were now mocked back at.

However, Mo Shiyun’s fans refused to just accept these comments:

[So what if she has a high IQ? Mo Shiyun worked hard on her own to get to where she is today! Even if we can't beat her in IQ, we can beat her in the effort that we put in! Do you guys even know how hard she's been working? If you don't know her, you have no right to judge her!]

[Yeah, I agree! It's just a few correct answers, no? Mo Shiyun can solve those questions as well! She wouldn't necessarily answer the question incorrectly! Just watch when Shiyun starts opening chests!]

[Exactly! Shiyun opened several chests in the last episode! Stop acting like Minyu is the best or something. You're acting as though Minyu's sister is the only one who can open the treasure chest!]

Jian Yunnao was also watching the live stream at the moment.

He felt angry when he saw comments that were saying bad things about Jian Yiling.

However, he felt jealous when he saw that Jian Yiling was opening the chests when Jian Yumin.

Ultimately, he felt saddened to see how smart and lovable Jian Yiling was.

Either way, his heart was not at ease.

Watching the live stream was tantamount to self-abuse, but he still held onto his laptop. He refused to put his laptop down.

Life went on and his self-abuse continued.

When he saw the war between the fans, Jian Yunnao decisively decided to join in. He started to type things to support Jian Yumin and Jian Yiling.

When others were cursing the two of them, he countered their points vigorously.

In fact, it made it seem like he was a die-hard fan of Jian Yumin.

Furthermore, as of now, he could only use one hand to type. His other hand was still healing. However, he still kept typing away.

As Jian Yuncheng worked, he would occasionally glance at Jian Yunnao's screen. After watching for a while, he went back to his own work.

Wen Nuan was also watching her daughter in the next room. She felt relieved and saddened at the same time.

As Jian Shuxing watched the live stream, his heart felt as sour as lemon juice. It appeared as though the relationship between his daughter and his nephew was now better than theirs.

Chapter 377: The Battle of Wits (1)

Nightfall.

The starry night sky on the deserted island was exceptionally beautiful.

However, most of the guests on the island today were in no mood to enjoy the starry sky.

This was because the wind had started to pick up during the night.

The sea breeze blew down the 'tents' that they had worked so hard to set up during the day.

All the tents were blown down except for Jian Yiling and Jian Yumin's. The tent that the siblings had was a professional tent that was obtained by opening a treasure chest. However, the other groups were not so fortunate. The other groups had made their tents out of material that was found on the deserted island. The durability of those tents was very mediocre.

Even Mo Shiyun and her mother's tent was torn down. In the afternoon, Mo Shiyun's fans had bragged out this 'firm and sturdy' tent. Although their tent appeared to look incredibly durable, it could not withstand the gale either.

The two of them had to try to save their tent in the middle of the gale.

Jian Yumin and Jian Yiling each had a small tent to themselves. Furthermore, they had a sleeping bag in each tent.

The two of them slept in their respective sleeping bags. Furthermore, their tents were warm and firm. Their tents could withstand the wind that blew.

And thus, the contrast between Jian Yumin's group and the other groups was stark.

The fans of other idols were distressed. Their poor idols...

However, Jian Yumin's fans were all laughing and spamming [Hahahahah]

The next morning, Jian Yumin and Jian Yiling woke up refreshed from their sleep. However, everyone else had dark circles under their eyes.

Last night, the wind was so bad that the rest of them spent most of their time trying to rescue what remained of their tents. Whenever they heard the wind, they could not be at rest.

It was hard not to have dark circles under their eyes when they hadn't slept well all night.

Mo Shiyun and Mo Huiqin were no exception to this.

Mo Shiyun had to use a lot of concealer to cover her dark circles.

Then, it was time for breakfast. Jian Yumin and Jian Yiling had a very sumptuous breakfast. They each had a sandwich and a bottle of yogurt. They had gotten this from a treasure chest that they had opened yesterday.

On the other hand, the other groups could only look at them in envy.

After breakfast, Jian Yumin and Jian Yiling started their journey to find more treasure chests today.

The man who had approached Jian Yumin before about teaming up approached Jian Yiling and Jian Yumin again.

Once again, he suggested the idea of teaming up. However, this time, his mindset and attitude were completely different.

"Minyu! Please carry us! I don't want to win the competition. However, I just want to get some good sleep tonight!"

“Yes, yes. We will support you!”

The cousin of the male guest agreed to such a suggestion. The cousin was a strong and powerful man.

The two of them had all the strength in the world. However, no amount of strength was enough for the situation last night!

Before Jian Yumin could even answer, the comments section already started to guess what he would say:

[Give up. Minyu won't share his sister with you!]

[Minyu's sister is already tired from carrying Minyu. You can't burden her more! {Dog face}]

[Minyu: My sister is mine. None of you can steal her from me.]

Sure enough, Jian Yumin decisively refused. Everyone had guessed this already. “Sorry, my sister and I prefer to work by ourselves.”

After saying that, Jian Yumin pulled Jian Yiling away.

Today's treasure chests were not as easy to find as yesterday's. The easier ones had all been found by Jian Yumin and Jian Yiling already.

After searching for a while, they found a treasure chest that hadn't been opened yet.

Coincidentally, Mo Shiyun and Mo Huiqin were also standing in front of that treasure chest. The two of them were trying to open it.

This treasure chest required the guest to solve a puzzle. The puzzle had to be solved in order to get the code to open the treasure chest.

When the two groups met, the comments section exploded:

[Aaaaah! They've finally bumped into each other! Who is going to get the treasure chest? Will it be Xie Minyu and his sister or Mo Shiyun and her mother?]

[Can some certain fans have manners, please? Mo Shiyun got there first! It's first-come, first-served. Don't get in Shiyun's way!]

Chapter 378: The Battle of Wits (2)

Upon reading this, Jian Yumin's fans immediately retorted:

[The treasure chest hasn't even been opened yet. The show only says that the contents of the chest belong to who opens the chest. They never said that the chest belongs to whoever sees it first okay?]

[Yeah, that's right! You have to open it first before you say something like that!]

[How long has Mo Shiyun even been standing there? If you can't open it, give someone else a go.]

However, Mo Shiyun's fans continued to defend her:

[Of course, we'll open the chest. We're just worried that some people have bad manners. What if a certain group just grabs the chest from Shiyun's hands?]

[Only one guest managed to open a reasoning question treasure chest in the last episode! And that guest was Mo Shiyun! Do you guys remember that?]

The fans began to argue on the Internet.

However, Jian Yumin and Jian Yiling didn't plan to fight over the treasure chest. They decided to let Mo Shiyun have her go first. Instead, the two siblings sat down on a nearby rock.

Jian Yumin took out an orange that he had grabbed before they left. He started to peel the orange for Jian Yiling.

They had gotten the fruit from opening a treasure chest. No one else had fruits.

The siblings looked quite relaxed. It didn't appear as though they were in a hurry to answer the question.

Upon seeing this, Jian Yumin's fans immediately called out to Mo Shiyun's fans:

[Do you see that? Minyu doesn't plan to fight over the treasure chest!]

[The way he peeled the orange for his sister was so cute! Who said that he couldn't find a girlfriend?]

[I want to steal Minyu! I want to steal his sister as well!]

Although Mo Shiyun's face did not appear anxious, her heart was quite worried.

The question was focused on reasoning.

There was a lot of information that was given. You needed to find useful information amongst all the useless information. Furthermore, you had to use your reasoning to obtain the final password.

In the last episode, Mo Shiyun managed to crack one of these questions.

At that time, the viewers were impressed by her intelligence. They marveled over the fact that she was both good-looking and smart.

But this time, after reading the question, Mo Shiyun pondered for a long time. However, she still could not come up with the right answer.

Her mind was a mess. She had no idea how to solve the question.

Mo Huiqin could not understand such a question. And thus, she could only wait patiently for her daughter to solve the question.

As time passed, the viewers began to express their impatience:

[Can Mo Shiyun answer the question or not? If she can't answer the question, let someone else try the question. Is she just going to stand there and not leave?]

[Yeah, she's been standing there for such a long time already. Just forget about it. It's okay if you don't know how to solve the question.]

[Didn't she claim to be a high IQ goddess in the last episode? What's wrong with her now? If you can't do it, don't force yourself to stand there. There's no point in doing that.]

Once again, Mo Shiyun's fans refused to accept such comments:

[Do you live by the ocean or something? Why do you care about everything? The production team never specified a time limit to answer questions. Why do you care about how long she's taking to solve the puzzle?]

[What's wrong with taking longer to solve the question? Is she in your way or something? If you don't like watching Shiyun, then leave.]

[Certain fans are saying nasty things in order to give their idol a chance to open the treasure chest. It's as though you're not giving Shiyun any time to solve the question.]

After another five minutes, Mo Shiyun still hadn't solved the puzzle. She had tried several passwords. However, all of those answers were wrong.

And thus, Mo Shiyun had to give up.

She couldn't waste her time on a treasure chest that she couldn't open. If she did that, not only would she fail to open this chest, but she would also miss out on the other treasure chests.

Furthermore, Mo Shiyun didn't want the audience to see her foolishly attempting to open a chest.

And thus, Mo Shiyun left. As she passed by Jian Yumin and Jian Yiling, her eyes lingered on Jian Yiling for a moment.

Chapter 379: The Battle of Wits (3)

Jian Yiling did not pay much attention to Mo Shiyun.

When she saw that Mo Shiyun had left, Jian Yiling got up and went to the treasure chest. She flipped through all the information that was provided by the question.

Then, she quickly entered the password and opened the treasure chest.

Time taken: 75 seconds.

This was accurately timed by the netizens. At most, there was a three-second difference.

From the time that Jian Yiling had started to read the question to the time she opened the chest, she had only used a total of 75 seconds.

When compared to the time that Mo Shiyun stood hesitantly in front of the chest for almost half an hour, this 75 second had passed incredibly fast.

The audience was shocked. It hurt to compare the two of them.

Yesterday, they already knew that Jian Yiling's IQ was incredibly high. However, Jian Yiling's intelligence was magnified when they compared it to Mo Shiyun's IQ.

Jian Yumin's fans were overjoyed to see this:

[Oh my god. This is a bit too fast isn't it? Is Minyu's sister's brain a computer or something?]

[Hahahahaha, I don't know why but I want to laugh.]

[Minyu's sister is way too awesome! Mo Shiyun had been struggling with that question for so long! However, Minyu's sister managed to answer it in one go! How is that even possible?!]

[It turns out that some people's high IQ is merely by chance and luck. On the other hand, Minyu's sister's high IQ is a fact. It was proven to us yesterday when she opened so many treasure chests.]

[Where are the fans of Shiyun? Why don't you come out and explain the situation of your beloved idol?]

Previously, the fans of Mo Shiyun had said that there was nothing amazing about Jian Yumin's sister. They said that if Shiyun was given the chance, she could also open the treasure chests that Jian Yiling had opened.

And now, Mo Shiyun's fans were being verbally attacked by Jian Yumin's fans.

Despite what happened, Mo Shiyun's fans continued to defend Mo Shiyun:

[Well, she just solved a reasoning question! Shiyun can act and sing! She's a multi-talented actress, not a detective. Why would she need such strong reasoning skills?]

[Yeah! We don't need other people's approval. Shiyun is gentle and talented! We can protect her ourselves!]

[So what if she has a high IQ? It's as though she has facial nerve paralysis or something. Her face is cold and expressionless! Furthermore, it doesn't seem like she's easy to get along with. It would be exhausting to get along with someone like that. How can you even compare such a person with Shiyun?]

[Yeah! If you want to compete in something, then Shiyun can compete in singing! She has a beautiful voice! Unlike a certain someone who can't even sing in tune.]

As Mo Shiyun's IQ was not comparable to Jian Yiling's, her fans decided to bring up her other merits. It was just a single reasoning question. Mo Shiyun would not be defeated just like that!

At this time, Mo Shiyun and her mother hadn't walked far.

Mo Shiyun watched Jian Yiling as she opened the treasure chest.

She had just tried the question herself. Jian Yiling had accomplished what she had failed to do!

She looked at Jian Yiling for quite some time. Mo Huiqin had to tug at Mo Shiyun's arm a few times before they left.

After Jian Yiling opened the treasure chest, she obtained the clue card and supplies from within the chest.

Then, Jian Yumin and Jian Yiling continued to search for the next treasure chest.

Including this one, they had opened a total of six treasure chests.

The total number of treasure chests on the island was twelve. This meant that the other teams could only get the same number of clue cards as Jian Yiling and Jian Yumin.

Jian Yumin held the clue card in his hands with a gleeful expression on his face.

It felt that victory was in sight.

Popularity didn't matter to him! What mattered was winning!

The eight groups of guests searched the island for the entire day. Finally, the other seven groups obtained five treasure chests. The other seven treasure chests were opened by Jian Yumin and Jian Yiling.

It seemed as though what limited the speed of the two siblings was not the difficulty of the puzzles but their walking speed!

Chapter 380: A Bug in the Game (1)

If they walked faster, out of the five chests, the two siblings would have at least taken two.

Everyone knew how Jian Yumin performed in the last episode. They knew that he wasn't very good at solving the questions that were prepared by the production team.

And thus, this meant that their performance was purely based on his sister's contributions.

What happened to being a liability? What happened to just looking pretty? What happened to being a soft and helpless girl?

Things had turned out quite unexpectedly...

The other guests were looking at Jian Yumin with envious eyes. They were jealous that Jian Yumin had such a capable sister!

One of the male guests expressed their envy and jealousy towards Jian Yumin: "Minyu, where can I get such an adorable yet capable sister? Do I have to wait in line? Or do I have to draw lots?"

The male guest was known for being silly yet amusing. His fans were quite amused by his comment. The fans of other celebrities also started to spam [Hahahahaha] on the screen. In fact, even the other guests on the island started to tease him.

However, this male who was seemingly unthreatening caused Jian Yumin to become vigilant again. He stood in front of his sister to protect her.

"You can't get her anywhere! There's only one of her!"

The smugness in Jian Yumin's voice was overflowing as he said this.

[Hahahahaha, look how pleased Minyu is.]

[I'm announcing that I'm no longer a fan of Minyu! I'm now officially a fan of Yiling!]

[The other guests should just give up. You can't get someone like Minyu's sister through drawing lots! She's exclusive to Minyu!]

[Minyu: No male is allowed near my sister!]

The male guest was shooed away by Jian Yumin.

Jokes aside, the guests were now faced with a serious problem to solve. The problem was how to get off the deserted island.

This stage of the show wasn't supposed to happen so soon.

Based on the production team's initial plans, the guests weren't meant to open the treasure chests so quickly.

In the last episode, there were a few chests that were so difficult that none of the guests could solve them. And thus, the production team allowed the celebrities to interact with the audience. The viewers could provide them hints if the celebrity completed a certain task.

However... This part had been skipped in this episode...

They were forced to skip this part...

A bug in the game had solved all the difficult puzzles. She didn't even give the celebrities a chance to ask for hints or help.

And now, the groups entered the next stage ahead of time. They had to find a way to get off the deserted island using the clues on the clue card.

With more than half the clue cards in the hands of Jian Yumin and Jian Yiling, the viewers could not help but speculate on what would happen next.

[According to Xie Minyu's stingy nature, he's probably going to hold onto the seven clue cards so he can win the competition.]

[How can he win the competition with only seven clue cards? His selfish behavior will only cause everyone else to be stuck on the deserted island with him.]

[Well, he wouldn't even let anyone close to his sister. Can't you see how much he wants to win?]

Suddenly, all the comments were filled with malicious speculation about Jian Yumin. Did Mo Shiyun's fans change the atmosphere of the broadcast?

At this moment, the other guests were also unsure of what Jian Yumin and Jian Yiling planned to do.

At this point, Mo Shiyun, who held two clue cards in her hands, came forward to speak.

Her voice was gentle and soft. Her tone made it sound like she was open for discussion: "Why don't we exchange clue cards? To be fair, we will exchange five clues for five clues. You can keep the remaining two. This way, you can see all the clues. If we don't do this, we will just be stuck here. We can't achieve anything if that happens."
