

Sidekick 411

Chapter 411: Memo Name

When Jian Yiling walked out of the venue, her phone received a message from a person with the memo name [Pretty Lady Boss.]

[Dr. F.S, I've done all the things that you asked me to do. I looked up the information that you wanted and sent you it.]

A few days ago, Jian Yiling had asked this person to help her find some information.

[Thank you.]

[You're welcome. Feel free to contact me if you need anything. Also, I'd like to tell you something. Do you remember Mo Shiyun? She's the girl who had a conflict with you last time. She's going to star in a big movie. Someone invested a huge sum of money into that movie! I found out that the investor behind this movie is He Yan. If I'm not mistaken, isn't He Yan your second aunt? Thirty years ago, she married your second uncle. Back then, there was major media coverage about this.]

Very few young people knew about He Yan nowadays. However, back in the day, He Yan was tremendously popular for a while.

[Mhmm.]

[Ahh, I should have guessed that you're not interested in this matter. I just feel a little sad~~ Anyways, you looked super handsome when you were competing in the tournament! I love you so much~]

Jian Yiling automatically ignored the last message that the other party sent. Instead, she clicked on the information that the other party had sent to her.

It was information that was related to Jian Yubo.

Jian Yiling wanted to figure out Jian Yubo's motive and purpose. If she knew these two things, she could find the most effective way to solve the current problem.

As of now, Jian Yiling knew what Jian Yubo had been doing in recent years. She had heard of this from Zhai Yunsheng.

Jian Yubo already had his own business. Although it still couldn't match the Jian family's business, with his ability, there was still room for him to grow his business in the future.

This information also supported the contents of her dream.

However, according to the original plot, the Jian family had not passed their business to Jian Yubo in the year where Jian Yiling had turned fifteen.

The original plot had not mentioned any change in the ownership of the Jian family's businesses and assets. However, from Mo Shiyun's point of view, she had briefly mentioned that Jian Yuncheng had been managing the Jian family's business.

When Jian Yiling put away her phone, Yu Xi, who was next to her, caught a glimpse of the memo name.

And thus, Yu Xi curiously asked Jian Yiling: “God Ling, what is your memo name for me?”

Jian Yiling opened her contacts list and let Yu Xi see it for himself.

Yu Xi saw five words: [Gang Leader of Ace Shooters]

Upon seeing this, Yu Xi was about to cry: “God Ling, I’ve changed my in-game name ages ago... Please change my memo name! Change it to Brother Yu Xi or Brother Xi! Even Brother who Lives Next Door is fine! All those names are better than that one!”

Next to him, Jian Yujie mocked Yu Xi mercilessly: “Well, why did you pick such a name in the first place? It sounds so silly!”

Yu Xi, who was mocked by Jian Yujie, hurriedly glanced at Jian Yiling’s contact list again. He wanted to see the memo next to Jian Yujie’s name.

However, he was disappointed to find out that Jian Yujie’s memo note was [Brother Yujie.]

Hmph! That was so uninspiring! (ノ^_^)ノ

Then, Yu Xi asked Jian Yiling: “God Ling, what’s Master Sheng’s memo name?”

Jian Yiling pointed her finger at one of the names.

Yu Xi glanced in the direction that Jian Yiling was pointing. He saw three words: [So Many Suns[1]]

Yu Xi was incredibly puzzled: “God Ling, why is Master Sheng’s memo name so many suns?”

Zhai Yunsheng had been listening to their conversation. The corners of his lips were upturned and he had an evil smile on his face: “Oh? Are you making fun of my name?”

Jian Yujie snorted before he pushed past Zhai Yunsheng. He pulled Jian Yiling away and said: “Yiling, let’s go and eat food.”

When he saw Zhai Yunsheng smiling evilly at his sister, Jian Yujie felt incredibly uncomfortable.

Other than playing games together, Jian Yiling didn’t need to spend much time with such a person! There was no need for that!

Yu Xi was still puzzled by Master Sheng’s memo name: “Wait, did you understand your memo name already? Am I the only one who doesn’t get it? Am I even on the same page as you guys?!”

[1] Translator Note: The characters in Zhai Yunsheng’s name use characters of the word sun or ri

Chapter 412: He Yan’s Assets Are Used as Collateral (1)

Back at the hotel, everyone went into their own rooms to rest. There was a match against another team tomorrow.

When Zhai Yunsheng returned to his room, his bodyguard reported:

“Master Sheng, there has recently been a group of people from international organizations that arrived in Tonghai City. They arrived around the same time as us. They were previously in Hengyuan City as well.

Back then, we thought that such an occurrence was a mere coincidence. However, they have now followed us all the way to Tonghai City. It's hard not to suspect that they're coming after you."

The Zhai family had made a lot of enemies. And thus, there were many people who wanted to act against the Zhai family.

Zhai Yunsheng didn't even open his eyes. He didn't react to the words.

In fact, he wasn't even bothered to say a word.

This had happened to him many times in the past.

He had always been indifferent about such a thing. If someone wanted to make a move against him, then so be it.

In fact, Zhai Yunsheng's bodyguard was also used to his indifferent reaction.

Although Zhai Yunsheng didn't take the matter seriously, as his bodyguards, they had to be alert of these things. They had already informed the Second Master of the Zhai family.

As soon as he heard of this, the Second Master of the Zhai family had already mobilized more security personnel to come to Tonghai City.

###

When He Yan turned her television on, she discovered that she was the investor behind the movie that Mo Shiyun was starring in.

In fact, she had invested 200 million dollars into the movie! Part of that money was even borrowed from the bank!

She had used the house that they were living in and all her shares in the Jian family business as collateral.

He Yan was dumbfounded.

She had given her assets to Jian Yubo to manage. She wanted him to help her make money.

Investing in movies was indeed a good way to make money. However, it was way too risky to do this. If you weren't careful, you could potentially lose all your money.

It was especially likely to lose your money in movies that had high production costs. One would be required to pay the actor a huge salary.

What made He Yan even more uneasy was the script of the movie and the actors that were meant to star in the movie.

The script for the movie was based in ancient war times. There were scenes where two armies were at war. This meant that hundreds and thousands of people were required to be on set.

Furthermore, all the actors required high salaries. They were celebrities that had become popular purely due to the influence of the Internet

In fact, most of the production costs were spent on the actors' salaries.

He Yan, who used to be an actor, immediately sensed that something was wrong. She felt that the script for the movie and the list of actors was incredibly unreliable.

The more she thought about it, the more she felt that something was wrong. And thus, He Yan found the hotel where Jian Yubo was staying.

She wanted to see him. However, she was stopped at the door.

"What are you doing? I'm his mother!"

He Yan was already in a hurry. She was even more furious when she was stopped by a few hired security guards. Did they not have the ability to make a judgment?

She had come to see her own son! And someone dared to stop her from entering the room?!

"I'm sorry madam. Our boss has told us that he's not available for guests."

"He's not available for guests! But I'm not a guest! Can't you tell the difference?" He Yan cried out.

Why did Jian Yubo hire such a security guard?!

The security guard remained where he was standing. He still blocked the doorway. He had no intention of moving out of the way.

And thus, He Yan took out her mobile phone and called Jian Yubo's number.

No one answered for quite some time.

He Yan's anger level skyrocketed.

He Yan went straight to the receptionist of the hotel. She requested for them to open the door for her.

However, the receptionist of the hotel told her that they had to respect the wishes of the guest. Even the guest's mother did not have the right to ask them to open the door.

Just when He Yan was about to try and smash the door open, the door finally opened.

As soon as the door opened, He Yan rushed in. By this time, she was panting with rage.

Then, she saw Jian Yubo. He was seated next to a French window.

Jian Yubo was dressed in casual clothes. His face was expressionless and his whole body had an aura of detachment and indifference.

In front of him was a Go board. Many black and white pieces had been placed on the board already.

However, he was the only one who was playing.

He Yan's presence hadn't affected him. He did not even raise his head to look at He Yan.

Chapter 413: He Yan's Assets Are Used as Collateral (2)

“What the hell is wrong with you?! You didn’t answer your phone and you didn’t answer me at the door either!” He Yan angrily questioned her son.

“I don’t like to be disturbed when I’m playing Go,” Jian Yubo replied.

“You! But I’m your mother!”

“What do you want?” Jian Yubo asked indifferently.

His eyes were still on the Go board. His index and middle fingers pinched a black piece that he prepared to play.

The indifferent attitude of Jian Yubo made He Yan incredibly angry. She didn’t know what she was meant to do.

“Yubo, I want to ask why did you take all my assets and invest them into a movie that’s likely to lose money? Also, why did you cast Mo Shiyun as the female lead in this movie?”

“Because you think that she has potential,” Jian Yubo replied.

“You... I... When did I say that she had potential?”

“Well, you gave all those resources to her.”

“But... But that’s not the same thing! I told you to give her enough resources to help her become a celebrity! I didn’t say...”

“Well, if you don’t think she has potential, then why did you invest in her?” Jian Yubo replied. He spoke like an emotionless robot.

“That’s my business!” He Yan retorted. Her expression was incredibly ugly as she said this. “Anyway, you told me that you were going to help me get the Jian family’s fortune! You can’t just lose my money like this! You have to stop the production of this movie!”

“It’s too late,” Jian Yubo replied. His tone didn’t change as he said these three words.

Upon hearing these three words, He Yan felt her blood pressure go up. “Yubo! You’re trying to kill me with this move! With that vision, how are you still planning to compete with Jian Yuncheng in the first place?!”

Jian Yubo had no investment vision at all! He was not comparable to Jian Yuncheng.

He Yan began to regret her previous decisions. She shouldn’t have given him all her assets just because he had helped her gain a small profit at the start.

It was good that he had the heart to help her get the Jian family’s assets and fortunes.

However, she should have realized that Jian Yubo was merely a Go player! He didn’t know anything about investing!

Previously, he had just been lucky!

He Yan took a deep breath before she said: "Well, you have to fix this situation! This is incredibly important to me! I worked hard for this! Especially my shares in the Jian family! I can't lose those shares!"

"The property was given to you by my father when you got married. After you got married, the shares were given to you by Grandpa Jian. Did you even work hard for these things?"

He Yan choked.

It was true that most of her current assets had been given to her by the Jian family.

The money that she had made as an actress had been squandered already. If not, she wouldn't have embezzled money from the Jian family's charity fund in the first place.

He Yan questioned Jian Yubo: "What do you mean? Are you mocking your mother? So now, you have a reason for losing your mother's assets?"

Jian Yubo slowly placed down the black piece that he was holding. He finally turned his head to look at He Yan.

"I promised you that I would help you. I won't go back on my word."

These words cooled He Yan's temper. However, she still couldn't let go of the matter: "Yubo, I'm glad that you're willing to help me. However, the method that you're using is incredibly unreliable and risky! It's really easy to lose money on such a movie!"

"You don't have a choice," Jian Yubo replied.

Even if He Yan was unwilling, it had already happened.

Once you've started something, there is no turning back. He Yan's assets had been used as collateral.

If the movie lost money, then all her assets would be taken away by the bank as well.

"Well, you better hope that the movie is a success! If not, the house that you grew up in will be gone! In fact, my shares would be gone too! My money will be your money in the future. It's your own money that you're screwing over. Do you know that?"

Chapter 414: Let's Give All Our Money to Jian Yubo

He Yan lost her temper for quite some time. Then, she said to Jian Yubo with red and puffy eyes: "I just really want you guys to be successful in the future. I want you guys to be able to maintain the family business. That's why I forced you guys to study finance in the first place. If you listened to me back then, you won't have invested in such a project. Ahh..."

Jian Yubo was silent as He Yan said this.

He Yan's words did not arouse the slightest sliver of emotion in him.

His emotions did not stir. There was no anger. In fact, he just calmly listened to her.

It was as if he was a spectator.

Although he was part of what was happening, his heart was not part of what was happening. It was as though this didn't matter to him.

Jian Yubo's attitude made He Yan lose her temper for almost half a day. However, most of her anger hadn't yet lessened. Instead, she began to feel anxious.

However, she knew that she couldn't change anything even if she asked him questions right now.

Now, the only thing that she could do was to find a way to ensure that the movie could be shot and aired without a hitch.

With this in mind, He Yan hurriedly left Jian Yubo's room. She started to contact people that she knew in the entertainment industry.

She wanted to minimize the damage and loss.

###

Jian Yiling participating in a tournament would have been an incredibly exciting thing to watch for Grandpa Jian and Grandma Jian. If that had happened at any other time, the two of them would definitely follow the whole tournament with great interest.

In fact, it was possible that they would have even gone to Tonghai City to cheer on their granddaughter personally.

However, things had happened to the Jian family recently. Due to this reason, Grandpa Jian wasn't in the mood to watch the tournament.

"Old man, don't worry about it too much. Jian Yuncheng's company is doing quite well! Furthermore, the tournament this time is attracting a lot of attention too! We're too old to worry about a lot of things. Even if our family business ceases to exist, we still have real estate under our name. We won't starve."

Grandma Jian attempted to console her husband.

Grandpa Jian sighed before he said: "If an outsider had put our family into such a predicament, I would have nothing to say... However, the person who did this was Yubo..."

Grandpa Jian's heart ached. It was painful that his own grandson was destroying their family business.

At their age, the old couple wanted nothing more than peace and harmony in the family.

As they were talking, Grandma Jian's phone rang. Jian Yiling was calling Grandma Jian.

Grandma Jian immediately answered the phone: "Darling, what's wrong? Do you miss me? Do you want me to come over tomorrow to keep you company?"

Their darling didn't travel much. Although Jian Yujie was accompanying her on this trip, Grandma Jian was still not quite at ease. She was still worried about her precious granddaughter.

"No, it's not that," Jian Yiling replied. She didn't know how to phrase her words. After a pause, Jian Yiling organized her words and said, "I... Sent... Some useful information... To Grandpa Jian."

When it came to family relationships, Jian Yiling still stumbled a bit on her speech.

Grandma Jian immediately called out to Grandpa Jian: "Hey, our darling said that she sent you some useful information. Hurry up and take a look!"

Grandpa Jian had been in his study for quite some time. He had been worrying about their family's predicament. Due to this reason, he hadn't read his messages.

When Grandma Jian reminded him, he opened his phone. Then, he saw the message that his precious granddaughter had sent him.

When he opened the message, Grandpa Jian was shocked.

This information...

Upon seeing her husband's expression, Grandma Jian hurried over to read the message as well. A surprised expression surfaced on her face.

Grandma Jian put the call on loudspeaker: "Darling, where did you get this information from?"

"From a friend."

"You should thank that friend."

"Mhmm," Jian Yiling replied. After a pause, she continued to speak: "Let's give all our money to Jian Yubo. Is that okay?"

Jian Yiling's request made the old couple pause.

They looked at the information in their hands and carefully thought about Jian Yiling's suggestion.

Chapter 415: We Support Her Decision

Grandma Jian could not make a decision on this matter. And thus, she could only wait for her husband to make a decision.

Grandpa Jian pondered about this for quite some time.

The reason why he refused to give the family business to Jian Yubo was that he was angry.

Grandpa Jian would rather destroy their family business than hand it over to someone who had indirectly threatened him.

However... If Jian Yubo hated...

If that was the case, then perhaps, he was willing to hand over their family fortune to Jian Yubo.

Grandpa Jian said to Jian Yiling: "I'll think about this matter. Please don't worry. I'm still young. I can protect our family."

"Mhmm," Jian Yiling replied.

After hanging up the phone, Grandpa Jian and Grandma Jian had a long discussion.

Finally, a difficult decision was made.

Then, Grandpa Jian called Jian Yubo to come over to the Old Jian Residence.

As soon as he arrived, Jian Yubo asked Grandpa Jian: "Have you made your decision?"

"Yes, I've decided." This time, Grandpa Jian's tone was much calmer. "However, before I tell you my decision, I want to tell you why I made this decision in the first place."

Jian Yubo didn't reply. Instead, he looked at Grandpa Jian and waited for him to continue.

"It was your sister. She found a bunch of information. Then, she asked me to give you the family's fortune."

Grandpa Jian's words broke the calmness and composure on Jian Yubo's face.

Grandpa Jian's words shouldn't have surprised him.

Back then, she had stopped him with her small body. She had asked him the same thing.

Grandpa Jian continued to speak: "I don't know who she asked nor how much time it took her to find this information... However, she heard about the words that you confessed to your Go teacher."

Jian Yubo rarely revealed his thoughts to anyone.

The only time that he did was with his Go teacher.

His teacher had asked him why he exhibited such antisocial and hostile behavior.

His teacher could sense Jian Yubo's behavior. It was not obvious to most people, however, it was easy to read from how he opened a match in Go.

His teacher had told him that he would not become a top Go player if he kept revealing such things about himself.

To be a top Go player, one must learn to be calm.

Then, his teacher asked him to tell him why he was angry in the first place.

That was the only time when Jian Yubo had revealed his innermost thoughts. He revealed the hatred that had been burned into his heart during his childhood.

Jian Yiling had asked someone to contact Jian Yubo's teacher. She had gotten this information from Jian Yubo's teacher.

This was the only way that they could understand Jian Yubo's actions.

Grandpa Jian stared at Jian Yubo: "Your sister said that she was willing to give you the entirety of our family's fortunes. After your grandma and I discussed the matter, we've decided to support her decision. I think she still wants you to be part of our family."

Grandpa Jian's words finally caused a slight change in Jian Yubo's expression.

When Jian Yubo opened his mouth to speak again, he spoke with a little emotion in his words: "She's still the same as before."

Jian Yiling was still the same little girl.

She was a fool. A little fool who would not hesitate to give him all her money just because he said so.

As the princess of the Jian family, what she valued was never money. Instead, she valued her family.

To her, her family was priceless.

Whether she was asked to hand over her possessions or the entire Jian family fortune, she was willing to do either.

However, very soon, Jian Yubo reverted back to his indifferent demeanor.

He asked Grandpa Jian to sign a transfer of shares. This meant that all the shares that were under Grandpa Jian's name were moved under his name.

The shares of the Jian family were initially all in the hands of Grandpa Jian and his wife. However, as their family grew, the shares were gradually divided up among the family members.

Chapter 416: Hope Our Decision is Correct

Whenever there was a new addition to the family, whether it was a new baby or a new daughter-in-law, the old couple would give them shares of the Jian family.

However, most of the shares were still in the hands of Grandpa and Grandma Jian.

Jian Shuxing and Jian Shuhong only had management rights for a small shareholding in the company.

Grandpa Jian signed the agreement.

Once signed, this meant that there was a transfer in the ownership of the shares.

Now, Jian Yubo was the largest shareholder of the Jian family.

Then, Grandma Jian said to Jian Yubo: "There's also the shares that your sister is currently holding. However, she's not here at the moment. When she returns from her tournament in a couple of days, you should come over again. She said that she's willing to give you the shares that are under her name as well."

Jian Yubo paused for a moment.

Then he said: "I don't want her shares."

Jian Yubo rejected Jian Yiling's offer.

Then, he took the transfer agreement and walked out of Grandpa Jian's study.

As Grandma Jian watched Jian Yubo leave, she commented with concern: "I hope we made the correct decision this time..."

###

At dinner time, everyone gathered in the dining hall of the hotel where they were staying.

This was the dining venue that the officials had provided.

Last night, Jian Yiling and the others had eaten in their own rooms. Due to this reason, they hadn't come down.

Today, everyone was in the dining hall.

As soon as they entered the dining hall, everyone's eyes fell on them.

There had been several matches today. However, the one between [Domination] and the foreign team was undoubtedly the most exciting one.

It was still a hot topic of conversation on the Internet.

[Domination] had beaten all the other teams in terms of popularity.

Qin Yufan was also there. She was allowed to come to dinner with the team that she had invested in.

As soon as Qin Yufan saw Zhai Yunsheng, she walked straight towards him.

"Master Sheng," Qin Yufan greeted. She smiled and her expression was confident.

Zhai Yunsheng ignored Qin Yufan as usual.

However, Qin Yufan didn't feel awkward. She continued to speak to him: "Master Sheng, it was my fault for wanting to give you that gift before I knew what was going on."

"Keep talking to yourself," Zhai Yunsheng sneered.

No one needed her gift in the first place.

"Master Sheng, it seems as though you have prejudice against me?"

"Not really," Zhai Yunsheng answered. His tone was incredibly indifferent.

After saying that, Zhai Yunsheng walked away. He went to the empty table in the far corner with his teammates. He didn't even look back.

Qin Yufan smiled. She wasn't angry at all.

The members of [Chasing the Clouds and Victory] felt bad for their boss.

The team members were all around the same age as Qin Yufan.

In their eyes, Qin Yufan not only came from a good background, but she also had the ability to do things. She had her own way of thinking and opinion when it came to doing things.

It would be an understatement to say that she was their goddess.

However, Zhai Yunsheng had been so cold to such a girl!

In fact, he had done such a thing in front of so many people! He was blatantly trying to embarrass her!

The man from [Rely on Others] that had picked a fight with Yu Xi looked at Zhai Yunsheng and Jian Yiling with unfriendly eyes.

As Zhai Yunsheng and the others passed by, he deliberately raised his voice and said to his teammates:

“A certain team just won one game and the Internet is already praising them so much. Do they really think that they can win the tournament?”

“Ahh, forget it Peng Jie. Don’t mess with them,” his teammate advised.

“Well, I’m just stating a fact. I’m not messing with anyone,” Peng Jie replied.

His teammate whispered back: “You were only mad at them at first because you thought the rumor was true. Your friend’s team was placed twenty-one and didn’t manage to get into the tournament. However, they’ve proved themselves already. They didn’t buy their spot in the tournament. There’s no need to be upset with them anymore.”

“Why do you care about what I think? Are you asking me to go up and apologize to them?!”

Chapter 417: You’re Too Noisy

Peng Jie ignored his teammates’ advice. He continued to mock them: “We don’t know who will win or lose tomorrow’s game yet. However, the Internet is saying that we will definitely lose. Man, it’s nice to have money. Spending money on such things is fine, isn’t it?”

Peng Jie had argued with Yu Xi yesterday. Everyone was present when they argued.

He didn’t want to admit that he was at fault. And thus, this meant that he had to find fault in the members of [Domination.]

If he didn’t do so, it would be his fault.

Peng Jie’s words were all about the members of [Domination] spending money to build up their reputation.

However, no one paid attention to him. Peng Jie complained for quite some time. He didn’t mention any names but anyone who could understand Chinese knew that he was dissing the four members of [Domination.]

He was speaking for almost half an hour when Zhai Yunsheng suddenly spoke up.

“You’re too noisy. It hurts my heart.”

Not many people reacted to such a comment. However, Qin Yufan shook her head and laughed lightly. She looked at Peng Jie with amusement. Something was definitely going to go down.

It was the first time that Jian Yiling had ever heard Zhai Yunsheng say this.

It wasn’t that he didn’t say those words often. Rather, there wasn’t much opportunity for him to say it before.

Anyone who had a brain wouldn’t have annoyed Zhai Yunsheng.

This member of [Rely on Others] clearly didn’t have a brain. He took Zhai Yunsheng for an ordinary person.

He only knew that the four people that were seated at the next table were all from good families.

However, he didn't know how powerful their families were. He didn't know what kind of person Zhai Yunsheng was either.

As soon as Zhai Yunsheng said this, the bodyguards that had been quietly standing on the sidelines took action.

They surrounded the four members of [Rely on Others.]

When Peng Jie saw this, he panicked. However, he was still reluctant to admit his mistake: "What are you doing? Are you playing dirty?! You'll be disqualified if you cause a fight! I'm going to expose your shameless behavior on the Internet! Let's see if people still plan to be a fan of you guys!"

When Peng Jie took out his phone, he couldn't manage to unlock it. He couldn't click or open anything. This meant that he was unable to take any pictures or record any videos.

"Huh? Why is my phone not working?!"

When his teammates saw this, they also looked at their phones. They realized that they couldn't do anything on their phones either.

It was evident that this had something to do with the bodyguards that were surrounding them.

Their phones had been fine just now. However, after the bodyguards surrounded them, their phones had suddenly stopped working.

Peng Jie assumed that Zhai Yunsheng's bodyguards planned to use fists. Wasn't that the easiest way to deal with someone? To use one's fists to beat them into the ground?

However, Peng Jie knew nothing about Zhai Yunsheng and the Zhai family. His thoughts were too simple.

The Zhai family never used violence if they wanted to handle a person.

After a while, their phones started to work again. Peng Jie received a call from his family.

The call took all the blood out of Peng Jie's face.

He got up in a daze and stared at Zhai Yunsheng.

He knew that the bodyguards were all under this man's command. Through this, he figured out that this man was responsible for what had just happened as well.

Peng Jie looked at him with shocked eyes.

He had only said a few words... However... This person made his father, mother, and sister lose their jobs!

Peng Jie was about to head in the direction of Zhai Yunsheng.

But when he took one step, his path was blocked by Zhai Yunsheng's bodyguards.

Zhai Yunsheng was eating. He took a glance at Peng Jie and said: "If you win the match tomorrow, I'll return everything back to normal. However, if you lose, forget about everything."

Chapter 418: Giving You An Incentive to Win

“You... Why would you do this...”

Peng Jie had never expected such a thing to happen when he had been complaining about the other team.

In his point of view, at most, he would have gotten into a fight with the other person.

And thus, Peng Jie hadn't been afraid at all.

He was convinced that the other person wouldn't fight him. Fighting another player meant that you'd get disqualified.

However, this person didn't play by the rules!

Just because he said a few words that upset him, Zhai Yunsheng had just ruthlessly ruined his family!

“I see that your mind isn't on the game at all. I'm just giving you an incentive to win. That might help you focus on the game.”

As Zhai Yunsheng finished speaking, he realized that lamb chops in front of him were taken away by a pair of small hands.

He had been just talking to someone!

“Can't you save a piece for me?” Zhai Yunsheng frowned.

Then, Jian Yiling brought a plate of vegetables in front of Zhai Yunsheng.

However, Zhai Yunsheng wasn't satisfied with this. Jian Yiling hadn't cooked these vegetables.

After he looked at Jian Yiling's serious face, he eventually gave in.

Ahhh, vegetables it is then...

###

Although Jian Yiling hadn't entered the entertainment industry, she had still become famous. In fact, she was catching up with the popularity of the new actress Mo Shiyun.

By the second day of the competition, the popularity of the team [Domination] had increased dozens of times compared to the first day.

The support banners for their team were also ready. These banners could be seen throughout the entire venue.

In fact, there were also support banners for each of the four players.

Jian Yiling and Zhai Yunsheng had the most individual banners.

However, this was to no surprise. Jian Yiling and Zhai Yunsheng had the advantage both in terms of looks and skills.

Today's match was between [Domination] and [Rely on Others.] It was an internal battle between the two domestic teams.

The match began with a change in strategy from yesterday. Zhai Yunsheng and Jian Yiling moved together from the start.

This time, they weren't focused on killing Zergs.

It looked as though the two of them were taking a stroll.

The remaining two players of the team were still trying their best to kill Zergs.

Jian Yiling and Zhai Yunsheng's actions caused the audience and viewers to feel incredibly confused.

[Huh? What's going on? Why are J10 and ZYS acting so differently today?]

[Yeah, this is so weird! Why aren't they killing Zergs? It seems as though they're just strolling around and doing nothing. What's the point of that?]

[Is this some sort of new strategy? I'm so confused.]

Following this, some haters began to comment on negative things again.

[Maybe this is how they play in the first place.]

[What's the point of playing in the tournament if you're not playing seriously?]

[What the hell are they doing?! I'm here for action. I want to see the mechanics. I'm not interested in watching the two of them take an idle stroll.]

[Psh, are these the players that you were praising? This is utterly a joke! My eyes are going blind from watching them!]

[Can they play the game already?!]

The haters took every opportunity to comment hateful things.

Even if something happened, later on, no one would know who was seated behind a computer screen.

They would continue to type these things when they had a chance in the future.

Jian Yiling and Zhai Yunsheng walked on the edge of the map. They circled into the territory of their opponents.

In the tournament realm, the two teams were brought to opposite ends of a symmetrical map. Usually, the two teams were only able to meet in the second half of the match.

Chapter 419: Torture a Man's Heart Rather than Severing His Body

[Domination] had forgone the best time to kill Zergs. Instead, at the beginning of the game, they went around half of the map to arrive at the opponent's territory.

When they saw the members of [Domination], all four members of [Rely on Others] were shocked.

The match had just begun. Why were they here?

This game was about killing Zergs. You couldn't kill your opponent. The only way players could die was if they were killed by Zergs.

And thus, even if they traveled across the map, they couldn't fight each other!

Then what was the point of them going halfway around the map? Wasn't that just a waste of time?

The four members of [Rely on Others] were in a daze.

Suddenly, they saw Jian Yiling and Zhai Yunsheng start to kill Zergs like crazy.

One after another, their kill notifications popped up on the screen.

When the members of [Rely on Others] tried to kill a Zerg, they realized that there were no more Zergs left on their screen.

When they rushed forward, they realized that Zhai Yunsheng and Jian Yiling were following them around like spirits. They followed them everywhere they went.

However, Jian Yiling and Zhai Yunsheng were better at the game than members of [Rely on Others.] This meant that they were more accurate with their shots. They could always kill the Zergs before the members of the other team even realized what was happening.

Even if they discovered Zergs at the same time, the players on the other team were not good enough. And thus, they could only watch Jian Yiling and Zhai Yunsheng steal away their kills.

As the scene unfolded in front of them, the viewers and the members of [Rely on Others] realized the reason why the two of them had traveled across the map. Jian Yiling and Zhai Yunsheng had trekked across the map to steal all their kills!

They would kill all of the Zergs on the opponent's side. This meant that the opponent had no Zergs to kill!

[Oh my goodness, isn't this dog of them? However, I love this!]

[I'm laughing my ass off. If I was on [Rely on Others], my mind would be so unstable right now!]

[Where are the people who were dissing the two of them? They're not being foolish. They're torturing a man's heart instead of severing his body right away! Look at the point difference now!]

[Wow! The point ratio between these two teams is almost 10 to 1! This would hurt!]

Yesterday, [Domination] had doubled the points of the foreign team. This was already incredibly impressive already.

However, the point difference was scary today! It was a 10 to 1 ratio!

If both of the teams had started off on their own side, the point difference wouldn't have been so large.

After all, all the players in the offline tournament were decent. When the number of Zergs was high at the beginning, you could achieve kill streaks.

However, no matter how many multi-kills or killstreaks you got, you wouldn't be able to achieve ten times the opponent's score.

However, the situation right now was different.

The players of [Rely on Others] couldn't even kill Zergs.

If they couldn't kill Zergs, they wouldn't be able to get points.

And thus, the difference in points between the two teams was much larger than usual.

Furthermore, you couldn't even blame [Domination] for doing this. The players were all in the same place. This meant that it was up to their skills to get points.

If the players of [Rely on Others] were skilled enough, then [Domination] would have wasted their time. They would have run across the map for nothing.

[The difference in skill and strength is even more obvious! This is a complete crush!]

[Oh my god, God Ling is so handsome! {Heart Heart}]

[Lingling, I love you~ Mua~ Mua~]

[Ahh, ZYS is so handsome! I want to have your children~~]

Chapter 420: Making Master Zhai Jealous

In front of the computer, Master Zhai was also watching his grandson's game.

When he saw someone posting a comment about wanting to have Zhai Yunsheng's children, Master Zhai snorted. If his bastard of a grandson was willing to have children, he would have done so ages ago!

Master Zhai was delighted that his grandson would take part in this kind of activity.

However, the thing that caught Master Zhai's attention this time was the fact that Jian Yiling was playing on the same team as Zhai Yunsheng.

Although Master Zhai didn't know too much about gaming, he could tell that out of his three teammates, Jian Yiling was the one who coordinated with Zhai Yunsheng the best. Their mutual understanding was unmatched by the others.

It was that little girl again.

His grandson kept making exceptions for her.

However, this was good news.

Master Zhai asked his subordinate: "I remember that you said that this girl is fifteen years old. Is that true?"

"Yes, it is."

"Ahhh, she's fifteen... That means she'll be eighteen in three years," Master Zhai pondered. "Three years is a bit long... But for now, I don't seem to have any better options."

There were girls that were already eighteen. However, Zhai Yunsheng wasn't interested in any of them.

Master Zhai couldn't force Zhai Yunsheng to be interested in someone. That would be akin to driving a duck onto a perch!

Then, Master Zhai took another look at the girl on the screen. He couldn't help but frown: "But this little girl is a bit too small. It will be difficult for her to bear children. She has to become more sturdy."

"Master Zhai, although Miss Yiling is quite small, her family usually has a lot of children. In her generation, there are eight boys and one girl. Miss Yiling's mother alone has three sons and one daughter."

As a close subordinate of Master Zhai, he knew very well what Master Zhai was most concerned about.

However, these words stabbed Master Zhai in the heart.

"Look at that old man! He has nine grandchildren!!!"

In terms of status, position and achievements, Master Zhai was much more powerful than Grandpa Jian from Hengyuan City.

However, Master Zhai was still jealous of Grandpa Jian. That man had so many grandchildren.

He was jealous and he was incredibly envious! In fact, his jealousy distorted his face.

"Hmm, but you have a point! This little girl is fine! I'll find a way to get her into our family!"

###

The match continued. However, everyone knew the result of the game already.

The difference in scoreline was way too big.

Seven games were played today. This was the seventh game and it was a complete slaughter.

[Rely on Others] would definitely lose. They were bound to completely and utterly, lose in disgrace.

Peng Jie's face was pale.

He really tried his best today.

He had to try his best! If he didn't try his best, his family's jobs would be lost!

However, the final outcome was in front of him. They had been slaughtered by [Domination.] He couldn't help but accept the outcome.

The whole match was incredibly thrilling to watch. The crowd cheered louder than ever.

When Jian Yiling and the others were playing on stage, there were a few people in the audience that had a different expression on their faces.

Most of the audience had been focused on the big screen.

However, these people were focused on the players of [Domination.]

"Are you sure?"

One of them asked.

"Yeah, I'm pretty sure."

The other person responded.

The two of them were speaking mysteriously to each other for a while. They kept their eyes on the players of [Domination] for the entire match.
