

Slumdog 751

Chapter 751 Return to Estasate

At Sacramento International Airport, Gerald and the others walked through a special passage, and the car drove straight in!

After arriving at the destination, Gerald found that a group of people were standing there in the distance with

a box!

Because of Gerald's influence, most of the people went to customize a box and put the two knives in the box

on their backs.

When Gerald came down, Erik said with a smile, "Tsk, what a perfect match!"

Erik was a cheerful person who liked to act tough, Especially after his revenge, he felt like he was completely

free.

Theo smiled at Gerald, "Tsk, Boss, you are good. You have got the woman that all Watchmen admire."

"Aleen and I are also so happy!"

"This is the first time I've seen Dr. Manning blush!" Carolyn said and grinned.

Beside her, Triston had a jealous look.

Milo held a bag and drank wine while looking over with a smile. Belinda sighed. "Theo, seeing them like this, I also want to fall in love. How about being with me?"

"Fuck!" Theo was shocked. "Aunt Belinda, don't do it. I want to continue working hard!"

Belinda glared at him.

At this time, snow-white Squeak jumped down from Valery's arms and rushed directly to Gerald. It excitedly circled around Gerald a few times and jumped onto Gerald's shoulder.

Gerald stroked its hair.

"Alright, stop messing around. Let's set off. Our destination is Burial Ground!" Gerald let out a breath.

Christopher was waiting on the plane. The ten people smoothly boarded the plane, and then the plane took

off from Sacramento!

The plane was very fast. It was supposed to be a two-hour journey, but after an hour, they successfully arrived at their destination. The Watchmen in Chicago arranged a car. Just like last time, they were sent to

the side of the road!

it had been a short while since they left this place. Everything seemed to just happen yesterday. With familiarity, Gerald and the others once again arrived at Estasate!

This time, Isla waited for them at the village entrance!

Although they had been here once, inside the Myriad Mountains, the roads were complicated. In order to take fewer detours, Gerald contacted the people of the Four Ancient Clans and asked them to receive them!

The Four Ancient Clans had begun to lay out the outside world, but the Burial Ground did not open. After the war ended, half of the group returned to Myriad Mountains.

When Gerald returned, he opened the Burial Ground. Then the Four Ancient Clans would all withdraw.

Because of Jaden's foundation in Washington and the support of Watchman, the Four Ancient Clans merged into the real world fast.

At the sight of Gerald, Isla smiled and said, "Tsk, you are indeed a genius. You have reached the level of Flame Decay so quickly."

Gerald looked at her and frowned. He asked, "Where is Aaray? Have you taken care of him?"

1

Isla was stunned. Then she looked in the direction of Estasate and said with a bitter smile, "I think... I did hurt

him."

Gerald frowned. He looked at Carolyn and the others and ordered, "Wait for me here for a while. I will go to

the village"

Gerald understood Aarav and felt that he should visit Aarav.

The others nodded. They did not intend to enter the village with Gerald!

Gerald came into the village with ease. He intentionally avoided many people and soon arrived at Aarav's

house!

In Aarav's red brick house, smoke lingered. It was noon, and his father was cooking in the kitchen. Aarav was sitting in a chair at the door of his house.

He looked very decadent. After a few days, his hair seemed to have not been washed, and his beard was long. but he did not look like he was going to tidy himself up.

Aarav looked in the distance, and his eyes were a little absent-minded!

"Aarav!" Gerald walked up and smiled at him.

Aarav glanced at Gerald and frowned. "What are you doing here?"

Gerald was slightly stunned

"After you came, Isla wanted to leave me. If not for you, she wouldn't leave." Aarav looked at Gerald and gritted his teeth. Aarav's eyes were filled with hatred.

Gerald was a little surprised.

He did not expect that Aarav, who had been thinking about life during this period, would blame him in the end.

However, after Gerald thought about it carefully, he found that he was partly responsible. Isla hid her identity

in this village. Her goal was to help the Four Ancient Clans to find out who wanted to enter the Myriad Mountains.

After Gerald opened the Burial Ground, the Four Ancient Clans had to withdraw from the Myriad Mountains,

so there was no need for Isla to be with Aarav.

From this point of view, Gerald seemed to have to take some responsibility for this.

"Aarav!" Gerald sighed and said, "Do you think that you and Isla are from the same world?"

Aarav raised his head and looked at Gerald. Aarav froze slightly. Then, he revealed a grim look. "I know that she and I are not from the same world, but I fell in love with her at first sight. We are married. I know that her marriage with me is a gimmick, but I can't help but fall in love with her. I can't control my emotions at all."

His tone was not agitated, and it could even be said to be calm.

However, tears flowed out of his eyes as he spoke.

"I know. I am just an ignorant peasant. She was born with a silver spoon. We do not have a common topic. I know that she will leave me sooner or later, but... I can't bear to... separate from her," Aarav said.

For a moment, Gerald did not know what to say.

"Aarav!" Gerald exhaled and said, "Since you know it, why don't you take the money she gave you and go to the outside world? The outside world is very big, and there are many beautiful women. Take the money she gave you, and you can find other beautiful women. Go out and take a look. Just treat it as a distraction. Take the money she gave you to enjoy life!"

Gerald took out a card!

Isla gave Gerald the card just now. She told Gerald that she hoped that Aarav would accept it!

Aarav looked at the bank card and looked into the distance. He smiled bitterly and accepted the card.

Gerald left Aarav his phone number and said, "If you need any help, you can call me. I will try my best to help you. I just came over to take a look. I have something else to do, so I will leave first."

Aarav looked at Gerald and the card in his hand. His gaze once again returned to lifeless.

Seeing this scene, Gerald sighed!

Love was wounding. That was easy for one to say so. But Gerald was not Aarav, so Gerald could not experience how desperate Aarav was.

Fortunately, this time, Aarav accepted this card!

Gerald patted Aarav on the shoulder and sighed. Gerald then turned around and walked towards the village

entrance.

The sun was bright at noon. Under the sun, in front of the tallest building in Estasate, Aarav sat there and looked at the village entrance in the distance. He seemed to be looking forward to a person coming back, but that one would never come back.

Chapter 752 Once Again Enter the Burial Ground

When they passed by Joanna's house below, Gerald did not greet her!

Instead, he directly passed through the crowd and rushed towards the village entrance.

Valery and the others were at the village entrance, but they avoided the sight of the villagers. Looking out from the village, the villagers could not see them.

Some villagers who passed by would be stunned when they saw Gerald's men. When villagers saw Isla in the crowd, most of them would frown!

The matter of Isla leaving the village caused an uproar in the village.

When Gerald returned, Isla came over and asked, "How is he?"

"He was very depressed, but after I gave him the bank card, he did not refuse and accepted it," Gerald said.

Only then did Isla let out a sigh of relief. That's good!"

"However, it seems that this is not something that money can solve. Aarav... And the people in this village are used to being poor. Most people do not think of leaving this place. They may desire money, but not that much. Back then, Aarav had been saving money and taking the risk of bringing some people into the mountains. It was all for saving money."

Gerald looked at Isla and continued, "He saved the money and wanted to go to the town to buy a house, so you can change to a better environment."

Isla sighed slightly and said, "I let him down. We have lived together for ten years, and there are indeed some feelings between us, but it is not love as a couple. Although we are husband and wife in name, in my heart, I

husband!" only treat him as my brother. I have no choice. I can't take him as my

Isla couldn't do it. With her identity and status, there was no need to do it.

This was her family business, and Gerald didn't want to interfere.

He looked at the crowd and said, "Let's go into the mountain!"

The road to the mountain was quite far. They were not in a hurry. It was only at night that they successfully arrived at the village where the Berkeley clan lived!

The Berkeley clan did not have a lot of people. There were about twenty people who were still there. After Robert left, he did not return. After the war ended, he was taken to Washington by Nova. Robert was happy in Washington and did not want to come back at all!

However, the Berkeley clan had some things to deal with, including guarding the Burial Ground, so Keenan

came back.

Gerald and the others arrived. They brought a lot of food from outside, all of which were stewed food and the

like

Some people in the village had never been out. They had never had these things in their entire lives. In addition, Milo had brought quite a bit of wine. In the evening, they held a banquet in the Berkeley clan's village!

Replete, they slept in the village. Early in the morning on the second day, Keenan and the others followed Gerald and set off to Burial Ground!

Gerald and the others were heading to the Burial Ground. At the headquarters of Night Watch...

In a certain room, Blaine and Zackary were sitting inside, Blaine's hand knocked on the table. Zackary was sitting there with a smile. They both looked ahead!

Dr. T was in front of them. He had bandages on his head, and he had a fake smile.

"I gave you three days. You have overrun it, so you should al

either do something for us or die!"

me an answer." Blaine said faintly, "You will

"Maybe I have a better way!" Dr. T looked at Blaine and said faintly, "I can contact Elite Ghost. As long as you give me the equipment, I can be a spy for you beside Elite Ghost!"

“Don’t even think about it!” Blaine curled his lips and said, “The equipment has been taken away by Dylan.”

“Dylan? He is useless. Giving him my equipment is a waste. I invented many tools by myself.” Speaking of the research, Dr. T revealed a trace of disdain. “Dylan can’t understand the information either.”

“You’re quite confident!” Blaine said, “You don’t have any Vital Energy now and have been crippled by Gerald. Since you don’t want to work for us, we can only kill you. It’s dangerous for you to be alive!”

“No!” Dr. T smiled and said, “If my guess is correct, you are planning to return to Gerald’s planet with him!”

Blaine looked at Dr. T in surprise. Dr. T was not shocked that Blaine knew about this. Blaine nodded and said,

“There is indeed such a thing”

“You... may consider bringing me along with you,” Dr. T said.

Blaine was silent for a moment. Zackary’s eyes narrowed slightly. After a moment, Blaine slowly pulled out his Crimson Slayer and said, “I read your diary!”*

“You are a lackey of Elite Ghost. The only purpose of you is to provide us with some scientific help. This is the only reason why I am willing to let you live. I dislike your self-righteous look!” Blaine said, “Do you really think that I can’t bear to kill you? I admit that your research ability is useful, but compared to a Flame Decay expert,

you are nothing!”

“You won’t kill me!” Dr. T had a confident look on his face!

“Screw you!” When Blaine saw Dr. T’s pretentious manner, he was so angry that he immediately drew out his

saber.

At noon, Gerald and the others successfully arrived at the Burial Ground.

Many buildings in the Burial Ground collapsed after the last battle. Many people from Four Ancient Clans

were repairing it!

However, within severe constraints of time, the Burial Ground had not been completely repaired, but that passage was cleared out!

“Squeak!”

After the fox returned here, it was so excited that it kept jumping up and down! Maybe it was because it returned to the place where it was born, or maybe it was because Gerald was going to open the Burial Ground!

Ricardo also returned here. In any case, in Myriad Mountains, there had to be someone who was at the level of peak Half-Step Flame Decay.

Seeing Gerald and others, Ricardo came over with excitement and said, "You guys are finally here."

Gerald smiled and said, "Thank you for the battle against Elite Ghost."

"It's alright!" Ricardo waved his hand and said, "It's all for ourselves. We are all humans. If we don't make a move and Elite Ghost wins, sooner or later, he will force us!"

Speaking of this, Ricardo changed the topic and said, "Let's talk about the Burial Ground. You have reached the level of Flame Decay. I'm sure you will open the Burial Ground"

"The Burial Ground contains countless treasures. In addition to countless Bone of Eternity, there are martial arts inheritances from the ancient era. It even contains many secrets of our world. Of course, that is my guess!" Ricardo said, "The opening of the Burial Ground may lead to a change in the era!"

Gerald looked at Ricardo in surprise and did not say anything. Gerald nodded and said, "In any case, it will be

a good thing for humans!"

"Well! If you are ready, go in! Do they want to cultivate with the help of the Burial Ground?" Ricardo asked.

Gerald nodded and said, "Yes! Most of them are from my team. This is Watchman No. 0, Triston Beck. You

have seen him."

"We will wait for good news!" Ricardo said!

Gerald nodded. He looked at the others and said, "Let's go!"

The group of ten turned around and walked into the passage, entering the Burial Ground again.

Chapter 753 Burial Ground Is Amazing

Squeak made a noise.

The passage was a bit dark, but fortunately, Gerald and the others were all super experts. They could still see things clearly in the dark night. In addition, they had strong flashlights, so it was not a problem for them to walk in the passage!

Moreover, Squeak had lived in this place for many years, and it was very easy for it to move there. Under such circumstances, Gerald and the others walked in the passage!

Valery and some people took out their mobile phones from time to time to take pictures of the murals on the surrounding walls. There were some martial arts moves on the walls! Almost every wall had murals, and the murals were kept well!

"Damn it, why do I feel like we're grave robbers?" Theo yelled as he walked.

"If you don't want to follow us, you can go out." Kristen curled her lips and said, "Boss is breaking through here. I hope to reach the level of Half-Step Flame Decay here."

Theo curled his lips and said, "I was a grave robber. I'm so excited now!"

Gerald was speechless.

Indeed, Theo was caught by the Watchmen when he was robbing graves, and then he became a Watchman.

"I almost forgot about that. You were a grave robber." Kristen said, curling her lips.

"It's blocked!" At that moment, Triston said with a frown.

Gerald looked up and saw that the passage in front of them had collapsed. He let out a breath and said, "This place should be the place where Dr. T and I fought before. It collapsed."

"Squeak, is there another way?" Gerald asked.

Squeak scratched its head with its little hand, then turned around and walked in another direction!

They hurriedly followed up. After walking for a while, the front suddenly lit up. Gerald and the others quickly walked over, and they arrived at a hall.

Gerald was very familiar with this place, and this was the place where Gerald fell.

At that time, he was slashed by Jonathan and was seriously injured. He came to this place at a loss and was

saved by Squeak!

Squeak jumped on Gerald's shoulder and pointed at the passage on the opposite side.

"Should we go there?" Gerald asked.

Squeak nodded!

Gerald touched its chin and heaved a sigh. "I came to this place last time and wanted to go down back then,

but Squeak stopped me. There should be danger down there. You guys must follow up."

At that time, he had already reached the level of Half Step Flame Decay when he woke up, but Squeak still didn't let him go. It meant that it was dangerous down there. Among the people who came this time, only Triston and Carolyn had reached the level of Half Step Flame Decay

Valery was about to reach the level of Half-Step Flame Decay. The others were much weaker and might be in

dangert

However, Squeak seemed to believe in Gerald, who had reached the level of Flame Decay. It did not stop the

others from following Gerald

Gerald passed through the hall and walked into the passage!

The passage was covered with stairs, and it seemed that they had to go to the next floor.

“Amazing! The speed at which I absorb the bones has increased.” At that time, Belinda suddenly said.

“There should be a reason for this. It can speed up the absorption of bones,” Gerald rubbed his chin and said.

After becoming a super expert, Belinda could absorb the bones slowly. She had to spend several years absorbing one bone. But just now, she had successfully absorbed one bone.

Obviously, the people from the Four Ancient Clans were able to quickly reach the level of Half-Step Flame Decay because of Burial Ground.

Gerald was overjoyed. He knew that no matter what, after this trip, their team’s strength would increase significantly

“I talked to Keenan before, and he said that the people of the Four Ancient Clans can only cultivate in a hall, and they are not allowed to go further,” At that time, Claude suddenly said, “There are also some bold people who want to try, but after going down, no one has ever come out.”

Gerald nodded, and the group of people carefully walked down!

Gerald’s Vital Energy enveloped them all the time, protecting them all the way.

To their surprise, the journey was very smooth. After they walked for a while, it suddenly became bright

“Fuck!” Gerald and the others walked out. In an instant, they saw the scene outside the passage, and everyone couldn’t help but gasp in astonishment!

“It’s such a grand grave!” Theo said in a trembling voice,

At that time, they had gone over 1,000 feet deep into the ground. The place they were standing on was a platform. The platform was quite large, as big as a football field. The ground of the platform was made of

stones, and there were countless carvings on the stone!

On both sides, there were huge stone giants, as well as huge stone pillars. On the stone pillars, there were carvings of dragons and phoenixes. Claude counted, and there were forty-eight pillars!

In front of the platform, there was a huge drawbridge. There were countless magnificent underground buildings on the other side of the drawbridge. It was like a palace standing on the other side!

“Damn, It’s amazing. What is this? Why are there such buildings down here!” Erik exclaimed in surprise.

Gerald swallowed hard and said, “This place is known as Burial Ground, and there are many Bones of Eternity. It means that countless years ago, there were many experts of the level of Flame Decay on earth. Back then, martial arts should be popular. It should be normal to build such a wonderful place.”

Claude was extremely excited. He ran to the edge of the platform and glanced at it. He said, "Holy shit. What flows below is actually magma. This place is fucking ridiculous!"

Gerald frowned and walked over. He approached the edge and looked down. As Claude had said, there was scarlet magma flowing below. It looked a bit scary. Moreover, the place they were at was at least 1,000 feet away from the magma flowing below. Gerald couldn't imagine how this place was excavated!

Right at that moment, Squeak suddenly made a noise.

At the same time, Gerald felt a terrifying danger!

He raised his eyes to look and saw that on the other side of the drawbridge, spears appeared in the air above the palace. It was unknown what material the spears were made of, but they emitted a strange luster.

Then, more and more spears appeared.

In an instant, those spears flew toward Gerald and the others very quickly!

Gerald gasped in astonishment!

Although the spears were in the air, Gerald felt that the attack of each spear was not even inferior to the attack of the level of Half-Step Flame Decay.

Boom!

At the same time, the platform began to shake. Gerald turned around and found that the stone statues standing on the platform suddenly moved!

"What the hell is this?" Theo and the others were so scared that they had goosebumps.

"All of you, come here!" Gerald was shocked. He let everyone come to his side, and at the same time, he used

his Vital Energy.

A loud noise let out.

The dragon-shaped shadow appeared in the air and it was shining.

Gerald's Vital Energy quickly moved into the air!

Chapter 754 Zackary's Thoughts

Vital Energy appeared in the sky.

In the sky, the spears collided with the Vital Energy and were quickly enveloped by a layer of frost. Then they began to fall

Behind them, the stone statues seemed to have sensed something. The stone statues that were about to attack Gerald and the others quickly returned to their original positions. They looked as if nothing had happened!

Gerald was shocked!

When the stone statues moved, what he felt was the pressure of the level of Flame Decay!

He finally knew why Dr. T was injured. He was afraid that Dr. T had come to this place and suffered such a terrifying attack!

He also understood why someone like Hector, who had reached the level of Flame Decay, would return with serious injuries after coming to this place!

This place was too dangerous!

As for why those stone statues stopped attacking, Gerald guessed that it had something to do with his Dragon Bone.

Most of the spears had fallen. Gerald blocked the others.

Theo picked up a spear. He glanced at it, then frowned and said, "These spears seem to be made from the weapon materials used by the Blue Elite Ghosts. There are so many of them here!"

The sabers of the watchmen were mostly modified from the materials of the lightswords in the hands of the

Blue Elite Ghost.

Ordinary metals on Earth could not pierce through the armor of the Elite Ghosts at all!

They had never found such materials on Earth before. They did not expect that at Burial Ground, the spears

were made of this material!

Finally, after all the spears attacked, Gerald withdrew his Vital Energy and exhaled slowly!

Squeak was extremely excited. It jumped up and down in excitement.

"It seems to be over," Valery said.

Gerald nodded.

If he came down back then, perhaps these stone statues would not have attacked him because of the Dragon.

Bone, but he couldn't stand the attacks of these spears!

"Damn, what's going on with these statues? They were so terrifying just now." Erik looked at the statues around him and felt a little scared.

"I don't know. The things from ancient times were lost," Gerald shook his head and said, "I don't think anyone knows how far their civilization has developed and how many people reached the level of Flame Decay. No

one knows"

"Do you

think there was a gap between us and ancient times? How did the Burial Ground show up? The Four Ancient Clans don't seem to know either." Valery stroked her chin.

"Unfortunately, there are no archeologists among us!" Belinda smiled and said, "Otherwise, they would be very interested in this place!"

Gerald and the others were talking

Squeak jumped onto the bridge!

Gerald looked at the ropes that were suspended in the air. He was a little shocked. The palace was far away. He didn't know for how long the bridge hadn't been used. If they walked to the middle of the bridge and it was broken, they would fall. There was magma down!

"To be safe, try to grab this metal rope when you walk" Gerald said.

The others nodded!

They walked onto the bridge!

It was 650 feet away. Gerald and the others were moving very slowly, and the bridge was shaking violently!

Fortunately, nothing unexpected happened. They successfully crossed the bridge and came to the other side

of the platform!

"Is there any danger inside?" Gerald asked as he watched Squeak jumping on the ground.

Squeak nodded, indicating that there were still many dangers inside!

"The things you helped me drag over were all in this palace, right?" Gerald asked in surprise again.

Squeak nodded again!

Gerald was speechless. Those things were heavy. Squeak looked very small. He did not expect it to be so strong!

"Boss, do you know how to open the Burial Ground?" At that time, Claude suddenly asked an important question.

Gerald shook his head at a loss. He didn't understand how to open the Burial Ground or what situation he

would face after opening it

Squeak made a sound.

It pointed ahead, indicating that Gerald and the others should enter the palace!

There were several grand palaces there. Gerald found it hard to imagine how it was done, but the Burial

Ground was at this place.

Gerald and the others walked up the stairs. They were very careful with every step they took!

Before they came here, they faced a terrifying attack from the spears. They did not dare to be careless and could only slowly move forward.

The stairs were very long and there were ninety-nine steps in total. Under the lead of Squeak, they successfully arrived in front of a red door!

At the top of the door, there were two huge words.

“Bone Hall!”

Gerald gasped in astonishment. He looked at the fox and asked, “Is this the place where the Bones of Eternity

are kept?”

Squeak nodded.

“I feel that there is something that attracts me inside. It should be the Bones of Eternity that I can use!” At that time, Triston’s breathing suddenly became rapid.

“I also feel it!” Carolyn reminded him from the side.

Gerald frowned. He didn’t feel anything at all.

He thought that he had reached the level of Flame Decay, so the demand for the Bones of Eternity was not

that great anymore!

He did not need the Bones of Eternity at the level of Flame Decay. When Gerald died, his bones would become

the Bones of Eternity!

Gerald let out a breath and placed his hands on the door. At the same time, he slightly exerted force and pushed the huge door open!

In the headquarters of the Night Watch, Blaine yelled as he walked out of a room. “Damn it! Dr. T was showing off just now! Why did you stop me? Why didn’t you let me kill him? Isn’t that better?”

“He did so many bad things, but if he is alive, he can create some useful things. It’s better than his death. You

are just like Gerald, too impulsive.” Zackary sighed.

“Isn’t he unwilling?” Blaine was speechless. “Should we just keep him like this?”

“We will see. I have my own ways. Also, I have something I want to tell you!” Zackary looked at Blaine and said, “Regarding the matter of us going to Hector’s world, I think it would be better to let Gerald and the other young people go.”

“What?” Blaine said, “What do you mean? Are you scared? It’s fine.”

“No!” Zackary sighed and said, “You have to admit that you are inferior to Gerald now. Moreover, he can still

improve in the future. What is the purpose of your going to that world? You want to destroy the Four Ancient Clans, right? Do you think only Hector and you can do it?”

“Even if we can’t do it, we have to go. Gerald is still young. He doesn’t have to do this,” Blaine curled his lips and said, “If we go there and die, it will be fine. Gerald stays here, and there is still hope.”

“You are thinking about what will happen after you die. What I am considering is that if he goes there, there will be hope to completely destroy them, and we can also resolve the danger of Elite Ghosts!” Zackary said indifferently.

Chapter 755 Bone Hall

The door was pushed open, and a strange smell suddenly came from behind the door!

It was so disgusting.

Everyone wanted to puke.

There was a sour smell in the palace. It was probably that the door had not been opened for many years, and things were rotten inside.

Gerald looked at Squeak. Squeak was quite excited. It didn’t feel anything at all. It seemed that it was already used to this smell.

It quickly ran in.

Gerald let out a breath and walked into the hall.

The hall was extremely grand!

When Gerald and the others entered, the surroundings seemed to have sensed something. The oil lamps suddenly lit up, illuminating the entire hall. They couldn’t help but gasp in astonishment!

Although it was the Bone Hall, there were countless urns in the hall!

Behind all the urns, there was a box and a bowl! There were at least thousands of them.

Gerald was shocked. He looked around. At that time, he found that the others began to move. Carolyn walked to the front of an urn. She said, “The Bones of Eternity should be in this box!”

Gerald was stunned and walked over to take a look.

There were several words written on the urn!

“Lady Phoenix of the Sprite Mountain!”

Next to it was a line of small words, "Phoenix Bones of Eternity!"

Gerald glanced at the small bowl. Inside the small bowl was milky liquid, which was similar to the dragon.

marrow that Gerald had drunk.

At the same time, the other people also found the location of the Bones of Eternity that belonged to them.

Carolyn let out a breath and opened the box next to her!

There were two things in the box. One was a bottle, and there should be some clothes inside!

The bones of the level of Flame Decay were eternal, which were called the Bones of Eternity, so there was no way to burn them into ashes. The things inside were jade or clothes!

And there were also pieces of eternal bones inside.

"If I absorb all of the Bones of Eternity, I can at least reach the level of peak Half-Step Flame Decay!" Carolyn said excitedly, "I just don't know if I can absorb them all!"

"There is bone marrow here!" Gerald heaved a sigh of relief and said, "I took the bone marrow when I was at the level of peak Half Step Flame Decay. Then, I was able to successfully reach the level of Flame Decay and

it saved my life"

Indeed, if not for the Dragon Marrow, Gerald would probably have already died on the Burial Ground

Only Claude had a helpless look on his face. He was only a top expert. He hadn't reached the super level, and he couldn't feel the Bones of Eternity he needed. He knew that after this time, most of his team members

would make a huge improvement.

"Those things were kept here for a long time. It has been here for years. Is it poisonous?" Theo, who was next to him, coughed and asked.

Several girls, including Valery, showed strange expressions on their faces. Girls loved cleanliness and beauty Although as Watchwomen they were not so careful, they still felt a little afraid when they thought that the things in this bowl might have been placed there for countless years!

"If I can become stronger, I will do anything!" At that time, Triston stood not far away and picked up the bowl, saying, "I will drink it first. You can do whatever you want!"

As he spoke, he picked up the bowl and drank it under everyone's shocked eyes. And the most ridiculous thing was that he even licked the bowl!

The others couldn't help but retch!

Next to him, Milo didn't say anything. He picked up a bowl of bone marrow and drank it. After drinking it, he

smacked his mouth!

“How is it?” Theo hurriedly looked over.

“A bit sweet?” Milo said, and then his expression changed slightly. He seemed to feel the changes in his body.

He took out a few pieces of Bones of Eternity from the box and sat down cross legged!

His aura began to change, and Triston also quickly sat down.

It seemed to have an immediate effect, and their auras were rising.

Carolyn and the others saw this scene. Then, they gritted their teeth and drank the bone marrow. One by one, they sat down cross-legged. Soon, only Gerald and Claude were left standing in the Bone Hall.

After Gerald reached the level of Flame Decay, the bones were no longer attractive to him.

As for Claude, he had not reached the super level yet. He could not absorb those things.

Claude said enviously, “I really envy them.”

Gerald patted his shoulder and said, “You are different from them. Aren’t Lucas and Ashtyn studying new bullets now? If they succeed, you may be a threat to the level of Flame Decay.”

“It’s impossible. If I can’t reach the super level, I can’t even aim at the people of the level of Flame Decay, let alone shoot. The top experts are not even qualified to shoot in front of the people of the level of Flame Decay.” Claude sighed and said.

Gerald pondered for a moment, then smiled and said, “This place is a rare place for cultivation You can also try to cultivate You may reach the super level, right? This place can accelerate the absorption of bones Perhaps it is helpful to the absorption of energy stones. You have some energy stones, right?”

“I brought some Claude’s eyes lit up “Then I give it a try!”

As he spoke, he sat down cross-legged

The ten people who came over all sat down. Gerald looked at them and smiled. He did not disturb them and began to read the words on the urns.

Holy Mouse Bones of Eternity and bone marrow!”

The place where Triston drank bone marrow had such an urn!

Gerald looked at the other urns!

“Bones of Eternity and bone marrow...”

‘Bones of Eternity and bone marrow...”

Gerald slowly looked around. He found that most of the people of the level of Flame Decay died in several places during wars

He was a little shocked. What kind of wars could cause so many experts of the level of Flame Decay to die?

Moreover, in the historical records of the country, there seemed to be no such history!

Even if there was some hidden history, it shouldn't be a secret to the Watchmen.

Gerald frowned. He thought of some ancient myths. Of course, he could not verify them.

There was no doubt that in ancient times, there was a brilliant martial arts civilization on Earth. Back then, there were many experts of the level of Flame Decay.

Gerald looked around. Suddenly, his eyes fell on an urn in the middle. Compared to the others, it was much

bigger!

Next to the urn, the box was opened, and the bowl with bone marrow beside the box was gone.

There were a few words on the urn!

“Emperor Lionel!”

There was a line of small words!

“Die from falling stones! Dragon Bones of Eternity and dragon marrow!”

When Gerald saw this, his heart skipped a beat.

It was obvious that the dragon marrow he drank and the Bones of Eternity he had absorbed were left behind by this person. Gerald had obtained his inheritance.

Gerald couldn't help but take out his bag. In his bag, there was a cultivation technique that Squeak gave him.

At that time, Squeak asked Gerald to practice, but Gerald was too busy to practice.

When Gerald saw this, he couldn't help but take it out.

He placed the cultivation technique, the ancient bronze sword on his back in front of the urn. Then he knelt.

Chapter 756 Diary

Looking at the urn in front of him, Gerald knelt very formally. He said, ‘Emperor Lionel, although I have never met you, your bone and marrow have saved me from danger many times. I have you to thank I'm like your disciple!’

Gerald could not help but feel endless gratitude towards this person whom he had never met before

Without Dragon Bone, Gerald could only walk the same path as Blaine and reach the level of Flame Decay through hard cultivation.

This path required a lot of time while absorbing Bone of Eternity could make everything come true quickly!

Without Dragon Bone, Gerald would not have improved so quickly. Perhaps he would have died long ago. He might have died in that battle in Washington

But the upgrade through Dragon Bone helped him overcome the crisis time and time again, and Dragon Marrow once saved his life. Several battles against Elite Ghosts were won relying on Dragon Bone and Dragon Marrow!

Step by step, he reached the level of Flame Decay!

It was not an exaggeration to say that Gerald had inherited the power.

Therefore, Gerald's kneeling was sincere!

After kneeling, Gerald wandered around the Bone Hall.

As for the book on cultivation techniques, Gerald had no intention of cultivating it. He had shaped a cultivation style. No matter how good the techniques were, the improvement was little, and it would waste

his time.

In the Bone Hall, there was nothing useful for Gerald. He looked at Squeak and asked, "Squeak, do you know how to activate Burial Ground?"

His purpose of coming in was Burial Ground, but he did not know how to activate it.

The Four Ancient Clans didn't know either, so Gerald could only come and explore by himself.

Squeak nodded, pointed outside, and ran out.

Gerald looked at the people cultivating in the Bone Hall and smiled in his heart, you can all level up in this place at ease. Next, let me go alone!

According to Squeak, there were many dangers in the hall. If they stayed in this place, it would be much more convenient for Gerald to handle the dangers alone.

To his friends, the purpose of coming to the Burial Ground was to improve themselves. It could be done in the

Bone Hall.

There was no doubt that after Gerald took out Bone of Eternity and the marrow from Burial Ground, there was a chance for those at the super level to sharply improve their power if they ate the marrow.

Moreover... It was even possible for several people at the level of peak Half-Step Flame Decay to directly reach the level of Flame Decay.

The people of the Four Ancient Clans had never entered the depths of the Burial Ground. This meant that they had never taken the bone marrow. Those at the level of peak Half Step Flame Decay, such as Robert, were likely to reach the level of Flame Decay if they took it.

Of course, Gerald had to consider something. For example, would Jonathan stay honest after he reached the level of Flame Decay?

After going out of the Bone Hall, Gerald was still a little shocked!

No wonder Elite Ghosts would try their best to come here. According to Hector, there were only dozens of people at the level of Flame Decay in the Four Ancient Families of the world of Elite Ghosts. If Elite Ghosts brought back Bone of Eternity and the marrow, there was a chance for their super experts to get improved quickly... The increased number of people at the level of Flame Decay would greatly improve the power of the

clan.

This... was indeed a huge treasure, a treasure that could make them crazy!

Gerald could guess why the Elite Ghosts were coming tentatively. Firstly, they were not clear about the situation on Earth. Secondly, they did not dare to send experts at the level of Flame Decay and Purple Elite Ghosts because this would attract the attention of other forces. Therefore, they could only sneak over.

If they attracted the attention of other people, it would not be so easy to have the treasure alone.

And therefore, Gerald had the opportunity to come over. The people at the level of Flame Decay with Dragon Bone appeared. Now, the other people were also slowly rising. The hope was getting bigger.

However, Gerald knew that when the Four Ancient Families found that they could not conquer here, maybe.. They would try to contact other forces!

Therefore, Blaine and Hector's suggestions should indeed be carried out. However, this was no longer a problem of going far away from home.

Gerald followed the little fox out of the Bone Hall as he pondered.

When Gerald walked out of the room, Valery's eyes suddenly opened slowly. Looking at Gerald's back, she showed a sweet smile. Then she closed her eyes and went back to the state of cultivation.

Under Squeak's lead, Gerald did not encounter any danger along the way. They avoided several traps, and Gerald once again arrived in front of a hall. According to the characters above, it was the Martial Arts

Depository!

Gerald pushed open the door of the room again.

In the huge room, there were countless books. Gerald walked in and felt shocked.

This place was like a huge library. There were all kinds of books, from paper books to bamboo-carved books. They were in rows.

When the smell in the room was almost gone, Gerald began to look around.

"Martial Arts of Sprite Mountain".

“Martial Arts of Maple Manor”.

They seemed to be categorized based on sects or forces.

“Martial Arts of the Nelson clan”.

“Martial Arts of the Berkeley clan”.

After looking for a while, Gerald found the martial arts of the Four Ancient Clans. Obviously, even in that era, the Four Ancient Clans were also the very top clans.

Probably, they might even be the only clans that survived.

The martial arts moves of the Four Ancient Clans were much more exquisite than the martial arts of Night Watch. If these things were moved outside, it would cause a huge shock to the entire Night Watch. This would lead to a huge increase in the overall strength of all Watchmen, not just one!

In fact, most people had to fight to the death when they first reached the top level, so they usually had to find some team members to be able to completely crush Blue Elite Ghosts.

And if the people at the top level learned some exquisite martial arts moves, then... There would be a complete difference.

Compared to discovering Bone of Eternity, this place was what made Gerald truly excited.

He looked around, at the same time making some records. Of course, he did not have much interest in studying right now.

“When the Burial Ground is opened, I have to stay in the Myriad Mountains for some time and let them send Watchmen to move the things here,” Gerald touched his chin and said with a smile.

Bone of Eternity, martial arts, a book on cultivation techniques...

The Burial Ground was an ultimate treasure!

Gerald wandered around for a while.

Suddenly, he saw a bed in the hall. Moreover, there was a skeleton on the bed. The skeleton was like jade. It was obvious that someone at the level of Flame Decay had died in this place.

Gerald frowned and leaned over.

The skeleton sat cross-legged. The clothes on its body were already tattered, but there was a book in its hand that was covered in dust!

“Sorry for the offense!” Gerald bowed before he took the book from the hands.

It was unknown what material this book was made of, but it felt very hard to touch. He blew away the dust on

the top, and on the book were “Jottings”.

Gerald was stunned. This ... seemed to be a diary written by this dead person.

Under the light of the fire in the hall, Gerald flipped to the first page. There were many notes!

“Today, I reached the top level and finally became a Watchman...”

The first sentence recorded in the book made Gerald’s entire body tremble slightly.

Chapter 757 Magnificent

Night Watch was recorded in this book

This meant that this name had existed since ancient times.

This made Gerald slightly surprised, but then he felt that it was normal

The Four Ancient Clans came up with the name Night Watch when Elite Ghosts intruded. At that time, Gerald had not thought so much. Now, it seemed that this was an ancient inheritance.

Gerald continued to read.

Unlike those written by modern people, this writing was generally a summary of several sentences for only important things without dates

After this paragraph, the next sentence was...

“I have successfully reached the super level. I am in contact with something serious!”

Gerald was speechless.

Night Watch accepted anyone who wanted to join, but only the powerful ones were valued.

However, the following words showed that Night Watch at that time was somewhat similar to the current

Night Watch. However, they were known by the outside world as one of the biggest forces to maintain order.

Joining Night Watch was the dream of many young people.

Moreover, in that era, it seemed that to be a top expert was the threshold of joining Night Watch, and only

super experts were qualified to touch the mysterious stuff.

This made Gerald a little shocked. In that era, how prosperous were martial arts? He could feel it from this diary and other countless books in the Martial Arts Depository.

Gerald kept flipping through the pages. Squeak quietly lay beside him, not bothering him!

Gerald wanted to understand the ancient era through this diary!

However, the rest were all trivial matters, recording how to carry out missions, whom he killed, and how many titles he was given.

Gerald had roughly figured out that the owner of this diary was a Roberson, an ancestor of the Roberson clan, one of the Four Ancient Clans from Myriad Mountains.

After a while, Gerald found that after being a Watchmen for about forty years, the owner had reached the level of Flame Decay.

As his strength increased, his writing style also changed.

In the beginning, he was a bit reserved. Later, he became arrogant.

After going through about half of it, Gerald found that what was recorded was no longer just two or three sentences. There were more details.

“Today, I met Lady Phoenix She is really beautiful If I were dozens of years younger, I would definitely marry

her But suddenly, meteots streaked across the sky They fell from the sky and wreaked havoc in the ordinary world. I thought it was a good day, but... It was ruined. Countless experts came from nowhere”

“These bastards, do they think highly of themselves? They are so arrogant. They want us to yield. I am so angry, and so is Emperor Lionel. He raised his sword and killed the negotiator. A war broke out

When he saw this, Gerald was slightly stunned. It seemed that they had also encountered such an attack in

ancient times!

Moreover, it seemed that the scale of the war at that time was much larger than now!

That was an era with many reaching the level of Flame Decay. The present war was not comparable to the

war at that time.

“These damn bastards, how can they fly in the sky with things? Ordinary people can’t do anything about it,

damn it!”

Reading this, Gerald understood that in that era, martial arts were prosperous, but science and technology might not be developed. Those invaders might have firearms.

Modern firearms could not pierce Elite Ghosts because they wore something like iron. Therefore, firearms could not cause damage. People in ancient times didn’t have those.

Then the story was suspended.

When the owner recorded it again, there was a sense of helplessness.

“Emperor Lionel said that we might lose. We are fine, but ordinary people are powerless when facing those iron lumps that can fly and land. Countless lives are passing away. Emperor Lionel calls upon the experts of the world to fight to death instead of submitting. He intended to launch the decisive battle in several places.”

Ridiculous...”

“As for the Four Ancient Clans, we’re responsible for logistical support. They asked us to take those survivors

to hide in the Myriad Mountains. They wanted us to build an underground palace. Damn it, I would rather die on the battlefield. I will kill those invaders someday!”

The following words seemed to be a little blurry due to the passage of time. It couldn’t be read. Gerald flipped through a few more pages, and then there were a few more lines.

“Emperor Lionel is a man of men. Unfortunately, we are too far behind. I went out for a trip, and this world was devastated. Less than two out of ten survived. The situation in the Myriad Mountains is the same. There is little food. People are suffering from famine. The underground palace is nearing completion, named Burial Ground.”

“This is our last shelter, and also the tomb of everyone!”

“What will be buried is the Bone of Eternity!”

“Lady Phoenix’s body was brought into the Myriad Mountains. A talented girl died like this. I cried out in sorrow!”

For some reason, as Gerald flipped through the pages, he felt terrible.

He seemed to see the sorrow of the primordial era. Those people who held cold weapons would rather die than submit, fighting against the alien civilization to protect their homeland.

Perhaps that civilization was destroyed. After an unknown period, human beings began to reproduce, and the world developed into what it was now.

The Four Ancient Clans in Myriad Mountains and those who fled here could only get by, isolated from the rest of the world!

He flipped through the writing. Because it had been too long, there weren’t many useful things in the second

half.

It roughly recorded the origin of Burial Ground, as well as the reason why there were so many Bones of Eternity. However, the results of the invasion and who invaded were not recorded.

Almost all the content of the second half had been destroyed. Gerald could only guess about that magnificent era through these few words.

In the end, Gerald thought of what Hector had said. The universe was vast, and the strong preyed on the

weak.

Gerald closed the diary. He felt depressed.

He was silent for a long time, and then he put it into his backpack. This belonged to an ancestor of the Roberson clan. Maybe he could give it back to them!

He let out a breath and looked around the Martial Arts Depository again. He asked Squeak, "Do we open the

Burial Ground here?"

Squeak shook its head and pointed forward with its little paw, indicating Gerald to follow it.

Gerald nodded and followed behind it, continuing to walk deeper into the palace.

Chapter 758 Gerald's Attributes

This underground palace where the Burial Ground was located was pretty large. The little fox was like a guide, leading Gerald through one hall after another.

From the Bone Hall, the Martial Arts Depository, to some great halls at the back....

The entire palace was extremely grand with many great halls

Most of the great halls were used for inheritance, with many weapons and martial arts... There were also

some records!

Gerald didn't even know how long he had been wandering there.

Finally, Squeak brought Gerald to the last hall. This hall was the center of the entire palace. Gerald stood at the entrance of the hall and raised his head to look at the tablet.

It read Harmony.

This hall didn't seem to have a name!

Squeak stood at the entrance of the great hall, raising its claws, continuously pointing at the great hall, and letting out a burst of excited cries.

"Is this where the Burial Ground could be opened?" Gerald asked.

The little fox nodded. It seemed to know Burial Ground well.

Along the way, under its lead, it was very safe. Gerald did not feel dangerous.

Gerald walked toward the entrance of the hall. This time, he found that Squeak did not follow him.

Gerald was slightly surprised, but he did not care too much!

He walked to the front of the gate and turned to look at Squeak. He found that Squeak curled up on the ground as if it was waiting for something.

Gerald sighed. He planned to push the door open.

But at this time, he found that the door could not be pushed open. He was slightly surprised, then began to exert strength, and then tried Vital Energy.

It was only when he was in full use of his Vital Energy that he successfully pushed the door open.

At this time, the heat came from the door. Gerald frowned. He felt a huge crisis!

Boom!

Immediately, he saw a huge sword flashing with golden light slashing towards him from the main hall.

“Shit!”

Gerald was shocked. He did not dare to hesitate. His Vital Energy erupted, and at the same time, he swung

his saber!

This huge sword contained a terrifying heat attribute. Gerald swung his saber. In an instant, the two weapons touched. The ice attribute and this hot attribute collided.

What surprised Gerald was that there were no earth-shattering explosions. In this instant, the saber with ice attribute and sword with hot attribute seemed to have fused. Then, everything around them slowly went

quiet

“Hmm?”

Gerald was stunned. He did not know what was going on.

“With that sword’s power, I should have been seriously injured even if I took that attack. But why am I not

injured?”

That was the strongest move that Gerald had ever encountered. It was even stronger than his full power of Unsheathing Slash.

“Could it be that I am the owner of Dragon Bone?”

Thinking of this, Gerald felt that there was a high possibility.

The person who opened Burial Ground could only be the owner of Dragon Bone who reached the level of

Flame Decay

If he hadn’t reached the level of Flame Decay, the scorching heat would probably have taken his life. Others who weren’t possessors of Dragon Bone would probably be even more miserable.

“Eh!” Gerald was just about to step into the hall when he was slightly surprised. He found that his Vital Energy seemed to have become stronger. He frowned and Vital Energy in his body surged. At that moment, he

was stunned!

The attributes contained in his Vital Energy seemed to contain three types. One was ice, one was able to drain the air, and the other was the scorching attribute that he had just collided with. It seemed that it was

some flame, similar to the attribute of Hector's Vital Energy.

Gerald was shocked

Up until now, he still hadn't figured out what his attributes were. After reaching the level of Flame Decay, he

hadn't figured it out. However, his attack possessed the attribute of ice.

In the battle with the light chaser, he discovered that his Vital Energy contained the attributes of his opponent's Vital Energy.

After fighting with the slashing sword, he discovered that there was another attribute.

"Could it be that my specialty is to absorb the other party's attributes?" Gerald asked in surprise.

Gerald was a little surprised. He was a little confused!

Bang!

At this moment, it was as if a mechanism had been triggered. Before Gerald could react, he felt a pulling force coming from the room. He was pulled into the hall in an instant.

Around him, lights lit up one after another. In an instant, the entire hall was completely lit up.

Outside the door, Squeak changed its posture when it saw Gerald enter. It lay comfortably on the ground as if it was sleeping.

Bang!

The door that had been pushed open by Gerald closed automatically at that moment.

Gerald turned his head and looked at the door behind him. He frowned slightly and began to size up the hall without thinking too much.

This hall was completely different from other halls. It was empty. There were only golden pillars with some carvings in the shape of dragons and phoenixes.

In the middle, there was an altar. In front of the altar, there was a stone table. On the stone table, there were

two books!

Besides these, the entire hall only had futons on the ground.

Gerald's brows were tightly locked!

According to Squeak, this place was the key to opening the Burial Ground. However, Gerald did not know how to open the Burial Ground.

After he finished sizing it up, he walked to the table. One book was written Dragon-Slaying Saber Skills on its

cover.

There was nothing in the other book.

Gerald opened the one with Dragon-Slaying Saber Skills. In the next instant, his eyes slightly widened. Dragon-Slaying Saber Skills had three moves, but each move was extremely fierce!

However, it could be used with some techniques. Gerald thought that the techniques required should be revealed in the book Squeak gave him.

Gerald opened the other book with only a line of words written on it!

“The possessor of Dragon Bone who has to learn Dragon-Slaying Saber Skills must break the altar to get the

sword in order to open Burial Ground!”

Gerald’s expression changed. He looked up at the top of the altar, and there was a hilt. Obviously, opening Burial Ground required Gerald to learn Dragon-Slaying Saber Skills. Then, he split the altar open and took out

the saber above.

“Hey!”

Gerald slowly let out a breath and said, “No wonder Squeak asked me to learn that technique. I wanted to slack off, but now it seems...”

After these words, he frowned. He didn’t know how long it would take to learn these three moves. There was

no food in his backpack.

“Am I going to starve to death here?” Thinking of this, he was a little anxious. He quickly took out that book with techniques and sat down cross-legged!

Chapter 759 A Leap In Strength

Gerald was very talented at martial arts. Not only was he improving fast, but he also had strong learning ability!

Gerald could imitate some of the martial arts moves with a glance. Once he understood the core, he could quickly grasp it. This was where his talent lay

However, Gerald was not sure how long it would take to learn these three moves!

While Gerald was cultivating, in the Arctic, Blaine slowly walked into the cave

Hector seemed to have recovered a lot. He sat in the cave. There were simple decorations in the cave. He seemed to know that Blaine would come over. He glanced at Blaine and said, “Sit!”

“Didn’t you teach me the language of your planet? Hurry up, Gerald and the others have already entered the Burial Ground. I estimate that in a few days, the Burial Ground will open and then they will come out,” Blaine

said.

“Actually... I have something I’ve always wanted to say!” Hector slowly exhaled and looked at Blaine.

“What?” Blaine asked.

“I feel that if you go with me, you won’t be able to accomplish what you want. The Four Ancient Families must be destroyed. Also, don’t let them reveal this information. Once this information is revealed, you will be faced with an attack from the entire Havotune. At that time, you will truly be unable to withstand it. If you want to destroy the Four Ancient Families, you... won’t be able to do it.” Hector looked at Blaine and slowly let out a

breath.

“I can’t do it?” Blaine sneered. “If I go over and recover my body, I won’t be worse than that guy.”

“But your progress is not as fast as his. There are more opportunities on my planet than here. I want to take Gerald there. Other than the fact that he is now at the level of Flame Decay, there is still a chance for him to improve and crush the Four Ancient Families!” Hector said.

“Don’t talk nonsense. Do you think I don’t understand because I didn’t tell you? You have hatred for the Four Ancient Families, so you want to use Gerald and me to avenge you!” Blaine said, “I didn’t say anything about

it, so don’t bring up this matter.”

Hector frowned. “This is not in conflict. They are my enemies, and they are also your enemies. Your colleagues and millions of people, in the past hundred years, have died at their hands. This kind of blood feud is even greater than mine!”

Blaine fell silent, then shook his head and said, “He won’t go with you, and I won’t let him go with you.”

“Oh!” Hector sighed. “If that’s the case, then let’s... wait a little longer! If we go back, it will really be no different than courting death. Even if we have completely recovered to the level of Flame Decay and might be

able to assassinate a few people, it is still really difficult.”

“I want to give them some trouble so that they won’t be able to attack us for the time being and give Gerald

and the others time to develop. This is my goal,” Blaine said.

“But... You might alert them,” Hector said indifferently. “If nothing goes wrong, your information must have been sent to them long ago. If you go over...”

“But Gerald is also possible in the same case,” Blaine hurriedly said.

“Gerald, he might not be the case. Gerald has only risen for a short period of time. He has completely wiped out the Elite Ghost that attacked us in the previous times.” Hector said, “In comparison, his information is much more confidential than yours. No matter how you look at it, he is a better candidate.”

“There’s no room for discussion. He’s not even thirty years old yet, and he hasn’t even married yet. I won’t use him like this!” Blaine said calmly, his tone full of certainty.

As they argued, time quietly passed. Unknowingly, a day had slowly passed.

Inside Burial Ground, in the Bone Hall, Claude suddenly opened his eyes. His eyes revealed a trace of ecstasy. Then, he quickly looked around and found an urn in the vicinity. He opened the box and quickly drank the

bone marrow in the bowl!

Then Claude sat down again!

Yes, after a day. Claude successfully broke through from the top level to the super level in this Burial Ground

This Burial Ground was a holy land for cultivation.

Another day passed, and Theo became the second person to wake up. There was a trace of ecstasy in his

eyes!

In these two days, Theo drank the bone marrow and absorbed nearly 15 bones... His strength also had a terrifying advancement, directly stepping into the level of Half-Step Flame Decay.

Kristen opened her eyes almost at the same time as Theo.

Besides, Belinda, Milo, and the others were waking up one by one!

As expected, relying on the cultivation environment of Burial Ground, their strength had all reached the level

of Half-Step Flame Decay.

They did not speak. They stood up and looked around.

Then, they quietly ate something.

“Eh!” Suddenly, Belinda looked at Claude and asked, “When did this guy reach the super level?”

“He’s absorbing bones? He drank the bone marrow?” Kristen said in astonishment.

“Fuck!” Theo cursed

After cursing. Theo suddenly thought of something and chuckled. “It is said that Lucas has grasped the method of compressing energy like Dr. T. He is currently creating bullets that are comparable to the level of

Flame Decay Claude has reached the super level before, and now his strength must be further improved
But

his talent is limited, so I don't think he could enter the level of Half-Step Flame Decay. However, he
might have

a chance to become as powerful as Davis. With his sniping skills, do you think Claude could threaten the
lives of the level of Flame Decay?"

After Theo finished speaking, the others were stunned!

What Claude was strong in was never his strength, but his sniping skill. After all, Claude was actually
called the Legendary Sniper!

As they talked, Triston, Carolyn, and Valery slowly woke up.

"How is it?" Theo hurried over and asked.

Triston smiled proudly. Then, he held his spear and drew a flower in the shape of a spear. He said, "The
level of peak Half-Step Flame Decay!"

Carolyn and Valery nodded at the same time!

Triston and Carolyn were at the level of Half-Step Flame Decay. Valery was only one step away from the
level of Half-Step Flame Decay. At this time, they had all reached the level of peak Half-Step Flame
Decay!

"Oh, this place... If we bring all the super level of Night Watch over here, they will all become the level of
Half-Step Flame Decay. Then, we are invincible! If we take those bone marrows and bones out, probably
the Four Ancient Clans can have many people reaching the level of peak Half-Step Flame Decay. And
some of them may even enter the level of Flame Decay!" Valery said.

Because of the huge leap in strength, all of them had some excitement on their faces.

For Team 11762, apart from Claude, all of them have been promoted to the level of Half-Step Flame
Decay.

"By the way, where is Gerald?" At this time, Valery asked.

Chapter 760 Burial Ground Opens!

Theo shook his head and said, "I don't know. I was the first to wake up. When I woke up, Gerald and the
fox

were gone."

"I guess he secretly went to open the Burial Ground. Our purpose in coming here is to improve our
strengths. He probably left while we were cultivating here!" When Theo said this, he took out his mobile
phone and looked at it. "Three days have passed."

"Three days? No wonder I'm a little hungry." Triston coughed dryly.

While they were talking, Carolyn was already eating with something in her hand. As a big eater, she had been extremely hungry for a long time.

“Then what should we do? Should we look for him?” Erik asked.

“No!” Valery shook her head and said, “This Burial Ground is full of danger. It seems that it only has no effect on people with Dragon Bones. He might be much safer by himself.”

Indeed, although their strength had improved greatly, from the moment they stepped into Burial Ground, on the platform opposite them, whether it was the stone statue or the spear rain, they would not be able to resist unless they reached the level of Flame Decay.

Therefore, they decided to stay here and wait for Gerald to open this place!

“There is no food in Boss’ backpack, and I don’t know how long it will take to open this place. If it is too long, I feel that... He might starve to death!” Carolyn swallowed the food in her mouth and said worriedly.

The others nodded in agreement!

While they were talking, Claude opened his eyes. Seeing that everyone had woken up, he said excitedly, “Guys,

I reached the super level!”

Theo looked at him with disdain and said, “We are all at the level of Half-Step Flame Decay. You are the weakest!”

“All of you are at the level of Half-Step Flame Decay?” Claude asked, stunned.

“That’s right!” Kristen smiled.

Claude said with a look of pity, “It seems that my talent is really poor. I feel that I might only be at the same

level as Perrin.”

It could be seen that even for the same thing, such as bone marrow, people with different talents had different effects after absorbing it. Carolyn, Triston, and Valery were all as talented as Gerald, so the absorption effect was extremely good!

As for the others, they were obviously much weaker!

Buzz!

As they were talking, they suddenly felt a terrifying aura rising from the depths of the hall.

“This is Gerald’s aura” Valery’s expression changed slightly.

“What should we do? Should we go take a look?” Theo hurriedly asked.

“Don’t go. There’s only this aura. He might be trying to open this Burial Ground. It’s useless for us to go over Valery shook her head.

“This guy seems to have become stronger again,” Triston said with some unwillingness.

Yes, from the momentum, Gerald was stronger than the second time the Elite Ghost invaded.

Triston had been chasing after Gerald. He never felt that he was worse than Gerald. He was not a few years younger than Gerald, and also a little later than Gerald to enter Night Watch.

But... In the three years when Gerald lost his memory, Gerald wasted three years. Under such conditions, Triston found that he still could not catch up with Gerald, which made him quite helpless.

Triston and Gerald were the two generations of Watchman No. 0!

This time, Triston reached the level of peak Half-Step Flame Decay, and Gerald took another step in the level

of Flame Decay!

After this aura rose, it quickly weakened!

At this time, in the central hall, Gerald touched his chin and said, “It seems that I have got proficiency in this cultivation technique. It should be enough to use these three moves, right?”

Gerald began to practice these three new moves!

The Dragon-Slaying Saber Skills had a total of three moves. The first move was Skyward Strike, and the second move was called Sweeping Strike.

The third move was a bit more domineering, called Magma Strike!

After Gerald practiced a few times, he was slightly surprised. He had to admire the strength of the martial arts of the ancient people. These moves, no matter the way to use Vital Energy or the way to move it, were much stronger than what they currently used. The most important thing was that any of these three moves were no worse than Unsheathing Slash. Moreover, the consumption of Vital Energy was not that great!

After practicing a few times, Gerald felt that he could use it.

He exhaled, got up and looked at the altar, and then used Vital Energy again!

For the three moves, Gerald almost used them in one breath, and continuously hacked at the altar

Boom!

After three strikes, Gerald felt that even though he had reached the level of Flame Decay, his Vital Energy had

almost been consumed.

And the altar in front of him collapsed the moment he slashed out three times. In the next moment, Gerald’s expression suddenly changed!

With a clang. Dragon Saber fell to the ground. At the same time, a terrifying aura suddenly rose up from the altar and rushed straight to the top. It was as if there was a terrifying energy sealed inside. At this moment, this energy was completely opened!

Boom!

Boom!

Boom!

Suddenly, the entire palace began to shake. However, it was unknown what this palace was made of, but there were no signs of collapse.

“This palace seems to be moving?”

“Burial Ground has been opened?” Gerald was surprised.

Gerald looked up. Although that energy was huge, it seemed to be very gentle. The energy rushed up, directly rushing away the soil above his head!

After that, Gerald felt as if the entire underground palace was slowly rising. Around him, there were many cracking sounds, as if some iron chain was being pulled.

Outside, in the Bone Hall, they almost couldn't stand straight. Valery looked around and said, “The ground

seems to be moving!”

“It should be Gerald who opened the Burial Ground. This palace seems to be rising.” Carolyn said in shock.

“Grab the things around you. Be careful. Triston hurriedly reminded everyone.

They were all at the level of Half-Step Flame Decay. It was not difficult for them to stand firm.

As they thought, the entire palace and the entire Burial Ground, after Gerald waved the three moves and destroyed the altar, seemed to be activated and began to rise slowly.

Outside, Ricardo and others were still guarding the vicinity of the Burial Ground. It had been four or five days. and Gerald and others had no signs of coming out. Ricardo couldn't help but be anxious.

At this time, Ricardo felt the ground suddenly tremble.

Ricardo's eyes were filled with ecstasy. At the same time, he shouted, “Everyone, leave this place! Everyone,

leave this place!”

Boom!

As Ricardo's voice fell, he felt an energy break through the soil in the distance and rush into the sky. At that moment, the clouds in the sky seemed to be stirred.

Ricardo looked up at the sky, and his tears kept flowing. Then he suddenly knelt on the ground and

murmured, "Thank goodness! We lived up to our expectations. Burial Ground... has been opened!"

Ricardo looked up at the sky. Suddenly, some flying objects appeared in the sky! The flying objects began to gradually increase. There were about ten or twenty of them. They were like flying saucers, circling down. They were getting bigger and bigger, and they were getting closer and closer to the Myriad Mountains!
