

## Slumdog 911

### Chapter 911 Are You Worthy?

Gerald was surprised that Skyler had found out about them. However, he had a good impression of Skyler

and did not intend to watch him die.

He smiled faintly and jumped down from the tree.

Carolyn and Valery landed behind the Blood Tribe to block their way, while Gerald landed in front of Skyler and said with a smile, "You're... a little miserable!"

When Skyler saw Gerald, he let out a bitter laugh and said, "Cut the crap. The other party is a Flame Decayer. I can still hold him off with my full strength. Are you sure you can deal with the other three?"

Before Gerald could answer, Seth recognized him and the others. He yelled, "Roy, I'm going to kill them!"

At this time, Roy had reached the Vital Energy of Flame Decayer level. Not to mention that the three people who came were Half-Step Flame Decayers, even if Gerald and Kenneth were at the level of peak Half-Step Flame Decay, Roy was sure to win at this time.

"That woman must be the woman you like." Roy smiled and glanced at Anabel.

Seth nodded and said, "Yes."

Roy sized Anabel up and said, "Another four points have been sent to us. We are lucky. We can be in the top

ten if we get all these eight points."

Hearing Roy's words, Seth was ecstatic. He grimaced at Anabel and Gerald and said, "Brat, I have advised you before to withdraw, but I didn't expect you to follow me. I said that I would kill you here! Then, I would drink all

your blood."

"Those two women should also be beautiful." Roy looked at Valery and Carolyn and continued, "I'll take their

blood."

Obviously, they planned to kill Gerald, Carolyn, and the others.

Gerald smiled and said disdainfully. "They are just a bunch of trash."

"What did you say?" Roy's expression darkened when he heard Gerald's words.

Gerald turned his head and looked at Skyler, whose expression had darkened. He smiled faintly and said, "Didn't you just ask me if I was sure I could get rid of them? I can deal with such rubbish alone!"

Skyler was stunned.

Immediately after, he felt as if something had flashed across his eyes. Gerald, who was standing in front of him, suddenly disappeared. When he took a closer look, Gerald had already appeared beside Seth.

The arrogance and disdain on Seth's face disappeared and was replaced by shock.

He opened his mouth in horror. It was as if he wanted to breathe but couldn't.

At the same time, blood gushed out from his neck.

Gerald was holding a dagger in his right hand. There was a trace of blood flowing from the dagger.

"Didn't you say you want to kill me? Don't you know who you are? Do you think you are worthy of that?" Gerald stood beside Seth and said disdainfully.

He couldn't be bothered by the level of peak Half-Step Flame Decay at this moment.

"What!" Roy was horrified.

Before he could react, Gerald moved again. Not long after, another two people fell to the ground. In a short time, all four people in his team had fallen.

There was cold sweat on Roy's forehead. Most importantly, he felt that the aura that Gerald had just exuded was actually on the level of Flame Decay.

Unlike him, who was pretending to be Flame Decayer, Gerald portrayed the power of a real Flame Decayer.

"I..." Roy gulped and continued, "I... My father is the duke of the Blood Tribe. I... Anabel, you must know that if I die here, my father will never let it go,"

Before Anabel could speak, Skyler reminded her, "We must kill Gerald, or we'll be in more trouble if we go out."

Gerald glanced at Skyler in surprise. This guy is also ruthless.

Gerald moved before Skyler even said that. His wrist shook, and his aura suddenly emanated. He reached Roy

in an instant.

Roy relied on the strength of Flame Decayer and resisted for a while. However, he felt cold all over his body. and his movements were getting slower and slower.

The ice attribute-related ability caused his whole body to stiffen. He had no other ability to resist it. At some point, his whole body instantly fell to the ground and turned into a corpse.

All four members of the Blood Tribe were dead.

Skyler looked at the scene in shock. He never expected Gerald to be a Flame Decayer.

"Dude, you've hidden it so well!" Skyler let out a bitter laugh as he looked at Gerald, who was fumbling around

Roy.

“Can your body handle it?” Gerald asked with a smile.

At the same time, he found two cards on Skyler’s body. In addition, there was a small bottle with fifteen pills

inside.

Skyler spat out a mouthful of blood and got up from the ground. “I’m fine.”

Then, he pretended not to care, stood up, walked a few steps, and sat down again.

Gerald was amused. This guy sat down at the same place as the map. He seemed to think that they hadn’t

seen it

“Stop hiding. I saw it all.” Anabel glanced at him speechlessly and continued, “What the hell are you doing? I

saw you guys sneaking around.”

There was a hint of awkwardness on Skyler’s face as he smiled bitterly. “You saved my life. It’s okay to share it with you, but this is not a place to talk. The battle here may attract other people, so let’s talk elsewhere.”

Gerald nodded.

He ignored the four corpses on the ground. He hid the actual strength of Carolyn’s Flame Decayer. He helped Skyler up and walked in one direction with a group of eight people.

“You’ve noticed us a long time ago?” Gerald asked.

“No, I’m born with good hearing. I guess after I get to the level of Flame Decayer, the hearing will be my attribute-related ability. I heard you when you were talking in a low voice up there,” Skyler said.

“Then what are you guys doing here? Is it because of this map?” Gerald asked.

Skyler pondered for a moment and said, “Yes, we’re going to a place... The place is no worse than the Corona Pool. We plan to break through to the level of Flame Decay there! After that, we will continue to fight for the

card.”

Gerald and Kenneth’s pupils constricted upon hearing that.

Just as Gerald and Kenneth were marching forward, four figures descended from the same spot where they had fought earlier.

It was Kristian, Sylvie, and the two others.

“Dead?” Looking at the corpses on the ground, Kristian frowned slightly.

Reuben looked around and said, “The wounds are all on the neck. I’m afraid the person who killed them is a Flame Decayer and is good at using daggers!”

“I’m afraid he’s not just any ordinary Flame Decayer.” Kristian frowned and continued, “This person... is Roy. He must have the Blood Surging Pill. There are even remnants of the ice attribute on him.”

“Can you guess where they went?” Kristian asked Sylvie,

Chapter 912 Small Corona Pool

At that moment, Gerald and the others were sitting in a cave in Nether Domain’s first circle.

Valery was giving Skyler and others simple treatment.

Most of their injuries were internal, and they needed time to recuperate.

At the same time, Gerald looked at Skyler and asked, “What’s going on? What exactly is that thing you’re talking about?”

Skyler looked at the person beside him and said, “Didn’t I tell you before that I went to Havotune to find someone to help me? The story has to start from there. At that time, I went to a city in Havotune called River City Although my family is a small fry up here, I can do whatever I want down there. After all, I have the Archaic Tribe as my support.”

The rules set by the Eight Forces were that visitors on those satellites, especially those from the Eight Forces, had to be treated well. Even if Skyler was only from a branch family of the Archaic Tribe, the people still had to treat him politely.

Skyler said, “Back then, I made an announcement through a huge family in River City to recruit people to accompany me to the trial. Then, someone came to find me.”

With that, he gestured with his mouth at a person next to him.

The man was tanned and looked young. When he saw Gerald looking at him, a shy smile appeared on his face.

His name was Grant Patience. He was another member of Skyler’s Team who reached the level of peak Half-Step Flame Decay.

With a bitter smile, Skyler said, “It’s actually quite difficult to reach the level of peak Half-Step Flame Decay before 30 years old. I’ve been looking for a long time but only found him. At the same time, he brought me

this map.”

With that, he picked up the map and handed it to Gerald.

Gerald took a look at the map. It was very detailed and showed the island where Gerald and the others were located at that moment. However, a dark red dot was marked somewhere in the west part of the island.

Skyler stated, “Then he asked me if the trial site was the rumored Nether Domain. Nether Domain is controlled by the Eight Forces, and Corona Pool is even more desired by countless forces to cultivate the

younger generation.”

Gerald was secretly surprised. Corona Pool and Nether Domain seemed familiar to everyone in Havotune Galaxy. No wonder Anabel looked at Gerald in surprise when he did not know about the place back then.

Speaking of that, Skyler took a deep breath and said, “Don’t tell anyone about what I’m going to say next. After he found me, he told me a piece of news about an ancient organization that is now taboo in the entire Eight Forces. Its name is not allowed to mention, called Nether Palace!” Skyler looked at Gerald and the others before continuing, “Nether Domain was once the territory of Nether Palace! I secretly inquired about.

the news about Nether Palace. At that time, I asked the elders at home. They told me not to mention the name in front of anyone else, or I would be killed.”

After saying that, he looked at Gerald and the others. They made a curious look in cooperation.

Then, Skyler continued, “The location marked on this map was once a manor that belonged to one of the Death Lords, who was Nether King’s subordinate. There is a small Corona Pool inside his manor! The effect of the small Corona Pool is not as good as that of Corona Pool. After so many years, there must have been a lot of good things stored there, which must be enough for several of us to use. All of us have a chance to reach the level of Flame Decay. Gerald, you’re already a Flame Decayer. By cultivating there for a few days, you may even reach the supreme level of Flame Decay.”

A hint of surprise and excitement flashed across Gerald’s eyes.

If they could all get promoted in advance, it would undoubtedly be great news for them.

Gerald looked at Grant and asked, “How did you get this map?”

“I got it by accident,” replied Grant.

“Did you only get the map? Is there nothing else?” asked Anabel.

Before Grant could answer, Skyler cursed, “There’s still information, but he doesn’t want to talk about it. He said that after this trial, he would tell me when my status in the family became higher. He claimed that what he said was enough to make the Archaic Tribe the leader of the Eight Forces.”

Gerald’s heart raced when he heard that.

It was written in the previous posthumous letter that some of the top executives of Nether Palace recorded the coordinates of Earth and hid their things separately,

Gerald suspected that the Four Ancient Families of the City of Phoenix were either descendants of the Nether Palace or unintentionally inherited the belongings of Nether Palace.

According to Grant, he probably got a similar posthumous letter.

It was most likely contained the coordinates of Earth.

After all, they were from the Archaic Tribe, not the Four Ancient Families.

The Four Ancient Families almost made the Earth unable to hold on. Even though the environment of Earth was changing at the moment, the time was too short, and the number of experts showing up was not much.

If the Archaic Tribe wanted to plunder, Earth could not handle it at all.

Skyler chuckled when he saw Gerald and the others' surprised expressions. "Of course, you saved us this time. We're in an alliance, aren't we? When the time comes, Anabel and I will report it together. The credit will

be divided equally!"

Gerald, Carolyn, and Valery glanced at each other unnoticeably. Then, Gerald asked with a smile, "Are you the

only one who knows this information? Don't let other people tell those from other forces in advance."

Grant hurriedly said, "Don't worry about that. I got the information from an abandoned relic. I'm sort of a treasure hunter in Havotune. Besides me, no one else knows."

"That's great!" Gerald smiled.

Although he said that, he had already wanted Grant to be dead in his mind.

For the sake of the safety of Earth, Gerald had to do so.

Of course, the process could be done discreetly.

Skyler said excitedly. "We don't have much time. We're not far from the small Corona Pool. Let's hurry there

first!"

"Sure!" Gerald nodded.

They left again. At that time, their journey was smooth as they quickly arrived at an abandoned city. In the middle of the city, there was a destroyed manor.

"Okay." Right then, they appeared slightly delighted.

They felt a relatively strong energy around them.

"Over here!" Skyler could not help but rush toward the place where the energy was emanating.

Not long after, they arrived at a cave inside the manor. The front of the cave was blocked by dense plants. If they did not pay attention, they would not be able to find it at all.

"It should be down here!" Skyler brushed away the obstruction at the entrance excitedly.

Then, the eight of them walked down together.

As expected, there was a small pool deep in the cave. The strong energy came from the pool.

“Is this... Corona Pool?” Skyler walked to the edge of the pool, closed his eyes, and felt it carefully. His gaze

was full of excitement.

“Are we going to cultivate like this?” asked Gerald.

Anabel pondered momentarily and said, “There are eight of us in total! There are still seven days before we can enter the second level. We only have six days to cultivate. We’ll let one person guard the cave’s entrance

in turns.”

“No problem!” Skyler and the others nodded.

Gerald was arranged to be the first to keep watch while the rest walked into the pool and began to cultivate..

Looking at them sitting with legs crossed, Gerald stared at Grant for a while before turning around and walking toward the cave’s entrance.

Chapter 913 Continuous Breakthroughs

Gerald walked to the entrance of the cave and waited. He was the first person to guard the entrance.

Then, he sat down at the edge of the cave entrance, frowning.

Based on the piece of news by Grant, he was unable to think of anything else that could make the Archaic Tribe become the leader of the Eight Forces, apart from having a large number of Bone of Eternity.

“When he guards the entrance of the cave, I’ll trick him! It’s okay if that’s not the case if that’s the case, then don’t blame me for being merciless.

As time passed, Gerald was able to feel seven auras in the cave slowly ascending.

Gerald had been guarding for almost a day. When it was almost time, he walked inside from the entrance of the cave. As soon as he walked down, he noticed some changes on Anabel’s face, and the water around

them rippled.

After a while, Anabel’s eyes suddenly opened, and a smile appeared on the corner of her mouth.

The others noticed it and shifted their gazes to Anabel in unison.

“You’ve had a breakthrough?” Skyler asked skeptically.

Anabel nodded slightly and said, “Yes!”

With that, she lifted her hand, and a water current was wrapped around her arm.

“Are the members of the Pierce family all have water attribute-related ability?” Gerald could not help but ask

in surprise.

The people from the Pierce family he met before in Rime City also had water attribute-related abilities.

Anabel shook her head and said, "That's not all true. It's just that the majority of us have water attribute-related ability."

"You guys can do it as well. This place is indeed very suitable for cultivation. I'm more and more yearning for the real Corona Pool. If I reach the first few levels, I... will consolidate here, and I even have a chance to directly reach the supreme level of Flame Decay," Anabel said excitedly.

Skyler looked envious, and then hurriedly closed his eyes

The second person guarding the entrance was Carolyn. She exchanged glances with Gerald and walked toward the entrance.

Gerald, on the other hand, sat cross-legged and started cultivating.

After he arrived, Skyler glanced at him gloomily and cursed, "Damn, how can you absorb it so quickly!"

Indeed, it was true. Gerald absorbed it quickly, and the speed of Carolyn's absorption before also made Skyler quite depressed. It was because now that Carolyn had just left, someone stronger had arrived.

Gerald coughed as he looked at Skyler and ignored the latter. The former then continued to close his eyes.

and started cultivating.

He felt Vital Energy increasing bit by bit, filling his whole body.

Gerald had no idea what was the supreme level of Flame Decay. However, he felt as he had reached this level, there should be some changes.

He sat cross-legged, and his aura gradually intensified.

Time ticked by quietly. At one point on the second day of their arrival, Gerald opened his eyes. He felt that he had reached a bottleneck. Although the absorption continued, it seemed to be stuck and he was unable to

absorb it for his own use.

He pondered for a moment and felt it carefully.

At that moment, his gaze changed and he turned to look at Valery.

Valery sat cross-legged quietly, looking like a deity.

Suddenly, her aura changed slightly, and a green light flashed across her body and entered her body. Then, Valery's long eyelashes moved.

At some point, she suddenly opened her eyes, and then a gentle smile appeared on her face.

Then, at that moment, although she was wearing a mask, revealing only her mouth and eyes, Gerald still felt that Valery at this moment was like an angel descending to earth.

“The level of Flame Decay?” Gerald asked.

Valery nodded.

“What’s your attribute? Is it wood attribute?” Gerald asked excitedly.

Valery shook her head and said, “I don’t know. I feel that... I have the ability to cure, but... it’s very different from the attribute-related ability for wood attribute I’ve searched for before. I can’t tell it in detail.”

“Try to use Vital Energy!” Anabel said at that moment.

Skyler’s gaze looked even more envious than before. In two days, Anabel and Valery had a breakthrough one after another. Gerald’s team already had four Flame Decayers. They were definitely the best of all teams!

However, for Skyler’s team, only two Flame Decayers had reached the level of peak Half-Step Flame Decay at that time, and their progress was already very fast.

Nevertheless, compared to Valery and the others, the difference was still much bigger.

Valery’s Vital Energy swayed slightly, and then there was a green surge of Vital Energy moving around her body. Gerald could not help but feel a sense of comfort in the place where Vital Energy enveloped it.

“This is...”

At this moment, both Skyler and Anabel’s faces showed shock, and said, “This is... a life attribute.”

“Huh?” Gerald and the others looked at them blankly.

“The attribute-related ability of a life attribute?” Gerald frowned and asked, “What is this attribute?”

“It’s just that the attribute-related ability contains vitality! This is one of the rarest kinds of attributes. There seems to be only one person in the entire Havotune Galaxy who knows it now This person is an old lady from the Stone Tribe, and she has a very high status Anabel added, “Such a Flame Decayer will be coveted by all forces, and as long as a person is still breathing, she will definitely be able to save the person.”

After that, she continued, “It’s much better than the healing ability of the wood attribute, and its attribute-related ability is more than treating people. Then, Anabel added, “If the Eight Forces know this news, I’m afraid they will be competing to get Valery!”

Gerald’s brows furrowed slightly.

He did not want to watch them being targeted by the Eight Forces.

Thus, he frowned and said, “Everyone, I hope no one will say anything about Valery’s attribute. We don’t want to attract any attention.”

Skyler was stunned. He looked at Gerald and said, "Gerald, this is good news for Valery. Maybe the old lady from the Stone Tribe will personally take her in as her disciple."

Valery shook her head and said, "I don't plan to be anyone's disciple."

Skyler was stunned for a moment before nodding. "Okay, we'll definitely give you our promise."

After giving others a few more instructions, Gerald said, "Continue with your cultivation!"

He sat cross-legged, closed his eyes, and continued to get insight.

At that moment, Gerald actually possessed yet another attribute.

After his fight with Sheryl, Gerald realized that he had an additional thunder attribute. So far, there were six

kinds of attributes within him.

He had the ice attribute, magma attribute, air extraction attribute, wind attribute, thunder attribute and even strengthening attribute of the body.

Gerald did not know what was the limit for Dragon Bone. However, he was sure that it was getting harder and harder for him to absorb the attributes. Previously, he had fought a lot of Flame Decayers before, and there was no absorbing at all except for Sheryl's thunder attribute.

Thus, Gerald frowned and said, "After I go back, I have to find time to look through the ancient books left from Burial Ground and see if I can find some information on Dragon Bone."

Time passed, and five days had passed unknowingly.

In the meantime, Skyler and Grant had a breakthrough and reached the level of Flame Decay. Meanwhile, the

other two were also getting closer to it.

As for Valery and Anabel, their realms had completely consolidated. As for Carolyn, her improvement was

also very obvious after a few days. If she entered Corona Pool for a few more days to cultivate, Gerald guessed that she also had a chance to reach the supreme level of Flame Decay.

If he and Anabel were supreme Flame Decayers, then they would have a much higher chance of fighting against the Four Ancient Families.

However, it was quite difficult to reach the supreme level of Flame Decay. Even with this momentum, Gerald was unable to have a breakthrough and was still stuck at the final part.

At this time, Skyler ran down from the entrance of the cave with a smile on his face and said, "Grant, it's your turn. I'll continue to consolidate my realm!"

"No problem." Grant stood up and nodded.

Once he left, Gerald slowly opened his eyes.

## Chapter 914 The Cunning Grant

Gerald was not in a hurry to leave the place. He continued to close his eyes and tried to get insight quietly.

At one point, he continued to try to break through the barrier continuously. At another point, Gerald's body suddenly began to move violently, and his clothes seemed to be about to explode in an instant at that

moment.

On his body, six lights representing six attributes flashed across briefly and entered his body.

"I have a breakthrough!"

Gerald was overjoyed.

After using the energy to break through the barrier again and again, Gerald finally had a breakthrough. At this moment, he only felt that he had a better understanding of the six attributes within his body.

Previously, Gerald's use of the attributes was only superficial.

However, when he reached the supreme level of Flame Decay, he had a new understanding of the six attributes within his body. It was very mysterious.

With Gerald's breakthrough, a magnificent Vital Energy caused the entire cave to tremble slightly, and the

water in the pool suddenly exploded.

Skyler and the others were shocked. They all opened their eyes and retreated at the same time.

Meanwhile, Gerald, who was in the middle, opened his eyes slowly. There was a hint of a smile in his eyes.

Carolyn asked excitedly, "How is it? Did you have a breakthrough? Have you reached the supreme level of

Flame Decay?"

Gerald smiled faintly and nodded.

Skyler looked at Gerald in shock and said, "Damn! What's going on with you? Did you just directly reach the supreme level of Flame Decay? Have you become a supreme Flame Decayer before you turn 30? After you go back, you don't have to become Anabel's assistant anymore. A supreme Flame Decayer can directly join the Archaic Tribe, and you can even start your own clan. You can bring all your family and friends to stay here and become the collateral relatives of the direct descendants of the Archaic Tribe!"

Gerald was slightly surprised.

Anabel seemed to know Gerald did not understand the rules of the Archaic Tribe. Thus, she explained, "The Archaic Tribe has always had such a rule. If someone who has reached the supreme level of Flame

Decay or above is willing to join the Archaic Tribe, then the Supreme Flame Decayer and his family can be directly Included as the collateral relatives of the direct descendants from the Archaic Tribe.”

Gerald finally understood it. The Archaic Tribe was led by the Pierce family, and the other families were collateral relatives. Meanwhile, collateral relatives were divided into collateral relatives from the direct descendant and ordinary collateral descendant.

Thus, the Pierce family was also divided into a direct descendant and a collateral descendant

The Archaic Tribe was huge, similar to Native Americans, with hundreds of millions of people.

“Then why aren’t those families that have Flame Decayers of the supreme level willing to join them? For example, the Four Ancient Families. If they join forces together, they will have supreme Flame Decayers and many skilled people. But they rather seek protection from you than join the Archaic Tribe.” Gerald frowned. Anabel shook her head and said, “After joining the Archaic Tribe, there are many constraints. They need to be transparent about many things. Those families prefer to stand out from a mediocre crowd than to be a nobody among an exceptional crowd. Or you can say that they hope they can be equivalent to the Eight Forces one day!”

Gerald thought that was not all. Joining the Archaic Tribe was probably not as easy as what Anabel had said.

After all, she was just a disciple of the collateral descendant. Thus, she did not know too much about the internal organization of the Archaic Tribe.

Countless families desperately wanted to live on satellites. If they had supreme Flame Decayers and could become collateral relatives of the direct descendants of the Archaic Tribe, most of those families should be willing to do so.

Thus, he did not ask any more questions.

Meanwhile, Skyler, who was at the side, sighed and said, “With such talent, you will get the best training if you join the Archaic Tribe. It’s rare to reach the supreme level of Flame Decay before the age of 30. My dream is that the Mahoney family can join the direct descendants. It’s a pity... I hope that after this trial, everything

will go smoothly!”

Beside him, Anabel had a thought. Actually... he’s 25 years old.

Gerald looked at Skyler and said, “Actually, I don’t really want to join the Archaic Tribe. I helped him because he’s Anabel’s friend. Please help me keep it a secret about me reaching the supreme level of Flame Decay.”

Skyler was slightly stunned for a moment.

He looked at Gerald strangely.

Becoming a collateral relative of the direct descendants of the Archaic Tribe was his dream. However, it

seemed like Gerald looked down upon it.

Indeed, Gerald reached the supreme level of Flame Decay before he was 30. Thus, he had the right to become arrogant because of it.

“All right!” Skyler then added, “But we have to get in touch more often later. I feel that I can ride on your

coattails in the future!”

Gerald laughed and said, “There’s not much energy left and we still have one more day. All of you continue to cultivate and consolidate. I’ll also continue to stabilize my realm.”

The others nodded in a hurry.

In particular, there were also the two people who only reached the level of peak Half-Step Flame Decay. They

hoped to have a breakthrough and reach the level of Flame Decay within one day.

After the shock, the cave slowly regained its peace.

Gerald sat cross-legged for a while before he stood up and walked toward the entrance of the cave.

As he walked out of the cave, he found that Grant was sitting on the tree. Then, Gerald directly leaped onto

the tree.

“Did you have a breakthrough and reach the supreme level of Flame Decay? I just felt a very terrifying aura. Grant looked at Gerald with a hint of jealousy in the former’s eyes.

Gerald smiled slightly and said, “Yes. It went pretty well!”

Grant looked at Gerald and asked, “Do you need something?”

Gerald nodded and said, “Yes, but I don’t think it’s a good idea to talk about it here. I want to talk to you alone about the coordinates you mentioned.”

Then, Grant briefly glanced at Gerald warily and said, “I’ll only tell the top management of the Archaic Tribe about this matter. Let me be frank with you. Although Skyler promised all of you to bring you along as he delivers the news, I’m not planning to do it.”

Gerald narrowed his eyes and said in a low voice, “Is the place you mentioned a place with a lot of Bone of Eternity, enough to build another Eight Forces, even surpassing the Eight Forces and becoming the next place

for Nether Palace?”

Grant was stunned for a moment. Dumbfounded, he looked at Gerald and asked, “H-How did you know?”

Then, Gerald smiled mysteriously and said, "I know more than that, and I'm sure you know more than what I said. But this is not a place to talk. That Skyler has excellent hearing. If he knows the news, it will be worthless. Let's go somewhere else and exchange the information?"

Grant said with an uncertain expression, "When the time comes, we'll report it together!"

Gerald nodded. "No problem!"

The two of them walked quietly toward the distance. Gerald stopped in his tracks after they had gotten far

enough.

"You go first!" Grant looked at Gerald and added, "Tell me what you know and what you don't know."

"What I know is this. For example, the downfall of Nether Palace was caused by the heavy damage that it

suffered after it went to take over that planet. The world has Dragon Bone and Phoenix Bone." Gerald's eyes

flickered slightly before adding, "Nether King was seriously injured by the owner of Dragon Bone, and his

whereabouts are unknown. He most likely has died... And..."

After that, he looked at Grant and continued, "It's your turn now."

Grant's gaze was completely shocked at this time, and his breathing became rapid.

It was because the piece of news about Dragon Bone and Phoenix Bone was too shocking. There were too

many legends about Dragon Bone in this world.

Grant's expression was uncertain for a while, and after a moment, a wicked smile suddenly appeared on his

face.

"This piece of news really surprised me." Then, he added, "I can also tell you about my piece of news. The coordinates of the planet are..."

As he spoke, his eyes narrowed. At the same time, his mouth opened and a tiny ray of light shot out. Then, in an instant, it entered Gerald's right arm.

Gerald only felt a stinging pain. Then, he felt a tingling and numbing sensation appeared in his right arm. Then, a wave of energy penetrated his body and quickly spread toward his whole body.

After that, Gerald's expression changed, and his Vital Energy suddenly stirred up. He wanted to get rid of this energy, but it was too late.

"What did you do?" Gerald's expression changed.

A sinister smile appeared on Grant's face as he said, "This is called a Nether Needle. You must have never heard of it. Even a supreme Flame Decayer can't fight against the poisonous needle personally developed by King Lamont himself. When I got the drawing, I received a needle as well. Once a person is injected with the needle, the whole body will go numb. There is no way to use Vital Energy. But I only have one needle Needle. It's not really a waste to use it on you."

Then, he added, "I'll bring this piece of news to the Archaic Tribe alone. With this news from you, I'll get even more rewards. How is it that I will share it with you and we both take the credit?" Grant sneered before continuing, "You're still too young!"

With that, he slowly pulled out his knife and walked toward Gerald. "I'm a little excited to kill a supreme Flame Decayer! Before I kill you, I'm curious about one thing. How did you know that there are Dragon Bone and Phoenix Bone in that world? If you don't tell me about it, I'll stab you using the knife one after another. I'll make sure you won't die before the poison kills you."

After that, he added, "Of course, after you die, those three young girls won't be able to run away!" Then, Grant continued with a smile, "I will convince Skyler to end their lives so that all of you can be together."

The man was also cunning.

"Is that so?" At that moment, Gerald's eyes darkened as he pulled out Dragon Saber with his left hand.

He used it to strike at once.

A terrifying Vital Energy was felt surging around. It was the first time Gerald had attacked with full force using the saber since he reached the supreme level of Flame Decay.

A chill wind surrounded them. Around the sword, the ice attribute, magma attribute, and thunder attribute all

shot out.

At the same time, Grant felt as if he could no longer breathe.

The five attributes exploded together in an instant.

"How is that possible? You were clearly attacked using the Nether Needle!" Grant said in horror, and at the same time, he tried his best to resist.

However, just then, Gerald's saber managed to strike him.

"Aren't you curious why I know that there are Dragon Bone and Phoenix Bone in that world?" Gerald grinned. "Because... I am the owner of Dragon Bone."

Chapter 915 Framing Him

Although Gerald did not use any moves from the supreme level of Flame Decay, his attributes were completely unleashed, and it was not something that Grant could fight against.

"How is that possible? You've been poisoned by Nether Needle. How can you still use Vital Energy?" Grant's expression changed drastically.

However, no one told him the answer.

The strike from Gerald's saber rendered him completely defenseless. He let out a loud blood-curdling scream, and half of his body began to freeze. There were flashes of lightning on his body, while the other side was being burned.

In the blink of an eye, Grant died.

Pffft!

At the same moment that Grant died, Gerald opened his mouth and spat out a mouthful of blood. His right arm was completely paralyzed, and a thin layer of ice completely enveloped him.

Indeed, after the poison entered his body, Gerald quickly used his ice attribute to seal his body. However, he found that it had completely unable to stop the poison from spreading at all. The poison in Nether Needle

was too terrifying.

The poison continued to spread, but the attribute-related ability from the magma attribute and thunder attribute actually stopped the poison from spreading.

This also gave Gerald a chance to take out his saber and strike.

Previously, when Gerald fought in front of Grant and the others, Grant did not know what Gerald's attribute was. Grant was very confident in Nether Needle.

However, he did not expect Gerald to not only possess an attribute but also possessed so many attributes.

The attributes temporarily restrained the poison from spreading.

However, when Gerald struck with his saber, he found that the poison suddenly could not be suppressed anymore, and it began to spread quickly all over his body.

"Damn! Am I going to be poisoned to death this way?" Gerald cursed. He stopped looking at Grant's corpse and began to run quickly toward the cave.

The only hope now was Valery.

When he reached the entrance of the cave, Gerald felt that he could no longer see clearly.

He almost rolled down into the cave from the entrance. At this time, his whole body was red and swollen, and

his lips were black.

The poison of Nether Needle was too terrifying.

"Gerald!" His movement attracted the attention of the others. Valery and the others opened their eyes. When

they saw Gerald's condition, everyone was very shocked. Valery jumped up and approached him.

The others also gathered around and asked, "What happened?"

"He's poisoned, and it's a very strong poison." Then, Valery added, "I have to treat him now!"

As she spoke, she sat cross-legged, and the Vital Energy around her body quickly enveloped Gerald.

She was not confident if her Vital Energy could help Gerald get rid of the poison.

With her vast experience, she knew that the poison must be extraordinary.

"H-How did he get poisoned?" Skyler asked in confusion,

Carolyn was speechless before she said, "You asked me, but who should I ask? We'll talk about it when he

recovers."

Skyler looked around and said, "Huh. He seems to have rolled down from the entrance of the cave. Why didn't I see Grant? I'm going out to see him!"

With that said, he ran out of the cave.

After he left, Valery was treating Gerald with all her might. Carolyn and Anabel's faces were still filled with worry, while the other two went away to continue with their cultivation.

"I think I've read about the features on his body in some ancient book. He seems to have been poisoned by

Nether Needle," Anabel said.

"Nether Needle?" Then, Carolyn asked curiously, "What is it?"

"It's a hidden weapon from ancient times. I don't know who made it, and the method to make it has been lost. Some still exist, but it's very rare." Anabel then added, "A Nether Needle can kill a supreme Flame Decayer! Even the supreme Flame Decayer can't fight against it. In the entire world, only the old lady from the Stone

Tribe who has the life attribute can save him!"

After that, Anabel looked at Gerald and continued, "But it's usually always too late after a person is poisoned with it. It is because the poison of a Nether Needle is too fast, and can spread to a person's whole body in an extremely fast time. Even a supreme Flame Decayer can't hold on for long. I didn't expect Gerald to be poisoned by a poison like this. Fortunately, Valery happened to have a life attribute, and this guy is really

lucky."

"You mean, Valery can cure him?" Carolyn asked happily.

Anabel nodded and said, "It shouldn't be a problem."

Carolyn patted herself on the chest before she calmed down and said, "That's good, that's good!"

After a while, Skyler walked down and said with a grim face, "Grant is dead."

“Huh?” Carolyn’s heart skipped a beat as she stole a glance at Gerald.

I’m afraid someone came here. Gerald and Grant must have been tricked while they were luring the people away so that we won’t be discovered.” Skyler’s expression darkened as he added, “I felt four attributes on his

corpse. There were the ice attribute, thunder attribute, magma attribute, and gale attribute. I’m afraid it was Sheryl who has joined forces with the others ”

With that said, he looked at Gerald. Then, he added, “The poison in Gerald’s body is also... Nether Needle. Not many people in this world have it. But it’s normal for the people in Infinito to have one.”

At that moment, his expression darkened as he said, “I’m afraid Sheryl has teamed up with a particular team. At least four would have reached the level of Flame Decay or above.”

In fact, Gerald was still conscious at this time. He was thinking about how to explain Grant’s death to Skyler, but he did not expect the man to start having wild assumptions.

After Valery used Vital Energy on him, he felt that the poison in his body was being excreted bit by bit. He began to think of an explanation following Skyler’s speculation.

Skyler did not have the mood to cultivate anymore. After about two hours, Gerald’s complexion returned to normal. He slowly opened his eyes and let out a long breath.

“How’s it going?” Valery asked in a hurry.

“The poison has been removed,” Gerald replied.

When Skyler saw that Gerald had woken up, the former hurriedly asked, “What happened?”

Gerald looked at Skyler and said with a bitter smile, “I thought it was useless to continue cultivating and wasting this energy. I plan to leave the energy to you first, and I went out. I planned to replace Grant.”

Then, he added, “Just as I arrived at the entrance of the cave, I felt a few auras approaching.” After that, he sighed before continuing, “I thought that as I have reached the supreme level of Flame Decay, I’m not afraid of them. So I was thinking of protecting all of you and luring them away! Grant followed me as well.”

Gerald then added with a bitter smile, “I took the initiative to let out the aura of a Supreme Flame Decayer. Sure enough, they chased after me, but before I could go far, I found something pricked my right arm. Immediately afterward, I found a poison spreading quickly in my body, which couldn’t be suppressed at all! I couldn’t use Vital Energy either.”

After that, he continued, “Then, I chose to come back as soon as possible. I thought as there are five Flame Decayers here, I won’t be afraid of them anymore.” Gerald smiled bitterly and added, “But in the end... they didn’t care about me at all and went straight to chase Grant. I completely had no idea what happened after that. When I returned to the cave, I almost lost consciousness!”

“The thing that poisoned you is Nether Needle, the most powerful hidden weapon in the world. A supreme Flame Decayer would be bound to die if he is poisoned by it. It’s normal for them to leave you alone. Have you seen who they are?” Skyler gritted his teeth as he asked the question.

“No... I only saw a flash of red uniform passing by, and I didn’t see anything else.” Gerald shook his head and spoke.

“It really is Sheryl!” Skyler cursed loudly.

Chapter 916 A Smart Woman

Skyler didn’t think much about the reason given.

The most important thing was that several attribute-related abilities were displayed. He also didn’t give Gerald and Dragon Bone much thought. After all, it was almost impossible for it to appear.

“Damn, it’s really Sheryl! Fuck!” Skyler was still cursing.

The thunder attribute was also extremely rare. Among the participants this time, only Sheryl alone used it.

Therefore, Skyler subconsciously assumed that Sheryl and others were the ones who did it.

After cursing for a long time, he smiled bitterly and said, “Forget it. I can’t do anything about what she did. It’s a pity. If the news Grant had reached the ears of the leaders in the tribe, we would definitely become direct descendants!”

Gerald pretended to ask, “Did you find them then?”

“I didn’t see them. They probably thought there were only two of you. Furthermore, you’re poisoned, and Grant is killed. They probably thought no one was around anymore, so they left.” Skyler was still angry and cursing.

Their team of four had now turned into a team of three.

Anabel looked at Skyler and asked, “What will you do? Are you going to leave first? Or wait another day?”

Skyler pondered for a moment and said, “Let’s wait another day and see if the two of them can break through to the level of Flame Decayer. If they can break through, I have a chance to enter the top ten.”

“Actually, you can enter the top ten without breaking through. You and my team are recognized to be weak. Those teams that are at the level of peak Half-Step Flame Decay will definitely find a way to defeat us. We

can entrap them!” Anabel suggested.

In fact, they had accumulated quite a lot of points. After killing Seth’s team, they got two cards at that time. Now, they had eight cards in their hands, which meant they had 32 points. They were getting closer to

entering the top ten.

Skyler’s eyes lit up slightly as he said, “That’s a good idea!”

After saying that, he frowned and said, “If I understand you correctly, are we not going through this together after we go out?”

Anabel shook her head and said, "Let's act alone. In my team are three Flame Decayers and one Supreme

Flame Decayer. I'm not afraid even if I meet Sheryl."

She said this with pride on her face!

Skyler thought of something he was unsure if he should say out loud.

Three Flame Decayers, with one supreme Flame Decayer, and one of them even has life attribute. He was so

envious

"That's true!" Skyler said enviously, "If we go with you guys, you will all take the cards."

They chatted for a while and didn't care too much about the death of Grant.

It was as if the matter had been moved on.

In Skyler's eyes, Grant was just his partner, far less a friend. It was just a pity that he didn't get the news from

Grant.

On the following day, Gerald regained his composure. By the end of the day, his injuries had completely recovered, and he had reached his peak state.

One of Skyler's teammates broke through to Flame Decayer the following day, while the other was stuck at the level of peak Half-Step Flame Decay, failing to break through.

Skyler thought it was unfortunate, but at least they still had two Flame Decayers, which were enough to set up the entrapment. In the face of those powerful teams, it would not be a big problem for Skyler's team to escape if they failed to beat the powerful ones.

After saying goodbye to each other, Gerald and the rest rushed to the second level.

There was plenty of time given for the earlier levels. The first two levels had five days each. However, at the

third level, time will be more constrained.

As Gerald rushed toward the inner parts, Anabel suddenly asked, "Gerald, did you kill Grant?"

Gerald furrowed his brows.

"Don't deny it. I know." Anabel looked at Gerald and said, "I won't tell anyone."

"Tell me why you think I killed him." Gerald smiled and was not bothered by the statement.

"Skyler didn't know that you're the owner of Dragon Bone, so he didn't think about it. But the attributes he just mentioned – ice, wind, and magma- are yours. As for the thunder attribute, you probably obtained it after you

fought with Sheryl." Anabel looked at Gerald and said, "And you killed him because you don't want him to

spread the news to the top leaders of the Archaic Tribe!

Gerald's eyelids twitched slightly, and he stopped in his tracks.

"If my guess is correct, the thing that Grant got is most likely similar to the will we saw before. The location.

of the planet that destroyed Nether Palace is there. Nether Palace is powerful, but to be able to defeat them

must mean that the planet is extremely powerful. Countless Flame Decayers fell, meaning countless Bone of Eternity will be left behind. If the Archaic Tribe gets it, they will become the leader of the Eight Forces easily,"

Anabel said in a low voice.

As she spoke, a murderous intent surfaced in Gerald's heart.

Anabel curled her lips and said, "Sure enough, you don't think of me as a friend. You wanted to murder me just now. I told you I'll definitely keep this secret for you." Anabel continued, "Gerald, sometimes you care too much, and this will reveal a flaw. Although I don't know why you keep protecting that planet, don't worry; I won't leak a word. I will get along well with you. If I can be in charge of the Archaic Tribe in the future, the Archaic Tribe will also become an ally of yours and won't stand against you!"

Gerald looked at Anabel in surprise. He did not expect her to have such a high goal.

Gerald laughed and did not express agreement with Anabel's statement, nor did he explain anything.

Anabel was too smart. She could guess many things with some clues, and she managed to guess fairly accurately!

It's a pity this woman isn't in politics. Gerald cursed silently in his heart.

At this moment, Anabel added, "I sincerely want to make friends with you. Besides, if you really want to fight. the Four Ancient Families, I'm willing to help you without any reward after all these ends!"

"No!" Gerald said. "This is the feud between me and the Four Ancient Families. We will solve it ourselves. You'd better continue to stay in the Archaic Tribe and work hard to become Boss of the Archaic Tribe. If you really keep your promise by then, I will acknowledge you as my friend, and you can do whatever you want in

Havotune."

"You guys still don't want to accept me as one of yours!" Anabel sighed.

Valery tried to smooth things over, saying, "Many relationships are formed naturally over time. Don't worry. Let's think about the trial ahead of us first. Ten days have passed, and we have to get more points."

Anabel nodded without any hesitation.

The group quickly shuttled through the forest.

After a while, Gerald frowned and asked, "Did you guys... realize a problem?"

"Huh?" Valery and Carolyn looked at him.

Anabel nodded and said, "I feel it. We met some beasts at the previous level, but the beast's aura is very weak. at this level. Instead, we saw a lot of signs of beasts moving, and they seemed to be heading toward the

inner part!"

"I'm afraid the road ahead will be more and more difficult!" Gerald sighed.

A few hours later, they arrived at the second checkpoint without much trouble.

However, not long after they entered, they met a few people again.

Chapter 917 I Love Divination

Gerald and the rest did not linger after entering the second level. They were most likely one of the slowest

teams to enter the second level.

They evaluated that it was unlikely they could catch much even if they were to set up an entrapment here, so they quickly rushed toward the third level. They did not face any obstacles along the way. When they were about to reach the third level, they stopped to fish.

However, this time, Anabel and Carolyn became the fishermen. Carolyn took the initiative to conceal Anabel's aura. They stood in a very conspicuous spot where it was easy for anyone to notice them.

The result turned out to be equally effective!

Not long after, both of them gained attention from other people.

Soon, four figures approached Gerald and his team.

"Huh?" A weird voice rang out. "You guys managed to reach the third level without harm?"

Gerald looked over and frowned slightly. The people who came this time were Kristian and Reuben and their

team members.

Anabel quickly became alert. She stood up, looked at Kristian and the others, and said, "Are you... thinking of fighting us?"

Kristian shook his head and said, "I won't lay hands on people from the same tribe. Wait, how did you reach the level of Flame Decay?"

In a moment of hastiness, Anabel's hand left Carolyn when she stood up earlier. As a result, she could not suppress her aura. That was how Kristian caught a whiff of her aura of a Flame Decayer.

"Yes, I broke through!" Anabel hurriedly said.

Kristian frowned and said, "No, no. You undoubtedly just reached the level of peak Flame Decay, but when your hand left that woman... She's the one who helped to suppress your aura... This..."

Kristian was an intellectual man; he instantly realized what was happening. He looked at Carolyn in shock and asked, "Are you also a Flame Decayer?"

Carolyn would not be able to help Anabel suppress her capability if she was not a Flame Decayer.

Therefore, he quickly determined that Carolyn was also a Flame Decayer. However, her capability showed she was only a Half-Step Flame Decayer.

"Anabel... You're playing dumb!" Kristian looked at Anabel with a wry smile and said, "I was wondering why you both are standing in such a conspicuous spot when you have such weak powers. You're trying to entrap us, aren't you?"

Seeing her plan was exposed, Anabel could not help but show a hint of embarrassment on her face.

"She's just a Half-Step Flame Decayer, but she's better at concealing auras, so..."

"You don't need to explain!" Kristian pursed his lips and said, "Don't worry, I won't tell anyone anyway. It's good

to have another team from our tribe in the top ten spots."

Only then did Anabel relax and nod..

At that moment, Sylvie, wearing a veil, walked out. She looked at Gerald and Valery and asked, "So... are they

Flame Decayers too? They deliberately suppressed their auras and only showed the strength of a Half-Step

Flame Decayer?"

After she threw out the question, Kristian and the others immediately took a step back.

Various scenarios ran through Kristian's mind. That's right. Gerald and Valery only showed their strength as

half-step Flame Decayers. Could it be that they have reached the level of Flame Decay? If Anabel and the

others are a team of four Flame Decayers, then this is a weird situation.

"We're genuinely just half-step Flame Decayers," Gerald said awkwardly.

Sylvie looked at Gerald suspiciously. Obviously, she did not believe them.

“All right. You guys continue fishing. We’ll be taking our leave now.” Kristian felt something was amiss, so he

decided to leave first.

Gerald took a step forward and said, “Don’t be in a hurry to leave. Let’s talk for a while!”

“Stop right there!” Kristian saw Gerald approaching, and he hurriedly took two steps back and said, “There’s

something wrong with you. Were you trying to kill us just now?”

Gerald was speechless. This guy is being too cautious.

“No, I was not. I only want to seek information,” Gerald replied helplessly.

“If you have something to ask, just do it there and then. Don’t take another step forward. For certain, you’re

not a Half-Step Flame Decayer. I don’t trust you at all.” Kristian glared at Gerald.

Gerald was dumbfounded. He stood still and said, “All right. On your way here, have you met any beasts?”

Hearing his question, Kristian stroked his chin and said in a deep voice, “Did you notice that too? After we arrived at this level, our journey had been smooth without any obstacles. We did not encounter any beasts with the level of Flame Decay. Instead, there were several signs of beasts moving toward the center.”

“I performed divination!” Sylvie chimed in, “If we continue to advance, it will be treacherous.”

“Divination?” Gerald looked at her puzzledly.

“Yes.” Sylvie nodded and said, “I’m interested in these things.”

Gerald never believed in divination. Moreover, it was obvious that further advancement would endanger their

lives since the beasts were moving toward the center.

Gerald and the rest had a pretty good impression of Kristian’s team.

Firstly, they did not attack people within the Archaic Tribe, unlike Kameron’s team. This was how a family

should behave

Secondly, Sylvie had helped Gerald before, although he did not understand her intentions for doing so.

Thirdly, Kristian might be arrogant, but from the earlier conversation, he was rather easygoing and humorous.

Gerald stroked his chin and asked, “Have there been similar situations in the previous trials?”

“Not that I heard of. Beasts have their habits; they normally don’t move away from their territories. It’s very unusual to have so many high-level beasts disappearing suddenly!” Anabel shook her head and said.

Gerald looked at Carolyn and thought of a possibility.

There was a woman called Brigid.

Gerald had previously witnessed Brigid launching a beast attack, which she admitted was her doing. Subsequently, she was wounded by Gerald, and it brought an end to the beast attack. If it were not for Gerald, nobody knew how long the attack would have continued!

And now, Brigid was outside! Could she be thinking of wanting to launch this beast attack? The more Gerald thought about it, the more possible it seemed.

Brigid was from Nether Palace and was most probably sent to be undercover in the Archaic Tribe. Nether Palace and the Eight Forces were absolute enemies, representing the alternation in power between the two

dynasties.

As someone serving Nether Palace, it was natural for her to want to gather the future talents of the Eight Forces in one place and send them to their deaths.

Although he had that thought in his mind, Gerald did not say it out loud.

“Anyway, you all be careful!” Kristian said. “I shall not get in the way of you guys fishing. We’re heading to the fourth level first and see if we can get some points!”

As he spoke, he slowly retreated while facing Gerald and the others. He cursed while retreating, “Damn it! Why didn’t I think of your strategy before? I should have made myself look less powerful, and then come in here to fish. We can earn more points this way!”

Chapter 918 Let the Chaos Continue

Kristian’s team left after exchanging greetings with Gerald and others.

They were shocked by Anabel’s breakthrough and the fact that Carolyn was Flame Decayer. They slipped away directly as they were afraid that Gerald and the others would make a sudden attack on them.

However, when they were about to leave, Gerald noticed Sylvie giving him a meaningful look, which made him slightly unable to make head or tail of it.

Of course, Gerald did not pay much attention to it. After watching Kristian and the others leave, they continued to stay at the place to ambush.

Not long after, someone still took the bait!

In the beginning, the identity of them being acknowledged as the weakest team was really useful to them.

Those who saw them would think they were the four points of mobile, and they were about to come over and

attack as soon as they saw them.

As a result, Gerald and others successfully got four points.

Then, they changed their position and continued ambushing.

Over the next few days, they collected the cards while they were on their way. Along the way, no team could cause them any trouble. It had been two-thirds of the time since they entered the trial without realizing it.

They had gained a lot in the past ten days, and Anabel had a contented smile on her face.

In her hand, there were 16 serial number plates in total. This meant that she already had 64 points.

It was already a sure thing to enter the top ten, and it was only a question of which ranks she would be ahead.

They had already entered the fifth level.

There were only three levels left before the trial was over.

Most of those who persevered until now were lucky, or the team had team members of Flame Decayer.

At the same time, since they entered the fifth level, Gerald and the others felt the beast aura again.

They had

to slow down their pace and tried not to clash with the beast before leaning in.

“Do we have to enter the altar to pass?” Valery asked and frowned while rushing towards the sixth level.

“According to the rules, except for the card, we must also reach the altar. When we reach the altar, the card

will make a record.” Anabel spoke.

Gerald stopped in his tracks and said, “There is something wrong with the situation on this island now. The

beasts gathered towards the center, and starting from this level, the beasts appeared again. If we continue to

go deeper, if these beasts are premeditated or controlled by others, once we continue to go deeper, we... may

be trapped from two sides!”

Gerald frowned and said, “How about this? You guys continue to ambush outside. This place is relatively

safe. Try to get more points. I'll take the card alone and go straight to the altar. If everything goes well, I can go back and forth in one day. I'll come back after I finish recording our cards."

Anabel shook her head and said, "Didn't you read the rules? We must reach the altar with all the cards we have won and make records there. Moreover, we might have to face some snatches when we leave. With that, she continued suspiciously, "It should just be a coincidence that these beasts gather in the middle of

the island!"

Gerald was helpless. He couldn't tell Anabel about Brigid. Anabel probably won't believe me. Instead, this might put the three of us in a kind of danger after we go back.

"Then... Why don't you give me all the cards, and I go in alone? But in this way, our points will be almost fixed,"

Gerald said

"I... want to take the first place!" Anabel gritted her teeth and said.

Valery also looked at Gerald and said, "Let's move on together. If the four of us are together, we can take care of each other even if we're in danger. You're the supreme Flame Decayer. If you're lucky, you'll be just like the beast attack in Rime City before."

What she said was the same. It was the time when the beast attack happened in Rime City that all the beasts retreated.

"All right then." Gerald continued to move forward.

Just as they were about to reach the entrance of the sixth level, Gerald and others could hear a loud roar

from afar. At the same time, the ground was shaking.

"Over there... it seems that the beasts and humans have already fought over there. Should we go and have a

look?" Gerald asked after letting out a sigh.

Anabel nodded and said, "Let's take a look. If it goes well, we even can get some points."

The four nodded, and they quickly leaned over, hid in the bushes, restrained their aura, and looked down.

At this moment, they were horrified.

There were a lot of beasts down below. Eight figures were standing with their backs against each other in a

circle. There were also four people in the middle of the circle, three of them were lying on the ground, and

another person was giving them emergency treatment.

“Wow! They’re all from the outstanding teams!” Gerald smiled.

Indeed, the three teams below are all outstanding teams. There was Kristian’s team, and the other team was

led by Benning from the Aggro Tribe.

Surrounded by them was Sheryl’s team.

About a dozen beasts were surrounding them. They looked like wolves, but they were all snow-white. They were huge in size, and their eyes were green. Each one of them looked like a Flame Decayer.

“This is White Wolf! A huge flock of wild beasts that live in groups. An adult White Wolf... Its strength is comparable with a Flamé Decayer.” Anabel gulped and continued, “They... are in trouble.”

There were more than a dozen White Wolf, while Kristian and the others only had four Flame Decayers, and even Sheryl was seriously injured.

From the beginning, when Kristian met Benning, Gerald could tell that Kristian and Benning were interested in Sheryl. They were rivals in love.

According to the current situation, there was a high probability that Sheryl’s team had encountered some dangers. Then, Kenneth and Kristian’s team ran into each other and wanted to rescue her team, but they ended up falling into that dangerous situation.

Although Gerald had seen the beasts with the level of Flame Decay before, he had never seen the beasts of the Flame Decayer level make an attack, including the beast attack, or this time.

“How about... we go help them?” Anabel suggested.

Her gaze kept fixating on Kristian and the others.

Apparently, whether it was Kristian, Reuben, or Sylvie, their status in the Archaic Tribe was relatively high among the younger generation.

Anabel deliberately wanted to establish a good relationship with them.

Her status in the Archaic Tribe would definitely rise when she returned this time. If she saved those direct descendants, they would owe her lives, and thus her status would be stable directly.

After saying that, she looked at Gerald and asked, “Can you... get rid of these wolves?”

Gerald frowned and then said in a deep voice, “I can help, but... I won’t expose my strength of Dragon Bone and supreme Flame Decayer. If I lose, I can only cover for you guys to leave.”

“Okay!” Anabel nodded and said, “That’s enough. Let’s go down!”

“There’s no rush. If you want people to thank you, you should do it when they are completely desperate.

Hence, their gratitude will come more intense,” said Gerald.

Anabel looked at Gerald in astonishment and asked, "What do you mean?"

"Let the chaos continue for a while." Gerald grinned.

At the same time, in Abandoned Land, the City of Phoenix.

At the entrance of Abandoned Land, a few people walked out from the hall and were smoking outside.

There was also something like a cigarette in this world, but it was somewhat different from the cigarette on

Earth.

Bursts of excited shouts could be heard coming from the Abandoned Land.

"What the hell is the group of people inside doing here? They've been shouting all the time lately." One of them took a puff of smoke and said speechlessly.

"It doesn't matter what they do. It's just a bunch of losers with bad genes. They can do whatever they want." A hint of disdain appeared on the other man's face.

They didn't know a silent revolution was slowly happening in the Abandoned Land of the City of Phoenix.

#### Chapter 919 Change in Abandoned Land

In Abandoned Land, during the past 20 days, this group of people, who were desperate for life and just muddled along day by day, began to have hope in some of their eyes during this period of time.

Abandoned Land was a deserted place, and most of the upper-class people, even lower-class people, were

unwilling to enter.

This group of people was equivalent to the slaves of Havotune. They knew farming and did some farm work. Then every month, they would go to a fixed point in Abandoned Land and rely on the things they planted in exchange for a certain amount of golorb or food.

That was their life. Perhaps when they were assigned to a new work point, a glimmer of hope could be seen

in their eyes.

Of course, no matter how poor the place was, there was still a society.

For example, some of the super level there live better than most ordinary people.

But... it was just a little better.

However, many people saw a glimmer of hope in their eyes during this period of time.

Indeed, hope was a luxury to the people in Abandoned Land.

And it was also what they longed for the most.

Since Jacob started to carry out his first class, for the next 20 days, he traveled around various parts of the

Abandoned Land and used the same method, which was to pay someone to come over to attend his lesson.

More and more people were fooled by him, and his set of things that were a bit like pyramid schemes spread

down. After being brainwashed, something began to sprout in the hearts of those who listened to the class.

Although the sprout was still very young.

But one day, it will bloom.

And on that day, there would be a large number of Flame Decayer experts on their side, and they would fight.

with the Four Ancient Families. At that time, they would customize the order of the City of Phoenix again.

A lot of things were slowly spreading, and Jacob was running more and more classes everywhere.

There were always some people who came to the classes fooled by him, and he could mobilize most of their

emotions on the spot.

Up until now, when Jacob gave a lesson, at least hundreds of people would come together, and sometimes

the number was even more.

Sometimes when their emotions were stirred up, Jacob would even ask them to shout slogans with him.

Fortunately, no one cared about the situation in Abandoned Land.

While Jacob began to pick some people to train his core team and started to teach them how to give a lesson.

He was preparing for his temporary departure from the place later.

At this time, a temporary stage was set up in an empty place, and there were thousands of people watching the stage from below. On the stage, Jacob was talking eloquently. Those people came here for money at first, but seeing that now, many were already excited in passion.

“For freedom!” Jacob yelled from the stage.

‘For freedom!’

Below, many people held their arms tightly and shouted.

Regardless of whether they dared to resist in the future, at least at this moment, they wanted to shout out

their inner cries.

The people in Abandoned Land were so depressed that they didn't even have a chance to vent.

Meanwhile, Triston and Claude felt helpless from afar.

"I give up on this idiot." Triston looked at Jacob speechlessly and continued, "If this jerk is not a pyramid-scheming guy, I will eat my damn shit! Why are these fools so easy to fool?"

Claude shook his head and said, "It's not just getting fooled around. They've been suppressed for too long.

and... this is what they yearn for."

"The people in Abandoned Land are damn weird. The situation inside has already been this chaos. Thousands of people are gathering and shouting slogans, but no one takes care of them," said Triston.

"Haha! I guess they don't think it's necessary to care. Many of these people are ordinary people, and some

have undergone martial arts training, but their highest level is just the super level. They can completely suppress them with a Half-Step Flame Decayer." Claude curled his lips and continued, "So... They are not

worried at all."

Triston curled his lips and said, "Alas! I don't know if all this he did is meaningful or not. I'm worried... if these people really rebel in the future, how many people will die!"

"There has to be a price to pay." Claude looked at Jacob and said, "Actually... I think what Jacob has done is quite meaningful."

Triston smiled noncommittally, then raised his head to look at the three satellites in the sky and said, "Speaking of which, a month is almost up, and there are less than ten days left. Gerald and others should be back soon."

"Soon!" Claude said as he took out his phone. He glanced at the time on the phone and said in a deep voice, "Besides, it's only a month away from us returning to Earth. It will be even shorter after converting to the time

here."

"Damn it!" Hearing this, Triston's expression changed. "Speaking of this, I found a problem. Now that we are trapped in Abandoned Land, how can we buy what we want? I also plan to buy a few cool hover cars to show off when we get back."

"Didn't Hector say we'll go to Ries City to buy these things by then? It will be very troublesome to rush to Ries City after buying them here," Claude said.

“That’s just a small town. There probably aren’t any good cars, right?” Triston said while scolding.

Gerald naturally did not know what had happened to Jacob and the others. At this moment, he was hiding in the forest and looking down quietly.

Benning’s upper body was naked down there, and his strong muscles were completely moving together. He was holding a broadsword, which looked heavy at first glance.

He showed a fierce look on his face as if he wanted to scare the White Wolf away.

But obviously, it did not work on the White Wolf.

“How!!”

Behind him, one of the White Wolf raised its head to the sky and let out a howl.

With howling, the other White Wolf began to move quickly, and a strong wind instantly surrounded them.

Anabel explained, “White Wolf can control some of the attribute-related abilities of the wind attribute. They

are beasts with group living attributes. That wolf should be the Wolf King.” Anabel pointed at the howling

White Wolf when saying.

As they were explaining, Kristian chuckled and said, “Sheryl, if I kill this Wolf King and save you out of here,

will you marry me?”

“Fuck you!” Benning cursed. “How can you touch the Wolf King when you’re so weak? Sheryl, I’ll kill this Wolf

King. When you marry me, I’ll let you feel what real masculinity is.”

“You...” Sheryl’s face was pale. She was lying on the ground, clearly injured severely.

She wanted to say something else, but it was too late. The wolves launched an attack on them.

“It’s so fast!” Gerald was shocked.

Indeed, with the support of the wind attribute, the wolf swarm moved at an extremely fast speed. They almost turned into white shadows and pounced on the people.

The circle formed by the people was dispersed in an instant.

Two of them, who were at the level of peak Half-Step Flame Decay, directly hit and vomited blood, flying backward.

“Brother!” Kristian yelled with his expression changed as he watched the man fly away.

However, he didn’t have time to react and was quickly besieged by two or three White Wolf

The number of White Wolf completely suppressed them.

To Gerald's surprise, Sylvie seemed to be able to handle the situation when Kristian and the others were in a tough battle.

Gerald took a closer look and found a problem. Sylvie seemed to be able to predict the attacks of those White Wolf on her and then coincidentally avoided them again and again.

"Interesting!" Gerald said with great interest.

After the formation was dispersed, Kristian, Benning, and the others all fell into a tough battle and crisis. They also exposed the four persons injured in the middle,

In an instant, three of White Wolf leaped into the air and charged toward Sheryl and the others.

Despair appeared on Sheryl's face.

"Get lost!" Benning roared. His energy instantly surged, and the broadsword in his hand seemed to light up at

this moment.

There was also a stone on his right hand, and he cursed, "I will die with you!"

"We have to do something!" Anabel said.

Gerald nodded and said, "It's the time. You guys go and save Sheryl. I'll go and chop off the Wolf King."

Chapter 920 Same Type of People

A trace of despair appeared on Sheryl's face as she lay on the ground.

Sheryl was the chosen one, and almost no one was stronger than her in that generation of Havotune Galaxy. She had thought that that trial would be easy.

However, at the start of the trial, Sheryl suddenly realized someone was more powerful than her.

Later, Sheryl was surrounded by wild beasts in that place and was seriously injured. She might even die now.

Sheryl thought she was the future of Infinito.

When Sheryl looked up, she saw three White Wolves lunge at her. She gritted her teeth.

At that time, the only person still standing there to treat them stood up and blocked Sheryl away from the

White Wolves.

"Spencer!" Sheryl's expression changed slightly. "Get out of the way. I can kill them!"

Sheryl's hands were tightly clasped around her waist. She was wearing a girdle.

"Sheryl!"

“Sheryl!”

At the side, both Kristian and Benning were bellowing at Sheryl furiously.

Sheryl’s expression changed drastically. It was apparent that Spencer wanted to sacrifice himself to save her.

Sheryl gritted her teeth and suddenly pulled the girdle out of her waist.

“Swoosh! Swoosh!”

Right at that moment, two figures jumped down. A flow of Vital Energy enveloped them, and the water current circulating within the Vital Energy intercepted the White Wolves. Flames fell from the sky at the same time.

“Valery Chopping!”

Immediately after, a voluptuous figure flashed by and instantly rushed toward them. Her body was burning with flames like she was the deity of fire. She was holding two swords. One was releasing searing flames,

while the other was shorter.

At that time, the blade light flashed, and the girl’s Vital Energy enveloped the three White Wolves. Her attack on

them was like raindrops falling.

The White Wolves, which lunged over, were stunned for a moment and then quickly pushed back by the attack.

“Anabel!” Not far away, Kristian let out a surprised cry.

At the bottom, Sheryl and the others’ expressions slightly jolted, and said, “It’s you guys!”

Anabel smiled at Sheryl and asked, “Are you okay?”

With a pale face, Sheryl buckled the girdle around her waist and replied, “I won’t die for now. You...” She stopped speaking even though she wanted to say something.

There was some friction between Sheryl and Anabel at first. The former never thought the latter and three others would appear and save them at that critical moment.

Anabel flashed Sheryl a friendly grin. The former felt it was worthy for her to maintain a good relationship with the latter.

“Buzz!”

Yet, another figure appeared in Sheryl’s mind. The figure who stopped her and Aldous with his strength. If he was there, maybe... they would have a chance to survive.

“Benning, put that bead of yours away. I don’t want to die here,” Kristian shouted angrily at Benning, who was

not far away.

At the same time, on the periphery, a terrifying atmosphere formed, and a cold and burning aura appeared

simultaneously.

Gerald did not hide the fact that he had both an ice attribute and a magma attribute. After all, Shery and the others had seen it. Although dual attributes were rare, they still existed. For example, Sheryl had dual

attributes.

“Damn! Dual attributes!” Kristian looked at Gerald, who was pouncing on the Wolf King from a distance. “Dang! This guy is indeed cunning. I previously suspected that he’s a Flame Decayer!”

Gerald descended from the sky and pounced on the Wolf King. The Dragon Saber in his hand let out a long, high-pitched sound, and his two attributes instantly shrouded the animal.

“Wave!”

Gerald chose Wave Blades. He could not use the Dragon-Slaying Saber Skills. Dragon-shaped phantoms would appear in all three moves of the Dragon-Slaying Saber Skills, which would expose too much. His strength was also controlled at the level of Flame Decayer.

However, under the control of the dual attributes, the White Wolf King’s speed advantage was greatly diminished.

Gerald slashed the wolf’s body continuously with his sword. When he slashed it the eleventh time, terrifying coercion suppressed the wolf.

“The eleventh time!”

Gerald shouted coldly. The surrounding ground seemed to tremble at that moment. When his sword dropped, the ground surface collapsed, and White Wolf King was directly slashed into two parts.

Although the White Wolf King was a little stronger than an ordinary White Wolf, its strength was limited.

Usually, a Flame Decayer would be able to compete with a White Wolf King neck and neck on a one-to-one basis. Gerald could deal with it easily.

When the White Wolf King died, the other White Wolves rapidly began to flee in all directions as if they had lost their leader.

Gerald retracted his blade and turned to look at Kristian and the others.

On the other hand, Valery walked towards Sheryl and the other three persons and said, “I’m a doctor. I can help with the treatment.”

Spencer was astonished for a moment but did not stop Valery.

“You this... small team...” Benning frowned and looked at Anabel’s gray hair suspiciously. “Are you from the Archaic Tribe?”

Kristian curled his lips and answered, “Yeah, what’s wrong? The Archaic Tribe’s younger generation has a well-trained and powerful army squad. What’s wrong with having a few more Flame Decayers?”

Benning felt a little aggrieved.

Sheryl staggered to her feet as well. She looked at Anabel and commented, “It seems that you have some adventures in the Burial Ground and have a breakthrough to the level of Flame Decayer.”

“This is not a place to talk. The noise from our fights was quite loud and might attract other beasts to come over. Many of you are injured. Hurry up and go somewhere else to treat your injuries,” Anabel hurriedly said.

The others nodded and helped the people on the ground up. The group of twelve quickly left the place.

After a while, in a cave, the cave was brightly lit, and Valery was treating the injured people one by one. She did not use her attribute-related ability to conduct the treatment. Instead, she only bandaged the wounds.

Kristian stared at Gerald for a long time and said, “I knew it. You’re pretending to be weak, but you’re actually

a Flame Decayer!”

Gerald laughed and responded, “That’s not true. We just want to keep a low profile and get into the top ten.”

“I’m afraid you guys are trying to trick me into thinking you’re weak. So you took the initiative to let us win some points.” Kristian did not believe Gerald at all.

Then, Kristian thought for a while and continued, “Forget it. I don’t care what you guys think. Anyway, you

saved my

life this time. I owe you a big favor. After this, you don’t have to be Anabel’s servant anymore. I’ll tell my father to send you and your family to Azuro. You can become a branch family of the direct blood descendent!”

Gerald was shocked.

Skyler had tried his best to become a branch of the direct bloodline. Now Kristian seemed to be able to achieve that with just a word from his father. The gap between them was not even half a point!

“Huh?” At that time, Benning’s eyes lit up slightly, and he said, “These guys are just your servants? I thought they were from the Archaic Tribe! They’re Flame Decayers who are younger than 30 years old!”

Benning suddenly stared at Gerald and patted his bare chest, saying, “Brother, why do you want to be a servant in the Archaic Tribe? Besides, Anabel seems to be a collateral line. You can directly come to the

Aggro Tribe, and I'll tell my dad to take you in as his foster son directly..."

"Go away!" Kristian scolded, "Benning, do you want to fight that badly?"

When Gerald showed his top ten capability and easily defeated Wolfie King on his own, everyone suddenly

noticed him.

A Flame Decayer below 30 years old was the top genius in Havotune and would definitely become the supreme Flame Decayer in the future.

It was worthy for any forces in the Eight Forces to win Gerald over.

It was obvious that Kristian and Benning had a strange relationship, and now they turned into foes. The alliance they had formed before instantly collapsed, and they began to quarrel crazily.

Gerald felt a headache. Naturally, he would not join any of the forces.

Just then, Sylvie walked up to Gerald. She looked at him and asked, "Can we talk privately?"

Gerald glanced at Sylvie in surprise.

Gerald felt that Sylvie was a weird person. They basically had not met, but she had taken the initiative to show goodwill before. So he was also very curious about it.

Gerald nodded.

The two of them walked toward the cave entrance and proceeded further away. When they arrived at a place where no one was around, Sylvie stopped, then turned around and said, "We... are the same type of people!"

"Huh?" Gerald was stunned for a moment. He did not expect Sylvie to say such a thing for no reason.

Gerald frowned. "What do you mean by the same type of people?"

"I'm saying you and I are the same kind of people, plus the girl who used the flame attribute just now." Sylvie looked at Gerald with a distant look in her eyes.

Gerald could not understand what Sylvie was uttering. He wondered if that woman was so obsessed with divination that she went crazy and became weird and incomprehensible.

"I don't understand at all," Gerald replied helplessly.

"We all have secrets we don't dare to tell others." Sylvie gazed at Gerald and continued, "For example, you own the Dragon Bone, and that girl owns the Phoenix Bone..."
