

Smash All Pots and Pans To Go to School #Chapter 14 - Read Smash All Pots and Pans To Go to School Chapter 14

Chapter 14

Im not from Star 3212. Li Pi raised his eyelids. You spent four hours in the treatment cabin, a total of 7000 stars.

Wei San: !

Li Pi was satisfied to see that his students face changed like a broken palette and spoke softly, Ive paid the money for you. If you can get ranked first on the final test, you dont have to pay it back. Otherwise interest will be calculated starting today until you pay me back.

Teacher, thats not very good. Youre so wise and powerful. You dont need that little interest money at a glance. Wei Sans heart was dripping blood. 7000 star coins plus interest for a year, she doesnt even need to pass the year.

When I think of the poor level of students, I just happen to lack that little interest money. Li Pi reached out and stabbed Wei San. Didnt I give you a choice. You dont even consider it at all? Good-For-Nothing!

Its too hard to get first. Wei San has always felt very weak. Every time she was halfway through the test, she had the problem of dizziness.

Li Pi stared at Wei San for a long time and suddenly said, This time youre lucky you didnt die under the claws of the Zerg. What will happen in the future? Only if you have strength can you ensure that you wont be hurt.

Wei San suddenly remembered that the smelly insect beast forced her into a desperate situation. She remembered that the cold silver mecha raised his hand and beheaded the insect beast. That absolute power, no one does not yearn.

I try my best.

Its you definitely will. Lippi glanced at Wei San. That building is almost finished, and is unable to house anyone. I happen to have a room available. You can live there before graduation.

Finally, Wei San packed up some clothes and took her little electric donkey to live at Li Pis house.

She didnt take back the materials in the studio. She learned everything she could learn. Especially after seeing the real mecha, she knew that there was no benefit in practicing again.

This is your teachers wife. Li Pis face was still like a tiger one second before, and he immediately exposed a silly smile when he saw the woman in the door the next second.

Hello, Shiniang. ¹**Shiniang is teachers wife*

The gentle woman quickly asked Wei San to come in: Ive cleaned up the room. If you dont sleep well, remember to tell Shiniang.

Li Pi has already ignored Wei San. Smelling the scent of the food in the house, he went straight to the table: Why is todays food so rich?

Its Xiao Weis first day here, come and have a taste of Shiniangs craft. The woman helped Wei San put down her backpack, went to Li Pi and patted his hand, Wait for Xiao Wei to eat together. ²**Xiao Wei is an endearing term for Wei San, usually close family and friends will add a (Xiao) to reflect familiarity*

Li Pi: How does he feel like he lifted a stone and hit his own foot?

After putting the things away, Wei San sat at the dinner table and subconsciously swallowed her saliva. She was really too poor. She has been frugal in buying materials before. Since she came to this world, she has been drinking the cheapest nutrient solution and hasnt eaten a grain of rice. She drank dozens of boxes of problematic nutrient solution picked up from the dump for less than half a year and didnt waste a drop.

She almost forgot what the food tasted like.

This meal costs hundreds of stars. Wei San converted it into nutrient solution, it was enough for her to drink for a month.

Li Pi raised his hand and knocked it on the head of Wei San: All you see is money? Eat quickly.

Shiniang immediately stared at Li Pi: Dont knock the childs head.

Shiniang kept putting dishes in Wei Sans bowl: Xiao Wei, you can eat openly. Your teacher cant do anything else, but he can afford three meals a day.

Wei San was not polite either. She ate it boldly. When she took the first bite of rice that had been away from her for a long time, she almost burst into tears.

Who would have thought that she would be reduced to this state as a top engineer.

Note: Sorry everyone, not sure why it didnt post properly yesterday but here it is!
