

Smash All 151

Chapter 151

I think we have some fate. Wei San sighed, so those two men were not the sons of some hermit noble families, but the 3S soldiers of Damocles Military Academy.

In this way, Wei San thought it was not that difficult to lead the school team. Although the 3S mecha soldiers could drive an A-grade mecha, it was not enough to look up to. Whats more, the school team leaders of other military schools were only the single S-grade.

Are you predestined with Liao Runing? He can piss you off to death. Jin Ke turned his head and suddenly froze, Wei San, why are you shooting up so quickly?

Just now, he turned his head and found that Wei San had reached up to his eyebrows already.

Wei San subconsciously looked down at her trouser legs, and it was really short: I said before that I was still growing.

Your sound has changed a little. Ying Chenghe spoke from the side.

Really? Wei San herself didnt notice that, and originally thought that it was because she didnt have a good rest, instead of her voice changing.

Are you a monkey? You grow so fast? Jin k`Ke shook his head while looking at her.

Ask the doctor to prescribe some nutrition. Ying Chenghe added on. Your body cant keep up with nutrition if you grow too fast.

Wei San was dragged to the infirmary by Jin Ke and Ying Chenghe.

On the way, she asked Jin Ke: Do you have the contact information for Huo Xuanshan and Liao Runing? Let me add them.

It would be perfect for her to meet them first..

Anyway, they dont have to be afraid of being exposed by anyone, as they were all in the Underground Factory competition.

I will send it to you later. Jin Ke didnt think much of it. It was normal for mecha soldiers to want to know other mecha soldiers, not to mention that they were going to fight together.

When they went to the clinic, the doctor looked at Wei San from top to bottom, then pinched her bone and said, Its a bit out of phase. Why didnt you pay attention to your body? You mecha soldiers are living a rough life.

The doctor took out seven nutrients: This is a weekly dose, the nutrient content is very high, and you should stabilize after drinking.

This was not surprising to the doctor, as he had seen this kind of thing for a long time. The training intensity of individual mecha soldiers was high. These students were only sixteen, seventeen, and eighteen years old, and it was normal to have growth.

Dont stay up late at ordinary times. Look at the dark circles on your face. The doctor shook his head and gave her another nutrient. Apply it morning and night.

Wei San had white skin and dark circles under her eyes.

Thank you, doctor.

They stayed on the starship for four days, and Wei San drank and ate well for four days. When she got off the ship, she was in high spirits.

After coming down, and seeing the backs of Huo Xuanshan and Liao Runing, Wei San remembered that she had not told them that she was Bowing to Life.

Wei San walked quickly to catch up with Jin Ke and Huo Xuanshan and them. As she was about to speak, a voice came from the side.

Damocles Military Academy is as poor as ever. Are you guys the next generation? Youre sent by this kind of starship.

A tall boy with red hair had fake sympathy on his face, and then turned to ridicule: However, you only deserve this kind of starship.

Liao Runing rushed up and kicked before the crowd responded.

Are you crazy? How dare you fight! People from Samuel Military Academy shouted in the back.

When Liao Runing approached, Shaw Eli withdrew to the left and grinned: Damoc

Seeing him withdraw, Wei San didnt want to block Shaw Elis way directly. She slapped him in the face.

Pa

A very crisp sound.

Wei San looked down at her hands and slowly drawled, Good sound is a good face.

Shaw Eli was furious and wanted to attack Wei San, but Huo Xuanshan stopped him.

How dare you people at Damocles Military Academy fight one against three?

They started first so they should be disqualified!

Jin Ke opened his light brain, found the competition rules, and spoke slowly: The Hephaestus competition stipulates that the players cannot fight in the military exercise field, otherwise the players should be disqualified from the competition. But this is a port, and it cannot be counted.

The teacher from Damocles Military Academy who just got all the students off the starship:

As soon as they turned around, they started to make trouble.

There was a starship parked in the harbor behind, which was the Pingtong Academy. These people were all silent and quiet. They came down quickly. No one looked at them. They went directly to the drill field. Instead of determining them as students coming to the competition, they were more like soldiers rushing to the battlefield.

If you want to fight, I will accompany you. When people in Pingtong Academy passed by, Shaw Elis face was gloomy, his eyes fell on the insignia of Wei Sans arm, Just a chief soldier.

Wei San doesnt put his cruel words into heart at all. Instead, she looked at the teachers of Samuel Military Academy and found a familiar teacher with glasses amongst them. She rushed forward with sincerity and enthusiasm: Teacher, long time no see.

All the students of Samuel Military Academy have got off the starship, and the leading teachers were standing in the front. Just now Shaw Eli came to challenge them. They stood not far away and looked at them without any intention of stopping them.

As a result, things happened so quickly that they only heard a clear slap, and their students covered their faces and glared back.

Then a student from the Damocles Military Academy came up and held Zhang Zhengping's hand, speaking with a very warm and sincere voice: Teacher, long time no see, you are a little more handsome again.

As soon as she said this, Zhang Zhengping had already felt that the teachers and students of the same school around him had seen it. He froze, pulled back his hand, and put aside his relationship with Wei San: You Damocles Academy are afraid of losing the ranking, so you come to please us?

As if she hadn't heard what he said, Wei San turned around and called to Nie Haoqi, Teacher Zhang is here. Come here to say hello. He said he would invite us to visit Samuel before.

Zhang Zhengping never said that. He wanted to explain it in front of his colleagues. In the next second, several S grades from Damocles Military Academy also came.

Teacher. Zhang said before that he liked our special products of Sadu star and wanted to stay at Damocles. Jin Ke spoke enthusiastically, When you came, I asked before, there is a teacher vacancy in the school. When will you come, Teacher Zhang?

So you are Teacher Zhang. I've always heard that you are a good person. Liao Runing also came over to him. He looked beautiful. If he didn't give a kick out of the blue just now, everyone else would regard him as a good talker.

Samuel and Damocles have always been enemies. If they could make the students of Damocles say they were a good person, they can only be Samuel's enemies.

Don't talk nonsense. When have I been a good man? The original elegance of the middle-aged man with glasses has disappeared, leaving only his rage.

Yes, you are not a good person. Don't be angry, teacher. Wei San deliberately lowered her voice, but it was enough for other Samuel teachers nearby to hear it clearly.

Nie Haoqi brought out a bag of things and said, Teacher Zhang, this is my small gift.

Sadu Stars specialty biscuit.

Nie Haoqi originally brought food with him, but now he has to give it to the good person teacher Zhang.

Wei San continued to shout to the team: Teacher Zhang Zhengping is here. Let's say hello!

All of them had hit the target together, and the school team shouted in unison, Hello, Teacher Zhang Zhengping!

With their loud voice and high tone, who wouldn't think Zhang Zhengping was respected by the students of Damocles Military Academy?

At the beginning, the teachers and students of Samuel Military Academy did not believe what Wei San and the S-grade students said. Zhang Zhengping was the leader of the competition. How could he be related to Damocles Military Academy.

Just one or two speaking was casual bs, but the whole Damocles Military Academy was polite to Zhang Zhengping? What does this count as?

At this moment, all Samuel's students and teachers looked at Zhang Zhengping with strange eyes.

Reason told them that it was most likely a trick of Damocles Military Academy, but under this circumstance, everyone would inevitably doubt Zhang Zhengping's position.

Zhang Zhengping's face was dark and ugly. The investigator who went with him did not come this time. No one else in the team knew about his trip to Damocles Military Academy, but there was the deputy leader who failed to compete with him.

Enough, Wei San, come back quickly. Xiang Minghua was afraid that she would cause another accident and called the person back.

They had just left the star boat, yet she already started causing trouble. He could not imagine what would happen in the next part of the year.

Chapter 153

Xiang Minghua looked at Wei San and then at the several S-grade main members. He originally thought that there was only one hot tempered Liao Runing, but now, how could he feel that besides Shen Tukun, they were all bombs?

Then he looked at Major Li Ze next to him. He did not seem surprised at all.

What happened in Starship Harbor soon spread to several other military academies.

Pingtong Academy was hit head on today, but they were only interested in the competition and were not interested in this.

South Percy Military Academy was the last one to arrive at the port. Some people did not understand when the teacher explained about this.

So Shaw Eli was hit just like this? Samuels cadets did not seem like broad-minded people.

This is the port of the Imperial Capital star. It is strictly forbidden to create trouble. If he starts to fight again, people from the Imperial Capital star will deal with it, ranging from five days to fifteen days of confinement.

But the people of Damocles Military Academy moved their hands, and the Capital star did not care?

It is said that the Imperial Capital Star Patrol Guard did not respond to it because it stopped too quickly. And later on... the teachers of South Percy looked strange. The students of Damocles greeted Samuels teacher warmly.

After a moment, the guard of the Capital star didnt know whether the slap was an illusion.

At the same time, the Imperial Military Academy received not only news, but also surveillance cameras of the port at that time.

The surveillance only recorded that Shaw Eli ran into the school team chief, and the other side tried to avoid the camera. Ji Chuyu leaned back on the black leather chair and fiddled with the ring in his hand. Shaw Eli was actually unable to avoid the attacks of A-grade soldiers, trash.

Ying Xingjue did not speak. He stood at the long table, forwarded and reverted the video with his fingertips, and his eyes fell on the five main members of Damocles Military Academy.

He was observing the reaction of the five people during the incident.

In just a few minutes, except for Shen Tukun who was still in a state, the other four people obviously started to cooperate, and there was an invisible tacit understanding.

Shen Tukun. Ying Xingjue resolutely pointed to another person on the light projection, and the school team chief, they are the breakthrough of Damocles Military Academy.

Damocles Military Academy has always been dragged by Samuel. This year, once entering the port, this kind of thing happened, Samuel will not let them go. Situ Jia, a 3S light mecha soldier, said, Pingtong Academy is the biggest trouble, and they want to pull us down every year.

Just based on them? Ji Chuyu carelessly turned his ring, The competition is just the Imperial Military Academy defending the championship.

Ying Xingjue looked down at the leaders and teachers of Damocles Military Academy on the light brain. Their eyes were different from those in previous years.

Because there were 3S main members this year, or...what cards do they hide?

Is this where we eat and train?

Its really the Capital star, too rich.

Their exercise ground is brand new and spacious.

Chapter 154

Students from Damocles Military Academy who came here for the first time lamented that the environment and equipment of the Capital Star were too luxurious.

Country hillbillies.

The drill field gathered students from the five major military schools, and naturally they would inevitably meet other military students. Samuels student could not help laughing when he heard Damocles student talking.

The student who was scolded was angry at first, and then it was unknown what devious thoughts he came up with. His face gradually calmed down: We have never seen the world. We really are hicks. I hope you will forgive me. I cant help it, the school is too bad, and us hicks have no knowledge.

Samuels student: ?

Next time I will go to your White Dwarf Star. I hope your school will show sincerity and treat us well, so that we can open our eyes.

Can White Dwarf Star be better than here? Next to the Damocles student, the cadets were surprised, I havent seen it before, really?

It must be true. Samuel cant even put the Capital Stars exercise field into their eyes.

We never said it was better than the Capital Star. Samuels students argued as there were also students from the Sapital Star nearby. What should they do when it comes time for the Imperial Military Academy to find fault with them?

Damocles cadets seemed not to hear this and fell into a state of self pity.

I also want to open my eyes to how good the White Dwarf Star is. The student said, Like this, we really seem like bumpkins.

After that, several people sighed:

Alas

There was a table of people sitting in the corner. After looking at this scene for a long time, Wei San turned to Jin Ke and asked, Why did the way they talk become so strange?

Its strange and quite familiar.

Jin Ke opened his light brain and found a post on the forum for her to see.

[Today, we also require Wei Sans sarcastic speech techniques.]

Wei San:

Lz: [friends, today, it was very refreshing at the docks. After multiple analyses into conversations, I finally understand why. Using an enigmatic tone is the worlds strongest conversational arsenal. I proclaim to be a deliberately ambiguous student speaker from now on. Below, I will highlight the main scenes.]

The few were all clips of Wei San rancoring others. The building owner even found the dictation and carefully sorted out the text version.

Lz: [The theory of sarcasm can kill people virtually. There were eight out of ten people Wei San angered to death. From today on, you can learn more about Wei Sans scripts, praise your opponents in the most sincere tone, raise them up, and anger them one by one.]

The following posts were those of people determined to become masters of sarcasm.

Im not so ambiguously strange. After reading the post, Wei San hesitated. After all, she was just an ordinary kind person.

Jin Ke closed the post: Zhang Zhengping was dismissed because you took the lead in greeting Samuels teacher, and Shaw Eli hoped to change the person leading the team.

They are too narrow-minded. Wei San shook her head. Teacher Zhang made a great contribution to our shooting, that was just a greeting.

With a glance, Wei San saw Li Ze coming this way. She picked up her plate and left: Im leaving first, or the Major will trouble me.

As soon as Li Ze came over, he saw Wei San running away: What is she doing?

Her stomach hurts. Jin Ke casually found an excuse.

Li Ze rarely had any objection to the three of them getting together, because he had realized the advantages of these people getting together to engage outsiders.

Take the port incident as an example. Besides the slap on the face of the 3S Mecha soldier being too much, Zhang Zhengpings incident was disgusting others in a proud and honorable way.

Wei San slipped out with her plate in her hand, just in time to see Shen Tukun and Liao Ruling coming in.

She hasnt told them about the Underground Factory, and Jin Ke has always forgotten to give her their contact information.

Wei San? Do you want to sit together? Shen Tukun said his greetings when he saw her.

Thank you, senior. Wei San immediately turned to sit at a table with them.

Liao Runing doesnt talk even when he eats. He looks like a member of an aristocratic family. Shen Tukun questioned Wei San and said she can come to him if she doesnt understand anything.

A very enthusiastic senior.

Shen Tu. A female student from South Percy came to greet Shen Tukun.

Ill go there first. You guys eat first. No need to wait for me later. Shen Tukun got up and spoke to Liao Runing.

Liao Runing looked up and whistled. The children of the aristocratic family lost his appearance: Senior Shen Tu, is that your friend?

Dont speak nonsense. Shen Tukun lowered his voice and walked towards the girl opposite.

Liao Runing was bored and continued to eat with his head down.

Wei San clenched her fist against her lips and spoke out loud, F*** F***.

Keke

Liao Runing choked and looked up in astonishment, What did you say?

Chapter 155

Liao Runing looked at Wei San at the opposite side in disbelief and said, What did you say just now?

F*** F***. Wei San repeats.

Liao Runing looked at her and said, Wei San, where did you hear this news from? He even suddenly had some doubts in his eyes, and felt that Wei San was investigating him.

He and Huo Xuanshan have never disclosed to anyone about the Underground competition.

me. Wei San points to herself Bowing.

She stealthily took out a mask and motioned for Liao Runing to look at it.

But Liao Runing had already decided: Do you want to pretend to be Bowing to Life? Would you like to change your voice a little? Want to hook up with me? I won't eat your tricks.

Wei San:

She opened her light brain and sent him a message with her Underground factory account.

Bowing to Life: I didnt see that you were so confident in the Underground Factory before?

Liao Runing was stunned for a long time when he saw the news from his light brain. Then he stared at Wei San as if to signal: You, are really Bowing to Life?

Huo Xuanshan has always said that he may be an S grade soldier who has been studying in a casual way. He also thought Bowing to Life seemed so. Why did she suddenly become the student chief from the same school?

Otherwise? Huo Xuanshan is West West right? Wei San questioned him, I recognized you on the starship that day and forgot to tell you about it later.

He went home and will come over this evening. Liao Runing finally believed that Wei San was bowing to life. You Dont speak like that. You pretended before?

Wei San felt her neck and said, My voice has changed recently. I thought you guys were freelance soldiers.

We actually thought you were. Liao Runing remembered what Wei San did at the port. No wonder your coquettish movements were so familiar.

Wei San: Its not good to say some things directly.

As a person, you should be direct and not hypocritical. Liao Runing knew that Wei San was a person he knew, and relaxed. I, Liao Runing, am such a real person.

Wei San: Hehe.

So you were the one who said you are awesome. Liao Runing finally placed bowing to life with the legendary Wei San and said, Its really you, Bowing.

What are you talking about? When Shen Tukun finished talking with the girl from South Percy, he came back to see Liao Runing and Wei San talking happily, and asked subconsciously.

Liao Runing was grumpy and speaks poison. When training together, he often quarrels with Jin Ke and others. Even the training teacher can occasionally get angry with him. Unexpectedly, he can talk so well with Wei San.

As soon as he came over, Wei San and Liao Runing stopped talking together. They had a unified idea, no one else could know about the Underground factory match.

Did I say something wrong? Shen Tukun looked at the two people and was surprised. They suddenly fell silent.

We were discussing what you and the South Percy girl were talking about just now. Liao Runing opened the topic and said, Come on, senior, speak for us to hear.

Shen Tukun was a little embarrassed: Nothing. I helped her in the competition before, so she came to thank me.

Senior, do you help your opponent in the competition? Wei San raised her eyebrows and asked.

When the teacher couldnt catch up, I was right beside her. Shen Tukun said mildly, In the future, everyone will guard the Federation together, and the loss of an single S-grade mecha will be a huge loss for the Federation.

Liao Runing looked up and said, Senior, when our school had an accident, South Percy did not help, but took the opportunity to get the third place.

Shen Tukuns smile fell from his lips: I know, its just it couldnt pass in his heart.

It is not impossible to save them. Wei San took a look at South Percy, But you have to take back a reward. A thank you is not enough.

Why dont we get the reward back in this competition? Liao Runing followed closely, A person must have some reciprocity with others.

Is that how we define reciprocity now?

Chapter 156

That was a student of the South Percy school team just now? Wei San, Ill leave it to you to handle. Liao Runing demanded to Wei San besides him, Get the compensation back.

She was the main player for South Percy last round. Shen Tukun explained, This new generation has changed, and the S grade has declined in turn. She is now the chief soldier, and her strength is stronger than the A grade.

No matter how strong she is, isnt she still playing with an A grade mecha? Wei San didnt care. The compensation must be gained.

Damocles cant suffer! Liao Runing followed closely.

Shen Tukun looked around between Wei San and Liao Runing. These two were obviously strangers before. Why did he leave for a while, and suddenly

He thought for a long time in his mind, and only came up with a word to describe this: smelly things have similarity.

After lunch, the members of the five military academies can move about freely, go to their rooms to rest, or go to training. Wei San and Liao Runing chose to snuck into the corner and dialed Huo Xuanshans communication.

Put on your mask. Liao Runing turned over his mask and placed it on, then commanded Wei San.

As soon as Wei San put on her mask, Huo Xuanshan's communication started.

You guys Huo Xuanshan was stunned when he saw the two familiar masks, then remembered that he did not wear his own, and subconsciously turned off the communication.

After a while, Huo Xuanshan realized that Liao Runing was the only one who could know that he was playing in the Underground Factory competition. Maybe he was joking, so he dialed back.

What are you doing? Huo Xuanshan frowned at the person wearing the same mask as bowing head beside him, I warned you not to tell others about the Underground Factory.

Liao Runing said proudly, I didn't say, she is Bowing to Life. We met on the exercise ground. Who do you think she is?

The two squatted in the corner. Liao Runing's camera only focused on their faces. Huo Xuanshan could not see their uniforms.

Exercise field?

Huo Xuanshan immediately flashed between several candidates in his mind. There were not many female single mecha soldiers in the five major military academies, only three were in the fifteen seats, and only one female single soldier with a medium mecha.

Quinley Eli? Huo Xuanshan frowned. Why did she come to Sadu star every week when she attends South Percy Military Academy?

Liao Runing took off his mask and said, Wrong, hahahaha! Bowing, hurry and let him see who you are.

Seeing Huo Xuanshan's expression, Liao Runing finally calmed down his imbalance of being stripped of his vest just now.

Wei San took off her mask and said, It's me.

Huo Xuanshan looked at the familiar school team chief and said, You Wei San?

After his surprise, he thought it would be strange if it were not her.

She consistently stayed on Sadu star, went out to play every weekend and was not weak. However, Huo Xuanshan always thought that Bowing to Life was an S grade, and he knew all the S grades in Damocles Army School, so he reasoned that Bowing to Life was a mercenary soldier.

He never thought that she would be a super A-grade fighter.

Operating the same grade A mecha, it was really not easy to distinguish between Super A and ordinary grade S.

Why dont we go out to see the Underground Factory of the Capital Star in the evening? Liao Runing raised interest.

Wei San refused: I want to go out shopping in the evening.

What are you shopping for? Liao Runing asked.

I want to first see what the Capital Star has to eat and play with. Wei San still has money. She could buy things.

Then Ill go too. Liao Runing has just recognized his relative Bowing to Life, no matter what, he has to keep in touch with the others, West West is a person from the Capital of the Empire. Let him show us around.

Ill be at the drill ground at seven. Huo Xuanshan did not refuse.

After the communication was cut off, Wei San called out to Jin Ke and Ying Chenghe in the group and said to go shopping together.

Master Cheng He: [Im not free tonight. Well have a meeting to discuss the problem of the competition venue.]

Jins family made a fortune: [Liao Runing is going with you? Be careful. This man is vicious. Hes annoying just to see.]

When Wei San remembered the first time they exchanged messages, Liao Runing grudged his words and said that her words were also strange.

Begging secretly: [Does he often say that you speak strangely?]

Jins family made a fortune: [I learned it all from you.]

Master Chenghe: [Huo Xuanshan is very rich.]

Begging secretly: [? ? ?]

Jins family made a fortune: [Chenghe, you dont seem right.]

Master Chenghe: [Really, he is even richer than me, and he is very easy to cheat.]

Your friend Jins family made a fortune invited Huo Xuanshan to join the group

This sentence suddenly appeared at the top of the group of three people.

Master Chenghe: [@ Jins family made a fortune]

Huo Xuanshan was inexplicably pulled into a group of strangers. He flipped over the messages on the page and saw that Ying Chenghe said he was rich and was easy to cheat.

Huo Xuanshan: [? @ Master Chenghe]

Ying Chenghe escaped.

Chapter 157

Wei San to the most luxurious place in the Imperial Capital Star.

Is that an S-grade mecha? Wei San looked up at a row of mechas in a shop.

The most common S-grade mecha. Liao Runing was a little sorry that Wei San was not S-grade. Its fun for them to form a team. Wei San attacked ruthlessly, with no rules and regulations.

Senior Shen Tukun, as a double S grade, is indeed strong. Otherwise, he would not have taken Damocles Military Academy up a level with him, but he was too honest and was a typical soldier. It was not fun to fight with him.

When Wei San walked in, she was dazzled by a long string of zeros behind the price tag, and confirmed that it was a mecha she could not afford.

She walked around the mecha and even touched it with her hands. The painting technique was good, but on the whole, it was average.

Wei San thought of Yu Qingfeis jumbled mecha data that he left. Although they were incomplete data, she could still see the structural beauty. And this one looks incongruous on the whole.

She looked at all the mecha in the shop and soon lost interest, as it did not meet her expectations for any S-grade mechas.

At least in the Sadu tar Square, she was amazed to see the replacement mecha of Major Li Ze, which is what grade S mechas should look like.

Its just a finished product made by some ordinary mechanic, and military students wont use it. Huo Xuanshan spoke from the side.

There are many rich people on the Capital Star. Some people who did not attain S-grade were obsessed with this kind of mechas. Although they cannot use it, they will buy it back for collection.

The three went out of the shop and walked further in.

Bowing, I was worried beforehand that the school chief of the school team would make mistakes. Liao Runing put his hand on Wei Sans shoulder, and the two brothers spoke affectionately, Since its you, then I wont worry about it. At that time, you should come up with your shameless style and get those chiefs.

The three people stood together and talked, without any sense of strangeness.

Li Ze and his friends came out of the restaurant and saw this scene.

At the beginning, he first saw Wei San. With the two boys beside him, he subconsciously thought it was Jin Ke and Ying Chenghe. But they are going to have a meeting today to study the competition environment, and then he looked carefully at the other two main members.

Li Ze was breathless. He never felt this way when he went to the battlefield.

Why did Wei San get to know Huo Xuanshan and Liao Runing again?

Even Huo Xuanshan? This was not far away from Shen Tukun becoming corrupted.

Are those your students? The friend followed Li Ze's eyes and questioned, The three main mecha fighter members?

The one in the middle is the super A-grade school team chief, not the main team. Li Ze raised his hand and pressed his forehead. His premonition became stronger and stronger.

This competition will never be peaceful.

They are in a good mood and can still come out to play at this time.

Li Ze:

If Jin Ke and Ying Chenghe were not busy today, he was afraid he would see the main members coming out to play in a group.

Lets go first. I have reorganized your mecha data. The friend smiled. Its good for them to relax once in a while.

Wei San and her colleagues spent more than two hours wandering around. Huo Xuanshan explained and took them to see some famous places in the Imperial Capital Star before returning.

The Capital Star is still conducting the competition on a hill this time, but this year's turn is the most difficult. Jin Ke raised his hand to open the topographic map. At present, we don't have an exact map in our hands. These are the maps of their competitions in the past.

Although it is the same hilly area, the capital star is vast, and the playing field is not the same place.

The dust shield of the mechanical armor joint can be canceled to reduce the weight. In addition, the firepower of the heavy mechanical armor needs to be added. Ying Chenghe put forward suggestions on the transformation of the mecha.

In addition to maintenance, the mechanic should adjust the overall structure of the mechanic according to the competition environment.

In the hill field, the shooter plays a big role, so let other soldiers of the school team pay attention to this point. Xiang Minghua reminded, For other deployment, Jin Ke, you should determine it yourself during the competition. After you get the map, you should carefully consider everything.

Yes.

Chapter 158

The four major military academies arrived in advance to become more familiar with the surrounding environment of the drill field. After that, they had 10 days of closed training, and the next five days were still training, but they were free to enter and exit. The media also came to interview them.

On the first day of closed training, all the five major military schools gathered together for the first time, because there was an opening meeting today, and it was said that this session was presided over by a heavyweight.

South Percy Military Academy was the first to arrive at the drill ground, and then Samuel Military Academy and Damocles Military Academy came around about the same time. The two military academies met.

The road was not narrow, and even the students coming to a military academy can pass side by side. However, the tradition of Samuel Military Academy was to create difficulties for Damocles Military Academy and have them give in.

Shaw Eli, the leader, seemed unable to see the students of Damocles Military Academy, and led people to squeeze towards them.

Seeing that he was about to collide with them, Wei San suddenly turned around and said, Samuels students are coming. Get out of the way quickly. Dont get in their way.

The students of Damocles moved to the side, and the main members were no exception, except Shen Tukun, who was out of state.

Senior, lets let them go, they want to pass. Wei San reached out and pulled Shen Tukun over.

Shen Tukuns eyes were filled with confusion. At this time, according to the truth, they would always have a standoff with the other military academy, as had been the case in previous years. Now, they took the initiative to back down. Wouldnt they become a joke?

Not only he but also Samuels students suddenly felt strange.

Samuel students crowded along the road of Damocles Military Academy. Damocles people stood beside them and looked at them warmly.

Chilly and disgusting.

Somehow, this word suddenly appeared in Samuels students minds.

The schools that are at the bottom of the list for ten thousand years, it is better to go there early. Shaw Eli laughed, satisfied with their concession, and despised their cowardice.

Samuel Military Academy is the best. They can stand shoulder to shoulder with the sun. What is the Imperial Military Academy? Who can win if you dont win? To show our sincere heart, Im going to send you on a flowery journey today.

Wei San finished talking in succession and turned to look at Jin Ke.

Jin Ke immediately took out the trumpet he had with him, repeated it, and raised his hand to signal the school team behind him to follow.

Hence, the voice of the students of Damocles Military Academy cheering for Samuel Military Academy was heard all over the drill field.

Samuel students: Shit!

When they shouted slogans, the people of Pingtong Academy and the Imperial Academy students arrived, and were immediately suppressed by this large confusing scene.

Are the people at Damocles crazy? Situ Jia looked at the two teams in front of him and could only think of this explanation.

Ying Xingjue's eyes fell on Jin Ke, who had taken out the trumpet and led the school team to shout slogans, and spoke lightly: The command from an unknown star is different from the orthodox command.

The people from Samuel Military Academy over there walked quickly to their own open space, and many people blushed. Who has seen such shameless operations?

Chapter 159

The Damocles cadets who took the initiative to retreat and shouted slogans for Samuel with enthusiasm were all fresh and energetic.

Wei San, I appreciate your kind of weird people. Liao Runing fell behind and walked side by side with her, giving her a thumbs up.

To deal with shameless people, we need to be even more shameless. Wei San spoke carelessly, Samuels rank is too low.

Shen Tukun, who followed him, has been taught. He has been bullied by Samuels people in recent years. There were 12 battles in a competition, and each time there was friction between the two schools.

The original best solution is to follow others path and let others have no way to go.

At the opening meeting, the positions of the five military academies were arranged in front of and behind the time of establishment. Pingtong Academy ranked first, followed by Damocles Military Academy, Imperial Military Academy ranked third, South Percy ranked fourth, and Samuel Military Academy ranked last.

Five principal members stood at the front, the school team commander stood at the end of the team, and Wei San fell behind, looking at the military school teams on both sides in boredom.

The students of Pingtong Academy were obviously different from other students. They are well organized. After everyone stood up, they never moved, and their bodies were rock hard.

Wei San didnt know much about Pingtong Academy. Then she turned to gaze at the Imperial Military Academy. The leader of the opposing school team also stood in the last row.

But the chief of the school team

Wei San took out a piece of sugar from her pants, which should be given to her by Chenghe.

She pinched it at her fingertips, then bent her fingers and flicked it at the Imperial chief.

At the moment when Wei San flicked the sugar, the chief of the imperial school team noticed that and swept over with a fierce look. After seeing the person clearly, he stammered: Wei, Wei San?!

Wei San raised her brows at him: Im inviting you to have sugar.

Tai Wude smiled and was about to say something. He suddenly remembered his identity and suppressed the smile: Dont mess during the opening meeting. We are rivals.

Wei San just happened to be bored. She doesnt care what his opponent is. She nattered on relaxedly with Tai Wude: Arent you a grade A soldier? The Imperial Academy should have grade S soldiers. Why are you a schoo chief?

I am now a super A soldier. Tai Wude proudly announced, There are S-grade soldiers in the school, but I won as we were using A-level mechas.

Just in time, Im also a super A-level soldier. Wei San patted the badge on her arm. I am also the chief of the school team. See you at the competition.

The nightmares of when he had been beaten under pressure suddenly came to Tai Wude's mind.

Damn it, will he still lose?

No, he is now a dark horse that can defeat grade S, and Wei San will definitely be beaten by him.

The students of the five military academies stood in the drill field for two hours. Finally, someone came out of the drill field. At the same time, the leaders of the military academies also came out from other places and stood at the front of the team.

Xiang Minghua looked at the students as soon as he came here. Before the opening meeting of previous years, there was always friction. This year, however, it seems that they haven't suffered any losses, and everyone was very calm.

Chapter 160

Dear cadets, I am Yu Tianhe. Standing on the stage was a tall woman with long, curly hair, wearing a bright red dress. She smiled, One of the commentators of this Hephaestus Competition, on my left hand is the commander Ying Yuerong, and on my right hand is the mecha soldier Xi Haotian.

Ying Yuerong, who wore a blue Tang suit, accepted the microphone: There are 12 battles in this competition, which are set up on 12 stars. In this competition, no matter what means, as long as you reach the destination, you can get points by pulling the corresponding flag. There is a champion in each game. After 12 games, the person with the most points will win the championship. In addition, remember the following matters: the mecha ran out of energy and is exhausted, out. The mecha chief used an S-grade mecha, out. Trigger the return button, out.

Fifteen days before each game will be training, and one game lasts fifteen days. Xi Haotian continued to answer questions, The whole course of the competition will be videotaped, and lifesaving teachers will be on standby everywhere. This year, Majors will be added, and they will do their best to save your lives.

Yu Tianhe: The Hephaestus Competition does not advocate friction between military academies, nor does it prohibit military academies from arguing. I hope you will respect each other.

The three men came up to explain the rules of the game, then Yu Tianhe looked to the rear and said, Next, lets welcome Marshal Ji to speak.

The following five military academies immediately broke into extremely warm applause.

Wei San clapped her hands and looked up at the man coming out.

The other person was about 50 years old, with a cold face, a straight back, and a tall stature. Once he came out, he was wearing a military uniform with a row of badges.

I also came from you in those years. I wanted to do something for the Union with my blood full of enthusiasm. Now, if you ask me again, I will say I did it. Ji Yuande looked at the students of the five major military schools below with a stern voice and gentle eyes. As the best players in the military schools, I hope you can go further and fight with us in the future.

Can you guys promise this? At last, Ji Yuande ended with a question.

The students of the five military academies shouted in unison: Can!

Wuwuwu, my god. Ding Hemei covered her chest and said.

Yu Tianhe is really strong. It is said that she has designed the mecha used by the two main members of South Percy up to now. Every session, the mecha master only needs to provide a little adjustment. Nie Haoqi sighed.

Wei San did not know them and was indifferent to the four people who appeared on the stage. Her only sigh was that Ji Yuande had too many bars and badges on his shoulders.

After the closing speech on the stage, fireworks started to rise near the drill ground, to show that the Hephaestus Competition has officially entered its process.

There were also micro flight video recorders in midair, which were media machines that cut off the performance of each military academy at the opening meeting and then put them on the star network for promotion.

As soon as the opening meeting was over, all the media rushed to interview the principal members of the five military academies.

Some small media could not squeeze in, so they had to retreat and seek the second place and find the school team leaders of the five major military schools.

Seeing that the momentum was not good, Wei San immediately took down the chiefs badge on her arm and pretended to be a member of the ordinary school team, trying to disperse with the crowd.

However, even in this way, they could not escape the small media.

Hello, we are reporters of Lanfa Media. Can we ask you some questions?

Wei San was called to stop, but the name of this media was good, better than Sequoia Media. She nodded: You may.

Who do you think will win the championship in this competition?

Its needless to say? Wei San spoke as is, Damocles Military Academy.

The reporter smiled and did not care. He continued to ask, Do you have anything to say to other military students?

Wei San thought for a while and then said, You guys are finished.

Reporter: This cadet was too arrogant.

So, as a member of the Damocles school team, what do you think of the strength of your schools chief?

For this problem, Wei San seriously thought about it for a long time: Strong, she is a awesome person.

Reporter: did he meet a member of the school team who is brainlessly blowing?

At the other end, the Imperial Military Academy, surrounded by big media, was also being interviewed.

I heard that Ying Xingjue is probably the most perceptive and controllable commander in history, so what do you want to say about this competition?

Ying Xingjue decided to wear a black military uniform. He was tall, with buttons to the top and gold thread embroidered on the edge. Only his slender white neck was exposed. He looked down at the microphone and spoke quietly: The champion belongs to Imperial. I will remove any obstacles one by one.

The equipment of the big media is very good, and the radio and playback are very good. Wei San hears Ying Xingjues words from afar.

She tutted and shook her head: Generally speaking, those who speak full of themselves, is easiest to be face slapped.

Do you think Imperial cant win the championship? The reporter asked.

I just said it. Wei San took out the school team chief badge from her pocket again and put it on her arm. She blinked at the reporters camera and said, The championship is ours.
