

Smash All 161

Chapter 161

The drill ground had a training hall and a simulation cabin, which are generally used to train individual physical strength and responsiveness.

At this time, the main members will train together. The commander and the engineer will analyze their data and make training adjustments.

In the morning, the main members of the five military academies all went to the simulation cabin. They arrived at different times, staggered and did not meet. However, the simulation module will go offline at 12:00. At this time, the main members of the five military academies were bound to collide.

At 11:30 a.m., in the large monitoring room, except for Ji Yuande, all the teachers and Majors were present at the opening meeting.

In order to see them in conflict, it was customary in previous years. It was really a terrible scene, and the teachers had to come forward.

Theres going to be some friction this year. Yu Tianhe laughed, There are so many powerful freshmen.

It will not be easy to relax in the next few years. A major replied.

However, there are not many girls among the freshmen. Yu Tianhe mourned regretfully, In our session, girls accounted for half.

They happen to have a large number of boys from aristocratic families. After several sessions, there should be more girls.

The capital star is indeed the capital. The five member team lives in a suite, each in a single room. Wei San slept until eight oclock, and Ding Hemei knocked at the door to ask her to train together.

When Wei San stood up, her nose began to bleed. She covered her nose and opened the door:

Sister, you go first, and I will go there later.

You Ding Hemei looked at her hands full of blood and hurriedly pulled out tissues and stuffed them into Wei San. Arent you taking nutrients?

Probably too full of life. Wei San wiped her hands and said.

Take a break for now, lets go there first.

Alright.

The four went out. Wei San went back to her room and laid down again. She fell asleep.

When it was half past ten, she got up and walked towards the simulation building.

During the training, each military academy had its own training clothes. For example, the Imperial Academy wore white, and Damocles was black.

Wei San walked into the building and lowered her head to adjust the badge on her arm. If Teacher Xiang saw her, he would say something about her again.

In the monitoring room, before the students came out, a student in a black training suit appeared in the empty hall on the first floor, with one hand in her pocket. Her hair, which was not long or short, was loose and tied into a ponytail. He walked in carelessly from the outside, lowered his head and slowly adjusted his badge.

Finally, she stuck out a slender finger and flipped the badge.

The monitor has the function of automatically capturing the face and actions. At this time, there is no one on the first floor. The camera automatically magnified her action so that all teachers could see it clearly.

Xiang Minghua in the monitoring room:

Wei San did not know that her every move was seen by the teachers. She turned to the second floor to find Sister Ding and them, and happened to meet Jin Ke who came out of the simulation cabin.

Chapter 162

You just came here? Jin Ke asked, looking at the direction she was coming.

I got up late. Wei San was too lazy to explain her nosebleed.

It's almost time to leave now. It's no use coming here. Liao Runing shook his head.

I've come to have dinner with my senior sisters. Wei San was aboveboard and spoke without shame.

In the monitoring room, Samuel's leading teacher turned to look at Xiang Minghua: The students in your school are becoming more and more lax. Is this giving up? In the future, these students will be the elites on the battlefield, so they should be eliminated as soon as possible.

Xiang Minghua remembered the news that Wei San had provoked Ding Hemei, and said, Are you teaching me how to do things? Take care of yourself.

Others: ? ?

Looking at their bewildered and speechless faces, Xiang Minghua suddenly felt the happiness of Wei San and became happy.

No wonder Wei San is heartless and unrestrained every day. She lives a natural life. A person should be honest and speak sarcastically. Xiang Minghua looked at Wei San in the surveillance room again and found that this porcupine was a lot more welcoming to the eyes.

Lets go to dinner together. Jin Ke took Wei San and walked out. Say hello to Sister Ding later, and go to the canteen to grab a good seat.

A group of six people walked to the first floor, and the five main members of the Imperial Academy came out from another corridor.

At a glance, Wei San saw Ying Xingjue, the last one, in uniform white training clothes. However, he looked very good, with black slightly curly hair spread over his shoulders and his slightly pale and delicate face. She could not help but exclaim with Ying Chenghe beside her.

The fire of the empire is lit in the Hephaestus Competition, which must be a beautiful landscape.

This good hair, it would be too bad not to burn it.

Jin Ke and Ying Chenghe gave a thumbs up to Wei San. As Liao Runing saw this from the side, he also joined in, giving a thumbs up.

The Imperial Military Academy and Damocles Military Academy are no longer at the same level. In the past, the Imperial never paid attention to Damocles. This session has Ying Xingjue and Ji Chuyu, they will not even lower their identity. They have friction with Damocles Military Academy and went straight out.

Jin Ke did not feel the frustration of being ignored at all. A few people followed behind, talking about things, happily.

It is totally different from the heavy atmosphere in the past.

The freshmen of Damocles Military Academy are in good condition this year. Yu Tianhe smiled, I hope we can see their demeanour on the court.

Seldom did the teachers of Samuel Military Academy interrupt again. This year, Damocles Military Academy behaved strangely from top to bottom.

I hope so, too. Xiang Minghua replied.

After a distance, Ying Xingjue opened his light brain and sent out several messages.

Whats the matter? Ji Chuyu asked.

They are walking too close to the school team chief. Ying Xingjues eyes moved slightly, and he spoke quietly.

In the final analysis, the chief soldier of the school team is just a soldier who controlled the A-grade mecha. In the eyes of the commander, he is just a chess piece with a slightly greater role. There is a natural and insurmountable gap between the S-grade and the A-grade.

Mecha engineer Gongyi felt unconcerned and said, wasn't Damocles Military Academy always like this. There is chaos among ranks. In those years, Li Ze was also close to the school team chief.

Ying Xingjue didn't speak. He remembered all the competition materials in the past and knew that the main members of Damocles Military Academy and the school team chief had a better relationship than other military academies.

Just that, that guy he always felt something was off.

Chapter 163

As a 3S grade commander, sometimes the unspeakable concern is the details he neglects.

Wait until they investigate and we'll understand all Ji Chuyu turned his ring, the medium-sized mecha soldiers in Pingtong Academy this time are from Zong Zhengyue.

I can't wait to see those people from Pingtong Academy. Situ Jia sneered, The former seniors and sisters were so stupid that they always gave Pingtong Academy some hope that they could win. This time, we will make them completely unable to get up.

Ying Xingzhi sent someone to investigate the team commander of Damocles Military Academy, and received the news that night.

[Name: Wei San, Gender: female, Age: 17, Birth: nameless star]

Another nameless star.

Ying Xingjue's eyes stayed on the words nameless star for a few seconds.

Every year, Damocles Military Academy has a group of students from nameless stars, far more than other military academies, and they were also derided by the media as a garbage recycling military academy.

The students from nameless stars have no power behind them. It's good to be able to pay for their own mecha, and quite a few of them needed the mechas to be paid by the school. One more such student, one less aristocratic student. Without more family donations from students, the school's economic situation will begin to decline in the long run.

The Imperial Military Academy always has a strict screening mechanism for students from nameless stars. Unless they have high abilities, it is difficult to stay in the academy until graduation, so as to ensure a good circulation of resources in the whole school.

Ying Xingjue decided to swipe down further. He didn't see anything outstanding about this mecha soldier named Wei San. A super A soldier was able to perform at Damocles Military Academy, but they were only so.

Climbing over the wall and being caught by Major Li Ze?

However, the students of Damocles Military Academy did not abide by the rules as usual, and Ying Xingjue continued to swipe down.

[It is said that this person has a romantic relationship with Jin Ke, a 3S commander, and Ying Chenghe, a 3S mechanic. There is news that the students of this school have bumped into the three people arranging a date. Link # % @]

The person investigating the news also attached a photo from Jin Kes social network. The three people often get together, especially a photo that has been circled.

The three people crowded together, and Wei San in the middle looked pale. It was easy to connect this image with the words in that post.

[According to the time when the student ran into them, this picture came out the next day. The rumor is 80% credible.]

Ying Xingjue never clicked into the link again. He recalled that several times he met, Jin Ke and Ying Chenghe were really close to this person, and Jin Ke always had his arms around her.

He took off his light brain, stretched out his fingertips and gently pressed his temples on his side forehead, covering the fatigue in his eyes.

He believed the investigation results by five points.

The students in the major military schools were under great pressure. Sometimes they do a lot of things out of line. The Imperial Military Academy has all kinds of absurd things happening.

Wei San didn't know that she was involved in a romantic affair. She was knocking at Liao Runing's window at night.

Liao Runing, looking alert, approached the window and saw Wei San clinging outside the window on the 16th floor like a gecko.

Wei San? What are you doing? He opened the window and pulled her in.

After flipping in, Wei San reached out, hooked his chair and sat down: I thought for a while, but I still felt that I couldn't let Samuel Academy go free like this.

What do you say? As soon as Liao Runing heard Wei San's tone, he knew she had done something wrong.

I'm going to mess with the chief soldier of their school team. I observed in the afternoon that ordinary S-grade soldiers can be beaten with their heads covered.

The most important thing is that this S grade is the main member of Samuel Military Academys last session. Beating them, will let their feelings reach the sky.

Arent you not allowed to fight on the drill ground?

Wei San smiled and said, The scope of fighting refers to fighting with mecha or two people. How can we call it a fight if we hit the other person unilaterally?

Liao Runing didnt expect such a coquettish explanation.

I want to ask if you want to participate. That Shaw Eli is next door. You and Xuanshan will deal with him together.

Liao Runing agreed on the spot and led Wei San out of the room quietly to knock at Huo Xuanshans door.

Wei Huo Xuanshan was surprised to see Wei San.

Shh Liao Runing immediately covered his mouth and let him in.

Wei San went in behind and closed the door.

After hearing what they said, Huo Xuanshan was silent for a long time: ok.

In order to avoid being met by others in the dormitory, the three people flipped down from the 16th floor window.

There are many cameras here, and I remember them all. Wei San squatted on the grass road downstairs and pulled out three headgears from her pocket. Just in case, wear this.

Liao Runing tutted, You used to flip over the wall like this?

Come on, keep up. Wei san put on her headgear and crept into the night quietly.

Liao Runing and Huo Xuanshan followed closely. Although they're doing this for the first time, they were surprisingly skilled.

Chapter 164

Each of the five military academies had a dorm building. Samuel Military Academy and Damocles Military Academy were separated by a flat courtyard. Although the surrounding monitoring was strict, there were not many guards inside except for the patrol team outside the drill field.

Ever since the big competition started, perhaps the organizers have never thought that there would be someone causing havoc in the middle of the night.

Wei San led Huo Xuanshan and Liao Runing to the dorm building of Samuel Military Academy. She was under the shadows of the building: You two go to Shaw Elis room, and Ill go to the chief soldiers room.

In fact, the chief of the school team was the target of Wei San, but there was a 3S Shaw Eli living next door. If the other side was disturbed, something may happen, so she has to invite Liao Runing to help.

This was also thanks to the students of Samuel Military Academy who do not cooperate. Not all military academies were like Damocles, willing to live together in the form of a suite of five people.

Samuel Military Academy, especially the main members, lived in separate apartments.

As for why Wei San wanted to target the school team chief, we should start from the first day.

Wei San was the chief of Damocles Military Academy. Other chief soldiers will naturally pay attention to her and her team. This person repeatedly made dirty remarks to Sister Ding. She didnt know anything about it at the start. Later on, she bumped into such an occasion occurring, which she naturally kept in mind. There was still some time for training, and Wei San could not let him succeed every day.

You be careful. Before Huo Xuanshan went up, he warned Wei San.

I know.

The three acted separately, and Wei San entered Samuels chiefs room. She stood in front of his bed quietly while he was asleep.

You The other party woke up suddenly and raised his hand to pull out his mecha necklace.

Wei San pinched his hand and folded it outward, while breaking his other hand. When the chief soldier tried to shout, she put her knee on his abdomen, pulled out a mass of things and put it into his mouth.

Wei San discovered that it was his socks after she stuffed them into his mouth.

What a garbage man, putting smelly socks on the bedside?

Wei San disliked putting the feeling of touching the socks and wiped her hand on his clothes, then raised her hand to shake him several times, then kicked him in the lower part.

The other party immediately curled up and sweated.

After Wei San taught him a lesson, she formed her palm into a knife and struck him on the neck. After she was sure that he had fainted, she left.

After she landed, she looked up. Huo Xuanshan and Liao Runing also came out.

Finished smacking?

Liao Luning turned his wrist and said, We finished, Shaw Eli, that grandson is still alert, but we dealt with him instantly.

To put it mildly, they almost missed just now. Fortunately, Huo Xuanshans attack was blackhearted.

The three of them returned to the dormitory building, separated and had a good sleep.

What happened? Ying Chenghe looked at the people around him and suddenly doubled his defense.

Jin Ke looked down at his lightbrain: Last night someone attacked the students of Samuel Military Academy, one of whom was Shaw Eli.

Huo Xuanshan and Liao Runing stood beside them without changing their faces. They only heard this for the first time.

Chapter 165

The main members, will they doubt us? Shen Tukun frowned.

Jin Ke glanced at Liao Runing, who was very quiet, and then slowly said: Not necessarily, there was also a school team chief who was attacked, and the injury was more serious. Maybe Shaw Eli was an affected pond fish.

During the normal training of others, the teachers began to investigate the whole matter. As Jin Ke expected, the teacher did not put the suspicion on the students of Damocles Military Academy.

The chief of the school team was half swollen and his hands were broken. According to the doctors test report, there were signs of being attacked in the lower part of his body. On the contrary, Shaw Eli had no other injuries besides finding two people sneaking in to being knocked unconscious.

All kinds of traces show that the attacker came to attack the chief and Shaw Eli was solved only because he happened to be in the room next to him.

Of the three people, Shaw Eli saw only one person, who was a male. He was knocked unconscious behind his back. It was not known whether they were male or female. The one who sneaked into the school team chiefs room was a female. It was unclear what level they were, but it obviously seemed that it was revenge on the school team chief.

Those in Damocles Military Academy have no contact with the chief of this school, and according to the investigation, this student has offended a group of girls. Except Imperial Military Academy, he has offended all the other military schools.

Could they be students from South Percy? Some teachers doubted this.

There were many girls in South Percy, and the main members were just one 3S and two double S. If it was a girl who stunned Shaw Eli, the gender could also match South Percy, one male and two female.

The teachers did not check the matter again after investigating it. Instead, Samuel Military Academy teachers got other peoples strange glances. Unexpectedly, one of their students bullied the girls in the military schools by virtue of their identity.

In the afternoon, all the Samuel cadets were criticized in a circle, and a ten minute penalty was given at the beginning of the first competition. As for the chief of the school team, he not only had to withdraw from the competition, but also was expelled from the military academy.

For a while, other military academies were discussing this topic.

Hahaha, why are the two students who were beaten, punished instead?

It is said that the chief of the school team bullied the girls of other military schools. Because everyone did not want to have disputes before the game, he often succeeded. They were beaten overnight and this also dragged down the main members.

Have the main members been beaten?

Whats so strange about this? Now all of them at Samuel are punished.

Isn't this punishment too much? It's none of the others' business.

What he did as a chief of the school team is a mistake that the students at the same school never knew. Also, have you forgotten what's the origin of the main commentator, Yu Tianhe?

South Percy.

Yes, she graduated from South Percy Military Academy. Those who bullied her school sisters, as a powerful commentator, what's wrong with this punishment?

I heard that it was the three mecha soldiers in South Percy who did it. How tough!

The three main mecha soldiers in South Percy who were suddenly being talked about:

As for the real killer, they were still at large and at ease.

South Percy Military Academy has become more courageous because the main commentator this year is Yu Tianhe? Gong Yijue said that and lowered his head to record the data of the three mecha soldiers in the simulation cabin.

Not them. Ying Xingjue, with his eyelashes drooping, closed his eyes and said, The news that the commander from Samuel harassed girls was released by Jin Ke.

Chapter 166

Jin Ke? What does this have to do with him?

Ying Xingjue lifted his eyes lightly, and his pupils were dark: This is the hand of Damocles.

You mean Gong Yijue responded with a meaningless smile. He is a 3S commander who wastes time on such things.

Why does it count as waste? Ying Xingjue said lightly, Samuel was given a ten minute penalty.

Gong Yijue was stunned: Thats right. You commanders are really Terrible.

As soon as Samuel was punished, the friction among all military academies suddenly stopped, and all parties began to immerse themselves in training for fear that they would be punished if they failed.

The discipline was surprisingly good at one time.

The only person who was unhappy was Shaw Eli, who was slapped since he entered the harbor. Now, he has been implicated and stunned in his room.

Everywhere he went, he felt pointed out.

A 3S grade mecha soldier, knocked unconscious by someone, spoken about, he was doomed to be go down in history.

Good afternoon, Brother Shaw. Liao Runing came out of the simulation cabin and greeted him warmly.

Good afternoon, Brother Shaw. Jin Ke also smiled.

Then Ying Chenghe and Huo Xuanshan greeted him.

Shen Tukun froze, looked at his teammates, and finally said seriously, Good afternoon, Brother Shaw.

Samuels main commander:

Shaw Elis face twisted. Although the other side was polite and warm, he clearly felt a strong taunt.

Finally, he said with a dark face, I hope you can be so happy tomorrow.

They are of poor character. Liao Runing shook his head and sighed.

Five people went to the canteen, and Jin Ke suddenly said that he would go to have dinner with Wei San.

He usually got close to Wei San, and Shen Tukun didn't have any doubts, just reminded Jin Ke to go to the simulation cabin at one o'clock in the afternoon.

Ying Chenghe watched Jin Ke walk away, looked at Liao Runing who looked flighty, and bowed his head to eat quietly.

Commander. Ding Hemei rose to greet Jin Ke.

I have something to say to Wei San. Jin Ke smiled at them, looking like a totally calm and intelligent 3S conductor.

Let's go and sit over there. Nie Haoqi held up the plate to greet the rest of the team.

Seeing Jin Ke sitting down, Wei San raised his eyes and said, What's the matter?

I have something. Jin Ke said earnestly, I know what you and they have done.

Wei San was puzzled: What is it? Who are the two?

Continue to fake it. Jin Ke kicked her. The main soldiers of South Percy Military Academy don't have any dealings with grade A, and Shaw Eli is still a branch of Elis family.

Wei San raised his eyebrows: So?

So bring me next time. Jin Ke smiled and pointed at himself, The 3S commander can't be wasted.

Jin Ke released all kinds of news, but the suspicion of Damocles Military Academy was not mixed in, and even the teacher began to suspect that there were external forces deliberately taking the opportunity to challenge.

What you said is reasonable. Wei San thought for a moment, We need a person to wipe our buttocks.

When did you three get so close? Jin Ke gathered around and asked Liao Runing, who was so bad tempered, that it was inevitable to get close to Wei San, but why did Huo Xuanshan do such things with Wei San.

If it was not for the news that Samuel were beaten, Liao Runing would not be surprised at all. Jin Ke could not imagine that the three of them committed crimes in groups. Huo Xuanshan was so serious that he hid deeply.

You don't have to deal with the matters of mecha soldiers. Wei San said perfunctorily.

Its shameless to say such things as playing underground games.

After the meeting, Jin Ke smiled: The competition will officially start tomorrow. The competition is like a battlefield. Dont be lenient, or you will die.

Wei San paused with her chopsticks, alright.

I will inform the school team commander of other matters, but be careful when you meet Pingtong Academy and Imperial Military Academy. Jin Ke said earnestly.

Usually, they joke about the Fire of Empire. Its not easy to compete in the competition, especially the first fight, which is full of temptation. The five military academies have their own considerations.

Wei San simply took the egg from Jin Kes plate and said, The Imperial Military Academys team is just like that. Their chief cant beat me.

Not only in the past, but even now, Wei San subconsciously tells herself that Tai Wude has no chance of winning against her.

To be exact, she has never been afraid of anyone.

You knew it before the fight started? Jin Ke could not help shaking his head. The super A-grade chief soldier can stand out in the Imperial Military Academy and get the position of chief soldier, so he should not be underestimated.

Thats all. Tai Wude has a bad habit of fighting.

Jin Ke frowned: Do you know him?

You dont know him? Wei San looked at him strangely. We are people from 3212 Star, and his family lived next door to yours.

Jin Ke: I havent communicated with him.

At that time, he was busy expanding his garbage map to the Federation, he did not notice his ordinary peers, and there was only an unknown star on the data, without specifying the name of the unknown star.

Chapter 167

The first venue of the Hephaestus Competition, the Capital Star, was officially opened.

All the five military academies have arrived at the entrance, and the teachers were waiting inside in advance, surrounded by dozens of media drones.

The main members stood at the front. Before entering the arena, the top three of the previous session should first get their own prizes, followed by the materials randomly assigned by the five major military schools.

Sequoia, the largest media in the Federation, was now broadcasting live with explanations, with 400 million people online.

At present, we can see that the people standing on both sides are rescuers, including ten of them up to the rank of Major. The main members of the five major military academies in this competition have basically changed their blood. Besides Damocles, there is a fourth rank academy. The commentator smiled, Its also normal. Damocles Military Academy has always been short of S-grade students. But after the graduation of this double S, Im afraid they can only let the S-grade fighters take the lead.

3212 star, Li Pi and his wife Jiang Wenying are sitting at home watching the live broadcast of the largest media of StarNet. Hearing this reporters talk, Shiniang is not very happy.

Why does this reporter talk like this? Jiang Wenying wrung her eyebrows and looked at the light projection.

When Li Pi transferred to another media, Jiang Wenying was not satisfied: Theres no media channel regarding Xiao Weis school?

Li Pi asked his wife not to worry. He adjusted through several channels, and finally found a small media channel with less than five million online users.

These five are the main members of Damocles Military Academy. It is said that Jin Ke, a 3S commander, was born in an unknown star family, and Ying Chenghe, a mechanic, was also a 3S commander, who was born in the Ying family of the Imperial Capital. Yes, audience, you are not mistaken. Ying Chenghe and Ying Xingjue, the commander of the Imperial Military Academy, are cousins. As we all know, the Ying family is the only family in the Federation that has both a commander and a mechanic, and usually, they only enroll in the Imperial Military Academy. Ying Chenghe is the first to enter Damocles Military Academy,

Xiao Yings family background is so strong. Jiang Wenying sighed with emotion that the Ying Chenghe who accompanied them to visit Sadu star was from such a strong background, but she didnt see it at all.

Lanfa media reporters still focused on Damocles Military Academy.

Huo Xuanshan was born in the Huo family in the Imperial Capital. The Huo family only has mecha soldiers. They enter different military schools every year. This time, three of the main soldiers in the five military schools are Huo family members. It is also seven years later that the Huo family members entered Damocles Military Academy again. The reporter moved his hand. Next to him is Liao Runing, who is also 3S. He comes from a local family from Sadu star. As for Shen Tukun, I believe the audience are familiar with him. This is his fourth time participating in the competition, and he is a civilian, but his eldest brother, Shen Tuli, is the same as Major Li Ze. He was also a main member at that time. Now he is working in the Thirteenth Military Region.

The championship bet. Li Pi looked down at the link sent by his colleague.

It is said that two graduates of 3212 College have entered the Hephaestus Competition. This year, 3212 star have a tendency to watch the live broadcast and bet.

Lets bet on Xiao Weis school. Jiang Wenying turned around and commanded.

Were definitely betting on Xiao Wei. Li Pi opened the link and directly invested all the available funds of his family.

After casting his bet, Li Pi found that there was still a pool for 12 games, each with a championship option. However, since all the money had been put into the championship, he no longer paid attention and focused on the live broadcast.

Xiao Wei is entering! Jiang Wenying grabs Li Pi's hand excitedly.

Chapter 168

The live drone was facing Wei San, who was behind the main members. She raised her hand and made a finger heart when she saw that a drone was aimed at her.

This is the chief of the school team of Damocles Military Academy, Wei San, who is also from an unknown star. It is said that she is a super A-grade individual. The mecha in her hand is Blood Drop. It used to be the mecha of the S-grade soldier Xiang Minghua. When the reporter mentioned Blood Drop, a pile of detailed information regarding the mecha Blood Drop was displayed on the left side of the live light projection.

Xiao Wei is giving us finger hearts. Jiang Wenying looked carefully. She seems taller than when we went to visit her.

The reporter also said: We have interviewed the other before. She seems confident of her military academy and says that Damocles will be the champion. So let's wait and see who will win the championship after 12 games.

The top three winners of the last session have already started to win prizes. The Imperial has received gray energy crystal blocks, which is enough to support a 3S mecha for one more day. Pingtong Academy has selected advanced mecha materials for the mecha engineering division to use in the competition. The third place was Samuel Military Academy, and when it was their turn, only the dust cover was left.

Isn't the dust cover only used for the mecha in the desert? Wei San silently moved a step and asked Jin Ke in front of herself.

The prizes can be used in any of the twelve competition venues. Our Sadu and Hadi star, both have such an environment. Ying Chenghe explained, The mecha materials may not be enough during the competition, and they can take advantage when they get them.

If you have good character, you can also get good things. Jin Ke added.

After the first three ranked from the last session received their rewards, they directly drew for the combat readiness package there, only then will South Percy and Damocles select theirs.

Jin Ke finished the drawing and showed the list to others: The energy is barely ten days, the food can support two days. Chenghe, take a look at the mecha materials

Grade A is enough, we may need to pay attention.

This combat readiness package is average.

Why is South Percy always so lucky? Liao Runing was envious and jealous of the list displayed by the light projection. South Percy didn't get a reward, and the combat readiness package was full of energy and mecha materials.

The fat sheep feed for other military academies. Jin Ke quickly remembered the contents of the combat readiness kits of other military schools on the light projection, I hope they can last longer this year.

Once the materials were distributed by other military academies and Damocles Military Academy has no distribution, they will be dealt with.

After the distribution of materials, the five military academies entered the hill arena in order. Samuel fell behind South Percy as they were punished, and Damocles was the last to enter.

Yu Tianhe and two other commentators sat on the platform watching the live broadcast, surrounded by spectators who bought tickets. They could see the live broadcast of the five military academies. The cameras were all provided by the government, as well as senior interpreters of the military region.

The federal media was on the live broadcast. According to the regulations, they can only watch one live broadcast from a single military academy. Of course, rich people can subscribe to different channels and watch them together.

After half a month, the hill arena has been recleaned by the military region. There are only a limited number of high-level star beasts in it. As long as the main members are there, there will be no large casualties. Yu Tianhe introduced to the audience the rescuers set up a spot to hide in the arena. Once students press the Exit button, the rescuers will take them away from the arena.

The Imperial Military Academy has entered the hill arena. Yu Tianhe turned his face and asked Ying Yuerong, a member of the Imperial Military Academy, This year, Pingtong Academy is also full of 3S grade soldiers. Do you think the Imperial Military Academy can still win the championship this time?

If they cant obtain first place, then they will be switched out. Ying Yuerong smiled quietly, as if he were just saying a very common saying, There are no useless people in the capital.

The reason why Imperial Military Academy has become stronger and stronger over the years has a lot to do with their strict elimination mechanism. Needless to say, the Imperial Military Academy is full of competition from top to bottom, and everyone who can rise above, steps on countless others.

Every major member has their own proud capital as they killed all the way out.

An hour later, Damocles Military Academy, the last one to enter, also stepped into the hill arena.

Chapter 169

Wei San looked around. The mountains were continuous, but apart from the mountains, there was no other shelter.

As soon as Jin Ke came in, he closed his eyes and let out his perception. Two hundred commanders of the school team immediately connected with him.

Whats wrong with you? Ding Hemei stood by and asked Wei San.

Nothing. Wei San raised her hand and pressed on her neck. She had a feeling just now, with Jin Ke as the center who scattered to all parts of the school team to form a net.

Jin Ke had done the same in school training before, but it was not as obvious as this time.

When Wei San saw that other people didn't respond, and subconsciously thought she, herself, hadn't noticed it before.

After the command link was completed, the five main members took the first step to clean up the possibly present high-level beasts.

There were many undulating hills, and Damocles Military Academy did not have enough energy, so not all five people of the group turned on their mecha.

Huo Xuanshan in the front to investigate, and senior Shen Tu in the middle. Jin Ke didn't ask Liao Runing to release his mecha.

Liao Runing uses a heavy mecha, with large attack power, but his mecha consumes energy faster than other mecha.

Light mechas can be used in energy-saving mode, and senior Shen Tu is on full alert. Jin Ke then took out the map from the war readiness bag.

He looked down and said,

The map is too simple to speak of. One entrance and the end point are marked in red, and the rest were blank.

The others: ...

Who was the one who picked this time? Dont pick in the next round. Jin Ke put the map back into his bag.

Huo Xuanshan, who drew the combat kit before entering the stadium, carefully explored the surrounding environment, pretending not to hear, and was very calm.

South Percy is very lucky. We should be able to get a map by robbing them and replenish energy by the way. Ying Chenghe seemed to have thoughts.

Shen Tukun, who just entered his mecha, This robbery was so straightforward. It was the first time he heard of it after many sessions and it was still his teammate.

Outside.

It seems that this is the first time that Damocles cadets have shown the intention of taking the initiative to attack. Yu Tianhe laughed, Good morale.

Look at their school team. Xi Haotian, sitting on the left, reminded.

Six kilometers away from the entrance of the hill field, Wei San led the school team to move forward slowly. It was strangely calm, like the calm before a storm.

When Wei San was halfway there, she suddenly raised her hand to signal the team to stop.

The team commander was surprised: The main commander showed that everything was normal, and there were no high-level beasts here.

There are no foreign beasts, but there are people. Wei San released her mecha and immediately entered the combat state, with the rifle pointing at the other side of the hill.

The people over there were forced out. It was Samuels school team. They did not go forward, but ambushed here, waiting for them.

The school team immediately entered a state of martial law.

Good eyesight, but Samuels new chief was from Shaw Elis side. He had been ordered to deal with the chief of the Damocles school team. You guys will stop here!

Your father didn't teach you. Wei San rushed over with a kick, Don't talk nonsense before fighting.

This year, people from the two military academies met a little early. Yu Tianhe grasped her long hair and said, I don't know who can win, one S-grade and one A-grade.

In the live broadcast, Samuel's chief dodged, followed by the straight bullet of Wei San. After aiming at the target, unless it is destroyed, it will lock on to the target.

Samuel's chief spread his wings and went up, ready to shoot and destroy the bullets.

As a result, the bullets did not catch up with him at all, but went straight towards the opposite Samuel school team.

Ha. Xiang Minghua looked at Wei San's series of actions, but could not help laughing. A string of 25 bullets hit Samuel's school team command key parts one by one.

[Twenty five team commanders from Samuel Military Academy are out. Repeat]

The first hint of the competition resounded throughout the hill field.

Chapter 170

The first prompt sound appeared without warning.

The main teams of the five major military academies who were moving forward stopped one after another and all looked up at the twenty-five light beams that suddenly rose in a row in the sky.

Less than an hour after entering the stadium, a school team lost 25 commanders precisely, which was unexpected.

25 school team commanders? As he was walking, Lu Shi Bao was deep in thought, Is it Damocles or South Percy who started moving so early?

The other soldiers from Pingtong Academy looked at the man standing in the front with a long tassel gun and said, Sir, do you want someone to inquire?

Zongzheng Yue people held their guns and kept silent for a moment: Shi Bai is the commander, and everyone should listen to him.

There is no need to waste time on them now. There is a river forty kilometers ahead, and we should arrive there before dark. On the way, Shi Bai looked down at the map.

It was not important that the school team commanders were out of the game. Only when the main commander leaves can the strength of the military school be seriously damaged.

Imperial Military Academy.

School team commander? Situ Jia curled his lips and sneered, These people are really chickens pecking at each other.

Its enough to make such a big noise at the start and increase the hatred value. There are still more than ten days to go.

There is a double S high star beast in the southeast. Ying Xingjue opened his eyes and said, Todays mission.

Ji Chuyu held the sword and said, Full speed ahead?

You and Situ are in full combat condition. Gong Yijue carry Huo Jian. Ying Xingjue quickly commanded the way, and at the same time, he gave the command to the successful school team commanders to head southeast at full speed. If they meet other school teams, kill.

I didnt expect that this years Imperial Military Academys protective mecha would be transformed into a double seat. Theyre sure brave enough. Yu Tianhe herself was a mechanic. He knew more about the cost of a double seat than others.

While the other military schools are still considering how to conserve energy, the Imperial Military Academy is ready to take the initiative, which is totally incomparable to other military schools. Xi Haotian said, If this continues, their advantages will only accumulate more and more.

The resources of other military academies could be grabbed in the competition, but the resources can only be used in the same competition as when the grabbing occurred, while killing the star beasts is different. The higher the star beasts are, the more the competition rewards will be obtained. Energy, materials.. These can not only be used in the competition, but also be saved in the next competition.

The main team of Damocles seems to be unresponsive. Yu Tianhe looked at the live video of Jin Ke in surprise.

The main commander and the school team commanders are connected in perception. It is a little like these two hundred commanders are his part, but this part can have its own thoughts after separation. As soon as the other military academy appeared, Jin Ke knew it at first glance.

However, Jin Ke still kept moving at a high speed and did not stop at all, nor did he command the school team.

This made the commentator uncertain whether the students of Damocles Military Academy had planned this for a long time.

In the live broadcast, the members of the school team of Damocles Military Academy stood there to guard and looked at Wei San dryly.

As soon as Samuels chief flew up, he saw that 25 commanders in his team were out of the game. When he heard the announcement again, his eyes suddenly darkened.

He was furious and dived down directly, clenched the particle sword in his hand, and was about to split Wei Sans mecha.

Wei San didnt dodge. She drew her his light knife with her left arm and confronted him. The two were one high and one low, with confronting knives and blades.
