

Smash All 171

Chapter 171

At the same time, Samuels school team entered a fighting state, but did not start to attack Damocles.

In less than two hours, no military school was willing to have their school teams fight.

Samuels chief uses a light mecha, which is a little less powerful than Blood Drop. Xi Haotian voiced.

Yu Tianhe disagreed: Samuel is in the middle of the sky and has a gravity bonus. Who can win is uncertain.

Xi Haotian smiled: Look at that Wei Sans foot, there is obviously still room for her. If she shoots so accurately, she most likely may be one of the ten shooters. She sure has enough strength. No wonder Blood Drop is in her hand.

No matter who decides the top A grade mecha list, Blood Drop will always be on the list, with superior performance and strong balance in all aspects, which makes it difficult for people to control Blood Drop.

This chief seems to have good strength. She also has the bonus of Blood Drop, which is enough to resist the ordinary S level.

Haotian, what do you think Wei San will do next?

There are two possibilities: one is to press hard, the other is to loosen her footplate, and use the light knife to turn the wrist and pull horizontally. If it is fast, it can cut his abdomen.

Just as Xi Haotians voice fell, Wei San moved. Her legs retreated slightly, and the strength of her lightsaber was slightly loose. It seemed that she was using the second way.

Samuels chief also expected this move, and his sword momentum had begun to move down.

As a result, Wei Sans putting away the light knife is really putting away the light knife.

She put it away solidly and truly.

Not only the people before the live broadcast were stunned, but also the chief of the battle for a moment.

I think a gun is enough to solve you. Wei San stepped back and shot at him.

Samuels chief didnt dodge. He thought it was possible to dodge in his brain, then he could concentrate on shooting and fighting and tried to destroy Wei Sans bullets. However, his marksmanship was not as accurate and dense as hers, and he had to hide from some.

The bullets he dodged were not aimed at him, but shot at other people behind Samuel.

Samuels chief was a little nervous, and he dodged. His teammates were out of the game. If he didnt dodge, it would shoot at him.

The distance between them is getting closer again. Yu Tianhe carefully observed.

Her marksmanship was taught by teacher Chen Ci, right? Xi Haotian guessed.

Chen Ci, what a pity. Yutianhe sighed, Obviously, her talent in shooting is even more than level S, but her perception is too low.

In the camera, Samuels chief was driven to the edge by her bullet, half of his wings were used as a shield, and the other hand shoots and rushes directly.

Wei San quickly drew out her lightsaber, blocked the bullet, and cut it. Half of the other sides wings were cut off. She took the opportunity to kick him in the abdomen. When he was about to change his particle sword, she changed her left hand knife to her right hand, and directly cut off the hand of Samuels chief.

When his weapon was unloaded, Samuels chief immediately panicked and turned to escape.

His other wing was grabbed by Wei San, she swung it to the ground without any extra thoughts, and finally inserted the saber into the engine of the mecha.

The set of movements were smooth and flowing, which are all rough when taken apart.

[Samuels chief is out]

The rescuers in the dark have rushed here to take him and the mecha out of the arena.

Wei San immediately gathered the parts that had been cut and torn off on the ground, and stepped on them for her own.

The rescuer was forbidden to talk to the students on the court. He just glanced at her and left with Samuels chief and mecha.

Seeing that the rescuers ignored such a thing, Wei San got excited, turned around and rushed to Samuels school team to catch a piece of mecha and dig a piece of energy.

Like a wolf among sheep.

Chapter 172

Samuels school team received the command from the main commander two minutes ago to evacuate, and did not continue to entangle with Damocles school team.

They never expected that the other party's chief would be so shameless and keep chasing.

Damn it, isn't everyone's goal going to the final point to pull up the flag?

Samuel's school team members ran away with grief and indignation. They did not expect that they would experience the feeling of being chased and bullied one day.

But in the past, they had never committed such a crazy thing. Who was like this, one hand shooting out one, every shot was accurate?

External staff responsible for counting the number of exits:

It is customary to report people who were eliminated out of the team one by one. Generally, only when major casualties or the main members killed the members of the school team, they will wait for all the statistics to be reported.

The staff looked at the chief of Damocles school team who was still taking out hearts like a black tiger, adding to his workload, and deeply remembered her name.

[One Samuel school team member out, two Samuel school team members out, one Samuel school team member out]

The ceaseless broadcast of the voice once again successfully attracted the attention of key members of other military academies.

Whats going on with Samuels team? Quinley Eli looked up and saw beams of light rising from the entrance. Did they meet the main members of Damocles?

Impossible. South Percys commander Gao Tangyin shook his head, They came in last, with the least energy and no time to delay at the entrance.

South Percy has the most energy in their hands. Now they had all the fighting strength. They went forward and wanted to distance themselves from other military academies.

Wei San has been solving the problem of a team of 20 or so people scattered around before turning back with a pile of energy.

Students of Damocles School Team: They know that Wei San has always been coquettish, but they didnt expect her to coquettish to this point.

In the past years, everyone grabbed other peoples energy or materials by grabbing the combat readiness kit or killing the high-level star beasts, and nobody aimed at the mecha itself. Generally, after an exit is confirmed, rescuers will quickly appear to take the students out of the competition, with a time difference of about 30 seconds to two minutes.

In particular, the number of rescuers was very large and they came very fast.

Who would have guessed that Wei San would take advantage of this time difference to grab the resources from others mecha.

Save some money. We dont know where to find the next group of school teams. Wei San divided the energy and earnestly voiced.

Ding Hemei: Listen to this tone, she still wants to continue this career.

But why didnt they think of this operation before? They let the rescuers take it away for nothing.

In the competition, especially a few days before the first competition, the major military academies generally try to avoid conflicts, so there is not much to watch. At this time, the live broadcast of Imperial Military Academy was broadcasted the most. They always focused on high-level star killing, and the audience could see it with enthusiasm.

This year is no exception. Many people squatted in the live broadcast of Imperials main team in the early morning.

In a small number of battles, it was reported that Samuel Military Academy and Damocles Military Academy fought just a few kilometers from the entrance, and a large number of school team members were eliminated.

Immediately attracting peoples attention, they went to find the playback videos from the perspective of the two military academies. In order to see this, many people recharged their money to watch it.

Among them, Lanfa Media, which specially recorded and broadcast the live broadcast of Damocles Military Academy, has seen its broadcast volume soar in just one day, with a rising trend.

[This is the chief of Damocles school team? Love, love it.]

[Damn it, Ive just seen it from Samuels perspective. Its so satisfying to watch it here, and Im really upset to see it there.]

[Is the chief soldier called Wei San? Arent her moves too coquettish?]

[Damocles Military Academy looks like its going to turn around. The school team has good strength. The main members are at least as good as other military schools. As long as they defeat Samuel, they should be able to get points.]

[South Percy cannot be underestimated this year, and who can get it is still unknown.]

Due to the amazing work of Wei Sans taking out mecha energy on the spot, the audience came to see what the chief of the current most coquettish school team had done. As a result, the number of Lanfa media onlines members kept increasing.

Chapter 173

[The Imperial Academy killed one double S star beast and four S-grade star beasts.]

[Pingtong Academy killed one double S star beast and two S-grade star beasts]

[Samuel Academy killed a double S star beast.]

[South Percy Academy killed a double S star beast.]

[Damocles Military Academy killed an S-grade star beast.]

Late on the night of the first day, the broadcast of the contest continued at the same time.

The school team of Damocles has been stationed to rest and guard. Wei San leaned on the hillside, looking up at five beams of light that rose on the flat ground and disappeared suddenly: Why do we have only one S-grade star beast, Jin Ke and them are sleeping?

The first two military academies should control the school teams to act together. We have less energy, so we should save some. Otherwise, we will face the star beasts with insufficient energy. Meeting other military academies is tantamount to making wedding clothes for others. The team leader explained.

Wei San bit a thin wooden stick that she unknowingly found, and thought: So South Percys school team and the main team are separated?

The commander turned to look at her. He did not understand why she had thought of it, but he said: It should be separated. South Percy has so much energy. The main members may try to move forward as far as possible to avoid other military academies.

Wei San took the stick from her mouth and said, Have you guys had enough rest? Lets go and say hello to South Percys school team.

Commander: ?

Although the school team has the right to move forward according to its own ideas when the main commander does not control it, what is greeting South Percy in the middle of the night?

Wei San got up and took it for granted: Ive heard that the students of South Percy Military Academy are good hearted. Seeing that our Damocles school team is in an energy crisis, the South Percys school team will sacrifice itself and share energy with us.

Ding Hemei: She never heard of this.

But we dont have a map. Nie Haoqi said, Isnt there only a blank map on the main commanders side?

Wei San pointed to the direction of the fourth beam just now: The school team usually stays the same direction as the main team. Just now, after the main team in South Percy hunted, the beam was over there, happening to be in the same direction as us.

In this way, Damocles Military Academy went in that direction in the dark overnight to find South Percys school team who sacrificed themselves for others.

In the live broadcast, the lights were still bright, but Ying Yuerong was the main commentator, and there were also special guests from Sequoia Media.

Ying Xingjue, while cooperating with his teammates to kill the double S star beasts, linked the school team and controlled them to kill four S-grade star beasts. This kind of perception and control power Im afraid no one in the five major military schools can compete with him. Sequoia guests praised.

Ying Yuerong was not excited: its just a few star beasts.

Most of the high-level star beasts will appear alone, not in groups, and will emit a kind of spiritual power when attacking, affecting the soldiers who control the mecha. Therefore, the commander needs to build a perception barrier for the soldiers fighting nearby to prevent interference.

In addition, the star beasts below the double S grade like to appear in groups. If there are high-grade star beasts among them, the low-grade star beasts will be controlled by them. Once they form a scale, there will be a special reaction between them, which greatly increases their attack ability.

The S-grade commander, coupled with the A-grade command, is battle modeled after the star beasts. Not only can the perception barrier be expanded, but also the school team can be completely integrated to increase strength.

When high-grade star animals and star animals gather together, not a single one can be omitted between the school team and the main team.

Commander Ying, is there a 3S grade star beast in the hill field this year? Sequoias guest looked at the live broadcast of the Imperial Military Academy, We have not seen 3S star beasts for many years, and we dont know whether it is possible to see individual soldiers fighting with 3S star beasts this time.

In the competition, there are no 3S level mecha, so no 3S high-grade star beasts are allowed in each arena. Generally, military regions will clean up the track in advance.

Continue watching, well see if there is. Ying Yuerong said lightly.

Chapter 174

Hill racecourse, northwest direction.

Just now, the orientation of South Percy has been exposed, so we can calculate and head in the same direction. Jin Ke stood on the top of the mountain and looked down. It was dark.

Where do we go during the day? Liao Runing questioned him.

Im not sure for the time being. Maybe we need to find a military academy to hold a greeting first. Jin Ke sat down and said, Take a rest at night.

The Imperial Military Academy was not easy to deal with. There were only two military academies left. He should carefully consider which one to greet.

In the second half of the night, Jin Ke and his party were awakened by the light beam and the sound of the broadcast.

[23 commanders of South Percy School Team are out, 42 mecha soldiers of South Percy School Team are out, and the head commander of South Percy School Team is out. Repeat]

Samuel attacked South Percy? Shen Tukun looked up at the light beam at the right rear and murmured.

None of the opponents are eliminated. Ying Chenghe frowned. They lost so many people during the day, yet they dared to move another school team in the second half of the night, and no one was eliminated?

Jin Ke shook his head: Its not Samuel Military Academy. Gao Xuelin has no reason to let the school team take the initiative at this time. There are too many school team members out of the game, and it doesnt work at all.

The competition mimics the extreme natural conditions. Once all the mecha communications in the field are shielded, the main members and the school team can only rely on the commands perception.

If the distance is too far, or the commands ability is not enough, disruptions between the connections will occur.

Perhaps they bumped into each other? Shen Tukun speculated that the chief commander would not always pay attention to the school team.

Well its us. Jin Ke suddenly said.

Huo Xuanshan, who was just on duty with Liao Runing, looked at Jin Ke and said, Wei San did it.

He used affirmative sentences.

Jin Ke didnt speak. He took out a blank map and began to fill it.

Shen Tukun looked at the others blankly, not knowing why they all looked as usual.

The other side.

Can you contact Jin Ke? Wei San stood beside the commander with her arms folded. Reflect back carefully and show him. Dont make a mistake.

The commander closed his eyes and nodded, feeling that Jin Ke had been connected, and tried to let Jin Ke see what he saw in his head.

As for what happened, we have to go back two hours.

There is a distance between the South Percy School Team and them. After thinking about it, Wei San led several teams to move forward at full speed, and found the South Percy School Team in advance. They have already been assigned for rest.

Wei San led Ding Hemei and Nie Haoqi to attack the South Percy chief, while the four shooters behind were responsible for sneaking attacks on other commanders and distracting them.

Wei San, you handle the chief, we'll deal with the other two. Ding Hemei rose up in midair to fight against the light mecha of the chiefs team.

There are not many people coming from the Damocles school team, but their methods are very dark . They protect the mecha core from being injured. They ignore the damage caused by these people to their own mecha. They dig out the energy directly. If they are successful, they will also cut their mecha. The small team of mecha engineers followed nearby and pointed out which parts of mecha to use.

The South Percy school team was no less impacted than the Samuel school team. In recent years, South Percy and Damocles rarely played directly against each other, and sympathized with each other as they had the same misfortune.

Who could have expected that the person who came to attack in the middle of the night was Damocles, a military academy famous for its upright and clean school spirit.

Chapter 175

They panicked at that moment.

Ai, I know you. as Wei San led the other teams chief away from the South Percy school team while fighting. You are quite close to our main commander, Senior Shen Tu.

You! We are just ordinary friends. The eighteen, nineteen year old girl, apart from training, is pure minded in other aspects. How could she expect that someone would say such words.

I know you are ordinary friends. You were very polite when we met in the canteen. After Wei San said this, her shotgun aimed at her knee and fired a shot, while simultaneously avoiding her whip.

But our senior Shen Tu has a really good character and looks decent. I think you are also beautiful and have strength, senior sister. Why not Wei San drawled in a long tone.

The South Percy chief was inevitably distracted, and the strength of the whip that swung again was 10% weaker.

Wei San did not hide, but took the opportunity to hold her whip and pull it.

The other chief regained consciousness and tried to pull back her whip, but failed. She raised her hand and shot at Wei San.

Inside the cockpit, Wei Sans movement was very fast. She controlled the mecha to avoid the attacks with an extreme twisting posture and completely approached close to the opponent.

Why dont the senior sister exit the game? Wei San added to what she had just said without expression.

The chief of the South Percy school team looked down and saw only that a light knife had been inserted into her abdomen.

Wei San pulled out her light knife and fell to the ground while pressing against the opponents mecha, digging people out directly. The mecha can still be used. The rescuer cant come here before the opponents chief soldier presses the exit button.

Lets talk about a condition, senior sister. Wei San motioned to her to look at South Percys school team. Draw your map and well leave, otherwise more people will be eliminated.

Our men are here. Ding Hemei came to remind them after they finished rounding up the other soldiers.

Senior sister, you have 30 seconds to think, or I will eliminate your school team. Wei Sans tone is relaxed, and she doesnt seem to be threatening people at all.

South Percys school team was led by a S-grade chief, who cant beat Wei San with an A-grade mecha, let alone the other school team members.

Senior sister, think about your school team. Its just a map. Other military schools have it. They dont lack Damocles. Nie Haoqi also came over, greeting, Senior sister very enthusiastically.

you guys retreat now. South Percys chief gnashed her teeth.

This year is different from previous years. It is very likely that there will be 3S grade high order star beasts. If they appear together with the star beasts, then the school team is indispensable.

Alright. When Wei San carried her back, she didnt forget to take her mecha back with her.

After the other party finished drawing the map, Wei San then dug out her mecha energy. A minute later, the rescuer appeared and took South Percys school chief away.

This tells us that we should not relax our guard at night. Wei San sighs.

Unit commander:

South Percy guards were not lax. If you hadnt attacked the five shooters in the dark, things wouldnt have gone so smoothly.

It is estimated that the ten shooters of the opposing school team combined together was not worth as much compared to Wei San.

You can hook up Jin Ke and show him the map. Wei San put the map drawn by South Percys chief into the unit commanders hand and said, Hurry up and do it properly.

The live broadcast is limited in energy. Generally speaking, the commentators will take turns. Xiang Minghua went to rest after his first shot from the main team of the five military schools, thinking, as usual, nothing will happen in the middle of the night.

As a result, when he got up in the morning, he saw that the number of survivors of the competition had changed.

Why did South Percys school chief become eliminated from the game? Xiang Minghua wiped his face and felt that he was not too conscious. He subconsciously said, Did they run into Samuel Military Academy? No, their chief disappeared yesterday morning.

Other military school teachers: Pretend! Continue to pretend!

Chapter 176

How long can our energy last? Jin Ke asked Ying Chenghe who had counted the war readiness package.

One day. Ying Chenghe turned around to check on Liao Runings mecha. Today, we can kill a double S star beast and extend it for another two days.

Jin Ke grabbed a handful of hair and said, We are a bit unlucky in this game.

He was not aware of the existence of the high level star beast.

After the South Percy school team had an accident that day, their main team should have changed its direction. Samuel also kept a low profile, and did not look for them as they did in previous years.

Let the school team catch up first, and let's go this way. Jin Ke pointed to the map, The terrain is suitable for the survival of star beasts, and we should be able to meet them there.

[The Imperial Military Academy killed one 3S star beast, two double S star beasts, four S-grade star beasts, 56 A-grade star beasts, repeat]

Shit, did their Imperial stab the star beasts nest? Liao Runing was unlucky. With so many star beasts, they can fly directly to their destination after changing their energy and materials.

[Ten commanders of Imperial Military Academy are out, ten mecha divisions are out, and thirty mecha individuals are out.]

Is this ten teams out? Ying Chenghe frowned after hearing the second broadcast, The number is too coincidental.

Bait. Jin Ke looked calm. So many star beasts can't appear for no reason.

[Pingtong Academy killed one 3S star animal, one double S star animal, five S-grade stars, 57 A-grade stars, repeat]

[Twenty commanders of the Pingtong Academy team are out, and sixty-four mecha soldiers are out.]

Twenty minutes later, the same beam lights up in the other direction.

Within today, they must reach the destination. When Shen Tukun said this sentence, he could not understand his own thoughts.

These two military academies have advantages accumulated from the last session. The first game will undoubtedly create a great gap. Now it is only the fifth day of the game, and they are close to the end.

But he also wanted to witness his military academy win the championship, even if it was only once, it would be better if it was not the championship.

In this game, we are fighting for third place. Jin Ke said casually, The school team is very close to us.

A few hours later.

The school team and the main team of Damocles Military Academy officially converged.

We need to find star beasts. The school team is responsible for star beasts of S grade and below. Jin Ke looked up and down at the ruddy Wei San, You have had a good time these days.

Not bad, can you eat it? Wei San turns around and pulls out a box of canned meat from her pocket.

I also want. Liao Runing leaned over and said, Where did it come from? We have little nutrient solution and dry food in our combat readiness package.

The South Percy School Team and Samuel School Team supported us by friendship. Wei San took out another box, Especially Samuels school team. They were so enthusiastic that they insisted on giving it to us.

Shen Tukun was puzzled: When did they get so close to Samuel Military Academy?

Senior Shen Tu. Wei San saw Shen Tukun beside her and took out a box of canned fruits. This is for you.

Thank you. Senior Shen Tu was a little flattered. He opened the can and ate a big mouthful of fruit.

Chapter 177

Ying Chenghe and Huo Xuanshan looked at her silently, and finally Huo Xuanshan put out his hand first: Where is mine?

Wei San spread her arms: No more, you guys can eat it together.

Looking down at Shen Tukun who was eating canned fruit, Wei San suddenly thought of something and said, Senior, this can was taken from the combat readiness bag of South Percys chief, I left it for you specially.

Keke-

Shen Tukun choked and looked up: You, why

The competition is ruthless, and thats all I can do. Wei San patted Shen Tukun on the shoulder with great understanding and comforted him, this was something we had to do.

No, I

Senior Shen Tu, its just a can. This is really a good opportunity for them to repay. Liao Runing came over and took a look at the can in his hand. Why dont I help you solve this problem?

I have already eaten from this. Shen Tukun took the canned fruit and walked around to the other side. Only he knew how complicated his mood was.

After the meeting, they took a little rest and went on their way. Today, it is necessary to find a star beast, or they will not have enough energy.

The mountains and landforms are continuous, and star beasts often appear in valleys or caves. Jin Ke took them to the direction between today's Imperial Academy and Pingtong Academy.

Stop. Jin Ke motioned for everyone to stop, Be on guard, someone is coming.

It was the main team and school team of South Percy Military Academy.

Let's have a talk. South Percy's commander, Gao Tangyin stood out and said to Jin Ke.

What does Commander Gao want to talk about? Jin Ke also came out.

Our two military academies should join forces against Samuel.

As soon as Gao Tangyin's voice fell, a broadcast sounded:

[Congratulations to the Imperial Military Academy for successfully reaching the destination and completing the task.]

It is believed that soon we will hear the name of Pingtong Academy appear there. Gaotang Silver pointed to the sky.

If we combine hands to remove Samuel out of the game. Who will take the next third seat? Jin Ke didnt seem to understand.

The third seat is given to you. Gao Tangyin looked behind Jin Ke, But hand over your chief to me.

No way, Commander Gao, do you want to revenge for one of your soldiers in the competition? Liao Runing was the first to say, No wonder your South Percy level is getting worse.

South Percys Yamamiya Isao sneered, Damocles is at the bottom of the table. Do you even have the face to judge us?

Liao Runing also responded with a sneer: no matter how low we are, didnt we still eliminate one of your chiefs?

Yamamiya Isao: Shit!

Live broadcast.

Your Damocles Military Academy has no male demeanor at all. Samuel Military Academys teacher attacked.

After going to the battlefield, should we still have to pay attention to the demeanor of the star beasts?
Xiang Minghua sneered at such talk.

Yu Tianhe looked at the exit lens and said, Its a pity that the Imperial Military Academy and Pingtong Academy cant meet each other. This time, they are still the first two.

At this moment, all the teachers of Imperial Military Academy have been waiting at the exit, and the eyes of countless Federal media and people are focused here.

[Ah ah ah, they came out!]

[Its great to see them kill the star beast.]

[I feel that Ji Chuyu didnt do much.]

[The first game is not so difficult. Whats exciting are the following several competitions on different planets.]

The five main members walked ahead, the school team followed, and Ying Xingjue and Ji Chuyu walked out of the exit first.

There is no big difference between when the two left and when they went in. The Imperial Twin is still there.

Congratulations.

The Imperial Academy leader teacher congratulated the main members.

Chapter 178

Should we go to rest first, or watch the game here?

Ying Xingjue lifted his eyelid and lazily glanced over at the live broadcast screen: Go back.

Most Imperial Military Academy students chose to go back to rest and did not stay to watch the game. The first place has been obtained, and the other military academies will not come out until a few days later, so there is nothing interesting.

Tai Wude followed the procession, and as he walked and walked, he proceeded to slip away.

He first found a place to rest to remove all the stains on his body. His mecha was badly damaged. He took some materials to repair the mecha, but his body was not clean enough.

Fortunately, there were many things in the rest area. Tai Wude changed his clothes and ordered a meal. He sat on the live court to watch the other military academies battle.

[Congratulations to Pingtong Academy on arriving at the destination and completing the task.]

As soon as Tai Wude sat down, the second place was announced on the radio.

He knew this in advance and subconsciously went to the live broadcast of Damocles Military Academy to see how Wei San was doing now.

I just want to ask you, will you complete this transaction? Gao Tangyin asked Jin Ke.

No way. Jin Ke said without hesitation.

As for Wei San, she squatted behind while holding her face. She was a little tired from walking.

Damocles Military Academy, it has been so long, and you finally have a chance to win the ranking. Do you want to give up just like this?

Jin Ke stretched out a finger and shook it: Damocles Military Academy does not trade anyone for a place, even if it is just an ordinary member.

Gao Tangyin stared at him for a long time, and finally turned to leave.

Wait. Jin Ke shouted to her, Are you leaving just like this?

Gao Tangyin frowned back, What else do you want to say?

Not to say anything, but Jin Ke pointed to her and the members of South Percy Military Academy behind her. You all have to stay and cooperate with us.

Gao Tangyin laughed angrily: Just now you said you would not do business.

Jin Ke raised his eyebrows and said, I dont want to do business. I just want you to stay.

Jin , Ke! Gao Tangyin responded, gritting her teeth and warning, Arent you afraid that we will hurt each other mutually, and Samuel Military Academy will benefit in the end?

Not afraid. Jin Ke shrugged, Anyway, we are at the bottom all year round. It doesnt matter if we are at the bottom again.

Gao Tangyin:

By the way, we should cooperate to mess against Samuel. Third place is mine, and fourth place is yours. Jin Ke said frankly, Fourth place has the advantage of starting first in the end.

Seeing that he was so shameless, Gao Tangyins expression fell unconsciously, and all the people from South Percy Military Academy entered the fighting state.

Jin Ke raised his hand, and all the people of Damocles also entered their mechas. Wei San flew from behind towards the main members and said, You dont have any more chief soldier. With just me, you can cause much more damage, do you want to try?

The atmosphere stiffened.

This year, Damocles Military Academy and South Percy have actually met in battle.

If they fight, just fight. Damocles Military Academy is just shitting on its head.

Its still alright, its better to cooperate with Damocles than to lose both sides, and its still better than to cooperate with Samuel Military Academy.

But why do the Damocles cadets feel so shameless this year?

Tai Wude placed popcorn into his mouth and listened to the comments from the audience. He thought that Wei San was shameless from childhood to adulthood.

ok. Gao Tangyin looked at Jin Ke, calculated in her heart, and finally agreed to his cooperation.

Happy cooperation. Jin Ke retrieved his mecha, asked Damocles Military Academy to release its guard, and shook hands with Gao Tangyin.

They who deliver themselves, if they let them go, they would be a fool.

But Jin Ke looked at the three mecha soldiers in South Percy, this was just the beginning.

Tut tut, you are a disaster. Liao Runing squatted beside Wei San and roasted.

Wei San clapped Liao Runings hand on her combat readiness bag and said, you say it like youre not.

The two military academies stopped to rectify, while Jin Ke and Gao Tangyin continued to negotiate. From time to time, South Percys commander roared.

Jin Ke, dont go too far!

Calm down. Lets sit down and have a good talk. Dont be angry. Jin Ke pacified.

About an hour later, Jin Ke returned with a third of South Percys energy.

Incredible! Liao Runing looked at the gray crystal energy and said sincerely, Jin Ke, I wronged you before. You have other functions besides being sarcastic.

Take this. We are responsible for them. Jin Ke frowned, in the battle behind us.

This time started on the wrong foot. There was too little energy, and they didnt meet many star beasts that could support them to the end.

Chapter 179

After the two military academies reached cooperation, they walked towards the end point together, met the star beasts in the middle, and solved them separately.

Damocles Military Academy exchanged all the star beasts for energy.

Seventy kilometers to the end, Samuel and us are getting closer. Gao Tangyin looked at the light beam rising at the other end.

She did not hear a reply. She turned her head and found that Jin Ke, who had stood beside her, was winking at the school team chief

So, not trading the chief, it was not just a matter of integrity, but that there was a relationship between the two?

South Percys commander sneered from the bottom of her heart and waved her sleeves back at her team.

It is about to reach the end point. What if South Percy reneges and doesnt engage Samuel? Liao Runing pulled Jin Ke aside and asked in a low voice.

The students of South Percy Military Academy are not such people. They have a strong commitment. Shen Tukun tried to explain for South Percy.

Several people looked at him with complicated faces. Wei San raised her hand and patted him on the shoulder, saying nothing.

Liao Runing: Senior Shen Tu, I know you are naive, but I didnt expect you to be so pure.

Ying Chenghe looked up to the sky.

Before this year, Damocles Military Academy had always been clean and upright. Huo Xuanshan meant something in his words.

In the live broadcast room, the audience made up the words behind Huo Xuanshan.

[After this year, we will rob and attack everywhere.]

[Ha ha ha, this picture looks like a group of black wolves with a pure white sheep in the middle!]

[Isn't Shen Tukun just too honest. He has been screwed several times before.]

[Laughing to death, all the freshmen this year are shameless. I suddenly want to subscribe to the live broadcast of Damocles Military Academy.]

[Only I want to know why the chief and the main team of Damocles Military Academy are so close?]

[Me too, except for South Percy, who has it a little closer, the chiefs of other military schools are just a little better than other A-grade ordinary players for the main members.]

[It is said that she has a strong relationship with the commander.]

[Upstairs, how did I hear that she is related to the main mecha engineer?]

[But the person who is closest to the school team chief these two days seems to be Liao Runing, a heavy mecha individual.]

For a moment, netizens on the Star Network were curious about the relationship between the main members of Damocles Military Academy and the school team chief.

Chapter 180

How could the media let go of such enthusiasm? Some media with quick reactions has started to look for evidence everywhere and interviewed students of Damocles Military Academy in private.

The several people in the field had no idea about this. On the penultimate day of the game, the three military academies met near the finish line.

So your two military academies have finally formed an alliance? Gao Xuelins eyes fell on Wei San, Did you kill our chief?

Friend, dont always kill kill kill. Its unlucky. Its just that they were eliminated. Wei San was careless and emitted the air of Its me, what can you do?.

Samuels Xi Wutong suddenly burst into a violent attack. He swung his broadsword and attacked Wei San directly.

Wei San did not move. Huo Xuanshan got on the mecha immediately and lifted her to escape the attack, while Liao Runing bombarded Xi Wutong with a recoilless cannon.

Xi Wutong raised his hand and raised his shield to withstand this attack.

It happened in the blink of an eye. Both sides responded quickly to the first confrontation.

Huo Xuanshan and Liao Runing cooperated well. Yu Tianhe praised.

In the eyes of the public, Huo Xuanshan and Liao Runing cooperated well, and it seems the school chief was too afraid to move and was not able to respond.

Looking at the scene that just happened, Xiang Minghua below always felt something was wrong. After careful consideration, he still did not know what was wrong.

On the other side, Chen Ci, who watched the live match on Star Network, squinted and frowned at Wei San, who remained motionless the entire time.

As a highly gifted shooter, Chen Ci has a natural sensitivity to crisis. Chen Ci stood out from a cadre of A-grade single soldiers and can even attack ordinary S-grade soldiers.

Chen Ci taught Wei San for so long, and she was the person who knew her usual performance best. In this case, it is impossible to be completely unresponsive, and even her mecha was not taken out.

Chen Ci reaches out to cover Wei San in the camera.

If Wei San is replaced by Shen Tukun at this time this cooperation should be said to be full of tacit understanding.

However, Wei San did not meet Liao Runing and Huo Xuanshan on campus, and she did not even have the opportunity to train together. Whats with the tacit understanding?

Chen Ci took back her hand, turned around and looked at Wei San who had been placed down by Huo Xuanshan. Was she really scared?

Did you guys finish discussing who will go first? Gao Xuelin looks up at the two who are fighting.

No matter whoever goes first, Samuel will be eliminated first. After Jin Ke finished, he entered his own mecha.

Samuel Military Academy has two 3S individual soldiers, while Damocles and South Percy together have three 3S individual soldiers, and a pair of double S grade dragons and phoenixes that were comparable to 3S individual soldiers.

Xi Wutong fights with Liao Runing and Huo Xuanshan, Shaw Eli with Quinley Eli, and Jill Wood against one of the dragons and phoenixes, Yamamiya Isao.

The remaining two soldiers, Yamamiya Namiha and Shen Tukun, stood beside the commander and the mecha, secretly guarding against the others sudden attack.

Wei San looked around and finally decided that she was redundant.

[Go pull up the flag.]

A word suddenly appeared in Wei Sans mind.

She took a look at Jin Ke, and then drove the mecha to the destination given on the map, with several small groups of tails from South Percy following behind.

All the way to the end, Wei San looked around. It seems that a large-scale attack has taken place here, and even the mountain has been split.

There were five flags standing at the end, and now only three flags remained.

She glanced at it and ran towards the flag tower of Damocles Military Academy.

The first game has been ranked, and Samuel Military Academy finally realized the feeling of being besieged. Yu Tianhe said both heavily and lightly.

This time, there was a problem in the energy distribution of the hill field, and the distribution of star beasts was uneven. No one expected Samuel to suffer a loss at the beginning of the game.

I don't know what agreement the two commanders reached. Yu Tianhe looked at the South Percy school team who came to pull out the flag in the camera and said to Ying Yuerong next to him.

The chief commanders have the right to block several times, and can block the live broadcast signal when talking, in case other military schools know their plans when watching the replay after the game.

The Hephaestus Competition is a long one, and the plan of the chief commander was not to see only one win or lose.

No matter what agreement, it is only for third place. Ying Yuerong began to pack up and prepare to step down.

Yu Tianhe smiled on her face, but he was not very happy. The Imperial Military Academy won the championship every year, and the military regions behind it were overbearingly arrogant.

This year, Pingtong Academy was also 3S for all its members. She doesn't believe that Imperial Military Academy can continue to be rampant. However, with the addition of the Imperial Double Stars with practical experience, there will always be accidents in the 12 matches.

[Congratulations to Damocles Military Academy for arriving at the destination and completing the task.]

[Congratulations South Percy Military Academy for arriving at the destination and completing the task.]

Members of the military academy who have obtained the flag can take the aircraft to the exit together, leaving one school, Samuels military academy students in place.

How is it? Gao Xuelin asked the three soldiers from his military academy.

Liao Runing is difficult to deal with. Xi Wutong said in a calm voice, we cant fight him with the two of us.

Where is Huo Xuanshan?

Theyre also difficult to deal with. You can battle it one-on-one with them.

Its not easy to deal with 3S, Shaw?

I can handle Quinley. Shaw Eli looked angrily in the direction of Damocles Military Academy leaving. That chief of the school team, he had not yet finished his revenge.

Gao Xuelin nodded: I dont understand much about Gao Tangyin. She has not been in the same star with me since she was young. As long as you can handle Quinley
