

Smash All 181

Chapter 181

This year, four of the main members of South Percy and Samuel came from the same family. The Eli family and Gao family.

There were not many aristocratic families of commanders. There were only three in the Federation: the Gao Family, Lu Family and Ying Family.

The commanders from Lus family only attends Pingtong Academy, and the Ying family basically only attends the Imperial Military Academy, which was equivalent to the other military academies only able to have the Gaos.

For this reason, Gaos family has divided into several factions, mostly in South Percy and Samuel Military Academy these years.

As for Damocles Military Academy, it even had a wild commander this year, and there was no big family behind it, which is one of the reasons why its military academy was always at the bottom.

But this year, Damocles Military Academy was lucky to receive a wild 3S commander.

Why are there so many traces of fighting near the destination? After coming out, Wei San asked Jin Ke.

It's a high level star beast. Jin Ke rolled up the flag and said, The end point of the competition is usually set at the place where there are high-level star animals, and there are star animals in some venues. This year, the hill arena is relatively simple, and there is no special place.

Arriving near the destination, the star beasts killed can also exchange resources, but after going out, the number of killed animals will not be broadcast.

This gives the commanders privacy. The other military academies must guess the resources in the hands of all parties to command operations.

A group of people walked outside, and the media stood at the exit waiting.

What is your relationship with the members of the main team? I heard that you have a deep relationship with the commander, the mecha engineer and even the soldiers. A well-dressed reporter held the microphone in front of Wei San.

Wei San looked at the icon of the microphone in the opposing figure's hand, a red sequoia tree.

Are you from Sequoia Media? Wei San asked.

Yes, we are Sequoia

Wei San smiled, pushed the microphone away, and then pointed her middle finger at their lens.

Jin Ke and the others beside her raised their middle fingers at the same time. Huo Xuanshan was no exception, so that Senior Shen Tu, who was caught in the middle, looked at them several times and finally had to raise his middle finger.

Huo Xuanshan even raised his, it seemed that there was something wrong if he didn't lift his.

Sequoia's reporter:

The reporter of Lanfa? When Wei San saw a familiar icon crowded beside her, she waved to the other side, What do you want to interview?

The Lanfa reporter rushed over excitedly and steadied the squeezed eyeglasses with her hand: Damocles won the third place in the first game. How do you feel now?

Wei San: Pretty good.

Lanfa's reporter waited eagerly for what Wei San would say, and Wei San looked at her sincerely.

Finally, the Lanfa reporter responded and moved the microphone to Jin Ke: how about Commander Jin?

En Jin Ke seemed to have thoughts, For the next combat readiness bag draw, I need to change to a luckier person.

Huo Xuanshan: Our team should have no lucky hands.

Lan Fa reporter: It seems that every session of the Damocles Military Academy was very unlucky. It seems that even changing the members into the 3S class, they were still unlucky this year.

The group only accepted an interview with Lanfa media, and then went back to rest.

They came out ahead of time for the ten day competition. Now they can relax.

Chapter 182

When Damocles Military Academy exited, all the teachers were waiting outside. Some excited teachers rushed to hold Jin Ke and almost burst into tears.

Well done. Xiang Minghua stepped forward, then held and pulled away the teacher hugging Wei San, Be sober, this is only the first game.

Every victory is worth celebrating! The teacher raised his hand and wiped his reddish eyes. Although the first game of this session was simple, he did not know why, but he saw hope from these students.

Lets go back and see the live review of the Imperial Academy and Pingtong Academy. Xiang Minghua told the students, Especially the one near the endpoint.

Wei San, pay attention to the next game. Blood Drop is the mecha I used before, and all the parameters have been studied thoroughly. In the following rounds, others can completely target you. Xiang Minghua said seriously, Training cannot be relaxed.

Before the first game, everyone's attention was attracted by the many 3S grade main members. The news that Wei San had Blood Drop did not attract attention. Now Wei San has offended two chief soldiers and directly walked into the spotlight. The performance of the mecha is the most transparent.

Everyone went back to have a rest. A few hours later, Samuel Military Academy arrived at the end point. The first mountain and hills game officially ended. In this race, the five military academies did not even meet.

Tomorrow, Wei San will go on stage to receive the award. After taking a bath and sleeping for several hours, she wanted to go out for a walk and see the prosperous world again. She had just left the house, when Ying Chenghe grabbed her.

What's the matter? Wei San looked at his messy exterior, Why are you still wearing your training clothes?

I didn't have time to change from it. Ying Chenghe took her to the separate training room and swiped her card to enter, Let me see your mecha.

Wei San let it loose according to his words: Look at my mecha? Her mecha is fine.

All the parameters of Blood Drop are used to perfection by Teacher Xiang. It is very difficult for you to surpass him. Almost every move comes out. As long as other people put their mind to it, you will suffer. Ying Chenghe came out without a rest and tried to find a solution. Blood Drop is too perfect to make big changes. Ill see if I can help you change your weapon and add something.

This ah. Wei San looked up at her own mecha and jumped into the aircraft cabin. I have made a little change.

Ying Chenghe stared at her pull out the thing on the light knife. His eyes widened: You What the hell was this.

Theres also something on the knee. Sitting in the cabin of the mecha, Wei San manipulated Blood Drops knee to eject something, Im not adding anything else, it will ruin its balance.

Ying Chenghe: .you changed it?

Wei San still felt a little painful when she spoke about it: It cost a lot of money. All of them were made of the best A-grade materials.

Ying 3S grade mechanic Chenghe feels useless for the first time.

How about you check the data for me? Wei San spoke from inside.

Alright, you go to test. Ying Chenghe opened his light brain, connected to Blood Drop, and then asked Wei San to do an attack test.

After the test, Chenghe frowned at all the data on the panel:

Now, is just any self taught mechanic so powerful?

How is it? Wei San jumped down and said, I dont think there is any other way to change it. The former engineer who made Blood Drops is very powerful.

Very good. Ying Chenghe opened the animation data that was just simulated, with your moves, en without surprise, the effect will be doubled.

Being praised by the 3S grade mechanic, Wei San was still a little proud. She packed away her mecha, pulled Ying Chenghe and went out: Go to take a bath first. Lets go out to play at night, and call on Jin Ke and them.

They had just walked out of the door of the independent training room and ran into Ying Xingjue.

cousin. Ying Chenghe straightened his back consciously.

Chapter 183

Wei San slowly withdrew her hand from Ying Chenghe's shoulder and stared at Ying Xingjue opposite them.

She has to say that even if she looked at Ying Xingjue from a close distance, she could not find any shortcomings in him. He was dignified and handsome, with an unreal face, a tall body, and black and smooth hair.

Wei San can't help moving.

Ying Chenghe secretly patted her, and he winked at Wei San: Don't mess around.

It would be extremely dangerous if she really started to burn his hair and irritated his cousin. The 3S grade commander has the ability to turn an A grade soldier into a fool on the spot.

Wei San felt sorry, so she had to pull a handful of dry and rough hair that should be Ying Chenghe's.

Ying Chenghe:

Ying Xingjue saw the small movements between the two at a glance, thought of the survey data he saw, and then saw that they ran to the training room to do these things without fear.

When passing by, he left a sentence: Before doing anything, think about the Ying family first.

Wei San and Ying Chenghe brushed their heads together to see him enter another training room. After a while, Wei San turned around and said, What did he mean just now?

Ying Chenghe also didnt understand. He and his cousin didnt have much contact before. He was polite when he met the other several times before: I am also not clear.

Because you didnt go to Imperial Academy? Wei San guessed.

No. Ying Chenghe certainly shook his head, I dont affect him anywhere, and this years Imperial Academy freshmen has Gongyi.

The two men had a question mark in their hearts. Wei San went to find the others and Ying Chenghe went back to change clothes.

Senior Shen Tu will not go? Liao Runing looked at the people who all came and asked.

Senior Shen Tu went to see South Percys senior sister. Huo Xuanshan said, Maybe its to apologize.

Wei San raised her hand to block her forehead and pretended not to see the eyes of others.

Go go go. Jin Ke pushed them to the outside of the drill field, while taking five sticks out of his pocket, one for each, whoever draws the longest, is who will pay today.

Wei San refused: I will not participate. I am too poor.

How can it be? Jin Ke smiled, It is because you are poor that we will cherish food more.

Each of the five people took one and finally drew it out.

Seeing the sign in the palm of others hands, Wei San raised her eyebrows and whistled: I will treasure the food.

I will, also. Ying Chenghe stood next to Wei San, following the path.

Huo Xuanshan calmly put away his draw and said to Jin Ke, Cherishing is a virtue.

You can rest assured that I will pick the most expensive one, so as to show your sincerity. Liao Runing patted Jin Ke on the shoulder and said sincerely.

Jin Ke: ... Shit!

He drew the sticks himself, yet his hands were still so unlucky.

This time, instead of going to the mall, the five people followed Jin Kes navigation and went to the Folk Street, all for food.

I havent been here yet. Huo Xuanshan scanned the road.

I havent been here either. Ying Chenghe was from the Ying family. Even if he is from a branch, he has resources that other ordinary people cannot imagine. He had no reason to come here before.

Jin Ke went to the nearby stall and asked for five large sticks, and divided them one by one: I made a special strategy, and the Star Network said that the food here is the best.

It tastes pretty good. Ying Chenghe took a bite.

There is a light projection over there. Wei San pointed to the media light projection of the opposite tall building, which was huge and shocking at first sight.

Five people stand in two rows, Jin Ke, Wei san and Ying Chenghe stand in one row, Liao Runing and Huo Xuanshan stand in the back row, all holding a big stick in their hands, looking up at the media light projection of the advertisement playing on the opposite tall building.

After a while, Ying Chenghe suddenly said, This light projection seems to be under the banner of Sequoia Media.

The five people looked away, ready to stop looking at the light curtain.

[Although the hill field battle is over, our media found a very interesting thing.]

The light curtain suddenly switched to Sequoia Media channel, and the voice from inside attracted the five people again.

[Recently, there are many opinions about the relationship between a female soldier named Wei San and the main members of the school team of Damocles Military Academy on StarNet. Sequoia Media, based on the principle of truth seeking, sent reporters to Sha Du star to investigate on the spot, and finally sorted out the complete and true news after secretly investigating.]

What is he talking about, what shit? Liao Runing swallowed the last meatball, and had a face full of unluckiness.

Listen first. Wei San squinted at the light project.

Chapter 184

[It is reported that the female soldier tried to attract Major Li Ze who had just returned from the military area by climbing over the wall as soon as she entered the school, and then took the lead in seducing Jin Ke. They often went in and out together, regardless of the others feelings. More importantly, she went through Jin Ke and tried to seduce Ying Chenghe. Yes, Ying Chenghe from the Ying family of the imperial capital.]

[The more the three play, the bolder they become. The following is the evidence we collected from various posts on their forum. There is also a photo Jin Ke sent in the morning. Someone may want to ask what happened to such a group photo. Please look at these photos of other students. The three accidentally entered the bedroom and came out of it together the next morning. I believe you have guessed what happened

The reporter later released a series of photo posts.

After watching, I almost believed it. Liao Runing was stunned. Is the media so powerful at distorting facts?

It irritated them when we raise our middle finger during the day. Jin Ke sneered.

But what are you three doing all night? Liao Runing asked them.

50,000 a night. Huo Xuanshan read the anonymous post on his light brain, What were you talking about?

Sleep. Jin Ke and Ying Chenghe spoke at the same time.

Liao Runing: ?

One bed 50,000 one night, and there is still an upper bunk in my bedroom, which you can reserve. Wei San raised her eyebrows and promoted herself. The Feng Shui in my bedroom is strong, and everyone who has slept there has praised it.

Before Liao Runing had the chance to reflect, Huo Xuanshan drops 50,000 yuan to Wei San.

holy s***, you are shameless! Liao Runing turned around and looked at Huo Xuanshan in disbelief.

First come, first served. Huo Xuanshan said calmly, You can ask Wei San if she can get another bed.

Its easy to say everything when the money is in place. Wei San gathered her light brain in front of Liao Runing, 150,000 yuan, Ill help you obtain another bed.

Liao Runing thought for a while and brushed over 200,000 yuan: Add a single bed and make it soft.

Alright. After receiving the money, Wei San immediately agreed.

The Sequoia Media in the light screen is still talking about the love affair of Damocles Military Academy. At present, it has been developed that Wei San had, through the mecha division and command of the main team, will be available to three mecha soldiers after logging off.

The reason for the sneak attack on the chief of the South Percy school team was that he was jealous, so he started to attack other students first and mocked them in a weird way.

Wei San: ???

This development was beyond her imagination.

Find another media to reply to this matter. Ying Chenghe said, Todays Lanfa media name is quite good.

Lanfa is a small media with small scale and insufficient influence. Jin Ke stared at the light brain for a while, Just Lanfa, small scale then I will invest

Add me. Huo Xuanshan said.

Ill invest too. Liao Runing reveals his card, Master Liao has money.

Master Ying also has money.

Wei San: Ill also invest a little?

Chapter 185

Late at night, Lanfa Media Headquarters.

Invest in us? The founder of Lanfa looked at these familiar people and asked repeatedly.

Thats correct, dont you want to let Lanfa develop to the level of Sequoia Media and occupy the largest market share? Jin Ke did not believe that they did not have this idea, the name and icon were full of ambition.

Its easy to speak about investment. Sometimes we need permission to interview, especially in the capital. Can the Huo Family or the Ying Family help us occasionally?

After exchanging glances with Ying Chenghe and Huo Xuanshan, Jin Ke said: After our investment, we are also a part of Lanfa Media, so naturally we will need to contribute.

After some negotiation, several people succeeded in obtaining shares in Lanfa. Wei San thought about it and offered 100,000 star coins.

The founder of Lanfa: With just this bit of money, shes even thick faced enough to take it out for investment. I have to admire this persons cheekiness.

Bowing, you are really shameful. Liao Runing leaned against Wei Sans ear and whispered.

Wei San replied confidently, Thats all the money I have.

Liao Runing swiped his card again and said to the founder, Just kidding, this is her investment instead.

Wei San watched him, Liao Runing leaned over and said, Pay me back when you receive the dividend.

Huo Xuanshan also swiped his card again: And here.

Following behind was Jin Ke and them, they swiped the card again.

The founder of Lanfa looked at the four people who swiped the card again, Are these people playing with him? Cant they swipe it all at once?

However, they were the children of aristocratic families. Their cards had so much money. The founder of Lanfa thought that this group of people who engage in mechas and them ordinary people were from two worlds. Money was not money, but only numbers.

After re-investment, Wei San became the largest investor.

Now, the shareholders all want to send a video to all the major platforms on the StarNet. Jin Ke signed the form and instructed.

The founder of Lanfa nodded and said, Anyway, there is a powerful family behind Lanfa, this is just sending a clip.

Shall I help you find professionals?

No need, you can send it directly after we finish recording. Ying Chenghe politely asked, Can we borrow this office for a while?

Alright, you guys feel free. The founder of Lanfa turned around and properly closed the door.

The five sat in a row, opened their light brains, recorded a few words, and handed the video to Langa, asking them to send it out early tomorrow morning.

The next day, the video about the relationship between the students of Damocles Military Academy released by Sequoia Media just became popular. Before people had time to discuss gossip extensively, they saw a media station called Lanfa sending a video of the clients response.

The public guessed that it was a misunderstanding for the parties to explain things before they clicked in. They all went in with the intention of watching a good play or gossiping.

Once this kind of thing is spread, how the parties respond to it has actually planted an impression on the public. Love affairs have always been one of the most interesting gossip stories in human nature, especially those who are high above the throne.

The label given by Lanfa Media was the response of the party concerned. As soon as everyone went in, there were several protagonists of the amorous affair of Damocles Military Academy. Then the video was blacked out and a line was printed: [Notice to Sequoia Media]

The video reappeared with five people. From left to right, Jin Ke first appears in the camera.

Jin Ke: According to Article 151 of the Federal Public Law, anyone or the media who harms the physical and mental health of young people will be subject to the law. I am under the age of 18 and belong to the youth category, and my physical and mental health has been greatly damaged because of this news. I will soon apply to the Federal Public Court for a complaint.

Ying Chenghe: According to Article 76 of the Federal Military Law, all the people or forces that hinder the development of outstanding military students are federal enemies. I and my companions are all 3S military students, belonging to the most important wealth of the Federation. Sequoia Media released such news, and we have reason to suspect that they are reactionary forces, intended to hinder the development of outstanding military students, resulting in a lack of outstanding talents in the future battlefield, causing federal unrest. Next, I will apply to the Federal Military Court for sanctions.

After the two of them gave a warning, just when the crowd thought it was a righteous warning, the landscape changed.

Chapter 186

Wei San: You care so much about who I sleep with. Am I your mother?

Liao Runing: Whatever this young master wants to do, what does it have to do with you? Its none of your shitty business.

Huo Xuanshan looked at the camera, thought for a moment, and said calmly, Send this kind of news again, well flatten Sequoias Headquarters.

At the end, the five people pointed up their middle fingers to the camera again.

[Shit! How fucking crazy! I like it.]

[Sobbing, why do I suddenly feel that I can do well with these five in Damocles Military Academy? Im obviously an Imperial fan!]

[Support the students of Damocles Military Academy to tell off Sequoia Media, which often deals with people who dont agree with themselves.]

[When I was on the live broadcast, the student of Damocles Military Academy came out for an interview. The student named Wei San, when she heard that it was Sequoia Media, raised her middle finger at them, presumably offending Sequoia.]

[But their evidence is conclusive. Sequoia Media didnt tell lies, did they?]

[Did you see or hear them, or were hiding under their beds? They always like to slander people with this kind of news.]

[3S grade military cadets, which one would not be a precious talent in the past years? They are all people who will head up in the future. Sequoia Media has four offenses, and is also quite courageous.]

[There is someone behind Sequoia.]

[In the final analysis, have you ever seen such a good mix between A and S? The difference between the two is as big as that between military cadets and ordinary people.]

There were positions in the military region at the S grade. The higher the perception level is, the stronger the strength is. The 3S grade can basically compete for the management right of the military region. However, grade A is just a soldier after all, and the gap between them is too big.

However, no matter what, these people are on a par with Sequoia Media, and ordinary people like to see and hear them, and be content with the melon.

Other teachers and students of Damocles Military Academy also saw these two news headlines. After listening to the first news and the majors gossip, everyone knew that Sequoia Media was making up a story. No student at school didn't know that Wei San had flipped over the wall and lost all her school credits.

Let them be. Li Ze came back from outside and spoke to the teachers, Damocles Military Academy has been under pressure for too long. It's fine to be arrogant occasionally.

Xiang Minghua: Did you watch the live video of those two military academies?

Li Ze nodded: In the first game, not much can be seen regarding Ji Chuyu and Zongzheng Yue, but others are of the same level.

=When they were discussing several military schools, Jin Ke and the several also laid in Wei Sans to watch the replay.

Are you sick? My room is so small. Wei San was pushed into a corner by these people and sat close to the side. It was clear that their main teams single rooms were large enough to reach one of their suites, but they all came to her space.

A small room makes it warm. Jin Ke turned around with a heart finger, and then continued to watch his own stream.

The live stream showed the video of Imperial Military Academy nearing the end.

Five people stood at the front. The school team behind should have just gone through a battle. Some people were in a mess, while the main teams mecha was almost brand new.

In fact, the main team played before, but it was solved at a very fast speed.

Ho

The 3S high-grade star beast roared from the top of the mountain. With the sound wave, there was also a spiritual attack. With the mountain, it spread very fast. Some mecha soldiers A-grade perception were already in pain.

Ying Xingjue, who stood at the front, closed his eyes slightly and raised his hand. It seemed that an invisible barrier spread around him, eventually covering all the Imperial cadets on the scene, and everyone recovered.

Between you all, who is going? Ying Xingjue asked from three mecha soldiers.

This was a declaration of strength. Whoever goes there can solve this 3S high-grade star beast.

I'll go. Situ Jia smiled and said, Isn't the light mecha most suitable for this kind of environment?

After that, he entered his mecha.

The gray blue mecha had a very smooth and perfect line, and suddenly unfolded a pair of metal wings, which were also gray blue. The wings flapped, took the armor off the ground, and rushed towards the 3S high-grade star beast on the mountain top at an extremely fast speed.

In the live video, only one shadow can be seen, and ordinary people can't see it clearly. Therefore, the live media will use the best equipment to capture the action of individual mecha soldiers, and there was a slow play button in the lower right corner. Only slow play could provide clarity to the scene.

Of course, S-grade people do not need this function.

Chapter 187

The gray blue mecha rushed forward with a cold light. Situ Jia wanted to attack the neck of the star beast with his ice blade.

The 3S high grade star beasts eyes flashed with a hint of anger, obviously unable to accept the provocation of a small human being.

The star beast roared again and jumped up. Not only did its claws attack the gray blue mecha, but when it flew up, it suddenly pulled out two ugly wings from its abdomen.

Mutated star beast!

Someone in the school team exclaimed.

Mutated star beasts are the most difficult star beasts. They never know what changes have taken place in them. They suddenly change shape in battle. If soldiers are not prepared, they will often be fatally attacked.

For example, just now, the star beast suddenly morphed and flew up at the same time as the gray blue mecha, with its tail violently swinging towards the mecha behind it.

Situ Jia quickly ran away, but in the end, he was half a beat slower, and his right thigh was hit by a stinging tail, which dragged a piercing sound and started a series of sparks.

In the mecha cabin, Situ Jia clenched his teeth and stared at the strange star beast. He was a 3S grade mecha soldier and was born to be the most proud member. How could a mere mutated star beast, how could it, how could it win over him!

The hands on the control panel could no longer be seen clearly, and there were only shadows left. The wings of the gray blue mecha flapped at a certain frequency, and the shoulders of the mecha raised with two particle cannons, constantly shooting at the eyes and head of the mutated star beast.

The mutated star beast had its line of sight disrupted. It raised its head and roared, fanned its wings, quickly turned around, and tried to return to its own safety zone.

However, Situ Jia would never let it go. The particle cannon mounted on his shoulder kept strafing towards the beast. The gray blue mecha quickly approached the mutated star beast, while he held a carbon lightsaber in his hand, and directly hit the back of the beast.

The beast was struck with the sword, and pounded the chest of the gray blue mecha with a claw.

Situ Jia in the mecha cabin was so shocked as he vomited blood. He seemed to have been hit by a hammer.

[Move three meters to the left, hold the sword with the backhand, and cut off one of its wings.]

A clear voice suddenly resounded in Situ Jias mind. In a moment, those shocks became far away, and there was only one goal in his mind.

The gray blue mecha suddenly burst into the air, lifted up and took off, and directly cut off half of the wings of the mutated star beast with the sword in his backhand.

Ho

The roar of the mutated beast was full of grief. It couldnt believe that it had lost a similar wing, so it became crazy and tried to attack Situ Jia crazily.

Huo Jian. Ying Xingjue glanced at a man not far away and said faintly, Kill it, we should leave now.

Chapter 188

The attack power of the Whirlwind series mecha will increase with speed, and the damage value of Situ Jias sword just now will be at least doubled. Ying Chenghe looks at Situ Jias mecha blade wind in the live broadcast camera and explains.

If I remember correctly, Pingtong Academy also uses the whirlwind series mechas. Jin Ke turned his head to correspond to Ying Chenghe.

Ying Chenghe en, Silver face, in the hands of Takeshi Kosai, I dont know which is stronger in the same series of mecha.

One day they will definitely meet in the next game. Jin Ke looked at Huo Jian in the camera who was resolving the mutated star beast, and hope that we could get in touch with the 3S star beast in the next game.

In the first game, only the Imperial Military Academy and Pingtong Academy had contact with 3S Star Beasts. They had no experience and would suffer losses in the later games.

Lets have a look at the video of Pingtong academy killing 3S stars. Liao Runing wanted to watch the videos of other military schools.

Let me change the channel. Jin Ke lowered his head and pressed some buttons on his lightbrain.

They were watching the replay, and other military schools were also watching the replay for analysis.

Except for the school teams, the main team of Damocles Military Academy has not done anything. Gong Yijue frowned at the lightbrain, Do they want to hide their strength?

What strength can they hide? Situ Jia didnt place much importance. Damocles Military Academy always competes with Samuel for third place, which is not our concern.

Gong Yijue reminded: They have four 3S, and South Percy is not weak this year.

No matter how not weak they are, we still also solve the problem. The most important thing now is how to deal with Pingtong Academy. From the moment when the list of main players was confirmed, Situ Jia had expectations to meet with Pingtong Academy.

Ji Chuyu bowed his head and turned the ring on his index finger: All military academies will be our opponents. Its only a matter of time.

They continued to watch the live replay of the military academies. Ying Xingjue leaned against the window and looked down at the video sent by Lanfa Media on the lightbrain.

Very strange.

Ying Xingjue looked at the five people in the video. As early as before the game, he had predicted the possibility of Imperial Military Academy defending its crown, which was as high as 90 percent, and the remaining 10 percent of the accidents were basically on the side of Pingtong Academy.

Except for Jin Ke, the commander of Damocles Military Academy, who gave him a little attention divergence, no one else was worth remembering.

Ying Xingjue stared at several people in the video and finally discovered a sense of discord: they are too confident.

Damocles Military Academy students have always been calm and tolerant, rather than being outspoken. It seems that the championship must be theirs.

But.

Ying Xingjue raised his hand to cover the face of Wei San in the video. The main member was still missing one Shen Tukun, but Shen Tukun was as steady as ever, and didn't seem to match the energy of the other four.

He loosened his hand, his long eyelashes drooped slightly, and he wondered: What if he replaced the school team chief?

Xingjue, there will be a dinner party tomorrow. Remember to come. Ji Chuyu got up and reminded him.

Ying Xingjue decided to close his lightbrain: Inviting all military academies?

The dinner held by several aristocratic families in the capital for the five military academies. Ji Chuyu nodded, Everyone goes.

With so many people, the venue was also extremely large, and only the capital could provide it.

This is an invitation. Don't make trouble at the dinner party tomorrow. Xiang Minghua rebuked in earnest. This was the first time he said these words to students. They were all good students before. Now one by one they have become ghosts.

Chapter 189

They are really particular. Liao Runing accepted the invitation. Isn't it enough to send an electronic one? Even using paper.

Others have money. Xiang Minghua looked at these main members and was randomly angry. What are you playing at every day. Don't you worry about the game?

What is there to be worried about? Liao Runing was surprised. Aren't we competing for third place? Just get rid of Samuel and South Percy.

Xiang Minghua: ?

Jin Ke, do you have confidence to take us to third place overall? Liao Runing questioned Jin Ke beside the pestle.

Don't worry, Teacher Xiang, we will get third for sure. Jin Ke patted his chest, Samuel must be kicked out by us.

At this moment, the main members of Damocles, who were doubted by Ying Xingjue to want to win the championship, were all confident.

We must take third place! Ying Chenghe said earnestly, holding the invitation.

Third! Huo Xuanshan followed closely.

Shen Tukun hesitated: If we get third place, our school can temporarily stabilize a little. As long as it is not the fourth and fifth place, it is good.

Xiang Minghua: I didnt expect you all to be so ambitious.

Even for certain?

Although the school did not expect them to win the championship, but speaking so brazenly about third place. Xiang Minghua wanted to kick people back to Sadu star. Most of them were 3S grade, yet they had no ambition at all.

Dinner banquet? Wei San took the invitation in Jin Kes hand, So we should prepare a dress?

If she has to prepare, then she wont go.

Everyone wears military uniforms, who the fart is dressing up. Liao Runing squeezed in from the door.

Ying Chenghe and Huo Xuanshan followed in.

What are you all doing here? Wei San asked these people. As soon as they came in, the living room became smaller, and there were still four people from her team.

We came to send the invitation. Liao Runing righteously responded, Jin Ke is the commander, and soldiers should always be with him.

When Ying Chenghe saw Wei San looking over, he immediately said, The mecha engineer should be with the soldiers. In fact, he followed along unconsciously.

Nie Haoqi on the sofa turned his head and said, But just now I saw a commander from South Percy on the training ground alone.

You are mistaken. Jin Ke took the cake from the tea table and put it into Nie Haoqi's mouth, stopping him from speaking.

The second venue will be opened at the dinner party, and everyone must be present and not be late. Huo Xuanshan explained, After the venue is confirmed, the dinner party will start.

He was in the Imperial Capital in the past years and knew these things quite well.

Wei San leads them into her room. They probably didn't come just to talk about this.

Once in, Jin Ke said, when the dinner begins, don't randomly strut around. You'd better follow me.

Wei San did not understand: What happened?

No, just be vigilant to prevent the main commander from doing anything. Jin Ke didnt want to take any risks, and this kind of situation where the main commander dealt with chiefs occurred before.

In particular, Wei San not only beat Shaw Eli at the port before, but also let Samuels school team chief be eliminated. In view of Samuels habit of using black methods, its better to be careful.

Wei San nodded and agreed. She glanced at Liao Runing and slowly approached him.

In a few days, the competition in the Underground Factory will start. Lets go and play. Sure enough, Liao Runing whispered while Jin Ke and Ying Chenghe did not pay attention.

Huo Xuanshan was looking right here, apparently waiting for a reply just like Liao Runing.

Whats the fun of you S-grade playing with an A-grade? Wei San returned to him.

Us 3S class can not use the A-grade mecha to play out an S-grade ability, so we can feel the A-grade combat mode.

The two men had been whispering together for a long time, and Jin Ke found out: What are you two whispering about?

Nothing, Wei San and Liao Runing said together.

Dinner banquet.

It is held in a place that can accommodate tens of thousands of people. Even though the space is so large, there are all things that should be, and none of them wasnt exquisite.

Wei San looked at the food and drinks on the long table, shook her head and sighed that these aristocratic families were too extravagant.

Welcome to the first competition in the Imperial Capital. A 40 year old man in a Tang outfit stood on the top platform and said gently, When you enjoy the dinner, we must first determine which star is the second venue.

Is he from your Ying family? Wei San looks at the mans long hair and asks Ying Chenghe.

Chapter 190

The host is from the main family. Yings family has many levels and a complex structure. Ying Chenghe explained, Ying Qingdao is the current representative of Yings family. He basically attends all the occasions when Yings family needs to speak, but he is grade B.

Grade B? Liao Runing was shocked. Grade B is the representative of all the folks in the Ying family?

The difference between grade B and ordinary people was only that they can use mecha. It is impossible for any ordinary aristocratic family to let grade B be the representative, not to mention the Ying family.

They were the most famous family in the whole federation.

Ying Chenghe decided, His moves have always been very powerful, and the most important thing is that Ying Qingdaos son is called Ying Xingjue.

Hearing this, Liao Runing lost interest and said, Its like this ah, no wonder.

They all had an appearance of looking clear, but Wei San couldnt figure it out: isnt Ying Xingjue just a 3S commander like you guys?

Why did it seem like he is the only 3S commander in the whole federation.

My cousin has been measured as the 3S grade since childhood, but in the war among wars a few years ago, he reached a level that even 3S could not reach. Ying Chenghe took a look somewhere, The instrument for testing perception was invented by Yu Qingfei. The instrument he developed at the beginning could only measure the A grade. After the instrument was modified, the S grade could be measured. For the division above the S grade, double S and 3S were measured after Gong Yiliu made the third improvement.

For nearly a hundred years, many people felt that there was a difference between the advantages and disadvantages of 3S, but this difference was not obvious, which could be remedied by training or other means, so they always used the instruments improved by Gongyi Liu. Ying Chenghe paused and said, After the Star Wars, there has been private news that my cousin is more than 3S, but no one can prove it.

The brilliant history created by several masters has been stable for so many years. Although there are outstanding mecha masters, it is not enough to overturn the theoretical system. No one has been able to improve the testing instrument for the fourth time.

Wei San suddenly understood, but she always felt as if she had forgotten something. For a while, she didn't remember. Just then, the stage was rolling to choose the second venue, and she paid attention to it.

The scrolling screen stopped, Ying Qingdao turned his body to read sideways: The second competition venue of this year is in Sadu star.

After the competition location emerged, the five military academies all looked different.

Sadu star was located in a desert, so the environment of the competition field must be a desert.

Deserts are more difficult than hills.

Our advantage finally came. Liao Runing was happy. Before they came to the competition, they trained in the desert every week, more skilled than the main teams of other military academies.

Jin Ke was not very happy. He looked at the Pingtong Academy and thought about it.

The venue is already out, you can all enjoy the dinner party. Ying Qingdao left the stage after saying his part.

Wei San was not interested in wine. She loaded a plate of cakes on the table. As soon as she turned around, Jin Ke and the others were all called away.

Someone from the military region wanted to see the main members of the five major military academies.

It's none of her business. Wei San took the dishes and found a quiet place to eat her food slowly.

Wei San? A clear voice sounded behind her.

Wei San turned around and saw Ying Xinghui standing there: Is there something?

The fire of the empire came to find her?
