

## Smash All 201

### Chapter 201

The most recent gossip is of Wei San. The main members of other military academies are very low-key, and the media cant dig anything out of it. Instead, a chief of the school team stole the show.

The audience would like to know how the chief soldier, called Wei San, would react after the main member of Samuel Military Academy publicly announced that he would deal with the chief soldier of Damocles Military Academy.

[She should be training hard.]

[[No matter how hard she trains, its just a matter of minutes for the main members to deal with her.]

[What a pity! Dont offend others at the beginning. Now she will regret it.]

[It is said that Wei San slapped the main member Xiao Eli in the face at the port of the capital.]

[Fuck, really, how dare she? No, how is she able to hit him?]

[After the fight, Xiao Eli was stopped by other main members of Damocles Military Academy. As you know, the regulations of the port of the capital city, they cant cause trouble, and it will be settled later. The revenge will definitely come back.]

[So, in the first match, Samuels school team stayed near the entrance for revenge? As a result, Wei San did it again? Ha ha ha.]

When the discussion was hot in the live room, the reporter had pushed the door of the training room with the camera. What came into sight was Wei San, who was crossing her legs and turning the book with her head down.

But when the scene fell into the eyes of the audience, it turned into flipping the pages of the book weakly.

[What is Wei San reading? Is she reading at this time to seek peace?]

[Is this a complete abandonment? She must be completely frightened by Samuel.]

Hello, Im the reporter who came to live broadcast. This is my license. The reporter explained their intention as soon as they came up.

Wei San closed her book and glanced at the familiar blue icon: a reporter from Lanfa?

The reporter nodded: Yes, we are responsible for broadcasting the training of Damocles Military Academy recently. May I ask your team

They are training in the simulation cabin.

[Qingfei teaches you to become a mechanic in 21 days?]

[The name of this book sounds like a commercial book that cheats money. It reminds you that anyone who sticks to this ready-made book that has been learned for many days will cheat money.]

[Laughing to death, Master Yu Qingfei, how could he possibly write such a book? If the master knows, even the coffin cant hold him down.]

[Wei San wouldnt want to become a mecha engineer because she is overwhelmed by the words of the main force of Samuel Military Academy?]

[Wei Sans face is white with fright. Poor darling, dont try to be brave then. Its too late now.]

[Ha ha ha! The chief soldier of Damocles Military Academy was quite crazy at that time, but now it seems that it is no more than that, but is it so easy to be a engineer?]

Lanfa Media didnt take Wei San as an topic in their live broadcast. After all, Wei San is currently the largest investment shareholder.

However, Sequoia media were not satisfied. They intercepted the live broadcast of Lanfa and pushed it the next day to make the news into the headlines of Starnet.

3212 star.

Li Pi and Jiang Wenying have been paying attention to the Hephaestus competition. Now there is a new live program appearing, not to mention subscription.

In Li Pi's view, all behaviors of Wei San are normal.

At 3212 Star Wei San had this stinking problem. Sometimes she is particularly sensitive and resistant to training. She would just want to read a book or squat in a corner and shake hands with household appliances.

As a result, the whole satellite network is pushing a message the next day:

[A military cadet was overwhelmed during training and was mentally disordered and tried to change careers.]

The title is extremely eye-catching. At first glance, even Jiang Wenying said, Which military school student is this? They're too pitiful.

As he spoke, he clicked in. Wei San leaned cross-legged on the bench, and the picture of her feebly turning the book came into his eyes.

This photo has been expanded several times, accounting for almost two-thirds of the page. As if they're afraid no one knows who the military cadet is.

Jiang Wenying:

It is impossible for Xiao Wei to be insane, only she drives others insane.

At first glance, Shiniang knew that it was made up by the media and shut down the page.

They know, but the people of the Federation do not.

In particular, with Samuel speaking first, this photo immediately became the ironclad evidence of Wei San's fear.

Posts mocking Damocles Military Academy and Wei San appeared endlessly.

Do you want to respond? Jin Ke asked Wei San, who was still reading.

No interest. Wei San leaned on the table and turned a page of the book. They can laugh theirs.

Dont worry. If we get in there, its impossible for Samuels main members to free up their hands against you. Liao Runing said, Their chief soldier also cant beat you.

Chapter 202

The desert arena was officially opened on the 15th. The five military academies lined up according to their playing positions. Damocles Military Academy stood at third place, behind Pingtong Academy.

This time, the person who drew the combat readiness package was changed to Ying Chenghe. Jin Ke was originally very happy to see what he had drawn. Looking at other military academies, he discovered that their combat readiness package resources were only average.

Whats the matter with us? Can we do it? Jin Ke looked enviously at the Pingtong Academy in front of him. Why do others want energy and get energy, want materials and get materials in their combat readiness bag. No matter what, even like Samuel, having food is also good.

Next time, the young master will definitely get the most abundant combat readiness bag. Liao Runing said confidently, holding his arms.

After the five military academies have drawn their combat readiness kits, all of them are waiting for admission.

[Imperial Military Academy.]

After 20 minutes, the second voice came from the radio: [Pingtong Academy enter.]

The interval time is not uniformly distributed according to the ranking, but also converted by the time in advance.

In the last game, the first two came out a long time in advance, and third place Damocles Military Academy waited another full hour.

[Damocles Military Academy enter.]

Huo Xuanshan led his team into the desert arena. As soon as he entered, the wind and sand coming from him, the heat coming from his boots on the desert, and the heat coming from his feet all remind everyone that they have entered the real desert, and there will be star beasts everywhere.

Ten minutes later, the school team formed a shape and released their mechas. The soldiers entering the mechas should be alert to the surrounding environment at all times, and South Percy Military Academy also entered through the entrance at this time.

The audience in front of the live broadcast had many curious people. In the desert field, there is no shelter except the rolling desert. Where are the rescuers and the camera? The reporter of Lanfa Media pointed the camera at the high altitude and motioned for the audience to look up, There are 50 large aircraft floating all over the desert. Inside the aircraft are the rescuers waiting to be observed. At the bottom of the aircraft are equipped with the latest technology lens, which can clearly capture the scene below through the clouds. So you don't have to worry about the problem of live cameras. Next, let's wait for the performance of Damocles military academy.

Lets go together? Jin Ke looked at Gao Tangyin, the commander of South Percy Military Academy, who came in, and said politely.

The two military academies had a negotiation at the last match. This time, Damocles Military Academy came in ten minutes ahead of time, and did not leave immediately, but stayed at the entrance and waited for the people of South Percy Military Academy.

Gao Tangyin glanced at the chief soldier of Damocles Military Academy and said, You should thank us.

Jin Ke did not change his expression: We all took what we needed.

The two took out the map. The map drawn by Damocles this time was quite detailed. A pair of maps with the map of South Percy can almost synthesize two complete maps.

Gao Tangs silver finger fell on a spot: Fifty miles ahead, there are star-shaped herds of animals. We split in half.

Jin Ke shook his head and refused: We will divide it according to the number of killings, and no one will take advantage of others.

Gao Tangyin agreed.

There are few oases in the desert and few supply stations. If we want to get there as soon as possible, we will go there. Jin Ke pointed to the two green triangles on the map.

Then we will separate at the first supply station. Gao Tangyin said without hesitation. We will take another way.

Alright.

Although they talked about cooperation, they didn't want to reach the end together.

The two military academies began to move forward, close to each other, but on guard.

After they traveled a distance, the people of Samuel Military Academy finally entered the desert arena.

When they came in, all the tracks of the military academy had been covered by the wind and sand, leaving only the vast desert.

Damocles Military Academy should join hands with South Percy. Gao Xuelin grabbed a handful of sand, lifted it and slowly let loose, watching the sand fall bit by bit, they calculated perfectly, unfortunately

In the desert, Damocles Military Academy and South Percy were moving rapidly in the same direction. The wind and sand were dazzling and the temperature was hot, but more than 2000 people did not

make any sound when they were moving. Only the small and large footprints that were constantly covered by sand behind them proved that they had come.

[Stop.]

## Chapter 203

The two military academies stopped at the same time, and all the movements kept at the same pace. It was strange that no one made a sound, so they stopped at the same time.

This is the order of the main commander. Now we should go to the location of the star beast herd marked on the map. Yu Tianhe said on the live broadcast commentary platform, Like this kind of star beast herd, the main members will not move unless there are high-level star beasts. However, this location does not look like any high-level star beasts. It is just right that we can see how the school teams of the two military academies cooperate and the unified ability of command.

Remember, there are not many dust covers in Damocles Military Academy, Xi Haotian said.

Yu Tianhe nodded: Yes, there is no dust cover in the desert, which will not only affect the combat ability of mecha soldiers, but also take time to clear the sand inside the mecha in time, otherwise the mecha will be prone to problems due to the accumulation of dust.

If they exchange all the stars for dust shields after killing them, they can increase the armor protection of some members of the school team. Ying Yuerong looked at the commander of Damocles Military Academy in the camera, but any rational commander would not exchange all the chips, who knows what will happen later.

After the crowd stopped quickly, the main members of the two military academies looked at each other. Finally, Shen Tukun stood up, controlled the mecha to rise, and they saw him take out his sword in the air. Then he suddenly fell down, knelt down on one knee, and thrust a broad sword straight into the sand. The sword body fell deeply into it. At the same time, Shen Tukun grasped the handle of the sword and turned it vigorously.

The desert seemed to be affected by something invisible. The gravel began to vibrate outward, and people felt a rhythmic strange frequency under their feet.

Its a star beast!

A large number of giant earthy yellow centipedes turned out from the desert.

Shen Tukun collected his broad sword, got up and returned to the team. All the main members stepped back and left these giant centipedes to the school team.

Damocles school team and South Percys school team are all in combat, with Wei San and Ding Hemei standing in front of the command and mecha division, and Nie Haoqi standing behind. The 200 teams were divided into parts, with five people as a unit, to deal with the giant centipede emerging from the desert.

The giant centipede has a yellowish surface and is hidden in the desert. It can hardly be seen, but its head is slightly blue, and its abdomen is light blue. It has about 20 pairs of feet and a pair of jaw feet, both of which are more than six meters long and high.

[Be careful of their first pair of jaws and feet. The glandular mouth on the hook end is toxic and corrosive, which will damage the mecha.]

Wei San heard the voice of the commander of the team and started moving with Ding Hemei.

Ding Hemei flew up in the air to attract the attention of the giant centipede with fire, while Wei San ran towards the centipede with Blood Drop. She controlled the mecha to jump to the side of the giant centipede, pulled out the light knife and cut it at its head.

Qiang

The light knife made a harsh sound on the head of the giant centipede, but it did cause harm, leaving only a shallow trace.

At the same time, other teams also met a similar situation. The giant centipedes head was extremely hard. Whether it was a light knife, a sword, or a shell, it could not hurt them at one time, but instead, excited these centipedes.

The giant centipede was cut by Wei San, and despite Ding Hemei's attack in mid-air, it attacked Wei San with its jaws and feet, trying to pierce her mecha.

Wei San bent back to avoid its attack, but in the next second the giant centipede advanced with several steps. Her eyes were fixed, and she rolled away on the spot. Her right arm released the muzzle. A series of bullets hit the giant centipede foot, and it dodged aside in pain.

Ding Hemei dived down, and the two cannons on their shoulders constantly attacked the back of the centipede, making it impossible to hide.

The giant centipede could not bear the disturbance and made a hissing sound. It raised its head and raised its upper body, and attacked Ding Hemei with its jaws and feet.

Ding Hemei moved aside to avoid the attack of the centipede. At this moment, its raised upper body giving Wei San an excellent attack angle.

In the mecha cabin, Wei Sans fingers moved rapidly on the control panel, driving the mecha close to the centipede, holding the light knife tightly, and hitting it directly in the abdomen.

Yes

The giant centipedes body stiffened when the knife entered its abdomen, and soon began to become furious. It wanted to tear the mecha in its abdomen.

Wei Sans move was successful, so it was impossible to give it another chance. When she was about to fall down, the mechas two feet went forward at full speed. She held the handle of the light knife with both hands and pulled back hard.

The giant centipede was cut in half, and its original furious attack immediately dissipated and fell to the ground.

Wei San and Ding Hemei did not stop. Instead, they went to kill other giant centipedes, while Nie Haoqi stayed in the rear and built a fire defense line with the other heavy mecha-armored soldiers.

This should be the first time that the two military academies met the star beasts. It was a bit chaotic at first, and then they got used to the rhythm. Yu Tianhe commented, Because the number of star beasts in the hill track has been greatly reduced in the past few years, and the military intends to reduce the number of high-level star beasts, it seems too easy to play. This desert field is completely different, and we have no idea of the size of the star beasts inside.

The chief of the Damocles school team performed well, although they had no experience, but the timing was accurate enough. In contrast, the head soldiers of South Percys school team who had participated in the competition before performed a little worse. Xi Haotian looked at Wei San in the live camera, It seems that they will not just sneak attack.

Listening to the commentator point out specially, the teachers at Damocles Military Academy were not particularly excited. Wei San herself became famous in the school. She also took on the task of shooter while serving as the head chief of the school team. At least her strength in grade A was fine.

In the live camera, the blood-red mecha moves extremely fast, and with the proficiency, the speed is still accelerating. Finally, it separated from Ding Hemei, and each killed their own star beasts.

## Chapter 204

After an hour.

The mecha Blood Drop stood, with its feet shallow in the gravel, and its left hand holding a light knife dipped in the light blue blood of the giant centipede, dropping down along the blade, wetting the sand under its feet.

Wei San sat in the mecha cabin and walked away for a while before jumping out.

[Damocles Military Academy killed 243 A-grade star beasts, and South Percy Military Academy killed 201 A-grade star beasts.]

The broadcast spread all over the desert field from high altitude, and at the same time their direction was exposed by the beam of light.

The work is over. Jin Ke released his arms and said, Everyone rest in place for 30 minutes.

When the engineering division of the school team helped the soldiers clean up and repair the mecha, Jin Ke and Gao Tangyin went to exchange rewards.

The staff in charge of the exchange are also in the large aircraft at high altitude. They have been driving the small aircraft at the first time of the broadcast, coming this way, containing energy, materials and food.

Jin Ke did not change for a protective cover, but instead changed it into mecha material.

The protective cover has specific requirements for the environment. After this competition, it is rarely used. It is wasteful to replace it.

In this respect, Jin Ke and Wei San have the same idea: grab!

Seven mechas were seriously damaged, and the other five mechas knee joints fell into the sand and mixed into the engine, which was burned in the battle just now. Wei San finished counting and said to Jin Ke, The other teams of mechas have been cleaned up.

Jin Ke looked back and said, As soon as the time arrives, we continue to move forward, reach the first supply station, stay and ambush Samuel, and grab their protective cover.

At this time, Gao Tangyin came over and said, we said it before, we will separate at the first supply station. You remember your promise.

After the last negotiation between Jin Ke and Gao Tangyin, in the next two games, Samuel blocked South Percy, and Damocles Military Academy had to fight, at the cost of the energy of the last time and the joint progress of the two military academies in this time, to deter Samuel Military Academy in the rear.

Of course. Jin Ke smiled. Its just that you leave so early, and youre not afraid that Samuel will go to find South Percy, in case we cant catch up.

This is our consideration. Gao Tangyin looked at the gray and yellow desert in the distance

After she left, Jin Kes smile faded. It could not be such a simple reason that Gao Tangyin wanted to separate from them at the first supply station.

So whats the reason?

The two military academies went forward along the way, while the two sides kept trying, and the main commander went back and forth.

Wei San looked beside her with a headache. She was tired of this kind of calculation. She went back to her team and walked with Ding Hemei.

[The Imperial Military Academy killed five double-S beasts.]

In the middle of the journey, a radio broadcast sounded, and everyone looked away subconsciously.

This is the main team acting.

The distance is not close. The people of the two military academies looked up and went on.

Supply station.

It is a simple green house, in which there are five portions of food supplies, and the same quantity.

The main members went in, and the school team stayed outside.

After Jin Ke went in, he did not hesitate to take the third supply bag. Gao Tangyin, who was one step behind, could only take the fourth supply bag.

You students at Damocles Military Academy are too much. A South Percy teacher on the live broadcast said that the number of supply bags is not much different. In previous years, other military academies always give way due to the number of girls in South Percy.

Xiang Minghua slurred: South Percy Military Academy is a military academy. Why should others let them? All competitions are fair and competitive. Each of them has their own ability. The main members inside are not dissatisfied, but you insult them outside.

The teacher for South Percy blushed. He didn't mean it. It was just that they had been doing it all the time in the past years. He thought they would also let them at Damocles Military Academy. He was not satisfied until he was suddenly broken.

Gao Tangyin took the supply bag and said, We will separate here.

Jin Ke: alright, goodbye.

After the main members of South Percy went out, they changed the formation with the school team and quickly left silently in another direction.

Jin Ke came out and stared at the direction of their disappearance for a while, then suddenly said, not right, lets go.

## Chapter 205

The first two supply packs have already been taken away. It is obviously the Imperial Military Academy and Pingtong Academy. However, when the Imperial Military Academy killed the double- S Star Beasts and both Damocles and South Percy had harvest, Pingtong Academy was completely silent and could not be located.

Similarly, there was no news of Samuel Military Academy, who finally entered the stadium, as if it had disappeared.

In combination with South Percys repeated emphasis on separation at the first supply station, Jin Ke had to think more.

He asked everyone to rectify and leave immediately.

Live Broadcast.

Samuel, the leading teacher, touched his chin and smiled inexplicably: Its too late to understand now.

In the camera, Pingtong Academy and the coming Samuel Military Academy blocked the front and back of Damocles Military Academy in the supply station.

They walked only two kilometers before Pingtong Academy suddenly appeared.

The five main members from Pingtong Academy stood at the front, with a thousand members of the school team behind them. They appeared in silence in front of the students of the Damocles Military Academy.

Jin Ke motioned to everyone to stop, looked at the main commander of Pingtong Academy, Lu Shibai and said firmly, You and Samuel Military Academy cooperate.

He thought that Pingtong Academy would now focus on competing with the Imperial Military Academy for the first place, rather than wasting time on them. He did not expect that Pingtong Academy would now cooperate with Samuel.

Lu Shibai pushed the left-eye monocle: Today is different from the past. Pingtong Academy is willing to cooperate with other military academies and make progress together.

Liao Runing controls the mecha, steps forward, pulls out the three-ring sword, and says, If you want to fight, young master will accompany.

We dont want to fight with you for the time being. Lu Shibai stood on the sand dune while walking, with two soldiers standing beside him, vaguely meaning to guard. Its not good for anyone to fight hard just after entering the game.

Jin Ke asked Liao Runing to come back and looked at Lu Shibai, So what do you want?

Lu Shibai did not speak, but looked behind the Damocles Military Academy.

Here comes Samuel Military Academy.

The scene of the previous match reappeared after the front and back attacks, but this time it was Damocles Military Academys turn to stand alone.

Gao Xuelin stood in the rear: Samuel never takes back what he said.

The first thing I said was to kill your chief soldier. Xiao Eli still remembers the humiliation of that slap. Now its time to honor our promise.

Suddenly being mentioned, Wei San lifted her eyelids and looked at Samuel Military Academy. It was rare that she didnt make a sound.

Her appearance made Xiao Eli think that Wei San was scared. He said with some pride, Give you a chance. Our main members dont fight. You can fight again with Samuels school team chief.

Some people were relieved to see Damocles Military Academy, and Xiao Eli added: and the chief of Pingtong Academy.

As soon as his voice fell, a person from Pingtong Academy's school team in front stepped out, with sharp eyes, thin figure and unspeakable solemnity.

Two versus one.

Chapter 206

And it was two S-grades manipulating an A-grade mecha.

Many people at Damocles Military Academy looked ugly. This was blatant bullying.

You cooperated just to deal with a chief of our school team? Jin Ke looked at Lu Shibai, this seems to have no fun, how about the main members come?

Lu Shibai shook his head and gave a slight smile: I think this kind of cooperation is very good. It is harmless for anyone to lose a chief soldier of the school team.

It has to be said that Pingtong Academy is quite capable of killing the heart. The chief of the school team is not important, this insinuates that it is not important to be a relative main member, but it is of great significance to the school team.

Now, in the presence of all the members of the school team and the main members, if the chief of the school is also knocked out by other military academies, the confidence of the school team members will be seriously frustrated.

At this time, the live camera aimed at the main members of Damocles Military Academy for a close-up.

Jin Ke was still the same as usual on the surface. After all, he is the commander. No matter what happens, he should control his emotions, but Ying Chenghe and Shen Tukun looked at Wei San from time to time, and their eyes could not hide their anxiety. Huo Xuanshan and Liao Runing did not respond at all, especially Liao Runing, who clearly acted impulsively just now, and now lowered his head to play with his fingers.

Xiang Minghua and Jie Yuman looked at each other and saw something different from the others eyes. Liao Runing looked white and clean. He was like a quiet person without speaking, but it was a firefight when he opened his mouth. He could not bear anything.

In addition, they were very close to Wei San last month. They are clearly friends. Although he doesnt know why Wei San can get close to him, he could only think that Wei San is good at making friends.

It is reasonable to say that Liao Runing should not be so calm at this time.

However, these key members look very normal to outsiders. Although the head command of the school team has a title of chief, she was only a soldier of grade A rank at the end.

On the battlefield.

Wei San looked up and glanced at the sky casually, then questioned Lu Shibai: Is Pingtong Academy school team involved in this matter?

Lu Shibai smirked, There is only one head chief of the school team in Pingtong Academy, and everyone else is just watching.

I agree. Wei San turned her wrist. You two battle together.

Still a little temper. Xiao Eli sprayed and let his school team chief pass.

Wei San made a gesture to Damocles school team.

All military academies will leave the middle space for the three school team chiefs.

Wei San entered her mecha, and the blood-red figure stood on the desert. On the left is Samuels chief soldiers mecha, and on the right is Pingtongs chief soldiers mecha.

At the same time, the school team of Damocles Military Academy suddenly exploded and attacked Samuels school team.

The crowd was shocked. The main members of Samuel started unconsciously and were stopped by Liao Runing.

Want to start? Liao Runing sneered back.

Gao Xuelin motioned to the main members to step back. They reached an agreement in private, only one chief soldier was now sent out, and no one else would intervene.

It was only one day after admission, and no one wanted a big dispute, otherwise they could not continue.

The two military academies and teams began to fight. In the middle of the battle, there was the engineering division of the Damocles school team, who took advantage of the fire to remove Samuels dust cover, and then installed it on the mecha of their team members at a very fast speed.

That speed surprised even Yu Tianhe, who was live at the broadcast.

The mecha engineering division of Damocles Military Academy, is really Yu Tianhe pondered the words for a long time and finally boasted, superb.

With its own home advantage, Damocles Military Academy team is more suitable for desert combat. They use the sand and the sunken ground to almost suppress Samuels school team. The main members of Samuel stand in place, watching their school team being robbed openly, and swearing in their hearts.

Xiao Eli couldnt stand it, so he could only watch the fighting of the chief soldiers in the middle to find comfort.

There was no tacit understanding between the two chief soldiers of Pingtong Academy and Samuel when they fought, but they were two-to-one and also S-grade. They grasped the rhythm very accurately. One of the two mechas used a particle sword and the other used a heavy weapon to attack far and near.

Wei San hid in a hurry.

The black mecha, driven by the chief soldier of the Pingtong Academy, fell not far away, and drove two muzzles on his shoulder to shoot at Wei San.

Wei San jumped up and fired her right arm in the opposite direction at the chief soldier of Pingtong Academy. The bullets of the two men met halfway in the air and exploded.

At this time, Samuels army suddenly approached, and the particle sword attacked directly.

Chapter 207

Wei San raised her left hand and resisted his sword with her lightsaber, and her right arm never went down. She was temporarily at the same level with the two.

Apparently, the two didnt expect that the left and right hands of Wei San could be used so smoothly. The chief of Pingtong Academy put the gun muzzle away and slowly drew a long gun from his leg.

They changed tactics, and both use close combat.

Wei San paused, tried to distance herself, but the two men were close at every moment and did not give her a chance.

With one sword and one gun, she was forced by an extremely fierce attack, and both the front and back roads were blocked.

In the mecha cabin, Wei San flashed a touch of annoyance. She slashed back with her light knife and held a gun against the chief of Pingtong Academy in the back. The muzzle of the gun shot at the wrist of Samuels head soldier holding the particle sword. In the next second, she kicked her foot on the chest of Samuels chief, drew back her left arm, bent her upper body, and dodged the gunfire from the chief of Pingtong Academy.

She seized the opportunity of Samuel chiefs retreat, widened the distance from the chief of Pingtong Academy, and forcibly broke a route out.

Ying Chenghe, standing in the distance, pinched sweat for her hard. He never felt so nervous even while watching a battle at the 3S level.

Once and twice, they were broken apart by Wei San, and the chiefs of Pingtong Academy and Samuel let out real fire. One by one, their perception was at the highest, and all the structures of the mecha were imprinted in their minds, and then they launched an offensive.

Each time the speed can reach the highest value of the mecha, which is the advantage of people with higher level perception to control the lower level mechas, and they can maintain the best condition of the mecha for a long time.

Samuels command soldier, using the particle sword, pulled over and pointed at the chest of Wei Sans mecha. Wei San could not dodge in time. The light saber was blocked in her chest. The particle sword stabbed at the light saber and made a harsh sound. Wei San was pressed by him to step back several times. At this time, Samuels chief suddenly unfolded his metal wings and flapped them against Blood Drops.

Wei San stared, gritted her teeth and quickly pulled out her light knife. At the same time, she rolled to the desert to avoid the attack from Samuels chief.

She doesnt have a dust cover, so its hard to avoid the sand entering at all joints of the mecha with this roll.

Compared with others, Wei San noticed that the data of the mecha began to change from subtle to invisible.

She controlled Blood Drop to get up quickly, and the result was Samuels sword, which swept across the sand, bringing up the yellow sand.

There was a momentary blur in Wei Sans sight. She retreated continuously to avoid the yellow sand, but unexpectedly, Pingtong academy was waiting for her in the rear.

The chief of Pingtong Academy stabbed, missed, and continued to attack. The gun stabbed at a fatal position.

At this time, Samuels chief approached her again, followed by the particle sword, and the speed and strength of the two were more than twice as high as before.

Wei San narrowly escaped the attack of Samuels sword. The lightsaber was about to resist the gun of Pingtong Academys chief. As a result, Pingtong Academys chief pretended to shoot, bypassed her lightsaber in the next second, and stabbed her thigh from the bottom to the top.

Wei San stiffened.

Holy s\*\*\*! Liao Runing suddenly burst out, then raised his hand to cover his eyes and looked down at the yellow sand under his feet.

Huo Xuanshan no longer looks in the middle, but looks up at the sky, as if the clouds in the sky are very interesting.

Jin Ke looked at them and thought Huo Xuanshan and Liao Runing couldnt bear to see Wei San injured.

It is transmitted to Wei Sans brain by the fuselage nerve through perception, as if she was also stabbed in the thigh by a long gun.

But Wei San is not full of pain at the moment, but her mecha is broken, broken!

Wei San, who was in a bad mood, exploded in a flash.

How dare someone hurt her mecha!

Pingtong Academys chief didnt notice any change. He pulled out his long gun and wanted to continue to stab Wei San.

Wei San didnt hide at all. Seeing that the spear was going to stab her, she stretched out her hand and held his spear directly. The palm of her hand was hard, and the robot arm even made a creaking sound.

Pa

The Pingtong Academys chiefs sword was broken. When he was stunned, Wei San stepped forward with two feet, one foot kicked his knee, causing him to kneel on one knee, and the other foot stabbed the head and neck joint of his mecha.

After being split by the rear foot, the chief of Pingtong Hospital in the mecha cabin vomited a large mouthful of blood and then passed out.

Even so, Wei San didnt let him go. She beat him into the yellow sand punch by punch.

The blood-red mecha entered a frenzy, and lost her mind. She attacked the mecha of Pingtong Academys chief ruthlessly until the mecha was completely damaged, and the rescuers began to come here.

When everyone thought this was the end, Wei San unexpectedly pulled the mecha out again, broke his mecha arm and leg, dug out the energy and dust cover, and didn't even let go of the engine.

She motioned to the engineering division of her team to come and take it away, then pulled out the chief in the mecha cabin and threw him directly in front of the main members of Pingtong Academy.

Then Wei San turned to face Samuel's chief, turned her head and said in a loose and angry voice, You just won't learn obediently.

## Chapter 208

When he saw that Wei San defeated the chief of Pingtong Academy with two feet, Samuel's chief suddenly felt a chill on his back. He remembered the tragic situation where his wings were cut off and he was swung to the ground on the stage. He was stunned for a moment. When his consciousness came back and saw the violent scene of Wei San, the person was half numb.

Why does she burst out every time?

By now, when hearing Wei San's words, Samuel's chief unconsciously stepped back.

Live Broadcast Site.

The chief of Samuel's school team is going to lose, Xi Haotian said quietly.

When a mecha soldier loses his fighting spirit, he is doomed to lose.

Wei San suddenly went berserk, and the two chief soldiers could not hold her down. It is said that she was only a super A-grade individual. Yu Tianhe was thoughtful.

Ying Yuerong leaned on the chair and said, She has her own purpose. From the beginning, when she asked Lu Shibai whether the other members of Pingtong Academy would intervene and then letting her school team fight against the Samuel school team to grab the dust cover. Im afraid she wanted to delay the time at the beginning.

As a commander, Ying Yuerong always has a deeper idea than others.

Next to her, Xi Haotian added: There is also the meaning of testing Pingtong Academys chief soldier. Last time, she fought with the chief of Samuel, but the other one didnt know the details.

Really? Yu Tianhe always thought there was something wrong. When Wei San went berserk, Damocles Military Academy was still glued to Samuel Military Academy, and the timing was not good.

And

Yu Tianhe looked at Damocles main mecha soldiers in the camera, one looking at the sky and the other the ground. The two men behaved a little strangely.

However, the other two commentators had a clear explanation, and its not good for her to express further doubts.

In the field.

Wei San, holding a light knife with the tip of the knife hanging to the ground, walked slowly towards Samuels chief soldier step by step. The tip of the knife crossed the sand surface leaving a shallow depression, which was soon flattened by the wind and sand.

Do you want to hit me? Wei San asked him.

Samuels chief in the mecha cabin was bitter. What evil did he commit? He didnt have the chance to touch any star beasts in the last two competitions. Now he has to fall into the hands of this Wei San.

Wei San raised her knife, Samuels chief soldier couldnt help falling back, but next second she took it back.

You need to be reasonable as a person. Wei San took a step forward with each word. You two beat one of me, and you dont want face. Then should I peel your face?

Samuels chiefs psychological defense line collapsed, but he had the strength to attack Wei San.

Wei San sidestepped away from his disorderly sword, reached out and grasped his wrist, and twisted it hard. The particle sword of the other side was released directly.

Her other hand quickly fished out the particle sword, and Samuels wrist was twisted, and he tried to kick his leg to Wei San bearing the pain, but she kicked him back.

Wei San held his particle sword and cut his thigh directly.

The chief soldier of Samuel ignored the pain that spread into his mind at that moment, controlled the mecha and ran all the way to Samuels main members.

Chapter 209

Wei San stooped to pick up his leg, pulled out the dust cover, threw it at the back team, and then ran after him. She pulled the man back within the range of his escape.

What are you running away from? Wei San put his mecha to the ground. Didn't you have a good fight before?

You should never take back what you say. She stepped on the chest of Samuels chief soldier, facing Samuels chief commander Gao Xuelin, I, Wei san, never takes back what I stepped on.

After that, with one foot, she directly stepped on the chest of Samuels chiefs mecha, exposing its mecha cabin.

At that moment, Gao Xuelins face was extremely gloomy.

Live broadcast room.

[Holy s\*\*\*, Holy s\*\*\*, absolutely amazing, Im going to be a fan of this Damocles chief!]

[Is it only I who cant forget the expressions of their two main soldiers just now? At first, I thought they couldnt bear to see their chief soldier go out. Now, why is it a little like sympathizing with the other chief soldiers?]

[So far, they are still looking at the sky and the ground.]

[To be honest, this Wei San is quite capable of fighting, and how much hatred has she pulled now? I feel that she has brought all the hatred values on Damocles Military Academy.]

[Except for not fighting with the chief soldier of the Imperial Military Academy, it seems that the other three military academies chief soldiers have been kicked out by her.]

[She is not sure to win against the chief soldier of the Imperial Military Academy. The Imperial Academy is also a super A-level. In previous years, their chief soldiers are all S-level. They can still be killed this year, their strength is absolutely not low.]

While the audience was still discussing about it, Wei San had dismantled Samuels chief soldiers mecha again before the rescuers arrived.

And this time it was demolished in front of Samuels main members.

The school team has almost grabbed all of the goods, all of them stopped, and the mecha engineer came back with a full load.

[The chief soldier of the school team of Pingtong Academy is out, and the chief soldier of Samuel is out. Repeat]

As soon as the broadcast was broadcast, Wei San jumped out of the mecha and looked at Pingtong Academys Lu Shibai. She said casually, Maybe you should change your name when you go back, or you will fail again all your life.

Ha ha ha ha. Liao Runing was the first to laugh, and laughed unbridledly. He leaned against Wei San and gloated, maybe they just want to fail again.

Pingtong Academys Zong Zhengyue looked at Wei San, turned around and said, Go.

In an instant, everyone from Pingtong Academy calmed down and left here quickly and solemnly.

Samuel went into the supply station, took their supply bag, and quickly left, but everyone looked extremely depressed.

Two fought against one and failed. They were robbed again by Damocles and lost a number of dust covers.

It was the greatest disgrace in history.

Jin Ke came over and patted Wei San on the shoulder: youve worked hard.

Damocles Military Academy did not leave, and their mecha was repaired on the spot. Some peoples mecha was damaged, and Wei Sams mecha was also in the midst. There was sand inside her machine, which might not have much impact on others, but it was a very serious matter for her.

However, as long as the dust cover is installed after cleaning, this situation will not happen again.

Samuel sent a pair of them to her.

## Chapter 210

Two school team chiefs? Gong Yijue turned and looked at the beam direction in the rear. Damocles and South Percy joined hands. How did they get involved with Pingtong Academy?

Ying Xingjue resolutely put down his hand and opened his eyes: Its the reverse.

What? Gong Yijue was stunned.

Ying Xingjue took out his pen and finished his markings on the map, and looked up: Pingtong Academy and Samuel joined forces to deal with that chief, while South Percy stayed out of the matter.

Situ Jia next to him also did not understand: What is the plan of Pingtong Academy? To waste time just to vent for Samuel?

Ying Xingjue decided to put away the map and pen, clenched his fist and coughed a few times, and his lips became paler: For later cooperation.

South Percys strength in previous years was not as strong as Samuels. This years strength can only be said to be undetermined. By contrast, Samuel is more stable. Pingtong Academy should unite with them to deal with the Imperial Military Academy in the later competition.

As for Damocles, this military academy has always been focused on advancing and killing the star beasts. In addition, the major military academies are eyeing the military region behind it and rarely cooperate with people.

In Ying Xingjues view, on the surface, the discipline of Pingtong Academy is extremely strict, most like military personnel. In fact, the people at Damocles Military Academy have more military spirit.

Firm and stubborn.

Two chief soldiers cant even fight against one. That chief soldier named Wei San has some skills. Situ Jia tutted. I dont know how our school team chief would be against her.

With only grade A mecha, grade S has limited room to play, and against Super grade A, its hard to say winning or losing. Gong Yijue is from the mecha engineering division, and he knows the gap better. Super A itself is in that mysterious state that cant be explained. Dont forget that our Imperial chief defeated the Double S single soldier with grade A mecha, and Wei San is definitely not his opponent.

Thats right. Situ Jia opened the mecha and asked before entering, Do you want the school team to follow up and arrive at the destination early?

Ying Xingjue looked down at his right hand and said, The main players of Damocles and the school team will not be together all the time. Let the Imperial school team solve their school team.

Start now? Ji Chuyu wondered. He was not worried about the Imperial Academy, but didnt want to spend time on Damocles Military Academy.

The only purpose of the Imperial Military Academy is to kill the high-level star beasts as much as possible and get more resources in the early stage of the competition. In this way, no matter what war readiness package is drawn and what bad situation is encountered, the materials, energy and food are sufficient.

They just need to fight forward.

Ying Xingjue resolutely looked up, his long cold white neck shone like jade under the sunlight in the desert: I want to see how capable she is.

See if she and Damocles Military Academy are hiding anything.
