

Smash All 221

Chapter 221

Pingtong Academy.

The two military academies finally met. Zong Zhengyue from Pingtong came down from his mecha and held a shotgun. After he landed, he released his hand slightly, and the shotgun became a long-tassel gun.

It is said that Zongzheng Yue usually used only one hand to control his mecha, and the other hand will hold the gun, and the weapon used by his mecha is only a spear.

The higher the level, the more cold weapons will be used for mecha weapons, because sometimes the speed of hot weapons is not even too high for mechas.

You are late. Ying Xingjue looked towards Pingtong Academys commander Lu Shibai

According to his prediction, Huo Jian and the redfoot spider should have fought halfway, and Pingtong Academy should arrive here.

Lu Shibai gently pushed his monocle, and also seemed like he was talking with a friend: Delayed time halfway.

Ying Xingjue's eyes were slightly lowered, and there was no star beast in the way. Pingtong Academy would not waste the time to compete for a place. The only thing that could delay them was the exchange of materials.

Since the next venue needs to be decided by drawing lots after the competition, all military academies are not clear about the environment of the next venue during the competition. However, the exchange materials need to be determined at the venue, and all these need to be coordinated by the chief commander.

In the Hephaestus competition, there are restrictions on all aspects in order to simulate various situations on the battlefield. No matter the commander, the division or the soldiers will all be limited in the competition.

I also want to thank the Imperial Military Academy for helping to clean up the star beasts, Lu Shibai said customarily.

As for what he thought in his heart, it was unknown. It was all hidden under his polite smile.

Live broadcast.

Are they going to start? Yu Tianhe was a little excited. It was too early. It was at least five games before he saw the first and second place meet. They were busy accumulating various resources in the first few games.

They can't fight for the time being. Other military academies are coming. Ying Yuerong watched the other live cameras. The other three military academies were coming very quickly.

Yu Tianhe looked, and sure enough, the three military academies were close to the finish line.

The first team to appear in front of the main teams of the two military academies is not the other military academies, but the Imperial Academy school team. Only a small number of people remain in the team.

No one thought that the number of exits of Imperials school team was the highest among the five military school teams.

With this in mind, Pingtong Aacademys commander Lu Shibai was inexplicably relieved. Although they lost their chief soldiers respectively in the two vs one, the imperial school team was no longer around.

The second team to appear was Samuel Military Academy, followed by Damocles Military Academy, who appeared almost at the same time.

South Percy also appeared near the finish line two minutes later.

The scene froze for a moment.

The five military academies stood in different directions, and no one spoke. After a while, Samuel Military Academy moved first. Their main team took the school team to Pingtong

Academy, and finally stood next to Pingtong Academy.

A clear position.

In the desert arena, they need to help Pingtong Academy.

South Percy Military Academy and the Damocles Military Academy remained unchanged.

In that case, why dont we solve these two military academies first. Lu Shibai pointed in the direction of South Percy and Damocles, and commented towards Ying Xingjue.

There was no voice on the competition terrain.

Only Wei San suddenly raised her hand and squeezed her neck and said to Huo Xuanshan, I think someone is watching me.

Chapter 222

In all the military academies, no one spoke out. When the fight was in secret, the words of Wei San, which were not loud, were almost heard by the whole audience.

The crowd: Who tf will peek at you?

Ding Hemei stood in the second row, quietly taking back her feet and avoiding the eyes around them.

It has to be said that Wei San has the ability to destroy all the atmosphere completely.

Which direction? Huo Xuanshan asked her sideways.

I don't know. Wei San also spoke directly.

Liao Runing joined the group chat: Maybe who saw you before, was fascinated, so he was peeping at you.

The members of Damocles Military Academy created a joke openly, causing the faces of the main members of South Percy nearby to be distorted.

Now the field is clearly divided into several forces. Pingtong Academy and Samuel were together. The Imperial Military Academy, as the leader of ten thousand years, is the goal of everyone, but no one wants to stand out first. South Percy and Damocles do not want to stand in line. As long as Pingtong Academy and Samuel stand opposite against the Imperial Military Academy, they can take advantage of it.

It can also be said that South Percy and Damocles Military Academy seem to be in the same position on the surface, but their current behavior is inexplicable.

The commander of South Percy, Gao Tangyin, looked at Jin Ke and motioned with his eyes to let him take care of his own members.

As a result, Jin Ke turned to Wei San and said, There is a feeling of being peeped at?

Almost. Wei San only vaguely sensed the feeling passing by.

Gao Tangyin frowned and wondered for a moment whether the people at Damocles Military Academy were intentional.

The people in the five military academies looked over to the side of Damocles because of the sudden words Wei San spoke just now. Nobody noticed that after hearing Wei Sans words, Ying Xingjue didnt show any surprise from the beginning to the end.

South Percy doesnt interfere in any military school struggle, we only need to be the third, Gao Tangyun first delivered.

Apologies, we have booked third place before the game. Gao Xuelin smiled, before commander Lu spoke, we will first solve you guys, South Percy and Damocles.

Both of them are from the Gao family, but they fight each other on the field.

However, the Gao family has always had many branches. It is the Huo family, all of which comes from the Imperial star. Even Huo Zian from Pingtong Academy is Huo Jians brother who grew up together.

South Percy and Damocles can deal with Pingtong Academy and Samuel. Gao Tangyin looked at Ying Xingjue and said, The Imperial Military Academy can go ahead.

She not only directly dragged Damocles Military Academy into the water, but also suggested that Pingtong Academy would lose its first place if it joined hands with Samuel.

Lu Shibai is still waiting for Ying Xingjues reply, without looking at Gao Tangyin.

Ying Xingjue, as the focus of all people, just looked down at the ground and raised his eyes after a long time: Imperial will not accept any threat and command from anyone.

The faces of the major commanders changed at the same time.

Only Wei San suddenly entered her mecha, resumed the combat state, turned around and ran to the side rear.

Side rear is a desert.

Chapter 223

The crowd has not yet reacted. Why did the chief of the school team, Damocles Military Academy, suddenly make such an incredible move.

Only Ying Xingjue held his fingertips firmly to predict what she was going to do.

He gave orders directly to the main members to prepare for battle.

Wei Sans light saber was out, and she cut directly at the empty desert. At the same time, bullets fired round the land.

After she moved her hand, the members of each school team saw that the main members of their military academy were all in combat.

Hiss

A two-headed adder emerged from the desert. The species was the same as the two-headed adder killed by the main team of Damocles, but the two-headed adder was larger and was a female.

Several chief commentator on the live broadcast were also shocked.

Another two-headed adder? Yu Tianhe frowned, looking at its form, the one Damocles fought against before shouldve been its youth.

It's a young dissimulated two-headed adder. It looks like it should be raised by a female snake. Ying Yuerong squinted at the female snake in the camera. In that case, there should also be a male snake.

Alienated 3S star beasts tend to have stronger fighting power than their peers, equivalent to more than 3S, while adult female snakes are more powerful than young male snakes in both fighting power and body size. Yu Tianhe sympathizes with the luck of Damocles Military Academy, they had finally killed two 3S high-level star beasts, but it led to real problems.

This alien star beast, also a snake, is extremely vengeful. The female snake probably smelled the smell of Huo Xuanshan, the main member of Damocles.

Why is only Wei San aware of the female snake? Xi Haotian frowned. She is a head chief of the school team, and yet she discovered it before the other main members?

Reflecting back now, Wei San had said before that someone was peeping. It was clear that she had detected the female snake in the dark, but it was not clear what was happening.

There was a moment of silence on the live broadcast.

Xi Haotian's words woke them up. Why can Wei San perceive the super star beast that others didn't perceive in advance?

The leaders of the other military academies below all looked at Xiang Minghua, trying to see what was on his face.

At this moment, although Xiang Minghua was dazed and shocked, he seemed to be very calm with the presence of God on his face.

Everyone had to go and watch the match conditions in the live broadcast.

The five military academies reacted differently from when Wei San drew her gun and attacked with her weapon simultaneously.

The two main soldiers of Damocles Military Academy rushed towards Wei San, and Shen Tukun stayed in place to protect the school team. South Percy was stopped by the main force of Samuel Military Academy, and the Imperial Military Academy ran straight to the end. The three soldiers of the main force of Pingtong Academy tried to fight against the Imperial Military Academy.

However, the Imperial commander Ying Xingjue hung in the middle of the sky and stretched out his hand in the direction of Damocles, and another two-headed adder sprang up in that direction, which was the male snake that the live announcer Ying Yuerong wanted to ask about.

Ying Xingjue turned his head slightly. The two-headed male adder, who had been stimulated to roll by his brain, suddenly stopped and ran straight to the direction of the commander of Pingtong Academy and their engineering division.

Although they are protected by organic armor, the dissimulation star beast is so powerful that the three mecha soldiers in Pingtong Academy dare not take risks and can only return to fight with the two-headed male adder.

When the four military academies were locked in a stalemate, the main force of the Imperial Academy rushed directly to the end with the rest of the military academies.

Is all this under the control of Ying Xingjue? Yu Tianhe was a little stunned.

From the moment when he changed to a higher level star beast, he already knew that the Imperial Academy would get away perfectly?

No, the perfect escape is also based on one condition: Ying Xingjue can control the disassimilated spirit of star beast.

Ying Yuerong smiled on her face. It seems that Ying Xingjue has made a breakthrough again and can control the ability of disassimilated star beasts. Throughout history, few commanders can do it.

However, after watching the live camera of the chief soldier of Damocles Military Academy, Yuerongs smile faded again.

Could it be 3S?

Damocles Military Academy is too brave this year to cover up this soldiers at this level in the position of chief.

Now it seems that if Wei San is as she expected. Damocles Military Academy had a full 3S, and one of the 3S soldiers can even balance against the strength of Pingtong Academy. After that, Damocles Military Academy is absolutely an opponent on the field.

When the imperial team arrived at the end of the line, Ji Chuyu went up and pulled the flag. Ying Xingjue stood by. His eyes moved to the distance and listened to the fighting voice coming from there.

She is...super 3S.

Chapter 224

Imperial Military Academy took the lead in pulling the flag and leaving the field. The team leaders were waiting at the exit, but this time the teachers looked very complicated.

Without giving the media at the exit an opportunity to interview, the team leader held out his hand to block their camera lens: We will not be interviewed today. Our students need to rest.

After that, the teachers took the main members to the meeting room.

In addition to Ying Xingjue, other main members were also in a trance state, this all happened too suddenly.

The teacher and the main members entered the conference room one after another. The leader took out a shield and put it on the conference table. Then he looked at Ying Xingjue and asked the question in everyones heart at the moment: Whats the matter with the chief soldier of Damocles Military Academy?

Ying Xingjue looked down: At the beginning, I guessed she was supposed to be a 3S level soldier, so I tested it on the field.

After the test, he discovered that she might be more than 3S like himself.

When they were in the Imperial star, the people at Damocles Military Academy were extremely confident and close to the chief of the school team. Ying Xingjue was suspicious.

At this time, all the main commanders at the dinner party were there. If they were to release their senses in the distance, they would be detected by other main commanders, so Ying Xingjue decided to shake hands with her. Unless the 3S level soldier is trained and willing to open their field to the main commander in combat, she will release her perception when two people come into contact, and it will be immediately resisted once he touches the field of Wei San.

It was unexpected that Jin Ke would watch her so closely, but it also aggravated Ying Xingjue's speculation.

Ying Xingjue's perception range is stronger than that of other military commanders. From the beginning, he has been expanding his perception to explore the surrounding environment. So when the main team of Damocles killed the young two-headed adder, he already knew that there were two adult two-headed adders.

As soon as Damocles Military Academy arrived near the finish line, they were bound to be attacked by the two adult double-headed adders.

Although the live camera uses the latest federal capturing technology, there are some subtle things that cant be seen only by watching the playback, and he can control the scene, at least forcing Wei San to take action. So Ying Xingjue decided to stay around to see the reaction of Wei San with his own eyes and verify whether her perception level is 3S.

The only thing that was unexpected was that the three two-headed adders in the desert arena were all dissimilated star beasts. The young two-headed adders did not show up, but the adult female and male two-headed adders exceeded 3S.

When arriving near the terminal from Damocles Military Academy, two adult two-headed adders were close to snooping. Except for him, no one on the scene found him, only Wei San noticed.

With this in mind, Ying Xingjues fingertip on his knee couldnt help moving. He couldnt figure out the reaction of Wei San at that time.

Since he knew that there was a distance between the two male and female double-headed adders, Wei San should also know that even if she suddenly attacked, the main members would not be injured.

If Damocles Military Academy intends to hide the trump card of Wei San, why would she easily reveal her perceptual sensitivity?

I didnt expect that Damocles Military Academy had so much in mind this year. After a sneer, the lead teacher nodded to Ying Xingjue. Fortunately, their intentions are now exposed. Xingjue, you have done a good job.

Ying Xingjue never said anything. He was thinking about what he had left out.

In the field, the students of the four military academies fell into combat.

Chapter 225

The two military academies of South Percy and Samuel are fighting against each other, while Pingtong Academy and Damocles are fighting with the two-headed adders.

After Wei San discovered the adult female two-headed adder at the beginning, Huo Xuanshan and Liao Runing both rushed to the scene at the first movement. Meanwhile, Zongzheng Yue and Xiao Jiuqing from Pingtong Academy dealt together with the male two-headed adder.

Huo Zian of Pingtong Academy came out empty. He rushed to the destination while Shen Tukun rushed to stop him.

Although the goal is third place, no one is willing to give up the chance to compete for second place.

However, Shen Tukun is only a double S class, while Huo Zian is a 3S class. The gap between the two is obvious.

The chief of South Percy was cut off by Samuels main force. Only Damocles has one more head soldier than other military academies at present. Wei San chose to help Shen Tukun, the senior student, and dragged Huo Zian of Pingtong Academy.

The commander is protecting the mecha against the dissimilated two-headed adder. The mecha of several mecha engineers are mostly defensive, so they can only wait and see. Now there are no main members to break free, becoming a battle between Pingtong Academy and Damocles Academy.

Like Huo Jian of the Imperial Academy, Huo Zian drives a heavy mecha, but he uses a knife.

Huang Quanqi.

Shen Tukun has participated in three sessions of the Hephaestus competition, and competed against the 3S grade mecha soldier, but Wei San has not. She has only dealt with the people who drive A-grade mechas. Even if the other party is S-grade, they still only use the A-grade mecha.

This is the first time that Wei San has witnessed the battle between S grades, and now she has to join in.

She drove Blood Drop not far away and tried to attack with bullets. The usual standard shooting was completely useless against Huo Zian. The other side can easily escape. Linear bullets are still useless, on the contrary she can't escape his knife.

Huo Zian just needs to chop it gently. The blade didn't even touch the bullet, but it was just the evil spirit of the knife, and all the bullets burst in the air.

Wei San: Was 3S so great?

Seeing that all her bullets were blown up, if she didn't hide quickly, she would be scratched by the fragments of the exploded bullets. Wei San had to admit that the 3S grade is great.

There is no time to delay now. Once the main force of Pingtong Academy or the school team is free, they will go to the terminal and pull the flag, and second place will disappear.

Shen Tukun and Wei San joined forces to resist Huo Zian and guarded the way to the end.

Huo Zian and Huo Jian are equally reticent and won't miss every move. In just one minute, Shen Tukun's mecha had a deep hole cut in. With her excellent sharpness, Wei San could escape Huo Zian's knife, but she failed to block his way.

The two combined forces, yet Huo Zian still advanced 100 meters towards the finish line.

Seeing Shen Tukun and Wei San once again blocking his way, Huo Zian controlled his mecha to hover and stop, holding Huang Quanqi in front of him. Suddenly, he moved.

Wei San didn't even see his movements clearly. She just subconsciously realized that there was danger on her right side of the body and turned quickly. However, her right arm was still cut deep and almost half broken. The other half of Shen Tukun was kicked off by Huo Zian and smashed on the yellow sand.

Wei San's mecha was broken, and she couldn't even get angry, because Huo Zian started to move forward after breaking them both.

She quickly manipulated the mecha and attacked him on the back.

Huo Zian turned around in an instant, and Huang Quanqi stabbed at Wei San. At this time, Wei San was ready and sidled away. Huo Zian looked at her like looking at a disturbing fly. He stopped and spit out two words: seeking death.

No matter what happens to the chief of Damocles, those who hinder him from raising the flag now have to be eliminated.

Shen Tukun at the other end saw this and wanted to run towards the end. Huo Zian threw his own Huang Quanqi back and stabbed Shen Tukun in the back.

Shen Tukun had no choice, and could only escape.

Wei San hasn't responded yet while standing in place. She just felt a whirlwind.

It turned out that Huo Zian was throwing his Huang Quanqi when he quickly approached Wei San and turned around and kicked her in the direction of Shen Tukun.

Wei San was so shocked that she vomited blood. She didn't have time to wipe it. She immediately manipulated Blood Drop to get up. At this time, Huo Zian came to them.

They were getting closer to the finish line.

Wei San turned her head and looked back. The flags seemed to be within reach.

Senior, you must drag Huo Zian. Wei San whispered from the cabin of her mecha.

Wei San controlled Blood Drop to run to Huo Zian at the limit speed of the nexus, pulled out her light knife and cut it at Huo Zian's head and neck.

You can't measure your strength, Huo Zian said coldly, and then waved Huang Quanqi to resist.

Wei San had already expected her knife to be cut, a grade A lightsaber and a grade 3S weapon with a name. The result of the match can be imagined.

So when she waved her knife halfway, she drew back her strength and thrust it low at Huo Zian's chest.

Chapter 226

Was Class 3S mecha capable of being pierced by grade A weapons? Huo Zian thought coldly that Damocles has always been full of people acting beyond their own measure.

However, in the next second Huo Zian noticed something strange. He looked down at his chest and was stunned: this Wei San's knife split in half, and suddenly an electric drill bit burst out and rotated at a high speed.

This weapon is useless against him, but it is ugly and weird.

Huo Zian is rarely surprised. Wei San seized this opportunity to close the gap between them and make it impossible for his Huang Quanqi to work.

I said this before Huo Zian recalled himself and said coldly, Dont bite off more than you can chew!

He bent his knee up and tried to pry away Wei San.

Wei San also bent her knees, as if to fight against him hard.

Puchi

Huo Zian felt that something had been inserted into his knee.

In the mecha cabin, Wei san smiled. She installed two modified carbon knives on her two knees. The modified light knives were also designed to deal with chief soldiers. Who knows that the chief soldiers in the four military academies are so useless and she hasnt been able to use them.

It is reasonable to say that she can't pierce the 3S mecha with a carbon knife at all, but on the contrary, the 3S mecha hitting itself is different. Huo Zian used too much force, curled up and kicked her, hit the carbon knife that bounced out of her knee, and directly inserted himself on it.

This is not the end. Once inserted, the carbon blade will explode in three seconds.

Huo Zian frowned, unwilling to tangle with her again, and cut away at the waist of Wei San.

Wei San twisted and threw the light knife at Huo Zian. Seeing that she still wanted to resist, he flew up and kicked Blood Drop in the chest.

Blood Drop was already close to being cut off, and with his kick, Huo Zian is sure that Wei San's mecha will be scrapped.

From Wei San to Huo Zian, to her mecha flying out in almost two pieces, it was only in the blink of an eye. Shen Tukun didn't have time to look at Wei San at the end of the line. He had to hang on to Huo Zian, hoping that someone at Damocles Military Academy would be free to pull the flag.

In addition to the annoying Damocles chief soldier, there is still a double-S single soldier left. Huo Zian closed his eyes slightly, opened his eyes the next second, and gripped Huang Quanqi.

That is

Huo Zians momentum disappeared and he stared at the terminal. His pupils shrank. He subconsciously wanted to run to the terminal, but his knee suddenly exploded.

[Congratulations to Damocles Military Academy for successfully reaching the destination and completing the task.]

As soon as the broadcast came out, both the live broadcast and the four military academies were stunned.

When Zongzheng Yue heard the broadcast, his eyes flashed, and he flew straight up and cut off the head of the two-headed adder, then turned and ran to the end.

At this moment, Damocles also successfully solved the female two-headed adder.

In and out of the live broadcast and in the competition, everyones eyes are on the person standing on the terminal.

Wei Sans face and chest were covered with blood, but she held a flag of Damocles tightly in her hand.

The second place is our Damocles, Wei San declared to Huo Zian, who was not far away. The mottled blood on her face could not hide her smile.

Zong Zhengyue from Pingtong Academy arrived, and Huo Zian looked ugly next to him. He stared at Wei San on the platform: The system calculation is wrong, and your mecha has been scrapped.

According to the rules of the competition, once her mecha is scrapped, she will be eliminated immediately.

Since she is eliminated out of the game, the flag she pulled does not count.

Wei Sans eyebrows looked very bright in the sunset. She raised her lips and said, How do you know my mecha is scrapped?

Zongzheng Yue raised Blood Drop buried in the yellow sand, which was almost broken in two on the ground. Its energy lamp was still on.

When Huo Zian saw the energy lamp, his pupils shrank, he had obviously not right, at the moment of being kicked away, Blood Drop fell straight down, and he did not see the energy lamp go out.

Ge zhu

Zong Zhengyue raised his hand and signaled that he didn't have to speak. He flew the mecha to the platform, pulled down the flag of Pingtong Academy, and won third place in the desert competition.

[Congratulations to Pingtong Academy for successfully reaching the destination and completing the task.]

It was stipulated in the competition that once the flag was pulled, the members of the military academy who completed the task must stop immediately, unless they were fighting against the star beast, but the star beast that was killed after the flag was pulled could not be included in the results and could not be exchanged for resources.

You are very good. Zong Zhengyue came out of his mecha and said coldly, holding a long gun.

Wei San couldn't help coughing up a mouthful of blood. She couldn't support herself anymore. She sat down directly on the platform. However, she never lost in terms of momentum. She looked up and said, I also think I'm very good. Thank you this brother for your praise.

Zong Zhengyue did not play lip games with others, and brought his other people from Pingtong Academy to ride on the aircraft and leave the competition.

Live broadcast.

Did you just notice how Wei San passed? Xi Haotian asked Yu Tianhe.

No, I was just staring at Zong Zhengyue just now. Yu Tianhe stared at the team of Damocles Military Academy that began to come back in the camera. Huo Zian did it neatly, but Wei San just tried her best to avoid the energy, which could be delayed for at least one minute.

This minute is strictly no different to Blood Drop. It has no combat capability and will be automatically scrapped after one minute.

At this time, the mecha soldier will basically wait for it to be scrapped. Who would have thought that Wei San would escape from the mecha cabin and rush to the terminal.

The more the mecha soldier fits in with the mecha, the more they will feel that the mecha is themselves. In that minute, the mecha is broken and cut off by the waist. The perception will cause an illusion to the soldier, and their body will be cut off like the mecha. In addition, Huo Zians foot was aimed right in the chest, and the place where he kicked was the position of the mecha cabin.

Wei Sans spirit and body were absolutely damaged.

Under such circumstances, Huo Zian allowed Wei San to fall within 50 meters of the terminal at will, which was quite normal.

Who could have expected that Wei San could climb out of the cabin in that minute, and even have the strength to pull the flag at the terminal.

They have to say that so far, she is the most impressive member in the two competitions.

There was some doubt before, but now it seems that Wei San is really a trump card in the hands of Damocles Military Academy. Xi Haotian looked at Damocles Military Academy.

Although it is not clear why Wei San should be exposed so early, it seems the other main members were not very surprised. The leading teacher, Xiang Minghua, also looks relaxed. Damocles Military Academy should be well planned.

Lets go and pick them up. Xiang Minghua shouted to other teachers to go to the exit. Who could have thought that Damocles Military Academy could get second place in this competition?

Ha ha ha ha ha!

Xiang Minghua laughed in his heart and kept calm on the surface.

When Wei San comes back, he must take her to have a thorough examination. What is the situation of this prickly thorn? Has she hidden from the school all this time or what?

The teams exiting must leave based on ranking. The team of Damocles Military Academy walked in front of the Pingtong Academy. As soon as they came out, Xiang Minghua could not wait to wave to Jin Ke and Wei San and them and said, Here, here.

Chapter 228

Wei San held a nutrient solution in her hand and was held by Ying Chenghe. Huo Xuanshan and Liao Runing are also injured. As for Jin Ke, as he was in a hurry, he tried to attack the female snake with perception. His perception is overused, and his face is not much better. He stood with Shen Tukun.

Obviously, the team of Damocles Military Academy was not in good spirits. Injured and hurt, those with perception were overused, only the mecha engineers were slightly better.

The media crowded in to interview the second place Damocles cadets.

How do you feel now, Wei San?

Wei San, are you the trump card hidden by Damocles Military Academy? Then why didnt you keep a low profile?

Wei San., Wei San!

The impact of various media and the flash of light made Wei San, who was not in good spirits, even more upset. She glanced at various media and took the microphone of Lanfa Media: Now I want to go back to take a bath, sleep and eat, as for why not act in a low key manner

Wei San looked at the male reporter who had satirized Damocles Military Academy on the Starnet before, and smiled: What does it matter to Sequoia Media?

As she spoke, Pingtong Academy had turned away from the exit and did not accept any media interviews.

At the end of the desert competition, none of the military academies except for Damocles felt happy.

Lanfa Media, which is responsible for the live broadcast of Damocles Military Academy, found that their subscription data for live broadcast continued to rise the next day, approaching the live subscription of Imperial Military Academy.

Live broadcast playback has reached an incredible number.

Once you click in, if you don't turn off the bullet screen, you won't see the live content at all.

[Jumping back and forth between the Imperial Military Academy and the Damocles Military Academy, I want to ask Ying Xingjue whether he calculated everything?]

[It is not surprising that he has calculated everything. Ying Xingjue will be the strongest commander in the Federation in the future. Otherwise, why were so many schools and the number of rescuers doubled, all of them are transferred from the military regions.]

[Is it only me who is interested in Wei San? I have never seen such a roguish soldier! Suddenly I have a crush on her. Wuwuwu, I'm not normal.]

[In the two games, Wei San was roguish from the beginning to the end. This time, she could still let Pingtong Academy suffer. It was really awesome.]

[I heard from a source on the live broadcast that said Wei San seemed to be the trump card hidden by Damocles Military Academy, and that all members of Damocles Military Academy were also 3S.]

[In this way, South Percy and Samuel have almost no chance. The top three can only be in these three military academies.]

[Not necessarily. It depends on the main commander.]

[If I had known that the champion would be in Damocles, I wouldve bet on them, Wei Sans roguishness has already made Samuel lose. I feel that the next target is the Imperial Military Academy.]

[Surprisingly, I bet on Imperial, they wont lose then right?]

[Impossible, with Ying Xingjue present, the Imperial Military Academy will absolutely defend its title.]

A military district hospital on Sadu star.

Have you bet who is the champion of this competition? Jin Ke asked Wei San on the bench quietly.

The total champion bet only before the start of the competition, and in the later stage, it is bet before each match.

Wei San answered, as it should go without saying, Bet, our Damocles Military Academy.

I also bet on our school. Liao Runing, leaning against the wall, said with his arm in his arms.

Jin Ke turned to look at Liao Runing with no expression on his face. He whispered to Wei San as he didn't want to be heard by the people around him. This one was great, he spoke out in a loud voice.

I didn't ask you!

Liao Runing shook his legs and said, This young master just wants to say it.

I bet on Damocles, Huo Xuanshan also declared, leaning against the other wall.

Ying Chenghe, who sat on the left of Wei San, reluctantly looked away from the live broadcast on the light brain and said, If you don't bet on your school, then who would you bet on?

Someone may have bet on someone else's school. Wei San glanced at Jin Ke on the right.

Jin Ke: I have bet on all five military academies. This is called risk diversification.

Which military academy did you bet on the most? Wei San asked him.

Jin Ke hesitated and looked up at the ceiling of the hospital corridor: Imp Imperial Military Academy.

Chapter 229

Wei San: Che.

Ying Chenghe: Che.

Liao Runing, who was looking at Jin Ke, immediately gave him a thumbs up and then turned it 180 degrees down: Its not young master ranting, we are not betting on money, but a belief. People like you are simply

Huo Xuanshan chimed in: If Imperial wins, remember to invite us to dinner with that money.

Liao Runing turned his thumb back up and said, You cant put eggs in one basket. You are right to do so.

Wei San immediately changed her tune: A commander sure is different, you are more considerate in all aspects.

Ying Chenghe agreed and nodded: Yes, otherwise why would he be the commander?

Jin Ke: What happened to your backbone just now?

The opposite door opened, and the doctor in a white coat signaled for Wei San to come in.

Wei San walked to the door, then turned to the opposite corridor. All four people stood there looking at her.

It won't take too long, it's just re-testing your perception. The doctor comforted, I have seen you compete, you don't seem like a coward.

Wei San followed the doctor into the examination room and made sure that the four people in the corridor could not hear her. Then she said, I just want to rip them off, that way, they will definitely invite me to dinner later.

Doctor: It seems that she is the same both inside and outside the competition.

Stand in this orange circle, look at this instrument with your eyes, put your hands under the coffee table, and release all your senses, just like when you control a mecha. The doctor elaborated the movements carefully.

The instrument used to test perception looks very different from the original one used on star 3212 . The only similarity is probably the color and the need to wear a helmet when testing.

Wei San did as he said, and the orange of the instrument began to rise automatically, rising from the lowest level all the way up, and finally passed the S level under the doctor's eyes.

Then it stopped moving.

Doctor: Is this the limit of your normal release of perception?

Wei San thought for a moment and then nodded.

A little doubt flashed in the doctors eyes. Finally, he asked her to come down and stand up again to test again. The result was still grade S.

That wasnt right, didnt the school say she was 3S?

The doctor asked Wei San to wait here. He went out and called for the two soldiers accompanying him to come over.

You guys stand up and try.

Liao Runing and Huo Xuanshan stood up, and the orange light spot of the instrument rose to the highest point of 3S.

There is no problem with the instrument. Are you sure you have used all your senses? The

doctor asked Wei San, Can you let these light spots rise?

Wei San stood up and tried again: Cannot

The doctor frowned: This way, Ill write the prescription and apply for a physical examination. Your situation is a little strange.

Wei San can only come out with them and wait in the corridor again.

Li Ze and Xiang Minghua, who received the news on the other end, rushed over.

Do a whole body physical examination? Li Ze asked the doctor, She still needs training.

The doctor nodded: Dont worry. Now that the federal government has developed new technology, it will not delay her future training.

Chapter 230

The doctor said that a physical examination would take a whole day. Rather than simply testing perception. The others were called back to training by Xiang Minghua.

Wei San laid down according to the doctors instructions and was sent to a place similar to a brain CT scan, but the doctor was nearby, with Li Ze and Xiang Minghua standing outside looking on.

Normally, there will be no problem with the instrument. The doctor placed a transparent panel in front of her, and after he clicked a few times on it, Wei San was sent in, with only a white curved metal top visible. I heard from your teacher that you may be a 3S grade soldier, but the instrument cannot detect it now. There may only be a problem with your body.

Wei San stared at the metal top and suddenly a round object protruded from her left side, hanging over her eyes.

Dont worry, this is just to test your eyesight. take it easy and look at it. The doctor was debugging the instrument, Grade A, Unknown Starthe instrument wouldnt be the same as todays instrument when you tested right?

Wei San blinked her eyes, En..

Unknown Stars equipment is backward. What is the maximum scale on your instrument? the doctor asked.

Grade A, replied Wei San.

Grade A thats the first generation of testing instruments. The doctor used to be accustomed to this kind of thing. There are many cases where unknown stars use obsolete testing instruments, but generally there will be no problems. The probability of unknown stars becoming Grade A is not high, and the use

of second-generation obsolete instruments is sufficient. However, he didnt expect that there are still unknown stars using first-generation obsolete instruments now.

Your star looks poorer than any other unknown star. The doctor shook his head and pressed a few buttons on the panel. Sitting inside, Wei San suddenly felt her limbs become fixed.

This examination procedure alone would take two hours, during which the doctor stood outside and kept banging away. Every time Wei San tried to sleep, the other partys magic sound came over, and she could only forcibly open her eyes.

Wei San: do you have few opportunities to talk to people during your work time?

The doctor stood outside with a glass in his hand and said, Thats not quite true, but you cant sleep now.

He reached out and pressed the red button outside, and Wei San was pulled out.

Wei San stood up and pointed to the various threads on his finger. Can these things be pulled out yet?

It can. The doctor was waiting for the panel to produce a result. He looked up and drank some water to moisten his throat. Then, looking at the physical examination results, he choked on the water he hadnt swallowed. Keke

Standing in the outer room, Li Ze picked up the earphone and reached out to knock on the glass. What was the result?

The doctor put down the water glass and asked Wei San to go out with him.

The data still needs to be compared and further tested, but the physical test results have been obtained. The doctor looked at Wei San with a strange expression and said, Chronic malnutrition.

Xiang Minghua: ?

What is chronic malnutrition? Xiang Minghua simply doesn't understand why the term appeared applying to a federal military school student. Nowadays, nutrition liquid is cheap, and ordinary people can supplement basic elements without eating or drinking it.

It's just that the body hasn't been receiving enough nutrition for a long time, which is her body data over the years. The doctor pulled out the optical brain data, and a graph immediately appeared on the transparent panel. This black curve is hers, and the blue curve is for normal people. The horizontal axis is age, and the vertical axis is nutritional percentage.

The black curve has been lower than the average person from the beginning, with a concave curve at the age of seven, then rising a bit, and then falling to an incredibly low level between the ages of twelve and fourteen during the developmental period. Later, it slowly rose, but it was still lower than the average person today.

Xiang Minghua looked at the shocking curve and turned his head to look at Wei San. How have you been living through these years? What have you been doing?
