

Smash All 301

Chapter 301

Most people at the Imperial Academy were angry, no one had ever dared to step on their heads. Even Pingtong Academy dared not directly say such provocative words.

Ying Xingjue was never affected. Looking into the distance, he said, Two thirds of the star beasts killed by Damocles Military Academy will be given to Imperial. I will now pull up the flag. Damocles is in second place.

Wei San sneered coldly, You want to take two-thirds of the resources, and let us pull out the flag in second place? Dont pull out the flag, lets pull out our swords instead.

Ying Xingjue withdrew his gaze and looked quietly at Wei San, as if waiting for something.

[Wei San, reduce the quantity to one-third and promise him.]

Jin Kes voice echoed in her mind.

The words just made by Ying Xingjue were actually perceived and spoken to Jin Ke in the distance.

Wei San: Do you commanders like to play this game?

Now there are only two soldiers here, are you this sure you can win? Wei San took a step forward, speaking to Ying Xingjue.

Tai Wude in the back: is he not a person? Are there so many soldiers behind him who are not human? Wei San is not good at math.

[Even if there are no soldiers here, I can still win.]

Ying Xingjues voice suddenly appeared in Wei Sans mind, ignoring her perceptual barrier.

Unlike the familiar Jin Ke, Wei Sans face suddenly sank when she heard Ying Xingjues voice: Ying Xingjue, this is the last time.

Unless teammates have received training or their command perception is lower than that of mecha soldiers, and they cannot cause damage to them, mecha soldiers of the same level will reject their command perception the most.

If a peer commander invades the brain of a trained mecha soldier, it is highly likely to backfire, and a strong soldier can even trap the commander in their own brain.

Ying Xingjues perception no longer entered Wei Sans brain and he said in a low voice, You wont last long. I want star beasts to exchange for resources, and you need to raise your flag to go out. Jin Ke will agree with me.

One third.

Two thirds.

Wei San pressed her tongue against her teeth and tasted the faint smell of rust. She twisted her wrist and said, One third, if you dont agree. Ill take your imperial soldiers and die together.

Gong Yijue: These crazy people have gone crazy to the surface!

Ying Xingjue stared at Wei San for a long time. Since landing, she has not worn a mask and ignored the toxic air. All the emotions on her face can be clearly seen, which is enough to make people understand her determination.

A Super 3S player who has not yet grown up, with a determination to die, Ji Chuyu cannot gain any benefits from her, and may even reveal her identity.

To intimidate the undercurrent forces under the Federation, he alone is enough. The current Wei San is not qualified enough and will only bring about fatal consequences.

Ying Xingjue looked sideways at Ji Chuyu and said, Pull the flag.

Ji Chuyu has always listened to his command and did not hesitate to reach out and pull down the imperial flag upon hearing this.

Tai Wude from behind: they really believed it, Wei San was clearly acting.

Tai Wude looked up at the sky. Forget it. Anyway, whether Imperial or Damocles wins, he won't lose out.

[Congratulations to the Imperial Academy for successfully reaching the finish line.]

Wei San immediately went to the flag tower, pulled down the flag of Damocles and waited for the broadcast.

One minute has passed, two minutes have passed the broadcast delayed the sound of congratulations.

Wei San: ?

She looked up and shouted, Are you capable, hurry and send people down to carry us. Below, Liao Runing and Huo Xuanshan could hardly hold on.

The staff in charge of broadcasting looked back at the team leader and said, Do you want to respond?

Team leader: Ill contact someone outside to ask.

Wei San didnt know what was happening and couldnt wait anymore. She jumped downstairs and entered the mecha in mid air, running towards Jin Ke.

They have been surrounded by the star beasts, and the inner circle is still shrinking. She can only kill into the surroundings again.

Jin Ke saw Wei San rush down and shouted at her, Whats the situation?

As soon as the broadcast about the Imperial Academy was heard earlier, the two soldiers stopped and killed back. Jin Ke knew that the deal had been reached, but he had not heard the second one yet.

Pulled it out, no response. Wei San stared expressionlessly at the surrounding star beasts, her knife never empty once, and every wave bringing blood.

Is the instrument broken? Ying Chenghe spoke with an imperceptible urgency.

Chapter 302

Just now Imperials broadcast rang, it couldnt be that the instrument was broken. Jin Ke frowned and looked up at something high in the air. The situation is not right, and the people from the Imperial Military Academy havent been taken either.

They havent seen any trace of the aircraft from beginning to end.

Previously, the staff said that Yu Tianhe was going to get the shielding box. Jin Ke realized later, Its not the Yu family delivering it, Guyu Star to South Percy takes five days round trip. Yu Tianhe hasnt come back yet.

Ying Chenghe said, how many more days will we stay here?

They dont know the situation of the Yu family, and subconsciously think that when they reach the finish line, someone will come to pick them up after pulling out the flag. They can put the purple liquid mushroom in the shielding box, but now that Yu Tianhe hasnt arrived yet, it means they cant go out yet.

Chenghe, so far no one has come down to help. Jin Ke said, looking at the surrounding star beasts.

The situation is not right.

There are Damocles Military Academy leaders and teachers outside, who will fight for their interests. Now the radio is silent, and rescue workers are not coming down.

Theres no one at the Imperial Academy either. Ying Chenghe said in surprise as he noticed Huo Jian and Situ Jia, who were gradually surrounded by star beasts on the other end.

After successfully raising the flag, if the team is still facing the star beast, they will send someone to come down and kill the star beast, and then pick up the students as soon as possible.

But no one came to pick them up.

The leader teacher of Damocles Military Academy may be weak, but it is totally unreasonable that the Imperial Academy teachers outside do not strive for reasonable interests for the students.

Either somethings going on outside. Jin Ke whispered, or theres a big shot coming forward.

Only one person can silence all military school teachers.

Whats the matter? Where are the rescuers? Situ Jia started waiting for someone to come after hearing the broadcast, but until now, no one has appeared.

Huo Jian looked towards the building, as if both Ji Chuyu and Ying Xingjue were standing on the edge of the top floor, looking towards them.

Why hasnt the aircraft come down yet? Gong Yijue looked up at the sky. Forget about Damocles Military Academy without broadcasting. What happened to them.

At this moment, the broadcast suddenly sounded: [As Damocles Military Academy found special materials, the materials smell abnormal, which can lead to star beast riots, and the exit is temporarily

closed. Please wait a moment after pulling the flag, as a compensation, before the exit opens, you can kill star beasts, which can be included in the exchange.]

So why did Damocles pull out the flag and it was not broadcast?

Ying Xingjue looked far away, and the number of star beasts was still increasing. He slowly said: The Marshal came out, and this ranking of Damocles Military Academy will be invalid.

Marshal? Ji Chuyu was stunned, wondering what materials would make his uncle appear. He had previously appeared on the Imperial Capital Star because there were too many 3S in the main teams of the five military academies this year.

The information revealed by this broadcast is very interesting. It was caused by Damocles Military Academy, and special materials were found on them, so it can always attract star beasts. Other military academies can't get out for the time being. After pulling out the flag, you can count the number of star beasts killed.

In the following moment, other military academies can choose to take a detour, first pull out the flag, and then hang around killing star beasts on the edge. As for Damocles

Suddenly, Ying Xingjue seemed to sense something and looked towards Wei San in the star beast tide.

Chapter 303

For a moment, Ying Xingjue sensed that Wei San's perception overflowed again, but she quickly retracted it, which was a little better than the previous unscrupulous release of perception in the training room.

But with her crazy play, her perception will only get more and more stimulated.

Ying Xingjue stood on the top floor of the building, looking at the person in the star beast herd, she must not be exposed now.

Wei San!

Jin Ke looked at Wei San, who was slaughtering madly and losing any moves, and his heart was anxious. Before entering, the teacher asked him to look at Wei San, and not let her overdo it, now Wei San looks like she has lost her mind.

Her perception is not yet stable, and now she is forcibly ascending, doing all the harm and not any benefit.

Im fine. Wei San kept entering their inner circle before she spoke up, her voice was a little hoarse, First drag Imperial into the water, and the two mechas are over there alone.

Now the purple liquid mushroom that Jin Ke is carrying is the flag that directs the action of the star beast, and wherever he goes, the star beasts goes.

Liao Runing took a breath: Dont let any of them go, Ill go to the building later, I see which military school can get around us without moving my hands.

Lets go. Huo Xuanshan said directly, Pingtong Academy is behind, the next move is to drag them into the water.

Spectators outside the arena: Good guy, Marshal Jis calculations must have failed, Damocles Military Academy is going to pull all the military schools into the water and forcibly unite them.

Over there, Huo Jian was making a big killing move, Situ Jia was already about to rush out of the star beast circle, Wei San suddenly frantically took Jin Ke to kill, Liao Runing and Huo Xuanshan opened a way on both sides, and the star beasts behind suddenly surrounded them.

Situ Jia couldnt even maintain the demeanor of the children from the family, cursing, he liked to kill star beasts to accumulate resources, but not like this with all of these dense high-level star beasts surrounding him.

Do you want to go down? Ji Chuyu asked.

Ying Xingjue lowered his eyes and hid the look in his eyes: Go.

The Imperial Military Academy team was in a fighting state and rushed towards them.

Ying Xingjue stood in the front, Ji Chuyu stood on his left, and the school team was behind him. The star beast sensed that there was someone behind and wanted to attack the leader, but it didnt even have a chance to move, and it was directly perceived to attack the brain.

The imperial school team gradually expands its range, and everyone is directly controlled by Ying Xingjue, whether it is a commander or a mecha soldier, they are like an elastic pocket, one will open, expand their range, and the other will tighten, strangle a small number of star beasts in a unified manner.

As for Ji Chuyu, he harvested 3S-level star beasts in the surrounding area.

They're coming. Huo Xuanshan had been dealing with the flying star beast in mid-air, and he could see the speed of the imperial military academy at a glance.

If nothing else, just based on command, Ying Xingjue is indeed beyond the 3S command grade, far beyond the command of other military schools.

Wei San held the knife in both hands, and the more star beast she killed, the more white frost on her knife handle became, and even brought cold air when she swung the knife.

But at this time, it began to rain again, and no one could see the strange appearance of her knife in the rain.

Ying Chenghe stared at the data of the control panel, his heart beat hard, and Xumi Gold really had the rumored growth. Wei Sans knife was used too hard, and the data already showed signs of fluctuations.

At the same time, Wei San was also adapting to Zhu Qian at great speed, it was unknown if it was because of Wei Sans high perception level, or because she was also a quasi-mecha master, but she adapted to this mecha too quickly.

It seems to others that her moves are getting more and more chaotic and she has lost her cool, but Ying Chenghe has always had the data of Wei Sans mecha, and it can be compared and found that Wei Sans every move is testing the limits of the mecha.

He looked at the red Zhu Xuan mecha outside through the window of the mecha, daring to test the mecha on this occasion, he was afraid that only Wei San alone would commit such an act.

The school team is coming. Jin Ke suddenly said.

Chapter 304

The others were stunned, and Liao Runing cut off an S-grade star beast close to Jin Ke: Why did they arrive so quickly? Counting the time, the school team will arrive at least one day later.

Before leaving, Jin Ke ordered them not to move forward in the mecha state, in order to save energy and avoid the star beast tide. Of course, now the plan failed, no one expected that the exit would be blocked, and their pulling of the flag was invalid.

Since you are here, you will enter the war. Huo Xuanshan looked into the distance, and he couldnt see the school team, The opportunity is rare.

They cant see the situation of the school team, but the audience can choose the camera to watch, since the Damocles school team separated from the main team, Shen Tukun did not go step by step, but took them to follow the single S-class star beast, all the commanders colluded, although there was no main

commander coordination, but a thousand people to deal with a few S-class star beasts, it was not too difficult.

Shen Tukun led the school team to deal with the star beast to exchange energy, and then turned on the flight state to advance, ran out of energy, and then continued to fight. Battling all the way, exchange all the way, not consuming resources for two rounds.

He is too comfortable with this predicament, and there are many old school members in this school team, gritting their teeth. In order to arrive as soon as possible and join the main team, if Wei San they can pull the flag, it was the best, but if she cannot, the rear rushed to the school team support.

The true spirit of Damocles is vividly embodied at this moment.

Ying Xingjue led the imperial team to travel extremely fast, and soon converged with Situ Jia and Huo Jian, and there were Wei San and others in the inner circle.

Wei San looked at Ji Chuyu dashing and sprinkling the star beast next to her, and she was jealous: his mecha looked oily and slippery.

She was jealous, and the strength of her knives invisibly increased, and the star beast next to her faintly retreated.

The people of Pingtong Academy are going to go around. Ying Chenghe found that the main team of the Pingtong Academy behind was about to kill a road out, Samuel Military Academy and South Perct have arrived, only their main teams.

Jin Ke looked towards Ying Xingjue, this was the first time that the two main commanders had met in the arena.

There are so many star beasts, why not call them to come in and play together? Jin Ke said to Ying Xingjue, With so many people, the pressure can be reduced a lot, and it is convenient for you to get resources.

Ying Xingjue stretched out his hand and directly used his perception to strike back at a high-level star beast that swooped down from the sky. That star beast didnt even have time to howl, fell straight down, and smashed heavily on the star beast below, bringing a small burst of star beast commotion.

Jin Ke:

Is the super 3S command amazing? But Its kind of awesome.

Ying Xingjue swept around the members of the empire and found that no one had expressed resistance to Jin Kes suggestion, and even the captain of the school team had already rushed behind Wei San.

All military schools in the arena are enemies and can also be cooperatives.

Now that the first place has been obtained by Imperial, there is still a chance to continue to accumulate resources, and it seems that it is not impossible to stir up the troubled waters.

And as Jin Ke said, pull in other military schools, so many 3S soldiers, whether it is the Damocles Military Academy or the Imperial Military Academy, the pressure will suddenly decrease, especially since the Imperial Military Academy is currently the only team with a school team on the scene, and there are more star beasts that can be captured.

ok. Ying Xingjue agreed.

Imperial Military Academy and the Damocles Military Academy joined hands and ran towards the end point, with Jin Ke there, the star beast suddenly began to rush towards the end point.

The speed of the main team of the Pingtong Academy became slower and slower, and they were finally dragged down by the star beast.

Damocles Military Academy affects all military schools, and you still want to help them? Lu Shibai turned around and asked Ying Xingjue from not far away.

Friend, you cant speak like that. Wei Sans speed of slaying the star beast not only did not slow down with time, but faintly increased, and she took the lead behind the Pingtong Academy, We have brought you endless resources.

Lu Shibai..Lu Mo never thought that one day there would be people like you at the Damocles Military Academy.

There is only one signal all over her body ruffian.

Failure. Wei San shouted cordially, People like me are the most annoyed by people who pretend like you.

Lu Shibai didnt talk to Wei San again, who expected that she held a big knife and stabbed it into the neck of the star beast on his left, and the blood bought out by the knife splashed on his mecha, and even stained his window.

What to do? Wei San sighed exaggeratedly, People like me saved people like you.

Lu Shibai: I have boundaries, I dont need you to save me.

The boundary is a protective mecha made for them by Ji Jian, a mecha master of the Pingtong Academy.

Chapter 305

As Jin Ke approached with the purple liquor mushroom, Pingtong Academy was forced to fall into the mud and deal with the surrounding star beasts with them.

On the left side of Wei San stood Liao Runing, and on the right was Zongzheng Yue, she turned her head and looked to the right: In fact, you dont have to be in a hurry, you didnt go up and take off the flag, we just took it back, the trigger over there is broken, there is no movement after the broadcast of the imperial military academy, and if you go, itll be the same.

Wasnt Damocles Military Academy punished? Lu Shibai sneered, Im afraid that your ranking is invalid this time.

They all were not fools, now the exits are closed. They were not letting the flag picking military academies go out, there must be military outside, the only thing that can make the leader of the imperial military academies quiet is Marshal Ji.

Wei San sighed, the current people are too sophisticated, and were not easy to cheat at all.

The people of South Percy over there are going up. Jin Ke continued to lobby, Our ranking may be invalidated, do we want to let other military schools rush ahead of Pingtong Academy? It is better for everyone to accumulate resources together.

After a moment of silence, Pingtong Academy joined the two military schools.

South Percy Military Academy that was blocked successively and Samuel Military Academy who wanted to pick up the leaks: . Damn, a bunch of neurotics!

Spectators outside the arena: Is it about to start? The five military schools Blind Date and Love cooperation.

With so many 3S in the circle, the pressure on Liao Runing and Huo Xuanshans shoulders was loosened, and Ying Chenghe took this opportunity to help them repair the key parts of the mecha damage.

There was no one next to him to distract him, and they were all high-level star beasts, and Wei San was a little red-eyed, and she could only see the star beasts around him.

Jin Ke kept staring at her state, and was about to give a reminder when Ying Xingjue went around towards Wei San, sensing and destroying two 3S high-level star beasts, and the Imperial school team also began to tighten towards that side.

Seeing Wei Sans state turn around, Jin Ke quietly breathed a sigh of relief, fortunately, Ying Xing decided to pick a 3S-grade high-level star beast to deal with.

[Wei San, you go receive the school team, senior and them have arrived.

Jin Kes voice sounded in Wei Sans mind, she turned her head to look back, Damocles school team was already approaching the tail of the star beast tide, they stopped there for a while, and then began to detour, wanting to surround from the side.

The school team only has a double S-grade soldier, and the mecha is still A-grade, at this time, the main members need to be guarded, and only with the main command unified formation could they play out the best effect.

Like the Imperial Military Academy now, relying on the main team to solve the double-S grade and above high-grade star beasts, the school team is responsible for strangling other star beasts and expanding the battle territory.

Jin Ke instantly colluded with all the commanders of the Damocles Military Academy, controlling them like a sharp sword to break through the tide of stars and beasts, and quickly converged in the direction of Wei San.

The commanders ability to control the field began to manifest.

Chapter 306

If the three main teams soldiers were the knife blade, the school team is more like a weapon that can be transformed at any time in the hands of the main commander.

At this moment, the Imperial school team is like a flexible shrinking pocket, constantly carrying out the action of strangling star beasts, and groups of people make up for it, but all the surrounded star beasts can no longer come out. The Damocles school team, under the command of Jin Ke, was like a long knife, directly tearing a hole from the side, and constantly approaching the main team.

Wei Sans role is to clean up the 3S-level star beasts around Damocles school team and clear the way for them.

The school team is more to deal with S-class star beasts, and the star beasts further up are handed over to the main team.

Although the high-level star beasts of the Gu Yu arena have all gathered, some of the 3S-level star beasts have been circling around and have not approached, and they want to wait for these human strength to run out before they start to move.

The people of the five military academies also couldnt care about the shrewd 3S star beasts squatting down, the main team of the Imperial Military Academy specially picked the nearby 3S star beasts, and

the other three military schools now just wanted to pull out the flag, and they didn't see Imperial's behavior of grabbing resources. They just maintained their physical strength to rush out.

Can you stop following so closely? Shaw Eli of Samuel Military Academy shouted at Jin Ke, Let's go and pull the flag first, we will definitely come down later and help you fight these star beasts together?

What was this world?

Shaw Eli felt that he had not had a smooth life since stepping into the Imperial capital's star port, first he was beaten by a school team commander of Damocles. He thought of regaining face on the arena, but it dragged down Samuel Military Academy, and his teammates had opinions about him as soon as he came out. Behind the united Pingtong Academy, they actually lost, good guy, that Wei San was actually a 3S-class soldier, and ran to act as an A-grade school soldier.

After Wei San recovered into her status as a 3S mecha soldier, Xiao Eli knew that his slap would not be avenged.

Now the three military academies have been dragged down by the Damocles Military Academy, and their main commander has squeezed towards Samuel's side, and the star beasts have all rushed over.

Jin Ke grinned in the mecha cabin, right now he was the most annoying person in the audience, and everyone wanted to avoid him.

Jin Ke ran everywhere, except for not being close to the members of the Damocles Military Academy, he was wet with rain and dew on other military schools, and he ran wherever the pressure on the side of the military school was small.

Shaw Eli saw that Jin Ke was still squeezing towards him, his face darkened, he swept to the side and began to squeeze towards Wei San.

Since Jin Ke wanted to get close to him, then he will get close to the people of the Damocles Military Academy.

Go stop those people! Shaw Eli suddenly noticed that the school team of the Pingtong Academy had appeared, and wanted to secretly pick up the flag, so he turned his head and shouted at Wei San, Let your main commander go over there and lead the star beast over. If this matter is not solved today, no one can go up and take off the flag!

Samuel does not get benefits, so other military schools should also not get benefits!

They themselves are close to the terminal building, and with a little movement, the school team of Pingtong Academy can be pulled into the battlefield.

It was not necessary for Shaw Eli to say anything as Jin Ke would pull them in.

The whole arena was chaotic, and the people outside looked at it, but their hearts fell slightly.

Although the tide of star beasts formed near the terminal building, the main members of the five military academies all went into the water to fight, and they were actually able to resist the star beasts for a while.

How long until Yu Tianhe arrives? Xiang Minghua couldn't hide his anxious question, now they can still resist the first resistance, but there are still so many 3S-level star beasts around who have not made a move, in case these star beasts join forces to deal with the students first, he was afraid that they will not be able to last a moment.

She has already begun to enter the Guyu Galaxy, and it will take a little time to arrive. Jie Yuman clasped his hands to his chest, They should be able to hold out until then.

As long as the surrounding 3S star beasts that can disrupt the current situation do not join in.

However, their fears eventually came true.

Chapter 307

The star beasts in the track gradually began to be impatient, and there were constantly howling star beasts, and the sound in the back field became louder and fiercer, and the surrounding 3S star beasts raised their heads and hissed as if in response.

The main members of the five military academies seemed to feel something, and they all began to gather, and the school offensive slowly contracted.

Sure enough, the surrounding 3S high-level star beasts, flying in the sky and running on the ground, all moved, no longer standing idly by, waiting for the prey to be weak, but chose to join forces to attack.

Liao Runing and Huo Xuanshan both returned to Jin Kes side, and Ying Chenghe stayed with Wei San and the school team and began to walk towards them.

These 3S high-level star beasts obviously had a target, and they are only targeting Jin Ke alone.

The main members of South Percy and Pingtong Academy quietly retreated, apparently still thinking about pulling out the flag. However, the nearest Samuel Military Academy did not leave immediately, and even Shaw Eli reminded Jin Ke that the people of the two military schools wanted to run and quickly move there.

However, this move is not easy to use against these 3S star beasts, and their goal is only oneJin Ke.

These 3S high-level star beasts will not take the initiative to attack the people around them at all, which gives other military schools the opportunity to withdraw.

Everyone will be a member of the military district in the future, contributing to the Federation, and it is too inhuman to abandon the Damocles Military Academy now. Shaw Eli said solemnly, Please let go of your prejudices and help them!

Everyone: ? ? ?

He said this as if it was not Samuel Military Academy who targeted Damocles Military Academy in the past, they were clearly the most ruthless, and always wanted the Damocles Military Academy team to be destroyed in the military academy in the arena, was it not Samuel?

After Shaw Eli finished speaking, the main members of Samuel Military Academy actually stayed behind to help Damocles Military Academy deal with the 3S high-level star beast.

The Imperial Military Academy next to them has not made any moves, they have already pulled out the flag, and now they only used accumulated resources, naturally picking high-level star beasts to deal with, and they also have not left.

The main members of the two military academies, Pingtong Academy and South Percy, hesitated slightly, and before they could make a decision, the radio sounded.

[Congratulations to Samuel Military Academy for successfully reaching the finish line.

The broadcast was not broken, this was the second broadcast sound that sounded at the Guyu arena for a team to reach the end.

Everyone looked up, the team of Samuel Military Academy actually went up around the back of the building, avoiding everyones gaze, and successfully pulled down Samuels military flag.

Jin Ke in the mecha cabin took a deep breath, sure enough, the ranking of the Damocles Military Academy should be nullified.

The people of Pingtong Academy and South Percy looked at each other, and they both chose to rush to the building, no longer dragged down by Damocles Military Academy.

Jin Ke also had no chance to drag them into the water, and all the surrounding 3S star beasts squeezed over, and the low-level star beasts even began to retreat.

Dont worry, well help you now. The scene took a sharp turn, and now it was Shaw Elis turn to smile at Jin Ke.

Samuel Military Academy pulled out the flag, and after getting the points, they only needed to kill the star beast and accumulate resources.

Such a rare opportunity can only be thanks to the sincere dedication of the Damocles Military Academy.

But as for where the 3S star beast is, of course, Samuel Military Academy will not rob against Damocles Military Academy, and it was enough to deal with the 3S star beasts on the edge.

There were too many 3S star beasts surging over at once, even if Imperial Military Academy and Samuel Military Academy shared the pressure on the side, those high-level star beasts targeted Jin Ke, Liao Runing and Huo Xuanshan, a little distance, and the other 3S-level high-level star beasts turned to attack Jin Ke.

Jin Ke relied on the undead turtle to block the attack of the 3S high-level star beast, but this could only provide temporary security.

Huo Xuanshans mecha already had large and small wounds around its wings, and it was still flying in mid-air, fighting against two 3S-level flying star beasts.

Liao Runing not only had to deal with the 3S high-level star beast on the ground, but also the flying star beast waiting for the opportunity to sneak attack.

These 3S high-level star beasts had been observing for so long, and they already knew which ones needed to be dealt with first, and the first ones they had to remove were Huo Xuanshan and Liao Runing.

Jin Ke in the mecha cabin closed his eyes slightly, he was looking for the state of attacking the star beast with perception before, he couldn't sit still.

This mysterious state, attacking the star beast with perception, needs to be perceived by oneself, no one can teach it, Jin Ke does not know if he can still find that feeling.

He is capturing his own perception and trying to change the state of perception.

Not a barrier, but the perception of being able to attack star beasts, Jin Ke kept sinking into his mind to recall that in his previous state, he wanted to attack those star beasts.

He found it!

Chapter 308

Jin Ke instantly opened his eyes, controlling the perception that could only set up a barrier, and changed into a trace of aggressive perception.

With just a little control, he immediately felt how intense the consumption of perception was, and the load brought by the perception attack was definitely multiplied compared to the barrier at hand.

Although the commander using the perception attack was extremely physically consuming, Jin Ke couldnt care too much, and opened his eyes to a flying 3S high-level star beast that sneaked up on Liao Runing.

One person and one beast froze, Jin Ke was attacking this star beast with perception, and the high-level flying star beast could also attack him with spiritual power, just to see who could survive first.

The pressure in Jin Kes brain increased suddenly, the whites of his eyes gradually climbed bloodshot, clenched his teeth, and controlled his perception like a needle, stabbing at the flying star beast.

The flying star beast flapped its wings, lowered its head and hissed at Jin Ke, and its spiritual power spread towards him with the sound wave.

Jin Ke didnt hold back in the end, spit out a mouthful of blood, felt a loose feeling, was stimulated by the spiritual power of the 3S high-level star beast, and even the perception barrier set up for the other members of Damocles almost dispersed.

Those 3S star beasts seized this opportunity and attacked Huo Xuanshan and Liao Runing from all sides at the same time, and the two mecha were quickly seriously injured, and their moves retreated again and again.

Wei San was still on the other side, and she couldn't catch up, and at this moment, she saw Huo Xuanshan in mid-air was grabbed by the 3S star beast below jumping up and pulling one leg, and the sharp claws of the flying star beasts on both sides grabbed his chest and back, and the 3S-level gray wolf behind Liao Runing opened his blood basin and mouth, and four fangs were exposed in the air and bit towards his head.

Wei San stopped running towards them, holding the fan-shaped knife with her folding hands together, the blade body was instantly elongated, the knife handle closed and popped out, returning to the original long knife handle thick knife body.

Without moving her feet, she held the long knife handle in both hands, and cut down a knife on the ground expressionlessly, from the handle of the knife to the blade body, a layer of white frost slowly formed.

With just this slash, it seems that nothing has been hit.

In the arena, starting from where she was standing, the knife fell in the direction, the ground gradually cracked, the mouth of the 3S gray wolf in that direction was still open towards Liao Runing, and the two flying star beasts in mid-air still stretched out their claws towards Huo Xuanshan.

Everyone in the star beast riot noticed it and turned their heads to look at her.

The originally noisy arena suddenly quieted down, and there was a silent and frozen atmosphere.

In the next second, the sharp claws of the two flying star beasts suddenly broke, and a scream came out of their mouths, which seemed to be a signal. In the arena, that direction is the center, and the ground is shaking.

The 3S-level giant gray wolf died with his mouth open, and his heart was shattered by Wei Sans knife.

Not only that, but the building that was exactly within the range of her knife was cut in half and slowly blasted to the end.

The Sakai Musashi from Pingtong Academy who was the first to rise into the air was injured by the knife, one metal wing fell in the air, he supported it with the other wing, turned his head to look at Wei San in the star beast tide, and even ignored the pain caused to him by the broken mecha wing, and his eyes were unbelieving.

The building collapsed, the flag platform naturally fell, and Yamamiya Namiha of South Percy Military Academy reacted the fastest, and she was the closest to the flag. She suddenly flew up, and actually grabbed the flag first in the Pingtong Academy.

[Congratulations to South Percy Military Academy for successfully reaching the finish line.

This radio seemed to press the play button, everyone turned around, their eyes focused on Wei San.

Wei San held the knife that was still stabbed into the ground, in front of a deep ditch cut by her, then the dead 3S giant gray wolf, even further was the building that finally collapsed.

She slowly straightened up, picked up the big knife, and walked towards Jin Ke step by step, and the high-level star beasts around her even subconsciously stepped back.

Chapter 309

At the live broadcast scene, the teachers of various military academies had different expressions, and no one expected that Wei Sans knife had such great power

Among them, the face of the leader of the Imperial Military Academy and Pingtong Academy was the most ugly. For this knife, the main soldiers who could resist it, was probably only Ji Chuyu and Zongzheng Yue who could block it.

At this moment, the threat level of the Damocles Military Academy was once again raised by the two military schools.

My eyesight is bad. Xi Haotian suddenly said, Wei San of Damocles Military Academy still has some skills, but I didnt know why I called blindly before.

Although Ji Yuande is still there, the main commentator also has to take responsibility for the explanation, Ying Yuerong looked at Wei San who walked towards Jin Ke step by step: It probably needs a conditional trigger.

The implication is that her strength is not stable enough.

This is a good soldier. On the projection, Ji Yuande looked at Wei San and said, Which mecha master made the knife in her hand, its not bad.

The unknowing teacher of the Damocles Military Academy was very happy when he saw Wei Sans performance and heard the Marshals praise, only Xiang Minghua and Jie Yuman next to him were nervous in their heart, for fear that Wei San in the arena would lose control.

Now it can be deduced that Wei Sans potential has been stimulated, and she has played her best move, plus the weapon bonus. If Wei San does something again, it is difficult to say.

In the arena, Ying Xingjues hand was slightly bent, and as long as Wei San was slightly out of control, he would use his perception to control her.

He had this self-confidence and hid it from everyone present.

Fortunately, after Wei San walked to the three main members of the Damocles Military Academy, she did not look excessively unusual.

Your slash is too strong. Liao Runing turned his head and saw the dead 3S high-level gray wolf behind him, he seized the opportunity to deal with the 3S star beast in front, while taking the time to say, I will also change my blade when I go back!

Kill more 3S star beasts and exchange for better materials. Wei San walked to Jin Kes side and pulled out the knife again, So many star beasts, it will be enough for us to change for several rounds.

Her tone was normal, there was nothing abnormal, Ying Xingjue was definitely not aware of her perception leaking, he let go slightly, and his palm sweated.

With one more Wei San, Liao Runing and Huo Xuanshans pressure was greatly reduced, and they were able to breathe.

Wei San held the knife and dealt with the surrounding star beasts, this time she was no longer a mess, but every knife carried a move, but even so, the more everyone in the live broadcast looked at her, the more strange their faces became. Even Ji Yuande in the light curtain couldnt help but wrinkle his eyebrows.

Finally, the leader teacher of Samuel Military Academy couldnt help but turn his head to Xiang Minghua and mocked: I have always known that your Damocles Military Academy does not have any teachers and students with good strength, but I didnt expect that it was already lacking to this point. Its really pitiful, if you really cant digest this, its better to let this student transfer to us Samuel, we will definitely train her well.

Xiang Minghua supported his head with one hand, his palm covering his face, and it was rare that he did not refute the words of Samuels leading teacher.

Without him, the moves used by Wei San in the arena are all the moves used by soldiers in other military schools, and she has learned them all well.

This Wei San is really

Xiang Minghua didnt know what to say. Yes, the mecha had just been chosen, and the weapons were only ready the night before the admission, and she didnt have time to learn from the teachers of the Damocles Military Academy.

Originally, Xiang Minghua thought that she would finish this in such a mess, so that she could use 3S mecha and 3S-level weapons, which was better than a double S mecha alone. Get through this arena, wait for the next one, and let the teacher take her to train.

As a result, now, she is good, she first learned Samuel, South Percy, and even the moves of the Pingtong Academy, all imitated quite correctly. The key point is when did she learn this so well?

The five military schools were fighting in the tide of star beasts, she was busy dealing with star beasts, and there was still time to steal moves, Xiang Minghua was silent.

And the most strange thing is that just now Xiang Minghua actually faintly saw the move of the wave blade of South Percys Yamamiya Namiha from the move of Wei Sans wielding of the knife.

Xiang Minghua: The other person wielded a whip, she, Wei San uses a knife, this can also be learned?!

Chapter 310

What is that layer of frost on her blade? Xi Haotian now kept his eyes on Wei San, and naturally noticed her weapon.

Its a pity that Yu Tianhe is not here, Ying Yuerong is also a commander, and she doesnt know much about weapons.

After discussing with the mecha engineering teachers of several military schools next to him, they unanimously agreed that Wei Sans weapons were added with special materials by their mecha engineer, which could create cold air and enhance attack power.

There are only a few materials that can have this effect, and Damocles Military Academy is willing to pay for it.

The 3S star beasts in the arena were only shocked by Wei San for a short time. The purple liquid mushrooms were too tempting for them, enough to spare their lives to fight for them.

The cries of various star beasts once again resounded in the star beast herd, which seemed to be a joint signal, and those 3S high-level star beasts all rushed towards Jin Ke.

Presumably, the organizers side should be almost here, if you dont move again, these star beasts are all ours. Jin Ke shouted at the other military academy people, Its rare to count the number of star beasts killed after pulling the flag, you have to give up like this, there is more than one opponent in the arena Damocles Military Academy.

The first to rush over were the people of Pingtong Academy.

They failed to pull the flag and fell to the fourth, there were no points in this competition, and the only thing they could fight for was the 3S high-level star beast, which was used to exchange resources for the benefit of the arena behind.

As soon as the Pingtong Academy moved, the other military academies were naturally unwilling to be left behind, and the five military academies were once again united together.

Wei San, Huo Xuanshan, and Liao Runing surrounded Jin Ke, preventing him from having a chance to be harmed by the 3S high-level star beast.

It was unknown if Zongzheng Yue of Pingtong Academy vented their anger on the 3S high-level star beast, and the moves were extremely cruel, and the heads of the Buddha gun all brought out pieces of flesh and blood.

South Percy and Samuel Military Academy also stopped paying attention to Damocles, they both raised the flag, their self-confidence increased, and if they wanted to get more resources, they needed to kill more 3S high-level star beasts.

For a while, the arena was like a battlefield, and the 3S-level soldiers and the 3S-level high-level star beasts were mixed together, like a large meat grinder, and the surrounding low-level star beasts were affected.

The staff responsible for counting the number of star beasts killed above have counted quickly, and this is the first time that the main soldiers in these military schools have all exerted their strength.

They were worthy of being the people who will enter the important position of the military region in the future, and they are still a little uncomfortable at first, and the soldiers of the five military schools behind them have a faint tacit understanding to deal with these star beasts.

[The exit has been opened, all military schools can return to the scene, and the number of star beasts killed by each military school is invalid, please pay attention to the order of the aircraft.

The sound of the broadcast suddenly sounded, and everyone in the Star Beast Tide was stunned at first, and then a group of rescuers appeared high in the sky and landed around the five military academies.

Colonel Li Ze was among them.

These people are the real war machines, and as soon as they land, their hands are much faster than these heavenly sons of the five military academies.

Even the 3S high-level star beasts were forced to retreat.

There was a large vacancy in the middle, and the Imperial Military Academy team was the first to be connected to the flying machine, and Ying Xingjue finally went up, he glanced down, there were still people from the four military schools, and no one knew who he was looking at.

Everyone at Damocles Military Academy looked at each other. The other military schools left one after another, what were they going to do?

The surrounding star beasts were even rushing towards Jin Ke, but they were blocked by Colonel Li Ze.

Jin Ke, you come out.

High in the air, a female voice sounded, and then a protective mecha appeared in front of everyone at the Damocles Military Academy.

It was Yu Tianhe who arrived.

As soon as she landed, she jumped out of the mecha, still holding a black box in her hand.

Jin Ke immediately came out of the mecha, holding the purple liquid mushroom in his arms.

Pack it properly. Yu Tianhe did not let Jin Ke put the purple liquid mushroom in, but stuffed the box to Jin Ke.

She immediately entered the mecha and went out with the back of South Percys flying machine.

Jin Ke put the purple liquid mushroom into the black box, closed the lid, and for a moment the surrounding 3S star beasts were a little dazed, but there was still a faint smell on these people, and the messy 3S high-level star beasts also wanted to rush towards the few people with the heaviest smell on Damocles.

They were all blocked by rescuers.
