

Smash All 311

Chapter 311

As the last Pingtong Academy was picked up by flying machines, the last wave of flying machines finally stopped in front of everyone in Damocles.

The staff above opened the door: Come in.

The members of the school team went in first, followed by the main members, and Jin Ke walked onto the aircraft holding the box.

Wei San fell last, she jumped out of the mecha, her upper body was full of blood, her face was pale and scary. It couldn't be seen that she was no different from a normal person before speaking.

As soon as she put away the mecha, she knelt down on her knees, and she didn't even have time to support the ground with her hands.

The teachers of the Damocles Military Academy at the live broadcast subconsciously stood up and anxiously looked at Wei San in the camera.

Huo Xuanshan and Liao Runing, who were about to enter the aircraft cabin, sensed something was wrong and immediately turned around.

Wei San? !

Liao Runing hurriedly went over to help Wei San, and Huo Xuanshan signaled the people inside to get out of the way in front.

The audience could only see Wei San being helped into the aircraft, and after that, the live broadcast camera had gone black.

Drink it. Jin Ke found a few 3S-grade special nutrient solutions and fed them to Wei San, Are you any better?

Before Wei San could speak, the medical engineer in the aircraft came over, looking at her full of blood and was shocked. Where was she injured with so much blood: Quickly send her to the treatment cabin!

Wei San opened her eyes: No need, Im fine.

Youre still alright? The medic seriously criticized, I know that you mecha soldiers hate the treatment cabin, but you have shed so much blood, you must go in and lie in the treatment cabin, otherwise it will leave scars over time.

Wei San reached out to touch the pocket of Jin Ke next to him, took out two nutrient solutions from them, broke the seal, poured them into his mouth, and drank them: Im not hurt, I vomited out this blood.

The medical therapist reacted for a while: You can really vomit.

As soon as he walked away, everyone at the Damocles Military Academy breathed a complete sigh of relief.

Its okay, its just that the ranking is invalidated. Liao Runing felt that he actually had injuries on his body, the back of the mecha was cut through by a star beast, and his back was also injured, but now they are almost healed.

Its good enough that the Purple Liquid Mushroom can be obtained. Jin Ke glanced down at the black box in his hand, which was also engraved with intricate patterns.

Wei San didnt have the strength to speak, closed her eyes, and Huo Xuanshan next to her stared at her face for a long time, observing her breathing, making sure that she was not unconscious, but just asleep, before withdrawing his gaze.

Arriving at the exit by flying machine, Damocles Military Academy did not come out directly like the previous two arenas, but were sprayed with a bunch of pungent substances by the staff.

The essences that Yu Tianhe brought over are said to cover up the aura left by the item, and they are also components that Yu Qingfei has left. All the people in the arena have to be sprayed when they come out. Xiang Minghua stood at the exit, separated from them by a layer of glass.

When it was Wei Sans turn, the staff swept at her face and body, and she almost didnt stand firmly, but fortunately she was held against her back by Ying Chenghe in the rear.

The people of the five military academies were sprayed into a trance before they could come out.

We'll talk about other things later, you go to wash up and rest for a while. Xiang Minghua blocked the media reporters and let the students of Damocles go first.

Jie Yuman helped Wei San to a resting place, and secretly stuffed her with a doctor's special nutrient solution by the way: That blade was good.

Wei San felt her face, her hands were suddenly sticky, blood had mixed with the pungent essence just now, she vomited in her heart, and said: Teacher, let's discuss, don't kick my ass next time.

Jie Yuman paused: It's up to your abilities.

Teacher, I advise you to stop kicking my ass. Wei San said positively.

Otherwise? Jie Yuman did not eat the slightest threat.

Otherwise, I'll keep holding your leg. Wei San said solemnly.

Jie Yuman: until now, you are still speaking trash, be careful when other military school teachers trouble you.

Wei San entered a resting state, and before closing the door, she stretched out her hand to Jie Yuman making a Korean heart: You too teacher.

Chapter 312

Its the Marshal? Ying Chenghe had already tidied himself up and changed into a new military uniform, and the awards will be presented on the spot later.

Jin Ke nodded: Our ranking was abolished by the Marshal, and the exit was also sealed by his order.

Ying Chenghe tied up his hair casually: Can the Purple Liquid Mushroom be kept?

It can, just now the general of the thirteenth district called to congratulate the Imperial Military Academy for winning first place again. Jin Ke sat down, leaned against the wall and closed his eyes.

On the surface it was congratulations, but in fact the general is reminding everyone not to go too far, that Damocles Military Academy is not unsupported.

Fortunately, Marshal Ji Yuande didnt say anything, he just said: These juniors still need to exercise. Then he turned off the light projection.

As for the junior he mentioned, whether he meant Damocles Military Academy or the five military academy students, that is a matter of opinion.

Where's Wei San? Liao Runing followed Huo Xuanshan into the lounge, but didn't see her after scanning around, Did she faint in the bathroom?

You fainted. Wei San opened the door and came in, changed into a clean military uniform, without any blood on her face, not in good spirits, but these people are not in good spirits either.

The five of them leaned against the wall to rest side by side, and all let out a sigh of relief, they were so tired.

Not only the exhaustion of physical strength on the field, but also the exhaustion of being completely unable to grasp the situation at the time.

Fortunately, I made it through. Liao Runing yawned, which resulted in the injury on his face. He quietly narrowed the arc of his mouth, and turned to look at Wei San and the others. I sure admire you guys, Gongyi Liu actually left a prize, and how did you get it on hand? Gongyi Lius family didn't find out?

Both Huo Xuanshan and Ying Chenghe looked at Wei San, and Jin Ke next to her also turned to look at her.

Wei Sans eyes were closed at first, but she opened them abruptly when she saw them: What are you looking at me for?

If we hadn't given the correct password to Gongyi Liu, we wouldn't have been able to find the Purple Liquid Mushroom. Huo Xuanshan said, You are the most powerful.

Ying Chenghe is powerful one. Wei San said modestly, Im just following Gongyi Lius words, its useless to praise him, so we belittled him.

Ying Chenghe recalled his flattery: Because Gongyi Jue always said that Gongyi Liu is awesome. He just subconsciously.

Jin Ke and Liao Runing listened to these people talking about how to open the door of Gongyi Lius studio: They would be the only ones who got it so easily.

I want to sleep. Wei San raised her head and said.

Me too. Liao Runing followed suit.

We will see them standing on the podium later, and we will be interviewed by the media. Huo Xuanshan broke their fantasy.

There was another sigh in the living room.

Imperial Chamber.

Gongyi Jues face was ugly: Damocles Military Academy found the Purple Liquid Mushroom from Gongyis house?

After the awards are presented, you can watch the live broadcast by yourself. You used to be classmates with him, and only you can tell him about this. One of the teachers at the Imperial Military Academy, who is also a member of Gongyis family, frowned, Be careful next time when talking about everything outside.

This teacher didnt care at all that there was another Ying family member sitting in the meeting room. After all, Ying Chenghe was a branch and went to the Damocles Military Academy. The head of Yings family probably wouldnt care about such a person.

Ji Chuyu twirled her mecha ring: What is the effect of the Purple Liquid Mushroom? It is worth so many star beasts raging so crazily.

Chapter 313

The team leader teacher sneered: The effect is great. When used on 3S mechas, the quality can directly exceed 3S mechas, and the mechas dont need any changes.

Then Damocles Military Academy can directly produce an extra Super 3S mecha soldier? Situ Jia was surprised.

Wei San who played on the stage suddenly became a 3S level, jumping to a dangerous level to Pingtong Academy. If this Purple Liquid Mushroom is used this time, and the 3S mecha soldier becomes a Super 3S mecha soldier, wouldnt it be a direct match with the Imperial Army?

When the team leader teacher thought of this, his face sank like water, and he sternly said: Xingjue, why didnt you snatch the materials from Damocles?

Damocles Military Academy dared to blow themselves up in the arena, you have never seen it before. Ying Xingjue said calmly.

The team leader teacher sneered: At that time, Wei San was alone on the top floor of the building. Ji Chuyu and you couldnt take her on alone? Use your perception to control her and threaten the commander of Damocles, and they will definitely give up.

The Achilles heel of Damocles, not giving up any members, has long been known to major military academies over the years. Samuel stepped on this point again and again to threaten them. However, that class overturned, and the students of Damocles Military Academy directly began to explode themselves, causing heavy casualties in the two military academies, and Samuel Military Academy restrained itself.

With Ying Xingjue present, self-destruction is completely controllable.

Ying Xingjue leaned back slightly, raised his eyes and took a deep look at the team leader teacher: Are you teaching me how to conduct command?

The pressure in the conference room suddenly rose, and everyone felt an indescribable sense of suffocation, especially the teacher in front of the conference table.

The team leader teachers face was pale, and he couldnt say a word. The teacher next to him stepped forward and said with difficulty: Xingjue, Teacher Ji, he didnt mean this.

At this time, the outside radio was calling for all the main team members to rush to the live broadcast, and the ranking awards for the Guyu arena would start to be announced.

Only then did Ying Xingjue withdraw his perception, rise up slowly, straighten his sleeves, and walk out of the conference room.

The second one to get up was Ji Chuyu, and he glanced at the leading teacher before he left, Ji's surname is not your life-saving talisman.

As soon as the two Kings of Hades left, all the teachers breathed a sigh of relief, and they didn't dare to look into the eyes of the other main team members, they lowered their heads and pretended to tidy up their things.

Since the start of the competition, Ying Xingjue has been so easy to speak to that all the teachers almost forgot that he is not someone who can be manipulated.

The main teams of the five military academies all changed into brand new military uniforms, waiting for the announcement of the rankings.

The media reporters below were all frantically taking pictures, especially of the five main members of Damocles Military Academy. This time the field is too exciting, and the third game will be able to stir up the Marshal to come forward.

It is indeed the session with the most 3s members compared to all the previous sessions, too wonderful.

The guest in charge of presenting the awards was Yu Tianhe. She was in a completely different state from when she came out of the mecha with disheveled hair, and she returned to her usual elegance sitting in front of the main show.

We all know that for some reason, Damocles Military Academy's ranking is abolished this time, but we all see the excellence of each military academy. I hope that members of the military academy who got the ranking will not be proud. Please continue to work hard in the next game. Yu Tianhe smiled slightly, Now I invite the Imperial Military Academy, Samuel Military Academy and South Percy Military Academy to come on stage.

The audience, teachers and members of the two military academies below who did not receive awards all applauded together.

It was the first time for Wei San to stand at the position of the main members and applaud towards the podium. She looked up at the main members of the three military academies on the stage and clicked her tongue: Standing on the top, it seems very arrogant.

Not seem, it is arrogant. Liao Runing turned his head and whispered.

Then let's stand up and try at the end? Wei San said.

Jin Ke next to him kicked her and motioned for her to look at the people in Pingtong Academy next to him. Their glances could kill people.

Wei San looked over, stopped the false applauding, stretched out a hand and waved at Zongzheng Yue, saying her greeting: You still have a chance next time, dont be sad.

Other people in Pingtong Academy:

Chapter 314

The distance between Pingtong Academy and Damocles was only two shoulders, enough for them to see clearly the five Damocles members next to them.

This time at the Guyu arena, the three military academies got the rankings, and the ranking of Damocles Military Academy was abolished, but they gained the Purple Liquid Mushroom, and Pingtong Academy got nothing.

All of this has something to do with the members of the Damocles Military Academy, but yet that Wei San was so arrogant that she greeted them.

Zongzheng Yue held the spear, tightened his jaw, and stared at Wei San: The Underground Factory was you pretending to be me?

Before Wei Sans moves in the arena, there was no lack of moves from Pingtong Academy. He didnt know when Wei San learned it. The big knife was held upside down, and she was holding the middle part. The unusually long handle was used as a spear. Zongzheng Yue saw the special rhythm of moves belonging to Pingtong Academy.

Almost at that moment, Zongzheng Yue remembered the previous rumors about the male-to-female secret technique of Pingtong Academy. He did not see the video, but only knew that it was two men and one woman. Now it seems that it is clearly the three main forces of the Damocles Military Academy soldiers.

Wei San withdrew her hand, turned her head, straightened her collar, and asked Jin Ke next to her nonchalantly, Did you hear someone talking to me? Why do I feel like someone is talking?

Jin Ke glanced at her: I didnt hear anything, who spoke?

Wei San lowered her hands, solemnly: Thats probably because I heard wrong.

Next to them, Zongzheng Yue held the back of his spear, with veins popping out, suppressing his anger.

The enmity between Pingtong Academy and Damocles Military Academy deepened invisibly.

But the five members of the Damocles Military Academy pretended not to see it, and looked up at the stage to present the awards.

On the stage stood the main teams of the three military academies, each with a medal and a big trophy.

Wei San was greedy: The material of the trophy looks very valuable.

Ying Chenghe: Its still worth the money, the material of the medal is better, Ill show you when we get back.

Damocles Military Academy got the rankings in the first two games, with trophies and medals, but Wei San was not on the main team, so she slipped away twice in the middle and didnt watch the awards.

The presenter was a representative of Gu Yu Stars local forces. The people from Samuel Military Academy on the stage were very happy, especially Shaw Eli. He felt that the second place came too fast. Originally, they were still thinking about how to get points. Suddenly the situation changed drastically. Not only did they get the second rank, but they also killed many high-level star beasts. Although the mechs were damaged, compared to the exchanged resources, they still made money.

The five members of the South Percy Military Academy seemed a little happy, and also didnt seem too happy. It was unknown what was going on.

Chapter 315

Wei San looked around, and her eyes finally fell on the few people in the Imperial Military Academy. Maybe its because shes used to taking the first place, these people dont have any special emotions, but Gong Yijue keeps looking at them, he must have known that the Purple Liquid Mushroom was left by his ancestors.

After the awards were presented, it was customary to interview the media. The spokesperson of the Imperial Military Academy was Gong Yijue. He was asked by the media what he thought of the Purple Liquid Mushroom being found by the Damocles Military Academy.

Everything on the Guyu Arena belongs to the organizer and no longer belongs to our Gongyi family. I don't have any thoughts about it. Gong Yijue pushed the microphone away, Sorry, we still have to go attend training.

Not only this place, the media swarmed up and interviewed various military academies everywhere.

May I ask how it feels for Samuel Military Academy to get second place ahead of Pingtong Academy?

This is our strength. Any obstacles standing in front of the Samuel Military Academy will be cleared away. Shaw Eli was a little flustered, and he spoke without any modesty. People from the Pingtong Academy were standing near them.

It happened that some media were also asking Pingtong Academy: How does Pingtong Academy feel about missing second place this time?

The person who answered this time was Zongzheng Yue, and he said indifferently: The goal of Pingtong Academy is the championship. It's just a cat and a dog who suddenly became rich.

Just as Wei San passed through the crowd, she heard Zongzheng Yue's words. She couldn't help but whistled and provoked: Shaw Eli, some people say you are a cat or a dog.

Facing the media camera, the smile on the corner of Shaw Eli's mouth became stiff, and he scolded Wei San bloody in his heart. Damn, can he, a 3S soldier, not hear what Zongzheng Yue said next to him? Now is the stage of speaking harshly. The harder you speak, the more powerful you are. Why did she come here to expose it? !

However, the media nearby were all waiting for his reply, with a look of watching excitement in their eyes, and it was clearly and firmly written: fight, fight quickly!

Shaw Eli:

At this time, some media also sneaked in and grabbed Wei San for an interview: Wei San, how did you discover the Purple Liquid Mushroom?

Treasure hunting is just a few steps. You guys watch more treasure hunting shows and learn together. Wei San wanted to run after finishing this perfunctory statement, and several media crowded over.

Wei San looked at Jin Ke and the others who had already slipped down, and felt like shit. The group actually dispersed in various ways, without reminding her, leaving her here alone.

Liao Runing, who was about to slip out, blinked at Wei San, cast a self-conscious look, turned around and ran away with Huo Xuanshan.

Wei San:

May I ask if you want to use the Purple Liquid Mushroom in the next match?

May I ask since the ranking of Damocles Military Academy has been abolished, how do you feel now?

Wei San was so annoyed by the questions, her eyes fell on a certain someone who was about to leave, and she subconsciously said into the microphone: Ying Xingjue, your hair has not dried.

Chapter 316

When the media reporter heard this sentence, they subconsciously looked at Ying Xingjue. He probably came out in a hurry and didn't take care of it. His long hair was slightly damp and draped over his shoulders.

When Ying Xingjue stood on the podium, everyone's eyes were attracted by his plain black eyes, and no one paid attention to this. Now that he was pointed out by Wei San, they had a strange feeling. Ying Xingjue also had such a moment, like the proud son of the sky who was suddenly pulled into the mortal world.

Ying Xingjue lowered his eyes and glanced at the wet hair on his shoulders. When he looked up again, he saw only a bunch of media reporters above. The person who spoke had already left. He looked back, his mood remained unchanged, and he turned and left as usual .

The reporters turned back following his gaze, and found that Wei San, who had been stuck in the middle, had disappeared. After saying that sentence just now, she took the opportunity to escape.

As soon as Wei San finished speaking, she bent down and squeezed out, catching up with Jin Ke and the others.

These few people were already discussing going to bed first and what to eat when they got up at night.

What are you guys eating, add me in. Wei San squeezed over, Does Guyu Star have any special products?

There used to be, but now I dont know. Ying Chenghe stood aside to make room for her.

Whos treating? Huo Xuanshan asked the key question.

Whoever asked should treat. Liao Runing replied quickly.

Huo Xuanshan: I think it should be Cheng He, he picked the mushrooms.

Ying Chenghe immediately pushed Wei San out: She was the one who got the password right.

Wei San: Jin Ke is my brother, and if he treats, it counts as my treat.

Thats also alright. Liao Runing nodded.

Both Huo Xuanshan and Ying Chenghe agreed.

I don't agree. Jin Ke was the chief commander, and all his scheming was completely ineffective on these few scoundrels.

Four against one. Wei San patted him, Pay with peace of mind.

A group of people who don't even bat an eye when they start the mecha, actually fights over the money for a meal. They don't know why, probably because they take advantage of the one, and they will be happy a little.

When they came out of the Guyu arena, the day had just dawned, and it was only nine o'clock after the awards were given out. Although the exhaustion was washed away, after coming down from the awards ceremony, the exhaustion after fighting with the star beast for a long time came back like a tide.

After the five returned to the dormitory, they each went to sleep in their own rooms.

As soon as Wei San entered the room, she fell down and fell asleep, and when she opened her eyes again, it was already dark.

She lay on her back on the bed without moving, and reacted for a long time before finally raising her hand to check the time, it was one o'clock in the morning.

Wei San turned over and turned on the light, but there was no sound outside, probably they were still asleep. She logged on to the Rubik's Cube forum, browsed a few web pages, and answered some

questions posted by A-level mecha masters, and found that the points in her account suddenly increased.

Before Wei San could understand what the points were used for, a box popped up in the middle of the forum interface, prompting her to upgrade her account.

Account upgrade?

She clicked into her account and took a look. Except for L1, there was no difference. When she logged out and wanted to continue browsing other pages, Wei San found that there were a few more sections in the Rubiks Cube forum.

So with an account upgrade, she can see sections that the previous account could not see?

Wei San became interested, and continued to answer questions in the Q&A section, and her points continued to increase, but there were still some publishers who were not confirmed, and the points could not be credited immediately. After answering a bunch of questions, she quit and checked. The account had more points, but it was still at L1 level.

Everything needs to be upgraded these days.

Chapter 317

Wei San looked around, and there was no upgrade rule written on the Rubiks Cube forum, so she could only go back and answer the questions, but as a former engineer, she was very interested in answering questions, and she could see all kinds of weird questions, this helped expand her experience.

Wei San, are you awake? Liao Runing knocked on the door outside.

He just woke up from hunger, got up to eat, and saw a light leaking from the bottom of Wei Sans room.

Im awake. Wei San closed the door, got up and opened the door, Where are the others?

Probably still sleeping. Liao Runing put a bag of food into Wei Sans hand, Ill go and wake them up.

In the middle of the night, Liao Runing knocked on the door one by one and woke them up.

Jin Ke and Ying Chenghe came out, leaned on the sofa in the living room, and dozed off side by side. They were not comparable to mecha soldiers, like Huo Xuanshan, who immediately woke up after being called out.

Its late at night, where is there food? Jin Ke didnt want to go.

There is food, you just want to renege on your agreement. Liao Runing spoke without hesitation.

Jin Ke:

In the early hours, the five were dressed in regular clothes, and prepared to go out to the training ground to look for food.

Going out, passing the training ground, they saw people from the South Percy Military Academy coming out, passing the training building, and discovered the main team of the Pingtong Academy coming out of the door.

Jin Ke reflected for a moment: Are we too loose?

Not only did they sleep so late, but they also went out to play. Other military academies have already started another round of training.

Combine work with rest. Ying Chenghe felt that they were doing the right thing, Eat enough, drink enough, and sleep enough, so that you will be able to fight the next round.

Because of the Purple Liquid Mushroom, all the plans of the five military academies have been disrupted, and the competition has advanced several days. Now there are still several days before the next competition, so they can stay here and rest for a short period of time.

The five of them went out in the aircraft, and Jin Ke was in charge of finding out where there was something delicious and fun on Gu Yu Star in the early morning. Ying Chenghe was leaning on the side and continued to doze off, and Wei San walked over.

What level is your forum?

What forum? Ying Chenghe was puzzled.

The Rubiks Cube forum, I just upgraded today and discovered that there are more forums. Wei San turned on her light brain and let him see her account and forum.

Ying Chenghe stared at those boards for a while, pointed to the extra board and said: I dont have this.

After finishing speaking, he turned on his light brain and unlocked the privacy, so that Wei San next to him could also see the light projection: No level is displayed.

The Rubiks Cube forum belongs to the kind of non-government organization forum. In the imperial capital, most people from colleges look down on this kind of forum. After Ying Chenghe came to the Damocles Military Academy, he registered out of curiosity, and has only been wandering in it like Wei San. Most of the content doesnt even involve S-level. After finding out that poor and no money to make mechas is Wei San, he has no interest in logging in again.

Wei San thought for a while and said, Maybe its because I answered the questions.

This level seems to be able to continue to rise. Ying Chenghe pointed to the L1 in the lower right corner of her ID profile picture.

Liao Runing pushed Huo Xuanshan over to see what they were talking about.

The level mode of L1 is a bit like the Underground Factory. Huo Xuanshan looked at the ID on Wei Sans light brain and said.

Maybe everyone likes to use this level. Liao Runing pretended to look at Wei Sans light brain carefully for a while, and asked her, Can you really still be a mecha engineer?

Wei San glanced at Liao Runing: Do you want to try my weapon?

Forget it, I believe it.

The five of them finally entered an alley. It was said that there is a late-night gourmet restaurant in it, and the owners have opened stores there for generations.

Wearing a mask, he walked slowly towards the dark alley, and Huo Xuanshan at the front saw a lighted sign: There is a noodle restaurant, is it this here?

Jin Ke nodded: Yes.

Liao Runing muttered from behind: Its actually a noodle restaurant, you dont want to spend money, do you?

To enter the noodle shop, they have to go through two doors. Customers take off their masks at the first door, and then enter the second door. They went in and found that it was so late and there were quite a few people, all of them locals.

The live broadcast video of the competition was being played on the wall, and it was Damocles Military Academy, and the people in the noodle restaurant were discussing in full swing.

There are still treasures on Guyu arena, and no one from the previous military academy found out?

How could there be so many 3s-level military academy students in the past, and they were all focused on going to the finish line. Who would have the heart to hunt for treasures? I think this treasure is destined to belong to Damocles Military Academy.

For this mushroom, the rankings are all invalidated. I dont know if they will regret it later.

Chapter 318

The mushrooms have become more useful. It is said that they can improve the quality of the main mecha. Didnt you see that at the award ceremony, there was Pingtong Academy next to them, who looked at Damocles so fiercely.

The five of them covered their faces with their hands, found a corner table and sat down quietly.

I didnt expect the boss to show the replay of the live broadcast here. Ying Chenghe covered his face and whispered.

Our noodle restaurant has been broadcasting competition videos ever since our ancestors opened. The boss came over, with a light projection erected in front of him, What would you like to order?

Do you have anything else here besides noodles? Liao Runing asked him.

The boss thought about it seriously: No, there is only one bowl of noodles.

Five people: So why do you still come to ask for our order?

The boss quickly ordered five bowls of noodles on the light projection: Ill add an extra egg to you as support.

Watching him leave, Huo Xuanshan said: Did he recognize us?

Probably. Jin Ke turned his head and looked at the boss. He walked to the back kitchen, probably to make noodles.

The five sat in a corner, chatting quietly.

In two days, senior Shen Tu will be leaving. Jin Ke said.

So soon? Wei San remembered that he said that he would be on duty next month.

Colonel Li Ze hopes that senior Shen Tu can go to the military region for training as soon as possible, and he doesn't have to stay here anymore. Jin Ke said, We will send the senior off on that day.

Several people nodded and sat quietly at the table holding cups, only the white steam in the cups rose slowly.

Your noodles. With a white towel on his shoulders, the boss came over with a large plate and put down five bowls of noodles.

Liao Runing glanced at everyone's faces, and pointed to the bowl in front of Wei San: Boss, this isn't right, why does her noodles have two eggs and so much meat?

The boss gave an Oh: That's right, that's what she has in her bowl.

Wei San immediately picked up the chopsticks, picked up the eggs, and started eating.

You just said to add an extra egg as support. Jin Ke still remembered what the boss said just now.

That's right. The boss looked at Wei San and made a cheering gesture, I'm your rogueish fan! I added eggs just for you.

Wei San almost choked to death with a mouthful of eggs, but luckily she managed to maintain her composure.

The others had nothing to say, but Liao Runing looked at her jealously: Why do you still have fans everywhere?

If you are more rogueish, maybe there will be some fans of yours too. Wei San sincerely suggested.

Liao Runing seriously thought about it for a while, and finally felt that as long as Wei San was around for a day, he couldn't compare to her, so he had to give up.

After eating the noodles, the few of them went to the snack shop next door to buy something, and continued to sit here watching the replay of the live broadcast, while listening to the discussions of the people around them.

Wei San, you have new news again. Huo Xuanshan turned off the privacy of his light brain and forwarded it to them.

This time it was not Sequoia Media, but another media, whose headline alone attracted a lot of attention.

Calculating the people Wei San offended since the beginning of the match, who is her next target?

Wei San: ? What kind of target can she have?

Hurry up and take a look. Liao Runing didnt think too much of it.

At opening, a reporter started with the first sentence: The following is purely a summary based on the data collected by the reporter of this channel. There is no intention of defamation. It is purely for entertainment. Please do not take it seriously. If there is something inappropriate, please contact this channel to delete it.

It can be said to be very cautious. Presumably after Sequoias incident, various media are not too daring to be so blatant.

First of all, when we were in the Imperial Star, Wei San was still the head of the school team. As soon as she entered the star port, she immediately gave Samuel a blow and slapped Shaw Eli in the face. So far Shaw Eli has not returned with revenge, and dozens of members of the school team were lost in the first two races, including the head of the school team who has fallen in her hands twice. This was her first target, the reporter said loudly, In the second game, Pingtong Academy joined forces with Samuel to deal with Wei San and offended her, but in the third match Pingtong Academy didnt even get the third place. Today! Just today! ! !

The reporter gasped: Wei San challenged Ying Xingjue, one of the twin stars of the empire, in public! Yes, you heard that right, it was Ying Xingjue! Wei San actually said to Xingjue that his hair was not dry. Friends in the Audience, according to past speculation, this is Wei Sans pre-match provocation!

In the end, the reporter made a generous statement: According to our reporters speculation, Ying Xingjue is Wei Sans next target! ! !

Chapter 319

Wei San:

Actually, he wasnt wrong. Jin Ke suppressed a smile, The fire of the empire hasnt burned yet.

Then the target is him. Wei San thought for a while and said, Next time I want to stand on the highest podium to experience it.

They stayed in this noodle shop until five oclock in the morning before they turned around and went back.

When passing by the training ground, Xiang Minghua happened to see them, and he called Wei San over.

The doctor is here. Xiang Minghua brought Wei San into a room.

The doctor did not wear a white coat this time, but a military uniform of the Damocles Military Region, very inconspicuous, like a soldier who came with the leader teacher.

He was watching the replay of the live broadcast on the wall, all of which were cut videos of Wei San.

The doctor turned around and motioned for Wei San to sit down. He was still watching the replay of the live broadcast, and after seeing the knife she slashed, he said: You are on the verge of exploding several times inside, Wei San, if you cant control yourself well next time, I will not advise you to continue participating in the competition.

A Super 3S soldier is more important than the championship of a big competition.

Wei San was taken aback: Doctor, arent you developing a nutrient solution?

The special nutrient solution needs to be constantly adjusted according to your body, it is not enough just once. Ying Xingjue of the Imperial Military Academy has been adjusting his nutrient solution every year for so many years. It was unknown what the doctor thought of, but his face conveyed it was hard to say, I have never seen someone like you with a tattered body that can still be alive and kicking.

Wei San: There is no need to say it like that.

Maybe its because of the resistance of the mecha soldier. The doctor looked Wei San up and down, During this time, come here once a day, and Ill help you record your body data and adjust the nutrient solution for the second phase.

Got it. Wei San pointed to a pile of nutrient solution on the table, Is this mine? Can I drink it?

Doctor: yours, drink it.

He got up and opened the small instrument box he brought, put on Wei Sans headgear and finger cots, and pressed on the test instrument.

The test will take a while, the doctor continued to watch the replay of the live broadcast, paused for a while, then turned to Wei San and asked, How do you feel at this moment?

I want to sleep. Wei San tried hard to recall, I dont have too many thoughts.

Arent you in pain? The doctor frowned and looked at Wei San, Every time Ying Xingjue exceeds his physical load and uses his senses, it will bring him great pain.

Its alright. Wei San held a bottle of nutrient solution in his mouth, raised his head and drank it all before saying, Commander you said, I think its painful for Jin Ke to feel overused.

The doctor thought about it carefully for a long time: What you said also makes sense, the command itself is sensitive. There are no other samples, only you two are at the Super 3S level, it is difficult for me to compare.

He continued to look, and felt that Wei San had been in that unstable state all along, so he took them all back.

It seems that you have controlled it well. The doctor said with a sigh of relief, It was taken back later.

Probably because our chief conductor has been secretly reminding me with perception, of course we have to control it. Wei San said casually. It was so chaotic at that time, and there was still a perception following her all the time, and Jin Ke was the only one.

She heard the instrument beep and took off her fingertips and headgear, Its okay, Ill be leaving first.

The doctor held the headgear in a daze, waving his hands casually.

Seeing this, Wei San hugged all the nutrient solution on the table, and then went out.

After the people left, the doctor murmured: Can the 3S command remind the Super 3S soldiers who are on the verge of breaking out?

Chapter 320

Everyone in Damocles Military Academy soon found out that Shen Tukun was going to the military area. When he woke up in the morning, there were already many people standing below, and they called him senior when they saw him.

Senior, next year I will go to the Thirteenth Military Region to find you!

And me.

Add me too.

Shen Tukun nodded: Okay, Ill wait for you at the Thirteenth Military Region.

Soon the people from the main team also came over, and Liao Runing went up and hugged him: Senior, wait for us to come over with the championship.

Shen Tukun couldnt help laughing: Just be good.

Liao Runing: Not this year, next year, next year and the year after that. In short, when we go to the military region, we must go there with the championship trophy.

Its a beautiful idea. The trophy is in Damocles Military Academy, so you cant take it into the military area. Jin Ke stretched out his hand and pulled him away, and also hugged Shen Tukun, However, if senior can become a rescuer in the future, come to us, then we will be able to touch the championship trophy together.

Okay. Shen Tukun agreed, Ill wait for you to win the championship.

They bid farewell at the training ground, and other military academies who came and went saw it naturally.

A double-s left, producing such a big show. Samuels Shaw Eli sarcastically said, Those who dont know will think that some powerful person is leaving.

When you leave, Im afraid no one will say their goodbyes. Quinley Eli from South Percy passed by and left a sentence.

You! Shaw Elis face darkened, and he cursed that people from the branch are bad.

Although both of them belong to the Eli family, Shaw Eli is from the current main family of Eli, while Quinley Elis family has been reduced to a branch from the previous main family.

Wei San, fight hard next time. Shen Tukun walked up to her and said seriously.

Senior, I know. Wei San patted herself on the shoulder, Half of you is on it.

Shen Tukun finally got on the military aircraft with a smile, and rushed to the 13th Military Region with a group of other graduated school team members.

Cheer up. Xiang Minghua came out from another place, You have also rested for more than a day, its time to regroup, train hard, and wait for the day when the track will be drawn.

Seeing that Wei San was going to follow the others, Xiang Minghua called to her: I added some training for you.

Added more? Wei San said with concern, Teacher, since you brought me up, you have been giving me more training and lessons.

Stop complaining. Xiang Minghua glared at Wei San, Do you know that after the live broadcast that day, other military academies laughed at us that Damocles Military Academy has no one, and students want to steal lessons from others?

Wei San said bluntly, What I learned from them came in broad daylight, how could it be called stealing?

Xiang Minghua didnt buy it, and sent the training form to her light brain: Stop talking, this training is arranged for you, you have to learn, hurry up and keep up with the progress.

Wei San opened it and slid down. Two of the five new courses were taught by Jie Yuman. Her butt hurt and her legs went limp: Teacher, I dont think I can take it anymore.

Xiang Minghua ruthlessly turned and left, leaving a sentence: Teacher believes in you.

Wei San:
