

## Smash All 481

### Chapter 481

After the news spread that the commander of the Imperial Military Academy was captured by a mecha soldier from Damocles Military Academy, the live broadcast room of Damocles Military Academy was once again crowded. Everyone wanted to watch Damocles. How would Damocles Military Academy deal with the chief commander of the Imperial Military Academy?

【Shocked, why do the people from the Damocles Military Academy have new tricks in every game? 】

【This, you would have to ask Wei San, she did it. 】

【Aren't they taking action yet? I'm so anxious! 】

【If they still don't take action, once Ying Xingjue wakes up and his senses recover, he might be able to reverse the situation. 】

【That's right, Ying Xingjue's perception is terribly strong. It's not like people from Damocles Military Academy have never seen him in action before. If they don't take action quickly, it will be too late! Damocles Military Academy, you guys need to stand up! Great opportunity! 】

【Am I the only one who thinks they don't want to take action? Several main players ignored Ying Xingjue, and the members of Damocles Military Academy school team also went about their own business. 】

【In fact, according to the conduct of Damocles Military Academy previously, they really won't take action, but it is hard to say this time. The main team is all elusive and will come up with ideas anytime and anywhere. 】

While speculating in the live broadcast room, the commentators at the live broadcast site also did not know the next move of Damocles Military Academy.

Really truly, Damocles Military Academy always makes roguish moves, and this time it's even more rogue.

“Do you think Damocles Military Academy will take action?” Xi Haotian asked proactively, he was full of curiosity.

No matter how you look at it, taking action is a routine operation. Anyone from any military school, or himself, would choose to take action, yet for some reason, Xi Haotian had a glimmer of hope deep in his heart.

He hoped the people from Damocles Military Academy would not take action.

Yu Tianhe looked through the camera lens at the team of Damocles Military Academy: “No matter what they choose, there is no wrong.”

Lu Zhengxin said nothing, leaning back in his chair and looking at the people at Damocles Military Academy thoughtfully. Zongzheng Yueren stayed in his room, opened two live broadcast rooms, and focused all his attention on Damocles Military Academy. He sneered, it was clear that the members of the Damocles main team would not fight against Ying Xingjue.

Baffling!

With such a good opportunity in front of them, they could definitely severely damage the Imperial Military Academy, but they actually didn't take action.

It was clear that Wei San had been merciless to him, but now she was talking about morality?

Do they know who the strongest person in this competition is? It was Ying Xingjue, who is lying unconscious!

.....

Xita Arena.

"Are you awake?" Wei San sat on the rock and watched Jin Ke open his eyes, "It's dark now."

Jin Ke sat up and felt his head. He was still a little dizzy: "Is everyone okay?"

"We're fine. A few team members were injured. They took some medicine and are fine now." Wei San explained carefully.

Jin Ke frowned and slowly woke up. He stared at Wei San: “You are so eager, what have you done again?”

Wei San: “.....”

The audience in the live broadcast room.

【Hahahahahaha, LMFAO, Commander Jin sensed something was wrong so quickly! 】

【Where should we start with this? Your team member picked up a stray commander? 】

【Hahahahaha, what should we do? Sure enough, I did not become a fan of the wrong team. Damocles Military Academy is the most roguish. 】

【Wei San, speak quickly , I want to see Commander Jin’s expression immediately. 】

【Do you think Commander Jin will take action? 】

【It’s hard to say, the commander has his own considerations, but I feel like there won’t be any differences among the main team’s thoughts. 】

.....

Wei San coughed and whispered: "I fished out Ying Xingjue."

Jin Ke suspected that he hadn't fully woken up yet, otherwise why could he clearly hear every word Wei San said, but couldn't understand them all together: "What did you say?"

Chapter 482

Wei San took a deep breath, raised her head and replied quickly: "The starship was broken into pieces. I picked up a person and happened to pick up Ying Xingjue. Now he is in our team."

This time Jin Ke understood every word Wei San said, and finally reacted: "....."

He would rather he didn't understand, and now his head was becoming more and more painful.

After Jin Ke was silent for a long time, he asked her: "Where is Ying Xingjue?"

"He is still in a coma, Ying Chenghe just fed him a nutrient solution." Wei San spoke with a guilty conscience.

"When Ying Xingjue wakes up, let him leave as soon as possible." Jin Ke said with a headache, "Who is letting him take advantage of our nutrient solution?"

Wei San looked down at her hand. Why didn't her hand obey her orders at that time and fished up Ying Xingjue?

During the live broadcast, the teachers of the Imperial Military Academy heard Jin Ke speak and couldn't help but breathe a sigh of relief, but at the same time they were not happy. When did the strongest commander of their Imperial Military Academy fall to the point where his life and death were decided by people from Damocles Military Academy?

The faces of the teachers at Damocles Military Academy were not as ugly as other military academy teachers imagined. Instead, Xiang Minghua relaxed and complained to Xie Yuman about these students: "One game after another, I can't imagine what new tricks they can come up with next?"

Jie Yuman smiled and said: "These are the students of our Damocles Military Academy."

Although there are frequent superficial methods, in fact, they are still the Damocles who have always adhered to their spirit.

Xita Arena.

Different from the rather weird atmosphere of Damocles Military Academy, the mood of the other military academy teams was extremely complicated.

Needless to say, the Imperial Military Academy, since they could never find their main commander, their team seemed to have lost its energy and spirit, and its backbone had been taken away. No wonder they became depressed.

Samuel Military Academy and Pingtong Academy have been looking forward to hearing the exit broadcasts from Damocles Military Academy and Imperial Military Academy since the storm began.

As a result, the storm dissipated, the sky turned bright and dark again, and they didn't hear any military academy being eliminated.

Then they heard the light projections of Damocles Military Academy and Imperial Military Academy killing star beasts in two directions. Obviously the star ship was destroyed.

"You robbed our boat, do you really think you can reach the destination island safely?" Xiao Eli gloated, "Didn't the ship still capsize?"

Jill Wood: ".....but they didn't have anyone eliminated."

In such a huge storm, it was only the starship that was broken, but no one was injured. One can imagine how terrifying the strength of the two military academies is.

Xiao Eli originally disliked that Jill Wood was a double S-level, and always thought that she was holding back Samuel's army. Now that he learned that Jill Wood might evolve into a 3S-level, he felt sour and hated her even more so.

"Isn't it a good thing if the ship capsizes?" Xiao Eli asked, "It's better than the ship not capsizing."

“Enough, let’s just concentrate on your journey.” Gao Xuelin stopped the two from continuing to argue.

Damocles Military Academy is currently the closest to destination island, with the Imperial Military Academy second, followed by Pingtong Academy. South Percy actually arrived in front of their Samuel Military Academy.

Gao Xuelin was anxious, and it was even more annoying because Xiao Eli, a brainless loudspeaker, was beeping.

... ..

“Where are we going?” Wei San asked Jin Ke.

Jin Ke glared at her first and then said: “We need to get close to the island first, then cross the sea, climb over the mountain, and then walk along this reef beach.”

“Will we reach the destination island then?” Liao Runing intervened from the side.

“.....what a beautiful imagination.” Jin Ke spread out the map, “We have to go through a sea route to reach the destination island. There are probably high-level star beasts here, at least 3S, and there are many overlords in the sea. It won’t be too easy to arrive.”

Ying Xingjue hasn't woken up yet, so his body is probably cultivating itself. When Jin Ke turned around and saw this hot potato, his mood worsened: "Wei San, watch the person you caught."

"No need, he's Chenghe's cousin." Wei San subconsciously refused.

Ying Chenghe immediately said: "Cousin, we are far apart and we are not close. You should watch over him. I am but a weak mecha master, who can't protect the commander."

Wei San was tired: "What should we do if we encounter a star beast? I can't fit two people into my mecha, which will prevent me from fighting."

Jin Ke dropped his statement: "You guys have to figure it out yourself."

Chapter 483

The main team looked at each other. Huo Xuanshan turned around and left first. This time Liao Runing followed suit and ran away.

"Chenghe....."

Ying Chenghe also raised his legs and ran away.

Wei San: "....."

The team began to organize themselves and prepared to leave. Wei San walked up to Ying Xingjue and stared at him: "I'll give you three seconds to wake up, one, two....."

Ying Xingjue showed no reaction and was still lying on the ground.

Wei San accepted her fate and simply helped the person up.

"Chenghe is modifying his mecha." After a while, Liao Runing turned back and helped her lift Ying Xingjue up. "Then they can be left in the same mecha."

In this way, the protection of Ying Chenghe's mecha will be reduced, and the other main soldiers must always pay attention.

After Ying Chenghe finished modifying his mecha, he took over care of Ying Xingjue. Nie Haoqi and Ying Chenghe took Ying Xingjue away together, so that Wei San could have her hands free.

Jin Ke waited for them to make such arrangements before leaving.

The rocky beach road is difficult to walk, and the sea road is equally difficult, especially not long after Jin Ke woke up, his senses have dried up, and he can only rely on the hard work of his team members.

It was obviously only a short journey, but it was extremely slow to walk.

As the game wore on, each military academy fell into this exhausting predicament.

Live broadcast.

“Pingtong Academy seems to be holding its breath.” Lu Zhengxin looked at the live broadcast of Pingtong Academy, “They surpassed the Imperial Military Academy.”

Xi Haotian raised his eyes and said: “The advantage is not obvious.”

“The situation is different. The Imperial Military Academy has lost their main commander, and their mood is at its lowest point. On the contrary, Pingtong Academy has lost their strongest soldier, but it has aroused bloodshed.” Lu Zhengxin raised his eyebrows and smiled, “Imperial Military Academy looks strong, but it actually has a lot of holes.”

Yu Tianhe watched the live broadcasts of the five military academies and agreed with what Lu Zhengxin said. The best performer among them was definitely Damocles Military Academy.

As time passed in Xita Arena, except for South Percy, who was alone and lagging behind, who avoided disputes and simply fought with the star beasts without seeing any problems. The problems of other military schools have gradually become apparent. There was mutual distrust, mutual backstabbing, and after losing the most powerful person in the team, the team was in a state of confusion.

In contrast, Damocles Military Academy’s actions after the starship was shattered and the commander fell into a coma. The light mecha soldiers flew into the air at the same time, guiding the members of the same team to move in one direction. The medium and heavy mecha soldiers of the two main teams rushed to the stern of the ship to protect the members of the school team as they left. The mecha

engineer of the main team only did one thing. They grabbed the main command mecha tightly and led him towards the same team.

After landing, everyone did what they had done countless times before in an orderly manner, as if the commander was still there.

Huanye Star.

After Ying Yuerong finished working on the protective line, when she returned to the military area to rest, she opened the live broadcast room of the Imperial Military Academy. She originally wanted to see their current situation, but at a glance, she didn't see Ying Xingjue.

She thought the camera didn't capture Ying Xingjue, so she waited patiently for a while, but one moment after another passed, she went through the entire team again, but she still didn't see Ying Xingjue.

Ying Yuerong's heart skipped a beat, thinking that something had happened that caused Ying Xing to be eliminated, so she opened the elimination list.

At the moment when the elimination list was opened, Ying Yuerong was still thinking about what accident would happen, which would cause Ying Xingjue, a super 3S leader, to be eliminated.

As a result, when she opened the list, the first person on the list was Zongzheng Yueren from Pingtong Academy.

What happened?

Ying Yuerong frowned and flipped through the entire elimination list, but did not see Ying Xingjue's name.

What happened?

Ying Yuerong directly dialed the communication of the Xita Star live broadcast staff and asked what was happening on the field now.

"That, Commander Ying, you....." The staff hesitated.

"If you have anything to say, just say it." Ying Yuerong couldn't sit still, so she stood up and commanded coldly.

The staff member wiped the sweat from his forehead: "Ying, Ying Xingjue was taken away by Wei San of Damocles Military Academy."

Ying Yuerong was stunned: "What did you say?"

Chapter 484

“That, you’ll know by watching the live broadcast room of Damocles Military Academy.” The staff thought to themselves, who the hell could predict the development of things? I can’t explain it clearly in a moment.

Ying Yuerong closed the communication with a snap, opened the live broadcast room of Damocles Military Academy, watched for a while, and saw Ying Xingjue as expected.

“.....”

The development of the matter left her confused, even though Ying Yuerong was an extremely excellent 3S level commander.

Ying Yuerong could only subscribe to the five live broadcast rooms together and fast forward from the beginning. When she saw the two military academies teaming up to deal with the sea wall, she couldn’t help but subconsciously nod in praise. In the end, the starship was smashed to pieces by a sudden behemoth. She stared at it. Ying Xingjue and the mecha slid down the deck. She was furious, were the people around Ying Xingjue all dead? No one protected the commander.

The only chief of the school team rushed towards Ying Xingjue but was knocked over by the waves.

After that, Ying Xingjue never appeared in the live broadcast of the Imperial Military Academy.

Ying Yuerong set her sights on the Damocles Military Academy. Watching them orderly organizing their arrival ashore and counting their numbers, Ying Yuerong became increasingly dissatisfied with the performance of this Imperial Military Academy.

The final shot shows Wei San and Huang Jinkai at her feet.

Ying Yuerong stared at the development of the live broadcast room of Damocles Military Academy:  
“.....”

Ying Yuerong thought that she had rich life experience, had seen everything, and would be able to remain calm no matter what she saw in the future, but when faced with this scene, she was speechless.

What is this development?

They directly sent the most powerful people from their own military academy to the other party's military academy.

Ying Yuerong let out a deep breath and raised her hand to massage her temples. If someone from Damocles Military Academy had made a move on Ying Xingjue, it would be nothing more than a goal in the competition.

But.....they just didn't take action.

Damocles Military Academy immediately raised its image.

Ying Yuerong had no intention of continuing to watch, so she exited the live broadcast room, opened the Star Network, and browsed other news.

As expected, there has been a heated discussion on the Star Network about the behavior of Damocles Military Academy. Without exception, the name of Damocles Military Academy has once again been deeply ingrained in everyone's hearts.

The matter of annexing the Damocles Military Academy will be difficult, and she's afraid it will take ten years.

No, as long as the main team of this Damocles Military Academy is still there, other military academies will not be able to think of annexing it for at least fifty years.

Sita Arena.

Ying Chenghe pulled his cousin into his mecha. In the mecha's cabin, he watched the team fighting through the window, completely unaware that Ying Xingjue opened his eyes next to him.

Ying Xingjue opened his eyes, and his first reaction was to look at the test tube at his waist. The black insect mist inside was still in its previous state, and he felt that it was tightly imprisoned.

Looking around, Ying Xingjue discovered that he was inside a mecha. With Ying Chenghe sitting next to him on the host seat, it was not difficult to imagine that he was inside Ying Chenghe's mecha, the Immortal Turtle.

He only remembered that after he saw the sea wall dispersing, he began to fall into a trance, and then completely entered darkness, and did not know anything else.

Ying Xingjue looked along the window and looked out. It was Wei San and Liao Runing who were fighting the star beast. There was no trace of anyone from the Imperial Military Academy.

“You have separated from the Imperial Military Academy?” Ying Xingjue asked Ying Chenghe.

Ying Chenghe was nervously watching the main team fighting, always paying attention to the damage of their mechas. After hearing this, he casually replied: “We separated a long time ago, and they didn’t find their way over. Their main commander is still in our hands.”

“Is that true?” Ying Xingjue lowered his eyes and whispered.

“Isn’t it, if Wei San hadn’t picked the stray up casually, my cousin.....” Ying Chenghe suddenly turned his head, “Cousin! You, are you awake?”

To be honest, Ying Chenghe was a little afraid of Ying Xingjue, especially in a confined space with only two people.

Ying Xingjue raised his eyes: “Thank you guys for saving me.”

Ying Chenghe waved his hands quickly and nervously said what was in his heart: “It’s none of my business. When the starship broke into pieces, I only noticed Jin Ke. It was Wei San who picked you up. Since you’re awake, cousin, leave quickly, Jin Ke said you are wasting our nutrient solution here.”

After saying that, Ying Chenghe shut up, this was a bit too direct.

“I will go out after you finish killing the star beasts.” After Ying Xingjue finished speaking, he coughed several times and coughed out the blood in his chest.

Ying Chenghe, who was standing next to him, became more and more nervous. He quickly took out the nutrient solution and paper towels from the box at hand: “Cousin, wipe first and drink the nutrient solution.”

As soon as he saw Ying Xingjue coughing up blood, he couldn’t help but think of the way Ying Xingjue was lying on the hospital bed.

The survival of the super 3S level commander to this day is really due to Ying Xingjue’s own will.

Ying Xingjue reached out to take the paper towel and nutrient solution. When he lowered his head to wipe away the blood stains, he discovered that the black insect mist in the test tube began to roll rapidly. It obviously smelled super 3S blood.

He slowly wiped away the blood on his body bit by bit, and the murderous intention for this black insect mist in his heart rose to the extreme.

Ying Chenghe, who was in the host position, was vaguely aware of it, and the hairs on his back stood up. It wouldn't be that just because he handed over the tissue and nutrient solution, his cousin wanted to kill him. His cousin didn't look like this kind of person. .

Ying Chenghe glanced at Ying Xingjue quietly and discovered that he lowered his head and didn't know what he was thinking.

Maybe he was thinking that those people from the Imperial Military Academy weren't good.

Ying Xingjue opened the nutrient solution, drank it, and asked Ying Chenghe: "In which direction is the Imperial Military Academy now?"

"They are on an island behind us." Ying Chenghe hesitated for a while, "Pingtong Academy has surpassed the Imperial Military Academy."

Chapter 485

When he said those words, Ying Chenghe thought that his cousin would be unhappy or become more stimulated at least, but Ying Xingjue remained calm, as if it was not the Imperial Military Academy that was lagging behind now.

Ying Xingjue leaned on the mecha seat and looked at Wei San outside through the window, as if he was actually the mecha engineer inside.

"Has your teacher given her any special training?" After watching for a while, Ying Xingjue suddenly asked.

Ying Chenghe said nothing. He would not answer questions that might be related to the competition.

Not hearing his answer, Ying Xingjue didn't care, and said quietly: "From the first game to now, she absorbed everything very quickly, but there is one thing that needs to be paid attention to."

Ying Chenghe unconsciously pricked up his ears to listen to his cousin's words.

"If she doesn't take it seriously when fighting, if she encounters a powerful person or star beast, it may be too late to take it seriously." Ying Xingjue's dark eyes quietly looked at Wei San who was fighting outside.

In the following time frame, he was afraid that an unknown force will surge up. As a super 3S level Wei San, there are only two possibilities: to be killed by an unknown force or to take on the responsibilities of a super 3S level and suppress this force.

Ying Chenghe was stunned after hearing this. He never knew that Wei San was not serious when fighting.

He deliberately looked out of the window and saw that Wei San could cause damage to the star beasts every time. Ying Chenghe turned to look at his cousin: "Cousin, you may have seen it wrong."

Ying Xingjue never replied to him and gazed quietly at Wei San outside.

.....

As soon as the battle was over, Damocles Military Academy team began to reorganize, and Jin Ke was responsible for exchanging for resources.

Ying Chenghe came out of his mecha cabin. Huo Xuanshan saw that his expression was wrong and asked, "What's wrong?"

Ying Chenghe stretched out a finger and pointed at the mecha cabin at the rear, and Ying Xingjue slowly came out of it.

"The person you picked up is awake." Liao Runing came over and punched Wei San.

Wei San: "....." She just made a mistake briefly but felt that she couldn't overcome this obstacle.

Ying Chenghe helped Ying Xingjue out, while Wei San and Liao Runing watched from a distance and started gossiping.

"Why does Chenghe, who has the same surname as Ying, look so much like his cousin's servant?" Liao Runing felt his chin thoughtfully.

"Probably because of the hair." Wei San looked back and forth between the two and said.

Ying Xingjue retracted his hand and walked slowly towards Wei San. He nodded to Liao Runing and then his eyes fell on Wei San: "Thank you."

Wei San: ".....It's nothing. Remember to double the nutrient solution you used and return it to us."

Live broadcast.

【what happened? This is it? 】

【no matter what they should at least hijack a good amount, she's just asking to double the nutrient solution? 】

【Alas, Wei San is not enough. If was me, I'll keep Ying Xingjue. She's his savior. From now on, the commander of the Imperial Military Academy will become a member of Damocles Military Academy. 】

【enough, if Ying Xingjue went to damocles, where will Jin Ke go? 】

【I want to see Jin Ke come over and see Ying Xingjue wake up. 】

.....

While the bullet screen was discussing, Jin Ke came back after exchanging resources. From a distance, he saw that there was one more head among the people gathered here, and he realized that Ying Xingjue had woken up.

“Since you are awake, then hurry up and find someone from your military academy.” Jin Ke spoke without mercy.

Ying Xingjue looked at him and spoke slowly: “I might not be able to leave.”

Jin Ke: “?” What does this mean?

“My senses haven’t fully recovered yet, so I can’t pilot my mecha.” Ying Xingjue exposed his weakness, his expression remained calm, as if he was saying the weather was bad today.

Jin Ke: “.....how about you eliminate yourself?”

Chapter 486

Ying Xingjue clenched his fist against his lips, coughed and said: “One-half of the resources of the Imperial Military Academy will be given to Damocles Military Academy. I hope you can bring me to the destination island with you.”

Liao Runing exploded on the spot: “We are now closest to the destination island. If nothing unexpected happens, we will definitely be the first to reach the destination island. You only give us one-half of the resources and you want to easily take second place. No wait, when we have reached the end, maybe

you have regained your perception and will wipe out all of us by then. Will the championship be given to you for free?"

"One-half of the resources for this time, and half of the resources for the next competition." Ying Xingjue suppressed the itchiness in his throat and said slowly, "You win the championship in this competition. When I recover, I can help you." "

"All you ask is that we bring you there together?" Jin Ke stared at him and asked.

Ying Xingjue shook his head slowly: "Second, I will take down the flag of the Imperial Military Academy after you take down the flag."

Jin Ke thought for a moment and agreed: "I will trust you once."

Liao Runing looked at the scattered people and rubbed his head. He still felt that they had suffered a loss. Won't the Imperial Military Academy rank second without effort.

"Is Jin Ke stupid?" Liao Runing and Wei San squatted on the largest rock on the side and complained softly.

"You're stupid." Wei San glanced at Ying Xingjue. His lips seemed to have never been rosy. In her impression, they had always been pale.

Liao Runing hated the fact that iron could not make steel: "I'm talking to you seriously! The enemies have already broken into our ranks!!!"

Wei San: “.....don’t worry, Jin Ke is stupid but he can use his brain better than us.”

“I don’t believe it. You must all be bewitched by Ying Xingjue.” Liao Runing stared at Ying Xingjue over there. No matter how he looked at him, he felt that he could control people’s hearts with his perception.

“Let me ask you, did you see clearly what shattered the starship that night?” Wei San asked with a sigh.

Liao Runing was startled and tried to remember: “No, it seems to be some kind of fish? It doesn’t really seem like it either. I saw a lot of seaweed.”

“What if we encounter this kind of thing on the last sea route to the destination island?” Wei San continued to ask.

Liao Runing fell into deep thought.

If it really happens, Damocles Military Academy team may not be able to deal with it, but the number of casualties is uncertain. With the cooperation of Ying Xingjue and his perception, Damocles Military Academy can avoid heavy casualties.

“So we are using Ying Xingjue?” After Liao Runing figured it out, his eyes suddenly lit up.

Wei San stretched out a finger and shook it: “To be more precise, we are both using each other.”

“I see.”

After Ying Xingjue woke up, the atmosphere in Damocles Military Academy team became even stranger.

It stands to reason that Ying Xingjue’s current situation is very unsatisfactory. He is simply a sheep in a tiger’s mouth and is threatened at any time and anywhere. If he were exchanged for another commander, they may be on tenterhooks at this time.

But he didn’t. He was very comfortable whether he was sitting alone or surrounded by the main team of Damocles Military Academy.

The members of Damocles Military Academy have already given a thumbs up in their hearts. Strong, he deserves to be the strongest commander in the future of the Federation. With this psychological quality, he is awesome!

They stopped on the rocky beach and camped on the spot, preparing to recharge their batteries before moving on.

Wei San was sitting not far away, always holding her face with her hands, changing positions from time to time, but her peripheral vision always fell on the test tube on the opposite side of Ying Xingjue’s waist.

As soon as she saw the looming black insect mist, she wanted to rush forward and destroy it.

As a super 3S level commander, Ying Xingjue would not be qualified to be called the strongest commander of the Federation in the future if he did not notice such an obvious sight.

He touched the test tube at his waist and pulled it out a little. When he noticed that Wei San's eyes were staying on his waist more often, Ying Xingjue was almost certain that she could see this black insect mist.

After the game is over, he will talk to her about this matter.

"Pingtong Academy has been chasing us head on." Jin Ke sat down next to Ying Xingjue, "If we encounter something powerful on the last section of the sea route, are you sure you can deal with it before they arrive?"

"It depends on what it is." Ying Xingjue didn't lock in his words, but then changed the topic, "We will join forces and won't let Pingtong Academy pick up our results."

After getting his promise, Jin Ke took out a few bottles of 3S level nutrient solution from his side and threw them to Ying Xingjue: "There is no super 3S level nutrient solution in this arena, so let's settle for now."

Ying Xingjue looked down at the bottles of nutrient solution in his hand. Now he could tell the quality of the nutrient solution from the bad. He resisted the nutrient solutions he drank when he was a child, but he couldn't tell the reason.

On the other side, the Imperial Military Academy.

“There is no broadcast about the main commander yet.” Situ Jia dropped the flying star beast from the sky, and he spoke coldly when he landed, “There is no way those people above didn’t notice the main commander.”

“The commanders in the school team have no connection with the main commander’s perception.” Gong Yijue said in a low voice. He was the one who was most responsible this time.

Huo Jian looked at Ji Chuyu who was almost going berserk, and finally put his hand on his shoulder and said: “Pingtong Academy is leading in front of us. The commander does not want to see this result. Now our only task is to jump over them. “

Ji Chuyu raised his hand to open Huo Jian’s hand and said coldly: “I should have been standing next to him at that time, it was just a sea wall.”

In these games, if necessary, Ji Chuyu basically just stood next to Ying Xingjue to protect him.

Perhaps it was an instinct formed since childhood. Ji Yuande wanted him to keep an eye on Ying Xingjue and kill him if there was any abnormality, but now that they have been together for many years, he has regarded Ying Xingjue as his closest brother, like siblings

“It’s useless to regret now.” Huo Jian retracted his hand, “The game is still in progress. If you continue to be so decadent, we will not only lose the commander, but also the championship.”

"I agree with Huo Jian." Situ Jia said, "We must win the championship."

Ji Chuyu looked down at the rocks, finally inhaled a deep breath and looked up: "Let's go now."

During the live broadcast, Lu Zhengxin looked at the footage of the Imperial Military Academy and shook his head.

Without Ying Xing Jue, it would be almost impossible for the Imperial Military Academy to regain its advantage. If the Imperial Military Academy loses its main command, as Ji Chuyu said at the time, it will not be a problem to move forward. Unfortunately, the team was so distraught that even the leader Ji Chuyu couldn't keep up his energy. He often fell into guilt and would run to the sea to look for the person from time to time. Now relying on people like them, whether they can catch up to Pingtong Academy is a question.

Fortunately, Ying Xingjue made a decisive decision to cooperate with Damocles Military Academy again, and could barely keep second place.

"Now I realize that the people of the Imperial Military Academy are nothing without Ying Xingjue." Lu Zheng analyzed venomously.

Xi Haotian doesn't think so: "they have to grow up. This time is a lesson to the Imperial Military Academy. They should also lower their heads and learn. It will be good for future competitions."

.....

As they wanted to distance themselves from Pingtong Academy behind him, Damocles Military Academy hurried on quickly. They arrived at the reef beach on the afternoon of the fifth day and were about to enter the last section of the sea route.

Jin Ke gathered all the school team members into a square shield, and quickly entered the sea. Light mechas also entered the water, because there were too many 3S flying star beasts at high altitudes, and they would be besieged as soon as they passed by and had no choice but to enter the water.

Ying Xingjue's senses have partially recovered and he can drive his own mecha.

Wei San was placed next to Ying Xingjue by Jin Ke. Firstly, it was meant to suppress him. Secondly, the cooperation between the two of them was more effective than other cooperation.

After entering the water, Damocles Military Academy moved forward quickly, but everyone's vigilance was raised to the extreme, because it was so quiet down there, not even a small fish, as if there was no danger at all.

"Did you sense anything?" Wei San asked Ying Xingjue next to him.

Ying Xingjue looked at her through the window: "You have better perception than others. You discovered the two-headed snake before the other soldiers in the desert arena before. You shouldn't ask me."

Chapter 488

Wei San: ".....Aren't you a super 3S level commander? You must be better than me."

“En.” Ying Xingjue lowered his eyes and said softly, “What you said makes sense.”

Everyone had traveled almost a third of the way, and they still didn’t encounter any star beasts.

Just when they were about to move forward, they were stopped by Ying Xingjue: “We can’t go any further.”

“Is there a star beast coming?” Liao Runing asked.

Ying Xingjue nodded: “This is a very dangerous star beast. Let’s go around it from the right side.”

Jin Ke looked at him for a while, and finally chose to trust Ying Xingjue and led the team around to the right.

Everyone maintained a high degree of vigilance and carefully moved forward quickly, but they underestimated the huge size of the star beast this time.

When the seafloor began to shake, the dangerous star beast revealed its true face. Its entire body directly filled two-thirds of the last section of the sea route, and they had circled to the right in vain.

“This.....could it be the thing that attacked our starship before?” Liao Runing uttered in shock.

“You’d better hope it is, otherwise it means there are two such things in this sea area.” Huo Xuanshan stared at the star beast covered with various seaweed plants and whispered.

Ying Chenghe looked at this behemoth and felt less nervous: “It’s too big and it’s inconvenient for it to move. It only has one pair of eyes. We can definitely pass behind it if we go around.”

As soon as he finished speaking, the body of this huge beast suddenly began to tremble, and the seaweed on its body was shaken off. Then the entire Damocles Military Academy team saw this huge beast open its eyes.

Not one pair, but countless pairs, growing all around the body.

Everyone: “.....”

Wei San: “The crow’s beak of consecration has been transferred from the young master to you.”

Ying Chenghe: “.....” He really didn’t mean it. What he just said was just based on common sense. Who would have known that this star beast doesn’t grow according to conventional rules.

“Its movements are still inflexible.” Liao Runing comforted him kindly. He understood this crow’s mouth’s mood.

The next second, the behemoth shook again, as if stretching, stretching out a dozen extremely thick tentacles.

Everyone: “.....”

Everyone watching the live broadcast nervously: “.....”

“Is this thing growing according to our sayings?!” Master Liao wanted to sew his own mouth.

Huo Xuanshan: “.....You guys better shut up.”

“I can temporarily close half of its brain.” Ying Xingjue said.

“Only half?” Master Liao still couldn’t hold back his voice.

Ying Xingjue said slowly: “Each tentacle has its own brain.” And each tentacle is equivalent to a mutated 3S-level star beast.

“There are fourteen tentacles in total. If you deal with half of them, there will be seven left.” Wei San has silently counted the tentacles on the right side. “We only have three 3S mecha soldiers.”

After being integrated by Jin Ke, the remaining members of the school team can only deal with one tentacle at most, and may be able to delay another one.

Ying Xingjue looked at her quietly, and finally said softly: "Maybe you can deal with two of them. Impermanence is a super 3S-like mecha."

Wei San: ".....and one more."

Ying Xingjue turned to look at this behemoth: "Jin Ke and I will work together to deal with the last tentacle."

After everyone was assigned, they rushed forward.

These tentacles indeed have brains as Ying Xingjue said.

The movement is dozens of times more flexible than the entire behemoth. The surface of the tentacles is covered with mouthparts. If they are slightly touched, they will be sucked. Only by abandoning the piece of mecha can they break free.

As soon as it broke free, the abandoned mecha was immediately sucked in by the mouthparts on the tentacles and chewed up.

When everyone saw this, they couldn't help but be shocked, but there was no way to turn back, so everyone had no choice but to bite the bullet.

At this moment, Pingtong Academy landed on the reef beach on the other side. Only by crossing this reef can they cross the last section of the sea and land on the destination island.

Chapter 489

Pingtong Academy has been holding its breath since Zongzheng Yueren was eliminated.

Before the competition started, even if the Imperial Military Academy had a super 3S level commander, Pingtong Academy was the favorite to win the championship. From the perspective of all forces in the federation, they still had a competitive edge, because Zongzheng Yueren can compete with Ji Chuyu, one of the twin stars of the empire.

But now, Zongzheng Yueren was eliminated by the students from Damocles Military Academy. This psychological gap is completely unacceptable.

So they rushed to destination island with all their strength, passed the Imperial Military Academy, and finally reached the rocky beach.

"Let's go straight from here. We will soon cross the last section of the sea and reach the destination island." Lu Shibai looked back: "The Imperial Military Academy is accelerating. We need to reach the destination as soon as possible."

During the time they walked through the rocky beach, they never heard the light projection or any announcements about Damocles Military Academy.

Lu Shibai guessed that the Damocles Military Academy might have entered the last section of the sea route, and had even encountered the high-level star beasts on destination island.

Just thinking about the possibility of Damocles Military Academy winning the championship in the Xita Arena this time, Lu Shibai felt as uncomfortable as a thousand ants eating his heart, and everyone in Pingtong Academy speeded up once again.

Even if they can't prevent Damocles Military Academy from taking first place, they will definitely have to shed a layer of their skin and pay the price for what happened before.

.....

Damocles Military Academy was still fighting the tentacles underwater, completely unaware of where Pingtong Academy was.

The body of this behemoth almost surrounded the entire destination island. Each tentacle can reach up to twenty meters and can be retracted at will. The tentacles are covered with dense mouthparts, and smaller roots can be extended from the mouthparts and attack the targets.

Liao Runing met with these mouthparts miserably. His blade was wide and he cut them down with one stroke. He was sucked by the mouthpart first, and it took a lot of effort to pull himself back. He was also almost attacked by roots protruding from other mouthparts.

Huo Xuanshan's ice sword was able to hit the tentacles accurately, aiming specifically at the mouthparts of the tentacles. It might have thought it was some kind of prey, so it didn't even avoid it and was shot straight through by his ice sword.

At the back, this tentacle can already avoid the arrows shot by Huo Xuanshan. If it can't avoid his attacks, it will stretch out its small roots in the mouthparts to pull the attacker. The ice arrow is too fast. After the tentacle roots are pulled, it will fracture. The key is that the roots of these tentacles and mouthparts can regenerate after being broken. The effect of Huo Xuanshan's ice arrows can only be considered average.

Liao Runing pulled out his sword from the tentacle's mouthpart for the tenth time. Looking at the tentacle over there that was attacked by Ying Xingjue and Jin Ke with their senses that had fell into a static state, he couldn't help but envy that it was still nice to be a commander, unlike them mechas soldiers come and go in bloody storms every day.

As for Wei San, she had to deal with two tentacles, so she chose to use her dagger whip instead of her Sumi sword.

She drove Impermanence to the middle of the two tentacles, pulled out two daggers, flicked them hard, and her whip came out.

Wei San stood in the middle, swung the whip with both hands apart, wrapped the two tentacles, and pulled them towards her, causing the two tentacles to collide with each other.

At the same time, Wei San sank, holding the dagger in both hands and rushing towards the lower body of the behemoth, and finally stabbed the dagger into its lower body, trying to turn around and pull out the Sumi sword, preparing to cut off the two tentacles.

But she still thought of the tentacles too simply. There was corrosive digestive juice inside the mouthparts, dripping on the whip. The dagger whip was melted, and the two tentacles broke free and whipped directly towards Wei San.

Wei San noticed the movement and wanted to avoid it, but the two tentacles were long and thick, and the key was that they could be rolled into waves. She was whipped hard.

“.....”

The three mecha soldiers of the Damocles Military Academy’s main team all failed miserably, not to mention the school team.

Most of the viewers on the live broadcast focused on the footage of Damocles Military Academy. After all, not only were they the closest to destination island, but they also brought the chief commander of the Imperial Military Academy with them, attracting most of the fans of the Imperial Military Academy.

“The destination island of this year’s Xita Arena is actually located here. I remember that the previous organizers would deliberately avoid this sea area.” Lu Zhengxin looked at the battle situation in the camera in surprise, “Just because of this star beast, how could the organizers put the flag there?”

“We took the air route.” Xi Haotian said, “I led the team in to plant the flag.”

After hearing this, the audience silently observed three seconds of silence for Damocles Military Academy in the stadium.

Chapter 490

“This is the first time in the five military academies that there are so many 3S levels, and there are also super 3S levels. It cannot be justified if the difficulty is not increased.” Xi Haotian leaned back on his

chair, “Now there are more and more star beasts on each defense line, and these students should practice harder.”

“It’s true they need to train, but it needs to be moderate.” Lu Zhengxin shook his head, “What happened in the extremely cold arena is a lesson. If the students hadn’t been lucky, this competition might not have been able to continue.”

“The organizer has arrangements.” Xi Haotian only said this and spoke no more.

Star beasts are not as uncontrollable as the situation in the extremely cold arena. The organizers have arranged many rescuers nearby to prevent accidents.

.....

Under the sea, Wei San broke two daggers and whips, and had to avoid another attack from two tentacles, running around.

“Ying Xingjue, can you expand your perception a little bit?” Wei San shouted to Ying Xingjue as she ran.

Jin Ke was unhappy when he heard this: “I am your commander, I am still here?”

Wei San turned sideways to avoid the blow from the tentacle and asked Jin Ke: “Can you do that?”

“No.” Jin Ke said bluntly. If he could, he would have been beating gongs and drums to say that he could do it from the beginning.

Wei San: “.....”

Ying Xingjue’s perception still maintained its original range, and he slowly said: “Neither can I, you can solve it yourself.”

The two tentacles are still attacking Wei San.

She unzipped her knife and folded it into a fan-shaped knife, holding it tightly with both hands.

Live broadcast.

“Wei san, is she going to fight in close combat?” Lu Zhengxin said, “This is not a wise choice. The mouthparts of the tentacles can secrete corrosive liquid. Over time, the mecha will be corroded, not to mention the powerful suction of the mouthparts.”

“Her mecha shell is filled with Purple Mushroom liquid, which makes it less susceptible to corrosion.” Yu Tianhe said from the side.

“I forgot about this.” Lu Zhengxin said with a smile, “Her mecha is really good.”

The lead commentators watched the scene as the two tentacles instantly rolled up to Wei San. She did not struggle, but allowed the tentacles to stretch out their roots and wrap around the mecha tightly .

Xiang Minghua saw the corrosive liquid released from the mouthparts of the tentacles covering Wei San's mecha along the roots, and his whole body tensed up. He didn't know what Wei San was planning, but she was undoubtedly using herself to joke.

The most important thing is that the people inside the stadium don't know. He can see from outside that the people from Pingtong Academy are approaching the last section of the sea. Once they enter the water, they will definitely find Damocles' movement, and Pingtong Academy will take advantage of it...  
...

Under the water.

Wei San looked at the window covered by roots, completely ignoring it, waiting for the two tentacles to wrap tightly around her, trying to crush Impermanance with the suction of its mouth parts. 然而她没有

The huge pressure was transmitted to Wei San through the mecha, and she finally took action.

Her fan-shaped sword started to cut off the roots of the tentacles from the side of her hand. Wei San was not in a hurry to get out. She just freed her hands. After cutting the roots with the fan-shaped sword, she directly inserted it into the nearby mouthparts and cut from the inside to the outside.

Probably feeling the pain, the injured mouthparts of the two tentacles kept shrinking and squeezing, trying to squeeze the fan-shaped sword that went in, and at the same time, a large amount of corrosive liquid was spit out.

It's a pity that since Wei San has reached in, she will move to the end. The fan-shaped sword slit directly from the mouthparts. Wei San turned the sword around with both hands, and one of the tentacles was cut off by her.

[The brains of the tentacle are distributed throughout the tentacle, not in one place. ]

At this time, Ying Xingjue suddenly reminded her.
