Chapter 491

Wei San: “.....”

So cutting off a section of the tentacle won't have much impact?

Wei San couldn't care less. After cutting off a section of the tentacle, she quickly broke the roots on her body and rode directly on one tentacle, avoiding the attack of the other tentacle.

During the break, she looked up at the behemoth. Without his sight, these tentacles couldn't always attack her accurately.

Wei San turned on her stealth mode with the tentacles, getting closer to the behemoth every time she moved, but when she was still halfway away from it, these tentacles seemed to sense her intention and attacked her crazily.

“Help me buy time.....” Wei San said to Huo Xuanshan and Liao Runing besides herself.

The two of them were faced with a thorny tentacle themselves. After hearing what Wei San said, they went all out and used their mechas as bait, hoping to get another tentacle each.

Unfortunately, these tentacles were not attracted at all and only locked onto Wei San, as if they knew she was a big threat.

Wei San's face darkened.

[Wei San, the suction force of the mouthparts depends on the resistance you create when you touch it. As long your speed is fast enough, two tentacles are not a problem.]

Ying Xingjue's voice appeared in Wei San's mind again.

Wei San was irritated. How would she not know that speed would resolve this, but the problem was that her speed was limited and she couldn't do it.

Ying Xingjue seemed to be able to hear her thoughts.

【Can you really not do it? I saw you move this fast before in this extremely cold arena. 】

Ying Xingjue used his senses to restrain the tentacles while looking at Wei San. He called Wei San once on the starship, and his original intention was to ask her to show her strength in the extremely cold arena at that time, but that time she was mediocre, not even as good as Ji Chuyu.

Since she could activate her speed in the extremely cold stadiums, there is no reason why Wei San can't make such moves now.

Wei San looked around. She could not find any foreign aid at the moment, and Damocles players around her were also in trouble. As the main team members, their mechas are high-level and powerful, and they are just in a stalemate with the tentacles. However, the school team members, who are low-level,

are completely filling in with their own mechas, so that other members of the school team have the opportunity to attack the tentacles.

Staring at the school team members who kept stepping forward to fight, Wei San in the mecha cabin suddenly remembered the silent expressions of the seniors on the playground when they were watching the last finals at Damocles Military Academy. There was also the crying senior who said he wanted to see Damocles Military Academy stand on the final medal stand.

Now there was only this section of the road left, and she had to finish this no matter what, reach the destination island, and take down the flag of Damocles.

Wei San frowned, but her heart gradually calmed down.

Xita Field Medical Building.

“Dr. Jing, your light brain seems to be flashing,” a passing nurse reminded him.

Jing Ti looked down, then ran to his room, turned on his light brain, and clicked on the pop-up graph.

It's Wei San's real-time body data.

It is still rising.

Jing Ti immediately opened the live broadcast room of Damocles Military Academy, and as expected, Wei San was seen fighting.

Under the water, Wei San held her fan-shaped knife, flicked it hard, and finally used the combined knife to shuttle between the two tentacles.

Jing Ti blinked: He felt that Wei San's figure seemed to flicker just now.

The person is still where they are. Is it a problem with the camera lens in the live broadcast room?

He was about to retreat and slow down to watch it again, when suddenly two huge tentacles under the water broke into several pieces.

Jing Ti: "....."

Chapter 492

The audience watching the live broadcast had the same feeling as Jing Ti. They only felt that their eyes blurred, but after taking a closer look, Wei San was still in her original position. They thought it was an illusion. However, when the two tentacles broke into several pieces, everyone was shocked. After realizing it, Wei San had indeed moved just now.

Not only did she move, she also took action.

Xiang Minghua didn't sit still, raised his finger to point at the camera, and turned to look at Jie Yuman: "She can't avoid your moves with this speed?"

Jie Yuman was happy but also angry: "What do you think?"

When they came out, she had to be sure to ask them if they were pretending to be pigs and eating tigers.

Seeing Jie Yuman's dangerous gaze, Xiang Minghua rarely said a kind word for Wei San: "She may be in unstable condition."

They haven't forgotten that Wei San is still at the S level in her perception test.

In Xita Arena, Wei San didn't know that she was being targeted by her teacher. She calmed down and found a trace of her state in the extremely cold arena. Her perception spread, becoming one with Impermanence and the Sumi Sword in her hand. Her body moved according to her heart, and her speed was incredibly fast. Before the tentacle could react, it was cut into several pieces and had no more attack power.

Wei San held her Sumi knife in one hand and no longer paid attention to the broken tentacles, but looked up at the eyes of the upper body of the behemoth. She told the others to hold on to the remaining tentacles, then she jumped up, stepped on its upper body, held the knife tightly in both hands, and stabbed it hard into one of its eyes.

This behemoth began to shake all over, and all its tentacles were retracting frantically. It was going to deal with Wei San, and it was obviously seriously threatened.

It works!

Liao Runing used all his moves to block the tentacles on his side, and shouted to Wei San: "Destroy all its eyes. This young master doesn't believe it can be so rampant once it loses all its eyes."

"Wait." Wei San stepped on its upper body with both feet and pulled out the Sumi Sword with force. The dim yellow blood flowed out from its eye and spread in the sea water. The whole body of the giant creature was shaking. There was even a faint feeling of shaking on the seabed, but there was no trace of it. The sound came out, and the situation under the sea looked extremely strange. She moved to one side and used the same method to destroy the star beast's other eye.

"There's someone coming." Ying Xingjue suddenly spoke, and Jin Ke also noticed it.

He turned around and saw the team from Pingtong Academy: "....."

Pingtong Academy came too quickly.

"Is that.....Ying Xingjue?" After Ji Jian clearly saw the person who was dealing with the tentacles side by side with the commander of Damocles Military Academy, he was surprised and asked involuntarily.

The other students in Pingtong Academy were equally shocked to see Ying Xingjue. When they entered the last section of the sea route, the Imperial Military Academy was clearly still behind them. Why was Ying Xingjue here?

Even a 3A-level commander like Lu Shibai couldn't understand what the two military academies were doing. Could it be that the Damocles Military Academy and the Imperial Military Academy are still joining forces, and the Imperial Military Academy behind them is just a cover?

He frowned and stared at Damocles and the others. For a moment, he didn't dare to take action, for fear that the two military academies were up to something.

Chapter 493

"Hey, you guys have come. When we finish the fight, we can all go to the destination island together." Jin Ke said without changing his expression, "How about you come over and help?"

The more relaxed Jin Ke appeared, the more suspicious Lu Shibai became. Coupled with Ying Xingjue standing next to him, his vigilance had been raised to the maximum.

At this moment, the bullet screen in the Pingtong Academy live broadcast room has gone crazy.

[Lu Shibai, hurry up and rush over! This is a great opportunity, they have no other options! ! !]

【What a good thing you guys have picked up for free! Damocles Military Academy is dealing with this giant star beast. You guys should quickly jump over and land on the island! 】

[Surprisingly, the situation has changed. If Lu Shibai is bold at this time and ignores Ying Xingjue, he should rush forward. The champion of the Xita Arena may be Pingtong Academy. 】

[After all, the person standing over there is Ying Xingjue, so it's hard not to think too much about it.]

[Damn, this is really an opportunity. Wei San just happened to anger this behemoth. It will never let go of people like Damocles Military Academy, especially like Wei San. Pingtong Academy lost Zongzheng Yueren this time, but it still has a chance to win the championship again.]

When Zongzheng Yueren saw this scene, he clenched the spear he carried with him. Damocles Military Academy made a mistake this time. They did not expect that Pingtong Academy would come so quickly and that the star beasts on the sea route would be so difficult to deal with.

His eyes fell on Wei San and did not look at Lu Shibai. He knew what choice Lu Shibai would make in the end. He could only blame Wei San for breaking out too late and getting rid of the tentacles to destroy the star beast's eyes early. Otherwise, Pingtong Academy will not have this opportunity.

Zongzheng Yueren felt a sense of joy in his heart. Even if Wei San eliminated him, so what? If she lost the championship position in the end, she would be nothing.

.....

Lu Shibai's eyes flickered back and forth between Ying Xingjue and Jin Ke, then he cast his gaze on the crazy behemoth behind him. Finally, he stared at Ying Xingjue: "Everyone, rush forward, ignore Damocles Military Academy."

"What if the Imperial Military Academy....." Ji Jian was worried that there was fraud behind his back, that Jin Ke didn't seem worried at all.

“Up to now, our ultimate goal is to win the championship.” Lu Shibai spoke decisively, “The Lord cannot be eliminated in vain. Today, both military academies are here, and we have to rush out!”

Hearing this, the people from Pingtong Academy immediately got ready and followed the main team to jump over this behemoth.

Seeing that they really rushed over, Jin Ke couldn't help but curse in his heart. Lu Shibai was obviously suspicious, but he didn't care.

Now the students of Damocles Military Academy were dragged by the tentacles, they were unable to break free and block the way in front of Pingtong Academy.

“By the time Wei San destroys the eyes of the tentacles, we will be too late.” Ying Xingjue remained as calm as before, as if nothing could change his mood, “It's not too late for us to catch up now.”

Jin Ke: “.....How do we chase?”

The school team could hardly hold up anymore, and Wei San was going around to destroy the star beast's eyes.

“She and I will stay to deal with this star beast, and you can catch up to them.” Ying Xingjue said slowly.

“.....You two?” Jin Ke snorted, “Have your senses recovered?”

“No.” Ying Xingjue raised his eyes and looked towards Wei San, “Since she was able to cut off two tentacles just now, as long as she exerts the same strength, there will be no problem.”

Jin Ke was a little hesitant. Outsiders didn’t know, but he clearly knew that Wei San was a super 3S level.

“Wei San, you and Ying Xingjue stay to deal with this star beast, and we’ll chase up to Pingtong Academy, okay?” Jin Ke shouted to Wei San.

Wei San: “?” She alone?

She looked at Pingtong Academy again. They had already taken the opportunity to jump over the star beast’s body and began to move forward.

In the mecha cabin, Wei San, who was familiar with the way, stuffed a paper ball into her nose: “Okay, you guys leave quickly!”

Live broadcast.

“She is very courageous. She had just cut off two tentacles with great difficulty, but she dared to hold on alone. Are the students of this year so ambitious?” After Lu Zhengxin finished his own evaluation, it was not enough, and he wanted to ask Xi Haotian, “What does Lieutenant General Xi think?”

Xi Haotian didn't want to speak at first, but Lu Zhengxin asked him specifically. In front of so many viewers on the live broadcast, he was embarrassed and refused to reply, so he could only say: "There is also Ying Xingjue, maybe it can be done." He doesn't comment much anymore. Now in his third year in the military, what this military cadet does is always unexpected. The more comments he makes, the easier it is to get slapped in the face.

"Lieutenant General Xi seems to have forgotten one thing." Lu Zhengxin said with a half-smile, "Ying Xingjue is the main commander of the Imperial Military Academy, and it is not uncommon for cooperation to be temporarily broken up in the past. The result of Pingtong Academy winning first is obviously better than Damocles Military Academy winning."

Chapter 494

If Damocles Military Academy won first place this time, it will soon catch up with the Imperial Military Academy in points.

"As the commander of Damocles Military Academy, won't he have the brains to think clearly about this matter?" Yu Tianhe said, "Ying Xingjue will never be the one to tear up cooperation."

Below, Jie Yuman looked at the commentator on the stage: "I remember that these two people had a relationship when they were in the military academy? Why do they feel like they have a grudge now?"

Xiang Minghua sighed: "They are probably a pair of resentful couples."

Other military school teachers: "???"

Is this the time to pay attention to this? The championship of your military academy is about to be snatched away, and one of the main soldiers is about to be in danger. Now you are concerned about the love and hatred between the main players?

.....

Everyone in Damocles Military Academy obeyed Jin Ke's order and immediately withdrew. Those tentacles immediately drew back towards Wei San, obviously hating her very much.

"Let's go, Wei San, work hard on your own." Liao Runing left this last sentence.

Wei San: "....."

Several tentacles attacked her alone at the same time, but Ying Xingjue still only suppressed the original tentacles to prevent them from moving, and ignored the rest. Wei San could only escape on her own, and had to constantly provoke this behemoth to make it move, so it would only focus only on herself and would not interfere with the passage of Damocles Military Academy.

After destroying an eye again, the behemoth was completely enraged and waved its tentacles wildly in the sea water. Wei San was unable to dodge and was hit in the back by one of the tentacles. The entire mecha was sucked by the tentacles from the back. A tentacle was raised high, and the tentacle head had turned into a sharp tip, and it stabbed straight at Wei San, trying to pierce her entire mecha.

Wei San's back was sucked by a strong suction force, and she was unable to move. She had no choice but to look at Ying Xingjue, who was completely motionless on the opposite side: "Help me, are you unable to?"

Ying Xingjue's tone showed no fluctuation, and even revealed a hint of innocence: "En, I can't."

Wei San: “.....” You win, Fire of the Empire.

The moment the tentacle stabbed her, Wei San blocked it using the Sumi Sword in her chest to protect her vitals. The tentacle struck the Sumi Sword with the fury of a giant, and the aftershocks of the force passed through the knife and reverberated into the mecha.

Wei San’s nose didn’t bleed, but she vomited a mouthful of blood first.

“I already said that Ying Xingjue has his own considerations. Jin Ke is a 3S level commander, but he is so naive, and doesn’t worry about letting two people stay together.” Lu Zhengxin couldn’t help but shake his head when he saw this, “If he lets go of his control over those tentacles, Wei San will only die.”

Xi Haotian also frowned and looked at Impermanence who was surrounded by several tentacles in the camera. Although Ying Xingjue was cooperating with other military schools for the first time, his face was too confusing and he really didn’t look like someone who would break his promise.

Live broadcast.

[What about Wei San’s ultimate move just now? Can’t she solve it in one go?]

[The reason why her ultimate move is called a big move is because it is rare. If it can be used all the time, it is not called a big move.]

[I think Lu Zhu's explanation is correct. Later, when Ying Xingjue releases his suppressing tentacles, Wei San basically has no room to fight back. No matter how powerful her mecha is, it can't withstand the squeeze of the tentacles. 】

.....

In the mecha cabin, Ying Xingjue looked at Wei San, who was always surrounded by tentacles, and frowned slightly. Finally, he put his senses away, and all the suppressed tentacles in front of him broke free and headed in Wei San's direction.

Chapter 495

Wei San sliced off two of the original fourteen tentacles, but now Ying Xingjue let go and all twelve tentacles attacked her alone.

Wei San, who was out of breath after being squeezed by the tentacles: "....." He lost his control at the critical moment?

"Sorry, I feel like I can't take it anymore."

Wei San vaguely heard Ying Xingjue's voice, and felt numb in her heart. What kind of super 3S level commander would be incapacitated after being injured once. In the end, she had to rely on herself.

Infirmery.

While watching the live broadcast footage and the data recorded on his light brain, Jing Ti felt his heart go up and down, very complicatedly.

When Wei San cut off the two tentacles, her data skyrocketed, then stopped abruptly, quickly fell back, and returned to a smooth horizontal line, as fast as if it had never appeared before. And now..... the data has started to rise again, and the trend has soared to 90 degrees.

Jing Ti: “.....” This was the first time he had seen such an abnormal increase.

Just like the vent of a pressure cooker, when it is blocked, no gas will escape at all. Once the obstruction is removed, the gas in the vent will burst out into the sky.

All the fluctuations under the sea surface stopped for a moment, and in the next second, Impermanence, who was wrapped up by twelve tentacles, began to struggle. The audience could only see a huge cocoon twisting constantly, and could not see the situation of Impermanence inside.

In the mecha cabin, Ying Xingjue suddenly raised his eyes, seeming to sense something, and looked towards Wei San through the window.

The twelve tentacles were still trying to tighten, trying to kill Wei San, but Wei San didn't want to die, and her Sumi sword, which was entangled in the roots of the mouthparts, retracted and transformed into a fan-shaped knife.

——The cocoon is loosened.

No, the cocoon is cracked from the inside out.

Wei San controlled Wu Chang to break free, and the fan-shaped knife she held in her hand flew towards the behemoth.

This star beast seemed to be aware of the huge danger, and its entire body began to shift. It wanted to reach out to the other side, but it was too late.

Her fan-shaped sword crossed the star beast's eyes horizontally from left to right. Every eye was not missed, and all the pupils were completely scratched. Finally, the fan-shaped knife returned to Wei San's hand.

The camera in the live broadcast room couldn't see everything carefully, but Ying Xingjue could see that the force of each scratch was exactly the same, and it was not even reduced due to the resistance in front.

This means that Wei San's sword still has a lot of remaining power.

This star beast was in pain and wanted to touch its own eyes with its tentacles, but there was no way. All twelve of its tentacles had broken off, losing connection with its main body, and the roots in its mouthparts could not regenerate.

Its body is still changing. If it wants to hide this side of its body, it has to use the other side of its body to defend itself.

Wei San tasted rust in her mouth, calmed down a little, turned to look at Ying Xingjue, and rushed towards him quickly.

Live broadcast.

Seeing this scene, Lu Zhengxin's eyes flashed with excitement, and he straightened up and said: "Is Wei San going to attack Ying Xingjue? I don't know who will have the advantage against a super 3S-level commander with a super-3S-like mecha."

The audience in the live broadcast room also sent bullets flying.

【Fight, fight! 】

[Wei San f*** him! Shameless Empire Star! 】

[I bet Ying Xingjue is already waiting for her to attack, and he will use his perception to fight back. 】

Chapter 496

[I never expected that the commander-in-chief of the Imperial Military Academy would be so shameless. He broke his promise, and even though he had promised to deal with the tentacles together, he deliberately let go of those tentacles. 】

[Fortunately Wei San is strong enough, otherwise Damocles Military Academy would have one of its main soldiers eliminated. As expected of a tactical commander, he is too dirty-minded. 】

[Before, everyone at Damocles Military Academy should have kicked him out directly, but now they were clearly bitten by a snake. Unfortunately, I liked Ying Xingjue so much before, so I was blind. 】

[Ying Xingjue is a super 3S level commander after all, Wei San may not be able to win against him. 】

It wasn't until they saw Wei San come closer, until the two mechas were almost cheek to cheek, but Ying Xingjue still didn't move.

To everyone's surprise, Wei San did not go over to attack Ying Xingjue, but instead grabbed Huang Jin Kai sideways and jumped forward quickly.

Everyone on the live broadcast: “???”

Audience in the live broadcast room: “???”

What about the promised fight?

“Are you not going to kill this star beast? You can receive a lot of resources.” Even though Ying Xingjue was being carried away, his voice remained calm, although he seemed a bit funny to the audience now.

“Kill for what? I can’t beat him.” Wei San said, “The first one to raise the flag must be from our Damocles Military Academy.”

There is not much difference in strength between Pingtong Academy and Damocles Military Academy that rushed over. They are both the main mecha soldiers. Only by passing through can they have the greatest advantage.

Wei San was so stupid that she continued to stay here. When the behemoth turned around completely, there were new tentacles and eyes.

She carried Ying Xingjue and rushed forward, hoping to catch up with Damocles Military Academy.

Live broadcast.

At this moment, everyone’s attention was focused on the live broadcast of the Imperial Military Academy.

“Damocles Military Academy is so unlucky. It seems that they have just been making wedding dresses for others.” Although Lu Zhengxin was slapped in the face just now, he could still talk eloquently. “First, they let the team from Pingtong Academy pass. Now it’s not easy. Half of this star beast was destroyed, and a way was created for the Imperial Military Academy.”

The teachers at Damocles Military Academy were as numb as water.

Wei San crippled half of this behemoth, and it began to turn, trying to turn the other half over. The completely injured side was in another sea area, which happened to be the sea route where the Imperial Military Academy was about to arrive.

When the time comes, the Imperial Military Academy will be able to land on the island without any effort.

At this moment, no one in the Xita Arena knew that Wei San was still trying to catch up with Damocles Military Academy team.

After the people from the Imperial Military Academy entered the sea, they looked ugly when they saw the disabled tentacle monster.

“Damocles Military Academy has already caught up to the island?” Situ Jia looked at the seriously injured tentacle monster and felt confused. Except for the accident in the last competition, their Imperial Military Academy had always been in first place, and now they were about to lose first place again?

“The broadcast hasn’t started yet, let’s hurry over.” Huo Jian said.

Ji Chuyu seldom makes a sound now and just walks forward.

The team from the Imperial Military Academy reorganized and crossed the sea. On the way, Gong Yijue kept staring at the eyes and severed tentacles of the giant tentacle monster. Finally, he said to several

members of the main team: "The scars on its eyes should be from the fan-shaped sword of Wei San injuring it in one blow."

Several members of the main team remained silent. Not only that, all the injuries here were caused by one person, which meant that Wei San injured it alone.

"Let's go! It seems to be turning back." Situ Jia suddenly said.

.....

Half an hour later, three military academies landed on the island at the same time, and everyone outside the Xita Arena was shocked.

However, none of the three military academies knew about it. After the Imperial Military Academy landed on the island, there were high-level star beasts on the road they were walking on. They had no choice but to stop and deal with these star beasts.

And Damocles Military Academy finally caught up with Pingtong Academy.

Chapter 497

"Wei San isn't here?" Lu Shibai glanced at Damocles Military Academy, "You want to fight here?"

Jin Ke smiled slightly: "It's not that easy to pick up the slack. If you want to get the first place, you have to get past our military academy first."

“Just in time, our Pavilion Master has been eliminated, so two of your main soldiers must be eliminated.” After Lu Shibai finished speaking, he took a step back, and the two main mecha soldiers from Pingtong Academy came up, facing Huo Xuanshan and Liao Runing in front.

“This young master is not easily eliminated, but your Pavilion Master will be eliminated when he says he is eliminated.” Liao Runing clicked his tongue twice, expressing his ridicule vividly.

Takeshi Kosakai was the first to attack Liao Runing, while Huo Zian faced against Huo Xuanshan.

The main soldiers of the two military schools were restrained, and the next step was a duel between the school teams.

Many people at Damocles Military Academy had their mechas damaged due to previous battles with the tentacles under the sea, but there were also many members of the Pingtong Academy team who were eliminated. The number of members who can fight from the two military schools was even for a while.

Now they can only see whether one of the main soldiers will win, or whether the mecha engineers from Damocles Military Academy will repair the mechas first, allowing the soldiers of the school team to enter the battle, win, and rush to pull the flag.

When the three military academies were being restrained, Wei San dragged Ying Xingjue to the destination island.

Wei San looked around: “Where have they gone?” They walked so fast. Have they already gone to the top of the island to fight?

Ying Xingjue said slowly: “We may have gone astray. No team has come here.”

In the live broadcast room, the organizer specially cut out a bird’s-eye view of the three military academies, who have now divided into four sides to land on the island.

This development was unexpected by everyone.

[Now, I don’t know who will obtain first.]

[I’m about to laugh to death, what a miraculous development this is.]

[Obviously the military academies this year are extremely powerful, so why do things always head in strange directions? It’s only the fifth game, can there be an even weirder direction in the future?]

“Forget it, let’s go straight up first.” Wei San jumped up a few steps, then fell back after thinking about it, grabbed Ying Xingjue’s hand, and continued to rush forward.

They didn’t encounter anything along the way, not even half of the star beasts, and went straight to the top platform of the destination island.

Looking at the empty destination island platform, Wei San said: “.....”

Where are the people?

Wei San turned her head and glanced at Ying Xingjue, immediately let go, ran to the finish line, and took down the flag of Damocles Military Academy.

When she turned around, Ying Xingjue was already beside her.

Wei San: “.....” His speed is so fast? She had tried so hard to pull him up just now in vain.

A broadcast immediately sounded in Xita Arena.

【Congratulations to Damocles Military Academy for successfully reaching the finish line. I repeat, congratulations to Damocles Military Academy for successfully reaching the finish line. 】

When this announcement sounded, the three military academies below were stunned.

“Who went to lift our flag?” Ying Chenghe looked around, and no one left to go up.

Jin Ke was also stunned: “.....Wei San?” But he never heard the announcement of killing the star beast.

Everyone in Pingtong Academy was stunned, their expressions became extremely ugly, and they started to turn around and run up wildly.

After Damocles got first place, they couldn’t attack.

The next second, two broadcasts sounded in the stadium at the same time.

【The Imperial Military Academy successfully killed four 3S star beasts, and 29 people from the school team were eliminated. 】

[Congratulations to the Imperial Military Academy for successfully reaching the finish line. I repeat, congratulations to the Imperial Military Academy.....]

“What is it?” Gong Yijue listened to the two overlapping broadcasts and doubted his ears for a moment, “Did you hear it?”

“The Imperial Military Academy successfully reached the finish line.” Situ Jia hesitated, “We are still here, how could it be?”

“Xingjue, it must be him.” Ji Chuyu immediately reacted.

Everyone in the Imperial Military Academy breathed a sigh of relief. Their commander was fine, and he took down the flag alone before them.

That's not right.....alone? The first announcement just now was from Damocles Military Academy.

Chapter 498

The members of the Imperial Military Academy were confused after hearing the broadcast. They had no idea why Ying Xingjue would leave them and come to destination island alone.

They wanted to go up to the destination platform to see what happened. Ji Chuyu led the team from the Imperial Military Academy to rush up, and when they reached the top, the rescuers on the aircraft that had descended from high in the sky were already shouting to them.

“Stop running, the flag has already come down, come up quickly and go to the exit.” Before the aircraft had completely landed, a staff member stood at the cabin door with a loudspeaker and shouted, “We’re speaking about you, students from the Imperial Military Academy.”

Ji Chuyu and other main team members: “.....”

Live broadcast.

[Hahahahaha, quickly cut this scene to see what these proud men have become.]

[What are the staff doing? Hahahaha, why don't you let them go up?]

[This staff member seems to be from Damocles Military Academy.]

After unfurling the flag, the military academy basically had to wait for the aircraft to pick them up. The Imperial Military Academy team could only stop and board the aircraft.

The Sita star beast is afraid of the eyelash liquid of that mutated plant. These large aircraft spent half a month to coat the outside of the aircraft to avoid the flying star beast in the sky.

After Ji Chuyu went onboard, he looked inside and asked the staff where Ying Xingjue was.

“He? He also went to the exit at this time.”

“Also? The main commander is not on this aircraft.” Gong Yijue searched all over the aircraft where the cadets stayed, but did not see Ying Xingjue.

The staff member scratched his face and said softly: “He is on the aircraft with Damocles Military Academy.”

Everyone at the Imperial Military Academy: “???”

What's this logic? The chief commander of their military academy boarded someone else's aircraft?

The main team members wanted to ask the staff more information to find out, but the staff were busy counting the star beasts and had no time.

The staff member said: "I can't explain it clearly in this moment, the matter is a bit complicated. You will leave soon. You can go out and ask Ying Xingjue or watch the live broadcast replay by yourself."

Looking at the backs of the staff leaving, the people from the Imperial Military Academy said: "....."

Ten minutes ago.

At the top of the island at the end, Wei San turned to look at Ying Xingjue who had finished unfurling the flag, and reminded: "Don't forget the resources we agreed on."

Ying Xingjue put down the general's flag and nodded to show that he remembered.

Wei San came out of the mecha and appeared in the camera with two paper balls stuffed in her nose. It was obvious that she had a nosebleed.

As if nothing had happened, Wei San concentrated on waiting for the aircraft to pick her up. It happened that the aircraft over Damocles Military Academy was closer to the top of the island, so it came down to pick her up first.

The entire audience watching the live broadcast saw Ying Xingjue subconsciously following Wei San into the aircraft.

At this moment, the teachers of the Imperial Military Academy in the audience were confused. It was fine if he was snatched away by others before, but what would happen if he actively followed others now?

At this time, Wei San's confused voice finally spread out of the live broadcast: "What are you doing in here?"

There was no camera inside the aircraft. After the cadets entered, they were cut off from the camera.

Ying Xingjue was silent. In previous competitions, the aircraft over the Imperial Military Academy had always been the first to pick up people. He was used to this.

Wei San looked at his pale face carefully, and finally turned to ask the staff: "Can we bring cadets from other military schools out? I think he doesn't seem too well anymore."

Ying Xingjue: "....."

He remained silent and acquiesced.

Staff: “.....alright.”

Chapter 499

In this way, the aircraft brought Wei San and Ying Xingjue to the island to pick up the people from Damocles Military Academy.

When everyone in Damocles Military Academy came up, they didn't pay attention to Ying Xingjue in the corner, but surrounded Wei San.

“When did you go to the island? No one was there, and there was no announcement from the radio.” Jin Ke asked first.

“I was still thinking about the situation between you and the tentacle monster during the fight with Pingtong Academy, but you quietly went to the island to pull out the flag.” Liao Runing sat down next to Wei San, “Is it cool to pull out the flag first? I haven't pulled it out yet.”

Wei San raised her brows: “You will know how it feels when you pull it out in the next game.”

Ying Chenghe sat on the other side: “You haven't answered Jin Ke's question yet.”

Wei San spread her hands: “I disabled all the tentacles of that tentacle monster and rushed after you, but I didn't see anyone when I got ashore, so I thought you were at the top of the island.”

“We caught up with Pingtong Academy as soon as we landed and fought with them.” Jin Ke leaned on the small table next to her and said, “Fortunately, you moved quickly and took another path.”

Huo Xuanshan said quietly: “I’m afraid she was lost, so she took another road.”

Wei San paused, stretched out her foot and kicked him: “Can you please stop exposing me?”

“We won the championship again. When we go out, we will ask the teacher and the others to treat us to dinner.” Liao Runing had already begun to think about how to calculate their teachers.

“Where can I find delicious food and fun in Sita Star?” Ying Chenghe asked several people.

Wei San: “.....I don’t know.”

Jin Ke: “We were training a while ago, so I didn’t pay attention.”

Huo Xuanshan: “Go out and check.”

Ying Xingjue sat in the corner, his eyes swept over everyone in Damocles Military Academy, and finally his eyes fell on his cousin Ying Chenghe.

Before the competition, he only had one label for Chenghe. He went to the 3S mecha engineer of Damocles Military Academy. They were not the same people.

In other words, Ying Chenghe was not close to the Ying family, but in Ying Xingjue's memory, he was very reserved and guarded against everyone. He has never laughed so happily and unguardedly as he does now.

The main team of Damocles Military Academy discussed for a long time how to tease their teachers, and finally Jin Ke walked over to Ying Xingjue.

The two commanders sat face to face, it was nothing more than a competition between two military academies, and their words were full of calculations.

He doesn't want to compete now, he just wants to rest for a while.

"Half of the resources for this game will be given to you after we leave." Ying Xingjue said directly.

"I'm not speaking to you about this." Jin Ke had already kicked Liao Runing and Ying Chenghe away, occupying a bench for Wei San who was sleeping, "Let's find some time to talk after we get out."

Ying Xingjue raised his eyes: "Us? We can speak over comms."

Jin Ke took something out of his pocket and threw it at Wei San who was lying on the bench over there.

Wei San closed her eyes, reached out to catch it, opened his eyes, and looked at Jin Ke: “What are you doing?”

Jin Ke looked at Wei San, then turned back and glanced at Ying Xingjue’s waist, and said in a serious tone: “Let’s talk.”

Ying Xingjue remained silent and finally said: “.....Okay.”

.....

In Sita Arena, the third announcement soon sounded, which was the announcement that Pingtong Academy had successfully reached the finish line.

At this moment, Samuel and South Percy also met on the last section of the sea route. However, the two military schools were unlucky and encountered half of the tentacle monster that was still intact. The two military academies can only work together to deal with it.

It’s difficult to deal with,

After all, Damocles Military Academy had Ying Xingjue before, who could control half of the tentacles. However, this tentacle monster was injured after all, and its strength had dropped drastically. The two military academies joined forces and finally managed to overcome it.

After landing, the agreement between the two military academies to work together was immediately torn up, and a battle began.

Even if there are no points for the fourth or fifth place, they still have the advantage of the starting station, and no one from the two military academies is willing to give up a slight advantage.

South Percy Military Academy's Yamamiya Namiha and Yamamiya Isao can resist level 3S together, but Samuel Military Academy's Jill Wood's strength has improved, and 3S can't restrain her for a while. The two military academies are tied. That's when the school team's advantage emerged.

Samuel had lost a lot of people on the starship before. Although South Percy was the last to enter, they played steadily and the school team was still intact. One team got rid of the struggle and rushed to the platform of the destination island, pulling down the military flag of South Percy.

[Congratulations to South Percy Military Academy for successfully reaching the finish line, repeat.....]

Chapter 500

The two military academies under the island heard the announcement and stopped one after another.

"What the hell, we are fifth again." Xiao Eli cursed.

The competition rankings were released, and the Damocles Military Academy and the Imperial Military Academy arrived at the exit almost one after the other.

The people from the Imperial Military Academy stood behind, looking at their commander standing in the ranks of Damocles Military Academy. They felt extremely complicated and confused for a moment.

How did things develop into what they are now?

As soon as they came out, the media began to turn their microphones on the main team members of the two military academies. Damocles Military Academy had too many various operations. The reporters asked all kinds of questions. On the contrary, as soon as the people from the Imperial Military Academy came out, Lanfa Media directly stepped forward and asked everyone's thoughts.

"How do you feel about the Imperial Military Academy's commander-in-chief being snatched away by Damocles Military Academy?"

Ji Chuyu frowned, and Situ Jia beside him said: "They were just sitting in one flight....."

A reporter from Lanfa Media held the microphone on the opposite side and said: "The word 'snatched away' is not an adjective, but a verb."

A reporter from the media nearby interrupted: "They don't know about this yet."

"What's going on?" Ji Chuyu asked them.

At this time, Ying Xingjue came over from the Damocles Military Academy, and the reporter pointed the microphone at him and asked the question again.

“The problems existing in the Imperial Military Academy will be corrected one by one in the future.”
Ying Xingjue did not answer directly.

“This is the second time that the Imperial Military Academy has lost its championship spot. Do you think the Imperial Military Academy can still win the championship?”

“It’s just a divisional competition, and the overall champion will only be from the Imperial Military Academy.” Ji Chuyu stepped forward and stood next to Ying Xingjue, took the microphone, and reiterated again.

Most of the media were crowded around Damocles Military Academy.

“Wei San, what do you think about Ying Xingjue breaking his promise?”

A member of the media stood on a stool in the back, holding a microphone and shouting loudly, which could be heard clearly by people in both military academies.

Everyone was looking at Wei San.

Upon hearing this, Wei San turned to look at Ying Xingjue: “Aren’t you going to give us half of your resources?”

The reporter standing on the stool: “.....tt’s not this promise,ise. When you were dealing with the star beast at the bottom of the sea, he deliberately let go of his control over the tentacles to kill you.”

Wei San heard this, thought for a while, and casually picked up a microphone in front of her: “The agreement we reached is half of the resources for the two games. He drags the tentacles and lets Damocles Military Academy pass. He wasn’t able to later, and we can’t force him to support.”

The reporter was silent for a long time, never expecting that Wei San was still a considerate person.

Seeing other media starting to ask Wei San questions, he shouted again: “How come Super 3S can’t hold back so many tentacles? He definitely did it on purpose.”

Wei San: “Super 3S is also a human being, and a person still reaches exhaustion.” This is obviously a superstitious belief in the Super 3S. Even Superman still has problems sometimes.

After saying this, Wei San pushed the microphone to Jin Ke next to him: “If you have any questions, ask the commander.”

The people from the Imperial Military Academy had already begun to walk out. Ji Chuyu followed Ying Xingjue and asked him in a low voice what the reporter meant just now.

The author has something to say:

Double-standard Xingxing: shall we talk? Communication is enough, and her? Okay, let's talk.
