

Smash All 501

Chapter 501

The military academy teams returned to the rest area to adjust. As soon as the people from the Imperial Military Academy came out, most of them didn't even take a shower. They went back to their rooms to watch the live broadcast replay. When they saw the scene of Ying Xingjue being snatched away by Wei San, everyone was stunned into silence.

Their main commander was not protected by their own team, but was snatched away by people from another military academy, and was despised by the people there.

It must be said that at this moment, the pride of the Imperial Military Academy was completely crushed.

Ji Chuyu stared at the people at Damocles Military Academy in the live broadcast, his jaw tensed up. He opened the door to look for Ying Xingjue, and discovered that Huo Jian and Gong Yijue were also there.

Ying Xingjue had just finished changing his clothes and came out. His expression was as calm as ever, without any hint of embarrassment.

"Why didn't you come to find us?" Ji Chuyu asked him.

Ying Xingjue sat down, took a towel and slowly dried his hair, and asked: "Why do I have to go back to find you?"

Ji Chuyu paused and said: "Are you angry? Angry at our negligence, but if you come back, we still have a chance to win the championship."

"Before I left, Pingtong Academy was behind the Imperial Military Academy." Ying Xingjue raised his head, "Why did they overtake us?"

Ji Chuyu was silent.

Seeing that he didn't speak, Ying Xingjue didn't ask any more questions. Instead, he opened the live broadcast room with his light brain and waited until the time when the two military academies fell into the water. The two live broadcast rooms were played at double speed.

There was silence in the resting place, and few people spoke. Situ Jia pushed the door open and came in. Seeing them like this, he didn't dare to speak and stood quietly aside.

Ying Xingjue looked at the Imperial Military Academy, which had become a mess since he left, and then looked at Damocles Military Academy, which was completely free of chaos after Jin Ke lost consciousness, without any surprise in his heart.

The several main players standing nearby could clearly see the gap between the two military academies without a main commander at the same time.

"I'm not the only one competing for the Imperial Military Academy." Ying Xingjue stopped watching and turned off his light brain.

"We are worried about you." Ji Chuyu said stiffly, "I don't know what happened to you, but you should at least get in touch with our commanders."

Ying Xingjue held the towel: "Without me, you can't continue the competition? On Huanye Star, what did you learn from the cooperation of those armies?"

Even when he was questioning, his voice remained calm, and his gaze towards Ji Chuyu remained unchanged.

"I'm sorry." Gong Yijue took the initiative to admit his mistake.

Ying Xingjue's eyes fell on him, without any unnecessary emotion: "The problem is not with you, but with me. We will start reviewing tomorrow."

The radio outside was already calling them to get ready to receive the award.

Several people from the main team went out, leaving space for Ying Xingjue.

Chapter 502

It was rare for the teachers of the Imperial Military Academy not to hold an emergency meeting. This time Sita Arena made them realize one thing, how much the Imperial Military Academy relied on Ying Xingjue.

The team leader teacher was really interested in training, so he came to Ying Xingjue's resting place and spoke in a condescending manner: "The process of Sita Arena's competition this time was too outrageous, and Damocles Military Academy won the championship."

Not long after the main players left, Ying Xingjue wiped his hair with his hand and stood up.

The leading teacher was startled and took a step back, thinking that Ying Xingjue was going to take action.

“It’s probably because teacher didn’t teach well, which caused the Imperial Military Academy to worsen.” Ying Xingjue said calmly, “Next, I will apply to the school to replace the lead teacher.”

The leader of the team stared wide-eyed: “You can’t do this! You.....” He was just holding grudges against Ying Xingjue, who was trying to save his face in the conference room before. After all, he was a member of the Ji family.

When he heard Ying Xingjue speak like this, he was immediately frightened.

Ying Xingjue walked to the door, opened it, and motioned for him to go out.

.....

Damocles Military Academy Resting House.

Jin Ke took out a spherical shielding device from his pocket and placed it on the side.

Wei San reached out to touch it to see what it was, but had her hand slapped away.

“Let’s talk business first.” Jin Ke said seriously.

“What business?” Wei San stared at the shielding device and said without thinking, “Didn’t we already win the championship?”

At this time, even Liao Runing looked at Wei San seriously.

Wei San raised her head: “.....”

She immediately sat up straight and said: “Okay, let’s talk business.”

“You said there was black insect mist in the test tube around Ying Xingjue’s waist?” Jin Ke asked, “Is the insect mist inside there all the time?”

Wei San nodded: “It’s always been there. His perception has been covering it. Didn’t you notice?”

Jin Ke: “There is a faint feeling, but we can’t see the black insect mist inside.”

"I have normal vision, not color blindness." Wei San said first.

Huo Xuanshan crossed his arms: "It's a matter of color. I remember this is the second time."

Everyone looked at him, and Liao Runing suddenly realized: "Last time in the extremely cold arena, Jin Ke said it was a giant white wall, and Wei San said it was a giant gray wall."

"There is indeed a star beast inside the wall, even if we can't see it." Ying Chenghe pondered, "But Wei San can see the gray star beast. By analogy, there is a star beast in Ying Xingjue's test tube?"

"You can only see star beasts if you exceed level 3S." Jin Ke frowned, "That test tube was brought from Huanye Star by Ying Xingjue. If there is really black insect mist in it, it must be from Huanye Star."

Huo Xuanshan asked: "Unknown star beasts have appeared in the Guyu Arena, the Extreme Cold Arena, and the Huanye Star. Can only Wei San or people at the Super 3S level can see these?"

"I got news that there are star beasts in Huanye Star that have evolved. Maybe these are evolved star beasts. Human beings may also be evolving, such as..... Jill Wood from Samuel Military Academy." Jin Ke looked at Wei San and said, "I have made an appointment with Ying Xingjue to have a talk. Let's go there together, the five of us."

Wei San nodded: "Okay."

After discussing this matter, the good mood of the main players of Damocles Military Academy to win suddenly dissipated, and the faces of all five of them turned foul.

Chapter 503

When it came time to receive the award, the main members of the Damocles Military Academy looked worse than the Imperial Military Academy, which came in second, and Pingtong Academy, who came in third.

The major media took a group photo of the members of the main teams of the three military academies on the podium with stunned expressions on their faces, completely confused about the situation.

The main team members of South Percy Military Academy and Samuel Military Academy under the podium looked unhappy. They worked hard to earn third place. The people on the podium were better, but each one was more unhappy than the other.

Xiao Eli snorted: "What kind of person will pretend after receiving an award? They are obviously very happy."

This time receiving the award was much grander than last time, and the major media were also present. After the trophies and medals were handed out, reporters came up one after another to ask the members of the main team of Damocles Military Academy how they felt now.

Jin Ke: "The trophy is very heavy, why am I, the commander, holding it?"

Liao Runing: "I'm quite hungry. I want to eat first."

Huo Xuanshan: "After we get the medal, I want to go back to sleep."

Wei San: "I've held it once before, but I didn't feel much this time."

"Excuse me, what do your mecha engineers at the Damocles Military Academy usually learn?" Lanfa's reporter squeezed in, "Your mecha engineers' performance in the competition was eye-catching."

Ying Chenghe: ".....Our mecha engineers are actually technicians. Once one is done, all things can be done."

"So I heard that it was your mecha engineers from Damocles Military Academy who built a temporary signal tower and sent out the video in the extremely cold arena?"

Ying Chenghe glanced at Wei San quickly, and then said: "Yes, learn more skills, it can save lives at critical moments."

"Now the Star Network says that your Damocles Military Academy mecha engineers are better than other military academies' mecha engineers. What do you think about this?"

"It's pretty good. Our mecha engineers at Damocles Military Academy are really strong." Ying Chenghe said without blushing.

The parents of the Ying family, who had no idea what was happening from the Imperial City at the moment, watched this live interview and began to wonder if the person in the camera was actually their son.

Father Ying: "How come this child has become..... not humble at all."

Mother Ying: "Pretty good."

Father Ying: "I thought that going to Damocles Military Academy would make him calmer."

The cadets from the Imperial Military Academy nearby were also pestered to ask various questions, of course, they were all questions about losing the championship. It was understandable that they didn't win the championship in the last extremely cold game, but losing this game in front of the entire federation was a huge problem.

Although the cadets in Pingtong Academy were not happy, they found a strange balance in their hearts when they saw that their strongest target opponent in the past had taken second place and had lost their leader in the middle of the game.

After the main players of the Damocles Military Academy answered the reporters' questions, they jumped off the podium and prepared to run away.

Wei San was stopped by Jie Yuman.

"Teacher Jie?"

“Wei San, we thought about it and discovered that you still have too little training.” Jie Yuman smiled slightly and said, “It’s the teachers’ fault that they didn’t see that you still have such great potential.”

“Teacher.....” Wei San covered her head and supported her waist, “I’m dizzy and weak.”

Jie Yuman chuckled: “Before coming, I specifically asked Dr. Jing, you are in very good health and can kill a star beast with your bare hands.”

“How could this happen? Teacher, I am malnourished.” Wei San grabbed Jie Yuman’s sleeve and said weakly, “I often feel uncomfortable.”

Jie Yuman retracted his hand ruthlessly: “When you can defeat me, these trainings can be halved.”

Wei San straightened her back immediately: “Really? Teacher, this is so embarrassing.”

“.....Haha.” Jie Yuman slapped the training sheet into her hand, “I’ll tell you if you can win.”

After Jie Yuman left, Jin Ke and Huo Xuanshan came over.

Jin Ke whispered: “We have an appointment with Ying Xingjue tonight.”

The author has something to say:

Xingxing: Do you want date tonight?

Chapter 504

Late at night, Sita Training Ground.

There was a row of dimly swaying figures in the corner of a building. One of the figures stretched out his hand to pull the figure in front of him, accompanied by a low voice: "Squat down, there is a camera."

Ying Chenghe: ".....young master, can you let go of my hair?"

Ever since his hair was pulled by Wei San, his hair has been tampered with by other people from time to time.

"Master Ying, be careful." Liao Runing looked back to make sure no one was there before whispering.

The two of them fell behind, with Wei San taking the lead, Jin Ke and Huo Xuanshan following behind. The five of them lined up against the wall, waiting for the security camera to be removed.

Wei San stared at the security camera and turned to look at Jin Ke: "Can't you find a better place for us to meet?"

Jin Ke squatted behind her, ducking his head: "Ying Xingjue is too conspicuous. If someone sees us with him, the star network will explode."

Huo Xuanshan was dizzy from being shaken by Jin Ke, and held his head down: "This height is not within the monitoring range, so don't move."

Wei San: ".....So you made an appointment to climb someone's building in the middle of the night?"

When Jin Ke came down from receiving the award today, he quietly sent a message to Ying Xingjue, saying that he would come to the dormitory to find him at two or three in the morning.

Ying Xingjue thought that Jin Ke was going to enter the dormitory building of the Imperial Military Academy, so he replied for them to find another place, but Jin Ke directly said they will climb in through the window.

Upon seeing this news, Ying Xingjue's first reaction was the scene when he saw Wei San climbing up the medical building at the extreme cold training ground. So.....climbing stairs and windows is a traditional habit of Damocles Military Academy?

In the end, Ying Xingjue agreed to wait for them in the dormitory.

Wei San took the lead, ducking down and quickly passed through the empty passage between the two buildings, followed by a series of tails. She clung to the wall and squatted in the shadow, waiting for the others to squat one by one.

The search light above the head turned around, and several people lowered their heads and hid in the shadow of the building. Wei San reacted and asked Jin Ke: "We are talking about star beasts, why do we need to hide?"

Liao Runing immediately pricked up his ears to listen, but he didn't understand either.

Jin Ke said: "It counts as so, let's talk to Ying Xingjue first." The matter of Wei San being a super 3S-level, he has still kept it a secret until now. If it is put on the table, other people in the Imperial Military Academy will easily notice that something is wrong.

After a period of hiding, the five people finally touched the back wall of the Imperial Military Academy's dormitory building.

"Which floor is it?" Wei San asked in a low voice.

"903." Jin Ke pointed to a window on the ninth floor, "He has the light on."

"One minute." Huo Xuanshan looked at his light brain, "The camera will turn around the window of 903 in one minute."

Wei San immediately climbed up quickly, found the lighted window, raised her hand and knocked on it.

Ying Xingjue, who was sitting in the room looking at the terrain map of Huanye star, and heard a sound coming from the window. He stood up and opened the window. When he saw Wei San appearing in front of him, he couldn't help but be startled: it was pitch black outside the window, and Wei San had her back to a person high in the sky. Under the shallow moon, a little light from the room fell on her face.

It's not that Wei San has never climbed through other people's windows. She even opened Dr. Jing Ti's window twice without thinking too much. As soon as Ying Xingjue opened the window today, she suddenly felt that she was a little offended.

"Let's hurry in." Jin Ke waited below for a long time but Wei San still didn't climb in. He couldn't help but go around Wei San, close the window, stuck his head out and saw Ying Xingjue in front of the window, "You should give way."

After Ying Xingjue saw Jin Ke, he immediately came to his senses and took a few steps back, waiting for them to come in.

"There are five seconds left, let's go in first." Huo Xuanshan and Liao Runing jumped directly to the window, hopping into Ying Xingjue's room ahead of Wei San and Jin Ke.

Ying Xingjue: "....."

"Come in quickly." Wei San jumped in third, turned around and pulled Jin Ke in, and used her other hand to pull Ying Chenghe who was lagging behind.

At the last second, when the camera swept over, Ying Chenghe was pulled in by Wei San and Liao Runing, and all five of them squatted under the window.

The camera only recorded the wide open window of 903 and Ying Xingjue standing in front of the window.

Ying Xingjue looked at the five people squatting under the window in the room: “.....the camera has turned around.”

Wei San and the others continued to crouch, then stood up separately and pressed against the wall of the room, all staring at Ying Xingjue.

“Hurry up and close the window and draw the curtains.” Master Liao said unceremoniously.

Ying Xingjue silently stepped forward, closed the window, and then drew the curtains.

After doing this, he turned around and saw that the five main teams of Damocles Military Academy were already sitting on his chair, on the table, and on the ground.

“.....What do you want to talk to me about?” Ying Xing moved the test tube around his waist behind him without leaving any trace. He originally thought that Jin Ke and Wei San were coming to talk about this matter, but it didn’t seem like it now.

“Stop hiding it. Today we want to ask you about the test tube in your waist.” Wei San, who was sitting on the chair, raised her chin.

Ying Xingjue glanced at the five people in the room, and finally met Wei San's eyes and said softly: "You are a super 3S level."

Five people: "? ? ?"

This is not what we discussed before coming.

Wei San pretended to be stupid: "My mecha is indeed Super 3S-like."

Ying Xingjue stood in front of the window and said slowly: "I mean your perception level."

At this time it was the commander's turn to come forward.

Jin Ke, who was sitting on the table, put his feet on the ground and straightened up: "When did you know that?" Originally, he brought someone here today just to show off his cards, but Ying Xingjue disrupted the plan in advance.

"The desert competition." Ying Xingjue's eyes fell on Wei San, "You guys are too close to her. After the hill competition, I suspected that she is level 3S."

"So you deliberately tried to test that time in the desert arena." Jin Ke finally connected some of the things he couldn't figure out at the beginning.

Ying Xingjue nodded slightly: "I just didn't expect that she was a super 3S level."

He had been in contact with the commander of the Thirteenth District and expressed the hope that the other party would suppress this matter. When the Super 3S level is not fully grown, it will only be a target of suppression by the Independent Army.

At that time, Ying Xingjue was talking about the Independent Army. He always thought that the issue of his nutrient solution was caused by the Independent Army, but now..... maybe there is another force under the Federation.

At least Guyu Star's simulation cabin caused the accident to those three people, long before the Independent Army rebelled.

Wei San and the others looked at each other, totally confused as to why Ying Xingjue didn't tell the rest of the Imperial Military Academy after he found out she was a super 3S level.

Liao Runing asked him this question directly.

Ying Xingjue lowered his eyes: "Super 3S level is the federation's hope for dealing with the star beasts. One more is the best. Dr. Jing Ti is always with us, and Wei San's health should also be in trouble."

Jin Ke understood what he meant: "That's why you deliberately concealed it for us."

The room was quiet for a long time before Ying Xingjue took out the test tube from his waist and asked Wei San: "What did you see?"

Chapter 506

"A black insect fog." Wei San said directly, "It's the same as the one I saw in the old simulation cabin on Guyu Star."

".....Sure enough." Ying Xingjue whispered. On Huanye Star, he used his senses to see the dense black insect mist. He immediately remembered what Wei San had said about the black insects she met on Guyu Star.

Liao Runing looked closely at the test tube in Ying Xingjue's hand: "What do you mean, there is really something in it? Only you super 3S can see it?"

You can't see it at level 3S, only people who are above level 3S can see it

After Ying Xingjue confirmed this piece of information, the speculations that had been lingering in his mind for so many years were finally settled.

"Did you bring the black insect mist here from Huanye Star?" Wei San asked him.

"Several cracks suddenly appeared in Huanye Star, and there was a lot of black insect mist underneath. I can clear them with my perception." Ying Xingjue put the test tube in place, turned on his light brain,

and magnified it so that they could all see it: "This is a list of accidents in simulation cabins at the Guyu exercise site in the past."

The others didn't have any reputation. Jin Ke frowned more and more as he looked at them, and finally pointed at three names: "What's going on with these three people?"

A good 3S level person became useless.

Normally, they would just lament that these 3S-level players are not mentally strong enough, but considering the current situation of Wei San, it is obviously not that simple.

"An accident in the simulation cabin, their senses were disabled after they came out." Ying Xingjue called up the information of the three people.

Jin Ke quickly opened the information on these three people. Without exception, they were all the top military cadets at the time. They had placed the expectations of all parties on them, but they were destroyed in a simulation cabin on Guyu Star.

"The time gap was too far and no one noticed." Ying Xingjue glanced at Wei San, "Last time, she and I were attacked."

The direction in his words was so strong that even Liao Runing reacted: "Are these three people also super level 3S?"

Jin Ke's face was extremely ugly: "The Independent Army has only defected for more than 20 years. It is impossible to reach out to such an early age. We need to tell the school."

“Are you sure?” Ying Xingjue’s dark eyes looked at Jin Ke quietly.

Jin Ke regained his composure from the shock: “Is there anything else you haven’t said?”

“You should have heard of the two times I attacked medical staff.” Ying Xingjue held the test tube at his waist, his eyes complex, “The nurse the first time and the doctor last time, I felt the smell the same as this black insect mist.”

When he said this, Jin Ke and Huo Xuanshan immediately looked at Wei San.

Wei San looked at the two of them from side to side, but didn’t react.

Huo Xuanshan reminded her: “You followed that doctor before and said he was ugly. Maybe it was a super 3S instinct.”

Wei San frowned and looked at Ying Xingjue: “You mean they are people transformed from the black insect mist?”

Ying Xingjue shook his head slowly and denied: “I mean they were infected by black insect mist. On the starship, there was a black insect mist mixed with a drop of blood that flowed down the vent and entered my room. These black insect mist’s goal has always been to exceed the 3S level.”

Wei San put her hands on the back of the chair and slowly pushed herself up: "Broken ship plank."

Several other people looked at Wei San, and Ying Chenghe was the first to recall: "The broken ship plank I mended? You said before that there was a gap."

"That's the ship's plank broken by Takeshi Kosakai. If there's blood, it's most likely his." Wei San raised her eyes and looked at Ying Xingjue, "When you boarded the starship, you were not far from him."

Ying Xingjue was startled: "I didn't feel that kind of aura on him."

Wei San frowned: "Why did you attack me when you were in the ice cave of the extremely cold arena?"

Ying Xingjue was startled.

Jin Ke, Liao Runing, Huo Xuanshan and Ying Chenghe all stared at Ying Xingjue. They had never heard Wei San mention this matter.

Ying Chenghe was the first to ask: "Cousin, are you sure there isn't something wrong with your perception?"

"I don't know." Ying Xingjue said slowly, "I once sensed a very shallow breath in the mecha cabin. Maybe I had an illusion."

Jin Ke was relatively calm and turned to Wei San: "Have you been exposed to anything before?"

The author has something to say:

Xingxing: one against five, being questioned. (□)

Chapter 507

"Except for the gray shapeless objects in the vortex, I haven't touched any other star beasts." Wei San recalled the situation at that time and suddenly said, "I had a nosebleed in his mecha cabin."

"What does your nosebleed have to do with this?" Jin Ke subconsciously questioned.

"Doctor Jing Ti said before that there was an unknown component in my blood." Wei San put her hands on the back of the chair and rested her chin on her arms. "Maybe I was also infected by the black insect mist."

"Nonsense." Liao Runing angrily exploded, "If you are infected, why doesn't Ying Xingjue attack you now? There is clearly something wrong with him."

Huo Xuanshan also disagreed with what Wei San said: "You are just malnourished. There is some unknown ingredient in your blood. It may be the problem with the batch of nutrient solution ten years ago. It has nothing to do with the black insect mist."

The words 'nutrient solution' made Ying Xingjue frown: "What are you talking about?"

The others didn't want to talk about Wei San's experience. On the contrary, she indifferently explained: "I didn't have money to eat before, so I picked up a batch of nutrient solution that Tongxuan Company was preparing to discard. I heard that the nutrient solution in that batch lacked necessary nutrients, which led to malnutrition."

For a brief second, the five from the Damocles Military Academy felt pressure from Ying Xingjue.

As the only Super 3S person in the room, Wei San had the clearest perception of Ying Xingjue's flash. To her, this was not pressure, but more like provocation.

She stared at Ying Xingjue: "What do you mean by this?" Did you want to fight?

Ying Xingjue closed his eyes slightly and spoke after a while: "No."

Jin Ke, who stood next to Wei San, suddenly became nervous. He had an inexplicable hunch that what Ying Xingjue said next was definitely not what they wanted to hear.

"The batch of ordinary nutrient solutions discarded by Tongxuan Company is just a gimmick, and there is no lack of nutrients." Ying Xingjue only said this sentence.

Jin Ke immediately understood what he meant, and his face changed: "The problem was with your batch of special nutrient solution. The problem with the nutrient solution that was so publicized during that time was just the knife your father used to clean up Tongxuan Company?"

“Ten years ago, I sensed that there was something wrong. I checked everything around me and finally traced it to the nutrient solution. The doctor suspected that something was added to the nutrient solution and secretly stopped the nutrient solution. Only then did my body gradually stabilize and it was finally determined that it was affected by the nutrient solution. Ying Xingjue raised his eyes and looked at Wei San, “In order to control all the nutrient solution production processes, my father set up a trap to seize Tongxuan Company.”

Liao Runing was confused by what he heard: “You mean that batch of waste nutrient solution does not lack ingredients? Then why is Wei San malnourished?”

“It’s impossible for anyone to take action against Wei San in advance. No one knew about her level before the desert track.” Jin Ke denied, and Wei San has always been a loner on Star 3212.

Huo Xuanshan stood next to Wei San and asked the key point: “On Star 3212, Wei San’s abdomen was scratched by a star beast and she bled a lot. Why didn’t you notice?”

His words once again provided a possibility. If there was no problem with the nutrient solution, Wei San might have been infected later.

The room fell silent again, and everyone subconsciously did not think about the possibility that there was something wrong with the nutrient solution in front.

“.....But Wei San’s malnutrition started when she drank the nutrient solution. You have all seen the data curve given by the doctor.” Liao Runing couldn’t help but say.

Wei San stood up and walked to Ying Xingjue. She took out a knife from her pocket and slashed her palm. Blood flowed from the wound: "What now? How do you feel?"

Ying Xingjue stepped back, turned his head aside, and already unconsciously wanted to attack Wei San.

Jin Ke frowned, aware of Ying Xingjue's thoughts, and stepped forward to pull Wei San back: "You want to attack her now?"

The tone was not questioning, and it was even more unbelievable that there was really something wrong with Wei San's blood.

"Can you see the color of your blood?" Huo Xuanshan asked Wei San.

Wei San looked down at her palm: "Red."

Ying Xingjue stepped back and leaned against the window, running one hand along the curtains on the window edge, and whispered: "I see it."

Chapter 508

Liao Runing looked at the blood on Wei San's palm and took out a paper to wipe her hand: "I only saw red blood. It's normal. It can't be that you see what you held in your test tube?"

"There is only a trace of black energy." Ying Xingjue turned his head and looked at Wei San and said, "I can see it through my senses."

Wei San accepted the paper without wiping, but asked Ying Xingjue: "Can you let us see it?"

She doesn't seem to think there's anything wrong with her.

"I'll try." Ying Xingjue covered the five people's eyes with his own perception.

"....."

The blood flowing out of the wound on Wei San's palm, apart from its original bright red color, also contained a faint black aura.

After a long while, Liao Runing still didn't believe it: "Your command can control people's brains. This is what you want us to see."

Wei San covered the wound on her palm with paper. She did not doubt that there was something wrong with Ying Xingjue's perception, but said calmly: "I personally think that I am quite normal and can control myself for the time being. You said before that Tongxuan Company provides nutrition throughout the federation. If there is something wrong with that batch of nutrient liquid that does not lack nutrients and can infect people, you should think about what to do next."

"There won't be so many people infected, otherwise he wouldn't only attack two.....three people." Jin Ke looked at Ying Xingjue's waist, "This kind of thing wouldn't be so easy to get."

Everyone's mood was getting heavier and heavier, but Wei San didn't pay too much attention. She went back, sat on the chair, and said slowly: "Neither the nurse nor the doctor is 3S level. Assuming that there

is something wrong with Takeshi Kosakai, Ying Xingjue didn't notice it, indicating that as long as there is no blood at level 3s, he cannot detect it, and only low-level ones can be found."

"These black insect mists want my power." Ying Xingjue casually cut the blood in his palm and covered their eyes with his senses again, signaling them to see clearly.

The black insect mist in the test tube began to desperately try to get closer to the place where Ying Xingjue was bleeding. Tiny tentacles and mouthparts that were invisible to the naked eye emerged. It was obvious what they wanted to do.

Ying Xingjue walked up to Wei San and put the test tube close to her palm. The black insect mist inside instantly lost interest.

Facing the same super level 3S, the black insect mist had a completely different reaction.

Ying Chenghe also carried a dagger with him. He also made a cut in his palm. After the blood flowed out, he lowered his head and saw that there was nothing wrong with his own blood. He raised his hand to show it to others.

None of them saw the so-called black energy, and the black insect mist in the test tube was also close to the direction of his palm, but they were obviously not as excited as when they faced Ying Xingjue just now.

"The only thing that needs to be determined now is whether there is something wrong with Takeshi Kosakai." Jin Ke said, taking Ying Chenghe's dagger, slashing it in his palm, and raising it to show Ying Xingjue, "Maybe there are some ingredients in Wei San's blood, or other reasons."

The next few people had their palms slashed, and the black insect mist reacted the same as when facing Ying Chenghe.

“Before the start of Sita Arena, apart from you looking at the test tube around my waist, there were other people paying attention.” Ying Xingjue said, “There is more than one person.”

There are only two possibilities for what he said. One is that there is more than one person who is super level 3S, and the other is that someone is infected by this black insect mist.

Obviously, the first possibility is extremely low.

“One more thing.” Jin Ke asked Ying Xingjue, “Do you know that the doctor from Fanhan Star is an Independent soldier?”

Ying Xingjue nodded: “Those who attack people for no reason are defined as Independent soldiers.”

The six were in a room, and the atmosphere was extremely solemn. Behind this incident was an extremely terrifying possibility.

Suppose something was added to the nutrient solution that should not have been added and someone was infected. No one knows who that person is, and they cannot be sure if anyone in the upper echelons is infected.

Chapter 509

“Please keep what happened tonight a secret and don’t tell anyone else.” Ying Xingjue whispered, “Including the teachers.”

“If I wanted to say it, do I need to make a cut first to confirm with you?” Liao Runing raised his palm and waved it.

Ying Xingjue did not respond to his obvious joke, but said: “After we go out, we will still be competitors in the competition.”

“Otherwise?” Wei San lowered her head and wrapped some tissues in her hands, “We’ll leave first.”

The five people avoided the camera, climbed downstairs again, and returned to their dormitory.

That night, all six of them stayed awake.

When it was almost early in the morning, Liao Runing got up and squatted at the door of Wei San, and bumped into Huo Xuanshan, who was also squatting there. The two of them squatted side by side.

“I thought about it, Wei San looks normal and doesn’t look like a star beast.” Liao Runing’s expression was solemn for once.

“What star, what beast? If it is really a problem with the nutrient solution, she is just a victim.” Jin Ke’s voice came from behind.

Liao Runing and Huo Xuanshan turned around and saw that Jin Ke and Ying Chenghe were also squatting on the side.

“These black bugs are so disgusting.” Liao Runing whispered, “Who is so scary? Adding these things to the nutrient solution.”

“We’re not sure yet whether it’s a problem with the nutrient solution,” Jin Ke said.

“I remember Wei San said that there were others who drank that batch of nutrient solution like her. Maybe we can go back to Star 3212 to check on those people.” Ying Chenghe said, and then added, “We’ll bring our cousin.”

“We are still in the competition, how can we get there?” Huo Xuanshan felt that it was unrealistic.

“We’ll find someone to go to Star 3212 to investigate first.” Jin Ke said.

The door suddenly opened, and Wei San looked at the four people squatting at the door with an expressionless face: “You are squatting at the door of my room talking, will you still let others sleep?”

“We are discussing serious matters.” Liao Runing reached out and pulled Wei San over and squatted together. “Can you think about it again, you have never touched anything else or been tricked by anyone since the beginning of the competition.”

If there really is a problem with the nutrient solution, and it involves too many areas. Even he can understand the seriousness of the matter.

“No.” Wei San shook her head, “Didn’t we all move together?”

Huo Xuanshan thought of another thing: “Why can you see the black insect mist in the test tube around Ying Xingjue’s waist, but you can’t see the black mist in your own blood?”

“I don’t know.” Wei San squatted inside the door, “I don’t think there’s anything unusual about me.”

“Could it be that it has already merged with Wei San?” Liao Runing guessed, “You are sane now, and you are Super 3S level. Maybe you can suppress those black bugs.”

Wei San had no expression on her face: “I think those black bugs regard me as the same kind, so they are not interested in my blood at all.”

Jin Ke pondered for a while and asked: “Do you remember the gray shapeless objects in the extremely cold arena? Pingtong Academy didn’t encounter them, only us..... to be more precise, Ying Xingjue.”

“I’ve met them too.” Wei San said with a frown on her face, “But when we stay together, those things are obviously more interested in him.”

The unsolved mysteries became bigger and bigger, but the five people don't plan to tell Xiang Minghua and the rest for the time being, at least until the facts are verified.

Chapter 510

The environment of Sita Star is not bad. Several military academies on Fanhan Star have narrowly escaped death. The organizers decided to give everyone a day off and sealed off the entire training ground. Some training enthusiasts did not have the opportunity to train and were all kicked out.

"I see it's clearly the co-organizer of Sita Star who wants us to spend money here." Liao Runing complained. Because of what happened last night, he didn't sleep all night. He was ready to train at dawn, but the door was closed.

"I just wanted to go out for a walk." Wei San yawned and said, "Didn't you say before that you want the teacher to treat you to dinner?"

"Wei San." Liao Runing looked at her seriously, "Do you still have the heart to go shopping now? We must seize this time to train."

"....."

Wei San put her hands in her pockets, "We won our second championship after all. We should celebrate first."

"No need, let's go find the one at Pingtong Academy first....." Liao Runing wanted to test Takeshi Kosakai, but was interrupted by a voice from behind.

“Why are you looking for cadets from Pingtong Academy? Don’t even think about causing trouble for me.” Xiang Minghua and Jie Yuman came over. He looked at the five of them, “You guys went to bed that early last night? I knocked on the door for a long time and no one answered.”

Wei San and Liao Runing: “.....”

“Teacher, midnight is very early?” Ying Chenghe questioned.

Xiang Minghua snorted: “I heard that you don’t go to bed until midnight every day, so I went to find you.”

Jie Yuman looked at the students in front of himself and couldn’t help frowning. These students seemed to have suddenly distanced themselves from them for no reason, and their eyes showed not only strangeness but also.....wariness.

Jin Ke took a step forward: “What does the teachers want from us?”

“Last night our military academies and several military regions held a joint meeting. The star beasts outside several important lines of defense have changed during this period, and even evolved. Therefore, the military region hopes that the members of the main team will get to know each other more and cooperate. “Xiang Minghua’s face looked a little strange when he talked about this, “Anyway, I’ll let you guys know in advance to save time when you get to the military area later.”

Several people looked at each other, and for a moment they didn’t understand what this mutual understanding and cooperation meant.

Xiang Minghua coughed and said: "It means that starting from the next competition, the main players of the five major military academies will eat, live and train together."

"Are they crazy. Five military academies are training together, and the sky can be pierced." Liao Runing said subconsciously, and was accurately stepped on by Jin Ke in front. His face was distorted, and he felt the same pain as Wei San.

Jin Ke smiled: "This is pretty good. We can learn from the advantages of other military academies' main teams."

"Your weaknesses will also be clearly seen by others." Jie Yuman said.

"Their weaknesses will also be exposed." Jin Ke asked the two teachers, "After the joint training, will teachers also need to provide joint guidance?"

Jie Yuman nodded: "Each military academy will select the best teachers to guide you. In order to prevent some teachers from not teaching fully, you are not allowed to take training classes in private except for joint classes."

Wei San's eyes lit up: "Then my new training schedule is invalid?"

Jie Yuman: ".....nulled, but don't worry, joint training is not that easy."

“The meeting lasted until early in the morning yesterday. As soon as the meeting ended, I went to find you to talk about it, but you fell asleep.” Xiang Minghua looked at a few people, “Let’s have fun today, our teachers have to prepare for joint training. ”

Wei San stepped forward: “Teacher, we have won the championship twice. Does the school have anything to show for that?”

Jie Yuman glanced at her: “What do you want to express?”

“It’s nothing, we just want to have a meal and buy some Sita Star specialties.” Wei San pretended to sigh, “Forget the specialties, I don’t have that much money.”

“.....” Jie Yuman turned on his light brain and transferred a sum of money directly to Wei San, “The school said that if you train hard, you can perform even better in the future.”

Wei San lowered her head and saw the prompt from her light brain, and exclaimed: “Teacher, so much money?!”

Five hundred thousand star coins!

This was enough to drink and eat from for a long time.
