

Smash All 511

Chapter 511

Jie Yuman was disgusted with her being embarrassing : “Hurry up and leave.”

The five people immediately turned around and walked outside the training ground. Jie Yuman’s eyes passed over them and then she suddenly shouted: “Stop.”

Wei San and the others looked at each other and whispered: “Run!”

The five people quickly ran out of the training ground gate.

“Did they think you wanted them to return the money?” Xiang Minghua turned around and looked at the running backs of several people and said with a smile.

Jie Yuman’s brows did not relax: “Why do they all have bandages on the palm of their hands? This feels weird today.”

“I guess they’re holding bad thoughts again.” Xiang Minghua wasn’t surprised at all. The strangest thing would be if the pricks didn’t do something weird, not to mention that this year’s main team of Damocles Military Academy has turned into a bunch of pricks.

“Let’s go.” Jie Yuman shook his head.

.....

They came out and looked at the people in the streets, and their mood suddenly became better.

“Joint training is an opportunity.” Jin Ke said seriously, holding a skewer stuffed by Liao Runing in his hand, “Let’s start with twenty-five people. Except for Wei San, we have no problem for the time being.”

Liao Runing suddenly realized, no wonder Jin Ke stepped on his foot just now: “The first one we will test against will be Takeshi Kosakai.”

“Before, outside the Sita Arena, we were not far from Pingtong Academy. Wei San, didn’t you think he was..... ugly?” Huo Xuanshan asked her.

Wei San recalled the day she entered: “I didn’t pay attention, he shouldn’t be anything special.”

“You were staring at Ying Xingjue that day.” Liao Runing said slowly from the side.

Wei San glanced over: “I was looking at the test tube on his waist.”

The five of them walked on the street and saw many military students. Some of them were probably preparing to go to training, but when they saw the doors were closed, they came out to hang out temporarily.

Wei San walked to a store selling Sita Star specialties and asked if she could mail it, intending to send it to Li Pi and his wife.

Ying Chenghe was originally standing at the door, but suddenly jumped in and took several people to hide behind the counter: "I just saw the people from Pingtong Academy, Takeshi Kosakai is there."

"Shall we follow?" Liao Runing asked in a low voice.

"Follow them and then what?" Jin Ke asked him.

"Then let Wei San take a good look at him to see if there is anything strange about him."

Wei San: ".....I am not a detector."

"Let's go and try it first." Liao Runing encouraged.

Several people followed him out secretly. Before leaving, Wei San paid the money and asked the boss to mail it to Star 3212.

With the help of roadside vendors, the five people followed along.

“Isn’t this guy from Damocles Military Academy? What is he doing?”

When they followed them to an intersection, Xiao Eli’s voice suddenly sounded, and all the members of Pingtong Academy’s main team in front turned around.

Wei San and others could only straighten up and walk out.

“On the street, you go your way, and I go mine, what does this have to do with Samuel?” Liao Runing turned to look at Xiao Eli, folding his arms, “Are you jealous of our champion’s style?”

“Hmph, jealous of your sneaky style?” Xiao Eli never understood his lesson and came to provoke the people of Damocles Military Academy again and again.

“What should I do? Being sneaky is also a champion.” Wei San smiled.

Xiao Eli: “.....Isn’t it just two divisional championships? If you have the ability, win the overall championship.”

Wei San looked at him and said slowly: “After we win the championship, are you going to kneel down and call us ancestors?”

Xiao Eli suddenly jumped: "You can win your championship, why do you want me to kneel down?!"

Gao Xuelin's eyes darkened: "That's enough, let's go." As soon as Xiao Eli said those words just now, it was clear that he believed Damocles Military Academy was capable of winning the championship.

Xiao Eli still wanted to continue arguing.

Jin Ke looked back and forth to Pingtong Academy in front, and to the home team of Samuel Military Academy at the intersection on the left, and said: "Since we are lucky enough to meet each other, why don't we go shopping together? We can learn about the scenery and food of Sita Star in advance."

When he said this, everyone in the other two military academies believed their words. After all, the main team of Damocles Military Academy had to go out every time they visited a galaxy.

Chapter 512

Xiao Eli was actually a little moved. Just now, Samuel's chief commander Gao Xuelin took them for a walk around the area discussing the Sita Star Arena, he was almost bored to death.

Even if they lost, then they lost. Why does he have to say it three, four, five, six times.

Jin Ke continued to add fuel to the fire: "You must also know that in the next competition, our five major military academies will jointly train. In fact, after graduation, we may still cooperate. It is rare to have a holiday now, so why don't we play together?"

Before the others moved, Xiao Eli stepped forward: "What you said makes sense. Today is not a competition."

Main players from Samuel Military Academy: "....." I don't know who it was. He was slapped on the first day of the competition when he entered the port. Has he forgotten this now?

The second person to step forward was Jill Wood, standing next to Xiao Eli.

After attending the award ceremony yesterday, she was taken for a test by the leading teacher of Samuel Military Academy, and the results showed that she had indeed been promoted to the 3S level.

The upgrade from Double S to 3S really happened to Jill Wood. This incident was one of the reasons why the meeting last night lasted until the early morning.

Ever since some of the military students have evolved, it is enough to prove that the evolution of the star beasts outside the defense line is not a data error.

The game between human beings and star beasts will either increase or decrease, or they will evolve and strengthen each other. It is only a matter of time.

In order to study the reasons for Jill Wood's leveling, all her training data since the competition has been transmitted to the Imperial City. The laboratory there will also send people over to conduct a series of tests on her.

"Where are you going?" Jin Ke led Wei San and the others towards Pingtong Academy, followed by Samuel's main team.

Zongzheng Yueren held the spear tightly in his hand and stared at Wei San behind Jin Ke. He always remembered the defeat he suffered on the field.

Wei San noticed that someone was staring at her, and looked up to see that it was Zongzheng Yue. She casually moved her eyes away and fell on Takeshi Kosakai behind him. After he came out of the extremely cold arena, his face was a little pale, and he seemed to have no signs of complete recovery even now.

She looked at him for a while, but she didn't see anything wrong with him.

Lu Shibai didn't expect that Damocles and the others would actually stick to him. Are they shameless?

"Why don't I take you all to go shopping? I heard that Ji Ci lived there for five years before. It is a popular tourist attraction on Sita Star." Jin Ke looked at Ji Jian from Pingtong Academy as he spoke.

Each of the five major federal military academies has its own origins, but basically all have a mecha engineer at their center. Yu Qingfei was the first to establish Damocles Military Academy, and Pingtong Academy was established with the support of Ji Ci. The Imperial Military Academy was established by Gongyi Liu, and the Yu family who once lived on Sadu Star went out independently to establish South Percy Military Academy.

As for Samuel Military Academy, it was established by Nan Jianzhi.

Yu Qingfei created the entire theoretical system of light mecha systems by himself. So far, all light mechas designed by mecha engineers are based on his principles. Ji Ci laid the foundation for heavy mechas, and Nan Jianzhi further improved the heavy mechas. Gongyi Liu pushed the medium-sized mecha to its peak. Now when it comes to mechas, at the same level, soldiers piloting medium-sized mechas still have an advantage.

These four people have always been the most respected mecha engineers in the Federation, and they once overshadowed the mecha soldiers and commanders of their generation.

Lu Shibai: “.....” They were originally planning to go there.

Pingtong Academy is the former residence of the founder of Pingtong Academy. Every military student of Pingtong Academy will come here once.

The main teams of the three military schools gathered together and walked towards the former residence of Ji Ci on Sita Star .

Jin Ke fell behind and looked at Wei San: 【How is it? 】

Wei San shook her head.

Ji Ci’s former residence is far away from the city center, but Sita Star has a special tourist route, and people from the three military academies boarded the same sightseeing aircraft.

As soon as he went up, Wei San couldn't help but whistle.

The main teams of the Imperial Military Academy and South Percy Military Academy were all sitting on it.

Chapter 513

The sightseeing aircraft can accommodate a hundred people at a time, and as a result, the main teams of the five military academies occupied a quarter.

The tourists who were originally planning to visit Ji Ci's former residence secretly looked at these young military cadets and almost fainted with excitement. They took out their light computers and secretly took pictures and sent them to their relatives and friends.

A short video began to circulate quickly on StarNet.

The title is: [Nothing special, just the only way home.]

In the video, the owner of the light brain first pointed it at himself, then turned the camera, turned around and walked from the front to the end of the aircraft. The camera wavered here and there, passing a car of passers-by, and he finally sat down.

【? ? ? Is this called nothing special? 】

[A car full of military cadets, all from the main teams! To be honest, the blogger must have boarded a military aircraft by mistake! 】

[Blogger, come down quickly, ordinary people will be arrested if they board a military aircraft! Come down quickly and let me go up! ! ! 】

[What a magical day, wuwuwu, Samuel Military Academy, Damocles Military Academy, Pingtong Academy, Imperial Military Academy and South Percy Military Academy, ah ah ah, this lineup! If I had known earlier, I would not have traveled to the Imperial City Star. I would have gone to Sita Star. 】

[Don't they need training? Why are they all heading out? If we read correctly, this is the Sita Star's sightseeing aircraft. 】

[Pingtong Academy will go to Ji Ci's former residence every time they come to Sita Star. As for Damocles Military Academy, I heard that every time they head to a new galaxy, they will go out for a walk. They have been shopping on the previous stars, but several other military academies also came out, I don't know why. 】

The five military academies "joined forces", and the fans of the military academies were moved when they heard the news and clicked in to see the situation.

The person who posted the video started a live broadcast at the request of the Star Network audience and quietly pointed the camera at the military cadets in the car.

The sightseeing aircraft was launched, and the five people from Damocles Military Academy dispersed and inserted themselves between Samuel and Pingtong Academy, rushing to sit down before a few others.

Huo Xuanshan snatched Gao Xuelin's seat, and Wei San squeezed Lu Shibai out of the way. She sat on the right side of Xiao Jiujiang, crossed her legs, and put one hand behind her seat. Liao Runing snatched Ji Jian's seat and sat to the left of Takeshi Kosakai, with her hand on the back of Huo Zian's seat.

"What are you doing?" Lu Shibai was almost knocked down by Wei San, turned around and said coldly.

"This seat doesn't have the name of Commander Lu written on it." Wei San pointed to Jin Ke opposite, "Why don't you sit there, the commander can communicate with the commander, and we can communicate as soldiers."

As one of the people whose seats were robbed, Xiao Eli sat down next to Ying Chenghe without hesitation.

Hey, who is afraid of whom?

[Is there going to be a fight? Are they about to fight? ! Excited.jpg]

[Damocles Military Academy is too provocative!]

[It's a pity that the people from the Imperial Military Academy have already taken their seats, otherwise they might see the people from Damocles Military Academy snatching their seats. I have to say that Damocles is reckless.]

Wei San put her hands on the back of Takeshi Kosakai's seat, crossed her legs, pointed the toes of her black leather boots at him, and shook them up and down. She greeted him warmly: "Hi."

Takeshi Kosakai looked at her expressionlessly, then withdrew his gaze and looked directly in front of him, but the person sitting in front of him was still from Damocles Military Academy.

Jin Ke raised his hand: "Hi."

Takeshi Kosakai turned to the other side, and Huo Xuanshan, who was sitting in the middle of the main team of Samuel Military Academy, also waved hello.

"....."

Xiao Eli on the opposite side was speechless looking at these Damocles bandits! If it were him, he would definitely wave back "hii", when dealing with shameless people you have to be even thicker-skinned.

However, none of the five people from Damocles Military Academy paid attention to him.

In order to be consistent, Liao Runing also said 'Hi' to Huo Zian next to him.

Chapter 514

[Hi what hi, are you a Hi tribe? Just start a fight!]

[It won't work this time. How much hatred have they had in previous years, and now they actually go to tourist attractions together?]

Huo Zian turned his head and glanced at Liao Runing: "You, the class of Damocles Military Academy, are very lucky."

Liao Runing crossed his legs and said affectionately: "Brother, luck is also a part of strength. There is nothing you can do about it. If you are really strong, you won't be afraid of luck. Don't you think so, brother?"

Huo Zian's face turned dark: "I'm not your brother."

"Aren't you five months older than Xuanshan? He calls you brother. I am his good friend, so I should call you brother." Liao Runing patted the seat behind him gently, "Brother, don't be jealous of Xuanshan's luck. Okay, be more relaxed and you won't get old easily."

Huo Zian: "....."

On the other end, Huo Xuanshan also approached Jill Wood: "You played well on Sita Arena. I heard that you may have evolved?"

Xiao Eli finally found a chance to speak, with a hint of pride in his tone: “She has now been tested to be level 3S. All members of our Samuel Military Academy are level 3S, and they are also the seed military academy to win the championship. Now only South Percy is the poorest.”

They completely forgot how reluctant they were in the Sita Arena. Jill Wood is a 3S-level mecha soldier.

South Percy was not involved in the first place, but when Xiao Eli provoked such a provocation, Gao Tangyin sneered: “Haha, can all members win the championship at level 3S? I have never seen Pingtong Academy win a championship.”

People from Pingtong Academy: “???”

Zongzheng Yueren glanced at Gao Tangyin: “Even if we can’t win the championship, it will be easy to deal with you South Percy.”

Gao Tangyin: “They bullied us very well, but we don’t know who will be eliminated first.”

Zongzheng Yueren held the rifle tightly and felt through the rifle body that there were faint signs of cracks on the ground of the aircraft.

Ying Xingjue, who was sitting at the back of the car, suddenly took action. His perception covered the location of Zongzheng Yueren’s gun, and he said slowly: “I hope the pavilion master will calm down. This is a sightseeing aircraft.”

【Stimulating! Although they knew they couldn’t fight, the tense atmosphere made them feel like they were back on the court! It’s still all five military academies together. 】

[, what happened to the hands of the main players of Damocles Military Academy? They are all bandaged.]

[Didn't you notice that Ying Xingjue from the Imperial Military Academy also had his hands bandaged?]

[Were they injured in the Sita Arena? Why do I remember that their hands were not injured?]

[Strange, they are all wearing bandages.]

Wei San followed the voice and looked towards Ying Xingjue. He was still as cold and indifferent as before, as if nothing had happened and he had never talked to anyone from Damocles Military Academy late at night.

Lu Shibai whispered to Zongzheng Yueren: "Pavilion Master."

There is no need to compete in their next game if they caused trouble on a civilian aircraft.

They can only let the people from these military academies quarrel. The people from Pingtong Academy are not good at this.

“Your pavilion master has a bad temper.” Wei San turned to Takeshi Kosakai and said, “I think you have a pretty good temper.”

She was so close, observing him, but she still didn't feel anything.

To say he's ugly..... After looking at Ying Xingjue just now and then looking back at Takeshi Kosakai, it's indeed a bit ugly.

Takeshi Kosakai had closed his eyes, like an old monk in meditation, and did not reply to Wei San's words at all.

Wei San didn't care. Originally, she just wanted to observe him at close range. She didn't expect to find anything directly.

She noticed something, raised her eyes towards Huo Xuanshan, and met Jill Wood's eyes.

Jill Wood was looking at Wei San just now. In fact, there was more than one person. Xiao Eli across from him was still staring at her. On the other side, South Percy member Yamamiya Namiha, who had been sitting in her seat, was also looking at Wei San. .

Jill Wood looked away naturally and did not look over again.

It's not that one look would make her suspicious, but Wei San just remembered what Ying Xingjue said last night. At that time, not only her, but also several other eyes fell on the test tube around his waist.

She can only say that she hoped they would not appear in the main team, otherwise this will be more difficult to deal with.

[This destination, Ji Ci's former residence, has arrived. Please take your belongings with you and get off the bus.]

People from the five military academies got out of the car. Ji Chuyu glanced at the five people from the Damocles Military Academy and approached Ying Xingjue: "What's wrong with your hand?"

Ji Chuyu discovered it when he woke up early this morning, but didn't ask anything about it. Ying Xingjue never liked anyone asking too much about his affairs, but when he saw the bandage on Damocles' palm as well, he couldn't help but ask.

Ying Xingjue removed the gauze: "I was scratched by a dagger."

The blood in his palm was still flowing, Ji Chuyu frowned and wrapped the gauze around him.

After getting out of the car, Wei San did not take her eyes away from Takeshi Kosakai. The moment Ying Xingjue took off the gauze, he clearly glanced over there very quickly.

Ying Xingjue's blood..... is extremely attractive to the black insect mist.

Wei San stepped back a few steps and walked in a row with Jin Ke. She moved her mouth slightly and lowered her voice: "He has a problem."

Chapter 515

Ji Ci's former residence is located in the middle of a residential area. Except for a circle surrounding it, the other residents can go out normally.

After the main team members of the five major military academies got off the sightseeing aircraft, they followed the road signs around a wall and walked to the main entrance, where there was a life-size white jade statue of Ji Ci.

The base is one meter, and the statue itself is about 1.65 meters tall. It has short hair, long sleeves and trousers, a smile on its face, and a tool bag on its waist. It is by far the most classic space folding bag and can hold all the mecha tools the engineers need.

"I heard that Ji Ci had someone make this statue herself when she was still alive." Liao Runing whispered to Wei San quietly.

Wei San stood in front of the statue of Ji Ci and took a closer look: "It's quite impressive."

"When I become famous in the future, I will order one for myself too." Liao Runing put his hand on Wei San's shoulder and thought for a moment, "I'll get another one for you."

“What about me?” Huo Xuanshan stood over quietly.

Liao Runing turned around: “You don’t know how to find someone to make one? You still want to take advantage of this young master?”

Huo Xuanshan who was treated differently: “.....”

“It doesn’t matter, you can come to find me.” Jin Ke patted Huo Xuanshan and said, “I’ll give you a discount.”

“Damocles Military Academy, look here!” Ying Chenghe, who was still standing outside the courtyard, shouted to them.

The four people turned around when they heard this, and Ying Chenghe took a group photo.

“Okay.” Ying Chenghe lowered his head and looked at the results of his photo.

Wei San and Huo Xuanshan rushed over first to look at the photos he took. Liao Runing and Jin Ke, who were one step behind, could only squeeze in and watch.

In the photo, Liao Runing and Wei San are standing in the middle, with a statue of Ji Ci in front. He puts his hand on Wei San’s shoulder, and the two of them turn to the right and look back at the camera. Huo Xuanshan and Jin Ke stood a little to the side. Jin Ke put his arm on Huo Xuanshan’s shoulders and turned their heads to the left together. At the very edge of the statue stood Pingtong Academy Ji Jian, who had been squeezed past, with an unhappy face. In the background were scattered people from various military academies. For example, Xiao Eli from Samuel Military Academy stood in front of Jin Ke with a look of disdain. He crossed his arms and stared here. Ying Xingjue also appeared, but there was only one figure looking up at the plaque from behind.

Quinley Eli also took out her camera to take a picture, and it happened to show the five people from Damocles Military Academy gathering together to look at the photo, so she walked over and asked them if they wanted the photo.

“We want one.” Liao Runing immediately asked her to send it to him.

“Then let’s add each other as friends?” Quinley Eli asked.

Liao Runing glanced at his light brain: “Why do we need to add friends? Our brand of light brain can teleport directly through the air. Just send it over.”

Quinley Eli was stunned, lowered her head and passed the photo to Liao Runing.

After receiving it, Liao Runing changed hands and sent it to the group of five people. Then he raised his head and said to Quinley Eli: “You have good photography skills. Can you take some more pictures for us?”

“.....Uh, okay.” Quinley Eli was just kind-hearted for a moment, but she didn’t expect to end up being a camera tool.

Liao Runing pulled the others and began to circle around Ji Ci’s statue, taking pictures.

The five people from Damocles Military Academy were posing in front of the statue. People from other military schools had already given up their seats and were standing nearby to watch.

Liao Runing jumped directly on Huo Xuanshan, and reached out to pull Ying Chenghe's hair and kicked Jin Ke. Wei San squatted in front, holding her face with one hand, desperate for life.

"Hey, this is the military academy student from Damocles. They are not dignified at all!" Xiao Eli curled his lips and said sourly, "Quinley Eli is also a disgrace. South Percy's is the Damocles Military Academy's Photographer."

"We in South Percy can clearly distinguish what is on the court and what is off the court." Gao Tangyin said nonchalantly as he stood nearby.

"Since you two have such a good relationship, why don't you shoot together?" Xiao Eli said contemptuously, "You sure want to be a tool."

After hearing this, the fraternal twins Yamamiya Namiha and Yamamiya Isao from South Percy walked to the statue and asked Damocles Military Academy if they wanted to take a photo together.

Chapter 516

"Of course." Jin Ke just finished beating Liao Runing on the head, rubbed his hands without leaving a trace, and shouted to Gao Tangyin and others over there, "Commander Gao, do you want to take one together?"

The people from South Percy wanted to take pictures with the people from Damocles Military Academy, so Quinley Eli naturally wanted to be in the photo. She looked around and finally focused on Xiao Eli.

“What are you looking at me for?” Xiao Eli asked angrily.

“Cousin, please help me take a picture.” Quinley Eli said. The other military academy people around him didn’t say hello, they didn’t even fight. At least they had fought with Xiao Eli, and they were both Eli’s.

“What kind of cousin?” Xiao Eli was about to jump, like a branch that couldn’t be hit with eight poles.

“It’s just taking a photo, are you unable to afford it?” Liao Runing turned to ask him.

“You are the one who can’t afford it!” Xiao Eli cursed, taking over Quinley Eli’s seat and taking photos of South Percy and Damocles Military Academy teams.

If he had known, he would have ignored these people just now.

“Stand still, that Liao something, learn more over.” Xiao Eli patted and suddenly discovered this to be a little fun. People from the two military academies had to obey his orders. Did it always feel so good to command others?

“Do you want to take one?” Wei San took the initiative to greet the people in Pingtong Academy, enthusiastically making way for an empty spot.

Damocles Military Academy looked very enthusiastic at this moment, beckoning the people from Pingtong Academy to come over. Huo Xuanshan had already started calling Huo Zian, while Jin Ke said hello to Lu Shibai as the two brothers met each other.

The others in Pingtong Academy still didn't move.

Seeing this, Wei San turned around and said to Ying Xingjue at the Imperial Military Academy: "Commander Ying, why don't we all take a photo together."

Ying Xingjue stepped forward and walked towards them. The people from the Imperial Military Academy behind him hesitated for a while and then followed.

The Imperial Military Academy had already arrived, and there was a slight looseness in Pingtong Academy. Liao Runing simply reached out and pulled Ji Jian, who had been waiting to take a photo with the statue of Ji Ci. Lu Shibai had to turn his head to look at Zhongzheng Yueren.

Zongzheng Yueren finally came over and stood on the other side of the Imperial Military Academy.

Xiao Eli was dissatisfied: "You are jointly squeezing out our Samuel?"

"You guys all stand over here too." Jin Ke called people from Samuel Military Academy next to him to come over. He asked tourists and passers-by to take photos and asked Xiao Eli to come over too.

In the end, all the people from the five major military academies stood together. Tourists and passers-by helped take a group photo. Each military academy stood clearly separated, and even the faces of some members of the main team of the military academies were very stiff.

The tourist taking the photo shouted: "Please be happy and relax your limbs."

"Then let's change positions." Liao Runing shouted, squeezing out from the back and squatting in the front: "I am in position C."

Xiao Eli was unconvinced when he heard it. Forget it during the competition, how could the people from Damocles Military Academy take the lead in taking pictures now too?

He also squatted at the front from the corner, trying to squeeze away from Liao Runing.

Huo Xuanshan squeezed over to Pingtong Academy to be with Huo Zian, and took the initiative to call Huo Jian, indicating that the Huo family should stand together for a photo.

Jin Ke encouraged Quinley Yi to go to the front with Xiao Eli, while he himself went to greet Ji Chuyu, saying that he had admired Ji Chuyu for a long time. Quinley Eli walked over hesitantly, and finally squatted next to Liao Runing.

Originally, Ying Xingjue and Ji Chuyu were standing together, but when Jin Ke intervened, he moved to the side naturally, and finally moved to Takeshi Kosakai, with no trace of his injured palm exposed.

The positions of the five military academies were completely disrupted. At some point, Wei San stood on the other side of Takeshi Kosakai and continued to greet him enthusiastically: “We are really destined.”

Takeshi Kosakai remained silent and ignored Wei San, but did not turn to another topic.

“Are you all standing still?” asked the tourist passerby who was in charge of taking photos.

“Wait a minute.” They were disrupted by a few people from Damocles Military Academy. Some people didn’t want to stand with the people next to them, so they started to change positions again.

“Are you ready?”

“That’s good.”

Twenty-five people, wearing different training uniforms, stood crosswise together. They were not so stiff after all. The people with the brightest smiles among them were a few people from Damocles Military Academy.

Tourists and passers-by clicked the shutter to freeze this scene.

After the photos were taken, people from the five major military academies immediately dispersed, as if they had stayed there for a long time, something would happen.

Liao Runing rushed over to get the photos, and finally sent them to people in various military academies.

Chapter 517

Wei San lowered her head and opened their groupchat of five. Photos had been posted in it. She clicked on it and immediately looked at Takeshi Kosakai. He was standing between her and Ying Xingjue, seemingly expressionless. If you look closely, you can see that he looked at Ying Xingjue out of the corner of his eye.

Wei San stared at it for a long time, and was about to look away when she realized that the person standing behind her was Jill Wood. She was standing in the middle behind him and Takeshi Kosakai, probably standing on tiptoes, looking up and smiling at the camera.

The others had already looked at the photos, but among the twenty-five people, only Wei San had her brain opened openly and hanging in the air, and everyone could see it when they looked up.

The people from other military schools either looked at it openly or glanced at it from the corner of their eyes. In short, they were a little surprised by this optical brain that hid the ID but not the content.

In particular, Wei San's action of enlarging the photo was clearly seen. Everyone saw her staring at Ying Xingjue for a long time. Next to her, Takeshi Kosakai, who was also enlarged, was automatically ignored by everyone.

All IDs in the group have been coded and disappeared, but the content is completely transparent, even the group name at the top is still there.

The 'Five Future Giants of the Federation' suddenly appeared in front of everyone.

For a moment, people from other military schools didn't even know whether to lament Wei San for staring at the commander of other families for a long time, or the shamelessness of the main team of Damocles Military Academy.

Jin Ke coughed, punched Wei San, and motioned for her to close her light brain

As soon as Wei San turned off her computer, she saw people from other military schools looking away. She thought about it and understood: "....."

After the photo was taken, the military academies returned to a clearly distinguishable state. After entering through the door, they visited separately.

"You guys go over there first, I'll take a look over there." Ying Xingjue and the people from the Imperial Military Academy walked through a long corridor and pointed to the library of Ji Ci's former residence.

"Let's go there together." Ji Chuyu turned to look at the others and said.

"No, I'll go over and take a look. I'll go to the library to buy something later." Ying Xingjue refused.

Ji Chuyu frowned, worried that there would be problems if he went out alone: "You are the main commander....."

“Super 3S level chief commander.” Ying Xingjue added.

Ji Chuyu wanted to say something else, but was interrupted again by Ying Xingjue: “I will not lose control.”

“That’s not what I meant.” Ji Chuyu had to give in, “We’ll wait for you in the studio in front.”

Ying Xingjue nodded, turned and left.

The people from the Imperial Military Academy stood there for a long time.

“Commander, it seems that he has changed a bit.” Situ Jia hesitated.

Ji Chuyu suddenly laughed softly: “That’s because you never understood him.”

Ying Xingjue, one of the twin stars of the empire, or the real star of the empire, has always been thoughtful, and he will only let others see the side of him that he wants to see.

“Let’s go to the studio first.” Huo Jian said.

.....

Ying Xingjue walked around the outside of the library before walking in.

Placed here are books collected by Ji Ci himself. Various huge bookshelves are made into strange shapes. There are also bookshelves above the head, all filled with books. There are already many tourists inside, but no one is allowed to touch these books, they can only watch and take pictures.

Ying Xingjue, like everyone else in the library, turned on his camera and took pictures as he walked. He didn't notice anyone approaching from behind, or in other words, he didn't realize who the person was approaching.

"Take, you are here too." Wei San jumped out of nowhere, put her hand directly on Takeshi Kosakai's shoulder, and said enthusiastically, "We are really destined."

At this time, Ying Xingjue in front had turned around and looked at them.

Takeshi Kosakai turned his head and looked at the hand on his shoulder, his face twitched, then he shrugged his shoulders, shook off her hand, and walked to the other side.

Chapter 518

"Where are the people from your military academy?" Wei San stared at Takeshi Kosakai and walked to the other side, then turned to ask Ying Xingjue in front of him.

“The studio in front.” Ying Xingjue’s eyes moved from Takeshi Kosakai, “Jin Ke and the others are not here?”

“They went to the studio too.” Wei San looked at the books around her. This place was like a library, with all kinds of miscellaneous books. She turned on her light brain and pretended to take pictures seriously, “Did you do that on purpose just now?”

“I just wanted to confirm a little more.” Ying Xingjue whispered.

“He probably can’t control himself yet, or.....” Wei San had already determined that there was something wrong with Takeshi Kosakai. She walked to the side and suddenly turned to look at Ying Xingjue, raising her eyebrows and saying, “You are too tempting.”

Even though Wei San said this, Ying Xingjue remained calm and self-possessed, without showing any signs of being verbally violated.

[If he was infected by the black insect mist recently, the most likely time point is when he was injured in the extremely cold stadium, but it cannot be ruled out that he was infected before the competition..... All this is based on the premise that the black insect mist can infect people.]

Ying Xingjue’s voice suddenly sounded in Wei San’s mind, and she subconsciously frowned.

“Your light brain has no privacy.” Ying Xingjue explained when he saw her displeasure.

Wei San reached out and touched the light brain on her wrist: “.....”

There is a cultural and creative store on the first floor of the library. One of the reasons why Ying Xingjue came here was to go to the cultural and creative store. He and Wei San followed the landmarks and went to the first floor.

Ying Xingjue walked into the light brain area and turned to ask Wei San which one she wanted. There were not many types of light brains in the light brain area. There were photos of Ji Ci’s former residence on the watch, with different colors and shapes.

“Want to buy it for me?” Wei San asked strangely, standing outside.

They were not familiar with each other right?

“This is an apology for what happened to Star 3212 before.” Ying Xingjue said slowly.

Wei San clicked her tongue: “No need for the light brain. I’ll pay for it myself. You can treat the five of us Damocles to a meal later.”

She walked in, picked out a classic white light brain, and asked for privacy features.

The clerk smiled warmly and said: "Don't worry, all light brains here have this function. In this era, light brains without privacy functions have long been eliminated."

Wei San, who was still using an eliminated optical brain: "....." She suspected that the clerk was thinking about herself.

"How many starcoins?"

"The original price is 600,000, but after we discounted it, it only costs 500,000." The clerk kept smiling, "Our target customer group is young and promising military students like you, and the corresponding functions are more than those of other ordinary people. It requires at least 700,000 yuan to start, and it can be used for at least ten years, and the warranty is ten years!"

Wei San said bluntly: "You clearly take the military students as your culprits."

The clerk was stunned. This person was still wearing a military cadet's training uniform. How could she be so buckled? Military students generally swipe their cards without blinking an eye.

"It's like this, you can sell it to me for 90,000 yuan." Wei San tried to bargain.

The clerk immediately shook his head: "We are a cultural and creative store, we don't have bargains."

Wei San paused, turned her face, and reached out to pull Ying Xingjue beside him: “Do you know this one, one of the two stars of the empire?”

The clerk adjusted his glasses and stared at Ying Xingjue at a close distance. She suddenly blushed and said in a low voice: “I know.”

Wei San raised her eyebrows, winked at Ying Xingjue, then turned to the clerk and said, “I’ll let you take a photo and give you an autograph. You can sell me the light brain for 90,000 yuan.”

The clerk lowered her head and muttered in a low voice.

Wei San didn’t hear clearly, but seeing that this situation was almost possible, she reached out to grab the light computer on the counter.

The clerk grabbed her hand quickly. She mustered up the courage to look up, closed her eyes and said, “No, even if the Empire Star is here, it can only be sold for 500,000 yuan. The boss has always taught us to be principled people.”

Wei San: “?”

Not even the Empire Star?

Wei San lowered her head to count her balance. She couldn't not afford the five hundred thousand light brain, but she simply couldn't bear it.

Chapter 519

Half a million yuan for a bare brain was just how much it cost her to build a mecha. Isn't a military student's money still money?

The owner of the cultural and creative store who was walking in other stores heard the commotion and ran over. When he saw the two of them, he suddenly became excited and shouted: "Roguish San, I am your Wei fan!!!"

The sound was loud enough for people on the first floor to hear it.

Wei San: "....."

"Boss, it's against your behaviour." The clerk reminded in a low voice.

"Oh, let's do it again." The boss shouted again on the spot, "Wei San, I am your roguish fan!!!"

Wei San: "Hello, roguish fan, will you sell this light brain for 90,000 yuan?"

"Sell!" the boss said resolutely. He handed the white light brain to Wei San, then took out the same black light brain from the counter and pushed it to Ying Xingjue next to him. "Ninety thousand, buy one, get one free."

Clerk: “.....Boss, you said we should have integrity and not be moved by beauty.”

“That’s right.” The boss nodded, looked at Wei San enthusiastically, and rubbed his hands, “But this is Wei San, and I am her roguish fan! Can we take a photo?”

Wei San, who was thinking of betraying the Empire Star, instead succeeded in buying a light brain worth 90,000 yuan on her own, and even bought one and got one free.

The boss happily took a photo with Wei San and didn’t care at all about Ying Xingjue standing next to them. Finally, he invited Wei San to help with the inscription, saying that he planned to make a plaque and hang it at the door of the store in the future.

“I haven’t watched the Hephaestus Competition in many years. I’m here to watch it this year. Damocles Military Academy will definitely win the championship!!!” the boss said excitedly.

Wei San: “You are right, the championship must be us.”

The completely excluded clerk and Ying Xingjue stood aside. The clerk asked in a low voice: “Can we take a photo?”

Empire Star, Ying Xingjue politely refused: “You must have principles in life.”

Clerk: “.....” The boss is not a good person!

Wei San and the boss had a nice chat, almost becoming sworn brothers on the spot. In the end, Ying Xingjue told Wei San to leave, and then they separated.

“And this light brain, don’t forget it.” The boss handed the black light brain to Wei San.

Wei San took it and threw it to Ying Xingjue: “I’ll give this to you.”

Ying Xingjue lowered his head and looked at the light brain in the palm of his hand, not knowing what he was thinking.

“Thank you, boss.” Wei San waved, “Remember to watch our game.”

“Wei San, fly with peace of mind, your roguish fans will always be with you!” The burly boss, with a beard on his face, expressed his feelings to Wei San.

Wei San and Ying Xingjue left along the exit, and at the same time, each of them got a new light brain.

She lowered her head and fiddled with her light brain, importing all the information into it. With the privacy function, she no longer had to worry about other people around her seeing the chat content.

“Let’s add communication.” After Wei San finished all the fiddling, she raised her head and said to Xingjue, “Stop using your senses to spin around in my head.”

Ying Xingjue reached out and opened the privacy interface of the light brain, letting her see his communication number.

Wei San glanced at it and lowered her head to type.

After the two added each other as friends, Ying Xingjue hid his interface again and sent the first message to Wei San: 【Takeshi Kosakai has been following us. 】

Wei San did not look back, but sent him a message: 【Is your military academy in the studio? I’ll take you there. Don’t come out alone next time. 】

Who knows what will happen to the black insect mist after it enters the human body, but it doesn’t seem to have a high IQ.

Ying Xingjue: 【[Okay, I will find an opportunity to check everyone’s blood during the competition. 】

Wei San frowned and sent him a message: 【How will you check this? 】

There are so many people.

Ying Xingjue: 【Just find an excuse and do a general examination. 】

Wei San put away her light brain, stood side by side with Ying Xingjue, and walked to the studio.

The studio is the biggest attraction of Ji Ci's former residence. It contains all the traces of her design and construction of mechas during the five years she stayed here, as well as precious mecha construction manuscripts.

Wei San originally rushed to look at the studio with Ying Chenghe and the others, but found that there was one person missing from Pingtong Academy, so he looked for them, and found them in the library.

As soon as she entered, Wei San moved towards Damocles Military Academy. Ying Chenghe watched mesmerizingly, and there were mecha engineers from other military schools standing next to him.

Only the Damocles group, who were not mecha engineers, still got together and pretended to understand.

Jin Ke and Huo Xuanshan made way for Wei San to come in. The five of them stared at the mecha manuscript on the wall, 'fascinating'.

In order to temporarily retain the identity of the Wei San's hidden mecha engineer, the soldiers and commanders of the Damocles Military Academy were very confused here.

When Ying Xingjue came in, people from the Imperial Military Academy also noticed him immediately.

Ji Chuyu and Huo Jian were the first to notice Wei San next to them. Even if she walked directly towards the people from Damocles Military Academy, it was not difficult to see that these two people had walked all the way here together.

Chapter 520

Originally, the relationship between the Ying family and the Huo family was even better. In the past, the commanders of the Ying family were often closest to the mecha soldiers of the Huo family during their time at the Imperial Military Academy. However, in Ying Xingjue's generation, because he lost control, Ji Yuande placed Ji Chuyu next to Ying Xingjue, causing Huo Jian to only serve as a member of the main team, in the same position as Situ Jia.

Ji Chuyu has always had a complex sense of responsibility for Ying Xingjue, firstly because of the tasks assigned to him by his uncle, and secondly, after so many years of getting along with him, he regards Ying Xingjue as his closest brother.

Ying Xingjue always kept a distance from others, and he was the only one who could get close. However, he did not expect that an accident would happen at the Sita Arena, and he would be rescued by those from Damocles Military Academy.

Not sure if it was an illusion, but Ji Chuyu felt that there was suddenly a tacit understanding between Ying Xingjue and the main team of Damocles Military Academy.....

It was clear that he had just walked side by side with Wei San from Damocles Military Academy, Ji Chuyu would not believe it if he said they had not met before.

Ji Chuyu and Huo Jian looked at each other, and they obviously understood what the other was thinking, but they would not go to Ying Xingjue for confirmation.

Ying Xingjue didn't care what they thought and quietly visited Ji Ci's studio.

There are a lot of mecha materials in Ji Ci's studio, which are not very valuable in the eyes of the mecha engineers from the five major military academies. What interests them most is Ji Ci's mecha manuscripts, which are incomplete. It can be seen that Ji Ci was very interested in mecha materials at that time. These are not considered important, otherwise they would not have been left in there until now.

However, except for Ji Jian, the mecha engineers from other military academies were extremely fascinated. After all, the teaching emphasis handed down from major military academies is different. For example, the mecha types of Gong Yiliu teach must be mainly medium-sized mechas, and other types of mechas.

Tourists usually come in just to see something new. There are also many people who bring their children in to soak up the master's spiritual energy, hoping that their children will also become mecha engineers in the future.

.....

Teachers from the five major military academies got up early in the morning and after notifying the main team of the joint training decided at last night's meeting, they started their own internal meetings.

Xiang Minghua, Jie Yuman and other teachers started the morning. When they went out to eat at noon, they met teachers from other military schools in the cafeteria, and they were keenly aware that the atmosphere today was a little different.

They didn't take it to heart at first. They just held a meeting last night and decided to have joint training. It's normal that the atmosphere was a bit weird today.

But soon, Xiang Minghua discovered that every military school teacher browsed the light computer even during meals. He asked Jie Yuman: "What's going on with them? They are all looking at their light brains." Those who didn't know, would've thought that something important happened in the Federation.

Jie Yuman lowered his head and turned on the computer to read hot news. When she entered the room, he saw a title: Group photo of the main teams of the five major military academies.

What? The main teams of the five major military academies have not yet started joint training, so where would they take a group photo?

She clicked into the headlines and actually saw a photo of several main teams standing together, not separated by military academies.

Jie Yuman slowly put down his chopsticks, unlocked the privacy of his light brain, and showed it to Xiang Minghua: "These people got together." Not only did they not break the news, they also took photos together.

This self conscious? They know they need to train together, so they established a good relationship first?
