

Smash All 541

Chapter 541

The next competition location will be selected the next day, so there is no training in the morning, but all military cadets must put on their military uniforms and arrive at the training ground at seven o'clock.

"Get up quickly." Ying Chenghe got up first and knocked on everyone's door, "It's late, there's still six minutes left."

Three minutes later, the four people came out of the room in unison, putting on their clothes and shoes. Liao Runing still held a mouthwash cup in his hand. He put down the used cup and rushed out with the others.

"Xiao Eli is scolding us in the group." Wei San put on her military uniform while running. She took a look at her light brain and discovered that a message had been posted in the group of the mecha soldiers.

Liao Runing hopped on one foot and bent down to tie his shoelace on the other foot: "Let me see."

He jumped all the way and put on his high-top leather boots, opened the group, and saw the message from Xiao Eli.

The heir of the Eli family: [hehe, why do you always have to arrive last, do you think you can get everyone's attention like this?

Secretly Begging for Food@Huo Xixi@Master Liao. 】

Huo Xixi: [Didn't this attract your attention? 】

Master Liao: [Xiao Eli, why do you always pay attention to us? Do you want to come to Damocles? 】

The heir of the Eli family: [The most ridiculous thing in the world is that you, Damocles Military Academy, are so poor that everyone is a fool to go there. 】

Just as Damocles Military Academy was running and messaging Xiao Eli in the group, Huo Jian from the Imperial Military Academy suddenly sent a message.

Huo Jian: [Xuanshan, what does your name mean? Change it back. 】

Huo Xixi: [.....This is a nickname, it sounds pretty nice, I don't want to change it. 】

Wei San and Liao Runing laughed loudly beside them. Most of the people in the group were as old-fashioned as Huo Jian. They were young, had no interest at all, and all used their real names.

A few people didn't have time to see the messages. They had already arrived at the exercise square.

Huo Jian frowned and looked at the disheveled Huo Xuanshan. He didn't know Huo Xuanshan well and spent more time with Huo Xijian.

After all, as the Huo family's only light mecha soldier, Huo Xuanshan is not close to the Huo family.

But the Huo family has always been self-restrained and respectful. Even before Huo Xuanshan left the imperial capital, he still looked like the Huo family. Why was he currently becoming more and more outrageous now?

There was a flat courtyard between the Imperial Military Academy and Damocles Military Academy. Huo Jian couldn't see very clearly from the corner of his eye, but saw the leading teacher from Damocles Military Academy walking towards them, apparently criticizing them.

Xiang Minghua glanced at the five people, walked around them, stretched out his hand and pulled out the corner of Jin Ke's clothes tucked into his pants: "You're getting later every time. Did you become a thief last night?"

"Teacher, it really didn't happen this time." Wei San raised her hand and said seriously.

"Not this time. When did you really become a thief?" Upon hearing this, Xiang Minghua immediately turned to Wei San.

Wei San: ".....I'm talking about climbing over the wall in school."

Xiang Minghua stared at them carefully: "Listen and watch carefully later, don't....."

Five people added in unison: "Make trouble."

Xiang Minghua: "....." I always feel that after taking this class, my hair has turned gray.

Soon there were people walking around on the stage, and the next venue was about to be drawn.

Wei San stood at the back of the main team, looking everywhere. She was observing Takeshi Kosakai from Pingtong Academy.

Judging from his appearance, he is no different from a normal person. His face, which originally became extremely pale due to injury, is now gradually improving.

The most important point is that except for the obvious changes made by Takeshi Kosakai when he was at Ji Ci's former residence, there was no subsequent attempt to deliberately contact Ying Xingjue.

Chapter 542

Thinking of this, Wei San couldn't help but look towards the next door of Pingtong Academy. Ying Xingjue was standing in the front, his body standing upright, but with an elegant look. He didn't look like a military school student, but more like a noble son with a good family background.

But he seems to be a noble prince to begin with.

Wei San was thinking wildly in her mind, and suddenly Ying Xingjue turned around and looked directly into her eyes.

“.....” Although she was caught peeking, Wei San confidently did not change her gaze, but continued to look at Ying Xingjue.

The first person to look away was Ying Xingjue, who moved his eyes slightly to the side.

No one noticed that the two of them were looking at each other, because when Ying Xingjue turned around, the others also turned to look at the person in charge of the star who was walking next to Damocles Military Academy.

The host of Sita Star walked onto the stage, faced the microphone, and his first sentence was: “I am very happy that Damocles Military Academy can win the championship on Sita Star.”

People from other military academies: “.....”

Haha, when other military academies won the championship in Sita Star in previous years, they didn’t say that.

The person in charge continued: “To celebrate, we decided to give a portion of the mutated plant eyelash serum to Damocles Military Academy. This is a gesture of gratitude from the people of Sita Star.”

As soon as this statement came out, even the military school teachers standing below were discussing in low voices.

Suddenly they made this move.

The people of Star Sita simply..... don't know what to say.

The new leader teacher from the Imperial Military Academy asked for a microphone and knocked on it: "Please be quiet, everyone. Since the people of Sita Star have a heartfelt wish, we are all willing to see Damocles Military Academy accept it. However, in the competition it is stipulated that except for the first time participating, all mecha materials must be redeemed in the competition venue, so I suggest that the organizer can keep this gift and give it to Damocles Military Academy after this competition is over."

What he said made sense, and the person in charge on the stage couldn't find a reason to refuse. Anyway, it was a sincere wish.

"Okay." The person in charge of Sita Star agreed.

"Then please select the next competition venue as soon as possible." The leading teacher of the Imperial Military Academy said politely.

The teachers at the Damocles Military Academy did not object. He was right. This was the rule of the game. Previously, Wei San was only able to change into a new mecha because he was transferred from the general soldier to the main team. It was considered her first time to participate in the competition. For example, Jill Wood, the main member of the Samuel Military Academy who was detected to have evolved to the 3S level, needs to spend a lot of resources to exchange for materials in order to change to a 3S mecha.

The light curtain lit up, and the words began to scroll continuously in the middle. The person in charge of Sita Star shouted stop, and the scrolling words in the middle gradually stabilized.

[South Percy Star.]

“This is the Rainforest Arena.” Jin Ke tilted his head and said to the people behind him.

“Previous years were relatively simple.” Ying Chenghe looked at the light projection on the stage, “I don’t know what this year will be like.”

“It won’t necessarily be easy.” Jin Ke thought thoughtfully, “Basically, the difficulty of the competition will gradually increase as the games progress. Besides, we have too many 3S levels, so the organizers will increase the difficulty of the competition.”

Sita Star is an example this time.

The person in charge of Sita Star concluded with the last sentence: “I hope Damocles Military Academy can maintain good results in the next competition.”

It simply raised the hatred of other military schools towards Damocles Military Academy to a high level instantly. They don’t know whether he did it on purpose or sincerely wished them well.

After the leader of Sita Star stepped down, Yu Tianhe, Lu Zhengxin, and Xi Haotian walked up and talked about some follow-up precautions.

“The next competition is the rainforest arena. I hope all military students will be extremely vigilant.” Yu Tianhe looked at the students below and said, “This time you have already finished the competition on Sita Star. We deliberately set the end point before, and there is no guarantee that similar things will not happen when we go to South Percy Star.”

“The rainforest arena is full of diverse creatures. In addition to star beasts, you have to be on guard against more. In addition, in this arena, we do not provide any nutrient solution or food.” Lu Zhengxin said with a smile, “The organizers want to train your bodies as much as possible for survivability.”

“Hey, he obviously wants to kill us.” Xiao Eli stood below and complained in a low voice.

But Lu Zhengxin on the stage heard it. Not only did he hear it, he also pointed it out: “If Xiao Eli from Samuel Military Academy is dissatisfied, he can withdraw from the competition directly. I believe there are people from your school who can step up.”

Xiao Eli shut up.

.....

After the next competition location was announced, all the military academies began preparing to leave for South Percy Star that afternoon.

While everyone was packing their luggage, Wei San was in the group and @South Percy's mecha soldiers and asked them what specialties there were.

Both Yamamiya Namiha and Yamamiya Isao ignored her. After a long time, Quinley Eli replied.

Quinley Eli: [Insects.]

Wei San: [.....I want to ask about food.]

Quinley Eli: [En, they eat bugs, a lot of them. Steamed bugs, fried bugs, or stir-fried bugs can also be partaken too.]

Master Liao came after smelling the food: [A hundred ways to eat insects?]

Quinley Eli: [You can also say that.]

Liao Runing began to ask Quinley Eli in the group about those bugs in South Percy star.

Wei San is no longer in the group, she is sending messages to Ying Xingjue.

Ying Xingjue just sent a message, telling her in advance that after arriving in South Percy Star, they would do a general physical examination together, and hoped that she could take him to the place where the blood specimens were placed for observation.

Secretly Begging for Food: [Why didn't we receive the notice of the general physical examination?]

Ying Xingjue looked at the message on the computer, hesitated for a while, and then replied: [The organizer has someone arranged by me.]

Wei San: "....."

As expected of someone from the Ying family, there are even people from him in the organizer.

Secretly Begging for Food: [Okay, as long as you know where the blood samples are.]

Wei San suddenly remembered something and sent him another message: [Have the guards around you evacuated?]

If those escorts were still there, wouldn't all their previous actions be known?

Ying Xingjue: [They are always near me.]

Secretly Begging for Food: [? ? ?]

Ying Xingjue probably knew what she meant, and quickly replied: [They subconsciously thought I was the only one and couldn't see you coming in through the window.]

Wei San stared at this sentence for a long time, and finally realized what he meant.

Secretly Begging for Food: [There are so many 3S levels, can you completely control their thoughts?]

This is no longer a little bit beyond the 3S level.

Ying Xingjue: [They stayed with me for too long, it's not difficult to do.]

Wei San sent him a message: [Don't use your perception against me.]

After thinking for a while, she added: [Except for competitions.]

This was due to his poor health. If it weren't for his physical problems, she's afraid that Ying Xingjue would have been alone in the Imperial Military Academy, and they would have all lost, or would have voluntarily given up.

Wei San turned off her brain, walked out of the room, and told a few people about the physical examination and that she would take Ying Xingjue to observe the blood samples later.

“I’ll go with you.” Huo Xuanshan said.

Jin Ke denied it: “This time, Wei San will go alone. It’s too obvious that there are too many people. We can just help them cover it up from behind.”

Wei San nodded: “Okay.”

.....

At night, Damocles’ cadets boarded the starship and rushed to South Percy.

Chapter 544

The starship set sail, and several members of the main team returned to their rooms to rest. Wei San connected to her light brain interface and began to learn Yu Qingfei’s teachings.

Because of the incident with Ji Ci’s former residence, she now not only listens to Yu Qingfei’s lectures, but also pays attention to his actions.

After paying attention, Wei San discovered that she couldn’t clearly understand what Yu Qingfei made. It was said to be a 3S mecha structure, but it didn’t look like it, yet sometimes it felt familiar.

She couldn't understand it, so she could only draw it on the manuscript after she left the interface, thinking that she would understand it if she learned more in the future.

After she completed her drawing, Wei San showed it to Ying Chenghe, but he couldn't understand it at first.

"I imported the manuscript you drew into my light brain and decomposed it." The next day, Ying Chenghe, who had not slept all night, knocked on Wei San's door, "The palm part can be decomposed into double S-level and 3S-level structure, the two are superimposed, so I didn't understand it for a while but it felt familiar."

Wei San looked at the split shape of the mecha's palm and thoughtfully mused: "What about the other structures?"

Ying Chenghe shook his head: "I tried it, but I can't decompose it. It may be other unknown principle structures."

Wei San stared at the structures that Ying Chenghe had dismantled into various shapes, but couldn't see the meaning behind the structures. The two could only give up and continue to study step by step.

However, Wei San and Ying Chenghe didn't sleep much during the period from Star Sita to South Percy Star. They were immersed in various mecha teachings and theories. They didn't even bother to go out to eat. It was Jin Ke and the others who delivered the food into the room.

Xiang Minghua and Jie Yuman also questioned why they didn't see Wei San and Ying Chenghe. They usually saw these five walking around, but suddenly two people went missing. They were not used to it.

Jin Ke spoke without blinking: "Chenghe is helping Wei San upgrade her mecha."

The teachers believed it.

After arriving at South Percy Port, Xiang Minghua saw Wei San and Ying Chenghe come out with huge dark circles under their eyes. He hesitated to speak, and finally said: "Don't be too hasty about the mecha."

Ying Chenghe and Wei San were startled, thinking that their teacher had discovered that they were studying mecha every day behind closed doors.

Jin Ke squeezed between the two of them, placed his hands on the shoulders of Wei San and Ying Chenghe, and said to Xiang Minghua: "we understand, teacher, I will urge them to have a good rest."

Damocles Military Academy entered the port together with the starships from Pingtong Academy. The two armies came out in sharp contrast. Damocles Military Academy students were noisy and lively. There was no unnecessary sound except for their footsteps emerging from Pingtong Academy.

From the first game to now, the momentum of each military academy has begun to change. The current silence of Pingtong Academy was not only due to the customs of the military school, but more like a loss of morale.

The contrast between the two main teams is even more obvious.

"I just received a notice that after the five major military academies have arrived, they will conduct a general physical examination." Jie Yuman got off the starship and said to Xiang Minghua.

"When will it be?" Xiang Minghua turned around and asked.

"Tomorrow." Jie Yuman passed the notice from above to Xiang Minghua.

General physical examinations are not uncommon. Occasionally, the environment of certain venues changes during competitions. In order to prevent the loss of too many military students, investigations will be conducted in advance to screen out those students with insufficient physical fitness. s

Xiang Minghua frowned: "Does this mean the rainforest competition will become more difficult?"

"It's not stated clearly, but it's more than likely so." Jie Yuman looked at the students who were boarding the aircraft, "There are many kinds of star beasts in the rainforest arena. The key is that there are other creatures in there, none of them are easy to mess with. If they don't enter the mecha, Without experience, it's easy for something to happen."

"In this half a month, all commanders need to learn about the rainforest environment, learn to identify most of the animals and plants in the rainforest, and also learn survival skills." Xiang Minghua sighed in his heart. Learning these things in half a month is definitely a huge project.

.....

After all the military academies assigned dormitory buildings and personal training rooms, they all received notices from the leading teachers about physical examinations.

Chapter 545

The main team from Damocles Military Academy had already learned about it in advance on Sita Star, and there was no sense of surprise. Wei San had already begun to visit various locations, and the other four people accompanied her as cover.

In the eyes of other military students, they were just the main team of Damocles Military Academy wandering around the South Percy Star training ground.

The next day, there was no training at the major military academies. Instead, they lined up in the medical building for their physicals.

Three major examinations: physical fitness, blood, and perception, all need to be checked.

“It is said that there is another most important reason for this major physical examination.”

“What’s the reason?”

“Do you still remember JillWood, the former main team member of Samuel Military Academy?”

“The main soldier who was promoted to the 3S level?”

“I heard she evolved.”

“Yes, one of the most important reasons for this physical examination is to detect whether other people have evolved or have evolved characteristics.”

.....

The main team of Damocles Military Academy listened carefully to the gossip from other school teams.

Liao Runing asked Jin Ke: “What about Wei San?”

“The teacher will find an opportunity to replace her,” Jin Ke said. “There is also Doctor Jing Ti here, he will help.”

“Ying Xingjue is not here.” Wei San glanced at all the military academies queuing up and discovered that he was not in the Imperial Military Academy.

Jin Ke looked towards the Imperial Military Academy and was not surprised: “His test report will be issued by a specialized medical team, so there is no need to come for a physical examination with us.”

The main team went in their tests first, and the five took turns to go in. Wei San was the last one. The doctor was from another military academy, and there were teachers from Damocles Military Academy next to him monitoring.

While drawing blood, Wei San stared at the needle in the doctor's hand, as if she wanted to see the flowers.

"Classmate, is there any problem?" the doctor asked subconsciously.

"It's nothing." Wei San shook her head. She just wanted to see her own blood, but she still couldn't see any problem. Ying Xingjue probably had to do this alone.

After drawing her blood, Wei San pulled down her sleeves and walked towards the next testing room.

Perceptual test.

There are two doctors in the room, one is responsible for recording and the other is responsible for letting students in. Jing Ti is the doctor responsible for letting students in.

"Stand up." The doctor, who had finished recording a set of data with his head down, raised his head and said to Wei San.

Wei San stood up, then released her senses, and the detection instrument showed an extremely conspicuous S-level.

The doctor who recorded the data lowered his head and wrote it down. Just when he was about to let Wei San go, he suddenly remembered something, looked at the S-class, and then looked at Wei San: “.....release all your senses.”

Just as Jing Ti was about to explain to Wei San, he saw her put her hand on the instrument again, and the orange display began to rise continuously, until it reached the 3S level.

“Okay, you can leave.” After the doctor who recorded the data was satisfied with the 3S level, he asked Wei San to leave, while complaining in a low voice, “Today’s students are all dishonest and always make mistakes.”

Jing Ti: “.....”

He knocked on the light brain and motioned for Wei San to take a look.

Wei San went out, turned on her light brain, and saw a message from Dr. Jing Ti, asking her what was going on.

Secretly Begging for Food: [It seems to make sense.]

It took a while for Jing Ti to respond: [?]

Then there was another message: [Come to 211 clinic to see me tonight.]

In the evening, she and Ying Xingjue had to go to see the blood samples, so how could she find the time?

Secretly Begging for Food: [Doctor, I have something to do tonight.]

Jing Tiwas still busy, and it was already an hour later she waited for a reply saying for her to meet him tomorrow.

Chapter 546

After Wei San completed her physical examination, Jin Ke and the others stood waiting at the door.

“Are you done?” Jin Ke sent her a floor plan, “The structure of the medical building, but Ying Xingjue has a more detailed version than mine. Just follow his.”

Wei San lowered her head and put it away carefully: “I still have to take a look. What if he leaves me there and I’m discovered?”

Huo Xuanshan glanced at her: “I’ve never seen you distrust him.”

Wei San spoke seriously and patted Huo Xuanshan on the shoulder: “Xixi, you are still too naive. As long as we are still in the competition, we will always be opponents and he can stab you in the back at any time.”

Huo Xuanshan: “.....”

The school physical examinations took a whole day and ended in the afternoon.

The main team of Damocles Military Academy did not go to the simulation cabin and wandered around. The others were not surprised.

But this time the four of them walked separately until one o’clock in the evening. Huo Xuanshan went to find Huo Jian, Ying Chenghe specially invited Ying Xingjue to go out with him on the pretext of cultivating brotherly feelings, and Liao Runing went to South Percy’s dormitory building to find Quinley Eli to discuss the specialty bugs.

“What do people from Damocles Military Academy mean by this?” Situ Jia watched Ying Xingjue go out and Huo Jian stayed in their room, then went to find Gong Yijue.

“Aren’t they crazy every day?” Gong Yijue squatted on the ground, disassembling mecha parts without raising his head.

Situ Jia: “.....Commander Ying Chenghe went out in the middle of the night. Will something happen?”

“Even if something happens to you, the commander will be fine.” Gong Yijue stood up and put together the disassembled parts.

“You can’t say that. Gongyi, what happened at the Sita Arena has just passed.” Situ Jia frowned, “We should always keep the safety of our commander in mind.”

“What dangers can arise between one commander and a mecha engineer? No matter how crazy those people at Damocles Military Academy are, they will never take action in the training ground.” Gong Yijue turned around, “Besides, did you come to find me for something? Ji Chuyu is in the opposite room.”

Situ Jia: “.....” If he dared to look for Ji Chuyu, he wouldn’t show up in Gong Yijue’s room.

However, thinking about it, it is really unlikely that any problem will arise. Even if not, the commander will still have escorts around him.

After Ying Chenghe and Ying Xingjue left, they took him to the dormitory building of Damocles Military Academy.

As soon as the door opened, Wei San was the only one left in the room.

Ying Chenghe: “Where’s Jin Ke?”

“He went to talk to the teachers.” Wei San changed into regular clothes and lighter shoes. She looked up and down at Ying Xingjue, who was standing behind her, took something out of her pocket and threw it at him.

Ying Xingjue subconsciously caught what she threw, looked down at the black headband in his hand, and looked up at Wei San with a trace of confusion in his eyes.

“Tie up your hair to save yourself the trouble of running around.” Wei San adjusted her collar, paused, and turned to look at him, “do you know how to tie your hair up?”

“.....Yes.” Ying Xingjue raised his hand and tied up his long hair with the hairband.

Wei San glanced at the slender and pale wrist that was exposed, and quickly moved away: “Is there anything wrong with your health? We are going to climb stairs later.”

“There is no need to climb the stairs.” Ying Xingjue said slowly, “We can avoid people and just walk over. The surveillance has been taken care of.”

Wei San: “At this point, the door to the medical building is closed.”

Ying Xingjue made an ‘en’: “I have the key.”

Wei San: “???”

Is this the benefit of cooperating with Ying Xingjue?

Chapter 547

In the middle of the night, Ying Xingjue followed Wei San, avoiding surveillance in the corridor of the dormitory building of Damocles Military Academy.

Wei San walked close to the wall and asked, “Why don’t you hack the surveillance here?”

“There was none found.” Ying Xingjue said calmly, without any shame.

Wei San walked to the corner, placed her back against the wall, took a tentative step forward, and immediately turned her head to signal Ying Xingjue to squat down and avoid the monitor.

The two of them had just bypassed the surveillance camera and walked down one level to the blind corner of the surveillance camera. They bumped into Nie Haoqi and Ding Hemei, who had just returned from training.

Ying Xingjue, who was standing behind Wei San, raised his hand slightly. Just as he was about to control the two people, he saw Wei San straighten up, reach out and push him back, leading him to stick to the corner with her.

Ying Xingjue frowned slightly, confused. These two people had clearly seen them. It was useless for Wei San to hide in the shadow of the corner.

As the physical examination took up time, Nie Haoqi and Ding Hemei trained until late at night before returning to the dormitory. They were still discussing combat skills along the way. As a result, they just walked up the stairs and ran into Wei San. The main thing was not Wei San they ran into, but Ying Xingjue who was behind!

Ding Hemei's eyes widened.

But soon the two people quickly continued the previous topic, treating Wei San and Ying Xingjue as air.

"Senior sister, I still don't understand the trick you just mentioned."

"Is that right? In fact, if you encounter that attack, you only need to attack with firepower."

Nie Haoqi and Ding Hemei walked away while talking, seemingly not seeing anyone hiding in the corner.

After they went upstairs, Wei San continued to walk forward. She turned to look at Ying Xingjue: "Let's go."

The two walked out of the dormitory building. After a short distance, Ying Xingjue asked Wei San: "They saw us."

"Who, did you see someone just now?" Wei San asked.

Ying Xingjue was silent. He remembered that those two people were in the same team as Wei San just now.

So after only being together for such a short period of time, they can trust each other?

After leaving Damocles' dormitory building, the two of them had a fairly smooth journey, and most of the people had already rested.

Arriving at the medical building, Wei San turned around and waited for Ying Xingjue to come over: "It's your turn."

Ying Xingjue approached the door, turned on his light brain, and a virtual card popped up. He lightly swiped it on the door lock, and the door opened automatically.

They walked in openly. Wei San looked up at the surveillance camera. The red light was still on, obviously still working.

"The picture on the monitor has been frozen and will play in a loop. No one will see us coming in." Ying Xingjue explained after following her gaze.

"Okay." Wei San fell behind him, waiting for Ying Xingjue to lead the way.

They both came here to look at blood samples and there were two things they needed to ascertain. One is who has blood problems, and the other is whether Wei San can see the black insect mist in the blood.

The blood samples were placed on the sixth floor. The two of them walked in the huge dark corridor. Wei San looked around and did not let down her guard because of what Ying Xingjue said before.

Ying Xingjue walked to a room door, pushed it open, and turned to look at Wei San: "Come in."

Chapter 548

There were large refrigerators one after another and two desks.

Ying Xingjue walked to refrigerator` No. 1 and opened the cold drawer. There were twenty-four blood samples inside. He could determine which one was Wei San's sample at a glance.

Ying Xingjue picked up the test tube, and sure enough, Wei San's name was written underneath. He put the test tube into his pocket, and at the same time took out another identical test tube with a blood sample and put it back in.

Wei San: "???"

"Where did you get this blood sample?"

"This is fake." Ying Xingjue said nonchalantly, pointing to the remaining blood sample, "Can you tell?"

Wei San shook his head: "No, they are all the same color."

Ying Xingjue took out another test tube and turned the label: "This is the blood sample of xiao jiujing. I can see that there is black insect mist in it." It is different from the black gas in Wei San's blood.

He used his perception to cover Wei San's eyes and asked her if she could see.

Wei San still shook her head.

"You can see the black insect mist alone, but you can't see the black insect mist mixed in blood." Ying Xingjue ascertained.

Wei San, who was looking at the blood samples with him, suddenly snatched the test tube from his hand with one hand, quickly put it back, closed the cold drawer, covered Ying Xingjue's lips with her other hand, and immediately moved the person to under the desk.

Ying Xingjue was stunned when her warm palm pressed against his lips. He didn't even notice the abnormality outside and was led directly down by Wei San.

The two of them hid under the table. Wei San put her finger to his lips to signal for him to be silent, and then released his hand covering Ying Xingjue.

Soon Ying Xingjue noticed that someone was in the corridor, and his perception spread out, giving the other a hint to ignore the desk.

'Da, da——'

The sound of shoes hitting the floor seemed slow and leisurely.

The voice kept getting closer, and finally stopped in front of the door of this room.

Wei San was sure that this person was not a staff member. The lights around him were still not turned on and it was dark.

The other party repeated their previous actions, opening the cold drawer of the No. 1 refrigerator, and then continued to move to the No. 2 refrigerator, opening the cold drawer continuously, and the sound of test tubes crashing was heard.

The desks where Wei San and Ying Xingjue were hiding were against the wall. They couldn't see who the other person was, so they could only hide underneath and wait for this person to leave.

For twenty minutes, the person opened all the refrigerators, did something unknown, and then left.

Wei San half-crouched under the desk and waited for a long time before coming out from underneath.

She bent down and stretched out her hand to pull Ying Xingjue out.

Since it was someone else's commander, she should take more care of him.

Ying Xingjue's eyes fell on her palm, he was stunned for a moment, then hesitantly put his hand in it.

Wei San pulled the person out: "It happened suddenly just now, I'm sorry."

But what was that person doing here just now? It wouldn't be that they came to check blood samples in the middle of the night. The sound sounds more like tampering.

"The scratch on your hand..... doesn't look like a training injury." Ying Xingjue's first question after coming out was to ask about Wei San's injury.

Wei San lowered her head and looked at the various small wounds on her palms, and casually blamed her teammates: "Ying Chenghe asked me to help him dismantle the mecha, so I was a little injured."

"These things should be done by the mecha engineers themselves." Ying Xingjue frowned slightly, "He didn't have this kind of character before."

"What kind of character do you think he should have?" Wei San asked.

Ying Xingjue was startled. His cousin's behavior was completely different from what he had before in the imperial capital. Now he seemed to be his true self.

“Let’s look at the other blood samples.” Wei San opened the refrigerator drawer.

Ying Xingjue looked silently, and then they checked everyone’s blood samples. In the end, except for Takeshi Kosakai’s blood sample, there were no problems at all.

Too clean.

“That person came to change the blood sample just now?” Wei San asked him.

“Maybe.” Ying Xingjue lowered his eyes. From the sound of the man’s footsteps and breathing rate, he could tell that he was an adult male, a staff member or..... a military school teacher. But one thing is certain, “Someone knows about the black bugs being an issue.”

Wei San closed the last refrigerator drawer and was a little disappointed: “The blood sample didn’t work, this was a waste of time.”

“It’s not in vain.” Ying Xingjue said, “It confirmed your question.”

The two of them left the room, a little more cautious at this time, worried about bumping into other people.

Wei San took Ying Xingjue back to his dormitory. As soon as they entered, Ying Chenghe stood up and asked, “How was it?”

“Except for Takeshi Kosakai’s, everyone else’s blood samples are clean.” Wei San said.

“That’s good.” Ying Chenghe breathed a sigh of relief first, and then said, “Takeshi Kosakai was infected, and after that.....”

“It’s not good.” Wei San sat down, “we went to the sample room first. Someone came from behind and seemed to have replaced the problematic sample.”

“Someone changed the sample?!” Ying Chenghe said in shock, “Who?”

Wei San shook her head: “I didn’t see anyone, and the surveillance has been covered for a long time.”

She leaned on the sofa, put her feet on the coffee table, raised her head to meet Ying Xingjue’s eyes, remembered something, and kicked Ying Chenghe’s feet: “Send your cousin back.”

Ying Chenghe wanted to be lazy: “Cousin, why don’t you go back by yourself?”

Ying Xingjue took out the replaced blood sample from his pocket and asked Wei San: “Can I take this with me?”

Wei San waved her hand casually: “Take it.”

“What is it?” Ying Chenghe asked her.

“My blood sample.”

“You.....were you discovered after you took it out?” Ying Chenghe said anxiously.

Wei San pointed at Ying Xingjue: “He has already prepared a replacement. It’s okay.”

Ying Xingjue held the blood sample, nodded to the two of them, turned and left the dormitory building.
