

Smash All 571

Chapter 571

Liao Runing, who was squatting to massage Wei San's legs, noticed something. He looked up and saw the cold eyes of Zongzheng Yueren, who was not far away. He raised his hand and waved to him, smiling: "Stop staring at Wei San. You lost with the mecha, and you lost without the -mecha. Even if you try to explain it by luck, our Wei San, are simply better than you."

Zongzheng Yueren had accumulated depression in his heart since he started on Sita Star. He originally thought he could regain his face this time, but he didn't expect to lose to Wei San again. He was also stimulated by Liao Runing. His energy and blood rushed to his heart and he vomited blood directly.

"Pavilion Master!"

The team members from Pingtong Academy stepped forward to support Zongzheng Yueren.

Liao Runing was startled: ".....This is none of my business....."

Wei San stood up: "Let's go, I'm hungry."

Lu Zhengxin walked over and said, "Wei San, I'm looking forward to your next performance."

“Okay, thank you, Commentator Lu.” Wei San said politely, and then slipped to the cafeteria room with her teammates.

When everyone was almost gone, the Imperial Military Academy was still in the training ground.

“You have seen Wei San’s learning ability.” Ying Xingjue said to Ji Chuyu, “Don’t give her a chance in the afternoon match.”

Ji Chuyu’s eyes fell on Zongzheng Yueren who was about to walk out of the training ground. He and Zongzheng Yueren felt the same feeling of having their dignity challenged.

Before the competition, he was still the best among the chosen ones. As the competition progressed, he was stepped on by an unknown person. Anyone would feel that he was being seriously provoked.

Ying Xingjue still had to go to the infirmary for a routine physical examination, so he was separated from the people at the Imperial Military Academy here.

After he left, Situ Jia whispered: “I used to think that the relationship between the commander and Wei San seemed to be closer during this period, but now it seems that they are not.” Maybe it was to discover Wei San’s shortcomings.

Among the four people, Ji Chuyu and Ying Xingjue have been together the longest, followed by Huo Jian. Situ Jia has a slightly weaker family background, but after arriving at the military academy, he defeated all the competitors and won the main soldier spot in this class to get in contact with Ying Xingjue.

“He is the chief commander of our Imperial Military Academy and will not do anything that harms the interests of the Imperial Military Academy.” Ji Chuyu twirled the mecha ring on his finger, “But..... he thinks too highly of Wei San.”

Huo Jian heard his words: "Don't forget what the commander said. I would rather think highly of Wei San than despise Wei San."

Ji Chuyu said nothing and walked out directly.

Huo Jian was left frowning on the spot.

.....

"Is this a new nutrient solution?" Ying Xingjue asked Xu Zhen.

"En, the ingredients have been changed a little, specially prepared for this competition." Xu Zhen pushed the nutrient solution to him, "It will probably last seven or eight days. You drink it before entering the venue. You can't wait until the end in the competition."

Ying Xingjue accepted the nutrient solution: "Does Dr. Xu's junior brother have this kind of nutrient solution?"

Xu Zhen shook her head and asked in surprise: "Why does he want this? Although we cooperate, I will not let anyone else handle your nutrient solution."

Ying Xingjue lowered his eyes: "Doctor Xu, I'm going back first."

"Okay, there is nothing wrong with this inspection." Xu Zhen sent a copy of the inspection report to the first district, and then passed it onto Ying Xingjue.

.....

Wei San endured the pain and took a nap. When she woke up, she was mostly healed, or she was becoming numb to the pain.

When she came out of the room, the other four people were already waiting in the living room.

"Let's go." Wei San moved her hands and feet and headed out.

"Teachers have gone too far. Why should you arrange your competition on one day without much time for rest?" Liao Runing complained.

Wei San didn't care: "We have to fight anyway, and there's a time limit."

If the time is extended any longer, she may really not be able to play two games in one day.

Everyone arrived in the afternoon, and the teacher in charge this time asked the teachers from the Imperial Military Academy to prepare first.

Wei San sat aside and watched, waiting for the last scene to come.

“This chair is good.” Wei San touched the chair, adjusted the camera position, and turned to look at the four teammates who were also sitting on the folding chairs. “It’s good if it’s free.”

“Thank you, Commander Gao, for the 200,000 yuan.” Huo Xuanshan said seriously.

Gao Xuelin passing by: “.....”

Chapter 572

In the afternoon, there was mecha confrontation. Both sides of the battle needed to use their own mechas. Compared with the non-mecha confrontation in the morning, the battle was larger and had a touch of cold metal. Although there is no intuitive stimulation of close combat, the mecha confrontation is more grand.

Obviously the last battle was Wei San, but she looked down at the recorded video as if nothing was wrong.

“The psychological quality of your students is pretty good, other military academies are a bit worse.” A teacher said to Jie Yuman.

Jie Yuman looked towards the main team of Damocles Military Academy. Five people were half lying on chairs, with melon seeds at hand. While eating, they were chatting with each other.

“.....”

The last game was Wei San’s game. These people are so laid-back. Who can watch it and say that they have good psychological quality.

To put it bluntly, it is short-sighted.

Jie Yuman: “You can only be considered mentally strong if you can maintain such a good attitude when you go to the battlefield.”

Although the teachers are chatting, they all have their own ideas in mind. The most nervous ones now are probably Jie Yuman and the teachers from the Imperial Military Academy.

The last scene can be said to be about the status of Wei San and Ji Chuyu within the military region.

If Wei San wins, her value will be raised to another level. On the contrary, if Ji Chuyu won, he will once again defend his status as the strongest mecha soldier among the younger generation.

When everyone was just getting ready to start, a message came from District 1, requesting to watch the last game.

The teacher from the Imperial Military Academy said yes, then took out the special flight video equipment, connected it to his light brain lens, and started broadcasting it live to the people in the military region.

The third game was about to begin, and the five members of the Damocles Military Academy stood up from their chairs.

“Are those the big guys in the first district?” Liao Runing secretly glanced at the teacher’s communication over there. The teacher from the Imperial Military Academy had withdrawn his privacy so that other teachers could see the military district.

Huo Xuanshan’s eyes became sharper: “It’s not just the first district, communications are also open there. It’s the upper level of other military districts.”

“All the military regions are watching your game.” Jin Ke said to Wei San, “Fight well.”

Wei San glanced towards the Imperial Military Academy, turned to Jin Ke and said, “You have nothing to say to me? Ying Xingjue across from you is probably talking about my problems.”

Jin Ke: “.....I sent you information about Ji Chuyu before, but you didn’t read it?”

“I checked, I feel that the opponent Ying Xingjue may dig deeper.” Wei San crossed her arms with her hands, “I’m a little scared.”

“Haha.” Jin Ke laid down on the chair, “If you think he is very capable, why don’t you follow him?”

“How old are you to be jealous?” Master Liao looked down at him, “Ying Xingjue is already better than you.”

Jin Ke: “You all dislike me, okay, I’ll leave now.”

Just as he was about to stand up, Huo Xuanshan pushed him down: “The game is about to begin.”

Chapter 573

The teacher was calling Wei San, and she walked towards the competition venue. Halfway there, she turned around and expressed her heart to the four of them.

Fortunately, it was not a live broadcast at this time, otherwise the bullet screen in the live broadcast room would have exploded.

“Get ready, the ten-second countdown begins.” After saying the last word, the teacher from the Imperial Military Academy reached out and pressed the switch of the timer.

The two entered their mechas. Impermanence’s shell had been repaired. During the repair, Wei San’s heart was almost broken. There were only so many Purple Liquid Mushrooms. Everytime she used a bit, it would reduce the amount she had left.

Wei San's heart ached again at the thought that this competition might put Impermanence at risk of destruction again.

Ying Xingjue's eyes fell on the two mechas in the field. He didn't know who would win. If Ji Chuyu was willing to listen to him and follow his plan, Wei San would not have a chance to win.

"I don't think Ji Chuyu will listen to you." Huo Jian suddenly said to Xing Jue, "He is dissatisfied with Wei San."

To be more precise, it corresponds to Ying Xingjue.

After so many years, they have been called the Twin Stars of the Empire, and now that Ying Xingjue has been paying attention to Wei San for too long, Ji Chuyu will naturally feel dissatisfied.

"I know." Ying Xingjue said slowly.

Huo Jian's breath froze, it was I know, not I know now.

The main commander's purpose from the beginning may not only be to let Ji Chuyu win, but also to test Ji Chuyu.

Ying Xingjue's eyes fell on Huo Jian: "I am only responsible for commanding. whether it is right or wrong. There will be time to verify."

Huo Jian lowered his head: "Yes." He should know that the commander will always think deeper than the mecha soldiers.

The timer counted down to the last second. Wei San stood still and neither did Ji Chuyu move. The two waited for each other and remained in a stalemate for a full twenty seconds. Ji Chuyu moved first.

He rushed towards Wei San, and did not slow down even though he was about to get close to Wei San. He only put his right hand on his waist, pulled out the Taiwu sword, held the handle straight, the blade of the sword was close to the handle, parallel to the handle, and he pulled across.

From the moment Ji Chuyu started to move, Wei San remained still. When Taiwu Sword approached, she committed herself to dodge the move, and at the same time drew out the Sumi Sword and slashed at his calf.

Sensing the sword's energy, Ji Chuyu raised his foot and kicked Wei San's hand, trying to crush it. Wei San rolled away on the spot, and the distance between the two was once again widened, but Ji Chuyu followed closely behind, slashing at Wei San's neck with his Taiwu Sword, threatening to cut it off.

Wei San tried her best to avoid it, but at that moment she could feel the sound of the Taiwu sword slicing across the mecha's neck.

If this was a confrontation without mecha, she's afraid bleeding would have occurred. However, this would make Wei San even more sad than bleeding. She could recover from bleeding. If the mecha was broken.....without materials, she couldn't keep repairing it.

Wei San's Sumi Sword was stuck on the floor, she held the handle, used the force to spin around on the ground, and kicked Ji Chuyu's foot. The two mechas collided, making a huge metal collision sound.

Ji Chuyu slashed at her leg with the knife. Wei San took advantage of the opportunity and once again turned around on the spot with the handle of the knife as the center of the circle, away from Ji Chuyu. When she stood up, she pulled out the Sumi sword.

Liao Runing, who was watching, looked up and said: "This trick is interesting, I have to learn it next time."

Ying Chenghe punched him and signaled Liao Runing to pay attention to his image. The teacher opposite was still communicating live, and the bosses from all districts were watching.

Liao Runing pointed from Huo Xuanshan to Yingchenghe at the edge: "How can we still have an image like this?"

The four people were sitting here, holding banners and colorful thin balls in their hands. They were clearly in awkward contrast to the other military cadets standing upright next to them.

Ying Chenghe: "....." That's right, as long as his parents didn't see him like this.

.....

The situation on the field is still at a stalemate, and it seems that the two people are evenly matched.

When the distance between the two people got closer, Wei San's Sumi sword had turned into a fan-shaped knife, with her hand as the handle. Every time she moved it, she could leave shallow marks on Ji Chuyu's mecha shell, but every time she stroked it, she felt a pity in her heart. What a good mecha, but it was a pity that it had to face her.

Ji Chuyu in the mecha cabin glanced at Ying Xingjue and quickly looked away. He always regarded what Ying Xingjue said as a guideline. This time, he still believed that there was no problem with the plan Ying Xingjue said, but he wanted to follow through in his own way.

The mecha belongs to him and he will pilot it. He will prove to Ying Xingjue that Ji Chuyu is one of the twin stars of the empire and is worthy of the name.

Ji Chuyu held the Taiwu sword vertically with both hands and placed it half a meter away from his chest.

Chapter 574

Wei San, who had just distanced herself from him: "?" Why did she suddenly feel that Ji Chuyu was doing magic, and he looked very sincere.

But before Wei San had time to think too much, Ji Chuyu on the opposite side moved.

Wei San: "....."

Ji Chuyu disappeared, and a mecha suddenly disappeared from her eyes.

Just as Wei San stood there, there was a sound of breaking through the air behind him. It was Ji Chuyu's knife. She immediately turned around and reached out to block it with a fan-shaped knife.

In the next second, Ji Chuyu raised his leg and kicked Wei San, directly kicking the mecha away. Wei San and his mecha hit the wall of the training ground, making a huge hole.

Before Wei San even had time to stand up, Ji Chuyu appeared in front of her again, so fast that the many 3S around him couldn't see clearly. They could only see him coming to the wall and slashing at Wei San with a knife. Wei San was confined in a small area and managed to avoid his attack.

The faces of the surrounding military students gradually became serious. If the inhumane confrontation between Wei San and Zongzheng Yueren in the morning made them understand that these two people were very strong. Now Ji Chuyu has refreshed their understanding.

This kind of speed may not even be matched by a soldier in a light mecha. Coupled with Ji Chuyu's advantage as a medium mecha, the two are combined into one. If they faced each other on the battlefield, Ji Chuyu would kill whoever he wanted.

At the same time, Wei San's performance was once again surprising. Even though Ji Chuyu was so strong and she was in such danger, the mecha was still uninjured and he missed every time.

Wei San took the opportunity to turn her fan-shaped knife into a combined knife. One knife blocked Ji Chuyu's Taiwu sword, and the other lifted into the air to break his siege, leaving the wall and returning to the training ground.

Ji Chuyu put away his sword and turned around, staring at Wei San. His speed increased again and he disappeared in front of her eyes, this time directly above her.

Wei San noticed at the last second, raised her head and raised her sword to resist Ji Chuyu's attack. He had the upper hand, and the tip of the Taiwu sword had even touched Impermanence's forehead.

Ji Chuyu increased the strength in his hand with an expressionless face, and the tip of the Taiwu sword once again intensified the damage. Wei San knelt down, but instead of being overwhelmed by him, she knelt down to relieve her strength and hid.

Jie Yuman and the four people from Damocles Military Academy suddenly became nervous when they saw Wei San's move.

Ji Chuyu's speed has just been seen. With such a hasty move, she completely exposed her back to her opponent.

This is a fatal mistake!

Sure enough, Ji Chuyu was behind Wei San the moment she landed, before she even stood up.

Ji Chuyu's sword hit her directly, and with the full blow of the Taiwu sword, Impermanence was hit deeply in the back, almost exposing the mecha cabin.

It's about to end.

Most people present glanced at the timer, only twenty minutes had passed.

In the mecha cabin, Wei San felt the severe pain in her brain, and instead raised her lips and smiled.

The game is indeed over.

While Ji Chuyu was still exerting more force, trying to destroy Wei San's mecha, the mecha under the knife moved strangely and suddenly disappeared in front of him.

Ji Chuyu sneered, imitating him?

He turned around to block Wei San's attack, and the Taiwu Sword and the Joint Sword crossed each other to resist.

"You....." Ji Chuyu suddenly realized something was wrong. Wei San didn't have another combined sword in her hand.

Her weapon..... Ji Chuyu lowered his head and looked at his mecha. A fan-shaped knife was accurately inserted into the engine of his mecha, directly destroying the engine through the reinforced protective armor.

While Ji Chuyu was stunned, Wei San's sword opened her knife, stabbed him in the chest, and took back her fan-shaped knife.

Ji Chuyu came to his senses instantly and quickly dodged. However, the engine was destroyed and most of his mobility was lost almost instantly.

Wei San jumped into the air and came down from top to bottom. The two knives of different shapes had turned into the Sumi sword and stabbed straight at Ji Chuyu's shoulders.

Ji Chuyu tried to resist, but failed. Wei San stabbed her Sumi sword into his shoulder, and finally fell behind him, stretched out her hand to explore the gap in the engine, and pulled out Ji Chuyu's energy.

This is the real end.

Chapter 575

Wei San stood behind Ji Chuyu, holding the Sumi sword in one hand and inserting it into the Terminator's shoulder. The other hand went around

Wei San stood behind Ji Chuyu, holding the Sumi sword in one hand and inserting it into the Terminator's shoulder. The other hand went around his waist, came to the front, and pulled out the energy block inside.

At this moment, the posture of the two of them was a bit like Wei San holding Ji Chuyu from behind, but the people around them didn't think much about it, only feeling terrified.

Even the upper echelons of the First Military Region sitting in front of the conference table had extremely complicated expressions.

Xiao Eli looked at the Terminator that had lost its power and swallowed his saliva. Wei San was too evil. Is this still something done by a human being?

Not to mention the other military students, even the four members of the Damocles Military Academy looked at the two people in the field blankly.

It ended too quickly. They had felt this way since Ji Chuyu broke out. As a result, the outcome was suddenly reversed.

“We.....won?” Liao Runing asked Huo Xuanshan next to him.

“We won.” Huo Xuanshan said slowly, and the two moves were almost exactly the same as those used by Ji Chuyu just now, especially the top-down sword at the end.

Ying Xingjue stared deeply at the deep knife mark on Wei San’s back. Just now she.....deliberately exposed her back, just to wait for this moment.

Ying Xingjue watched the live replays of several competitions many times. He always thought that she paid too much attention to her mecha. A pattern has been observed. Regardless of whether Wei San is in the school team or later becomes the main soldier, as long as someone hurts her mecha, she will suddenly explode. Instead, she will not actively resist when she encounters a crisis.

Therefore, Ying Xingjue asked Ji Chuyu to buy time and take action at the end, leaving Wei San no time to react. Ji Chuyu didn't listen to him. Ying Xingjue was mentally prepared, but he didn't expect Wei San to take the initiative to use her mecha as bait.

“Pah, pah, pah——”

The four members of the Damocles Military Academy suddenly applauded in unison, then held up banners, took out colorful thin balls and shook them.

When everyone heard their movements, they finally woke up and hid their emotions.

Wei San released his energy block, pulled out her Sumi sword at the same time, stepped back a few steps, then put one hand on his shoulder and bowed to everyone very elegantly.

“Your back is broken.” Ying Chenghe reminded.

Wei San in the mecha cabin: “.....” The interest in her victory suddenly evaporated.

Jumping out of the mecha cabin, Wei San put away her mecha and returned to her team: “Another more point, the reward belongs to us.”

“We only have this much Purple Mushroom Liquid at the moment, what should we do when it runs out?” Ying Chenghe asked in a low voice.

“Looking at his posture just now, Impermanence will definitely be injured in the end.” Wei San said, “Rather than suffer a lot of injuries, it is better to take a stab first and end it quickly.”

When she said this, Wei San still felt a dull pain, there was such a big hole behind her Impermanence !

“Okay, Ji Chuyu has returned.” The teacher came over and said, “The reward for the first joint training goes to Damocles Military Academy, and you can enter one hour early. In the next two days, the teachers will treat you separately. This review of the competition will be over today.”

On the afternoon of the eighth day, only the last mecha battle between Wei San and Ji Chuyu was left. After the competition, the teachers let everyone disperse.

Chapter 576

Ji Chuyu came out of the mecha cabin. Different from Zongzheng Yueren’s suppressed anger in the morning, his eyes were more blank. Obviously

Ji Chuyu came out of the mecha cabin. Different from Zongzheng Yueren’s suppressed anger in the morning, his eyes were more blank.

Obviously he was about to win, but why did..... everything suddenly turned around.

The other military students did not feel that Ji Chuyu was not strong enough, but that he was too enough. He lost so quickly because Wei San was too evil.

“Fix his mecha.” Ying Xingjue withdrew his gaze from Wei San opposite him and turned to Gong Yijue sideways.

“Yes.” Gong Yijue nodded, then went over to Ji Chuyu and said, “I can help you repair it tonight.”

Ji Chuyu suddenly raised his head and met Ying Xingjue’s eyes head on: “I’m……sorry.”

“She is more difficult to deal with than imagined.” Ying Xingjue said calmly, “You underestimated her, and I also underestimated her. It is our common fault.”

Hearing him speak like this, Ji Chuyu’s mind went blank. It was the first time he didn’t listen to Ying Xingjue’s words, and he got this result.

Just when everyone had about dispersed, amongst the soldiers there was?

Wei San.

Eli’s heir: [Where’s the video of you and Ji Chuyu, are you hiding it?

@Secretly begging.]

Huo Xixi: [……]

Master Liao: [You guys didn't know to record when it happened?]

Eli's heir: [The purpose of creating a group is to post videos? The only ones left are Wei San and Ji Chuyu, so hurry up.]

Xiao Eli snorted, recording with a light brain, and had to follow the movement of the two people in the venue at any time. Whoever had something to do and run around would be too detrimental to his image as the heir.

Others in the group also wanted to see how Ji Chuyu lost.

Quinley Eli: [Can you send it for us to take a look?]

Jill Wood: [Plus one.]

When Wei San saw this, she asked Jin Ke for a copy of the video he had just taken and sent it to the soldiers.

.....

First Military Region, a certain conference room.

“How did Wei San win just now?” asked a senior person sitting at the conference table.

“She captured the moment when Ji Chuyu relaxed when he thought he was about to win.” The person on the opposite side said, “Chuyu is still a bit young, and his mental quality needs to be improved. With Wei San’s strength, he should not be eliminated.”

Someone retorted: “I don’t think Wei San, who is from an unknown star, can receive as much training as Ji Chuyu? He has participated in the war, but his mental quality is not as strong as Wei San. In the final analysis, his strength is not enough.”

“This is just an accident.” The speaker subconsciously said to the person at the front of the conference table.

Ji Yuande, who was sitting at the front, said: “Military cadets are the hope for the future of our federation. It’s good to have more than one.”

Everyone said no more.

.....

After so many days of joint training, Wei San finally got some rest. As soon as Wei San returned to the dormitory, she lay down.

“Legs, make room.” Jin Ke patted off her legs, sat on the corner of the sofa, turned to Wei San, who had her eyes closed, and said, “The fight was good this afternoon, the timing was very good.”

“I think Wei San seems to be getting stronger and stronger.” Liao Runing pulled up a chair and sat down, and also said to her, “Ji Chuyu’s speed just now was scary enough, but it’s a pity that he met a pervert like you.”

“Striking first is the strongest.” Wei San didn’t want an accident to happen, so she took the initiative to lure Ji Chuyu with the neutral position behind him. “But Ji Chuyu will definitely not relax next time. This trick probably won’t work.”

Huo Xuanshan was a little regretful: “Zongzheng Yueren and Ji Chuyu didn’t play against each other. We probably won’t see them until next time during joint training.”

The five people sat or collapsed. After a while, Wei San opened her eyes: “Now that the first joint training is over, we have only eliminated a few people who are not infected.”

“This matter cannot be rushed. Maybe someone is observing us military cadets.” Jin Ke said, “Tomorrow we will go to the Underground Factory here in South Percy to take a look.”

Chapter 577

The black insect fog, the key found in Ji Ci’s former residence, and the unknown person who appeared in the blood sample room in the medical

The black insect fog, the key found in Ji Ci's former residence, and the unknown person who appeared in the blood sample room in the medical building..... They are now entangled in all kinds of fog.

The next day began with a holiday and free activities. The people from other military academies began to continue training according to their own habits, while Wei San and others walked out of the gate of the training ground in a swagger.

They happened to bump into the main team of Samuel Military Academy who were about to go to the training ground for training. Several people waved to the Samuel people as if they were inspecting.

"Hey." Xiao Eli curled his lips and couldn't stand the arrogance of this group of people.

But after the main team of Damocles Military Academy left, Xiao Eli said to Gao Xuelin, "Is it because they go out to relax before every game and have less pressure, so their strength will continue to improve. Should we also do the same and also go out for a walk?"

Gao Xuelin glanced at him expressionlessly: "Do you think it's possible? You can't beat them in training every day, so you still want to be lazy?"

Xiao Eli: ".....I'm just saying."

On the other side, the main team of the Damocles Military Academy had already put on masks and walked into the Underground Factory.

They won the championship on Sadu Star. The Underground Factory there raised the levels of Wei San and others. Not only could they go to the fourth underground floor, but they could also take two people in with them.

Obviously, the quotas for these two people are prepared for mecha engineers and commanders. The mainstream of the Federation is still the five-person squad system, even the Underground Factory is no exception.

“Let’s go get something to eat first. I’m hungry when I get up early in the morning.” Liao Runing said, touching his stomach.

He and Wei San led the way towards the eating area.

The structure of the Underground Factory here is no different from that of Sadu Star. Even the decoration is exactly the same. As long as you are familiar with Sadu Star Underground Factory, you will be familiar with this place.

The five people walked into the food area. Liao Runing and Wei San quickly walked to the food area.

“.....Are these a bug feast?” Liao Runing lowered her head and took the food tongs to pull at the jelly-like thing on the plate, which contained several bugs. “Ugh.”

Master Liao felt sick just looking at it.

Wei San squeezed him away: "This is the special area, you'd better go to the right to get something to eat."

Huo Xuanshan picked one up and put it on his plate, then picked it up with chopsticks and took a bite. After finishing the meal: "It tastes pretty good."

Liao Runing watched for a long time, still hesitating after they had finished.

"Close your eyes and open your mouth." Jin Ke said to Liao Runing. After he complied, he put a fried worm into Liao Runing's mouth and said, "Chew."

Master Liao endured the awkwardness, chewed hard a few times, and after swallowing: "It's quite delicious, chicken and almond flavor."

"Growing in the rainforest, after the larvae are caught, almonds are artificially fed. After frying, they will emit a light almond, so they are called almond strips." Ying Chenghe read the words on the wall in front of the plate.

Liao Runing walked up to the almond sticks. Although it still looked unacceptable, after eating one just now, it seemed that it was not so difficult to accept.

The five people took all the bug flavors and then found a place to sit down.

As soon as she sat down, Wei San saw a familiar person walking in the door, it was Yu Tianhe. She subconsciously took the plate and hid under the table.

Before the others understood Wei San's behavior, they saw Yu Tianhe walking all the way from the door and sitting directly in front of them, only a few tables away.

".....You're wearing a mask." Jin Ke kicked Wei San under the table and lowered his voice, "She doesn't know who we are."

Wei San raised her hand and felt her face. It was true.

Only then did she get out from under the table.

"Why did Commentator Yu come to a place like this?" Liao Runing stared at the people in front and asked the others.

Huo Xuanshan raised his hand to support half of his mask and whispered: "Don't keep staring at her, be careful of being discovered."

The five of them prepared to finish their breakfast quietly, but things did not develop as they wanted.

Another person came in at the door, obviously looking for Yu Tianhe, but before they could sit down, he saw the five people behind him and came over specifically: "Are you from Sadu Star?"

Chapter 578

The five people sat in front of the table, and no one said anything for a while, especially Yu Tianhe in front of them who looked over. Why

The five people sat in front of the table, and no one said anything for a while, especially Yu Tianhe in front of them who looked over.

Why can this person tell that they are from Sadu Star?

The strange man smiled, as if he knew the doubts in their hearts: "The masks the three of you have are the exclusive patterns of the Sadu Star Underground Factory. We in South Percy do not have such masks."

Jin Ke raised his eyes and looked at Wei San and the others. Sure enough, the masks brought from Sadu Star were different from the masks Ying Chenghe had just taken in the hall.

"It's rare to see people from Sadu Star come to the fourth underground floor. What kind of group do you guys belong to?"

Jin Ke coughed and changed his voice: "Who are you?"

The strange man suddenly realized: "Look at me, I'm just asking you questions. I'm Mo Xin, the person in charge of the underground fourth floor of the South Percy Underground Factory."

Jin Ke stood up and reached out to hold Mo Xin's extended hand: "Nice to meet you. We are..... F*** the Underground Factory."

Mo Xin was stunned for a moment, then said: "Good ambition."

Jin Ke: ".....Our group is called F*** the Underground Factory." What fool got the name.

"Haha, what a good name." As expected of the person in charge of the Underground Factory, Mo Xin quickly accepted the name and complimented it politely.

"Haha, where?" Jin Ke greeted the other politely.

Yu Tianhe in the front said: "The team that has won the division championship in Sadu Star is the team that went to the Underground Factory?"

The five people felt a chill behind them, as the Commentator Yu actually knew this.

Jin Ke looked calm and asked Yu Tianhe in front of him: "You look familiar, may I ask who you are....."

"Of course he looks familiar, Master Yu is the main commentator of this Hephaestus Competition." Mo Xin smiled, "As long as you have watched the live broadcast of the competition, you must have seen it."

“It turns out to be Master Yu. Nice to meet you.” Jin Ke stood at the table and took the initiative to say hello to Yu Tianhe in front of him.

Yu Tianhe nodded towards him as a greeting, then lowered his head and looked at his own light brain.

“Why is the Master Yu in the Underground Factory? Doesn’t it usually happen that groups like ours come to the Underground Factory?” Jin Ke asked Mo Xin next to him, and then asked specifically, “Is it okay if I ask this?”

“It doesn’t matter. This matter has already spread throughout our Underground Factory in SOutH Percy. Master Yu stayed with us for a long time during the military academy and helped various groups repair mechas.” Mo Xin said to Yu Tianhe in front of him. After looking at it, he turned back and said, “The highest record of Master Yu is that she repaired forty-nine 3S-level mechas in one week. No one has broken this record yet.”

“I see.”

“By the way, there is a competition on the fourth underground floor today. It is a level 3 team PK. If you want to participate, you can sign up at any time.”

“Okay, let’s go over and take a look later.”

The two stood chatting for a while, and then Mo Xin turned around and went back.

Jin Ke sat down and resisted wiping his sweat. Yu Tianhe was still in front.

Chapter 579

“Forty-nine mechas a week is very powerful?” Wei San asked Ying Chenghe in a low voice. Ying Chenghe nodded: “The forty-nine mechas mentioned

“Forty-nine mechas a week is very powerful?” Wei San asked Ying Chenghe in a low voice.

Ying Chenghe nodded: “The forty-nine mechas mentioned by the person in charge should not just repair the outer shell of the mecha, but the damage to the forty-nine mechas may be more serious.”

Yu Tianhe never left.

After the five of them finished eating, they did not dare to go out together for fear of being recognized by Yu Tianhe, so they had to leave in batches. Wei San took Ying Chenghe out, and the remaining people got up and left after a while.

When walking, Jin Ke deliberately changed his walking habits. His back was still a little bent when walking, so he couldn't get in touch with the military cadets.

After they left, Yu Tianhe finally raised his head: “Have you told them about the competition today?”

Mo Xin nodded: “I told them, but the rainforest competition is about to start, will they go to the competition?”

Yu Tianhe clicked on his light brain, entered the Underground Factory hall, and clicked on the competition prize list: "I will give you a jar of Aurora Liquid, you can add it to it."

"What is Aurora Liquid?"

Yu Tianhe smiled: "Good stuff."

.....

Wei San and Ying Chenghe were waiting for Huo Xuanshan and the others at the corner. After meeting, they started walking around.

"Did the Imperial Star Underground Factory find anything last time?" Wei San asked Jin Ke.

"No, I just know that after the fire, it was abandoned for a period of time. Later, the Underground Factory bought the land, including the location of the burned bar." Jin Ke sent the information he investigated to the group, "Imperial Star Underground Factory, after it was completed, the main entrance was located exactly where the bar had been."

It was precisely because he didn't find any useful information that Jin Ke suggested coming to South Percy to have a look. He had never been to an Underground Factory, so he wanted to take a look at the general appearance of the place first.

“Last time, we won Sumi Gold from the competition. I wonder what prizes there are in the Underground Factory competition in South Percy.” Wei San walked to the hall and looked up at the various competition rankings above.

“Sadu Star was a selection championship before, but today’s game in South Percy should not be the same.” Huo Xuanshan said, “The prizes wouldn’t be too generous, maybe just ordinary points.”

“The person in charge just said that this is a 3S competition and there will always be prizes.” Liao Runing felt a little itchy when he came to a place like this and wanted to stretch his muscles.

Jin Ke frowned: “I’m just here for a stroll today, let’s not make any mistakes.”

“I know.” Liao Runing said weakly.

“Aurora Liquid?” Ying Chenghe looked up for a while, then suddenly pointed at a light projection and said, “There is actually Aurora Liquid here.”

Several people turned to look at him, obviously not knowing what it was.

Wei San asked Ying Chenghe: “What is Aurora Liquid?”

“It can be used as engine fluid. It is the rarest type among 3S-level mechas. I have only heard Yu Qingfei mention it.” Ying Chenghe explained.

"I haven't heard him say that." Wei San muttered.

"Aurora Liquid is not easy to change, and its use on 3S-level mechas can reduce frequency instability caused by the reduction of energy blocks." Ying Chenghe said, "Yu Qingfei likes to put Aurora Liquid in the engine, but later I don't know why the Federation can't find this kind of material, and there aren't many records in the book,"

Ying Chenghe didn't doubt anything. After all, over the years, many materials were disappearing and new materials appeared.

Chapter 580

"In that case, let's go to the competition and get this prize." Liao Runing rubbed his hands and said excitedly. Jin Ke thought thoughtfully

"In that case, let's go to the competition and get this prize." Liao Runing rubbed his hands and said excitedly.

Jin Ke thought thoughtfully: "This is South Percy, the territory of the Yu family. The person most likely to have such a thing, it has to be one person."

Several people immediately understood what he meant. They had just met Yu Tianhe.

Yu Tianhe is in the Underground Factory, so the Aurora Liquid probably came from her.

“Should we take it down?” Wei San asked.

Jin Ke looked at Ying Chenghe, who had a faint look in his eyes next to him, and finally could only say: “We can take it, but you have to be careful, we still have to compete.”

The three mecha soldiers said they understood immediately and then started to sign up in the lobby.

After registration, there was a drawing. They got the draw and competed directly with the winning team. There are a total of five games today, and all groups are 3S-level individual soldiers.

Jin Ke flipped through the competition list and frowned: “There are so many 3S-level mechas in the South Percy Underground Factory? Are there so many in Sadu Star Underground Factory?”

Wei San took a look and said: “How is it possible? Last time we competed at Sadu Star Underground Factory, the three of us were the only 3S level mecha soldiers.”

In the five games, except for the three of them, the rest were all 3S-level mecha soldiers, almost catching up with the number of 3S-level mecha soldiers in the five major military academies.

“Let’s go ahead and wait. Don’t get hurt when the competition comes. Save your energy. We have to go to the rainforest competition.” Ying Chenghe told him that although the Aurora Liquid was scarce, the rainforest competition was what they really needed to complete.

“Don’t worry, if we lose here again, we won’t have the shame to go back.” Liao Runing hugged Ying Chenghe.

“Let’s not talk nonsense.” Wei San took out the pastry she just passed in the food area from her pocket, turned around and stuffed it into Liao Runing’s mouth.

Five people were sitting in the waiting area, ready to watch others compete. Wei San bit the pastry and looked around. In fact, the decoration here was exactly the same as the one at Sadu Star. Although the people were different, the atmosphere of the underground competition was the same.

There is still a faint smell of rust in the air inside.

Just as he was about to withdraw his gaze and prepare to watch the competition on the ring, Wei San suddenly saw a familiar person.

“That’s.....” Wei San pinched Huo Xuanshan and motioned him to look to the second row on the lower left, “Is that person Li Que?”

Huo Xuanshan looked down and saw a familiar profile: “It’s her.”

Wei San frowned: “Why is she here?” And she seemed to be a normal person.

Wei San still remembered the way Li Que failed and was carried off the stage, thinking that her career as a mecha soldier should be over.

She was actually still fine?

“The game begins.”

The two teams on the ring had already started. Wei San no longer paid attention to Li Que below, but looked towards the middle of the ring.

This is the first time they have watched a 3S-level game other than military cadets.

Looking at the first game, although the two teams are both level 3S, their performance can only be said to be average. The five people were not disappointed. After all, these people were independent fighters and had not received systematic teaching from the college. It was reasonable for them to be slightly weaker.

Looking at the next few games, the same is true. The 3S-level individual soldiers cooperated well, but the gap between them compared to the military academy students is visible to the naked eye.

“We do learn more in the military academy.” Liao Runing said with her chin, “The red team’s move just now was clearly winnable if they were thrown in a little faster, but they still lost after trying for so long.”

“I feel that the mecha is not good enough.” Ying Chenghe turned to Wei San and said, “I feel that their mecha’s performance is not ideal every time.”

Wei San looked at the two teams that had stepped down: "It's more like.....the soldiers and the mechas are not harmonious enough."
