Chapter 581

There were five group arena matches today. Originally there were only three. Four 3S teams competed in two-by-two PKs. The winning team PKed

There were five group arena matches today. Originally there were only three. Four 3S teams competed in two-by-two PKs. The winning team PKed again, and finally a champion team was selected.

Because 'F*** the Underground Factory' suddenly joined as a team, the winning team had to compete with them again.

Damocles were all sitting in a row, all with their arms folded and one knee resting on the other. If it weren't for the different faces and hairstyles, they would look like they were copied and pasted.

"That move just now is a must-have move for a 3S-level soldier, but the effectiveness of that soldier is only over 50% at most, so the effect is a bit poor." Ying Chenghe estimated after watching.

"That low?" Liao Runing could only see that the opponent's strength was poor. As for the mecha's effectiveness percentage, this was something that the mecha engineer needed to pay attention to. "The new moves we learn must be at least 70% effective."

Wei San stared at the mechas fighting in the ring and shook her head: "No, look at the stretch of their mecha's arms. It doesn't look like they are exerting more than fifty percent."

Ying Chenghe looked over carefully for a while: "Maybe their mechas are different from ours."

Ye Luzi's style of play coupled with Ye Luzi's mecha design resulted in the incompatibility between soldier and mechas.

"As soon as this event is over, it will be our turn to take the stage later, and then we can have a closer look." Wei San said thoughtfully.

The five people sat in the dark seats and watched the game on the stage seriously, but they didn't know that someone was watching them too.

"Are they afraid that others won't know that they are together?" Yu Tianhe looked at the five people clearly visible on the light screen. Although their clothes and shoes were not military school training uniforms, the five of them were actually dressed exactly the same.

"They actually participated in the team competition." Mo Xin looked at the five people on the screen, still a little surprised.

Yu Tianhe smiled: "If it were any other military academy, they would definitely not participate."

Not to mention that the mecha engineers from other military academies may not know about Aurora Liquid. Even if they knew it, the commanders of the military academies would not be willing to risk participating in the arena competition for a material that cannot be used in this competition.

The situation at Damocles Military Academy is different. The relationship between these five people is obviously much better than that of other main teams of military academies, and most of them are willing to sacrifice for their teammates.

Now it seems that it is indeed the case.

“Congratulations to Team Fog Flasher for winning.” The referee came up and said, “Take an hour’s rest. Next is the final battle between Team Fog Flasher and F*** the Underground Factory from Sadu Star Underground Factory. Who can win today’s 3S group arena? Please, let us wait and see.”

At the end of the fourth game, the Fog Flasher team went inside to rest and repair the mecha. Damocles and the others were idle and bored, looking around.

Wei San looked towards the front row at Li Que again, and unexpectedly the opponent also turned to look at them. Apparently she heard the referee’s name of the group and knew they were coming.

Li Que didn’t make any provocative moves, but it could be clearly seen that not only was she not seriously injured, but she also had an indescribable sense of confidence.

Wei San narrowed her eyes. She was so crazy back then. What confidence does she have now?

While she was meditating, a person came from the side and called Li Que away.

Chapter 582

“What are you looking at?” Jin Ke put down his feet, put his hands on his thighs, and asked Wei San.
“When I was playing a game on Sadu Star

“What are you looking at?” Jin Ke put down his feet, put his hands on his thighs, and asked Wei San.

“When I was playing a game on Sadu Star, I met an opponent. I originally thought her perception was injured, but now she seems to be fine.” Wei San said.

“When was the game?”

“In the championship match, when she was carried down, she became a little crazy.”

Jin Ke frowned: “Do you remember if there was a video of your game? Maybe there is this reason.”

“What’s the reason?” Liao Runing turned around and asked.

Jin Ke shook his head and said he didn’t know. After a while, he added: “Suddenly all the videos of your good game were removed from the shelves. The Underground Factory said that there was something wrong with its camera machine. Generally speaking, unless there is an extreme situation like encountering an extremely cold stadium, when will the camera be damaged? And the problem is with all photographic machines.”

The few people had no clues, and all they had were just guesses. However, the game time soon came. Wei San and the others stood up, moved their hands and feet in front of their seats, and finally lowered their heads to button up their clothes, and then walked down to the ring together.

Wei San became very interested in the Fog Flasher team and couldn't wait to compete with them. When the bell rang, she picked an opponent first to attack.

There was no suspense in the whole game. There was no comparison between the Fog Flasher and Damocles, but the game was not short. Basically, Huo Xuanshan and Liao Runing were dragging the others to fight, while Wei San was even slower. They were evenly matched with their opponents, and there was no difference.

"This Wei San....." Mo Xin looked at the two teams on the ring through the light screen, his expression a little complicated, "The weakest when there is a weak one?"

Yu Tianhe chuckled: "No, it should be fought for Ying Chenghe. Every move she makes can allow the mecha engineer to better predict the performance of the mecha used by this member of the Fog Flasher Team. After the time is almost up, she will deal with the opponent directly."

"Wouldn't Ying Chenghe find out the clues?"

Yu Tianhe watched the game in silence. She went to the food area today to add more prizes, just to let them see the clues.

After Wei San had tested the opponent to the point where she was almost done, she quickly dealt with the opponent. When Huo Xuanshan and Liao Runing saw this, they quickly knocked the opponent in front of them out of the ring.

The situation changed so quickly that the audience exclaimed.

The referee was the first to come to his senses and come up to decide the winner or loser.

“Remember to give us prizes.” Liao Runing came down from the mecha cabin and winked at the referee through the mask.

“Okay, okay.”

The three of them went down to find Ying Chenghe and Jin Ke.

“Those people are weaker than they look.” Huo Xuanshan said.

Liao Runing couldn't agree more with this: “I almost thought they were double S-level soldiers, they are too weak.”

“Maybe they are double S-class.” Wei San left one sentence and walked quickly towards Ying Chenghe.

Liao Runing was stunned: “.....West West, what did she mean by what she just said?”

“I don’t know.” Huo Xuanshan walked over there to see what Wei San wanted to do.

Jin Ke looked around and said to several people: “Let’s go to the lounge first.”

Lounge. Follow current novels on novelFire.net

Jin Ke took out the jammer and put it aside, and asked them: “What did you find?”

“Let’s watch the video first.” Wei San asked Ying Chenghe to play the video he just recorded.

The video of the battle between the two teams was played. After playing for a while, Wei San pressed pause and zoomed in: “Here, his offensive performance is actually only about 57-8%. His level is very poor, but I’m not sure. Is it a question of the mechas or the human beings?”

Then Wei San continued to play the video, and Ying Chenghe raised his hand to pause on the scene of her destroying the shell of the opponent’s mecha.

Ying Chenghe zoomed in on the damaged part of the mecha shell inside the light projection and said: “You can see some mecha structures here. Normal 3S-level mechas have not used similar structures. I have never seen them, but it feels familiar. This is very strange.”

Wei San sat down: “I’ve seen something similar.”

“Have you seen it before?” Ying Chenghe turned to look at her. So far, he has learned more about 3S mecha than Wei San. If Wei San shouldn’t know, it doesn’t mean that he also didn’t.

Wei San lowered her head and summoned two structures from her light’s brain: “Take a look.”

Chapter 583

The others, including Jin Ke, were confused, while Ying Chenghe looked back and forth at the two structures given by Wei San and compared th

The others, including Jin Ke, were confused, while Ying Chenghe looked back and forth at the two structures given by Wei San and compared them with the structures exposed by the mecha in the video.

Finally he seemed to understand. He couldn’t sit still. He moved his body back and couldn’t help but touch his face: “This is.....a combination of double-S structure and 3S-level structure? Why did they do this?”

Wei San asked back: “What do you think?”

Ying Chenghe couldn’t help but take a breath, but he suddenly reacted and asked Wei San: “How did you think of the double S structure?”

“Because.....” Wei San placed another photo, this time a photo of the drawing. There was also Wei San’s signature “Poverty” in the lower right corner of the drawing, “I have painted similar structures.”

Ying Chenghe enlarged her drawing and looked at it for a long time. He quickly identified it: "This is a composite modified structure of A-class and S-class."

He is used to designing and building 3S-class, and is not very familiar with S-class, let alone A-class, but with the previous comparison, he can guess it.

Wei San nodded: "I haven't tried it yet, but this structural fusion alone won't have any great effect."

Master Liao waved his hand in front of Wei San and Ying Chenghe: "Hey, can you take care of us non-mecha engineer members?"

Wei San raised her eyes: "The group we fought just now may not be 3S level, but double S level soldiers."

"No way?" Liao Runing was surprised, "But their mechas are clearly 3S level."

Wei San looked at Huo Xuanshan: "Do you still remember the Death God on Sadu Star?"

Huo Xuanshan nodded: "I remember."

"The time I fought with him, I dismantled his mecha. The bones and joints of Death God's mecha are not made of A-grade material. They should be higher, but because he is S-grade, he must be able to withstand it." Wei San said, "I suspect that the mechas used by these 3S-level soldiers today are all upgraded versions of those used by the Death God."

“You mean.....they are using mechas to leapfrog?” Jin Ke said thoughtfully.

Ying Chenghe still shook his head: “But this kind of structural fusion alone allows two S-class mechas to be operated by a soldier of 3S-class mechas. No one in the Federation should have discovered it until now.”

“It really can’t be done.” Wei San agreed with him, “It’s not possible to change from A-level to S-level, unless there is a new material that can break this situation.”

“Master Yu is here, maybe there is something of her handiwork in this.” Huo Xuanshan said.

There was silence in the lounge. If this news was true, it would be too shocking.

Jin Ke suddenly frowned: “It’s too easy.”

The others looked towards him, waiting for his next words.

“From the time we came in to now, it’s too easy for us to search for information, first about the competition, and then about discovering the problem with the mechas.” Jin Ke asked Ying Chenghe, “Without Wei San’s reminder, can you discover this fusion structure?”

Ying Chenghe hesitated: "At least a few days."

3S-level mechas are born with high perception, and the foundation is the 3S-level structure. Other levels of mechas were originally developed later to expand the army. Generally, 3S mecha engineers will learn the principles of other levels through elective content.

Therefore, Ying Chenghe needs reaction time to discover the fusion structure.

"Master Yu did it on purpose." Jin Ke said, "She knows that we are from Damocles Military Academy."

"Are you saying that Master Yu came into the dining area on purpose?" Wei San asked.

"Perhaps she put the Aurora Liquid there on purpose." Jin Ke put away the shield, "I'll call her and ask her."

In this case, let's show off our cards and see what Yu Tianhe's plans are.

.....

Yu Tianhe's light brain started buzzing. She looked at the number and raised her eyebrows: "Was I discovered so quickly?"

After saying that, she hung up the communication and did not answer further.

Chapter 584

Smash All Pots and Pans To Go to School

“She hung up.” Jin Ke looked at his light brain and hit a call a few more times, but Yu Tianhe rejected them all. In the end, probably becau

“She hung up.” Jin Ke looked at his light brain and hit a call a few more times, but Yu Tianhe rejected them all.

In the end, probably because he was annoyed, Yu Tianhe sent a message: [It is already eight o’clock in the evening. If you don’t go back, I will report you to a teacher at Damocles Military Academy for cheating.]

Jin Ke: “???” Sure enough, they were discovered early, so why didn’t she answer the call?

Just as he was about to send a message to ask, Yu Tianhe sent another message: [After the game ends, I will board Damocles warship.]

Jin Ke forwarded this message to the group, raised his head and said: “It seems that the Master Yu wants to talk to us on the starship.”

“We will go back after they deliver the prize.” As soon as Wei San finished speaking, there was a knock on the door of the lounge.

It was the staff who was delivering the prizes.

Ying Chenghe went over, took it, and opened it.

“Is this the Aurora Liquid?” Wei San probed over to take a look. The liquid inside exposed a dazzling color under the light. When she got closer and smelled it, there was a refreshing fragrance emanating.

“I’ve only heard Yu Qingfei describe it, but it should be this.” Ying Chenghe carefully covered it, “Although it can’t be used now, it can be used in the next competition.”

Several people hurried and finally returned to the South Percy training ground. Although the doubts in their hearts did not diminish, they were still very happy to obtain the mecha fluid for free.

Coincidentally, when they went there, they met Samuel Military Academy. When they came back, they were seen by members of Samuel Military Academy who were about to go back to their dormitories.

Nan Feizhu looked at the main team of Damocles Military Academy who were obviously in a good mood, and said with some disgust: "I don't know why they are so excited all day long?"

"They have won two divisional championships, how can they not be excited?" Xiao Eli curled his lips. If Samuel Military Academy could win a championship, he would streak around the training ground every day too.

With a few days remaining, the main team of Damocles Military Academy was snatched by Xiang Minghua for crazy training.

Teacher Xiang said that he had called them to train every other day, just to satisfy their habit of going out for a day of play every time they reached a star. Now that they are done playing, they must seize the time to train.

The main thing was Jie Yuman's guidance, and they analyzed the performance of the members of each military academy during the previous joint training.

"By the way, the results of the physical examination seem to be out. Several students seem to have a tendency to evolve." On the afternoon of the last day, before class ended, Jie Yuman dropped this note.

Master Liao immediately asked 'shyly': "Am I one of these students? No wonder I feel that I have made great progress recently."

Jie Yuman: “.....Haha, except for Jill Wood who was promoted to 3S, the rest of the main team has no signs of being promoted. Those students are in the school team and are not from our Damocles Military Academy.”

“Can you detect what level they have been upgraded to?” Wei San asked.

Jie Yuman shook his head: “Just because you have this tendency, you may not necessarily upgrade.” However, if someone really succeeds in upgrading, I am afraid that the federal history theory will be greatly rewritten.

“Okay, as long as you know this, focus on the competition now. You must pay attention to safety in the rainforest arena. Not only are there star beasts, but there are also many unexpected poisons in it.” Jie Yuman finished speaking, “Let’s disperse first. rest early today, we have to enter the arena tomorrow.”

.....

There is not much difference between the procedures in the rainforest arena and the previous arenas. You still need to draw the combat preparation pack, but there is no food or nutrient solution in it. In addition, he won first place in the joint training competition. Damocles Military Academy can enter the venue one hour in advance to seize more opportunities again.

Chapter 585

They were drawn in order. After each military academy received their combat readiness package, they began to prepare for entry. Damocles Mil

They were drawn in order. After each military academy received their combat readiness package, they began to prepare for entry. Damocles Military Academy was the first to enter.

Scene of live broadcast: reporters from all sides were generously explaining to the camera.

“Damocles went from last place to becoming the favorite to win the Hephaestus Competition. I believe the audience has seen how much they have achieved during this period.” The Lanfa reporter held the microphone and turned around, letting the camera capture Damocles Military Academy, who was about to enter. “This time, they achieved excellent results in the joint training and were able to enter the rainforest competition ahead of schedule again.”

The main team of the Damocles Military Academy passed the camera lens first. When they saw Lanfa’s camera sweeping over them, they immediately drew hearts to the reporter and the camera.

Lanfa’s reporter who came to interview this time, was a tall man. Faced with the enthusiastic comparison between the main Damocles team and the school team behind, he blushed for a moment. It was unknown whether it was excitement or shyness.

He tried hard to add: “Of course, Damocles Military Academy is also the most popular military academy on the Star Network. It is said that their fan base has surpassed the Imperial Military Academy. Damocles Military Academy has been shining brightly before, and has also experienced its starlight dimming, but I believe, we believe that we will witness it shining through the entire federation together.”

“The reporters over there seem to be praising us.” Wei San spoke to the surrounding. The noise outside the stadium was too disruptive, and Lanfa media was not close to them, so they couldn’t hear clearly.

“You can see what they are talking about when we leave the arena.” Jin Ke glanced over there and then headed into the rainforest arena.

The audience in front of the live broadcast sat up straight and stared at the camera of Damocles Military Academy seriously.

As soon as the military academy entered, the first thing entering their view was a dense forest of towering trees.

“It’s not easy for mechas to move around here.” Ying Chenghe looked around for a moment and observed.

Jin Ke nodded: “There should be relatively few large star beasts. Everyone should first check their collars, cuffs and trousers to make sure they are tied tightly.”

Everyone spent a minute at the spot, checking themselves over again, and then started to walk inside.

Jin Ke had already read the map before coming in. He chose a southeastern route, which was closer to the end.

Live broadcast.

“It seems that Damocles Military Academy has decided to put its focus on first place instead of earning as much resources as possible.” Lu Zhengxin said while looking in the direction of Damocles Military Academy.

“After all, the chief commander of the Imperial Military Academy promised that half of the resources for this game will be allocated to Damocles Military Academy.” Xi Haotian rarely praised the Damocles Military Academy students, “they did a good job in the last game and did not directly eliminate Ying Xingjue. “

Lu Zhengxin mused: “I think it would have been better to have Ying Xingjue eliminated before, so that the Imperial Military Academy might not even get the third place, and the points of the two military academies are now tied.”

Xi Haotian was noncommittal.

.....

Damocles cadets marched very carefully. This time, the commanders had to pay attention to the surrounding environment at all times. Only they have learned about the rainforest environment and must be responsible. They also had to check to see if there was anything edible nearby.

Chapter 586

“There must be a lot of snakes in this arena.” Wei San suddenly spoke in Liao Runing’s ear. “Where? Where!” Liao Runing’s heart was tense, b

“There must be a lot of snakes in this arena.” Wei San suddenly spoke in Liao Runing’s ear.

“Where? Where!” Liao Runing’s heart was tense, but when he heard the word ‘snake’, he almost jumped up.

Wei San spoke ‘kindly’: “I’m just reminding you.”

Jin Ke glanced at Liao Runing: “When we go back, you should ask the teachers to help you with desensitization training.”

“I won’t!” Master Liao felt bad just thinking about that scene.

A few hours after they entered the arena, the sound of a broadcast and a beam of light from the Imperial Military Academy’s successful hunt for the star beast came from another direction.

“They are very fast.” Wei San looked up at the beam of light and said.

Jin Ke also looked up at the beam of light in the sky: “They have to share half of their resources, they will naturally choose the route with more star beasts.”

Although the resources allocated to the Damocles Military Academy will also increase, at least the Imperial Military Academy will also have more resources.

After all the five military academies had entered, Lu Zhengxin commented again: “Now in comparison, the Imperial Military Academy and Pingtong Academy seem to be a lot calmer, and the overly proud atmosphere from before has disappeared. The Imperial Military Academy also has a new lead teacher this time. I even heard that Ying Yuerong once sent a message to their main team, and when it ended, several of the main players’ eyes turned red. “

“After losing their main commander in the last game, the Imperial Military Academy behaved like a mess. They really deserved to be scolded.” Xi Haotian turned to Yu Tianhe and asked, “What does Master Yu think of the Imperial Military Academy’s performance in the last game?”

“They rely too much on Ying Xingjue.” Yu Tianhe looked at the various military academies on camera. “It is a good thing for a military academy to have strong leads, but others cannot rely entirely on the other party just because the strong person is too strong.”

.....

As time went by, Damocles Military Academy gradually walked deeper into the rainforest arena. When the sun was about to set, the large army finally stopped near a stream.

Jin Ke didn’t sit down. He went to inspect the school team to see if there were any problems with the food that the school team commanders had come to get.

Most of them are fruits and wild vegetables. There are a lot of mushrooms on the roadside in this arena. Unfortunately, there are too many unfamiliar mushrooms. They dared not eat them, so they can only pick out the fruits and wild vegetables they can identify.

Huo Xuanshan led people to patrol around, while Wei San and Liao Runing walked towards the stream, followed by a bunch of tails.

They were all waiting for them to wash fruits and wild vegetables after checking the safety of the stream.

The stream is so clear that they can even see the pebbles below. It was quite peaceful.

Wei San picked up a few stones on the shore, raised her hand and threw them into the stream. After a few 'plop' sounds, the water splashed up and then fell back, and there was no other movement.

Liao Runing found a long stick, stood on the shore, and poked it into the water, but there was still no problem.

"Are there any fish in the water?" Wei San squatted on the shore and looked down, only seeing a few aquatic plants.

"I didn't see any." Liao Runing raised his hand to block his eyes and looked into the distance of the stream.

Jin Ke had already turned around once, and more people were queuing up behind him to wash fruits and vegetables. He asked Wei San: "Can we drink the water?"

Wei San said: "Let's wait until Chenghe finishes."

Ying Chenghe specially learned how to make a small instrument for testing water quality before the competition. It must be said that the mecha engineers knows a thing about everything, and now he has accepted his identity well.

—The ever-changing craftsman.

Ying Chenghe came over with a small instrument he had created to measure the water quality. Ten minutes later he said: "It's consumable. We just need to filter it."

Everyone began to line up in two teams, one team washed fruits and wild vegetables, and the other team filled their water.

Wei San and Liao Runing were standing by to prevent any accidents from happening.

These military cadets used to drink nutrient solutions during competitions. They didn't know how to cook. They basically ate some fruits and raw wild vegetables.

There was no seasoning and it was eaten raw, and these people looked distorted after eating it.

The situation in other military academies was quite similar, except that other military academies have the burden of being idols. They know that the outside audience, teachers, and even people in the military area may be watching, so they all have no expressions on their faces when eating.

The students of Damocles are famous for not caring about their appearance. They ate sour, bitter, astringent fruits and wild vegetables, a thousand people with a thousand faces.

Audiences in the live broadcast room of Damocles Military Academy felt their hands cramping when they took screenshots.

Chapter 587

Wei San and Liao Runing were still standing by the stream to defend them. After Jin Ke packed the water, he gave them fruits. The fruit is n

Wei San and Liao Runing were still standing by the stream to defend them. After Jin Ke packed the water, he gave them fruits.

The fruit is not big, about the same thickness as their thumb. The yellow skin has many bruises, and the juice that bursts when they bite into it is full of bitterness.

Wei San accepted it first, took one, took a bite, and then swallowed it.

Her expression was so normal that Liao Runing didn't think much at all and picked up a piece of fruit as thick as a thumb and bit down: "Yuck!"

Master Liao's face was distorted, and he grabbed his neck with his hands. He almost fainted. He bent down and spit out the fruit in his mouth, and stood up weakly: "Wei San, why didn't you warn me of such a bitter thing?!"

“Is it bitter? I think it’s okay.” Wei San looked down at the long yellow fruit in her hand and stuffed the remaining half into her mouth.

Jin Ke also picked up one and said: “This is called water jade fruit. It tastes bitter but has high nutritional value. It clears away heat and detoxifies and has a lot of water. Young master, it is better to eat something bitter occasionally.” The latest_episodes are on_the_novel-fire.net

After that, he took a bite confidently: “.....Yuck!”

Jin Ke forced himself not to spit it out, but the extremely bitter taste lingered on the taste buds on the tip of his tongue, and the bitter water flowed through his throat, making him feel physically nauseous again.

Master Liao crossed his arms and looked at Jin Ke with raised eyebrows: “It’s not bad to suffer a little occasionally.”

Jin Ke: “Ugh——”

Even after swallowing it, the bitter smell that shocked his taste buds never dissipated.

Jin Ke had been memorizing relevant knowledge about the rainforest for half a month before coming in. He knew that the jade fruit tasted bad, but he never expected that the taste would be so..... abnormal.

Jin Ke and Liao Runing looked at Wei San, who was eating the jade fruit without changing her expression, and couldn’t help but give her a thumbs up.

“Are your taste buds broken?” Liao Runing watched her eat and felt a bitter taste rising in his throat.

“It’s not.” Wei San held half of a jade fruit in her mouth, “It’s still within the tolerance range.”

This smell is nothing compared to the rotten smell of the garbage dump.

Jin Ke couldn’t eat it, so he put it back and picked out another batch of red fruits: “This one is very sour, it should be a bit better.”

Liao Runing only took a small bite this time, but was still shocked by the sourness: “These are quite some wild fruits, their taste is so exciting.”

“There’s nothing we can do, just bear with it.” Jin Ke closed his eyes, stuffed the red fruit into his mouth, and quickly swallowed it while holding his breath. He turned around and walked to the resting place, his back trembling.

Master Liao: “.....” Maybe they will be knocked down by these wild fruits before they reach the end.

“Do you want to eat them? If not, give it to me.” Wei San asked Liao Runing after finishing the food in her hand.

Liao Runing wouldn’t eat them unless he was about to starve to death. He gave all his fruits to Wei San and took back two more: “I’ll give them to Xuanshan later.”

When Huo Xuanshan came back from his inspection, Liao Runing waved to him and handed over two fruits: "Xuanshan, this red fruit is very sweet and has a lot of water. However, the yellow fruit is a bit bitter and not very tasty."

Huo Xuanshan looked up at him and Wei San, and finally chose the yellow fruit without hesitation and put it in his mouth.

"....."

"Hahaha, I told you that this fruit is not delicious, but you didn't believe it." Liao Runing pushed the red fruit to Huo Xuanshan, "Here, this one is sweet."

Huo Xuanshan swallowed it forcefully and asked Wei San: "Is this sweet?"

Wei San neither nodded nor shook her head: "It's not delicious."

Hearing what she said, Huo Xuanshan took a bite of the red fruit with hesitation, feeling that it was so sour that he doubted his life.

"I told you it didn't taste good." Wei San raised her lips, and Liao Runing raised his hands and clapped in the air.

Huo Xuanshan: “.....” He could already imagine how difficult the road ahead would be.

The patrol teams exchanged breaks to rest and replenish their strength. After Huo Xuanshan arrived, Liao Runing led another group of people to patrol the surrounding area.

Wei San stood by the stream and looked across.

Chapter 588

The opposite environment is similar to here, with trees and rabbits. Rabbit? Wei San turned around to find Ying Chenghe: “I want a bow and a

The opposite environment is similar to here, with trees and rabbits.

Rabbit?

Wei San turned around to find Ying Chenghe: “I want a bow and arrow. There are rabbits on the other side. I’ll go and shoot some.”

Ying Chenghe: “.....Wait a moment.” Isn’t it just an ordinary bow and arrow, he is a craftsman who can make it!

“Do you want me to go?” Huo Xuanshan asked.

Wei San shook her head: "I want to move around for a while, you stay here and guard them."

By the time Ying Chenghe made the simple bow and arrow, ten minutes had passed. Wei San took the bow and arrow and walked to the stream. She squinted for a long time, listened for a while, took a few steps back, jumped up and ran across the stream.

As soon as she stepped onto the ground on the opposite side, Wei San looked down and saw that the soil here seemed to be softer.

The sound of animals hitting the grass reached Wei San's ears, and she walked straight in one direction.

"Wei San, don't go too far." Jin Ke stood up and shouted from the opposite side.

She raised her hand and made an OK gesture, not knowing whether the person opposite could see it.

Wei San followed the sound, but she never saw any trace of the rabbit, but she didn't want to go too far and was ready to turn back.

She can't hunt here. She look for another chance next time, but Liao Runing and the others will probably be hungry.

Wei San quickly turned around and went back. As she was walking, she heard another sound coming from the left.

“.....”

Is there a rabbit nest here? There are rabbits everywhere.

Wei San didn't think it was the same rabbit that made the sound. The speed was too fast, so she could only use different rabbits to explain the variation.

She stood there and listened for a long time, then suddenly drew her bow and shot in a certain direction.

The bow and arrow shot through the air towards a patch of grass, and Wei San clearly heard the sound of the shot.

But when she walked over, she only saw the bare arrow hitting the ground.

Wei San frowned and bent down to pull out the arrow. In addition to the arrowhead, the upper part of the arrow body also had scratches.

She touched it with her fingertips. The scratches..... seemed like it had fallen into a thorn bush.

There was nothing on the ground where the shot hit, so she held the bow and arrow in her hand and stood there with her head lowered.

At this moment, thorns were crawling up one after another from all directions, threatening to wrap around Wei San's feet.

Wei San quickly moved away, stepped on the tree trunk, and finally squatted on a thick branch.

She lowered her head and looked at the ground. Some of these grass thorns had small flowers one after another on them. Some of the grass thorns even slowly rolled into the shape of rabbits. If Wei San had not seen it with her own eyes, Wei San would never have imagined that there were plants pretending to be animals.

So the arrow just hit this kind of thing? New novel chapters are published on [N\(\)velFire.net](http://N()velFire.net)

It turned out that there was no rabbit. Wei San stood on the branch and swung to another tree with the help of a branch above her head.

Just when Wei San reached the third tree, she suddenly gave out her strength and fell directly to the ground.

Countless thorns crawled up from the ground, covering Wei San and entangling her hard.

Live broadcast.

When Xiang Minghua saw this scene, he was completely stunned. He had no idea why Wei San suddenly fell down. This kind of mistake would not even be made by an A-level person.

The audience was even more confused and looked at the commentator on the stage.

Of the three live commentators, Yu Tianhe is from South Percy and knows the rainforest arena best.

“This is a psychedelic grass thorn. It is best at turning thorns into rabbits to confuse prey.” Yu Tianhe looked at the live broadcast of Damocles Military Academy, “Just now Wei San reached out and touched the arrow body. It was probably stained with psychedelic thorns. Once the pollen of grass thorn comes into contact with the skin, the person will quickly fall into a coma and even feel happy until death.”

Blood could already be seen flowing out of the tightly wrapped psychedelic grass thorns in the camera lens, but everyone at the Damocles Military Academy on the other side obviously didn't know what was happening.

This time even Jie Yuman couldn't sit still.

Chapter 589

This thing is not a star beast, it is just a plant in the rain forest. Now Wei San is in a coma and under hallucination, unable to make any

This thing is not a star beast, it is just a plant in the rain forest. Now Wei San is in a coma and under hallucination, unable to make any

This thing is not a star beast, it is just a plant in the rain forest. Now Wei San is in a coma and under hallucination, unable to make any sound at all. Damocles Military Academy is basically unaware that there is a problem.

“Wei San can’t wake up?” Xi Haotian asked

“It’s almost impossible to wake up. Usually when we encounter this kind of psychedelic grass and thorns, we will eat them in advance.....” Yu Tianhe suddenly paused mid-sentence, “It depends on her luck.”

Xi Haotian asked in surprise: “what do you mean?”

“We have a kind of detoxification pill on South Percy, and one of the important ingredients is the water jade fruit they just ate.” Yu Tianhe stared at Wei San who was completely covered by the psychedelic grass spines, “I see Wei San has eaten it before. At least, maybe she can have some consciousness, but now that Wei San is injured, a large amount of psychedelic grass thorn pollen has entered her blood, so it is difficult to say. “

Five minutes had passed since Wei San fell, and everyone at Damocles Military Academy opposite still did not discover a problem.

The teachers at Damocles Military Academy looked extremely pale, and Xiang Minghua was even nervous and sweating.

.....

After Wei San fell down, her whole body fell into a mist. She only noticed a slight tingling sensation on her body. It was not obvious, more like an electric shock. Latest content published on Nove1Fire.net

She felt joyful as never before, happy for no reason.

“.....”

Impermanence has not found a suitable engine fluid, and there are still many areas that need improvement. What is she happy about?

Wei San was really confused. In her opinion, this kind of happiness from the heart requires at least designing a good mecha.

Weirdly, Wei San frowned, and seemed to see Damocles Military Academy winning the championship.

Championship?

It's indeed something to be happy about.

After being happy for a while, Wei San suddenly noticed something was wrong. When did the competition end? They obviously still have.....how many games left?

Wei San felt like her mind was spinning. She couldn't think of anything but happiness.

This illusory happiness..... is too unreal.

She is competing, she is clearly still competing.

Wei San opened her eyes suddenly, but had to close them because of the pain, but at that moment, she knew her situation.

The brambles were clinging to her.

The dagger was at her waist, but her hands were tightly entangled in the thorns. Wei San closed her eyes, took a deep breath, broke away her hands suddenly, pulled out the dagger from her waist, cut the thorns, and struggled to get up.

There was a burst of exclamation from the live broadcast, not only because Wei San suddenly broke free, but also because her whole body, including her face, was covered with blood marks, and her face could hardly be seen clearly.

Xiang Minghua couldn't breathe at all. Watching Wei San stumble up, he moved his chair back and turned his back.

If a super level 3S person dies at the hands of an ordinary plant, he don't know if it's a mockery.

In the camera, Wei San was holding a dagger in her hand and had already dropped her bow and arrow. She was rushing towards the opposite stream, but more and more psychedelic grass lashes were running towards her.

Wei San: "....."

She was in pain all over her body, and she had to run away in such a panic. She was really not in a good mood.

Wei San stopped immediately, turned around to face the grassthorn chasing after her, inserted her dagger into a nearby tree, and cut it open.

The sap in the tree continues to flow to the ground.

Yu Tianhe raised his eyebrows: "She knows the tree next to it."

Sure enough, Wei San squatted down in a second and ignited the juice, or flammable juice.

These juices are still flowing downhill, carrying fire, and flowing towards the grass thorns.

This thing and fire are the natural enemies of this kind of grass thorns. The fiery juice stains the grass thorns and immediately begins to spread rapidly. These thorns began to stop their offensive and kept rolling on the ground, trying to put out the fire, but it was useless.

Wei San stretched out her hand to take a handful, and threw it hard at the grass thorn that was still running away. The moment she threw it, it lit a fire.

Once the sparks fall on the grass thorns, they can quickly ignite.

A fire started on the opposite side, and there was a burning smell, which naturally attracted the attention of everyone in Damocles Military Academy.

Jin Ke immediately got up and walked to the stream.

"I'll go over and take a look." Huo Xuanshan rushed back when he saw Liao Runing and stopped Jin Ke.

Just as Huo Xuanshan was about to cross the stream, Wei San stumbled out from the forest on the opposite side, her body covered with injuries.

The pollen from those psychedelic grass thorns had entered her blood, and Wei San's eyes began to turn white again, and unreasonable happiness surged into her heart again.

Chapter 590

Wei San tried her best to open her eyes, but she couldn't open them enough. Everyone from Damocles Military Academy on the opposite side sta

Wei San tried her best to open her eyes, but she couldn't open them enough.

Everyone from Damocles Military Academy on the opposite side stared helplessly as Wei San rolled down the uphill slope and stopped at the edge of the stream, with half of her hand in the stream.

Huo Xuanshan immediately jumped across the stream and pulled Wei San up.

She was still conscious and pushed him away: "Let me do it myself, watch me rush over."

Huo Xuanshan: "....."

He directly picked her up and jumped across the stream again. Liao Runing rushed over: "What is going on?"

“Don’t touch her!” Jin Ke looked at the scars on Wei San’s face and body, understood what was attacking Wei San from the other side, and immediately reached out to block Liao Runing.

“What’s wrong?” Liao Runing was confused.

Jin Ke closed his eyes and looked at Huo Xuanshan again: “Put her down, you two.....”

Before he finished speaking, Huo Xuanshan fainted on the spot.

His hand touched the pollen stained on Wei San’s body.

“Everyone, stay away, don’t get close to them.” Jin Ke raised his head slightly, observed the wind direction, and asked everyone to move their positions slightly. “Wei San must have encountered the psychedelic grassthorn. Chenghe, please look for the antidote pills in the combat preparation bag.”

There are antidote pills in the combat readiness pack drawn by each military academy. There are several kinds of antidote pills. If the corresponding antidote pills are not drawn and the team members are in danger, teammates can help out and get treatment on the aircraft.

“Is there any antidote to psychedelic poison?” Ying Chenghe searched for it.

“Forget it, I remember they got it from Samuel Military Academy.” Jin Ke took out his gloves from the combat readiness bag, found a piece of fine oil cloth to cover his face, then took off his coat, wrapped Wei San, and let her separate from Huo Xuanshan.

Ying Chenghe followed suit, helped Huo Xuanshan sit up, first took off his clothes, and then scraped off any pollen that might be on his hands.

“Should we leave some pollen?” Liao Runing asked from a short distance away.

“What are you keeping this for?” Ying Chenghe carefully wiped off the pollen to prevent it from splashing.

Jin Ke helped Wei San lean against the stone and carefully cleaned and treated the wounds on her face. He turned his head and said to Ying Chenghe: “we can keep the pollen. Maybe we can find an opportunity to give it to other military students.”

“Alright.” Ying Chenghe agreed. He looked at the disappearing smoke on the other side: “What should we do about the other side?”

“Don’t worry, those psychedelic grassthorns won’t jump over this stream. Let’s take care of Wei San’s injuries first.” After Jin Ke helped Wei San take care of the injuries on her face, he handed over the subsequent tasks to Ding Hemei.

He spread out the map and prepared to find a slightly safer place to rest for the night. Now there is a time bomb opposite this place. No one knows whether the pollen from the opposite side will drift over when the wind blows at night.

The fine oilcloth material is not much, it is leftover from previous use, it is only enough for a few people to block pollen.

Jin Ke walked around and felt that it was unreasonable. There was so much pollen from psychedelic grass thorns stuck to Wei San's body, and the pollen must have been mixed into her blood. How could he still struggle out consciously?

He thought for a long time, and finally recalled the antidote ingredients of psychedelic grass thorns, one of which was water jade fruit.

"Chenghe, do you have any more jade fruits? Take them out and feed them to Xuanshan. Squeeze out the juice to wash his hands." Jin Ke asked the school team members if anyone had any jade fruits left. He gathered a bunch of them and stuffed them into Wei San and squeezed out the juice for Ding Hemei to apply on her wounds.

Live broadcast.

Lu Zhengxin: "Their response is pretty quick."

Xi Haotian shook his head: "they're still careless. They really can't relax for a second in the rainforest competition."

"It seems that Pingtong Academy also encountered a problem." Yu Tianhe looked at Pingtong Academy. Some team members were attacked by black bats in the forest and were poisoned. However, the antidote pills were not enough. The commander led a group of people to find antidotes.

“The antidote pills are not fully equipped. These military students will surely have some practice.” Xi Haotian said.

.....

After Wei San’s wounds were cleaned, everyone started to move forward.

Ding Hemei brought Wei San with her.

Halfway along the way, Jin Ke kept paying attention to see if there were any similar detoxifying plants around him, but unfortunately he didn’t find any.

However, Huo Xuanshan woke up a little. He only regained consciousness so quickly after his hands touched the pollen stained by Wei San’s blood and he was fed a large amount of water jade fruit.
