Chapter 591

He covered his head and shook it. It took him a while to wake up completely, but he still had sequelae. He always had a big smile on his mou

He covered his head and shook it. It took him a while to wake up completely, but he still had sequelae. He always had a big smile on his mouth, as if he was very happy.

“What’s wrong with Wei San?” Huo Xuanshan asked Jin Ke.

“Poisoned, and you’ve got a little bit of it too.” Jin Ke looked at the smile on his face, “.....look in the mirror.”

Huo Xuanshan: “?” Where is his mirror?

Ying Chenghe next to him probably knew that he didn’t have it, so he enthusiastically handed over a small mirror.

“Why do you have such a thing?” Huo Xuanshan was really puzzled.

Ying Chenghe coughed: “With an extra piece of scrap material, I made it into a mirror.”

Huo Xuanshan held the mirror and looked at the strangely smiling person in the mirror under the dim moonlight: “.....”

After a while, Wei San also woke up. She was very happy, and she clearly knew that this happiness was fake, but it did not prevent her from letting it get to her head.

“Senior sister, you are quite good-looking.” Wei San blew a long and loud whistle.

The corners of Ding Hemei’s mouth raised crazily, she flipped her invisible hair, and restrained herself: “Really, I think I’m average-looking.”

“Not average, beautiful.” Wei San put her hand on Ding Hemei’s shoulder and winked at her.

“Are you awake?” Jin Ke heard the voice and walked over from the front, “How do you feel now? We will be at a place to rest soon. Have a good rest at night.”

“Fat man, why have you lost weight?” Wei San stood in front of Jin Ke. After looking up and down, she suddenly opened her hands and shouted, “I feel very happy!!!”

“Happy!” Huo Xuanshan was not completely awake to begin with. As soon as he heard Wei San’s excited voice, he immediately shouted after her.

Everyone: “.....”

Ying Chenghe came over and asked Jin Ke: “There is still some jade fruit left. Do you want to give Wei San some more?”

Before Jin Ke could say anything, Wei San rushed to Ying Chenghe, looked him up and down, and grabbed his long hair.

“Tsk, hold up.” Wei San let go of his hand in disgust, “Not as good-looking as Empire Fire, and hair isn’t as good either.”

Ying Chenghe stretched out his hand to cover Wei San’s mouth, it was live broadcast here! The entire Star Network could hear what she said!

Wei San slapped Ying Chenghe’s hand away, quickly took a step back, and raised one hand: “Go, go find the Fire of the Empire and burn his hair!!!”

The main players of Damocles Military Academy: “.....” Finished.

The audience in the live broadcast room was dumbfounded when they heard this.

【Fire of the Empire.....is he who I think he is? 】

【Star of the Empire, Fire of the Empire, Wei San is talking about Ying Xingjue, right? 】

【The Ying family members all have long hair, and these two are cousins, so their faces are somewhat similar. Wei San probably thought of Ying Chenghe as Ying Xingjue just now. 】

【So Wei San wants to burn Ying Xingjue's hair? ! Is this what she really means? 】

【But.....it turns out that Wei San also thinks Ying Xingjue is good-looking? Hehe, I like both of them. 】

【Ying Xingjue is a super 3S level, can it not look good? 】

The audience came to watch the excitement and didn't mind a big deal, not to mention that there are various media outlets stationed in the live broadcast room, ready to publish breaking news headlines at any time.

Just after Wei San screamed to the sky, various media outlets on the Star Network began to report, cut out Wei San's paragraph, and played a short video.

【Wei San threatened to burn the Fire of the Empire's hair】

【Star of the Empire becomes Fire of the Empire? 】

There are even gossip headlines.

【Wei San praised the Star of the Empire for being good-looking. Will there be sparks between the two?】

.....

All kinds of hot headlines made the headlines of Star Network. For a while, the audience rushed into the live broadcast room of Damocles Military Academy, setting a new record for the number of broadcasts for Lanfa Media.

This incident even reached the ears of Ying Qingdao who was far away in the Imperial Star. The Ying family members below thought that Wei San was clearly challenging the Ying family.

Long hair is the symbol of the Ying family. If she wants to burn Ying Xingjue's hair, doesn't she want to start a war with the Ying family?

Ying Qingdao: "It's just a verbal quarrel among military students. There is no need to report this kind of thing again."

"..... yes."

After the others left, Ying Qingdao opened the live broadcast room of Damocles Military Academy. Wei San had stopped talking. She was holding various fruits in her hands and eating them quietly with her head down, showing no arrogance at all.

Jin Ke next to her kept passing it over and didn't dare to talk to her again, for fear that Wei San would say something again.

The rainforest arena not only has forests, but also cliffs and waterfalls. All kinds of environments are integrated into one. The place Jin Ke is looking for is the rocky mountainside, where he plans to rest for the night.>

Chapter 592

The place where Damocles was stationed was a naturally formed cave carved on the stone cliff. If one wants to enter, they must first climb u

The place where Damocles was stationed was a naturally formed cave carved on the stone cliff. If one wants to enter, they must first climb up. However, in the process of climbing, they may encounter various poisons on the stone cliffs. In order to prevent accidents, the first batch of mecha soldiers to climb up were the light mecha soldiers. Then they allowed the others to follow up.

Originally, this matter was usually left to Huo Xuanshan, but even though he was awake, he was just a person who was awake and could move and speak. Only Liao Runing was left from the main team and was still sane, so in the end he brought the school team's light mecha soldiers up.

Liao Runing led the light mecha soldier. On the one hand, he had to plan a safe route, and on the other hand, he had to find suitable hollows. Some hollows were too shallow and inappropriate for them to grip on.

It was already dark now. Liao Runing stepped on the cliff and climbed up quickly. The front went smoothly, but when he heard the sound of poisonous scorpions crawling, he took the lead in attacking with the mini high-temperature flamethrower modified by Ying Chenghe.

At the middle section of the road, Liao Runing discovered nothing unusual. He pulled his hand on a sunken stone crevice. When he was about to shift to the next level, he discovered that the feeling was wrong. The soft touch immediately numbed Liao Runing's scalp. He almost instantly thought of it a poison.

——snake.

Liao Runing retracted his hand as fast as lightning. He was so frightened that he almost fell down.

"Are you okay?" Ding Hemei happened to come up from the side. Seeing that Liao Runing hadn't moved for a long time, she turned around and shone the flashlight at him.

Liao Runing turned pale and trembled his lips: "There is, there is a snake!"

Ding Hemei took the lamp and shone it: ".....Maybe you can look at your hands." After that, she climbed up by herself.

Hearing this, Liao Runing slowly realized that his fingers were a little sticky and a little..... smelly.

It wasn't a snake, it was a long piece of stool. No wonder he didn't notice anything unusual. After all, stool doesn't breathe.

Liao Runing: “.....”

“There’s one here.” Someone from the school team found a suitable cave.

Soon, all the light soldiers went to the cave, preparing to clean up foreign objects in the cave. The medium and heavy soldiers quickly climbed up along the path of the light soldiers, then dropped the rope and pulled the mecha engineers and the commander up.

Half an hour later, the hole was cleared, and everyone at the Damocles Military Academy sat inside to rest. The people from the school team were normal, but the three mecha soldiers from the main team were ‘annihilated’.

Huo Xuanshan looked very sober, but the smile on his face looked strange. As for Wei San, with a bloody face, she walked around and started whistling when she saw someone she liked, especially girls.

Master Liao washed his hands stained with feces with water. He fell into a low point in his life and was depressed. He smelt his hands all the time and always felt that there was still a smell on them.

For a while, the atmosphere in the Damocles Military Academy was very strange. The members of the school team lowered their heads and did not dare to look at the members of the main team because they did not know whether the expression on their faces was sympathy or laughter.

As the main commander, Jin Ke now fully understands the strangeness of the rainforest arena.

If they don't keep their spirits up, let alone win the championship, it will be a question of whether they can even reach the finish line.

The concave cave is a good place, occupying a natural height advantage. Jin Ke stood up and stood at the entrance of the cave, looking into the distance.

After a while, two curtains of light rang out, naming South Percy Military Academy and Samuel Military Academy.

Chapter 593

So far, Damocles Military Academy has not encountered a star beast, but judging from the light projection, they are far away from the other four military academies.

Fortunately, the cave had natural defensive conditions, so the night watchmen became Liao Runing and Jin Ke, plus soldiers from the school team taking turns.

Wei San and Huo Xuanshan didn't keep vigil, but they didn't rest either. They were always in a state of excitement.

Ying Chenghe originally wanted to let them rest and prepared to knock them unconscious with a stick, but he was a mecha engineer who could not stand alone against a single soldier, let alone two "happy" and excited single soldiers. Wei San turned around and grabbed the stick and knocked Ying Chenghe unconscious.

Hearing the sound of someone falling to the ground, everyone looked this way: "....."

Jin Ke was awakened, stood up, drew a big circle on the cave wall, and said to Wei San and Huo Xuanshan: “You two come in, move around here, and you can’t come out.”

He spent a minute handing them a sports training plan and asked Wei San and Huo Xuanshan to follow the plan.

“Okay.” Wei San glanced at it, then stepped into the circle and began to squat.

Huo Xuanshan also followed in and started training together.

Seeing that the two of them were conscientiously fulfilling their schedule, Jin Ke dragged Ying Chenghe aside who was knocked unconscious.

.....

On the other side, the Imperial Military Academy.

This time is the most physically demanding match for the Imperial Military Academy team ever since the game was created. Ying Xingjue will no longer handle everything, and solve all the problems he can solve by himself. Instead, he will focus on the main team and the school team. He will only take over when something is about to go wrong.

“The Imperial Military Academy first changed their lead teacher, and now they have changed their competition plan. It seems that the game at Xita Star had a great impact on them.” Lu Zhengxin looked at the students from the Imperial Military Academy thoughtfully.

“The main commander is too strong, and the players are too dependent on him. It would be best to change this problem as soon as possible.” Xi Haotian glanced at the cameras of the five military academies. “This time, South Percy and Samuel performed fairly stably.”

Most of the Damocles Military Academy’s main team that entered first could be considered destroyed, and a group of students from Pingtong Scademy were also poisoned. The Imperial Military Academy was still in the running-in stage, so their speed was not too fast.

On the contrary, the other two military academies did not encounter any problems and killed several star beasts safely.

.....

At five o’clock in the morning, the students from the Damocles Military Academy woke up and began to organize and set off. Wei San and Huo Xuanshan were lying in the circle, unknowing whether they fainted or fell asleep.

When they were finally leaving, Liao Runing woke up the two.

Wei San’s wound is better, and she is not as excited as yesterday, but they can still see something wrong with her with the naked eye.

Huo Xuanshan could gradually wake up as a day or two passed, but there was too much pollen mixed in Wei San's blood. Even if she was fed a large amount of water jade fruits, it would take at least ten days to half a month to return to normal.

If they don't find other plants with antidote ingredients, Wei San's combat effectiveness will obviously drop to more than half during this period of competition in the rain forest.

Whether against the star beast or against other military schools, Damocles will be at a disadvantage.

More importantly, if Wei San is in this state for a long time, it will have sequelae and may lead to addiction.

Chapter 594

Jin Ke thought twice and decided to change their route and first look for plants with antidote ingredients to help Wei San completely eliminate her toxin.

As soon as they changed their route, the host and audience at the live broadcast felt it was a pity that the distance that had originally been widened was now shrinking.

However, Damocles Military Academy had no objection and followed Jin Ke's instructions and walked in the other direction at full speed.

Bad luck seemed to surround Damocles Military Academy this time. They walked all morning and still didn't see any effective antidote.

Not even the water jade fruit was seen again, let alone other wild fruits.

“If we can’t find it today, we’ll wait for Samuel Military Academy and exchange the antidote with them.”
Jin Ke said to Chenghe and Liao Runing.

Hearing this, Wei San raised her head: “Aren’t we going to steal it?”

Jin Ke: “.....” The pollen of this psychedelic grass thorn has its own truth-telling function?

At noon, Damocles Military Academy finally found one of the plants that could decompose the psychedelic grass thorn pollen.

After Ying Chenghe washed the plant, he mashed the juice into pieces, poured it into the big leaves, and asked Jin Ke and Liao Runing to feed it to them.

Wei San took the big leaf and drank it directly. Huo Xuanshan wanted to vomit after taking a small sip, but Liao Runing held his head and forced it in.

At the end, Huo Xuanshan’s symptoms improved again, but Wei San still didn’t change much.

Jin Ke has not found other psychedelic grass spine detoxification plants, but when he saw herbs that can detoxify other poisons, he will have people dig them out and carry them with him.

Who knows if there will be other accidents later.

In the afternoon, Damocles Military Academy finally met a star beast. The people who moved were Liao Runing, Huo Xuanshan, and members of the school team. Wei San was stopped by Jin Ke, who refused to let her attack.

“Well wait until you’re fully awake, then you can attack.”

Wei San could only stay by Ying Chenghe’s side and move around.

After killing the star beast, the Damocles Military Academy’s first light projection and announcement resounded in the rainforest arena.

Ying Xingjue looked up at the direction of the light projection and frowned slightly. That direction was not the route he expected Jin Ke to choose, and it deviated quite a bit.

Either Jin Ke had other plans, or something happened at Damocles Military Academy, causing Jin Ke to deviate from the route.

“Chief Commander, someone has been poisoned!” A voice suddenly came from within the school team.

The main force of the Imperial Military Academy turned around and looked behind them.

Ying Xingjue walked over and looked at the person lying down. Their lips were purple and their hands and feet were twitching.

“We were walking well, and a few of them suddenly fell down and became like this.”

Ying Xingjue squatted down and inspected several people’s bodies, and finally found scratches on their backs, necks, and hands.

It is a highly poisonous substance that immediately paralyzes people after scratching them, making the scratched victim fall into unconsciousness and wait for the moment when the poison takes effect.

“We are too late to save them.” Ying Xingjue retracted his hand and pressed the exit button of these players. A small aircraft flew down from above and picked up the injured.

[Four members of the Imperial Military Academy team are eliminated, repeat.....]

The Imperial Military Academy suddenly fell silent. They were not destroyed in the hands of the star beasts, but were destroyed by the ordinary poison in the rainforest arena.

Ying Xingjue scanned the crowd: “Commanders should pay attention to the surrounding environment at all times and remind soldiers and commanders.”

Live broadcast.

“In competitions, you can’t tell until the last moment who will win the championship.” Lu Zhengxin looked at the cameras of several military academies and said, “All the favorite teams suffered losses in the rainforest competition, but for the other two military academies, their speed is picking up again.”

” Luck is good for the time being.” Xi Haotian said, “There is still a long way to go after the competition.”

“Pingtong Academy has been unable to find any antidote, and the interpretation pills in their hand are not suitable for detoxification. Now only the antidote pills in the hands of Samuel Military Academy can save Damocles Military Academy and Pingtong Academy.” Yu Tianhe stared at the cameras of several military academies, “Assuming that by the end of the afternoon, they haven’t found all the detoxifying component plants, I think Pingtong Academy and Damocles Military Academy will meet first.”

Sure enough, after the sky darkened, Damocles Military Academy and Pingtong Academy never found a complete set of antidote plants.

When the light projection of Samuel Military Academy sounded again, the two military schools changed their routes again and walked in the direction of Samuel Military Academy.

Chapter 595

The bad start caused Damocles Military Academy to change their route again. Because of the problem with the original route, they did not find Samuel Military Academy first, but instead ran into the Pingtong Academy’s team.

Huo Zian from Pingtong Academy and several members of the school team were poisoned and were carried by their teammates. Lu Shibai was shocked to see Damocles Military Academy. They came in so early and only reached here, but he remained calm. His eyes swept over Wei San.....

Wei San?

Lu Shibai looked over, and discovered that the person with scars on her face was actually Wei San. He thought about the broadcast he had heard before. Damocles Military Academy had only killed a few double S-level star beasts, so they would not be injured so seriously.

In contrast, at Damocles Military Academy, apart from the horrific wound on Wei San's face, everything else seemed normal on the surface. The people at Pingtong Academy were a little confused for a moment, fearing that Damocles Military Academy was deliberately looking for trouble.

Lu Shibai was anxious to ask Samuel Military Academy for the antidote pills, and did not want to conflict with Damocles Military Academy team, so he took the initiative to lead the team to step back and signaled them to go first.

Jin Ke glanced at their team, then took a small step forward, pretending to walk forward.

Seeing this, Lu Shibai breathed a sigh of relief, it was just an accidental collision.

But the next second, Jin Ke turned around and ran back, and the Damocles Military Academy members followed closely. Liao Runing was like an old mother, pulling Wei San to run.

“They are also going to steal the detoxification pills from Samuel Military Academy!” Lu Shibai reacted instantly and said immediately.

Zongzheng Yueren was the first to chase after them.

“Run quickly.” Jin Ke turned around and saw Pingtong Academy chasing them, so he sped up again.

This was the first time that two military academies ran back in the arena.

The members of Samuel Military Academy, who were still diligently killing the star beasts and carefully observing their surroundings, obviously had no idea that two military academies were about to rush towards them.

At night, Samuel had found a suitable place to stop and rest.

“It seems that Damocles Military Academy didn’t go very far yesterday.” Xiao Eli said to Gao Xuelin, “I thought they would go very far after the championship overtime and the one hour of joint training. They might have won the championship when we were only halfway there. But we didn’t go very far, and we didn’t kill many star beasts. Tsk, we can’t even get to the wall.”

“It’s not that simple.” Gao Xuelin crossed his hands and rested them on his chin, thinking, “Damocles Military Academy may be planning something.”

“What can they plan?” Xiao Eli said disdainfully, “It’s none of our business anyway.”

It's a huge distance between them. Now Samuel Military Academy has just caught up with South Percy Military Academy.

Xiao Eli went on patrol. He led his team around the area and for some reason he felt a chill on his back.

"Look behind me, are my clothes torn?" Xiao Eli grabbed a member of the school team who was following behind and asked.

"It's not broken, it's fine."

"Strange." Xiao Eli felt his back with his hands behind his back and discovered nothing unusual.

.....

Originally, Jin Ke had guessed where they might stay based on the location of the light beam from Samuel Military Academy, so he ran without hesitation.

But the people from Pingtong Academy were chasing them relentlessly, and they were extremely annoyed.

"It's just ahead." Huo Xuanshan came back from exploring the way, and he is now basically awake.

Jin Ke nodded: "let's get ready, everyone, be gentle."

When they were about to approach the patrol protection of Samuel Military Academy, everyone stopped. When Huo Xuanshan and Liao Runing were about to make a secret move, Pingtong Academy team that came from behind deliberately made a loud noise.

"On guard!" Xiao Eli immediately spoke up to alert the Samuel Military Academy team.

Chapter 596

"Isn't it not good for Damocles Military Academy to launch a sneak attack on others like this?" Lu Shibai deliberately spoke in a very loud voice so that the people from Samuel Military Academy could hear it clearly.

"Damocles Military Academy?"

"The person who spoke was from Pingtong Academy, Lu Shibai."

.....

Pingtong Academy rushed over, and Lu Shibai was about to greet the chief commanders of Samuel Military Academy and Damocles Military Academy, but he did not expect that a man suddenly jumped out and took Xiao Eli hostage.

“Fuck!” Xiao Eli was shocked.

After hearing the noise from Pingtong Academy, Xiao Eli was on alert. He never expected that someone could break through his defense and put a dagger on his neck.

When he turned around, he saw a scarred face and was so scared that he swore.

Wei San felt a headache from Xiao Eli’s noise, and said angrily, “Shut up!”

Xiao Eli recognized the voice: “Wei San?!”

Wei San smiled, let go, and greeted Xiao Eli.

This move was unexpected. Xiao Eli was stunned and wanted to run away immediately. However, Wei San was faster and kicked him in the knee.

Xiao Eli faced his military academy team and knelt on his knees. Wei San kicked him in the vest again. His upper body was pressed to the ground by her, with his face pressed against the mud, and he had an intimate contact with the fragrance of the earth in nature.

It turns out..... he felt a chill on his back just now, and she was waiting for him here.

Xiao Eli couldn’t help but shed tears of regret.

Damocles Military Academy did not expect that Wei San would suddenly jump over there and kidnap Xiao Eli from Samuel's Military Academy.

"What do you want?" Gao Xuelin walked over and looked at Damocles Military Academy and Pingtong Academy. His eyes stayed on Wei San's face for a moment, then he looked at the person being carried in from Pingtong Academy, and finally understood something: "You all want the antidote pill?"

"Two detoxification pills and a 3S-level star beast." Lu Shibai directly proposed the deal.

Gao Xuelin didn't reply and looked at Jin Ke: "What does it mean that Damocles Military Academy came to us?"

"We need an antidote pill." Jin Ke said.

"What are your conditions?" Gao Xuelin asked.

"Military commander Samuel, if you give us an antidote pill, we won't kill Xiao Eli." Jin Ke pointed at the person under Wei San's feet.

Gao Xuelin was so angry that he laughed: "You guys at Damocles Military Academy are really good at doing business without any capital. You are worthy of being a commander who used to be a garbage collector."

Jin Ke didn't care about Gao Xuelin's words at all: "Since you don't care about Xiao Eli, let's eliminate him first, and then we can talk about other conditions. Wei San, take action!"

"You!" Gao Xuelin immediately stopped, "I can give you one."

"What about us?" Lu Shibai asked him.

"One detoxification pill and one 3S-level star beast." Gao Xuelin proposed the conditions.

"No, give it to us as we've said before." Lu Shibai signaled the team members behind him to carry the poisoned person over. "Only our main players here are worth exchanging for a star beast. The others are not worth a 3S-level star beast."

"What Commander Lu said is really sad." Gao Xuelin said deliberately while looking at Pingtong Academy and the other members of the school team.

Zongzheng Yueren turned around and looked at those people. One of the school team members who was almost unconscious suddenly pressed the "eliminate" button.

The broadcast sounded immediately.

Lu Shibai spoke again: "If Commander Gao does not agree to this condition today, we don't mind communicating with you here for a while."

"Bullshit communication!" Although Xiao Eli was pressed into the ground, he still spoke firmly.

Wei San was annoyed by his noise, so she stepped on his back harder, then squatted down and stared at Xiao Eli, then turned her head and closed her eyes, "Your face is..... ugly.">

Chapter 597

Xiao Eli: "..... Wei San, it's ok for you to bully others, but please don't hurt my self-esteem. Every white dwarf who sees me will call me a beautiful boy!"

Wei San took her dagger and used the tip of the knife to scratch Xiao Eli's face.

Xiao Eli suddenly became anxious: "Hurry up and give the antidote pill to Damocles. Wei San is disfigured and mentally abnormal!"

After saying that, he added in a low voice: "No, Wei San is a psychopath."

Although Wei San was happy, when she heard others scolding her, her instinct remained and she slapped Xiao Eli on the head.

He once again tasted the fragrance of nature's earth with his mouth, but unfortunately he could not, and did not dare to, breathe out the fragrance again.

Gao Xuelin couldn't bear to watch any longer, so he took out an antidote pill and handed it to Jin Ke: "Let him go."

Jin Ke took the antidote pill and walked towards Wei San: "Wei San, let him go."

Wei San didn't listen. She had finally caught the enemy and refused to let him go.

"....."

Jin Ke was ready to force-feed the antidote pill to Wei San, and then release him once she woke up, but he forgot about Ying Chenghe's previous experience.

Before he could fully touch Wei San, she punched him in the nose.

Jin Ke felt pain and squatted down, covering his nose.

People from the three military academies: "....."

Wei -really- does not recognize any relatives-San.

Jin Ke squatted for a long time before he stood up and pointed at Ding Hemei: "Come here."

As soon as she came over, Wei San couldn't help but start whistling.

Jin Ke carefully pressed the detoxification pill into the fruit, handed it to Ding Hemei, and asked her to feed it to Wei San.

It was a girl and there was food, so Wei San finished the fruit with the detoxifying pills in it in a few bites.

After waiting for a few minutes, Wei San finally came to her senses and released the man as Jin Ke asked her to.

Live broadcast.

"Wei San has been contaminated with too much psychedelic grass thorn pollen. Even after taking the detoxification pills, it will take some time for her to recover completely." Yu Tianhe said.

"Does she have to take a few more detoxification pills?" Xi Haotian asked.

Yu Tianhe shook her head: "No, just one detoxification pill will do. She has regained her sanity now, but during this period of time, her instincts will still be amplified, such as..... whistling at people."

Lu Zhengxin laughed when he heard this and said, "I'm afraid it's just the instinct to whistle at a beauty."

Yu Tianhe ignored him.

.....

"How is it? Have you thought it through?" After seeing that Damocles Military Academy had got what they wanted and left quickly, Lu Shibai asked Gao Xuelin again. The people behind him were already ready for battle.

Gao Xuelin never expected that he would encounter two robbing military academies tonight, but there was one thing that made him very happy. Damocles Military Academy and Pingtong Academy had to return because of the antidote pills, and now they were competing for rankings, and Samuel Military Academy had more opportunities.

"Okay, I hope you remember your promise." Gao Xuelin gave them the detoxification pill.

Samuel Military Academy drew the most types of antidote pills, and although some were given to them, it was not a big loss.

After the people from Pingtong Academy left, Xiao Eli wiped his face and spat out the dirt in his mouth: "Why should we give it to them? If we eliminate a mecha soldier, we will have a better chance of winning."

“The people from Pingtong Academy are all crazy. We can’t afford to offend them.” Gao Xuelin turned and looked at Samuel’s team members. “Everyone has rested for a while. Let’s hurry on our way now.”

When everyone heard this, the feeling of loss from being robbed was swept away. So far, except for the Imperial Military Academy which was in the front, the other military academies were all nearby.

Samuel has a chance to overtake them!

Chapter 598

“Pingtong Academy?” Situ Jia turned around in surprise when he heard the broadcast. “A member of the school team was eliminated.”

The main force of the Imperial Military Academy looked at Ying Xingjue. Gong Yijue asked, “At this time, a member was eliminated. Did Pingtong Academy encounter something?”

Ying Xingjue raised his eyes and looked at the beam of light in the distance: “That direction is Samuel Military Academy.”

“Samuel?” Gong Yijue felt a little surprised. These two military academies were facing each other, but someone from Pingtong Academy was eliminated first?

Ying Xingjue waited for a long time, but never heard the announcement of elimination again, so he roughly understood what was going on.

The route, combat readiness package, beam and broadcast frequency, all these combined, can only draw one conclusion. Ying Xingjue said lightly: "Pingtong Academy asked Samuel Military Academy for antidote pills. Someone in their school was poisoned."

Ji Chuyu glanced at Ying Xingjue. The rainforest was too large. Even for a 3S-level commander, it was impossible to remember all the knowledge in just half a month. Poisoning was too common.

From the moment they entered the venue, Ying Xingjue let go and shared the pressure, but he had a backup for the surrounding environment, so Imperial Military Academy basically only had to kill the star beasts.

In the rainforest arena, the only commander who can compare with Ying Xingjue is Gao Tangyin from the South Percy Military Academy.

"It's unknown whether they are fighting or making a deal." Huo Jian said thoughtfully.

"Now that one person has been eliminated, they must have taken action." Situ Jia said without hesitation.

While they were talking, Ying Xingjue had already sat down to rest. He was wondering where Damocles Military Academy was.

So far, Damocles Military Academy broadcast has only appeared once, and the distance deviated from Ying Xingjue's idea.

In the rainforest competition, the biggest threats are Damocles Military Academy and South Percy Military Academy. The former has been here the least, while the latter is familiar with the competition environment. If they are not careful, their ranking will be taken away.

Ying Xingjue unconsciously pulled the black hairband on his wrist. Two days had passed and the competition would become more and more intense in the future.

.....

“What number is this?” Liao Runing stretched out a finger and waved it in front of Wei San’s eyes, but she slapped it away.

“Stop playing, Wei San, you should have a good rest tonight.” Jin Ke came over, “We have to start our journey early tomorrow morning.”

“Sorry, I shouldn’t have gone to the opposite side before.” Wei San didn’t expect an accident to happen. Now all the previous advantages of Damocles Military Academy have disappeared.

“It was me who underestimated the rainforest competition.” Jin Ke sat next to her and handed Wei San a tube of ointment. “We can’t leave now, just bear with it for now.”

Wei San’s body and face were covered with wounds, so it would be best to use the treatment cabin at this time to restore her to her original state. Unfortunately, the treatment cabin could not be used during the competition, so she could only leave after the competition was over.

"I'm fine." Wei San took the ointment, "But which way should we go tomorrow?"

"The fastest route." Jin Ke said. It was different from the fastest and easiest route before. This time it became the fastest route but twice as difficult. "Alright, you should rest early."

After applying medicine to herself, Wei San slept in a simple tent.

—A large area of black spread towards her, like black blood filling the entire room, causing depression, darkness..... and excitement.

Wei San stood in the blank room, watching the 'black blood' gradually flowing over, first soaking the soles of the black combat leather boots, and then the entire uppers, with black and black blending perfectly together.

It looked somewhat familiar. Wei San lowered her head and stared at the "black blood" that was still rising. She watched it rolling continuously. She looked carefully and discovered that these "black blood" were formed by the fusion of one black insect after another.

The black blood was pouring in faster and faster, slowly flooding her calves and then her thighs.

Chapter 599

There was no way to retreat. The entire room was sealed, with no windows or doors. There was only Wei San and the "black blood" that was pouring in from nowhere.

She felt the 'black blood' was about to flood her mouth and nose, that sticky suffocating feeling.....

Wei San suddenly stood up, bent her knees, supported her forehead with one hand, and woke up from her dream. Her forehead was covered with fine beads of cold sweat.

Not knowing why she had such a dream out of the blue, Wei San couldn't sleep anymore and went out to keep watch.

"Why did you wake up?" Huo Xuanshan asked when he saw her coming over.

"I've had enough sleep." Wei San stretched her arms and legs. "I don't remember much about what happened after I was poisoned. Do you remember?"

"I remember." Huo Xuanshan asked her, "You don't remember?"

Wei San shook her head: "I can't remember."

"Maybe you've come into contact with too much pollen, and you need some time to sort out your thoughts." Although Huo Xuanshan was talking to Wei San, he never gave up being vigilant about his surroundings.

Seeing this, Wei San said, "You go and rest first, and I will take over the night watch."

Huo Xuanshan nodded: "Okay, if you're tired, go find Liao Runing to change."

Late at night, the live broadcast site was completely silent, and most of the audience in the auditorium had fallen asleep. Because of the special nature of watching live events, the auditorium was relatively comfortable and people could sleep.

Unless special circumstances occur, the main commentator who is still on duty will generally not continue to explain.

Xi Haotian went to rest, and the people who stayed behind to watch the live broadcast were Lu Zhengxin and Yu Tianhe.

The two of them stared at the live camera in silence. At this moment, not all the military academies were resting. The people from South Percy Military Academy were moving forward quickly.

The locals of South Percy Star have been accustomed to this environment since childhood. Whether it is the main commander or the school team members, they basically have some understanding of the poisonous substances in the rainforest. The speed in the arena is not slow. Because they were dragged by the star beast before, Samuel Military Academy took the lead. But now they have surpassed Samuel Military Academy and are still moving forward.

"In the current situation, the positions of the four military academies are similar, and only the Imperial Military Academy is slightly forward in the distance." Lu Zhengxin covered the microphone and said to Yu Tianhe across a chair.

Yu Tianhe ignored him and scanned all the live cameras one by one. To be more precise, the distances between the five military academies were almost the same. The Imperial Military Academy killed star beasts along the way, and Ying Xingjue intentionally let go, so the distance was not too far.

Two days have passed, and now any military academy could be at the forefront at any time and anywhere.

Lu Zhengxin covered the microphone with one hand and placed his other arm on the table to block his mouth shape when he spoke: "I heard that the five people from Damocles Military Academy won the championship on the Sadu Star Underground Factory. Is Wei San's knife made of Sumi gold?"

"Aren't you the one who knows these things best?" Yu Tianhe stood up. "Sorry, it's time to change shifts."

Lu Zhengxin turned around and looked at Yu Tianhe who was walking away, his eyes complex and deep.

Day 3.

All the military academies heard a broadcast early in the morning.

[South Percy Military Academy killed 4 3S-level star beasts and 56 S-level star beasts.]

Damocles Military Academy.

Most people were awakened by the sound and opened their eyes quickly. Wei San was sitting slightly higher up, holding a dagger in her hand, and was cutting a branch. She glanced at the beam of light and then didn't look at it again.

Jin Ke looked up at the beam of light and said, "At present, the South Percy Military Academy ranks at least second."

"South Percy Military Academy has their home ground advantage." Ying Chenghe said without surprise.

As the previous venues, the Imperial Star and Sadu Star are actually at a disadvantage. The difficulty is average and their home advantage is not that great.

"With so many star beasts, did South Percy Military Academy not sleep all night?" Liao Runing walked over and shook his head, "Young people don't rest well and actually stay up late."

Imperial Military Academy.

Chapter 600

Before the broadcast sounded, the Imperial Military Academy team had already started to move towards the finish line, but they did not expect that the South Percy Military Academy would catch up so closely overnight.

After Ying Xingjue turned around and looked at them, he let them continue to move forward without any emotion on his face.

“Should we prepare to face off against South Percy Military Academy?” Gong Yijue asked.

“It’s just South Percy Military Academy. They will definitely lose face to face.” Situ Jia curled his lips.

Ying Xingjue walked in front and said calmly, “This is the sixth game. Hasn’t Damocles Military Academy taught you to be cautious when facing any enemy?”

Situ Jia: “.....Yes.”

He was thinking that just because Damocles Military Academy was so strong, it didn’t mean that the people from South Percy Military Academy were also so strong. It was already the sixth game, and South Percy Military Academy only got the ranking points because of good luck.

Pingtong Academy.

“Huo Zian is awake.” Ji Jianyi came out of the tent and was about to tell Zongzheng Yueren when he heard the broadcast and saw South Percy’s beam of light in front of them.

“This competition is really.....” After seeing the beam, Lu Shibai tore off his monocular lens, held it tightly, and uttered the last two words, “Trouble.”

Apart from the first game, the subsequent games were increasingly out of their control, and now even South Percy Military Academy could get in on the act.

As a level 3S commander, Lu Shibai should have remained rational and calm at all times, but now he was filled with depression and a sense of powerlessness.

“South Percy Military Academy has gotten ahead of us?” Huo Zian’s face, which was covered in black and purple from the poisoning last night, has mostly recovered, but his body flexibility still needs to be improved.

Lu Shibai took a deep breath: “The Imperial Military Academy and South Percy Military Academy should be first and second now. We need to distance ourselves from the other military academies as soon as possible.”

“Let’s hurry up.” Zongzheng Yueren led the way in front, leading the team members to continue walking towards the finish line.

Samuel Military Academy.

After their detoxification pills were robbed late last night, the people at Samuel Military Academy rested for a short while and got up early to continue their journey. As soon as the sun rose, they heard the broadcast about South Percy Military Academy killing the star beast.

“South Percy actually managed to get ahead of us.” Xiao Eli looked indignant, “We need to speed up and pass them.”

“Originally, South Percy entered the venue before us, so it’s normal for them to walk ahead of us,” said Jill Wood.

“Tsk.” Xiao Eli looked at Jill Wood and sneered, “Your temperament is different after reaching level 3S, and you are more confident when you speak.”

“This has nothing to do with level 3S.”

Hearing Jill Wood was still talking, Xiao Eli blocked his ears with his fingers in front of her and tried to stop her from talking.

Jill Wood bowed her head. “Stupid.”

After cursing, she quickly looked up and walked away as if she had said nothing.

Xiao Eli looked doubtful. He thought that Jill Wood left very cleanly today. He wondered if she was secretly cursing him in her heart.

.....

The camera zooms out, and the military academies are like branching streams, converging from different directions toward the destination, ‘the sea’.

Every military academy encounters countless dangers along the way, including various poisonous and aggressive animals and plants, and even many poisonous creatures that have never been seen before.

ÀÑŒË

“Is it going to rain?” Xi Haotian stared at the rainforest stadium environment in the live broadcast camera and suddenly asked the person next to him.
