

Smash All 601

Chapter 601

Dida, dida——

Big drops of rain hit the leaves, brambles, and the ground.....

In just a moment, the clear sky suddenly turned into heavy rain.

When the rain hit his face, Liao Runing was startled and immediately covered the lower half of his face, preparing to hide.

“This is not Guyu Star, the rain here is not poisonous.” Ying Chenghe glanced at him and said.

“.....” Liao Runing put down his hand and defended himself, “I didn’t react for a moment.”

The crowd continued to move forward in the pouring rain. Wei San casually broke off a large leaf and stuck it behind her back to shield her head from the rain.

“Are you afraid that you have water entering your brain?” Liao Runing came over and asked.

Wei San didn't reply, but silently stepped on Liao Runing's shoe.

The moist rain soaked the earth, and the air was filled with an indescribable vitality. This smell mixed with the fresh air of the rainforest was almost spread to the extreme, and it made people feel happy when they smelled it.

Huo Xuanshan took a deep breath and felt a lot lighter. He almost forgot the uncomfortable feeling of his training clothes being soaked by the heavy rain and sticking to his body.

After walking for a while, the heavy rain showed no sign of stopping. The soil became increasingly moist and soft. The combat boots left footprints nearly two centimeters deep on the ground.

Wei San walked quickly forward and approached Jin Ke: "Tell everyone to be careful, something is coming out."

"Thing?" Jin Ke frowned. "Star beast?"

"No, it's not that big, it just came out in a big piece." Wei San tilted her head slightly, closed her eyes, and turned her ear to the right. "It's coming!"

"Puff——" A strange sound reached Wei San's ears.

"Are you talking about this thing?" Jin Ke pointed at a mushroom that suddenly popped up on the ground nearby.

As Jin Ke finished speaking, mushrooms began to emerge from the ground rapidly again.

Wei San: “.....”

“The soil in the rainforest is rich in nutrients, and with the infiltration of rainwater, mushrooms will grow quickly like this.” Jin Ke said, “Don’t worry about them.”

“It looks quite cute.” Liao Runing turned on his camera and started recording the mushrooms that popped up.

Huo Xuanshan shouted at him: “Stop filming and let’s leave quickly.”

The crowd ignored the mushrooms, but they grew so fast and densely that they completely covered the road. Damocles Military Academy team had no choice but to step on the mushrooms to move forward.
RαNōBĔξ

These mushrooms are like the snowy road after a heavy snowfall, and can be crushed by shoes at any time and anywhere.

The team advanced quickly in the heavy rain. The colorful mushrooms were crushed by the military boots and mixed with the soft soil. The soil was then washed away by the rain, and finally a unique smell of mushrooms wafted through the air.

Live broadcast.

After Xi Haotian asked that question, it began to rain heavily in the rainforest stadium. None of the five military academies were spared and all advanced in the downpour.

The only person who did not get wet was Ying Xingjue. He used a materialized barrier to shield himself from the rain and ignored anyone in the team.

It was impossible for the members of the Imperial Military Academy not to feel strange. They certainly knew that Ying Xingjue had received orders from above and could not protect everyone in the Imperial Military Academy alone. But now it was difficult for everyone not to recall that if their main commander had not been lost at the Xita stadium, they would be protected by Ying Xingjue now.

“Are there so many mushrooms in the rainforest arena?” Xiang Minghua frowned and asked Jie Yuman. Not only did the Damocles Military Academy have countless mushrooms, but the roads under the feet of other military academies were also basically covered with mushrooms.

“It’s raining throughout the rainforest arena, so mushrooms will naturally grow.” Jie Yuman rubbed her chest. Even though she said so, there was always a sense of uneasiness in her heart.

Chapter 602

On the main commentator’s platform, Yu Tianhe looked at the live camera and always felt that something was amiss.

.....

“What are you doing?” Jin Ke stared at Wei San and asked.

As they walked, Wei San suddenly started to whistle, long and loud, completely different from the frivolous whistles she had whistled when she saw good-looking people before. Accompanied by the sound of rain, it seemed a bit strange.

Everyone in Damocles Military Academy began to pay attention to Wei San, and Jin Ke had to stop and ask her.

“Me?” Wei San put her hands in her wet pockets, looking very innocent. “I’m not doing anything. I’m just very happy.”

What?

The four people from Damocles Military Academy looked at Wei San and felt that something was wrong with her.

“The detoxification pills were useless? Why are you happy again?” Liao Runing circled Wei San several times, completely confused about what went wrong.

“Don’t touch me!”

Someone in the school team suddenly shouted.

“I’m just giving you a hand.” The mecha soldier in the team said to his teammate’s commander in surprise.

Jin Ke walked over quickly: “What happened?”

Mecha soldier: “The commander almost fell down just now, and I reached out to help him up.”

The commander who was shouting hugged his arms and huddled to one side, looking a little nervous.

Jin Ke stared at the commander and subconsciously thought of the black insect fog infection. She was about to inquire about the team commander, but when she looked up, she was shocked. Everyone’s eyes turned completely black and there was an evil smile on their faces.

Shit!

At that moment, Jin Ke’s heart was beating so fast that it almost jumped out, and he stood there in a daze.

impossible!

There was another voice in Jin Ke’s head telling him that it was impossible. It was impossible for everyone in Damocles Military Academy to become like this.

“Jin Ke! Jin Ke!” Huo Xuanshan came over, grabbed one of his shoulders and shook it hard.

Jin Ke blinked quickly and looked at the people around him again. This time, everyone around him seemed normal.

“What happened to you just now?” Huo Xuanshan saw these people acting strangely.

“I don’t know, something happened. I just had hallucinations.” Jin Ke woke up, used his perception to detect the team commander, and called him to wake up.

However, several people in the school team also showed different symptoms. Some squatted down with their heads in their hands in pain, while others directly entered the mecha and attacked everywhere.

“Everyone’s crazy.” Liao Runing cursed softly, then entered his mecha and suppressed the person.

Because of the sudden appearance of two mechas, Damocles Military Academy team scattered to avoid the mechas.

The same situation also happened in other military academies. Whether it was the main team or the school team, there were many people who were in a trance.

Everyone watching the live broadcast site was dumbfounded.

They had no idea of the sudden change in the situation.

“Is it the rain?” Xi Haotian subconsciously thought that it was caused by the rain.

Yu Tianhe frowned and stared at the camera: “The rain in the rainforest stadium has no problem.”

“Then there are only the mushrooms left.” Lu Zhengxin pointed at the live camera one by one, “The only thing they have in common is the rain and the mushrooms.”

“Those mushrooms are fine.” The commander of the South Percy Military Academy stood up and said, “Poisonous mushrooms will kill people if eaten. It’s impossible for them to disturb people’s minds without even touching them.”

Soon, someone from the organizer came to inform them: “Similar problems have occurred with the aircraft in the high altitude.”

Chapter 603

Xi Haotian shook his head. “Even the people in the aircraft had problems. It could only be the rain.”

“Notify the people on all the aircraft to shut down the air circulation to prevent rain from entering the aircraft along with the air, and to implement autonomous internal circulation in the cabin.” Lu Zhengxin said to the organizers.

The command was sent quickly, and half an hour later, similar situations no longer occurred on any of the major aircraft.

The people outside were basically certain that it was the rain that was the problem.

Yu Tianhe didn't believe it. The rainforest stadium had entered their rainy season and it rained almost every day. She just couldn't believe that the rain could affect people's mental state.

She did not watch the live broadcast again, but found the live broadcast replay and re-observed the performance of the five major military academies since the rain started.

Damocles Military Academy, Imperial Military Academy, South Percy and Pingtong Academy did not notice anything unusual. They had no contact with anything. It was just that someone in the team suddenly had a problem.

Before it rained, Samuel Military Academy was trying to rush to the finish line. The road they were walking on was a mountain road with many stones on the road. After the heavy rain, the density of mushroom growth was obviously not as fast as that of other military academies.

Yu Tianhe narrowed his eyes and compared the time when the first problem occurred in Samuel Military Academy with that in other military academies. She found that the problem occurred in Samuel Military Academy significantly later than in the other military academies.

The first person to have problems was Xiao Eli, a member of the Samuel Military Academy's main team. As he was walking, he suddenly ran forward and took off his training suit. If Jill Wood hadn't knocked him unconscious, Xiao Eli would have taken off his last pair of shorts by himself.

However, everyone on the All-Star Network could still clearly see the color of his pants, which was pink, and there were words on the back of his buttocks — Xiao's Heir.

Yu Tianhe: "....."

She rewound it again, this time only watching what he did from before the rain to when Xiao Eli took off his clothes.

Fortunately, Xiao Eli was a main member and an arrogant person, he is more likely to appear in the live broadcast room than anyone else.

In the camera, Xiao Eli did only one thing different from the other team members, and said something similar to Liao Runing of Damocles Military Academy.

The people from Samuel Military Academy were hurrying along in the heavy rain. Some mushrooms emerged from the cracks between the stones. Others just stepped on them, but Xiao Eli squatted down and stared at a mushroom: "It looks pretty good even though it is small."

Then he reached out, pinched off the root of the mushroom, and stuffed it into the chest pocket of his training suit.

Ten minutes later, Xiao Eli suddenly went crazy and wanted to run naked.

Yu Tianhe frowned, and rewound the video again, freezing at the moment when Xiao Eli squatted down to look at the mushrooms, and took a screenshot. Then he went to capture the moment when Liao Runing of Damocles Military Academy took a camera to take pictures of mushrooms.

Comparing the two screenshots, the mushrooms look the same, ordinary, even a little plain, with white-gray caps and handles. If you only rely on bright colors to identify poisonous mushrooms, this kind of mushroom is completely a good mushroom.

Yu Tianhe couldn't tell the species of this mushroom; it was too common, so common that she couldn't tell the difference between it and edible mushrooms.

But one thing is certain, the problem lies with the mushroom. It is impossible that Liao Runing and Xiao Eli both think that this mushroom looks cute. It is so ordinary, but the people around them have not refuted what they said, as if they are confused by something.

Yu Tianhe told everyone about her discovery and then stood up: "I'll go find someone to see if I can find out the origin of this mushroom."

At this moment, in the rainforest arena, like an infectious disease, problems occurred from time to time among the military academy players. The last player was still rationally helping the crazy teammate, and the next second he also changed.

Some people are just immersed in their own world, some will crazily attack people around them, and some will even lie down on the spot and refuse to move.

The five military academies are in an unprecedented trust crisis.

Chapter 604

“Crazy!”

Water droplets flowed down the corners of Liao Runing’s eyes, and combined with his sad tone, it was hard to tell for a moment whether it was rain or tears.

After the first person had a problem, various problems began to occur one after another in Damocles Military Academy, including the main players, Huo Xuanshan, Jin Ke, and Ying Chenghe.

For example, now Huo Xuanshan was lying on the muddy ground, all wet, with his eyes closed, motionless, allowing the rain to wash over him.

Don’t ask, if you ask, he is sleeping.

Liao Runing had to control each and every one of them. As for Wei San, he didn’t know what was wrong with her, so she just squatted nearby and watched the show.

I guess she went crazy a long time ago.

The team was moving forward slowly, and Liao Runing was now worried about running into some star beasts or poisonous creatures. There just happened to be several crazy ones on their side, and their combat effectiveness dropped sharply.

Liao Runing bent down and tried to carry Huo Xuanshan away, but as soon as he touched Huo Xuanshan's arm, he was pushed away.

".....You hit me?" Liao Runing was furious. He insisted on taking Huo Xuanshan away today!

The two started fighting on the spot, getting covered in mud. Liao Runing was still sober and controlled himself not to hurt anyone, but in Huo Xuanshan's eyes, he was just someone who disturbed his sleep, and he was merciless when he started fighting.

"Which soldiers are still conscious? Come and help me hold him down!" Liao Runing could only ask for help from the school team members and did not feel ashamed at all to fight more.

Finally, Huo Xuanshan was pinned to the ground and unable to move. Liao Runing tied him up and dragged him away. The two were wet and dirty, and with a broken bowl and a walking stick, they could only beg on the ground.

"What are you doing?" Jin Ke once again woke up from the horrific scene of everyone being infected and asked Liao Runing.

"Have you recovered? Hurry up and find a way to solve this mess, otherwise we will all be stupid again later." Liao Runing said anxiously, "Now the whole team is crazy, stupid, and occasionally they wake up and return to their previous state."

“We look like we’ve been poisoned.” Jin Ke glanced at everyone in Damocles Military Academy. Were these people, like him, trapped in their own hallucinations?

“We haven’t had time to eat today, how did we get poisoned?” Liao Runing was anxious. They had already fallen from the first echelon and didn’t expect to encounter these messes again.

“There must be something we have all touched.” Jin Ke said after thinking for a moment.

“Impossible. The wild fruits picked by each team may not be the same kind. Besides, we haven’t eaten anything today.” After Ying Chenghe finished speaking, he suddenly squatted down, took out a small shovel from the tool box, and began to dig the roots of the tree next to him.

At first Jin Ke thought Ying Chenghe had made some discovery, but when he walked over, he discovered that he was just digging the soil.

“He’s crazy again.” Liao Runing said as if it was nothing new. Just as he was about to ask Jin Ke what to do next, Jin Ke froze in place again, staring at them motionlessly, “.....”

It’s over. Young Master Liao is the only normal person left in the entire main team.

Young Master Liao couldn’t bear such great pressure and he was exhausted.

At this time, Wei San came over with her hands in her pockets. Liao Runing looked at her warily, fearing that Wei San would go crazy and hit him.

“Do you need help?” Wei San asked Liao Runing, holding a leaf she picked up at random.

Master Liao and Wei San looked at each other for a while, and he understood that this madman was still “in business”.

“Help me bring these people and keep them safe.” Liao Runing leaned close to Wei San’s ear and whispered, “One million star coins per person.”

Wei San’s eyes lit up: “Deal.”

She found a raw material for making a pulley, tied it to Huo Xuanshan’s waist, and then tied Jin Ke to the same pulley. The two of them naturally struggled, but Wei San punched each of them in the nose, and they naturally calmed down.

“Get up.” Wei San kicked Ying Chenghe who was digging into the soil.

Ying Chenghe ignored her, and Wei San stepped on his shovel and broke it.

He immediately stood up and wanted to argue with Wei San, but unfortunately he was tied up in the next second.

Wei San tied all three people together, walked around in a circle, and then pulled hard: "Let's go!"

If the three of them struggled, Wei San would punch them without mercy. Liao Runing, who was standing beside them, had to warn her not to go too far.

Chapter 605

Damocles Military Academy moved forward slowly. Occasionally, some members would break away from the main group, and Liao Runing would go over and chase them back personally.

At the live broadcast site, the teachers of Damocles Military Academy were watching with fear and trepidation. It was not because Damocles Military Academy fell behind. Now every military academy, even South Percy Military Academy who was most familiar with the rainforest environment, was in a similar ordeal, and the students of other military academies fell into more of an ordeal.

Liao Runing, the only sober person now, does not know how to lead the team. When he takes the initiative to chase the cadets who have left the team, he puts the team in danger.

The only 3S-level soldier who is awake now is Liao Runing.

The teachers at Damocles Military Academy were still worried about their students, and there was chaos in the audience.

"What's going on?" Xiang Minghua frowned and looked at the audience.

Jie Yuman patted his arm and motioned for him to look at the camera: "look over at the Imperial Military Academy."

Huo Jian attacked Ji Chuyu.

"Are the two of them going to fight among themselves?" Xiang Minghua asked in surprise. He never expected that Huo Jian would attack his teammates.

However, they did not fully engage in a fight. Shortly after they made their moves, Ying Xingjue intercepted them with his perception and knocked both of them unconscious.

"Should we voluntarily withdraw from the game in this situation?" The leader of the South Percy Military Academy asked, "We can also suspend the game first."

The head teacher of South Percy Military Academy did not want to be scolded by the public again.

"No need to suspend the game." Yu Tianhe came over, passed by the seats of the military academy teachers, walked up to the main commentary platform, and adjusted the microphone. "I have found out what happened."

She displayed her collected information on the screen: "Desire mushrooms appear in the stadium once every hundred years, but because their growth area is not within the scope of previous competitions, the military academy students have never encountered them."

Everyone understood as soon as they heard this. The strength of the main team in this competition was far superior to that of previous competitions, and the competition area of the rainforest stadium was readjusted. That's why they saw this kind of desire mushroom.

Yu Tianhe continued to explain: "This mushroom robe is buried in the ground. Only after a hundred years, it will sprout immediately after being soaked by rain. I just discovered information that this kind of desire mushroom is good at hiding among many other mushrooms. Once it is broken or crushed, some special ingredients in the stem will spread through the air, tempting people to have desires, or magnifying the thing they care about most in their hearts."

Xi Haotian stared at the road surface of each military academy. Countless mushrooms were crushed in the mud by the soles of combat boots, and among them there must be desire mushrooms.

"What should we do with these students now?" Xi Haotian asked.

"After the rain stops, these desire mushrooms will stop growing. As long as the armies keep moving forward, the situation will gradually recover." Yu Tianhe scanned all the live cameras, but she doesn't know which military academy could hold out until the rain stops.

After hearing her explanation, the audience started discussing.

"Seducing people to have desire? Huo Jian wants to beat Ji Chuyu. What's the conflict between the two?"

"It turns out that Xiao Eli from Samuel Military Academy likes to streak."

“Why is Huo Xuanshan from Damocles Military Academy sleeping on the ground?”

“Wei San looks quite normal.”

.....

Compared with the other five military academies, the so-called desires induced in the students of Damocles Academy seem rather strange.

Chapter 606

The rain in the stadium was endless and there was no sign of it stopping. The military academies had begun to go astray because the main commanders were constantly overwhelmed with emotions and had less and less time to stay sober.

Ying Xingjue has been using a physical barrier ever since the moment it started raining. He can block the poisonous gas from Guyu Star, the air here that is mixed with the ingredients of desire mushrooms is also ineffective against him.

After the problems with the people in the team began, Ying Xingjue had already eliminated everything they had come into contact with. In the end, only the air they had breathed together remained. Working backwards, he finally set his sights on the countless crushed mushrooms under his feet.

A level 3S commander has the ability to remember everything he sees, not to mention that Ying Xingjue is above level 3S. He remembers all the mushrooms he has seen when he passed by before.

After removing the recognized mushrooms, there were a few species of mushrooms left, but there was only one grayish-white mushroom that frequently appeared on the road.

“Chief soldier.” Ying Xingjue stopped and asked Tai Wude to pick the mushroom.

Tai Wude bent down and pulled up the mushroom by the roots, holding it in his hand: “Commander-in-chief?”

Ying Xingjue waited for a while and saw that there was nothing unusual about him. He looked down at the crushed mushrooms under his feet and asked Tai Wude to twist and crush the mushrooms.

Tai Wude did as he was told, even until the mushroom was almost squeezed to extract juice, but he still didn't feel anything unusual.

Live broadcast.

Yu Tianhe first marveled at Ying Xingjue's sharpness, and was at the same time surprised at Tai Wude's performance. This student was not lured and enlarged. What conditions were required to trigger the desire mushroom?

When she saw Ying Xingjue reaching out to take the chopped mushrooms from Tai Wude's palm, she hadn't reacted yet and wasn't even too worried.

Inside the competition venue, Ying Xingjue took some chopped mushrooms, twisted them with his fingers, randomly placed them under his nose, and sniffed them gently. It had a typical mushroom aroma, nothing special.

“Boom——”

Ying Xingjue’s heart skipped a beat, and then he dropped his hands. The physical barrier around him gradually dissipated, allowing the rain to hit his hair and clothes.

The teachers at the live broadcast site all took in a sharp breath. Does this mean that he also fell to its wrath?!

“Interesting, a school team commander was not bound by the desire mushroom, but a super 3S level commander was dominated by desire.” Lu Zhengxin looked at this scene, not knowing whether it was a mockery or a statement.

The chief commander of the Imperial Military Academy went offline again.

Ying Xingjue no longer held up the physical barrier, no longer led everyone towards the finish line, and no longer paid attention to any members of the main team.

Tai Wude was normal, but he had no idea how to lead the way. If they continued to move forward rashly and encountered a star beast, all of them would be doomed. RAN ÖBĚŠ

In the end, the Imperial Military Academy had no choice but to stop and stay where they were. There were not many completely normal people.

Tai Wude was one of them. As the general, he was quite successful in dispatching the school team members. The aggressive ones were watched by the sober ones, and they took turns.

“Is there anyone who has never had a problem? Stand up.” The main team collapsed across the board, and now only Tai Wude is able to take charge.

There were only a few people who stood up in the team, less than twenty people.

“Okay, follow me and remove the mushrooms around here, especially the kind I just pulled out.”

Tai Wude led a small team of people who had never had any problems to patrol the surrounding area and clean up the surrounding mushrooms. Occasionally, his eyes fell on Ying Xingjue, and he thought silently in his heart: The chief commander looks like he is slacking off.

Chapter 607

The first people in the Imperial Military Academy were ready to eradicate the mushrooms, which somewhat calmed the hearts of the teachers at the Imperial Military Academy who were shocked by the infection of their chief commander. They were all waiting for their cadets to recover.

But it was obviously not that easy. They had walked all the way here, a team of more than a thousand people, and they had crushed too many desire mushrooms, which mixed into the air. In addition, the air is flowing, otherwise the people in the large aircraft in the sky would not have been affected. For the time being, there was no way to avoid the smell.

The only person who can solve this is Ying Xingjue, who can erect a physical barrier and filter out other components in the air.

It's a pity that Ying Xingjue was sitting aside at this moment, preferring to get wet in the rain rather than raise his perception.

After Tai Wude and his men finished cleaning up, they came back and found that the problems were still there, and there had been no reduction at all.

He had no choice but to stand guard, and he felt his shoulders suddenly become heavier.

In the last game, only the main commander was missing, and now the entire team is about to be wiped out.

This competition is simply unbeatable.

It was even more impossible for Tai Wude to take these less than twenty people to the finish line, as he could not defeat the high-level star beasts.

"Are there any sober mecha pilots?" Tai Wude asked as he stood up.

More than thirty people raised their hands, but before Tai Wude could speak, several people put their hands down, apparently starting to have another attack.

“You should seize the time you are awake and try to make gas masks.” Tai Wude spoke matter of factly.

The awakened mecha engineer: “.....General, are you also falling to the position? Mecha engineers only make mechas, not gas masks.”

Tai Wude: “?”

He looked at the dozens of mecha engineers who looked as if they were entitled to everything, and felt a little angry: “You can’t even make a gas mask, how can you be a mecha engineer?” Wei San is still a half-baked one, she can do everything, even repair rice cookers!

Mecha Engineers: “???”

“The mecha engineer of Damocles Military Academy can even repair shipboards, but you can only repair mechas, and your hand speed is not as fast as the others.” Tai Wude said sarcastically, “We said we wanted to defend the championship before.”

Mecha Engineers: “We’ll do it! Isn’t it just a gas mask?”

Tai Wude immediately ordered them to find a way as soon as possible and use the resources at hand to make gas masks.

It is impossible for everyone to have them, but at least the main team should have them. As long as they wake up, the Imperial Military Academy still has a chance.

The mecha engineers of the Imperial Military Academy began to work together on how to make gas masks, but often when someone got excited and inhaled through their nose, they would start to “fall ill” again. When others finally woke up, they had to explain everything again.

Time passed little by little, and the gas mask was never made.

.....

The marching speed of the Damocles Military Academy was actually one of the fastest among the five military academies.

There are several reasons. First, they have fewer offensive players. Some of the military academy students who attack people are not mecha soldiers, but mecha engineers and commanders. As soon as they get sick, they start to jump into the mecha, wanting to become mecha soldiers and brave the world. RãNÕ?ÈŞ

pity.

All the mecha engineers and command mechas of the Damocles Military Academy took a super defensive route, and their attack capabilities were almost zero. Soon these people were caught and tied up.

Most of the remaining cadets were doing strange things, and some of them put their hands together, stood on one leg, and no one knew what they were thinking.

Another reason was that Wei San was “ill”, but was completely exploited by Liao Runing.

The phrase he often said was: “One million star coins, how about it?”

Wei San: “Do it!”

Kidnapping people, fighting star beasts..... Wei San would do it as long as she was paid. Sometimes she would even ask Liao Runing if he needed help.

For example, they haven’t eaten for the whole day, Jin Ke hasn’t woken up from his fear yet, there are not enough sober commanders in the school team, and sometimes they don’t know whether they can eat wild fruit when they pass by a tree.

At this time, Wei San said that she knew and would give him guidance as long as Liao Runing gave her money.

Chapter 608

Liao Runing: “.....Do you know this wild fruit tree?”

“I know. I glanced at it many times when I was reading.” Wei San assured.

In fact, during the training period, Jin Ke would read books about rainforest knowledge while eating, and Wei San would sometimes sit next to him and memorize them. When she encountered the psychedelic grass thorn before, she knew about the flammable sap from a glimpse she got while Jin Ke was reading.

Besides Jin Ke, only Wei San knows about some of these grass plants.

“Here, one million star coins.” Liao Runing said without hesitation. Anyway, after they got out and she woke up, he would deny this occurring.

Even so, Damocles Military Academy was able to continue moving forward under such harsh conditions.

“Wei San?” Jin Ke finally woke up and found himself tied up with Huo Xuanshan and Ying Chenghe. He wanted her to untie him.

“No.” Wei San smiled slightly, “You are my one million.”

Jin Ke: “?”

Ying Chenghe next to him still hadn’t woken up. He stretched his hands forward and downward, trying to dig mud. Wei San hit him on the hand, but he still stretched his hands forward with strength.

He, Ying Chenghe! must dig mud today!

.....

In a certain mansion in the imperial capital, Ying Chenghe's parents watched their son's actions. After a while, mother Ying finally remembered and said, "Chenghe, is he..... still thinking about the fact that we didn't let him play in the mud when he was a child?"

The children of aristocratic families had to go for perception tests very early. After Ying Chenghe was tested at level 3S, he was brought to the master's house.

The rules there are strict and no nonsense is tolerated. But Ying Chenghe's IQ is all lit up in making mechas, and he is still a child in other aspects. So when he wanted to take his cousin Ying Xingjue to play in the mud, he was stopped by his parents.

He couldn't even play by himself, let alone take Ying Xingjue with him. Of course Ying Chenghe's parents wouldn't let him.

Unexpectedly, this actually left an obsession on Ying Chenghe.

.....

Jin Ke fell into a daze again. Wei San led the three people to continue walking forward. Halfway through, she stopped and said to Liao Runing: "There is movement over there."

Liao Runing held his breath and listened attentively for a while, and finally realized something was wrong: “Everyone, go to the left, a large number of star beasts are chasing us.”

The normal people in Damocles Military Academy tied up the abnormal ones, one dragging several, and rushed to the left quickly.

At this moment, it was not just their military academy. If the camera was set to panoramic view, it would be found that there were large numbers of star beasts approaching the directions of the five military academies. Naturally, each military academy gradually discovered the abnormality and began to move in other directions.

All five military academies are moving towards one center.

An hour later.

“F***!” Master Liao was dumbfounded.

South Percy Military School, Imperial Military School, Pingtong Academy, and Samuel Military School are all here.

If they hadn't been in such a mess, Young Master Liao would have really thought that the people from the other four military academies were joining forces to besiege the Damocles Military Academy.

rÅN**b**Ëş

There are not many main players who are still awake in each military academy. The Imperial Military Academy was completely wiped out. The only one left in the South Military Academy is Quinley Eli, the only conscious person in the Samuel Military Academy is Xi Wutong, and the only awake person left in Pingtong Academy is Takeshi Kosaka.

Takeshi Kosaka?

Chapter 609

Liao Runing restrained his gaze, not focusing on Takeshi Kosaka, and turned to look behind him. He could clearly feel the ground moving, and a large number of star beasts were coming towards him.

Liao Runing looked around and found that all the commanders of other military academies had been infected. Ying Xingjue from the Imperial Military Academy stood nearby with a blank expression. However, after seeing Wei San like this, he was not sure whether Ying Xingjue was normal or not: "What's wrong with your commander?"

"This mushroom turns people into what they are now. The commander-in-chief was infected after smelling it. Do you have any mecha engineers who can make a gas mask?" Tai Wude said, holding a desire mushroom.

Xi Wutong recognized this mushroom. Xiao Eli had put it in his shirt pocket and then started running naked.

He immediately asked the mecha engineer of Samuel Military Academy if anyone could do it.

The answer is naturally no.

Among the five military academies, only a few people from Damocles Military Academy raised their hands to say yes.

The situation is critical and everyone must form an alliance. All the awake mecha engineers from various military academies gather together, take out materials, and try to make them together with the mecha engineers who know how to make gas masks.

Most military academies don't have much material, and even combined they can't make it to the main teams of the five military academies.

"Have all the smart people become stupid, leaving only those of us with strong limbs?" Liao Runing glanced around and found that none of the sober main players from each school were using their brains.

Hearing this, Quinley Eli from the South Percy Military Academy looked over silently.

"Is there something on my face?" Young Master Liao reached out and felt his face and asked her.

Kun Eli: ".....your teammates are still awake."

She pointed at Wei San and reminded him.

Liao Runing glanced at Wei San: “Oh, she is also stupid, but you can’t tell from the surface level.”

After hearing what he said, Wei San punched Liao Runing in the stomach.

“One million, one million!” Liao Runing said hurriedly in pain.

Only then did Wei San stop.

Tai Wude, who was watching from the sidelines, said:she is indeed stupid.

“If we can make gas masks, give them to those with the strongest combat effectiveness first.” Xi Wutong said, while staring at the mecha engineers.

“How do you judge who has the strongest combat power?” asked Quinley Eli.

As a member of the South Percy Military Academy, she naturally hoped that her main players would wake up first.

“From the previous joint training, you should be able to tell who are the strongest ones, such as the one next to me.” Liao Runing smiled slightly and patted Wei San’s shoulder.

“Wei San, take it.” The school team’s mecha engineer threw the gas mask to her.

“Give it to Ying Xingjue, and you all come together.” Liao Runing had already entered the mecha and jumped to the outside.

Wei San: “Who is Ying Xingjue?”

Liao Runing’s voice came from afar: “.....the one you think is the best looking.”

Chapter 610

“Desire mushrooms can not only affect humans, but also star beasts?” Xi Haotian said subconsciously as he looked at the five military academies being surrounded in the middle.

Yu Tianhe frowned: “There have been desire mushrooms in the past, but there has never been a similar tide of star beasts gathering there.”

“This was not a competition arena in previous years. Master Yu said before that the desire mushrooms have to be destroyed, and the special ingredients in them will float into the air, which will affect people.” Xi Haotian said, “This has never happened before. It should be because the desire mushrooms have not been destroyed in large quantities, so there are no large numbers of star beasts gathered.”

Yu Tianhe did not deny it anymore. Xi Haotian was right. This was indeed the biggest possibility at the moment.

Those who were fully awake in the arena dispersed and formed an outer circle, facing the star beasts head-on. The high-level star beasts were coming from behind, and they urgently needed a main commander to resist the mental attacks of the high-level star beasts.

Wei San, holding a gas mask in her hand, walked straight in one direction.

She noticed a person just now, but she had a mission to accomplish. She was responsible for holding the three millions and preventing them from moving around, so Wei San didn't look at him for too long.

However, since the sponsor said that she should give the gas mask to the person she thought was the best-looking, Wei San walked towards the person she had met before without hesitation.

It was raining heavily and everyone was soaked and looked more or less dishevelled. Only he stood in the crowd. Even though his long hair was soaked, he looked too good.

Wei San strode over, stood in front of him, stared into his eyes, and couldn't help but whistle long and loudly.

“ah——”

Live broadcast, after Xiang Minghua finished shouting, he covered his face with his hands and rubbed them hard. The situation in the arena was critical now, but he just wanted to pull Wei San out and scold her.

In the rainforest arena, it has only been a few days, and Wei San blew several times. Except for the strange whistle she blew when she was “sick”, the others were all whistled at the beautiful military academy students. The whistle she blew now in response to Ying Xingjue was definitely the longest and loudest one, and her greed for beauty was simply exposed.

“Your lung capacity is so large?” Xiang Minghua gritted between his teeth. Why didn’t he realize before that she was not only a troublemaker, but also a little pervert!

In the arena, Ying Xingjue raised his black eyes and said nothing, just looked at the other party quietly.

On the contrary, meeting his clear eyes, the other suddenly felt a little uncomfortable: their eyelashes seemed to be wet with tears.

Wei San knew that it was caused by rain, but she subconsciously thought of tears.

But she is a responsible person, and she will complete the tasks assigned by the sponsor quickly and well.

“Put it on.” Wei San handed him the gas mask.

Ying Xingjue lowered his eyes to look at the gas mask in her hand, then raised his head and looked around, but never reached out to take it.

Wei San insisted on putting it in front of him and waiting for him to take it.

“F***! Wei San, one million, hurry up and put it on Ying Xingjue!!!” After killing a star beast, Liao Runing turned around and shouted to Wei San, “The high-level star beast is coming!”

His name is Ying Xingjue?

Wei San’s first reaction was not that he was worth one million just for wearing a mask, but the name of the person opposite him.

Ying Xingjue remained indifferent when he heard his name.

“Excuse me.” Wei San picked up the gas mask and wanted to help him put it on.

Ying Xingjue stepped back subconsciously, but Wei San grabbed his arm and pulled him back.

The gas mask was almost covering half of his face. Ying Xingjue turned his face away to try to avoid it. Wei San quickly pinched the lower half of his face, fixed it, and quickly put the gas mask on him. She performed the whole set of movements smoothly. ¶ÄNÔBÈş

However, before the gas mask was put on Ying Xingjue’s face, he looked up at her. His eyes were calm under his wet long eyelashes, but for some reason, Wei San suddenly felt a little guilty when she was looked at.

In the end, one million still had the upper hand. After helping Ying Xingjue put on the mask, Wei San took a step forward, her chin almost brushing against the side of his neck. She put her hands around his shoulders and helped Ying Xingjue tie the rope of the gas mask.

Wei San took a step back, looked at the mask on Ying Xingjue's face, raised her eyebrows and snapped her fingers, one million was in hand!
