## Chapter 1191: The Family's Future

"When do I leave?" Wang Kejin put the information into his pocket, looked up at the instructor.

"In these next few days. You should prepare for it." The instructor said, "You can execute the first task as soon as possible. For the second task, plan before you execute."

Wang Kejin nodded. In his opinion, the first task was not technically difficult. It was just a college student and his girlfriend. It was too much to ask him to do this kind of mission.

However, although Wang Kejin did not agree with his heart, he still did not say anything. He also knew that the primary mission this time was the second mission. The first mission perhaps was just an addition to it.

However, Wang Kejin did not expect this mission that he deemed easy would almost make him have lifelong regret, and spend the rest of his life in the hospital bed.

.....

Yang Ming and Huang Lele walked on the mountain road near the gold mine. Under the curtain of night, Shoujie City was obviously not as good as Song Jiang's glamorous lights. It was not even comparable to Donghai and Macau.

The construction here would take another five years or even longer. Since it had become Yang Ming's private island, Yang Ming did not hesitate to invest in this land.

The King of Assassins always needed a home. Yang Ming's Black Butterfly Assassin Group wanted to learn from the Butterfly Family's management model and turn the King of Assassins into a large-scale organization. Country X could not be a better place to set the headquarters of this organization.

Although Country X was nominally and practically counted as a small island country, it had no legal status in the world. At best, it could only be regarded as a private territory.

However, Yang Ming did not have the ambition to establish an empire. The current situation was enough to meet his needs. As long as he was the behind-the-scenes existence, he could control everything in this land.

Yang Ming's initial idea was for Li Qiang to set up a mercenary team, while Golden Bull continued to lead the assassin group to glory. The two teams trained together, but the focus was different.

All this required a detailed plan, but Yang Ming's mind could only think of a sketch currently.

Although the island had been bought by Old Buffon and he was also the legal owner of the land, Yang Ming knew that all this was only superficial.

If he did not have the power to stand up here, the result was that he would create another war-torn country again. Therefore, Yang Ming wanted to firmly grasp the strengths of Li Qiang and Golden Bull in his hand, or in his family's hands.

For something to benefit generation after generation, that was nonsense. Yang Ming was not a philosopher, nor did he believe in anything like cultivation. No matter how powerful a person was, it would only last for a few decades.

Yang Ming needed to plan for his future generations. At least, it seemed that his plan was still feasible. Not only could he solve the problem of polygamy, but also find a career for his children and grandchildren.

"In the future... we can settle down here..." Huang Lele was with Yang Ming these days, watching him discuss matters with Li Qiang and General Kars. Huang Lele roughly knew about Yang Ming's ideas.

Yang Ming did not hide from Huang Lele. She would have to know about these things sooner or later. In contrast, Huang Xiaofei could only be shocked... He had already learned from Huang Lele's words that this land had become the private property of Yang Ming. Then General Kars' attitude toward Yang Ming could be explained easily.

Now, Huang Xiaofei very much wanted to see how Li Zhichun would look at tomorrow's bidding. He may not know it yet, right? He went all out trying to win a place in Country X, but it was actually Yang Ming's territory.

Huang Xiaofei finally understood what Yang Ming said before. As long as Li Zhichun and his son set foot on the land of Country X, it would be difficult for them to go back. Yes, it would be very difficult.

"Isn't it good here?" Yang Ming asked a rhetorical question, but he understood in his heart that Country X was now like a small third world country from the last century, and maybe even worse.

Here, there were no high-tech, no high-rise buildings, not so many shops. It was indeed not a good place to live, but Yang Ming also understood that this was only temporary.

Country X was very close to Europe because of its unique geographical location. Old Buffon had already started to apply for special passports for Europe for Yang Ming and the others. Once the passports were processed, Yang Ming could travel to Europe for shopping and travel on a private jet. Of course, Old Buffon's wish was that Yang Ming could be a guest at his home.

However, this also solved the dilemma of Country X being boring and lacking support facilities.

"It's very good, very quiet. I like it very much... It's just that the speed of surfing the Internet is a bit slow... It even takes a long time to log in to play QQ games..." Huang Lele said with some grievances, "It's not that my skills are so bad to play Bubble Bobble with others; the network speed is too laggy, so I lag until I lose..."

After listening to Huang Lele, Yang Ming was suddenly dumbfounded. Only Huang Lele could say such classic words, right? But Huang Lele was telling the truth. The Internet line here was accessed from other places. Country X itself had no telecom company. Therefore, a port was shared by many places, so the speed naturally was not fast. Moreover, Huang Lele was connecting to the server on the Asian side to play games. It would be weird if the speed could be fast.

"It will be better in the future. Old Buffon said that he will set up fiber-optic cables directly from his side." Yang Ming said, "The speed will be faster."

"That's good! Then I like it very much." Huang Lele said simply.

Yang Ming looked at Huang Lele's clear eyes. She did not seem to be lying, but he was somewhat baffled. "Lele, don't you don't think it's boring here? Isn't it inconvenient to buy things?"

"Boring? Not at all. It's more interesting to be with you than staying at home!" Huang Lele said seriously. "Don't you have a private jet to go shopping? Don't forget that I am a flight attendant. I have taken aircraft pilot training before, hehe!"

Yang Ming was speechless for Huang Lele's optimism. He did not know if Chen Mengyan would have the same idea. Yang Ming naturally wished so, but he was afraid that Chen Mengyan would feel bored.

Yang Ming caught Huang Lele's hand. Although she looked very careless, she could always cheer him up at a critical moment and give him enough confidence.

To be honest, if Huang Lele disagreed with Yang Ming's idea, Yang Ming might have really reconsidered whether his plan was really feasible. After all, building a family on an unfamiliar island was a tough job.

Although Yang Ming also visited the Butterfly Family, the Butterfly Family was located in a very remote land surrounded by jungle and desert. However, they had been staying there for generations. They had cultivated a reasonable lifestyle. Yang Ming did not know if he could do it.

Huang Lele's hand felt some pain when Yang Ming caught it, but there was a feeling of comfort that was indescribable. This feeling of being cared for made her heart beat...

Yang Ming thought that sometimes having outdoor sex was indeed a very refreshing thing...

.....

Huang Rongjin and Zhang Xiaonao sat under a big tree and drank beer. They were now good friends. Initially, Huang Rongjin was quite disgusted with Zhang Xiaonao. However, after more contact, he realized that Zhang Xiaonao actually lacked his own will. He was especially afraid of Zhang Jingyao.

It could be said that he would obey any orders by Zhang Jingyao. In addition, Zhang Xiaonao was a relatively loyal and cool guy.

Listening to the sounds of ecstasy coming from afar, Zhang Xiaonao snorted. "Your sister's voice is so loud..."

"If you listen again, do you believe that I will tear your ears off?" Huang Rongjin glanced at Zhang Xiaonao, but he also smiled bitterly in his heart. *Lele is indeed too focused... but it is inappropriate for me to remind her as her brother...*

Zhang Xiaonao stuck out his tongue. He was just talking about it. He didn't dare to remind him, and he didn't dare to peek. The strength of Yang Ming in the past few days and the humility of his father in front of Yang Ming left a deep impression on Zhang Xiaonao.

The person that his father could not afford to offend, Zhang Xiaonao could not even afford to offend. He just complained to Huang Rongjin, but he did not dare to do anything else.

"Ai, if I knew, I would have also brought a girl here..." Zhang Xiaonao said with some regret.

"There are a lot of black girls here. Should I help you find one tomorrow?" Huang Rongjin snorted and laughed sinisterly.

Zhang Xiaonao suddenly became shocked, and he quickly waved his hand. It was no wonder he would have this expression. He was tempted by Yang Ming and Huang Lele for the past few days. He finally couldn't help but call a black prostitute.

However, Zhang Xiaonao was unlucky, and he did not expect that the black prostitute's stamina and explosiveness were so powerful. She let Zhang Xiaonao become a man who had sex seven times in one night. He almost could not get out of bed the next day.

Not only he was reprimanded by Zhang Jingyao, but Huang Rongjin and Yang Ming had also observed the drama. Yang Ming mocked him, but Zhang Xiaonao did not dare to refute. He could only complain to Huang Rongjin.

"Why don't you try it?" Zhang Xiaonao snarled, showing a murderous look. "Mother\*fucker, I would rather hide behind the big tree and combat one with five <sup>1</sup> [1]..."

"Who are you going to combat?" The voice of Yang Ming came from behind Zhang Xiaonao.

Zhang Xiaonao suddenly felt shocked. He thought that Yang Ming had heard him saying that Huang Lele's voice was loud, so Yang Ming came to settle the score with him. He suddenly became ashamed, but he thought about it. *It's not possible. When I spoke, Huang Lele was still yelling, then Yang Ming was definitely next to Huang Lele.* When Zhang Xiaonao thought of it, he was relieved and said, "I said... I am going to combat..."

"He is going to combat jets..." Huang Rongjin said it for Zhang Xiaonao.

## **Chapter 1192: Unbelievable**

"Fight what jet? Where is the jet?" Huang Lele inexplicably widened her eyes and looked at the dark night sky. She did not find the flashing lights on the tail of a plane.

Huang Rongjin, initially thought that Huang Lele was not there, so he casually said such a sentence. But now, he found that his little sister was looking at him innocently. Huang Rongjin felt that he had embarrassed himself.

It was reasonable that Huang Lele did not know the terminology used between these men. Huang Lele had never been exposed to these things since she was a child. Yang Ming was her first boyfriend. Yang Ming did not talk about it, so no one ever said it.

Zhang Xiaonao felt that something was creepy when Yang Ming and Huang Lele suddenly appeared. *At this moment, the two should be very passionate. How come it was so fast? Is Yang Ming a fast gunner?*

Zhang Xiaonao was inexplicable. Suddenly, there was another obscene moan in the distance. Zhang Xiaonao was even more shocked. He widened his eyes and exclaimed, "This... what is this sound!?"

Huang Rongjin was also astonished. Initially, he thought that the sound was the voice of Yang Ming and Huang Lele. But now, Yang Ming and Huang Lele stood in front of them, and they didn't even take off their clothes. So, where did the voice come from?

"The gorillas are mating. You never hear this sound before?" Yang Ming looked at the inexplicable expressions of Huang Rongjin and Zhang Xiaonao.

"Ah?" Zhang Xiaonao's eyes widened. "The gorillas are mating... I thought it was you..."

"What?" Yang Ming blinked. "You didn't think that it was me with Lele, right?"

Zhang Xiaonao was exposed, and his face was red; it could not be denied anymore. He just nodded and said, "I thought you and Lele were having s\*x outside..."

Zhang Xiaonao was young and spoke insensibly. If it were Zhang Jingyao, he would never say something similar because Yang Ming was not a person who can make jokes at his level.

Of course, Zhang Jingyao was just too careful. Yang Ming did not necessarily account for these. Yang Ming was not the kind of person who was aloof and remote. Therefore, Yang Ming was not angry at Zhang Xiaonao's joke. He glared at him and said, "If I am having s\*x outside with Lele, would you hear it? Do you have any brains!"

"Ha ha ha ha..." Huang Rongjin couldn't help but laugh, pointing to Zhang Xiaonao, and he couldn't breathe. "It's two gorillas that inspired your childish desire!"

Zhang Xiaonao's face suddenly turned green. He didn't expect the truth of the matter to be the case. Yesterday, when he and the black girl had s\*x, his mind still dreamed of Huang Lele's ecstasy, and he could only fantasize in his mind. But today, the beautiful illusion was shattered. His fantasy was just the sound of a female gorilla... This made Zhang Xiaonao feel a little disgusted.

Yang Ming also thought of something, smiled, and held the hand of the somewhat inexplicable Huang Lele. "Let's go; let them stupidly laugh here."

"Oh, okay." Huang Lele did not ask too much and followed Yang Ming to leave.

Huang Rongjin, who was left behind, was still full of laughter, while Zhang Xiaonao vomited the beer that had just been drunk into his stomach.

.....

It was destined to be an unsettling night. Li Lexin finally came, and under Li Zhichun's long-awaited call, she set foot on the land of Country X.

Li Lexin was not very beautiful, but her body was very strong and had a unique beauty. However, compared with Wang Xiaoyan, it was a lot worse.

Even so, it had caused the attention of the perverted Li Tianjia and Li Tianyu. However, Li Tianjia and Li Tianyu lost interest after they knew that Li Lexin was a distant relative of the two.

This was the person who would represent them for the battle and play a big role in the Li Family's future in Country X.

Li Zhichun welcomed Li Lexin warmly, but there were no luxury hotels in Country X. Only a few people could stay in a small hotel. Fortunately, Li Lexin often performed missions in different environments, so she was not too concerned about it.

"How is it? Do you have confidence?" Although Li Zhichun knew that this niece was very powerful, he still asked in concern.

Li Lexin was disdained by how cautious Li Zhichun was but still said, "No problem. It is trivial."

Li Zhichun was relieved to hear Li Lexin being so confident.

In fact, in many cases, bidding was just a formality. Just like now, the prices of these mines were basically fixed. In everyone's mind, they all had a common price in their heart.

The reason was very simple. If the price were too low, it would be easy for the opponent to get in. If the price were too high, then there would be no subsequent profit. Therefore, the cost of each mine had basically become fixed.

To guarantee their own interests, the price of a mine would stay at a reasonable price, and the rest was up to these people showing their might.

Li Zhichun entered the venue with Li Tianjia, Li Tianyu, and Li Lexin. Li Zhichun was still immersed in the illusion of having a deep relationship with General Kars. He always felt that he was superior to others.

"Hey, Jeffers, how are you? Do you have confidence?" Li Zhichun greeted a white man in English. This white man was the boss of a small coal mine near his iron mine. The money he earned naturally did not amount to Li Zhichun's iron ore, and there was no deep relationship with Li Zhichun!

Jeffers once also asked Li Zhichun for help to get connections with General Kars. So now when he saw such an acquaintance, Li Zhichun naturally wanted to show off.

"Li Zhichun!" Jeffers also saw Li Zhichun, and he walked over to him enthusiastically. "Me? I don't have such great strength. It's good enough that I can keep my mine! But come to think of it, no one will fight over that small place with me..."

"That's true!" Li Zhichun patted Jeffers' shoulder. He said with some regret, "You haven't made much money in these years. Otherwise, I can help you win a bigger mine with my relationship!"

"Yeah, *ai*, my funds are limited. I want to get bigger mines, but I don't have so much spare cash. Thank you for your kind intention!" Jeffers was a little excited. He didn't think that after so many years, Li Zhichun could still remember him and give him warm help. "How can I have capital like you? This time, you must want a bigger piece, right?"

"*Hehe*, for me, my main goal is to protect; the iron ore must be kept. As for the others, we'll look at the situation." Li Zhichun said with pride, "Since I have more free cash at hand, I don't lack these."

"Yeah, with your relationship with General Kars, this time, there isn't a mine in any place that you can't take!" Jeffers said with envy, "In the future, you must take care of this old brother!"

In fact, Jeffers was even older than Li Zhichun, but he followed the custom and acted like an underling in front of Li Zhichun.

Li Zhichun was also enjoying this feeling very much. He was flattered to the point where he felt that his body was so light it was as though he were floating. He said quickly, "Certainly! With our relationship, I will take care of you!"

"If there is an accident with my coal mine in a while, Mr. Li, you have to lend a helping hand!" Jeffers said quickly. This was his real objective.

The money in Jeffers' hands was limited. He also knew that, so he did not consider any gold mines, diamond mines, etc. As long as he could guarantee the coal mine in his hands, it was very good. Therefore, his main purpose was to ask Li Zhichun to give him support and care.

"That is for sure..." Li Zhichun spoke halfway and suddenly stopped. He himself went to General Kars to find the door closed. Now that someone else was looking to him, could he help? However, since the words have been spoken, Li Zhichun also couldn't retrieve it. He could only force himself to say, "That is certain; no problem!"

Li Zhichun thought, *This coal mine is not something profitable, and no one will grab it. Now I will placate Jeffers to leave enough face.*

After Jeffers got a positive reply from Li Zhichun, he was relieved! As far as he knew, this time, if someone really wanted to grab his coal mine, he was not confident to compete with that person until the end. So he greeted Li Zhichun in advance!

How would Jeffers know Li Zhichun's inner thoughts? He thought he was really getting on well, so the mood at this moment was exceptionally comfortable. Whistling a little song, he went to show off to his old friends. In the meantime, he also wanted to disclose a message to his competitors in advance that he had some connections, and the relationship between him and General Kars was very good!

After he finished boasting to Jeffers, Li Zhichun did not take it seriously. He turned around and prepared to bid with Li Tianjia and Li Tianyu.

"Why did the people of the Huang Family not come?" Li Tianjia glanced at the venue but did not find Huang Xiaofei, Huang Lele, and other figures. They also did not see Zhang Jingyao and Zhang Xiaonao, so they were suddenly puzzled.

Previously, Li Zhichun was busy bragging to Jeffers and enjoying the feeling of complacency, so he did not pay attention to whether the Huang Family was here. Now, listening to Li Tianjia's words, he looked up and scanned around the venue. Indeed, Huang Xiaofei and Zhang Jingyao were not seen.

"Are they really not here?" Li Zhichun looked around carefully and still found nothing. "Could it be that they thought they couldn't do it, so they gave up?"

"There is a possibility..." Li Tianjia frowned. "But, Zhang Jingyao's purpose this time is here. How could he not come? Is there something wrong?"

However, the next scene, like a hammer, banged on the chests of Li Zhichun, Li Tianjia, and Li Tianyu. The most unbelievable and worst nightmare that the Li Family did not want to witness had happened...

### **Chapter 1193: What's Their Relationship?**

" *Hmph* , I got pissed off once you mentioned Zhang Jingyao. I don't know what medicine he took. He actually went to support the Huang Family who is going bankrupt soon. With Zhang Jingyao resolving their difficulties, the Huang Family even dares to be arrogant in front of us now!" Li Tianyu said with hatred, "We must show them who the boss is!"

"Forget it. It is better off if they don't come." Li Tianjia shook his head. "In this bid, in fact, we, the Li Family, does not have much confidence. General Kars also said that this time, it must be fair and just. It will be run according to the customs here. Hence, there is a brawl to determine the rights to the mine. We may not be able to get any benefits. If the Huang Family sees it here, they will also laugh."

Having Li Tianjia stealing the lead in the conversation, Li Tianyu was slightly displeased. However, Li Tianjia was also talking about family matters, and it was indeed reasonable, so Li Tianyu could not say anything more. He only uttered, "Yes, but we are not bad. We have our cousin, Li Lexin, to help us. We will definitely get the expected share this time."

Li Zhichun waved his hand and stopped the dispute between the two brothers. In fact, when Li Tianjia and Li Tianyu were fighting in the dark, Li Zhichun also saw it in his heart, but he could not help it.

"Don't fight. Today is the crucial moment, we must unite to fight against outsiders..." Before Li Zhichun finished speaking, the smile on his face froze...

"Father, what's wrong with you?" Li Tianjia looked at his father in doubt, then he became baffled and asked.

Li Tianyu was puzzled too. "Father, what happened to you?"

"Huang Xiaofei..." Li Zhichun felt that his breathing was uneven. He raised his hand and pointed at Li Tianjia and Li Tianyu behind him, panting and said, "They... they are coming..."

"If they come, they come." Li Tianjia said indifferently. He did not understand how his father would have such a big reaction because of Huang Xiaofei's family.

"Indeed, we have a chance to belittle them." Li Tianyu also licked his lips and turned around, but at the moment he turned, his smile was frozen right there!

Similarly, Li Tianjia was also surprised as his eyes, and jaws opened widely. He looked at the scene in front of him inexplicably!

Li Zhichun, Li Tianjia, Li Tianyu naturally recognized the two big shots of Country X – General Kars, and Li Qiang! They already spent a lot of effort on Li Qiang. Although Li Qiang claimed to be the captain, he

was already the highest sergeant of Country X. The bidding competition of the mines' rights this time was hosted by Li Qiang.

However, the only information they could get about Li Qiang was his appearance. They knew nothing about other things. No one could get in contact with Li Qiang. Now, it was not surprising to see Li Qiang and General Kars walking alongside each other and entering the venue together. However, what surprised them was that alongside General Kars, and Li Qiang was Huang Xiaofei!

*Huang Xiaofei, how could he be with Li Qiang and General Kars? What qualifications does he have to win this honor?* Li Zhichun would like to think that the three people just walked into the venue together by coincidence, but the facts were often very harsh.

The three people were chatting with laughter; they were obviously familiar with each other. Bodyguards were standing by their sides, but the bodyguards did not stop Huang Xiaofei from approaching, which indirectly proved this fact.

Behind the trio, four people, Zhang Jingyao, Huang Rongtian, Huang Rongjin, and Zhang Xiaonao, followed General Kars, Li Qiang, and Huang Xiaofei into the venue.

However, Li Zhichun and the others neglected a significant scene at the same time. Yang Ming and Huang Lele were walking in front of General Kars, Li Qiang, and Huang Xiaofei.

The order of important people entering the venue was self-explanatory. Yang Ming and Huang Lele walked in front of General Kars, which also highlighted that their status was above General Kars.

However, Li Zhichun and his sons apparently did not realize this. They automatically ignored Yang Ming and Huang Lele, thinking that they only entered the venue first while not being in a team with General Kars and the others.

But no matter what, the shock brought to Li Zhichun and his sons today was beyond the limit they could handle. Li Zhichun covered his chest tightly and could not speak.

This scene was like a heavy hammer that smashed on the Li Family's chest. The most inexplicable matter that the Li Family did not want to see the most had happened in front of them.

"How did Huang Xiaofei go with General Kars and Captain Li Qiang?" Li Tianjia recovered from the shock first. "Impossible. It is absurd!"

"Is it possible...? The problem is that they are indeed walking together..." Li Zhichun shook his head with a bitter smile and sat in his seat. "No wonder the Huang Family was so fearless previously. I wonder how they got connected with General Kars and Captain Li..."

"Yes! It must be that Li Qiang!" After listening to his father's words, Li Tianyu suddenly realized.

"Previously, I have not heard about Li Qiang in Country X. He appeared later on. The Huang Family must know him so that they can excel right now!"

"Li Qiang... This person is a big shot... I heard that he settled all the armed forces in Country X." Li Zhichun continued, "We are really in trouble this time!"

"Not necessarily. Didn't General Kars say that the bidding will be fair and just? Does he want to take the lead in violating the regulations?" Li Tianyu shook his head and said.

“This is also true. However, Huang Xiaofei is now making such a play. It is obvious that he wants to show his power to us. Moreover, if they have a connection with Captain Li Qiang, they will certainly get some insider mine shares. There is no need to participate in the bidding.” Li Tianjia waved his hand and denied.

Indeed, just as Li Tianjia said, Huang Xiaofei came here not to bid but simply to show off in front of Li Zhichun’s family.

Huang Family’s gold mine still belonged to the Huang Family. There was no need to bid. It could be said that the entire Country X’s land was under Yang Ming. What Yang Ming wanted was just a matter in a few words.

This did not need to break any rules, because Yang Ming himself was the rule maker. If you want to talk about fairness, then the world itself is unfair.

There was no fairness between the game maker and the game participants. There was only a one-sided obedience. This could never be changed.

Yang Ming and Huang Lele went to the VIP seats in the first row and sat quietly. Although Yang Ming did not look up, he paid attention to Li Zhichun’s family’s actions with his special ability.

In fact, sometimes, it was very refreshing to peek at the scenes of their psychological shock. Yang Ming felt that he had the bad taste of being in a superior position.

The bid was hosted by General Kars’ secretary and Lu Xinyang. General Kars, Li Qiang, Huang Xiaofei, and Zhang Jingyao were also sitting in the VIP seats under the stage.

Of course, they were the only ones in the VIP section. The mine owners who participated in the bid were not qualified to sit here.

Most of the mine owners here did not know Yang Ming and Huang Xiaofei. They only knew General Kars and Captain Li Qiang. They were astonished by these Asians. What was the identity of these people? They could even sit together with General Kars and Captain Li Qiang.

Especially after Yang Ming and Huang Lele were seated, the two caught the attention of the crowd! Yang Ming and Huang Lele were sitting in the middle of the VIP section, which was the best position in the entire row of VIP seats.

General Kars and Li Qiang only sat on one side. This made the mine owners feel amazed and surprised. *This young bad\*ss seems to have more superior status than General Kars and Li Qiang!*

Li Zhichun’s family also noticed this. They initially ignored Yang Ming and Huang Lele. At this time, they had to re-examine Yang Ming and Huang Lele!

“They actually sat in the middle of the VIP row!” Although Li Tianjia said that he didn’t care about Huang Lele, he still didn’t give up on her. What one could not get was the best thing ever. Previously, Li Tianjia still fantasized that one day he would ride on top of Huang Lele, but now, this idea had become an unrealistic dream.

He also understood that all this was impossible. The man by Huang Lele was not as simple as he imagined. Yang Ming might have other identities that he did not know about! Right now, it portrayed this clearly.

“Yang Ming! Who is he?” Li Zhichun also noticed Yang Ming and Huang Lele. “Is his identity more superior than General Kars and Li Qiang...?”

Li Zhichun did not continue speaking, but it was no longer important. Li Tianjia and Li Tianyu could understand what he meant by his words. That was Yang Ming’s identity was higher than General Kars and Li Qiang.

Li Tianyu shook his head. *Did I underestimate Yang Ming’s capability? When he brought people to the gold mine last time, I thought he was only a mercenary. Now it seems that the person who has a connection with Li Qiang is Yang Ming?*

Moreover, Yang Ming sat on the master seat again...

Li Zhichun, Li Tianjia, and Li Tianyu couldn’t help but look at each other. They thought of the same problem!

That was – Li Qiang and Yang Ming. What was their relationship?

Thinking of this, the heads of the three people could not help but explode at the same time. A horrible thought spread in the minds of the three...

#### **Chapter 1194: A Killing Machine**

Yang Ming had always been ignored by the Li Zhichun father and sons. In their view, Yang Ming was not important. They simply did not regard Yang Ming as a character.

Before today, they even had the stupid and naive thought that the Huang Family could get through the disaster entirely because of Huang Xiaofei’s mouth, which persuaded that dumb\*ss, Zhang Jingyao, to help him. This fool would also regret it sooner or later.

But today, Li Zhichun and his sons saw a different side. It seemed that the person who had all the power to determine everything was Yang Ming; it had nothing to do with other people!

Huang Xiaofei or Zhang Jingyao, they should not be the leaders of this matter, and Yang Ming was the one who knew Li Qiang and General Kars.

Judging from the seats of Yang Ming and Huang Lele and their arrogant attitude, Li Qiang and General Kars may have a lower but not higher status than him!

So what did this mean? The cold sweat of the Li Zhichun father and sons immediately came out, and Li Zhichun’s face became pale. “Yang Ming, we’ve underestimated him.”

Li Tianjia and Li Tianyu seemed to have thought of the same problem. If Yang Ming was really the mastermind, could he be disadvantageous to the Li Family?

While Li Zhichun's family was in fear, the bidding had officially started.

In fact, the bidding process was far from the heroic and sensation of the auctions. Most people had similar fair prices, and the bids were also concentrated on the more profitable gold mines and diamond mines. They did not compete on other mines.

At the entire bidding conference, the main event was the tournament at the end. Each mine owner would send a female slave who was either trained by them or a fighting master who they hired from other places at a high price to win the final victory.

Among them, the most bidding was done by a Euro-American person. He was sitting behind Yang Ming. This was considered as the top position in the whole venue. Of course, the order of these positions was also allocated according to their own economic strength.

That this guy could sit here meant that his own ability was good. When he bid, Yang Ming noticed him, and he obviously noticed Yang Ming too.

From the beginning of Yang Ming's entry, this guy's eyes often looked at Yang Ming, General Kars, and Li Qiang. Of course, he just threw a few glances at Huang Lele next to Yang Ming, and he did not do further assessing.

Obviously, he was a very intuitive person. From the nameplate in front of his seat, Yang Ming learned of his name. Bobby, a very common Euro-American name, was nothing special.

However, Bobby had his wealth and status today because of his keen observation. When Yang Ming "inadvertently" looked back, Bobby keenly seized this fleeting opportunity.

"Hi, sir. I am Bobby, an investor." Bobby smiled and looked at Yang Ming, talking at an appropriate speed.

Yang Ming did not have to turn back when he wanted to observe someone; he could just observe with his special abilities. However, Yang Ming did it deliberately to see what kind of person Bobby was and if he needed to get acquainted with him.

After all, Country X was now his own territory. If Yang Ming could get acquainted with this kind of big investor in his own territory, he would try it.

However, Bobby obviously did not want to give up any opportunity.

"Hi, have you invested in a lot of mines?" Yang Ming nodded to him and spoke casually.

"Yeah, *hehe*, who doesn't want to make a fortune? Who would complain that they have little money?" Bobby suddenly rejoiced to see that Yang Ming did not disregard him. "Sir, are you here to invest too?"

Yang Ming shook his head and smiled. "Do you think I am investing?"

After listening to Yang Ming, Bobby was slightly stunned, but then he laughed. "Of course, we are all here to invest in you."

Yang Ming was a little impressed by Bobby's quick reaction. He could figure out that Yang Ming was the real behind-the-scenes leader from just a few details. It seemed that this Bobby was a smart person, and it was a very happy matter to deal with intelligent people. Yang Ming also welcomed these people to invest in his private island.

"I welcome your support," Yang Ming said faintly.

However, these four simple words had greatly increased Bobby's interest, and his mood was extremely excited.

If Bobby could sit in this position at the bidding, it meant he had something extraordinary. The bidding seats were arranged by the number of mines that these mine owners once owned, so this also represented Bobby's glory in Country X.

There must be a close relationship between him and General Kars. Now, Yang Ming was sitting in the VIP seat while General Kars and Li Qiang were sitting aside. Moreover, when Yang Ming turned back to talk to him, General Kars did not show anything. Especially when Yang Ming said the words, "I welcome your support," General Kars would have heard them since he sat not far away.

What did these four words represent? This represented the rights to the land and absolute power! It was impossible for someone who did not have absolute power in Country X to say such an arrogant sentence.

Yang Ming said this sentence naturally instead. This indirectly explained Yang Ming's identity.

Bobby could easily guess Yang Ming's position in Country X. It could be said that if he got acquainted with Yang Ming successfully, then he would be able to stand firm in Country X. At least, he would not be bullied.

Bobby was not afraid of other mine owners bullying him. He had a lot of armed forces in his hands, but he feared Country X officially bullying him. The power in Li Qiang's hands was not something that they could compete with.

"This is my boxer. What do you think of her?" Bobby pointed to an Asian girl in front of the ring and asked.

Yang Ming's eyes looked to the front of the ring where Bobby's finger pointed.

Indeed, in a row of Euro-American black female boxers, the Asian female boxer appeared to be a little thin. Some of the black female boxers were twice her size.

The Asian female boxer stood there quietly; she looked very depressed, unlike others who were gearing up. However, Yang Ming did not have the slightest scorn for her. In the eyes of this female boxer, Yang Ming saw indifference and numbness. Other than that, there were no emotions on her face.

Yang Ming's heart was suddenly astounded. He once saw such an expression in the eyes. The female assassin who broke into Wang Xiaoyan's villa had similar eyes! It could be said that when a person achieved such a level, he could not be regarded as a person anymore, but a machine that harvests human life.

They would simply obey the orders of the master to kill someone. If he did not achieve your goal, he would never give up.

However, Yang Ming certainly did not think that there was any connection between the female boxer in front and the female assassin who broke into Wang Xiaoyan's villa last time. Although this kind of person was relatively rare, there would be someone like this out there. At least, he heard from Fang Tian that the Butterfly Family could train such an assassin.

However, the Butterfly Family was only training for others; they would not train such a killing machine in their own family.

At this moment, Yang Ming was somewhat impressed by this Bobby. He could actually get such a killing machine. Perhaps, this boxing match already had results.

Although the muscles of this Asian female player were not very developed, and there were no muscles on her, in many cases, killing people did not require too many bodybuilding muscles.

As long as the muscles of the legs, arms and other parts were routinely trained, one could complete some strange killing moves. Wang Xiaoyan was a typical example.

Although Yang Ming did not hate those women who were covered in muscles, Yang Ming did not like to sleep with them on the same bed.

"Not bad. How much did you spend on her?" Yang Ming asked in a plain tone.

"Not much; five million dollars." Bobby was not sure if Yang Ming could understand the underground boxing match, and he was not clear whether Yang Ming could see the special features of the Asian female boxer. Therefore, he could only tell the truth for Yang Ming's question.

However, the special features of this female boxer could not be noticed by ordinary people, including the other female boxers on the stage and the mine owners below the stage. They all looked at the Asian female boxer with mocking eyes.

In their opinion, Bobby was purely making a fool of himself. Did he dare to put such a thin woman in the ring? Wasn't she the kind of character who would be defeated in one punch?

In addition to Bobby's Asian female boxer, there was also another Asian female boxer on the stage, Li Lexin. However, Li Lexin was now warming up seriously in a Muay Thai costume, so the others did not underestimate her.

Muay Thai had its own strength. Although many online legends said that Muay Thai originated in Emei, some also said that Muay Thai was created by Nai Khanomtom [1] in the 18th century Ayutthaya Kingdom.

However, no matter what the truth was if a martial arts could be passed down for many years, it must have its own strengths. Therefore, the people on the stage did not dare to take lightly Li Lexin who seemed to have real skills.

Bobby's Asian female boxer was standing still on the stage and looked like she was here to make up the numbers.

"Five million dollars? It's very cheap." Yang Ming was telling the truth. Five million dollars was not expensive for this kind of killing machine. How much money could an assassination mission earn? Therefore, it seemed that Bobby had gotten a big bargain.

"Yeah..." Bobby did not even know whether Yang Ming was praising him or being sarcastic to him because Yang Ming's face had no expression at all. Bobby was a very perceptive person, but he always could not understand Yang Ming's real thoughts when he was facing Yang Ming. "I also met her by accident. When I saw her, I almost ignored her. If it weren't for her amazing performance, I wouldn't pay so high a price."

Bobby did not understand Yang Ming's real thoughts, so he could only explain it self-servingly.

"She is a killing machine..."

Chapter 1195: Victoria

"It's a good deal to buy a killing machine at this price." Yang Ming still said without any expression, "Has she won a lot of competitions for you?"

"Sir, do you know how to box?" Bobby saw that Yang Ming knew it inside out and immediately showed a surprised expression.

Yang Ming shook his head, "I don't know."

"You don't know?" Bobby was stunned. He didn't expect Yang Ming to say such an answer. However, just as he was about to say something, he heard Yang Ming speaking again.

"I don't know how to box, but I know how to kill." Yang Ming smiled. "I think this female boxer of yours is not a boxer. She is more like an assassin. If it is a realistic fight, she won't be the opponent of these people on the stage, but when it comes to killing, not one of these people is her opponent."

Bobby listened to Yang Ming's words, and suddenly he showed his admiration. Everything Yang Ming said was correct. Asian female boxers were not good at boxing but at killing.

The ultimate goal of others was to defeat the opponent, but her ultimate goal was to kill her opponents.

"Sir, you are very knowledgeable, and I admire that," said Bobby. He did not intentionally compliment Yang Ming but praised from the bottom of his heart. Some people could recognize the female boxer's talent, but it was rare. Bobby was thrilled with Yang Ming exposing this secret.

Yang Ming waved his hand. "However, the Muay Thai woman over there won't be easy to deal with."

Yang Ming referred to Li Lexin. Following Yang Ming's gaze, Bobby did not see any clues. After all, he didn't understand this. He also said that he bought this Asian female boxer by accident.

"Thai Boxing? I've never been fond of that kind of stuff." Bobby shrugged and said in his own humorous way.

"Thai Boxing, it's nothing..." Yang Ming shook his head slightly. "I smell a dangerous aura from her, not just Muay Thai. Maybe Muay Thai is just a cover..."

"Hehe, it doesn't matter. Even if she is more powerful, can she be more powerful than the killing machine?" Bobby laughed indifferently.

"This I can't say exactly. Sometimes, people who have undergone rigorous training are more terrifying than this kind of thoughtless killing machine." Yang Ming did not say anything to Bobby. The female assassin who broke into Wang Xiaoyan's villa was an example. She was powerful, but she was not Yang Ming's opponent.

"Maybe? But this is only known if you have tried it!" Bobby obviously didn't quite agree with Yang Ming, but it was inappropriate to refute Yang Ming, so he had to say so.

Yang Ming didn't care either. Bobby was just a layman in the end. He knew only some superficial things and couldn't see the essence of some things. For example, he did not understand why this Asian female boxer was so powerful. He just knew that this Asian female boxer could help him beat his opponent, which was enough.

"What is her name?" Yang Ming changed the subject and was reluctant to entangle with Bobby in terms of technology. Yang Ming didn't want to talk too much, lest he expose his identity.

"Victoria." Bobby smiled. "How is it? The name is beautiful, right? It is the name of the ancient queen."

"You named her?" Yang Ming felt that it was a bit strange that an Asian was called an English name.

"Yes, she didn't have a name. Her original owner called her Number Three!" Bobby threw up his hands.

"Maybe he trained a lot of such people, and Victoria is the third. So she was called Number Three."

"Compared to Number Three, it is better to call her Victoria." Yang Ming sighed. So let it be Victoria. It doesn't matter. Anyway, it has nothing to do with me. "I hope you win more shares."

"Thank you!" Bobby nodded happily.

The game started, and Yang Ming turned his head. However, his eyes stayed on Li Lexin for a long time. This woman gave Yang Ming a familiar feeling. It seemed as though he had seen her somewhere, like déjà vu.

"Who is the woman wearing a Thai boxing suit?" Yang Ming turned his head and asked Li Qiang.

"Brother Yang, that person was brought by Li Zhichun, representing Li Zhichun's family." Li Qiang noticed that Yang Ming was asking questions and quickly dropped General Kars with whom he was currently talking to and replied to Yang Ming.

Yang Ming nodded. Li Zhichun, it turns out to be him. Could it be that I saw this woman when I was in Singapore? Yang Ming shook his head and didn't have much of an impression.

Very vague, it seemed that the impression was very shallow; he could not grasp any clues.

And this small detail was captured in Bobby's eyes, which had strengthened his thoughts. The identity and status of Yang Ming were absolutely unusual, and it was very likely that he was above General Li Qiang and General Kars.

The first game was to compete for a diamond mine. This diamond mine was recently discovered and had not been mined, so the competition was intense. Almost all of the most powerful mine owners bid for the diamond mine.

Therefore, twelve players participated in the first game!

Having twelve people for a chaotic battle royale was definitely not possible. The game was grouped in a qualifying system. In the first round of group matches, six players would be eliminated.

Li Zhichun was very smart and didn't bid for this diamond mine. He knew his strength and knew many people would fight for this diamond mine, so Li Zhichun simply had no intention to make a move on this.

He understood that even if he won this diamond mine, he would make a lot of enemies. Now the situation of Country X was very unclear. Yang Ming's identity was confusing, and making enemies with other mine owners was a very unwise choice.

Victoria's opponent was a black female boxer who looked very burly. The muscles all over her body were obvious. Yang Ming was confident that if someone were hit by her fist, even if they were like Yang Ming, they would have several fractures.

However, although Victoria looked thin, her body was unusually dexterous. The black female boxer's punching speed was very fast, but not one punch hit Victoria. Victoria had swiftly avoided them all.

In the beginning, the black female boxer was also excited about being able to choose such a weak opponent, but soon, she was a little impatient!

The feeling of missing each punch was not enjoyable! Sure enough, the black female boxer began to be a little annoyed. When people were annoyed, they would be in a mess. In the end, as Yang Ming expected, Victoria suddenly rose vigorously and struck directly at the spinal point of the neck of the black female boxer when she was retrieving her missed punch. The black female boxer's eyes suddenly protruded as she fainted on the ground.

According to Yang Ming's judgment, the black female boxer was not dead but just went into a vegetative state.

One of the mine owners in the stands gave an angry low-pitched howl. Obviously, this black female boxer was his, and he lost. He not only lost the diamond mine but also looking at the black female boxer, he couldn't continue to participate in the competition!

"Sir, your boxer..." The staff went to the angry mine owner and whispered.

"Dispose of her! Throw her into the sea to feed the sharks! She actually ruined my serious business. All the beef and lamb I fed her are in vain!" said the mine owner.

The staff nodded and carried the black female boxer off the stage. Although Yang Ming couldn't bear it, there was no way. Each game had its own rules. The black female boxer lost, so she had to wait for her fate, which was abandonment by the owner.

To make matters worse, she did not have the need to be rescued. Yang Ming saw very clearly that Victoria struck the black female boxer's Dazhui [1] with great strength. This black female boxer was not dead now, but it was only a matter of time.

The black female boxer was carried out of the ring, and Victoria's original murderous eyes restored to calmness, like a clear lake without the slightest emotion.

Bobby smiled softly. This was the result he had expected. If this group knockout did not go well, then the huge amount of money he spent to buy Victoria would be in vain.

It was still a piece of cake for Victoria to defeat the remaining six people in the group elimination stage. No one managed to stay standing in her hands.

Most of them were beaten by Victoria, and they were almost dead or seriously injured. Their bosses all voiced complaints and regrets.

Victoria, like Yang Ming, often did not use her full strength. If she did so, the enemy would be doomed. At other times, she would be crouching, like a hungry wolf observing prey.

This was a typical style of an assassin. Yang Ming had a little interest in this Victoria. In what environment was she trained?

The last game was a game that determined the outcome. Victoria was up against an Italian blonde. The girl's body was not burly, but the muscles were very developed. At first glance, she was the kind of person who was impressive-looking but useless.

The Italian girl had a preliminary understanding of Victoria before, and she knew her style. Therefore, at the beginning of the game, the Italian girl did not rush to attack, but instead defended herself and firmly protected her several important body parts. She remained quiet until Victoria did not take any further action.

"Heh!" The Italian girl made a feint. Victoria had no movement for a long time, which made her anxious. However, she was not stupid. She did not dare to attack, so she made a tentative feint to look at Victoria's reaction.

However, to her disappointment, Victoria was not confused by her fake actions. She still stood quietly in the ring, motionless. Unlike the Italian girl, Victoria didn't even take any defensive moves, just standing there.

This numb movement made others feel that she was provoking.

### **Chapter 1196: The First Victory**

At least, many mine owners in their spectator bench thought this, but Yang Ming did not think so.

A good defense needs no preparation in advance. What an assassin needed was speed and reaction ability. Victoria had exactly these two points.

Fast and sharp reaction.

After the Italian girl's probing failed, she was not as irritated as other female boxers. Instead, she regained her calmness and vigorously defended herself. At the same time, she was assessing Victoria.

While the connoisseur recognizes the artistry, the layman simply enjoys the show. In the absence of any excitement, the people on the spectator benches had shown a lack of interest. Many people, who stared at the scene at the beginning, had now lowered their heads and started doing their own things.

The confrontation between the two people had not the slightest excitement to speak of. Although Yang Ming knew that the two were in a volatile situation, they were not willing to make the first move. However, the others did not know about this. Thus, there was the audience reaction described before.

After a long time, the attention of the Italian girl was not as concentrated as before. After all, she was a boxer, not a professional assassin. What a boxer needed was the skill and power of punching, not this kind of psychological game!

At the moment the Italian girl showed some slack, Victoria moved.

Yang Ming smiled slightly, and the ending was already predictable. The Italian girl fell into a disadvantage and was in a passive state.

Victoria kicked the Italian girl's perineum. Don't think that only men are more vulnerable at this private spot. In fact, women are equally susceptible. Victoria obviously knew this.

This trick was similar to Wang Xiaoyan's kick to the balls – a different method that brought a similar wonderful effect.

Victoria understood; the Italian girl obviously also understood. When Victoria launched this kick, the Italian girl's face suddenly changed. She quickly sidestepped to dodge Victoria's kick.

There was no rule at all at this level of fighting. Even the underground boxing market did not stipulate any rules but rather had messy fights. Whoever was powerful would laugh in the end.

Although the Italian girl was not weak, she was obviously a graduate of the class who had undergone formal training. Therefore, she was obviously bound by some rules. When she punched, she was used to the specific routine, but Victoria obviously did not. There was obviously no law in her hand. It could be said that it was completely messy. Just like Yang Ming, it seemed like a common trick, but it could bring a fatal blow to the enemy.

Victoria's kick was just a disguise. Seeing the Italian girl dodge, Victoria immediately retracted her kick and quickly changed her posture, tackling the Italian girl.

The Italian girl's original attention was on Victoria's kick. She was feeling lucky to avoid this kick, but she didn't expect Victoria to disguise her move. The actual attack came from behind, and she was shocked.

However, the Italian girl was trained, after all. Although she was somewhat surprised, she was not nervous. It was too late to evade it, and the Italian girl could only face Victoria's sharp edge.

In her opinion, Victoria's figure was much smaller than hers. She still had an absolute advantage in this kind of direct confrontation.

Sure enough, after discovering the intentions of the Italian girl, Victoria did not continue to attack. She seemed to know her weaknesses. This kind of unfair confrontation would not bear a good result.

Seeing that Victoria gave up the attack, the Italian girl was delighted deep down in her heart! She found Victoria's weakness; that was, Victoria did not dare to fight with her face to face!

As she recalled the previous boxing matches, it was true that Victoria often relied on tricks to win, entirely without the process and experience of fighting face to face with the enemy.

Thinking of this, the Italian girl made up her mind and started her new round of offense!

This time, she changed her previous confrontation rules and began to take the initiative to attack. It was that kind of face-to-face attack. She ignored what Victoria did but continued attacking her!

At this time, the Italian girl gradually realized that those who lost to Victoria had paid too much attention to their own defense so that when they attacked Victoria, they would always pay attention to whether Victoria would ambush.

But the more it was, the more elusive she became. There was a feeling that they could not launch their offense. The end result was that they became fearful, and Victoria took this opportunity to deliver a fatal blow.

Therefore, since the Italian girl had come to this idea, she would not give Victoria any chance.

The Italian girl didn't care what Victoria was doing following just an offensive attack, and it worked! Sure enough, Victoria began to dodge. Under the fierce attack of the Italian girl, there was no room for resilience, and she can only blindly defend and retreat!

The Italian girl noticed her offense was successful. She was overjoyed, and her attack on Victoria was even wilder. She no longer defended herself. Initially, Victoria had the upper hand, but in this way, the Italian girl successfully reversed the situation.

The owner of the Italian girl was also an Italian, called Marott. He was also a very powerful guy. He was said to have a close connection with the Mafia.

In short, in the land of Country X, he was the guy who was second only to Bobby. Initially, he saw that Bobby got such a strange woman who killed a few people the moment she went into the arena. Marott was hesitant about whether he could attain the final victory.

However, when he saw that the Italian girl had the upper hand now, he was delighted. In fact, he didn't know much about boxing, but he just watched for the excitement. In terms of earning money, he still had some knack for it, but he was completely a layman for this.

He didn't know why Victoria had fallen to the disadvantage as he only watched for the excitement. He saw that his Italian girl got the upper hand and immediately cheered up. He and Bobby had been fighting for a long time, so when he saw that his boxer overshadowed Bobby's boxer, he was naturally very excited.

"To hell with it!" Bobby cursed, seemingly a little discouraged. He also knew the strength of Marott, knowing that the people he looked for were certainly not mediocre.

" Hehe , how is it? Are you disappointed?" Yang Ming heard Bobby's low groan and asked faintly.

"Not really. It is a fair competition. I also admit my loss." Bobby smiled; he did not want Yang Ming to see his stingy side.

"Loss? Not necessarily." Yang Ming shook his head. "Keep watching it. The results won't disappoint you."

" En ?" Bobby was stunned. Although he didn't understand why Yang Ming was so determined, he still said, "I hope your auspicious words come true..."

The Italian girl attacked fanatically while Victoria kept dodging. Victoria wanted to wait for the Italian girl's physical exhaustion, and then counterattack. But now it seemed that the Italian girl was very energetic. She seemed to have received long-term training, and her endurance was extremely strong, so Victoria had to change her mind.

It was because there were no rules in every game, but there were time limits. Victoria could not stay in the fight indefinitely. If either of the two had not defeated the other by the stipulated time, it would be determined as a draw on both sides.

In this way, unless one party voluntarily withdrew, the two parties would also acquire the management rights of the mine. In this way, a gold mine would be divided into two, and the two parties would operate together.

This was a situation that no one wanted to see, so there must be only one person left in the arena. Of course, this kind of situation rarely happened, but it did not mean that it would not happen. From the current situation, it was not strange to have a tie at the end of the fight.

Bobby was anxious, and Marott was anxious too. People were always like this. They are always unsatisfied animals. Previously, Marott did not think about winning against Bobby. In his opinion, Bobby must have come prepared.

After seeing that his Italian girl was not defeated by Bobby's Victoria, Marott became excited deep down in his heart. Later, when he saw that the Italian girl actually got the upper hand, Marott began to imagine that she could attain the final victory.

The Italian girl was actually very anxious. She threw her moves blindly like a monkey, but she could not hit her enemy at all. It was not fun at all. She wanted to quickly end the battle as soon as possible and stop delaying.

However, although Victoria did not attack, she was very clever. She did not allow the Italian girl to attack her. It was just that as the situation continued, the result of this game would be a draw.

Victoria understood what Bobby meant to get her into the arena, so she couldn't wait any longer. Victoria, who was helpless, could only keep searching for an opportunity to give the Italian girl a fatal blow with the least damage to herself!

Finally, Victoria found this opportunity. When the Italian girl once again attacked Victoria's back, Victoria seized the opportunity sharply!

Victoria did not evade this time, but exposed her whole back to the eyes of the Italian girl! The Italian girl seemed to cherish this opportunity as well, and she was concentrating on punching Victoria.

" *Peng* !" Victoria's back was hit by the Italian girl. Victoria groaned, but at the same time, the Italian girl made a louder and more intense scream!

Her previous scream changed into Victoria's soft whisper. The huge body of the Italian girl slowly fell to the arena! Her big mouth was gasping for air. She held her little belly with one of her hands with her body trembling.

Victoria was very fast, and almost no one could see how she did it. However, the people here didn't care about it. They only valued the results. As for the process, it did not matter, right?

### **Chapter 1197: Inequality**

Victoria won. However, it was clear from Victoria's painful look that the Italian girl's last attack was still very heavy and had caused some damage to Victoria's back.

However, she still won; she was the final winner.

"Good!" Bobby couldn't help but slam the table in front of him, but he might have thought of Yang Ming in front of him. He suddenly apologized and said quickly, "I am sorry, sir. I am too excited! But you were right. She won."

Yang Ming shrugged and showed that he was not surprised. "Congratulations, Mr. Bobby."

"Thank you." Bobby breathed a sigh of relief when he noticed that Yang Ming was not bothered.

Marott was very displeased because the Italian girl was knocked out. He cursed, but he did not leave on the spot because of his identity.

However, his current mood could be imagined, and he was extremely displeased.

Obviously, Marott could not prepare only one female boxer to participate in the competition, but this Italian girl was probably the strongest of all his players. Otherwise, he wouldn't have sent her to participate in this most important tournament.

It could be said that the biggest highlight of the entire auction was this diamond mine. Other mines were also very good, but the most profitable one was only this one.

Bobby was the last winner, and Lu Xinyang awarded the ten-year diamond mining license to Bobby.

This time, Yang Ming learned his lesson. The newly signed contract was only up to ten years. This was also beneficial for management and re-contracting. Moreover, these investors obviously welcomed this approach too.

Although it seemed that the situation in Country X was still good, who knew what would happen in the future? Maybe one day, a temporary regime would emerge, and their mines will be reclaimed again. As a result, their investment would be in vain.

This was something that everyone did not want to see. Of course, Yang Ming firmly believed that this would not happen again, but Yang Ming did not disclose much to these investors since he was supportive of the short term contracts as well.

In addition to this diamond mine, Bobby also invested in several other nearby mines. Of course, he did not want to worsen his relationship with Marott. He obviously understood that if he took it to the extreme, the results would be bad for him. If he won all the profitable mines, then he would become the public enemy of all investors.

Therefore, Bobby deliberately avoided Marott. He would not fight for the mines that Marlot wanted, except for the biggest diamond mine. At least, then Marott could get something.

Other small investors had also targeted the main mines that the two did not need. The size of these mines was relatively smaller, and the volume of production was not as high. Bobby and Marott were obviously not interested.

.....

“Father, the guy named Bobby is also involved in the bidding of the gold mine we want!” Li Tianjia frowned and looked at the amazing performance of Victoria on the stage.

All the opponents were defeated by her. Undoubtedly, Victoria would be the last winner for the next few matches. This kind of oppression inevitably made the Li Family anxious.

However, in fact, Yang Ming saw very clearly that Victoria’s previous damage from the Italian girl was not minor. Although it was on the back and was not a very important position, an injury was inevitable. Her status would more or less be affected.

Sure enough, Victoria did win the last few games but was not as swift as before. Although the result was good, Victoria inevitably suffered some damage during those matches.

“Is Li Lexin her opponent?” Li Tianyu was also anxious, and he blamed that his father was too conservative and careful. Li Zhichun had discussed with Li Tianjia and Li Tianyu previously. This time, their bidding would only be focused on the former iron mine and a gold mine near the iron mine.

Li Lexin also easily defeated the iron ore contenders. From the perspective of Li Lexin, she did not seem to be weaker than that Asian girl, so this was why Li Tianyu was depressed.

If Li Zhichun could listen to his advice and sowed a wide range of seeds, perhaps they would have obtained more mines now! Those muscular black female boxers, who were pleasant to the eyes but actually were useless, should not be Li Lexin’s opponents.

Now, all hope was placed on the last gold mine, and the competitors of the gold mine included Bobby. How could Li Tianyu not worry?

“Li Lexin should be fine.” Li Tianjia was now only comforting himself.

“Well, don’t say it. I understand what you both mean. This time, I made a mistake. I didn’t expect Li Lexin to be so capable. The black female boxers are not her opponents. If I knew that, we could have bid for a few more small mines.” Li Zhichun sighed. “However, the relationship between Yang Ming, Li Qiang, and General Kars are unclear. We should not be too eye-catching now, so as not to bring unnecessary trouble to ourselves.”

Thinking of the unclear relationship between Yang Ming, Li Qiang, and General Kars, Li Tianjia, and Li Tianyu’s chest were inexplicably shocked. Indeed, the one biggest problem was still left unsolved.

That was Yang Ming’s attitude.

They deceived Huang Xiaofei’s forty billion patacas from Yang Ming’s family. Would Yang Ming let them get away with it? From any point of view, Yang Ming would trouble them if he were an average person.

As Li Zhichun reflected upon himself, if he were put into Yang Ming’s shoes, he would also take this opportunity to look for trouble. So when Li Zhichun thought of it, he was a little annoyed. He did not care much about the success or failure of the bidding.

After all, it was still a major problem whether he could stand firm in Country X. It was too early to consider the gold mine. If Yang Ming insisted on revenge, even if he won a hundred gold mines, it would not help in the end.

Thinking of this, Li Tianjia and Li Tianyu no longer complained. After all, the current problem was very realistic.

At the end of the gold mine competition, Li Lexin advanced easily in the group just like when she was fighting for the iron mine; Victoria also successfully defeated her previous opponents.

Li Lexin, and Victoria, the two Asian girls, became the final limelight of the tournament.

In fact, up until this stage in the tournament, many people had more or less got the mines they wanted; almost everyone had a share. Although some were not ideal, it was still not too bad.

So now, most people treated this as though they were watching a movie, including Marott. In fact, in his heart, he hoped that Bobby would lose this match, and lose his face, then Marott could find a psychological balance.

“Just give up.” Yang Ming looked at Victoria and said to Bobby faintly.

“Give up? Why?” Bobby was stunned. He looked at Yang Ming with some doubts.

“Victoria is probably not the opponent of that person.” Yang Ming didn’t know Li Lexin’s name, because they only announced who they represented when introducing the contestants. Their names were ignored.

Yes, who cares about a slave who was forced by her owner to risk her life? Or, they were simply not human in the eyes of these investors.

Although Yang Ming was very helpless, he had no way to go about it. Even though he was very strong, he was not strong enough to change the rules of the game in this world.

In the land of North Africa, although Country X had become his private island, he could not change anything. This was a society that preyed on the weak. There was no fair or unfair.

Yang Ming sat here overlooking these investors. This was already unfair. Therefore, it was normal for these investors to look at their boxers from high above.

"Are you sure?" Bobby apparently felt that Victoria was invincible. "She has defeated all her opponents, including the Italian girl that Marott found."

"Yes, that's right." Yang Ming nodded. "However, Victoria was injured in that match. Now, she is running on fumes. She needs rest, not to continue fighting."

"Oh ? She needs rest?" Bobby seemed to hear something amusing.

Yang Ming shrugged. Yang Ming didn't try to change Bobby's thoughts because his thoughts were already ingrained in his mind, so Yang Ming did not try to explain it. He just said, "I am just giving you a kind reminder."

"Thank you, sir!" Bobby smiled.

The tournament started. Li Lexin also carefully observed Victoria previously. It seemed that Li Lexin was also aware of her injuries. Therefore, she was not eager to attack. She had to make sure whether Victoria was really injured, or she was deliberately baiting her.

Li Lexin's skills were not weak. Mysterious bosses had personally taught them some strange training methods to train them. The behind-the-scenes boss seemed only to know some theoretical knowledge. These theories were not just impractical knowledge but great wisdom. As long as one followed this training, he would get extraordinary results not long after.

Li Lexin was one of the beneficiaries. This was why they feared the boss behind-the-scenes from the bottom of their hearts.

Victoria seemed to smell the danger of Li Lexin. For other people, she was not as nervous as she was now, but now she was more cautious.

She was clear about her own affairs. The Italian girl's previous attack indeed hurt her a lot. Her back ribs might have fractured, but she still had no time to check on it and wrap it up.

When the referee waved the flag in his hand, the match officially began.

Li Zhichun's mood was very complicated now. The victory that he had longed for had become unimportant at this moment...

## **Chapter 1198: A Helpless Ending**

The finals finally started.

This was a small climax of this auction. The two Asian girls, who were looked down upon by many investors, had emerged as a new force. They won consecutively for their owners to have the final ownership of the mine.

Now, when both were pitted against each other, more people were willing to see an incredible fight instead of the final result. No one except Li Zhichun and Bobby would care who won.

Silence.

The entire venue was a quiet place whether it was in the ring or outside the ring.

Li Lexin and Victoria just stood there and looked at each other. No one made the first move, and both of them perhaps were probing each other.

However, Victoria was very clear about her situation. At this moment, if she could delay for a while, she would be able to recover a little more energy, and then she would have a higher chance of winning!

Li Lexin started the first round of attacks after observing for a long time. Obviously, she noticed that Victoria was now weak and was completely pushing through despite her fatigue, so Li Lexin acutely seized the opportunity.

She didn't want to give Victoria a chance to breathe. This state where "I won't move if the enemy doesn't move" could only give Victoria a chance to recharge, so Li Lexin started to attack.

Although Li Lexin was wearing the formal uniform of Muay Thai, her movements were not as rigid as her training, but they were very flexible and dexterous. Yang Ming felt that Li Lexin also had the potential to be an assassin because her vibe seemed to be similar to him.

Li Lexin's Muay Thai boxing was not only Thai boxing, but more of a Muay Thai posture. However, after Li Lexin's change, it had become a fierce killing move.

In terms of strength, Victoria was not inferior to Li Lexin. However, now, Victoria had fought numerous rounds and coupled with a back injury, she was entirely in a state of physical exhaustion. She was a spent force. All of this was noticed by Yang Ming.

Of course, this also did not escape Li Lexin's eyes. She held onto this and launched her attack without any scruples.

In the beginning, Victoria barely warded Li Lexin off, but in the face of Li Lexin's continuous strong offense, Victoria obviously couldn't resist anymore. In the ring, she began to retreat little by little. Her arms, chest, and legs were also inevitably hit repeatedly by Li Lexin.

In the beginning, the investors in the stands and Bobby himself thought that Victoria was still playing the game of a wolf in sheep's clothing. Just like when she was facing the Italian girl previously, she was waiting for the crucial moment to make a fatal strike!

However, this time, they were obviously wrong. Victoria's performance was completely out of their expectations. Victoria's face became pale from the initial indifference, and her eyes changed from the initial indifference to the current fierceness.

Yes, Victoria now understood her destiny. She was not Li Lexin's opponent. Maybe before the injury, no one was sure who would emerge the winner. But now, Victoria understood that it was a matter of time before she would lose.

The pale face was not because Victoria was afraid, but because she was really exhausted. The fierceness in her eyes reflected the true thoughts of her heart.

She was not reconciled! It was not because she was not capable, but her physical strength and injury did not allow her to play to her true level.

In fact, Victoria's heart was not as indifferent as she seemed. She was also a normal girl with a comfortable childhood and loving parents.

However, a family change made her an orphan, and she was adopted by an Egyptian from the orphanage. At that time, Little Victoria left the orphanage under the envious eyes of the orphans.

And Victoria herself thought she would have a happy future. However, the Egyptian did not raise her as a daughter as expected. Instead, he took her to a prison-like city, where there was a group of orphans like her!

From that day on, Victoria understood her destiny. She was trained as a killing machine. She had no future; she only lived in the present.

Stepping on the body of her companions, Victoria survived and practiced murderous skills. Then she was picked and bought by Bobby from the Egyptian, and continued to act as a killing machine.

Victoria thought about defecting and leaving Bobby, but she couldn't. When she received deadly training at the Egyptian's base, she was implanted with a chip that could track her position. It was actually a time bomb, and the remote control of the bomb was in Bobby's and the Egyptian's hand.

This indicated that her fate was either to die in the ring or to die in the hands of Bobby or the Egyptian. She was also not sure whether the remote was in Bobby's hands or in the Egyptian's hands.

*" Bang !"*

When Victoria's thoughts drifted, Li Lexin seized the opportunity and kicked Victoria's left chest. Victoria's entire body bounced back from the kick, and she fell heavily on the edge of the ring.

The huge infliction of severe damage made Victoria's entire body violently tremble. Her chest felt like it was smashed, making Victoria suffer.

At this moment, Victoria felt that death was coming, and death was in front of her eyes...

When Li Lexin saw this sharp blow had achieved results, she was overjoyed. She continued to attack. Before Victoria could climb up from the ground, she rushed toward Victoria again.

Victoria was not reconciled, but she couldn't help it. The explosive power before her death allowed her to resume her fighting spirit. At least, even if she died, she did not intend to let Li Lexin go.

So, as Li Lexin rushed toward Victoria, Victoria, who was lying on the ground, suddenly got up. She quickly lifted her head and banged it against Li Lexin's crotch.

This time, Victoria used her full strength, so she directly lifted Li Lexin's body up. Then, Li Lexin fell over on the platform in the ring.

Li Lexin screamed, and she almost burst into tears. She didn't expect Victoria, a dying person, actually to make such a sinister move! She used her head to bang against Li Lexin's vulva!

Li Lexin covered her crotch in pain and felt that her lower body was about to be crushed by Victoria! When Victoria saw that her counterattack was successful, she did not care about the pain in her body. She quickly rushed toward Li Lexin and punched Li Lexin's crotch again and again!

Although this move was somewhat sinister, and Victoria usually did not use it, at this moment, she had no other choice. With the idea of dragging the other down in the face of death, Victoria was almost crazy!

Victoria's fighting style shocked all investors around the ring. Even Bobby thought that Victoria was finished, and there would be no more opportunities. He regretted not listening to Yang Ming's advice to withdraw Victoria; at least, he would not lose face.

But now, Victoria suddenly reversed the situation and attacked Li Lexin like crazy. Although the move was a bit obscene, there were no rules in the competition, so it was entirely the player's own business to attack however they liked.

The angriest person at the moment was Li Zhichun. He originally thought that Li Lexin had already won, but he did not expect this unexpected event. Li Zhichun couldn't help himself from scolding and cursing as he watched his distant niece in pain in the ring!

*Isn't this too much of a bully? Can it be fought like this?* However, although Li Zhichun was upset, he couldn't say anything! If a man attacked Li Lexin like this, it was a bit immoral, but the other party was also a woman. This caused Li Zhichun to suffer in silence, having unspeakable bitter suffering.

Li Lexin certainly wouldn't be stupid enough to let Victoria continue to attack. This way, she would be crippled by Victoria! Therefore, Li Lexin endured the pain in her lower body and rushed toward Victoria!

The two people's bodies were entangled. Victoria was almost crazy, and Li Lexin almost became mad by Victoria's attack, so both of them couldn't wait to strangle each other to death. They were directly entangled in the ring!

The investors in the audience were once again dumbfounded. *What is this fighting style? Why does it feel like a street punk fight?*

In fact, this was an opportunity that the two people would not give each other!

The time was up... The referee raised the flag in his hand. The outcome could not be determined; the result was a draw.

However, this was already the best result Bobby could accept. At least, he did not lose.

Li Zhichun, on the other hand, was a bit sorrowful. To his surprise, Victoria turned the tide in the end. Moreover, she used such a wretched means to do so. This sounded too comical.

However, this was the result, Li Zhichun had to accept it. Moreover, he also heard of Bobby's reputable name. He knew how big Bobby's influence in Country X was, so even if Li Zhichun was not reconciled, he didn't dare to say anything.

Li Lexin stood up helplessly, and Victoria fell in the ring. She had completed her task. At least, she did not lose, right?

Several staff members began to clean up the mess in the ring. They put Victoria on a stretcher, and one of the doctor-like staff hurried to Bobby and whispered to him, "Sir, your boxer's situation doesn't seem optimistic... How should I deal with it?"

Bobby naturally saw Victoria's current situation. He frowned and asked, "Can she recover?"

"If it's to save her life, it may be possible... but if you want to recover her skills, I am afraid it is impossible..." The doctor said plainly, "She has multiple bone fractures and internal bleeding..."

"Then find a place to bury her!" Bobby listened to the doctor's words, waved his hand, and spoke blankly.

## **Chapter 1199: Panic**

"Okay, sir..." The doctor nodded. He witnessed too many of these events and had become accustomed to it. Although this practice of disregarding life was very uncomfortable, he had gotten used to everything over time.

"Wait!" Yang Ming waved his hand and frowned. "Give her the best treatment."

Although the doctor had not met Yang Ming, he noticed Yang Ming's seat was extraordinary. Next to General Kars and Li Qiang, the identity of this person would certainly not be low. Hence, the doctor could not ignore Yang Ming's suggestion. However, he looked to Bobby in difficulty.

He could not afford to offend these two people, so the doctor did not know who he should listen to.

"He is asking you to cure the patient. Didn't you hear it?" When General Kars saw the doctor being indifferent to Yang Ming's words, he was annoyed instantaneously! He always kept an eye on Yang Ming's movements, but he never said anything. Now came a moment when he needed to speak up, and he opened his mouth immediately.

"Yes!" The doctor knew General Kars' identity. Although Bobby was also very powerful, compared to General Kars, he could only choose to obey General Kars' order. Otherwise, he could give up his path in Country X.

"Mr. Bobby, do you mind if I do this?" Yang Ming glanced at Bobby and asked faintly. Although Yang Ming was not fond of Bobby's cold-bloodedness, Yang Ming could understand that Victoria was just a slave from his viewpoint. She was merely a tool who sold off her life. Bobby would not put the slaves' lives in his eyes.

"Of course, I don't mind!" Bobby had already noticed that Yang Ming's identity was unusual. Now that General Kars also spoke, Bobby was even more sure with this judgment. Hence, he naturally would not refuse Yang Ming's request. However, Bobby was somewhat baffled. He did not know why Yang Ming wanted to have this crippled Victoria. "But, sir, you have heard that she has been disabled. Even if she is healed, she can't participate in a tournament fight anymore..."

"Can you sell her to me?" Yang Ming didn't answer Bobby's words but just asked faintly.

" Oh ?" Bobby was stunned and immediately realized that he had asked too many questions which made Yang Ming displeased! So, he said quickly, "There is no need to sell. Since Mister likes her, I will give her to you!"

Bobby was not stupid. How would he dare to take Yang Ming's money? At the moment, he was worried about the lack of a legitimate reason to give a gift to Yang Ming, but now Yang Ming had opened his mouth and wanted a disabled slave. Bobby naturally had no reason to reject it!

As for what Yang Ming wanted from Victoria, it was Yang Ming's matter. Bobby thought, *The aesthetic view of Asians is perhaps different from that of Westerners. Yang Ming may be fond of Victoria as a woman.*

Of course, he just thought about it and didn't dare to say it.

"Thank you." Yang Ming nodded and said faintly, "So, as a reward, the last gold mine's management rights are all owned by you!"

" Ah !" Bobby was surprised and said immediately, "Thank you, sir, but will Li Zhichun agree?"

By looking at the information, Bobby already knew that Li Lexin represented Li Zhichun. According to regulations, Li Zhichun had half of the gold mining rights.

"He?" Yang Ming shrugged and didn't say anything.

Bobby was somewhat inexplicable. He didn't know what Yang Ming meant. "Sir, what do you mean?"

"It's not good to know too much." General Kars frowned as he glanced at Bobby and said, "If Li Zhichun disappears in a few days, don't be too surprised."

Bobby's heart shivered a little, not knowing how Li Zhichun had offended the counties of Country X, but he didn't dare to ask. He replied in fear and trepidation, "I'm sorry. I was too curious."

"Never mind." Yang Ming waved his hand as he didn't want to terrify Bobby.

The next few games were all small brawls. There was nothing to watch. Compared with the fierceness of Li Lexin and Victoria, the crowd naturally lost interest.

After the auction ended, Yang Ming did not even turn back his head. He took Huang Lele's hand and went straight into the lounge with General Kars and Li Qiang. Of course, this lounge belonged to the internal members. The external investors were not allowed to enter.

Li Zhichun looked at Yang Ming's back. He was somewhat inexplicably confused in his heart. If Yang Ming really stood in front of him, insulted him or looking for trouble from him at this auction, Li Zhichun

would find it reasonable. However, when Yang Ming did nothing and didn't even look at him, this created an enormous pressure that made Li Zhichun panic deep down in his heart.

"Yang Ming, the kid, seems very arrogant. Even this girl, Huang Lele, has become proud." Li Tianyu looked at Yang Ming's back, and his heart was very uncomfortable.

"Tianyu, don't talk indiscriminately here." Li Tianjia glanced at Li Tianyu. He lowered his voice and lectured, "In other's territory, be careful that the walls have ears."

"What are you afraid of?" Li Tianyu was a bit uncomfortable with Li Tianjia's reprimand. "Can he really do anything to us?"

"Anything? In the territory of the others, they can just do what they want?" Li Tianjia snorted.

"Okay, you two, don't fight!" Li Zhichun interrupted the quarrel between Li Tianjia and Li Tianyu. "Look at the situation. You both are still in a quarrel?"

Li Tianjia and Li Tianyu saw that their father was angry, and they quickly closed their mouths.

"Now, if Yang Ming is finding fault with us, it is normal!" Li Zhichun sighed. "I am just afraid that he will not find us trouble!"

"Father, how come you say that?" Li Tianjia did not understand what Li Zhichun meant.

"If you were Yang Ming, we have done so many things, including taking away his woman; do you think he will give up?" Li Zhichun asked.

Li Tianjia and Li Tianyu both shook their heads at the same time. Yes, the Li Family brought so much misery to the Huang Family. It would be strange if Yang Ming didn't retaliate.

"But now, Yang Ming's reaction has been very calm..." Li Zhichun pointed to the lounge and said.

"Calm... is that bad?" Li Tianyu was puzzled. "If he doesn't bother us, isn't it better?"

Li Zhichun waved his hand, "The horror of the unknown is the most terrible. I don't know when Yang Ming will retaliate against us. This feeling wears on like years."

"Father, maybe Yang Ming considers the big picture. Seeing that we are investors, he may have to give up on finding trouble from us." Li Tianjia analyzed in a positive manner.

"For the big picture?" Li Zhichun smiled and laughed at himself. "Are we considered investors?"

"We came here to invest, indeed!" Li Tianjia nodded and said.

"You also saw that there is no shortage of investors here. There is no need to worry that the mines will not be contracted out. Some people are rushing to wait in line. If we don't want it, there will be someone right away!" Li Zhichun said, "So, do you think Yang Ming will care about us? We don't play a big role in it. We have an iron mine and half of a gold mine, but it can be contracted to others in the blink of an eye!"

Li Zhichun's words made Li Tianjia and Li Tianyu, who were delighted for half of a gold mine and an iron mine, become depressed again. Li Zhichun analyzed correctly. Yang Ming would not bother with the Li Family.

The three gloomy people returned to the guest house in fear and trepidation. They locked themselves in the room, with no mood to do other things. They did not have the slightest happiness like other investors who obtained a mine.

Li Lexin's injury was not light, but she could not get a doctor for this kind of injury. Li Lexin was very depressed lying in the room, rubbing her private spot with her hand. *Isn't this Victoria too ruthless? We are both women, and yet you kick right at that spot...*

Li Zhichun expressed his condolences to Li Lexin, but he also understood that Li Lexin's injury could not be managed. He had to comfort Li Lexin, improve her remuneration, and let her feel at ease.

Li Lexin thought that Victoria would be dead for sure, so Li Lexin could feel a little refreshed. However, when she saw Victoria being rescued by the medical staff, instead of being wrapped in a bag and disposed of like the other slaves in the arena, it made Li Lexin's happy mood worsen again!

In her opinion, no matter what, Victoria was a slave. Even if she were rescued, it was hard to say whether she could stand up again like a normal person, let alone fight in the arena again!

However, there was still a person who rescued Victoria!

Li Lexin thought of it as her shame! There was no precedent of those who insulted and bullied her still living in this world! Li Lexin's heart also secretly buried the seeds of hatred, ready to kill Victoria to feel satisfied.

However, it was not now. Currently, Li Lexin had to recover from her injury. Won't there be an opportunity once she recovered?

.....

Yang Ming played with the remote control in his hand. The remote was sent by Bobby's men. It was said that it could detonate a bomb in Victoria. Yang Ming didn't expect that Victoria had such a bomb in her body.

Li Qiang and General Kars were somewhat puzzled. How did Yang Ming become interested in a female slave? However, the two of them did not ask anything. Since Huang Lele did not ask, why would they ask?

Therefore, for the things that Yang Ming commanded, they could only do it step by step. After doing it, they would accompany Yang Ming without saying a word.

"Mr. Yang, the item had been taken out of her body." General Kars took a small device in a sealed bag from the hands of his underling and handed it to Yang Ming.

"Is it this toy?" Yang Ming took the sealed bag and looked at its contents with interest. This was a tiny and precise instrument. He did not know whether it was a bomb or not.

**Chapter 1200: Victoria**

This was taken out by the doctor who was instructed by General Kars after he was commanded by Yang Ming. When Bobby told Yang Ming about this secret, Yang Ming gave instructions to the doctor who was doing surgery on Victoria.

Yang Ming's approach made Bobby very surprised. He thought that Yang Ming was crazy. Wouldn't he lose control over Victoria? Wouldn't Victoria, who did not have the bomb in her body, be unrestrained? Could Yang Ming control her?

In fact, only Yang Ming understood that it was not the best way to control a person. He should respect her first to let Victoria really do things for him sincerely. Of course, he must be stronger than her in other aspects such as his skills in order to subdue Victoria.

Of course, Bobby did not know that Yang Ming was an assassin, so he would have such an expression. However, Yang Ming couldn't tell Bobby about his own affairs. Therefore, Bobby could only understand that Yang Ming really valued Victoria, so he wanted to use this way to please Victoria and to conquer her heart.

"Do not worry, Mr. Yang. She is a virgin!" Bobby said. He had already learned of Yang Ming's name from General Kars and Yang Ming's high prestige identity.

Because when he asked General Kars in regards to Yang Ming's identity, General Kars only pointed to the sky and said, "Whether I can sit in this position depends on Mr. Yang's words."

This made Bobby horrified, and he didn't dare to ask further. He feared that the more he knew, the sooner he would die, so Bobby quickly told Yang Ming about the remote-controlled bomb in Victoria.

Now, he saw that Yang Ming was preparing to remove the bomb from Victoria, so Bobby could only think of such a reason. Although he also admitted that Victoria was very beautiful, she was still a slave no matter how beautiful she was!

The matter about Victoria's virginity was naturally told to him before by the Egyptian. Bobby did have an ill-intention on Victoria, but first, he felt that his aristocratic identity could not be related to a slave. Second, Victoria was a scary woman. Who dared to sleep with her? He could be killed in the middle of the night. Bobby felt a little creepy just thinking about it.

Yang Ming couldn't help but be a little amused after listening to Bobby's words. *Virgin? This guy really thought I took Victoria off his hands because of other ideas?*

"Hehe, I got it." Yang Ming nodded. Although it did not relate much to Yang Ming whether Victoria was a virgin or not, in his subconscious mind, Yang Ming also hoped that the bodyguard he found for Chen Mengyan and the others was a clean woman, rather than a person with a very messy private life.

"Hehe, Mr. Yang, I suggest you... just a personal suggestion. You shouldn't tell Victoria about the chip in her body being taken out..." Bobby hesitated, but he still persuaded, "You'd better establish a relationship with her before telling her. Victoria is really scary..."

Although Yang Ming thought that Bobby was speaking too much, Bobby was really speaking out with good intentions, so Yang Ming could not blame Bobby. He just smiled and said, "Thank you for your advice. I will keep that in mind."

Bobby also saw that Yang Ming said it with a smile, but his words were perfunctory, so he could not say anything more.

.....

Yang Ming sat on the sofa in the lounge and carefully observed the delicate instrument that was taken out of Victoria's chest.

The workmanship of the instrument was outstanding. It was made of titanium metal. This metal had a good affinity with the human body. It would not rust; it would not cause rejection symptoms once it was put in the human body; there would be no adverse reactions.

The production date was printed on the top of the instrument along with a large "KE" mark. This would probably be the manufacturer's trademark or something else.

However, Yang Ming's weakness was that he did not have anyone who could do technological research. He could not let his man do a careful study. Yang Ming was really not at ease if he had to let third-parties research for him.

It was not an easy task to create a technology empire. Yang Ming was not reborn in a web novel, so he was destined to be unable to embark on the path of a technology empire.

Although Yang Ming was now accumulating assets very quickly, he still could not get his hands on the most profitable IT industry, and it was impossible to get involved. He was self-aware and knew of the consequences of forcing his way into the industry.

It was obviously unrealistic to do high technology without a strong R&D team and talent in this aspect. Therefore, Yang Ming could only put this chip in his hand aside.

"How is Victoria?" Yang Ming glanced at the doctor, standing next to General Kars and asked.

The doctor looked at General Kars and looked at Yang Ming again, his eyes revealing a hint of trouble.

"What's wrong?" Yang Ming frowned. He was very dissatisfied with the attitude of General Kars' man.

"Just answer what Mr. Yang asked you. Why are you looking at me!?" General Kars was shocked, and he was mad at the doctor's move! Wasn't this obviously letting Yang Ming doubt him?!

Yang Ming was the owner of this land. If these people were listening to General Kars' words to do work, what would Yang Ming think? It would probably not be long before Yang Ming wanted to eliminate him.

"No..." The doctor was also shocked. He shook his head and said hesitantly, "Mr. Yang, General Kars, this is the case. Victoria's situation is not very good. The surgery is done, but her injury is too serious. She is now in a coma. It is still unknown whether she can wake up."

"Oh?" Yang Ming listened to the doctor's words and nodded faintly.

Yang Ming got Victoria from Bobby's hands and let the doctor treat her. Yang Ming naturally did not have a fondness for Victoria. Although Victoria had a great look with a charming wild nature on her, Yang Ming had too many fascinating women. Yang Ming was not a studhorse. It was impossible for him to love each person he met.

The real reason why Yang Ming wanted to keep Victoria was her Kung Fu. From the assault accidents of Lin Zhiyun, Zhou Jiajia, and Sun Jie, Yang Ming felt that the safety of his several girls was the most important thing. He must send an extraordinary bodyguard to protect their personal safety. Otherwise, Yang Ming would not be at ease doing things outside.

Although Yang Ming had a lot of people who had excellent skills, these people were all males. It was inconvenient for a man to be with a few girls. Chen Mengyan and the others would not agree, so this matter was delayed for the time being.

Therefore, Yang Ming had Li Qiang quickly adopt some orphans left by the war on the African side. Then, he would pick from these girls to do training. But this cycle was too long, it took at least two or three years. Yang Ming couldn't wait for such a long time. He still needed to find another way to solve his urgent needs.

In fact, Wang Xiaoyan was the best candidate, but Yang Ming could not let her protect Chen Mengyan. Let's not say whether Wang Xiaoyan would like to be the bodyguard of Yang Ming's other women. It was not even easy to get Chen Mengyan's permission. If Wang Xiaoyan's identity were exposed, it would be even worse.

And Victoria, who he met this occasion, was a good candidate. She had excellent skills and reaction ability, and she was a slave, so she was relatively easier to control.

Of course, as the doctor had explained, even if Victoria recovered from her injuries, she might lose her Kung Fu. Yang Ming did not agree with that idea instead. The doctor was only saying it out of common sense; he did not have an in-depth understanding of Victoria.

It could be said that Victoria's skill was not based on the real Kung Fu. She did not rely on the strength of the body to fight like some specialized players. She relied on techniques and skills.

It could be said that Victoria and Wang Xiaoyan were very similar. They were not good at long-lasting fights. They only relied on skills to win and achieve the goal of using one move to defeat the opponent.

Yang Ming was the same, but after all, he was once a punk too. He had some strength, but now he was using more skills; using brute force to fight was not very clever.

Therefore, once Victoria woke up, she could have extraordinary skills as long as she did some regular recovery training. People's reaction ability and skills could not be forgotten and changed.

As long as these were still there, even if Victoria's power was not as good as it was in the beginning, it did not matter. At most, her strength would be worse than the previous strength, but it would not be much worse.

Yang Ming also did some training before, so he knew about the assassin's matters. Yang Ming became an assassin without a solid foundation. Although Fang Tian said that he was talented, he did not start training from an early age after all.

Even so, Yang Ming still mastered the superb assassination skills in a short period. This also illustrated the importance of skills, while power was auxiliary and secondary.

“She is still in a coma?” asked Yang Ming.

“Yes, Mr. Yang.” The doctor said with respect.

“How likely is it for her to wake up?” asked Yang Ming.

“This... I can’t be certain...” The doctor sighed and said, “This can only depend on her own desire to survive. If her desire to survive is strong, she may be able to wake up; but if her desire to survive is not strong, she probably could not make it through tonight...”

“So tonight is the crucial night?” Yang Ming nodded after listening and asked.

“Yes, you can say that. If she hasn’t woken up tonight, the hope of waking up is slim.” The doctor said truthfully, “If the patient does not wake up, she will forever be in a dangerous state...”

Yang Ming muttered to himself and said, “Let’s go and visit her... *Hmm*, can we see her now?”
