

Sold To Alpha Isaac

Chapter 6:

Mac knew most of the things about our pack.. Though he is Beta by blood, he is the next Alpha in line to my father..

"It's because he is cornering us.. your father wants to send Alyana to him.. So that we can do our businesses smoothly without intervention.. And also get some money.." she gave me a viscous looke and walked to my side.. I folded my legs and moved back as terror filled my heart..

"Why are you still here? Do you think my son likes to sleep with a cheap girl like you?"

She likes to pull my hair and I should be used to it but hell no.. everytime she pulls it pained me like hell.. "Don't you like men.. . I hope Alpha Issac will satisfy you as much as you want...."

I didn't understand her sarcastic words as she dragged me away from Mac's room by hair..

"No..mom.. no please. Let me stay by my father's side..." I begged her all the way out to the corridor.. I don't want to leave my dad.. I don't want to be sold to an unknown pack..

"Your dad doesn't want you.. and we want you to be gone.." she pushed my head to the wall making my skin crack..

Dad doesn't want me!! I know it but still her words hurt my heart.. I am living for him because my mother asked me to take care of him if something happens to her in war.. I was bound to that promise till now but he forgot my mother long back I guess..

"Go wear the dress you were given and come down soon.." she said once she threw me out of his room.. She then called the maids up to clean her son's room..

I quickly covered myself before anyone in the pack house saw me.. my whole body was aching because of whipping and head was spinning...

I weakly stood up, walked with the help of railing and went to one of the maids' bathrooms.. that was where I generally bathe as I don't have a separate bathroom. I am equal to the maid in our pack house.. I have no one to rely on..

No one liked me and treated me like a burden though I tried to live like a ghost..

I stood under the shower and washed thoroughly till his scent was gone. I didn't touch my back and let water clean the blood stains... I flinched in pain and cried under the shower till someone knocked on my bathroom door..

One of the maids gave me the gown I should wear.. I was told it was my mother's gown which she wore on her 18th birthday.. and she told my father to pass it on to me on my big day.. Today is neither my 18th birthday nor my marriage..but still my father gave this to me which means he is determined to send me away.. With many thoughts running in my mind I wore that beautiful silk embroidered long frock in the common dressing room of maids and went to my room..

All the way everyone looked at me differently as if they had seen a ghost.. I ignored them and quickly went to my room only to regret..

Mac was sitting on my bed with a cigarette in his mouth.. I cursed myself for not waiting at dressing room till my stepmother called.. I tried to run away.. but he caught my hand...

On second thought... I remembered my stepmother's words.. 'She is sold to Alpha Isaac.. Don't you dare do anything to her...' Although he is an asshole, I don't think he would touch Alpha Isaacs' gift.. I heard he is a ruthless, cruel, powerful and cousin of Ronning Alpha King of our eastern region.. He even killed his own parents to get the throne..

All our neighboring packs should listen to his orders.. Any pack that revolts becomes his slaves in a few days.. He is such a capable person. Even to do any business we need to get his permission otherwise they will not survive.. I guess my father also wants to survive in the business world, so he sold me..

"Don't you dare look at me like that Alyana.. You might think I won't do anything to you just because you are Alpha Isaac's gift.. But remember you are nothing but a slut who will satisfy men in bed.." he smirked and pushed me to the wall..

"I will never do such things.." I gritted my teeth and said slowly.. I am sold as a maid.. So I won't let anyone touch me.. I will do my work like here and one day I will ask Alpha Isaac to let me go..

"Huh?" He laughed and walked close to me..

I looked at him in disgust and tried to run away but he caged me before saying.. "Do you think Alpha Isaac will listen to you? He is more cruel and evil than me.. Every maid and omega in that pack should sleep with him.. And will never let you go without satisfying himself..."

"I don't think so.. An alpha will never force his people to sleep with him.." Misty said trying to cool down my anxiety..

"You should have told me he is in my room.." I scolded her in my mind..

"I was listening to the people downstairs.. Go there soon..you can save yourself.."

His face was so close that it irritated me so much.. No one knew how much I wanted to punch him but I couldn't do it.. Just for my father's sake I have to bear his nuisance daily.. If I am not given a wolfbane periodically.. I am sure I can take him down in just a few seconds...

"Instead if you let me taste you.." I turned my head away when he tried to touch my cheek which triggered his anger.. He caught my chin tightly and made me look at him.. His grip would definitely leave marks on my face..

I controlled my tears and looked at j**k "I can talk with our father.. Even my mother will treat you properly.. How about..." his hand gripped my waist but I struggled to be free... I couldn't control myself anymore..I don't know from where I got strength but I said..
